Dedication

November 30, 2024

Happy Birthday, Faith.

INTRODUCTION

I have written so many variations of this introduction over the years, that my inspiration has been entirely spent. This time around I'm going to open with,

"Thank you for being here with me."

The last time I attempted to put this eCatalogue together, it was 2016, and the most I could manage was a simple pricelist with a few cover images included. It was accompanied by a gargantuan book of covers – both of which were lost when the website was vandalized by malware.

Published in tandem with the **Theophania.Ca** website relaunch, subscribers will be presented with a Quarterly eCatalogue, announcing new titles, limited time offers, and insider exclusives.

I have also published a full-color, 8.5 X 11 paperback edition, which will be available for sale just after Christmas 2024 for $39.99 USD +Sh&H. It is available upon request by contacting me directly at TheophaniaPublishing@Gmail.Com or via telephone at (587)700-6575 (12:00PM – 5:00PM MST) or via Amazon.Com.

And, with hope for the future …

AN INVITATION …

THEOPHANIA NEEDS

BRAND AMBASSADORS

This collection has been in the works since 2003. It would not have been possible without the assistance of, and encouragement by my wonderful friends, family and patrons.

I would appreciate hearing your thoughts on a few promotional and marketing opportunities that I've been contemplating, which would require a team to help make them realities.

The first concept is a **Distribution Program** which will compensate "Independent Sales Representatives" with a commission from direct sales to their own community as a side gig, or by engaging with commercial customers if they are more ambitious.

The second concept is a **Sponsorship Program** which would help Podcasters, Bloggers, Vloggers, and Social Media Influencers monetize their programs through an automated Affiliate Marketing system.

Finally, I am hoping to find someone with a little social media finesse and some technological know-how to help implement these ideas. I have some thoughts, but nothing tangible, and certainly not enough resources to get the ball rolling on my own.

Interested minds and friends with ideas are welcome to contact me directly at TheophaniaPublishing@Gmail.Com

"Ants and Cherries" Artist Journal ...

By Sara Perry-Din

200 pages, $20.24 USD, ISBN: 1985724987

Sara Perry-Din is a Calgary raised, Montreal born artist. She's graduating from the Alberta College of Art and Design with a BFA in metals and jewellery in 2019. In her work, Sara identifies ownership, beauty in unsuspecting places, and communicates visually peoples' emotions through objects. Sara identifies as a craftsperson and works predominantly in sterling silver, brass, and bronze. She uses her drawing and painting background to translate those aesthetic choices into her metalwork. In her production line, these aesthetic decisions are the most predominant as each piece is completely unique and will never be recreated.

"Inexhaustible" Artist Journal ...

By Jarid Champagne

200 pages, $20.24 USD, ISBN: 1985723883

"Inexhaustible" In the beginning this work was meant to depict how an idea manifests through an artist (at least through this artist). Ultimately however, it came to represent much more than that to me, as these works often do I suppose. While usually I'm not one for describing the particulars of a work directly, in this instance I feel that it is warranted. As the Artist sits painting its own universe, the ideas formed from the workings of the superficial mind, fall by its feet (seen in broken light bulbs). When those ideas are let go of, a much stronger creative force is allowed to manifest through the Artist. This force is inexhaustible, and while most of us paint a black and white portrait of what has been or what we wish to be, it remains within each of us, waiting with eternal patience and grace for us to let go of ourselves.

"The Allowening" Artist Journal ...

By Jarid Champagne

200 Pages, $20.24 USD, ISBN: 198572328X

"The Allowening" This work is a visual manifestation of the ironic role that the mind plays in restricting the intelligence of life. No thought is required for the unfolding of the magnificent array of systems that work in concert for you to exist, just as no thought is required for the execution of the experiences of your life. When a person allows life to unfold rather than clinging to it, and learns the lessons of pain while enjoying the beauty of pleasure, the true magnificence of being is revealed.

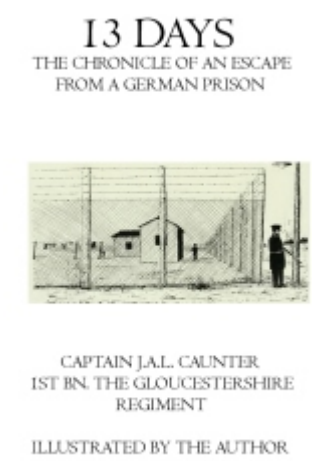
"Venus" Artist Journal ...

By Jarid Champagne

200 Pages, $20.24 USD, ISBN: 1985723905

Venus is a representation of the intelligence of the Universe, or what some may call Life, or God. That intelligence transcends the relatively minor intelligence of the human mind. In this case the Universal intelligence is represented by the butterfly. The eye pattern allows him to see beyond the trappings that are created by the superficial human mind. That superficiality is displayed by the rigid and fading wooden Venus fly trap. Its roots are shallow and no light shines from its window. The butterfly moves freely and is not taken in by complicated illusion.



13 Days: The Chronicle of an Escape...

By Captain J.A.L. Caunter

114 Pages, $16.24 USD, ISBN: 1770831118

On placing before the public this account of my escape from Germany and some episodes from my life in two prison camps, I feel that I must make clear that it was only due to the fact that I had two definite supplementary objects to attain, that I succeeded in making myself launch out in the following pages. The first of these objects is to add my quota to the information before the public relating to the treatment and existence of those who, in prisons in Germany, have suffered and are suffering for their country. My second object is to try to throw a little light on the marvellous spirit of the prisoners as a whole. Think what it means to be shut up for years under such conditions.

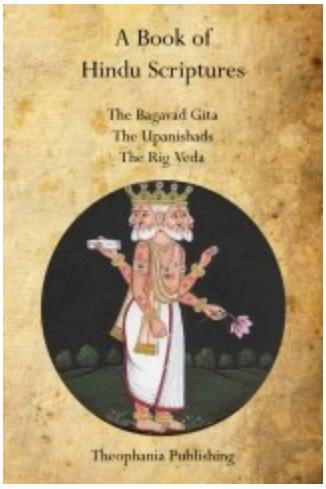
A Ball Player's Career,
By Adrian C. Anson
520 Pages, $28.25 USD, ISBN: 1981341749
The town of Marshalltown, the county seat of Marshall County, in the great State of Iowa, is now a handsome and flourishing place of some thirteen or fourteen thousand inhabitants. I have not had time recently to take the census myself, and so I cannot be expected to certify exactly as to how many men, women and children are contained within the corporate limits. At the time that I first appeared upon the scene, however, the town was in a decidedly embryonic state, and outside of some half-dozen white families that had squatted there it boasted of no inhabitants save Indians of the Pottawattamie tribe, whose wigwams, or tepees, were scattered here and there upon the prairie and along the banks of the river that then, as now, was not navigable for anything much larger than a flat-bottomed scow.

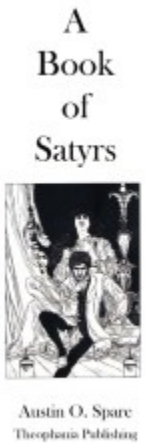


A Book of Hindu Scriptures: The Bagavad Gita, The Upanishads, The Rig Veda, Translated

By William Q. Judge

738 Pages, $35.24 USD, ISBN: 1770831908

The Bagavad Gita is a conversation between Lord Krishna and the Pandava prince Arjuna taking place on the battlefield before the start of the Kurukshetra War. Responding to Arjuna's confusion and moral dilemma about fighting his own cousins, Lord Krishna explains to Arjuna his duties as a warrior and prince, and elaborates on different Yogic and Vedantic philosophies, with examples and analogies. This has led to the Gita often being described as a concise guide to Hindu theology and also as a practical, self-contained guide to life. The Rigveda is an ancient Indian sacred collection of Vedic Sanskrit hymns. It is counted among the four canonical sacred texts of Hinduism known as the Vedas. The Rigveda contains several mythological and poetical accounts of the origin of the world, hymns praising the gods, and ancient prayers for life, prosperity, etc.

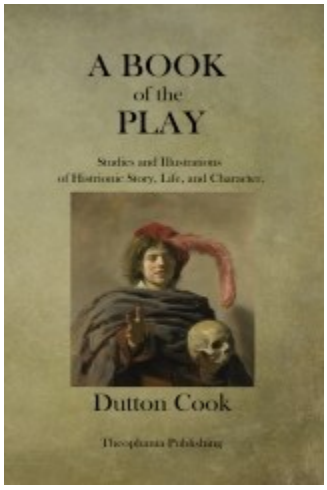


Book of Satyrs,

By Austin O. Spare

32 Pages, $16.24 USD, ISBN: 1477614516

A richly illustrated book of images. Some of Spare's techniques, particularly the use of sigils and the creation of an "alphabet of desire" were adopted, adapted and popularized by Peter J. Carroll in the work Liber Null & Psychonaught. One interpretation is that it is a form, style, or school of magic inspired by Spare. It focuses on one's individual universe and the influence of the magician's will on it. While the Zos Kia Cultus has very few adherents today, it is widely considered an important influence on the rise of chaos magic.

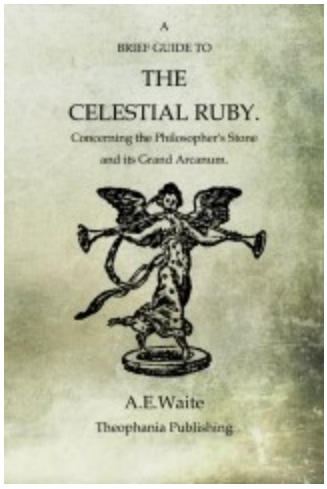


A Book of the Play,

By Dutton Cook

464 Pages, $27.25 USD, ISBN: 1979184968

The man who, having witnessed and enjoyed the earliest performance of Thespis and his company, followed the travelling theatre of that primeval actor and manager, and attended a second and a third histrionic exhibition, has good claim to be accounted the first playgoer. For recurrence is involved in playgoing, until something of a habit is constituted. And usually, we may note, the playgoer is youthful. An old playgoer is almost a contradiction in terms. He is merely a young playgoer who has grown old. He talks of the plays and players of his youth, but he does not, in truth, visit the theatre much in his age; and invariably he condemns the present, and applauds the past.

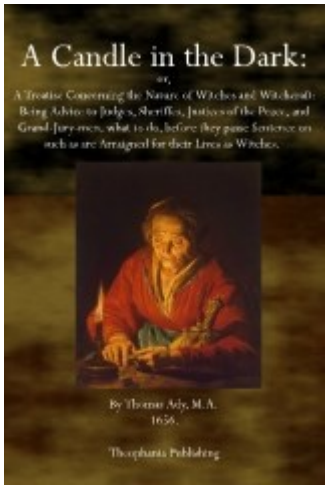


A Brief Guide To The Celestial Ruby...

By A. E. Waite

34 Pages, $16.24 USD, ISBN: 146802535X

THE Philosopher's Stone is a certain heavenly, spiritual, penetrative, and fixed substance, which brings all metals to the perfection of gold or silver (according to the quality of the Medicine), and that by natural methods, which yet in their effects transcend Nature. It is prepared from one substance, with which the art of chemistry is conversant, to which nothing is added, from which nothing is taken away, except that its superfluities are removed. No one will question the utility of our Art, if he believes that it enables us to transmute base metals into gold.

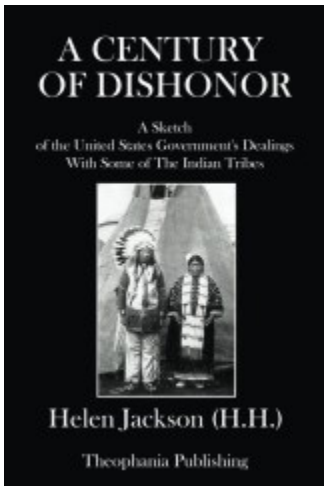


A Candle in the Dark: A Treatise Concerning the Nature of Witches and Witchcraft

By Thomas Ady

162 Pages, $17.24 USD, ISBN: 1770830413

The Grand Errour of these latter Ages is ascribing power to Witches, and by foolish imagination of mens brains, without grounds in the Scriptures, wrongfull killing of the innocent under the name of Witches; unto which Idolatry and bloud-guiltiness (being as bad, or worse than the Idolatry of the ancient Heathen) men are led as violently by fond imagination, as were the Ephesians to the worshipping of Diana, and of the Image which (as they blindly thought) fell down from Jupiter, Acts 19. 35. It is reported by Travellers, that some People in America do worship, for a day, the first living Creature they see in the morning, be it but a Bird, or a Worm; this Idolatry is like the Idolatry of this part of the World, who when they are afflicted in Body, or Goods, by Gods hand, they have an eye to some Mouse, or Bugg, or Frog, or other living Creature, saying, It is some Witches Impe that is sent to afflict them, ascribing the Work of God, to a Witch, or any mean Creature rather than to God.

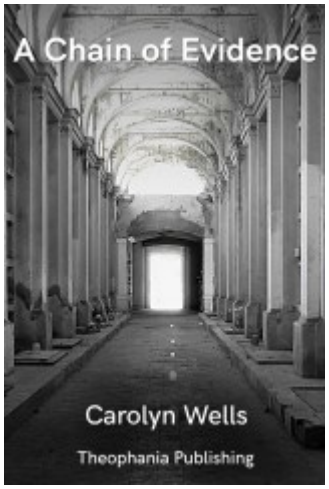


A Century of Dishonor

By Helen Jackson H.H.

634 Pages, $32.25 USD, ISBN: 1979185174

"Every human being born upon our continent, or who comes here from any quarter of the world, whether savage or civilized, can go to our courts for protection—except those who belong to the tribes who once owned this country. The cannibal from the islands of the Pacific, the worst criminals from Europe, Asia, or Africa, can appeal to the law and courts for their rights of person and property—all, save our native Indians, who, above all, should be protected from wrong." —GOV. HORATIO SEYMOUR



A Chain of Evidence
By Carolyn Wells
342 Pages, $23.25 USD, ISBN: 1981559035
I do hate changes, but when my sister Laura, who keeps house for me, determined to move further uptown, I really had no choice in the matter but to acquiesce. I am a bachelor of long standing, and it's my opinion that the way to manage women is simply to humor their whims, and since Laura's husband died I've been rather more indulgent to her than before. Any way, the chief thing to have in one's household is peace, and I found I secured that easily enough by letting Laura do just as she liked; and as in return she kept my home comfortable and pleasant for me, I considered that honors were even.

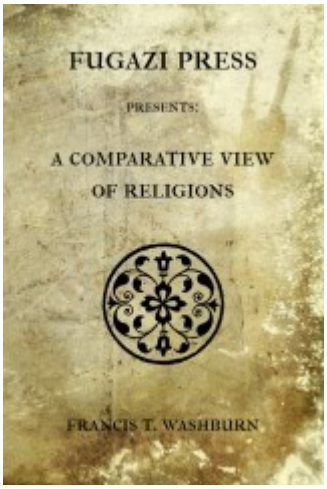
A Coin of Edward VII

By Fergus Hume

440 Pages, $26.25 USD, ISBN: 1981812105

Two old ladies sat in the corner of the drawing-room. The younger—a colonial cousin of the elder—was listening eagerly to gossip which dealt with English society in general, and Rickwell society in particular. They presumably assisted in the entertainment of the children already gathered tumultuously round the Christmas tree, provided by Mr. Morley; but Mrs. Parry's budget of scandal was too interesting to permit the relaxing of Mrs. McKail's attention. "Ah yes," said Mrs. Parry, a hatchet-faced dame with a venomous tongue and a retentive memory, "Morley's fond of children, although he has none of his own."

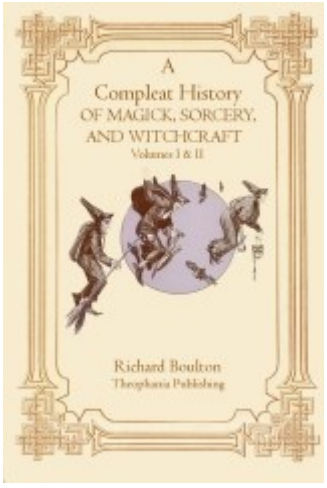


A Comparative View of Religions

By J. H. Scholten

46 Pages, $16.24 USD, ISBN: 1477453679 FUGAZI PRESS

The conception of religion presupposes, a, God as object; b, man as subject; c, the mutual relation existing between them. According to the various stages of development which men have reached, religious belief manifests itself either in the form of a passive feeling of dependence, where the subject, not yet conscious of his independence, feels himself wholly overmastered by the deity, or the object of worship, as by a power outside of and opposed to himself; or, when the feeling of independence has awakened, in a one-sided elevation of the human, whereby man in worshiping a deity deifies himself.

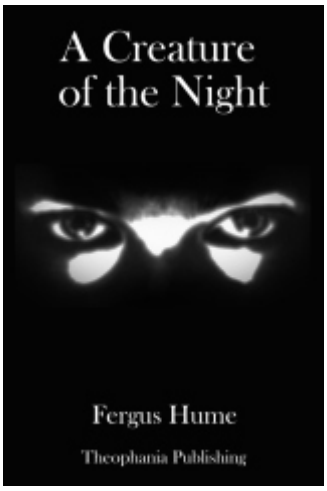


A Compleate History of Magick, Sorcery and Witchcraft

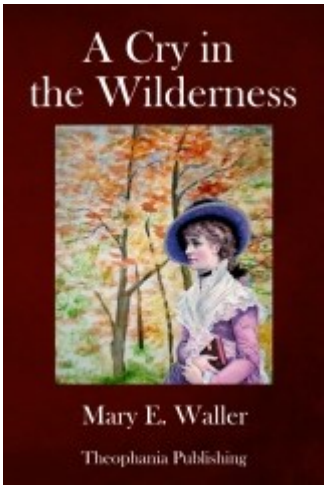
By Richard Boulton

448 Pages, $40.24 USD, ISBN: 1770831606

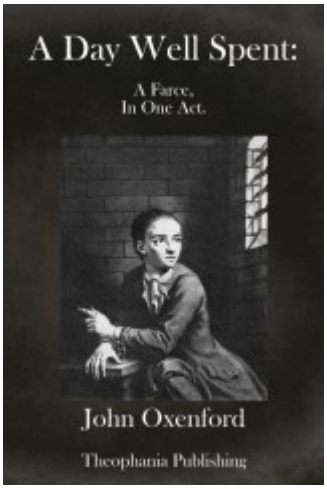
THE following Sheets containing a History of Magick, Sorcery, Witchcraft, Apparitions, Spectres, &c. we think it requisite to give the Reader a brief Account of the Nature and Usefulness of our Design in the first place; and (since they may fall into the Hands both of the Learned and Unlearned, some of which are apt to question Truths, though most sacred and never so well attested,) having represented the Design and Usefulness of this Treatise, we shall in the next Place offer something to confirm the Belief and Credit of Histories so well attested. And First to represent the Nature of our Design we shall briefly lay down the Method we have taken in this History, and give the Reader a short Account of what he may expect to find in the ensuing Sheets.



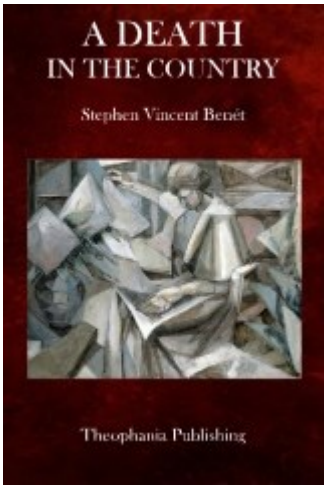
A Creature of the Night
By Fergus Hume
278 Pages, $21.25 USD, ISBN: 1981812369
I think it is Lord Beaconsfield who, in one of his brilliant stories, makes the clever observation that "adventures are to the adventurous," and certainly he who seeks for adventures even in this prosaic nineteenth century will surely succeed in his quest. Fate leads him, chance guides him, luck assists him, and although the adventure supplied by this trinity of circumstances may be neither so dangerous nor so picturesque as in the time of Borgia or Lazun, still it will probably be interesting, which after all is something to be grateful for in this eminently commonplace age of facts and figures. Still, even he who seeks not to prove the truth of Disraeli's aphorism, may, after the principle of Mahomet's mountain, have the adventure come to him, without the trouble of looking for it, and this was my case at Verona in the summer of 18--.



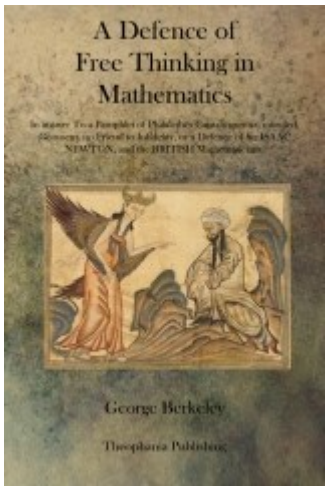
A Cry in the Wilderness
By Mary E. Waller
614 Pages, $31.25 USD, ISBN: 1981342893
"You Juggernaut!" That's exactly what I said, and said aloud too. I was leaning from the window in my attic room in the old district of New York known as "Chelsea"; both hands were stemmed on the ledge. "You Juggernaut of a city!" I said again, and found considerable satisfaction in repeating that word. I leaned out still farther into the sickening September heat and defiantly shook my fist, as it were into the face of the monster commercial metropolis of the New World. I felt the blood rush into my cheeks—thin and white enough, so my glass told me. Then I straightened myself, drew back and into the room.



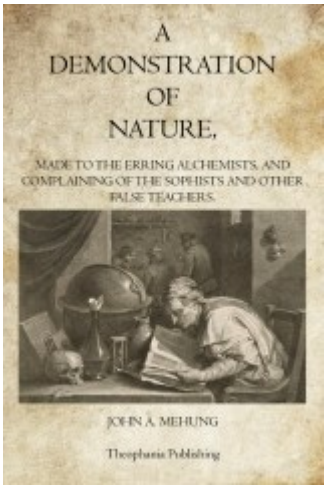
A Day Well Spent: A farce in one act
By John Oxenford
54 Pages, $16.25 USD, ISBN: 1979202397
Provoking! to leave my shop all day for the sake of calling on this old Wealthington!—that I should be required to call on him!—not but he is a rich relation, and I have great expectations from him; and my foreman, Bolt, and apprentice Mizzle, are quite fit persons with whom to entrust my shop. Egad, to make all the naughty apprentices look on those two young men would be as good a lesson as going to see George Barnwell on a boxing night! Enter CUTAWAY, C. D. CUT. Hollo! no one in the shop! ha, ha!—(Aside.) Hum, she's not here.—Have you anything to sell, old gentleman?



A Death in the Country
By Stephen Vincent Benét
28 Pages, $16.24 USD, ISBN: 1516987705
AFTER the years, Tom Carroll was going back to Waynesville—to stand by a kinswoman's grave, in the country of his youth. The names of the small, familiar stations were knots on a thread that led back into the darkness of childhood. He was glad Claire had not come. She hated death and memories. She hated cramped, local trains that smelled of green plush and cinders. Most of all she would hate Waynesville, even in mid-September and the grave light of afternoon. Well, he wasn't looking forward to a pleasant time. He felt fagged and on edge already. There was work for the active partner of Norman, Buckstone, and Carroll in his brief-case, but he could not get down to the work. Instead he remembered, from childhood, the smell of dyed cloth and poignant, oppressive flowers, the black wisp tied on the knocker, the people coming to the door.



A Defence of Free Thinking in Mathematics...
By George Berkeley
42 Pages, $16.24 USD, ISBN: 1770833064
When I read your Defence of the British Mathematicians, I could not Sir, but admire your Courage in asserting with such undoubting Assurance things so easily disproved. This to me seemed unaccountable, till I reflected on what you saywhen upon my having appealed to every thinking Reader, whether it be possible to frame any clear Conception of Fluxions, you express your self in the following manner, “Pray sir who are those thinking Readers you appeal to? Are they Geometricians or Persons wholly ignorant of Geometry? If the former I leave it to them: if the latter, I ask how well are they qualified to judge of the Method of Fluxions?”



A Demonstration of Nature
By John A. Mehung
44 Pages, $16.24 USD, ISBN: 1770833579
GOOD heavens, how deeply I am often saddened at seeing the human race, which God created perfect, in His own image, and appointed to be the lords of the earth, depart so far away from me! I allude more particularly to you, O stolid philosophaster, who presume to style yourself a practical chemist, a good philosopher, and yet are entirely destitute of all knowledge of me, of the true Matter, and of the whole Art which you profess! For, behold, you break vials, and consume coals, only to soften your brain still more with the vapours. You also digest alum, salt, orpiment, and atrament; you melt metals, build small and large furnaces, and use many vessels: nevertheless, I am sick of your folly, and you suffocate me with your sulphurous smoke.

DIALOGUE IN HADES.
A PARALLEL OF MILITARY ERRORS, OF WHICH THE FRENCH AND ENGLISH ARMIES WERE GUILTY, DURING THE CAMPAIGN OF 1759, IN CANADA.

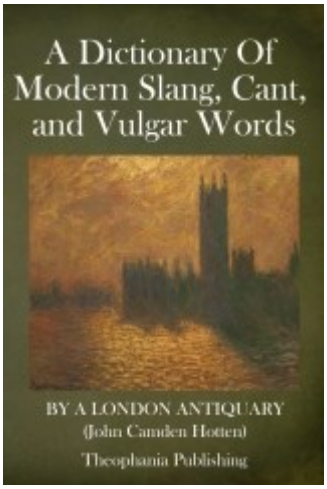
THEOPHANIA PUBLISHING

A Dialogue in Hades

By James Johnstone

66 Pages, $16.24 USD, ISBN: 1516987691

In 1748, says Francisque Michel, “he sailed from Rochefort as an Ensign with troops going to Cape Breton; he continued to serve in America until he returned to France, in December, 1760, having acted during the campaign of 1759, in Canada, as aide-de-camp to Chevalier de Levis. On Levis being ordered to Montreal, Johnstone was detached and retained by General Montcalm on his staff, on account of his thorough knowledge of the environs of Quebec, and particularly of Beauport, where the principal works of defence stood, and where the whole army, some 11,000 men, were entrenched, leaving in Quebec merely a garrison of 1500.

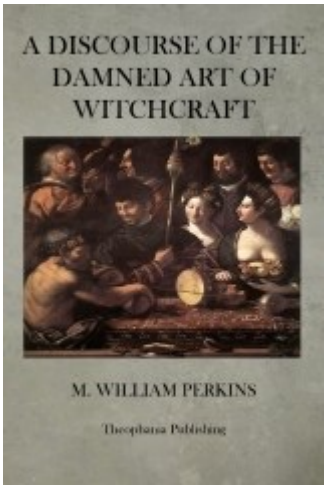


A Dictionary Of Modern Slang, Cant, and Vulgar Words

By John Camden Hotten

338 Pages, $23.25 USD, ISBN: 1979202834

CANT and SLANG are universal and world-wide. Nearly every nation on the face of the globe, polite and barbarous, may be divided into two portions, the stationary and the wandering, the civilised and the uncivilised, the respectable and the scoundrel,—those who have fixed abodes and avail themselves of the refinements of civilisation, and those who go from place to place picking up a precarious livelihood by petty sales, begging, or theft. “not only are all races divisible into wanderers and settlers, but that each civilised or settled tribe has generally some wandering horde intermingled with, and in a measure preying upon it.”

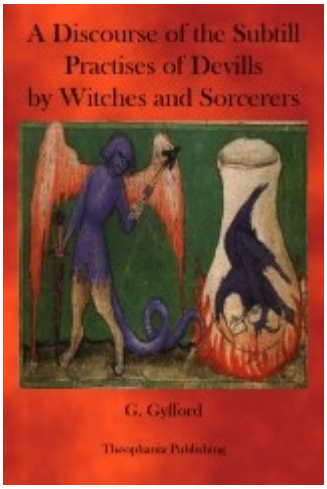


A Discourse of the Damned Art of Witchcraft

By M. William Perkins

134 Pages, $17.24 USD, ISBN: 1470073617

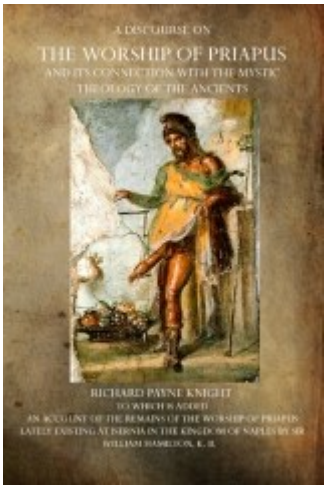
"Thou shalt not suffer a Witch to live." EXOD. 22. 18. This Text containeth one of the Judiciall Lawes of Moses touching the punishment of Witchcraft: which argument I have chosen to entreat of, for these causes: First, because Witchcraft is a rife and common sinne in these our daies, and very many are intangled with it, beeing either practitioners thereof in their owne persons, or at the least, yeelding to seeke for helpe and counsell of such as practise it. Againe, there be sundry men who receive it for a truth, that Witchcraft is nothing else but a meere illusion, and Witches nothing but persons deluded by the devil...



A Discourse of the subtill Practise of Devills
By Witches and Sorcerers
By G. Gyfford

68 Pages, $16.24 USD, ISBN: 1470073684

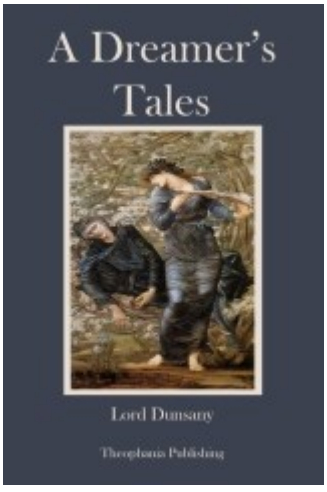
THE sacred Scriptures (right worshipful) both of the olde and new Testament, do speake in sundrie places of Witches, Conjurers, and Sorcerers, and that such doings are in high detestation before God: but what these can do few of the vulgar sort do rightly understand. For the most part do ascribe unto them very foolishly, such power and efficacie in working, as in deede the devil is not able to perform, though God should enlarge his chaine and give him full scope, to doe all that he desireth. Againe, some few are of the minde that what soever is spoken in the holy Scriptures, or in other writers concerning things wrought by such kinds of people, it was not done by the devill, but was a mere craft and cozenage of the deceiptfull men and women, which have taken upon them such matters.



A Discourse on the Worship of Priapus
By Richard Payne Knight

124 Pages, $16.24 USD, ISBN: 1770832572

In the meantime I send you the following account, which, I flatter myself, will amuse you for the present, and may in future serve to illustrate those proofs. I had long ago discovered, that the women and children of the lower class, at Naples, and in its neighbourhood, frequently wore, as an ornament of dress, a sort of Amulets, (which they imagine to be a preservative from the mal occhii, evil eyes, or enchantment) exactly similar to those which were worn by the ancient Inhabitants of this Country for the very same purpose, as likewise for their supposed invigorating influence; and all of which have evidently a relation to the Cult of Priapus.



A Dreamer's Tales
By Lord Dunsany

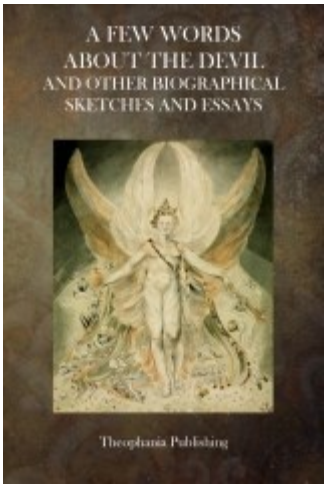
A Feast of Meaning: Liminal Initiation and the Restructuring of Identity
By Robert L. Angus

34 Pages, $13.83 USD, ISBN: B0BRQ8D88J

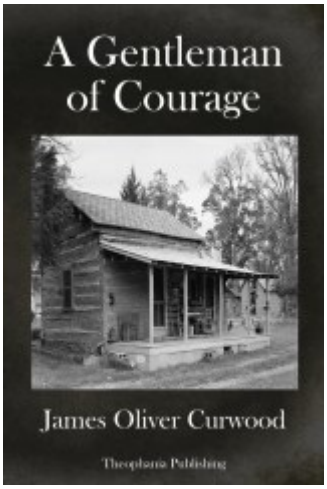
A Short collection of poetry and stories inspired by the liminal moments between this and that, from sooner to later, and promises of inevitable otherness. The fae world is said to be found in spaces between one place and other, one foot in the water, one placed firmly on the ground, the moment where today becomes tomorrow, the cusp of states, the transitional element, itself disorienting and evidenced by anxiety, excitement, or fear.



A Few Words About the Devil: and Other Biographical Sketches and Essays
By Charles Bradlaugh

242 Pages, $20.24 USD, ISBN: 1497463874

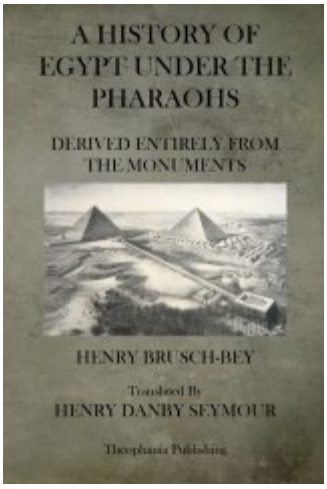
To have written under this head in the reign of James Rex, of pious memory, would have, probably, procured for me, without even the perusal of my pamphlet, the reputation of Dr. Faustus. I profess, however, no knowledge of the black art, and am entirely unskilled in diablerie, and feel quite convinced that the few words I shall say about his Satanic Majesty will not be cause of any unholy compacts in which bodies or souls are signed away in ink suspiciously red.



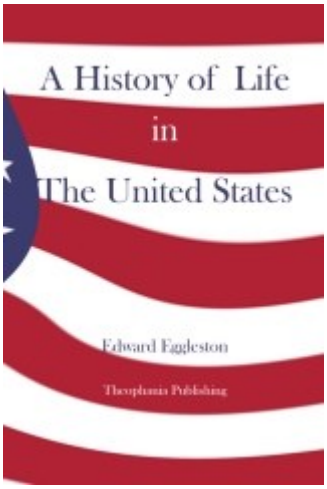
A Gentleman of Courage: A Novel of the Wilderness
By James Oliver Curwood

426 Pages, $25.25 USD, ISBN: 1979023050

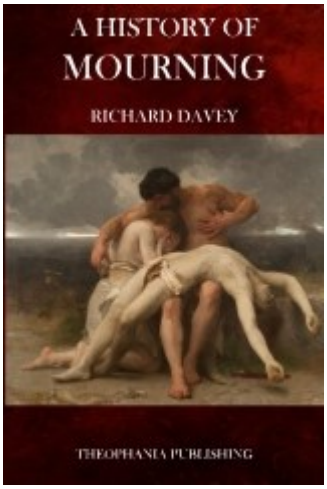
Pierre Gourdon had the love of God in his heart, a man's love for a man's God, and it seemed to him that in this golden sunset of a July afternoon the great Canadian wilderness all about him was whispering softly the truth of his faith and his creed. For Pierre was the son of a runner of the streams and forests, as that son's father had been before him, and love of adventure ran in his blood, and romance, too; so it was only in the wild and silent places that he felt the soul in him attuned to that fellowship with nature which the good teachers at Ste. Anne de Beaupré did not entirely approve. Nature was Pierre's God, and would ever be until he died.



A History of Egypt Under the Pharaohs
By Henry Brusch-Bey
776 Pages, $36.24 USD, ISBN: 1475067321
The History of Egypt now offered to the English reader is distinguished in two respects from the long train of able and interesting works, which, in opening to the last and the present generations the life and story of the Old Egyptians, as by a new revelation, have at the same time thrown a clear and vivid light on many portions of Holy Scripture. The work is as unique in the competence of its Author as in the originality of its design.



A History of Life in The United States
By Edward Eggleston
252 Pages, $17.24 USD, ISBN: 1480080683
In this work, brought to completion after many years of patient research, I have sought to trace from their source the various and often complex movements that resulted in the early English settlements in America, and in the evolution of a great nation with English speech and traditions. It has been my aim to make these pages reflect the character of the age in which the English colonies were begun, and the traits of the colonists, and to bring into relief the social, political, intellectual, and religious forces that promoted emigration. This does not pretend to be the usual account of all the events attending early colonization; it is rather a history in which the succession of cause and effect is the main topic a history of the dynamics of colony-planting in the first half of the seventeenth century.



A History of Mourning
By Richard Davey
158 Pages, $17.24 USD, ISBN: 1516987608
ALTHOUGH tradition has not informed us whether our first parents made any marked change in their scanty garments on the death of their near relatives, it is certain that the fashion of wearing mourning and the institution of funereal ceremonies and rites are of the most remote antiquity. Herodotus tells us that the Egyptians over 3,000 years ago selected yellow as the colour which denoted that a kinsman was lately deceased.

A History of Sanskrit Literature
By Arthur A. Macdonell Ph. D.
424 Pages, $25.24 USD, ISBN: 1497464323
It is undoubtedly a surprising fact that down to the present time no history of Sanskrit literature as a whole has been written in English. For not only does that literature possess much intrinsic merit, but the light it sheds on the life and thought of the population of our Indian Empire ought to have a peculiar interest for the British nation. Owing chiefly to the lack of an adequate account of the subject, few, even of the young men who leave these shores every year to be its future rulers, possess any connected information about the literature in which the civilisation of Modern India can be traced to its sources, and without which that civilisation cannot be fully understood.

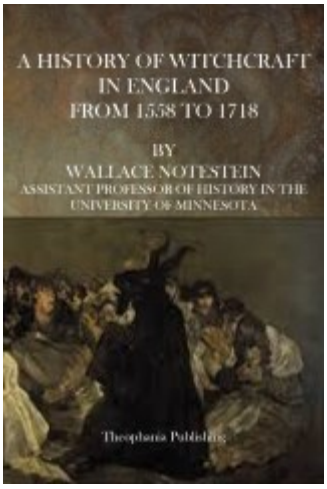
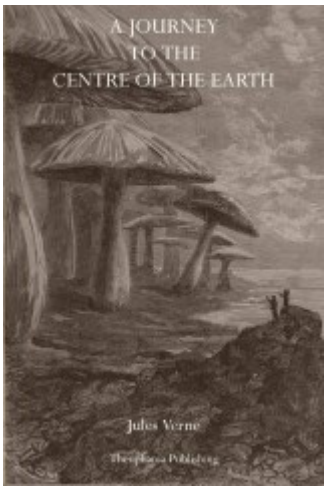
THE history of the Inquisition naturally divides itself into two portions, each of which may be considered as a whole. The Reformation is the boundary-line between them, except in Spain, where the New Inquisition was founded by Ferdinand and Isabella. In the present work I have sought to present an impartial account of the institution as it existed during the earlier period. For the second portion I have made large collections of material, through which I hope in due time to continue the history to its end.



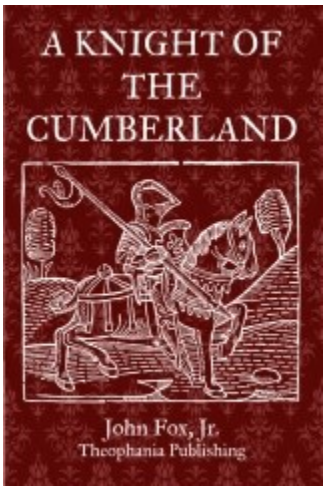
A History of Witchcraft in England from 1558 to 1718
By Wallace Notestein
368 Pages, $25.24 USD, ISBN: 1500746479

It has been said by a thoughtful writer that the subject of witchcraft has hardly received that place which it deserves in the history of opinions. There has been, of course, a reason for this neglect—the fact that the belief in witchcraft is no longer existent among intelligent people and that its history, in consequence, seems to possess rather an antiquarian than a living interest. No one can tell the story of the witch trials of sixteenth and seventeenth century England without digging up a buried past, and the process of exhumation is not always pleasant. Yet the study of English witchcraft is more than an unsightly exposure of a forgotten superstition.



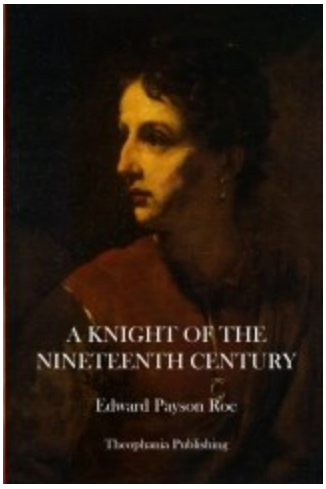
A Journey to the Center of the Earth
By Jules Verne
278 Pages, $21.24 USD, ISBN: 1770831924

A Journey to the Center of the Earth (French: Voyage au centre de la Terre, also translated under the titles Journey to the Centre of the Earth and A Journey to the Interior of the Earth) is a classic 1864 science fiction novel by Jules Verne. The story involves a German professor who believes there are volcanic tubes going toward the center of the Earth. He, his nephew Axel , and their guide Hans encounter many adventures, including prehistoric animals and natural hazards, eventually coming to the surface again in southern Italy.



A Knight Of The Cumberland
By John Fox Jr
58 Pages, $15.24 USD, ISBN: 1469927489

High noon of a crisp October day, sunshine flooding the earth with the warmth and light of old wine and, going single-file up through the jagged gap that the dripping of water has worn down through the Cumberland Mountains from crest to valley-level, a gray horse and two big mules, a man and two young girls. On the gray horse, I led the tortuous way. After me came my small sister—and after her and like her, mule-back, rode the Blight—dressed as she would be for a gallop in Central Park or to ride a hunter in a horse show. I was taking them, according to promise, where the feet of other women than mountaineers had never trod—beyond the crest of the Big Black—to the waters of the Cumberland—the lair of moonshiner and feudsman, where is yet pocketed a civilization that, elsewhere, is long ago gone.



A Knight of the Nineteenth Century
By Edward Payson Roe
434 Pages, $23.24 USD, ISBN: 1469927527
Sometimes the most challenging, and important, quest a knight can embark on is the quest to settle his own soul. Meeting the graceful Laura Romeyn is one of the challenges facing Egbert Haldane. Will he be distracted by her serene beauty, or inspired by her life of refinement and faith?

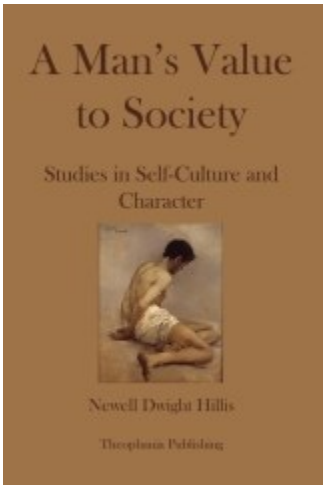
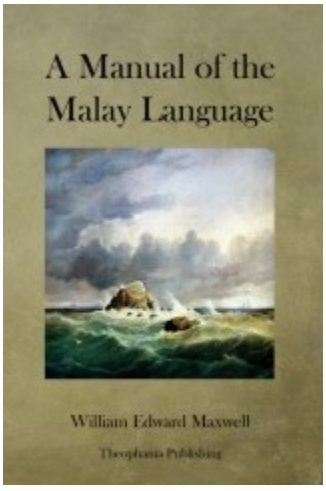
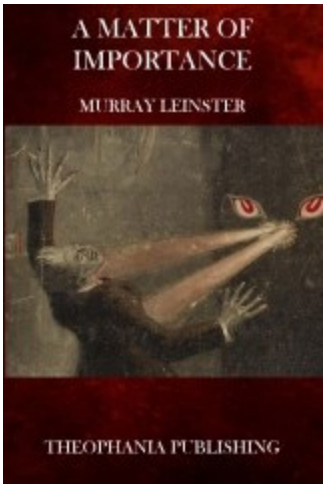
A Luxury of Self-Reproach: Great Confessions of Great Men
By St. Augustine
770 Pages, $35.24 USD, ISBN: 1770830898
This volume introduces the reader to the great confessions of great thinkers — Saint Augustine (354-430), a Berber born in North Africa, one of the most influential theologians in the history of Christianity, Peter Abelard (1079-1142), a brilliant philosopher who was persecuted through his whole life, Jean Jacques Rousseau (1712-1778), an outstanding thinker, sociologist and creator of new political theories, and Leo (Lev Nikolayevich) Tolstoy (1828-1910), one of the most influential writers and moral authorities of the XIXth century. All those men left us profound and controversial accounts of their lives — intellectual, social and personal.



A Mans Value to Society: Studies in Self-Culture and Character
By Newell Dwight Hillis
224 Pages, $16.24 USD, ISBN: 1478399309
Our scientific experts are investigating the wastes of society. Their reports indicate that man is a great spendthrift. He seems not so much a husbandman, making the most of the treasures of his life-garden, as a robber looting a storehouse for booty. Travelers affirm that one part of the northern pineries has been wasted by man's careless fires and much of the rest by his reckless axe. Coal experts insist that a large percentage of heat passes out of the chimney.

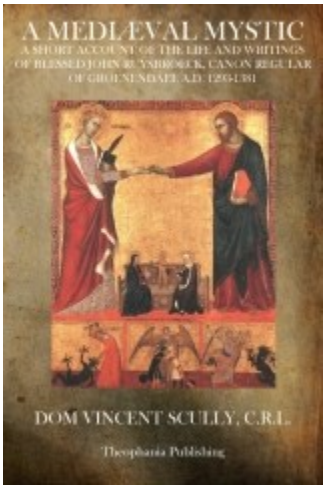


A Manual of the Malay Language
By William Edward Maxwell
446 Pages, $26.24 USD, ISBN: 1478153903
Dialectical peculiarities are so abundant in Malay that it is impossible to teach the colloquial language of the people without imparting to the lesson the distinct marks of a particular locality. In parts of India it is said proverbially that in every twelve kos there is a variation in the language, and very much the same might be said of the Malay Peninsula and adjacent islands. The construction of the language and the general body of words remain, of course, the same, but in every state or subdivision of a state there are peculiar words and expressions and variations of accent and pronunciation which belong distinctively to it.



A Matter of Importance
By Murray Leinster
64 Pages, $16.24 USD, ISBN: 1516987586

The importance of a matter is almost entirely a matter of your attitude. And whether you call something "a riot" or "a war" ... well, there is a difference, but what is it? Nobody ever saw the message-torp. It wasn't to be expected. It came in on a course that extended backward to somewhere near the Rift—where there used to be Huks—and for a very, very long way it had traveled as only message-torps do travel. It hopped half a light-year in overdrive, and came back to normality long enough for its photocells to inspect the star-filled universe all about. Then it hopped another half light-year, and so on.

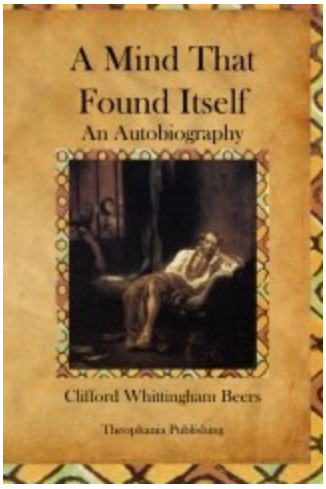


A Mediæval Mystic: A Short Account of the Life and Writings of Blessed John Ruysbroeck, Canon Regular of Groenendael A.D. 1293-1381
By Dom. Vincent Scully C.R.L.
78 Pages, $16.24 USD, ISBN: 1770832580

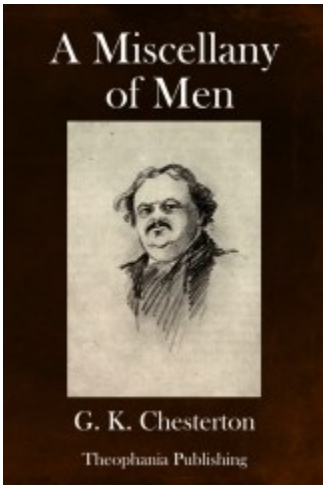
The object of the following unpretentious little volume is to give a simple and readable account in English of the life and writings of a remarkable Flemish Mystic of the fourteenth century, a contemporary of our own Walter Hilton. Though his memory and honour have never faded in his own native Belgium, and though France and Germany have vied with each other in spreading his teaching and singing his praises...

A Mia Madre Morta: Le Rive Della Bormida Nel 1794
By Giuseppe Cesare Abba
ITALIAN 570 Pages, $32.24 USD, ISBN: 1502402734

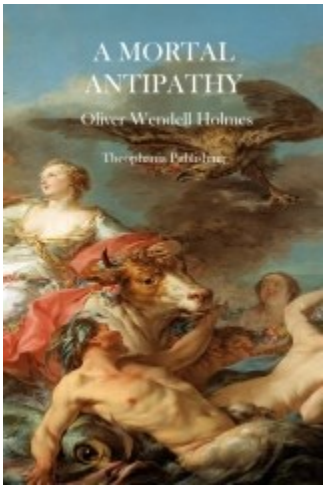
Chi si parte dalla marina del Finale, e su pel fianco dell'Appennino va verso le Langhe, si arresta trafelando ogni tratto a ripigliar lena, e a vedere quanta sarà ancora la salita, e quanto s'è scostato da quella spiaggia, diversa giù giù per foci di torrenti, per iscogliere tagliate a filo, per promontori neri, dirupati, somiglianti a mostri, che si inoltrano cimentosi nei flutti. Ma guadagnata che abbia la vetta del Settepani, sente l'affanno della via ripida e lunga, quetarsi in una vista maravigliosa. La catena dell'Alpi è di lassù un'occhiata infinita; e se vi si arriva all'apparire del sole, tutta la distesa di picchi, di coni, di aguglie, gli pare un mondo di cose vive ...



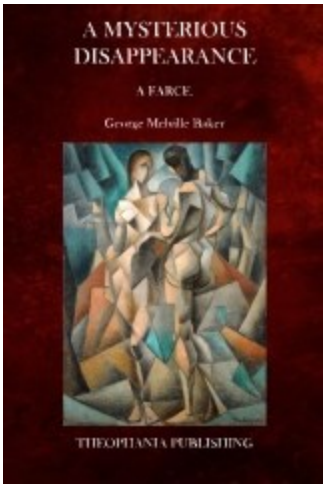
A Mind That Found Itself
By Clifford Whittingham Beers
216 Pages, $19.24 USD, ISBN: 1478153911
This story is derived from as human a document as ever existed; and, because of its uncommon nature, perhaps no one thing contributes so much to its value as its authenticity. It is an autobiography, and more: in part it is a biography; for, in telling the story of my life, I must relate the history of another self, a self which was dominant from my twenty-fourth to my twenty-sixth year. During that period I was unlike what I had been, or what I have been since. The biographical part of my autobiography might be called the history of a mental civil war, which I fought single-handed on a battlefield that lay within the compass of my skull.



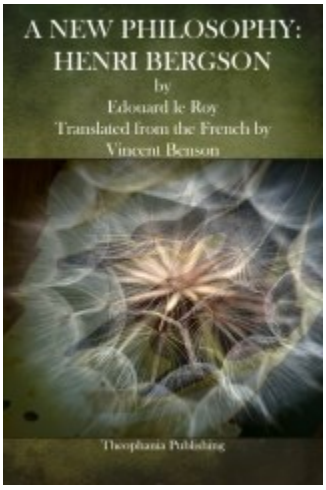
A Miscellany of Men
By G.K. Chesterton
236 Pages, $20.25 USD, ISBN: 1979205361
Rightly or wrongly, it is certain that a man both liberal and chivalric, can and very often does feel a dis-ease and distrust touching those political women we call Suffragettes. Like most other popular sentiments, it is generally wrongly stated even when it is rightly felt. One part of it can be put most shortly thus: that when a woman puts up her fists to a man she is putting herself in the only posture in which he is not afraid of her. He can be afraid of her speech and still more of her silence; but force reminds him of a rusted but very real weapon of which he has grown ashamed.



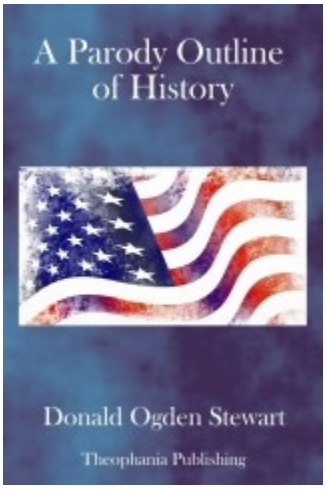
A Mortal Antipathy
By Oliver Wendell Holmes
194 Pages, $18.24 USD, ISBN: 1475005946
"A MORTAL ANTIPATHY" was a truly hazardous experiment. A very wise and very distinguished physician who is as much at home in literature as he is in science and the practice of medicine, wrote to me in referring to this story: "I should have been afraid of my subject." He did not explain himself, but I can easily understand that he felt the improbability of the, physiological or pathological occurrence on which the story is founded to be so great that the narrative could hardly be rendered plausible. I felt the difficulty for myself as well as for my readers, and it was only by recalling for our consideration a series of extraordinary but well-authenticated facts of somewhat similar character that I could hope to gain any serious attention to so strange a narrative.



A Mysterious Disappearance: A Farce
By George Melville Baker
34 Pages, $16.24 USD, ISBN: 1516987551
Nelly (throwing brush on lounge). That will do for to-day. It's time Carlos were back from the post-office. I am anxious to obtain a letter from my invisible adorer, Dixon Dolby. How my good brother would open his eyes if he knew the extent of my wickedness. Three months ago, six of us girls at school, desirous of acquiring proficiency in correspondence, agreed to write to gentlemen whom we had never met, but whom we knew by reputation to be gentlemen. My choice was my brother's chum before his marriage, Dixon Dolby. My plan succeeded admirably. He answered the note signed, Rosa Bean.



A New Philosophy: Henri Bergson
By Edouard le Roy
150 Pages, $18.24 USD, ISBN: 1469927586
This little book is due to two articles published under the same title in the "Revue des Deux Mondes", 1st and 15th February 1912. Their object was to present Mr Bergson's philosophy to the public at large, giving as short a sketch as possible, and describing, without too minute details, the general trend of his movement. These articles I have here reprinted intact. But I have added, in the form of continuous notes, some additional explanations on points which did not come within the scope of investigation in the original sketch. I need hardly add that my work, though thus far complete, does not in any way claim to be a profound critical study. Indeed, such a study, dealing with a thinker who has not yet said his last word, would today be premature.



A Parody Outline Of History
By Donald Ogden Stewart
138 Pages, $17.25 USD, ISBN: 1979205566
Mr. H. G. Wells, in his "Outline of History," was of necessity forced to omit the narration of many of the chief events in the history of these United States. Such omissions I have in this brief volume endeavored to supply. And as American history can possibly best be written by Americans and as we have among us no H. G. Wells, I have imagined an American history as written conjointly by a group of our most characteristic literary figures. Apologies are due the various authors whose style and, more particularly, whose Weltanschauung I have here attempted to reproduce...

"Between two servants of Humanity, who appeared eighteen hundred years apart, there is a mysterious relation. Let us say it with a sentiment of profound respect: JESUS WEPT: VOLTAIRE SMILED. Of that divine tear and of that human smile is composed the sweetness of the present civilization." -- Victor Hugo. A PHILOSOPHICAL DICTIONARY. The DICTIONNAIRE PHILOSOPHIQUE is Voltaire's principal essay in philosophy, though not a sustained work. The miscellaneous articles he contributed to Diderot's ENCYCLOPÉDIE which compose this Dictionary embody a mass of scholarly research, criticism, and speculation, lit up with pungent sallies at the formal and tyrannous ecclesiasticism of the period and the bases of belief on which it stood. These short studies reflect every phase of Voltaire's sparkling genius. Though some of the views enunciated in them are now universally held, and others have become obsolete through extended knowledge, they were startlingly new when Voltaire, at peril of freedom and reputation, spread them before the people of all civilized nations, who read them still with their first charm of style and substance. -- Oliver H.G. Leigh.

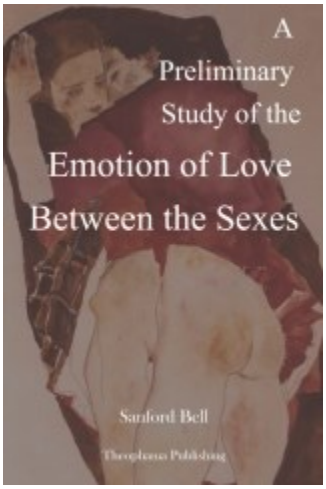
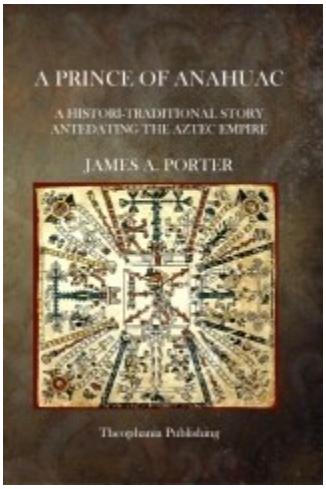
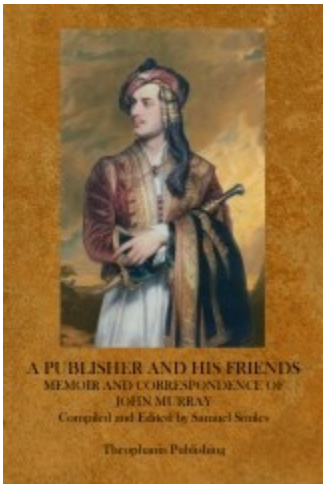
Our age is growing philosophical again. Change of tone since 1860. Empiricism and Rationalism defined. The process of Philosophizing: Philosophers choose some part of the world to interpret the whole by. They seek to make it seem less strange. Their temperamental differences. Their systems must be reasoned out. Their tendency to over-technicality. Excess of this in Germany. The type of vision is the important thing in a philosopher. Primitive thought. Spiritualism and Materialism: Spiritualism shows two types. Theism and Pantheism. Theism makes a duality of Man and God, and leaves Man an outsider. Pantheism identifies Man with God.



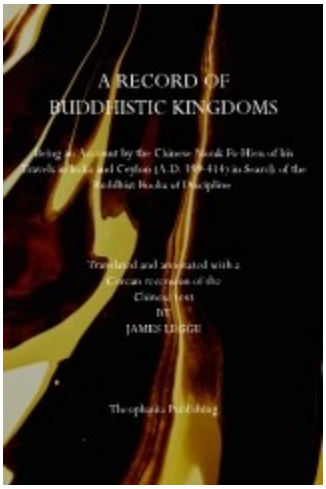
A Preliminary Study of the Emotion of Love Between the Sexes
By Sanford Bell
58 Pages, $16.24 USD, ISBN: 1479127531
The emotion of love between the sexes has as yet received no thorough scientific treatment. No writer so far as I can find has treated it from a genetic standpoint. The literature upon the subject is therefore meager. In his recent treatise upon “The Psychology of the Emotions,” Ribot remarks: “The sex-instinct, the last in chronological order with man and the higher animals, gives rise to the emotion of love with its numerous individual varieties. Most psychologists have been very sparing of details where it is concerned, and one might mention certain voluminous treatises which contain no mention of it. Is this through exaggerated delicacy?



A Prince of Anahuac
By James A. Porter
372 Pages, $25.24 USD, ISBN: 1500746363
The great valley of Anahuac—the valley of Mexico—if not now, was once a grand and beautiful spot, such as is rarely found upon the face of our terraqueous globe. When nearest its natural state, in the time when its inhabitants directed their efforts to beautifying and not to marring it, it might well have been denominated an Eden. We refer to that period in its transition which covered a century or two prior to the fall of Montezuma. The majority of the people of Anahuac were not, strictly speaking, Aztecs, but became so by centralization: the Montezumas and their immediate predecessors becoming, by the trend of events, masters of the situation. The great Aztec empire had scarcely a half century of existence, and was preceded by a condition of things in which tribal distinction prevailed, the Aztec being only one of many tribes, and not greatly superior, if superior at all, to some of its neighbors.



A Publisher and His Friends: Samuel Smiles
By John Murray
324 Pages, $25.24 USD, ISBN: 1770830332
When my Grandfather's Memoirs were published, twenty years ago, they met with a most favourable and gratifying reception at the hands of the public. Interest was aroused by the struggle and success of a man who had few advantages at the outset save his own shrewd sense and generous nature, and who, moreover, was thrown on his own resources to fight the battle of life when he was little more than a child. The chief value of these volumes, however, consists in the fact that they supply an important, if not an indispensable, chapter in the literary history of England during the first half of the nineteenth century. Byron and Scott, Lockhart, Croker, George Borrow, Hallam, Canning, Gifford, Disraeli, Southey, Milman are but a few of the names occurring in these pages, the whole list of which it would be tedious to enumerate.



A Record of Buddhistic Kingdoms
By James Legge
134 Pages, $15.24 USD, ISBN: 177083074X
Several times during my long residence in Hong Kong I endeavoured to read through the "Narrative of Fa-hien;" but though interested with the graphic details of much of the work, its columns bristled so constantly—now with his phonetic representations of Sanskrit words, and now with his substitution for them of their meanings in Chinese characters, and I was, moreover, so much occupied with my own special labours on the Confucian Classics, that my success was far from satisfactory. When Dr. Eitel's "Handbook for the Student of Chinese Buddhism" appeared in 1870, the difficulty occasioned by the Sanskrit words and names was removed, but the other difficulty remained; and I was not able to look into the book again for several years.

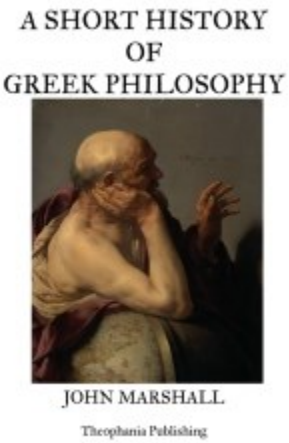
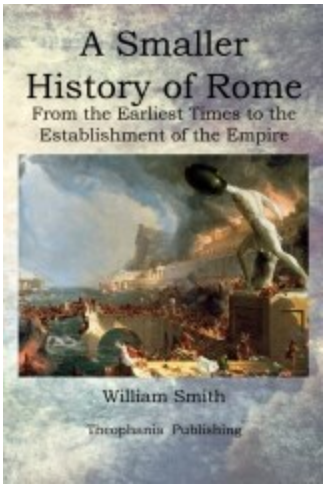
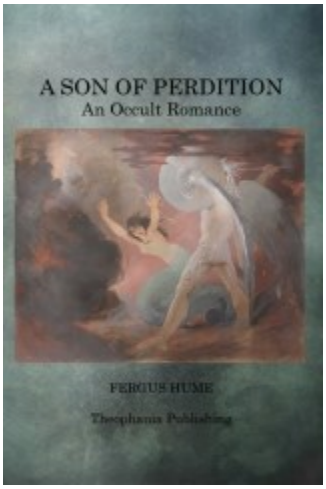
A Short History of Christianity
By J.M. Robertson
446 Pages, $26.25 USD, ISBN: 1979205930
An attempt to write the history of Christianity in the space of an average novel is so obviously open to objections that, instead of trying to parry them, I will merely state what seems to me the possible compensation of brevity in such a matter. It is or may be conducive to total comprehension, to coherence of judgment, and in a measure even to the understanding of details. A distinguished expert in historical and philological research has avowed that specialists sometimes get their most illuminating ideas from a haphazard glance into a popular and condensed presentment of their own subject.



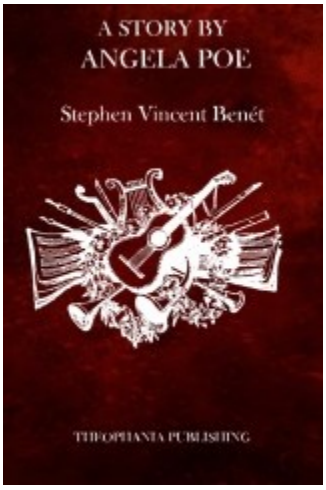
A Short History of Greek Philosophy
By John Marshall
186 Pages, $20.24 USD, ISBN: 1469927705
The main purpose which I have had in view in writing this book has been to present an account of Greek philosophy which, within strict limits of brevity, shall be at once authentic and interesting—authentic, as being based on the original works themselves, and not on any secondary sources; interesting, as presenting to the ordinary English reader, in language freed as far as possible from technicality and abstruseness, the great thoughts of the greatest men of antiquity on questions of permanent significance and value. There has been no attempt to shirk the really philosophic problems which these men tried in their day to solve; but I have endeavoured to show, by a sympathetic treatment of them, that these problems were no mere wars of words, but that in fact the philosophers of twenty-four centuries ago were dealing with exactly similar difficulties as to the bases of belief and of right action as, under different forms, beset thoughtful men and women to-day.



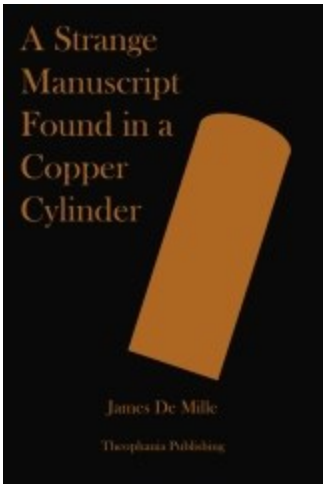
A Smaller History of Rome
By William Smith
530 Pages, $29.24 USD, ISBN: 1478229217
The early history of Rome is given in an unbroken narrative by the Roman writers, and was received by the Romans themselves as a faithful record of facts. But it can no longer be regarded in that light. Not only is it full of marvelous tales and poetical embellishments, of contradictions and impossibilities, but it wants the very foundation upon which all history must be based. The reader, therefore, must not receive the history of the first four centuries of the city as a statement of undoubted facts, though it has unquestionably preserved many circumstances which did actually occur.



A Son of Perdition
By Fergus Hume
406 Pages, $25.24 USD, ISBN: 1497464668
Even in that heaven-world, despair seized him, when he found that the invisible barrier withheld him from his beloved. On her side she seemed equally desirous to come to him, and held out her arms in vain longing. On his face and her face were looks of appealing love baffled by the impossibility of meeting heart to heart. Then a shadow grew up between them swiftly; the shadow menacing and dark of a yellow-skinned man, rather like a Chinese, from whose throat ran a stream of blood. Who this man was Montrose could not tell, even though he had recognised Alice in a different guise.

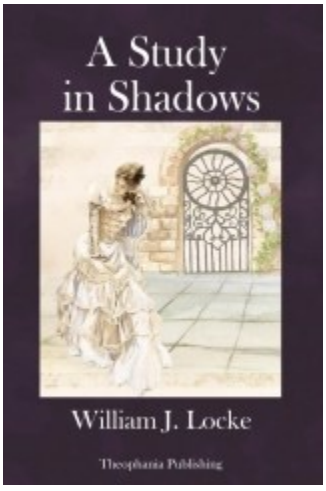


A Story
By Angela Poe
By Stephen Vincent Benét
26 Pages, $16.24 USD, ISBN: 1516987403
I WAS a very young man in the publishing business at the time—even younger, I think, than most young men are nowadays, for this was before the war. Diana poised her bow at the sky above a Madison Square Garden that was actually on Madison Square—and some of the older men in our New York office still wore the paper sleeve-protectors and worn alpaca coats of an older day. There are young offices and old ones: brisk, shiny, bumptious new offices that positively buzz with expert inefficiency; and resigned, rather wistful little offices that have come to know they will never do well in the world.

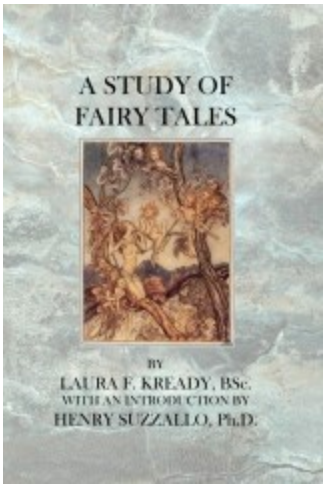


A Strange Manuscript Found in a Copper Cylinder
By James De Mille
418 Pages, $25.24 USD, ISBN: 1479127566
It occurred as far back as February 15, 1850. It happened on that day that the yacht Falcon lay becalmed upon the ocean between the Canaries and the Madeira Islands. This yacht Falcon was the property of Lord Featherstone, who, being weary of life in England, had taken a few congenial friends for a winter's cruise in these southern latitudes. They had visited the Azores, the Canaries, and the Madeira Islands, and were now on their way to the Mediterranean.

A Study in Karma
By Annie Besant
50 Pages, $15.24 USD, ISBN: 148008073X
AMONG the many illuminating gifts to the western world, conveyed to it by the medium of the Theosophical Society, that of the knowledge of karma comes, perhaps, next in importance to that of reincarnation. It removes human thought and desire from the region of arbitrary happenings to the realm of law, and thus places man’s future under his own control in proportion to the amount of his knowledge.

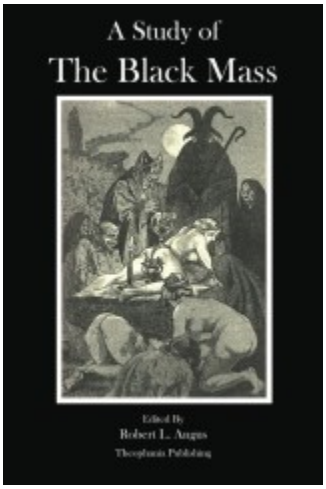


A Study in Shadows
By William J. Locke
268 Pages, $21.25 USD, ISBN: 197914639X
Felicia Graves was puzzled. The six weeks she had spent at the Pension Boccard had confused many of her conceptions and brought things before her judgment for which her standards were inadequate. Not that a girl who had passed the few years of her young womanhood in the bubbling life of a garrison town could be as unsophisticated as village innocence in the play; but her fresh, virginal experience had been limited to what was seemly, orthodox, and comfortable. She was shrewd enough in the appreciation of superficial vanities, rightly esteeming their value as permanent elements; but the baser follies of human nature had not been reached by her young eyes. Her whole philosophy of life had been bound up in well-ordered family systems, in which the men were honest and well-bred, and the women either comfortable matrons or fresh-minded, companionable girls like herself. She knew vaguely that sorrows and bitterness and broken lives existed in the world, but hitherto she had never reckoned upon coming into contact with them.



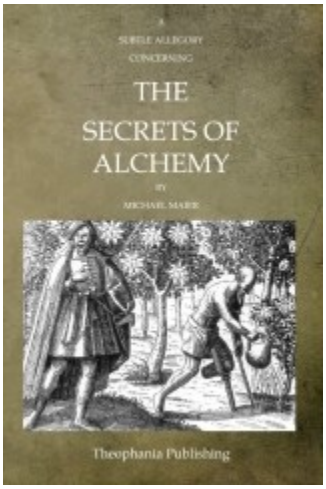
A Study of Fairy Tales
By Laura F. Kready
212 Pages, $25.24 USD, ISBN: 1926842715

A single motif of this children's literature, Fairy Tales, is here presented, with the aim of organizing this small portion of the curriculum for the child of five, six, or seven years, in the kindergarten and the first grade. The purpose has been to show this unit of literature in its varied connection with those subjects which bear an essential relation to it. This presentation incidentally may serve as an example of one method of giving to teachers a course in literature by showing what training may be given in a single motif, Fairy Tales.



A Study of the Black Mass
By Montague Summers
102 Pages, $16.24 USD, ISBN: 1477614508

The great central act of Christian worship is the Mass, a Sacrifice which can be offered to God alone, and the climax of the sabbat orgies is the horror of the black mass, a sacrifice of mockery, impiety, and blasphemy which is offered to the Devil. Satanists today often meet with the celebration of the black mass as their main object, and it is indeed the culmination and to use a term of the schools the very quiddity of devil-worship and the cult of hell. In detail the black mass imitates, so to speak and foully parodies with every circumstance of crapulous obscenity and contempt the Sacrifice of Calvary.



A Subtle Allegory Concerning The Secrets of Alchemy

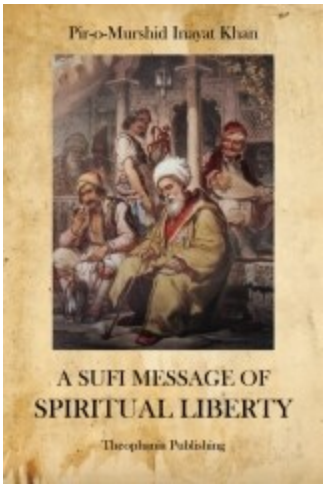
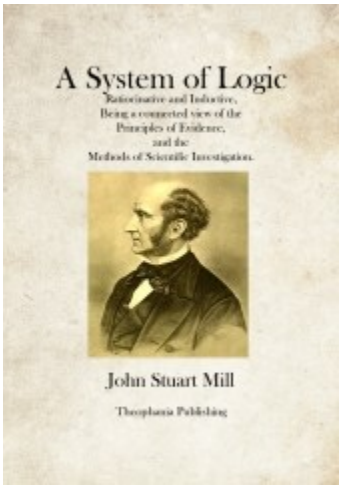
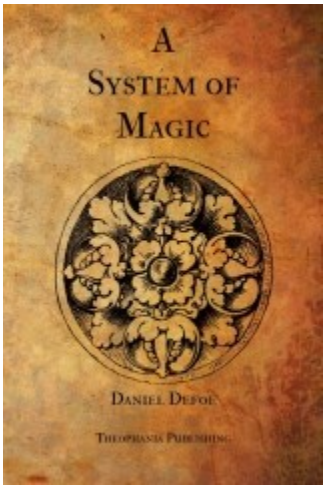
AFTER spending the best part of my life in the study of the liberal arts and sciences, and in the company of wise men and judicious scholars, I was compelled, as the result of my observation of mankind, to arrive at the melancholy conclusion that the hearts of most persons are set either on ambitious and vainglorious projects, on sensual pleasures, or on the accumulation of wealth by all and any means; and that few care either for God or for virtue At first I did not quite know whether to become a disciple of the laughing or of the weeping philosopher, or whether to join in the exclamation of the wise Prince of Israel: "All things are vanity." But at length the Bible and experience taught me to take refuge in the study of the hidden secrets of Nature, whether pursued at home, by means of books, or abroad, in the Great Volume of the World.



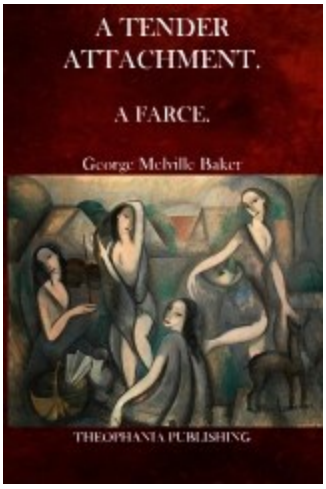
A Sufi Message of Spiritual Liberty
By Pir-O-Murshid Inayat Khan
48 Pages, $16.24 USD, ISBN: 1482755149
We may ask: why we should worship God, and whether the theoretical knowledge of His law in nature is not sufficient For the highest realization. The answer is: no. Theoretical knowledge of a subject can never take the place of experience, which is necessary for realization. Written music cannot entertain us unless it is played, nor the description of perfume delight our senses unless we smell it, no recipes of the most delicious dishes satisfy our hunger. Nor can the theory of God give complete joy and peace; we must actually realize God or attain that state of realization which gives eternal happiness through the admiration and worship of nature's beauty and its source. 'The Beloved is all in all, the lover only veils him; the Beloved is all that lives, the lover a dead thing'



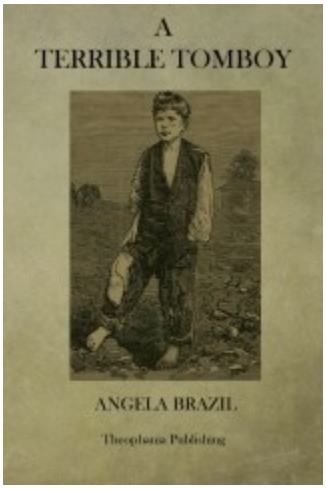
A System of Logic
By John Stuart Mill
736 Pages, $43.37 USD, ISBN: 146992773X
This book makes no pretense of giving to the world a new theory of the intellectual operations. Its claim to attention, if it possess any, is grounded on the fact that it is an attempt, not to supersede, but to embody and systematize, the best ideas which have been either promulgated on its subject by speculative writers, or conformed to by accurate thinkers in their scientific inquiries. To cement together the detached fragments of a subject, never yet treated as a whole; to harmonize the true portions of discordant theories, by supplying the links of thought necessary to connect them, and by disentangling them from the errors with which they are always more or less interwoven, must necessarily require a considerable amount of original speculation.



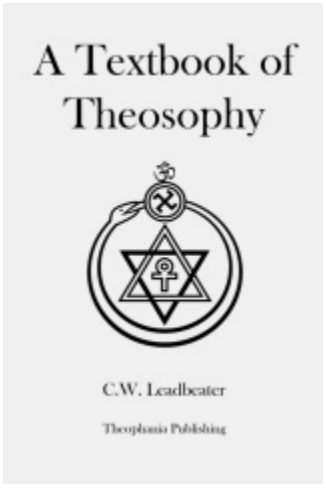
A System of Magic
By Daniel Defoe
532 Pages, $29.24 USD, ISBN: 1475256361
To remove a difficulty in my title, and that we may not stumble at the threshold, some preface to this new undertaking may be necessary, but it will be very short. If by a system of this terrible thing called magic, my readers should expect a body of the black art as a science, a book of rules for instruction in the practice, or a magical grammar for introduction to young beginners, all I can say to such is, that they will be mistaken. The world has perhaps been imposed upon in nothing more than in their notions of this dark practice, as well its ancient, as its modern state.



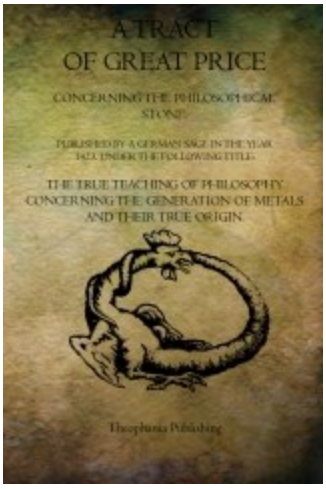
A Tender Attachment: A Farce.
By George Melville Baker
30 Pages, $16.24 USD, ISBN: 1516987497
Ebenezer. O, it is! This is the mysterious abode of my runaway son. Well, I don't see anything very inviting here; a few miserable chairs, a rickety lounge, a mean little table— Clap. Come, come, sir; don't abuse my furniture. Eben. O, pooh, pooh! What business have you harboring a runaway scamp who ought to be at home, you old, gray-headed ruffian? Clap. Come, come, sir; once for all, I won't be abused in my own house. If your son chooses to hire a room in my house, to pay handsomely for the same, and to behave himself in a gentlemanly manner, here he stops just as long as he pays, you old heathen. Eben. Old heathen!



A Terrible Tomboy
By Angela Brazil
288 Pages, $21.24 USD, ISBN: 1470073749
Getting no response to her calls, the speaker, a pretty fair-haired girl of fifteen, flung her brown holland cooking-apron over her head, and ran out across the farmyard into the lightly-falling rain. She peeped into the cart-shed, where the hens were scratching about among the loose straw. Certainly Peggy was not there. She searched in the kitchen garden, but there was nothing to be seen except the daffodils nodding their innocent heads under the gooseberrybushes.



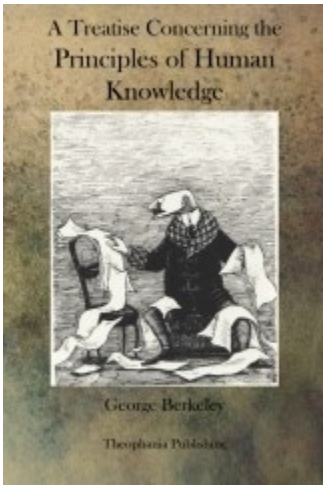
A Textbook of Theosophy
By C. W. Leadbeater
110 Pages, $15.24 USD, ISBN: 1480080780
"There is a school of philosophy still in existence of which modern culture has lost sight." In these words Mr. A. P. Sinnett began his 1881 book, The Occult World, the first popular exposition of Theosophy, published thirty years ago. During the years that have passed since then, many thousands have learned wisdom in that school, yet to the majority its teachings are still unknown, and they can give only the vaguest of replies to the query, "What is Theosophy?"



A Tract of Great Price Concerning the Philosophical Stone
By A German Sage

32 Pages, $16.24 USD, ISBN: 1770833587

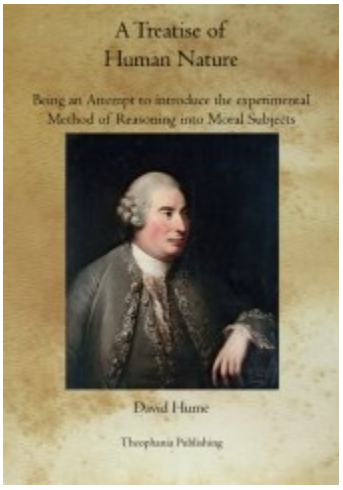
ALL temporal things derive their origin, their existence, and their essence from the earth, according to the succession of time. Their specific properties are determined by the outward and inward influences of the stars and planets, (such as the Sun, the Moon, Etc.), and of the four qualities of the elements. From these combined circumstances arise the peculiar forms, and proper substances, of all growing, fixed, and generating things, according to the natural order appointed by the Most High at the beginning of the world. The metals, then, derive their origin from the earth, and are specifically compounded of the four qualities, or the properties of the four elements; their peculiar metallic character is stamped upon them by the influences of the stars and planets.



A Treatise Concerning the Principles of Human Knowledge
By George Berkeley

98 Pages, $16.24 USD, ISBN: 1770833072

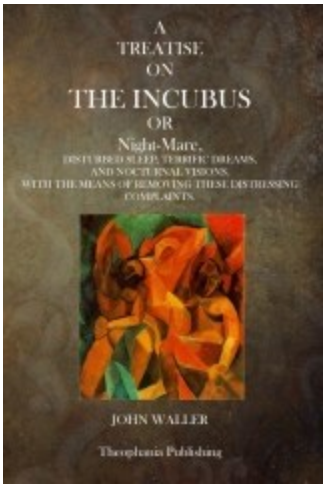
WHAT I here make public has, after a long and scrupulous inquiry, seemed to me evidently true and not unuseful to be known, particularly to those who are tainted with Scepticism, or want a demonstration of the existence and immateriality of God, or the natural immortality of the soul. Whether it be so or no I am content the reader should impartially examine; since I do not think myself any farther concerned for the success of what I have written than as it is agreeable to truth.



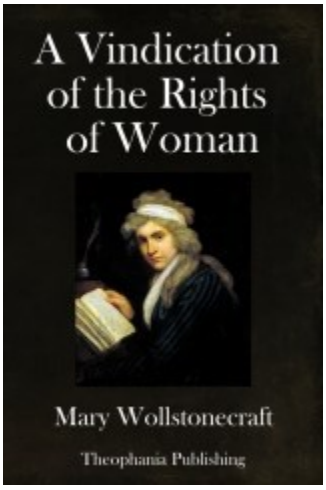
A Treatise of Human Nature: Being an Attempt to introduce the experimental Method of Reasoning into Moral Subjects
By David Hume

584 Pages, $35.11 USD, ISBN: 1770833595

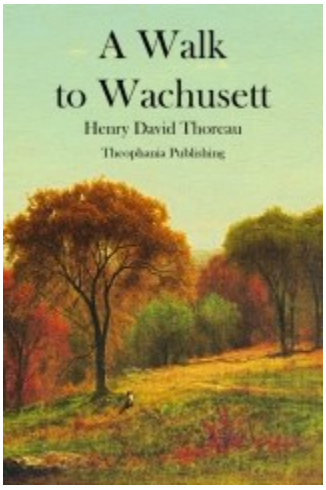
My design in the present work is sufficiently explained in the Introduction. The reader must only observe, that all the subjects I have there planned out to myself, are not treated of in these two volumes. The subjects of the Understanding and Passions make a compleat chain of reasoning by themselves; and I was willing to take advantage of this natural division, in order to try the taste of the public. If I have the good fortune to meet with success, I shall proceed to the examination of Morals, Politics, and Criticism; which will compleat this Treatise of Human Nature.



A Treatise on the Incubus or Night Mare
By John Waller
60 Pages, $17.24 USD, ISBN: 1500746673
The enjoyment of comfortable and undisturbed sleep, is certainly to be ranked amongst the greatest blessings which heaven has bestowed on mankind; and it may be considered as one of the best criterions of a person enjoying perfect health. On the contrary, any disturbance which occurs in the enjoyment of this invaluable blessing, may be considered a decisive proof of some derangement existing in the animal economy, and a consequent deviation from the standard of health. Indeed it is astonishing how slight a deviation from that standard may be perceived, by paying attention to the circumstance of our sleep and dreams.

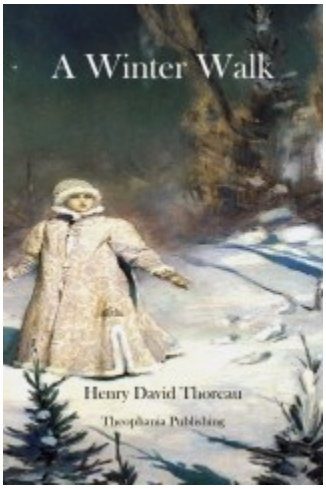


A Vindication of the Rights of Woman: With Strictures on Political and Moral Subjects
By Mary Wollstonecraft
418 Pages, $25.25 USD, ISBN: 1981741739
M. Wollstonecraft was born in 1759. Her father was so great a wanderer, that the place of her birth is uncertain; she supposed, however, it was London, or Epping Forest: at the latter place she spent the first five years of her life. In early youth she exhibited traces of exquisite sensibility, soundness of understanding, and decision of character; but her father being a despot in his family, and her mother one of his subjects, Mary, derived little benefit from their parental training. She received no literary instructions but such as were to be had in ordinary day schools.

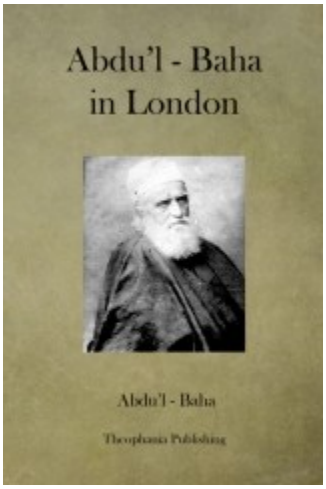


A Walk to Wachusett
By Henry David Thoreau
30 Pages, $16.24 USD, ISBN: 1478153946
Summer and winter our eyes had rested on the dim outline of the mountains in our horizon, to which distance and indistinctness lent a grandeur not their own, so that they served equally to interpret all the allusions of poets and travellers; whether with Homer, on a spring morning, we sat down on the many-peaked Olympus, or, with Virgil and his compeers, roamed the Etrurian and Thessalian hills, or with Humboldt measured the more modern Andes and Teneriffe. Thus we spoke our mind to them, standing on the Concord cliffs.

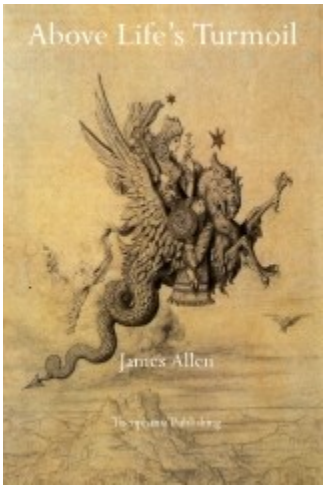
A Wanderer in the Spirit Lands
By Franchezzo
258 Pages, $22.24 USD, ISBN: 1469927780
The following narrative was written more than a year ago, and in giving it to the public I do not claim to be its author, since I have only acted the part of an amanuensis and endeavored to write down as truthfully and as carefully as I could, the words given to me by the Spirit Author himself, who is one of several spirits who have desired me to write down for them their experiences in the spirit world. I have had to write the words as fast as my pen could travel over the paper, and many of the experiences described and opinions advanced are quite contrary to what I myself believed to be in accordance with the conditions of life in the world of spirits. The Spirit Author Franchezzo I have frequently seen materialized, and he has been recognized on these occasions by friends who knew him in earth life.



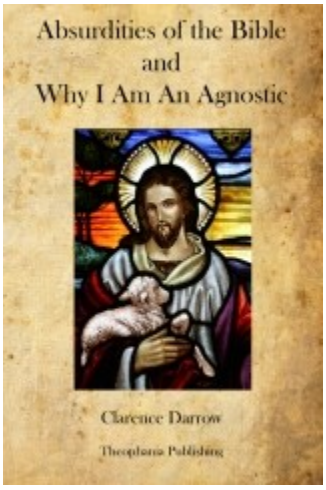
A Winter Walk
By Henry David Thoreau
32 Pages, $16.24 USD, ISBN: 1478153997
The wind has gently murmured through the blinds, or puffed with feathery softness against the windows, and occasionally sighed like a summer zephyr lifting the leaves along, the livelong night. The meadow-mouse has slept in his snug gallery in the sod, the owl has sat in a hollow tree in the depth of the swamp, the rabbit, the squirrel, and the fox have all been housed. The watch-dog has lain quiet on the hearth, and the cattle have stood silent in their stalls.



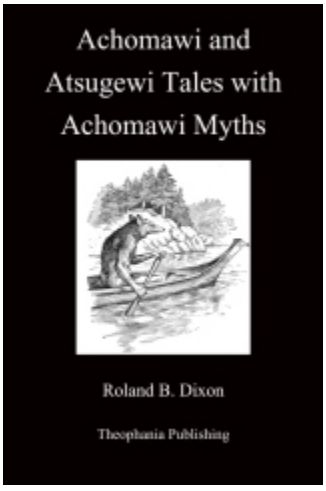
Abdu'l - Baha in London
By Abdu'l Baha
122 Pages, $16.24 USD, ISBN: 1479127639
On September 10th, the first Sunday after ‘Abdu’l-Bahá’s arrival in England, he spoke from the City Temple pulpit to the evening congregation at the special desire of the Pastor, the Reverend R. J. Campbell. Though ‘Abdu’l-Bahá’s coming had not been advertised the Church was filled to its utmost capacity. Few that were there will ever forget the sight of that venerable figure clad in his Eastern garb, ascending the pulpit stairs to address a public gathering for the first time in his life. That this should be at a Christian place of worship in the West has its own deep significance.



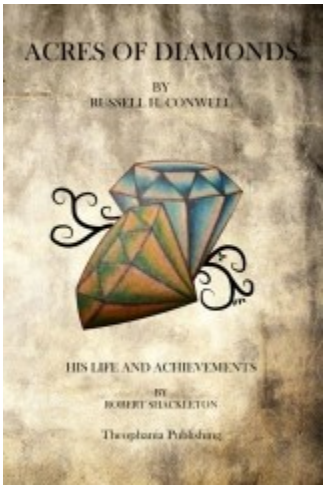
Above Life's Turmoil
By James Allen
70 Pages, $15.24 USD, ISBN: 1770830421
We cannot alter external things, nor shape other people to our liking, nor mould the world to our wishes but we can alter internal things,-our desires, passions, thoughts,-we can shape our liking to other people, and we can mould the inner world of our own mind in accordance with wisdom, and so reconcile it to the outer world if men and things. The turmoil of the world we cannot avoid, but the disturbances of mind we can overcome. The duties and difficulties of life claim our attention, but we can rise above all anxiety concerning them. Surrounded by noise, we can yet have a quiet mind; involved in responsibilities, the heart can be at rest; in the midst of strife, we can know the abiding peace. The twenty pieces which comprise this book, unrelated as some of them are in the letter, will be found to be harmonious in the spirit, in that they point the reader towards those heights of self-knowledge and self-conquest which, rising above the turbulance of the world, lift their peaks where the Heavenly Silence reigns.



Absurdities of the Bible and Why I Am Agnostic
By Clarence Darrow
32 Pages, $16.24 USD, ISBN: 1477459782
Why am I an agnostic? Because I don't believe some of the things that other people say they believe. Where do you get your religion, anyway? I won't bother to discuss just what religion is, but I think a fair definition of religion could take account of two things, at least, immortality and God, and that both of them are based on some book, so practically all of it is a book. As I have neither the time nor the learning to discuss every religious book on earth, and as I live in Chicago, I am interested in the Christian religion. So I will discuss the book that deals with the Christian religion. Is the Bible the work of anything but man?



Achomawi and Atsugewi Tales with Achomawi Myths
By Roland B. Dixon
52 Pages, $16.24 USD, ISBN: 1479127647

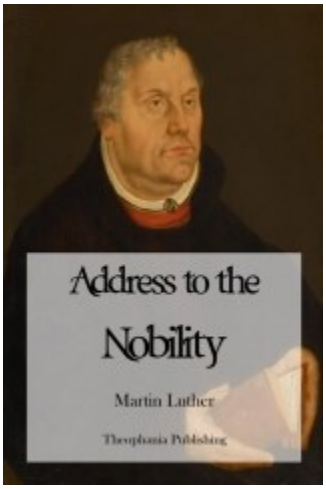


Acres of Diamonds

By Russell H. Conwell

122 Pages, $15.24 USD, ISBN: 1926842839

CONSIDERING everything, the most remarkable thing in Russell Conwell's remarkable life is his lecture, "Acres of Diamonds." That is, the lecture itself, the number of times he has delivered it, what a source of inspiration it has been to myriads, the money that he has made and is making, and, still more, the purpose to which he directs the money. In the circumstances surrounding "Acres of Diamonds," in its tremendous success, in the attitude of mind revealed by the lecture itself and by what Dr. Conwell does with it, it is illuminative of his character, his aims, his ability. The lecture is vibrant with his energy.



Address to the Nobility

By Martin Luther

98 Pages, $16.24 USD, ISBN: 1479127744

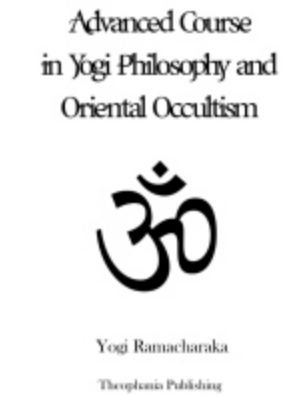
The distress and misery that oppress all the Christian estates, more especially in Germany, have led not only myself, but every one else, to cry aloud and to ask for help, and have now forced me too to cry out and to ask if God would give His Spirit to any one to reach a hand to His wretched people. Councils have often put forward some remedy, but it has adroitly been frustrated, and the evils have become worse, through the cunning of certain men. Their malice and wickedness I will now, by the help of God, expose, so that, being known, they may henceforth cease to be so obstructive and injurious.

Admiral Jellicoe

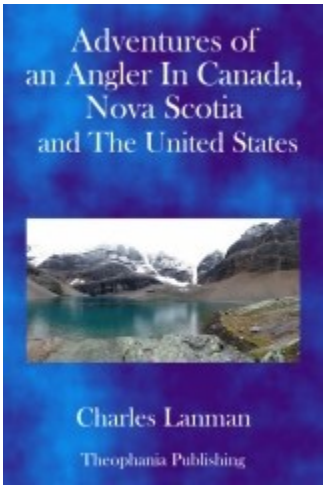
By Arthur Applin

104 Pages, $16.25 USD, ISBN: 1981493530

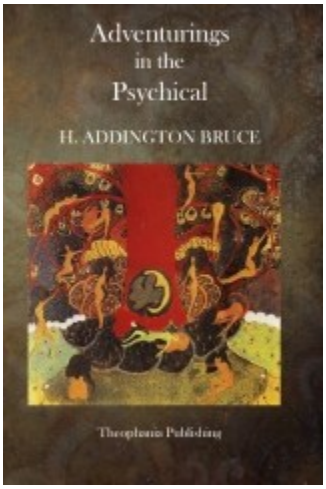
IN trying to chronicle the events in Admiral Sir John Jellicoe’s life one is faced with many difficulties, the greatest of which is that hitherto his most important battles have been fought on land, behind closed doors and, as far as the public is concerned, in the dark. Although Sir John Jellicoe has seen active service in Egypt and in China, has sailed his ships on many seas and gone down into the Valley of the Shadow on no fewer than three occasions, he has nevertheless managed to give valuable years to the Admiralty on shore...



Advanced Course in Yogi Philosophy and Oriental Occultism
By Yogi Ramacharaka
338 Pages, $19.24 USD, ISBN: 1480080853
The twelve lessons forming this volume were originally issued in the shape of monthly lessons, known as ' 'The Advanced Course in Yogi Philosophy and Oriental Occultism," during a period of twelve months beginning with October 1904, and ending September 1905. These lessons were intended as a continuation of, or sequel to "The Fourteen Lessons in Yogi Philosophy and Oriental Occultism" issued during the previous year.

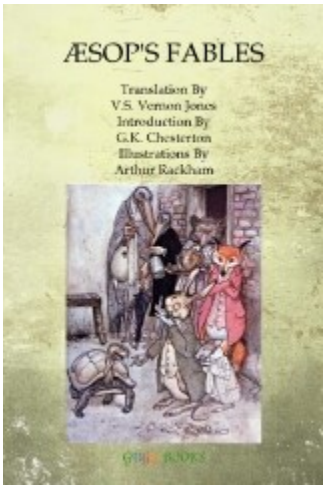


Adventures of an Angler in Canada, Nova Scotia and the United States
By Charles Lanman
290 Pages, $21.25 USD, ISBN: 1979207488
I commence this chapter in the language of Leather-Stocking: “You know the Catskills, lad, for you must have seen them on your left, as you followed the river up from York, looking as blue as a piece of clear sky, and holding the clouds on their tops, as the smoke curls over the head of an Indian chief at a council-fire.” Yes, every body is acquainted with the names of these mountains, but few with their peculiarities of scenery.

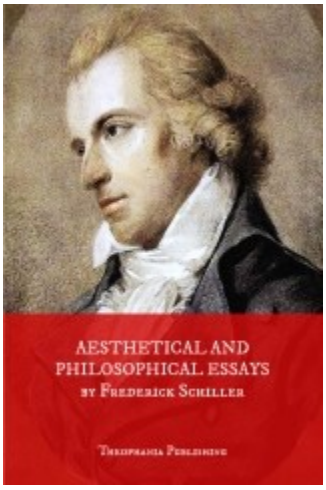


Adventurings in the Psychical
By H. Addington Bruce
238 Pages, $20.24 USD, ISBN: 1500746754
The present volume is somewhat in the nature of a sequel to “The Riddle of Personality,” published six years ago. In that book I reviewed the results of modern psychological research in the realm of the abnormal and the seemingly supernormal, with the special purpose of making clear their bearings on the problem of the nature and possibilities of man. Having this special purpose in mind, it was inadvisable to attempt any topical and detailed treatment of the phenomena made the subject of scientific investigation.

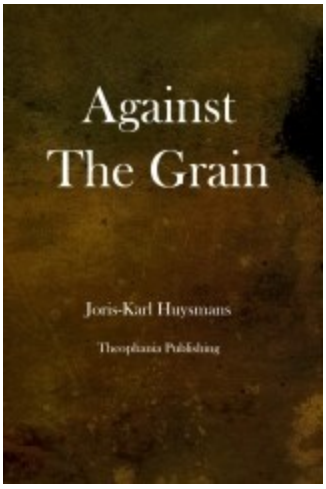
Aesch-Mezareph: or Purifying Fire.
By Knorr von Rosenroth
38 Pages, $16.24 USD, ISBN: 1770831940
A Chymico-Kabalistic Treatise Collected From the Kabala Denudata of Knorr Von Rosenroth. Preface, Notes and Explanations by "Sapere Aude" (William Wynn Westcott).
“These things moved me to seek the like good and secret books ; and from the good hand of my God I found that which I now teach to thee. And the camea of this metal is altogether wonderful, for it consists of six times six partitions, everywhere wonderfully showing the virtue of the letter Vau, related to Tiphereth. And all the columns and lines, as well from the bottom to the top, as from the right to the left, and from one angle to another, give the same sum and thou mayest vary the same ad infinitum.”



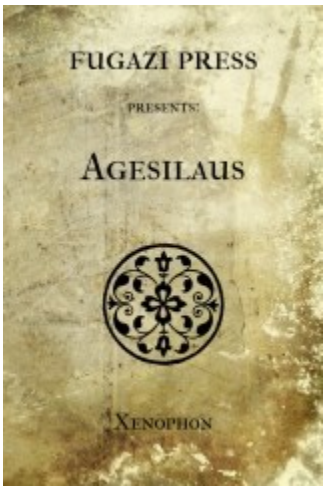
Aesop's Fables
By V.S. Vernon Jones
346 Pages, $20.24 USD, ISBN: 1515291685 GUGA BOOKS
Aesop embodies an epigram not uncommon in human history; his fame is all the more deserved because he never deserved it. The firm foundations of common sense, the shrewd shots at uncommon sense, that characterise all the Fables, belong not him but to humanity. In the earliest human history whatever is authentic is universal: and whatever is universal is anonymous. In such cases there is always some central man who had first the trouble of collecting them, and afterwards the fame of creating them. He had the fame; and, on the whole, he earned the fame. There must have been something great and human, something of the human future and the human past, in such a man: even if he only used it to rob the past or deceive the future.



Aesthetical And Philosophical Essays
By Frederick Schiller
418 Pages, $27.24 USD, ISBN: 1469927845
The special subject of the greater part of the letters and essays of Schiller contained in this volume is Aesthetics; and before passing to any remarks on his treatment of the subject it will be useful to offer a few observations on the nature of this topic, and on its treatment by the philosophical spirit of different ages. First, then, aesthetics has for its object the vast realm of the beautiful, and it may be most adequately defined as the philosophy of art or of the fine arts.

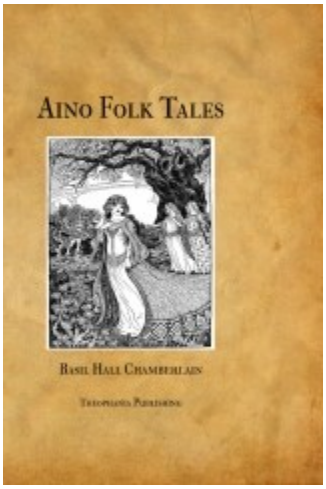


Against the Grain
By Joris-Karl Huysmans
240 Pages, $20.24 USD, ISBN: 1479127779
The Floressas Des Esseintes, to judge by the various portraits preserved in the Château de Lourps, had originally been a family of stalwart troopers and stern cavalry men. Closely arrayed, side by side, in the old frames which their broad shoulders filled, they startled one with the fixed gaze of their eyes, their fierce moustaches and the chests whose deep curves filled the enormous shells of their cuirasses.



Agesilaus
By Xenophon
56 Pages, $16.24 USD, ISBN: 147745988X FUGAZI PRESS
To write the praises of Agesilaus in language equalling his virtue and renown is, I know, no easy task; yet must it be essayed; since it were but an ill requital of pre-eminence, that, on the ground of his perfection, a good man should forfeit the tribute even of imperfect praise. As touching, therefore, the excellency of his birth, what weightier, what nobler testimony can be adduced than this one fact? To the commemorative list of famous ancestry is added today the name Agesilaus as holding this or that numerical descent from Heracles, and these ancestors no private persons, but kings sprung from the loins of kings.

Agide: Alla Maesta Di Carlo Primo Re D'Inghilterra
By Vittorio Alfieri
ITALIAN 62 Pages, $16.24 USD, ISBN: 1516987764
Parmi, che senza viltá né arroganza, ad un re infelice e morto io possa dedicare il mio Agide. Questo re di Sparta ebbe con voi comune la morte, per giudizio iniquo degli efori; come voi, per quello d'un ingiusto parlamento. Ma quanto fu simile l'effetto, altrettanto diversa n'era la cagione. Agide, col ristabilire l'uguaglianza e la libertá, volea restituire a Sparta le sue virtú, e il suo splendore; quindi egli pieno di gloria moriva, eterna di se lasciando la fama. Voi, col tentare di rompere ogni limite all'autoritá vostra, falsamente il privato vostro bene procacciarvi bramaste: nulla quindi rimane di voi; e la sola inutile altrui compassione ...



Aino Folk Tales

By Basil Hall Chamberlain

74 Pages, $16.24 USD, ISBN: 1475256396

TWELVE hundred years ago a Chinese historian stated that "On the eastern frontier of the land of Japan there is a barrier of great mountains, beyond which is the land of the Hairy Men." These were the Aino, so named from the word in their own language signifying "man." Over most of the country of these rude and helpless indigenes the Japanese have long since spread, only a dwindling remnant of them still inhabiting the island of Yezo. Since the early days when a couple of them were sent as curiosities to the Emperor of China their uncouth looks and habits have made them objects of interest to more civilised nations.

Ajax

By Sophocles

56 Pages, $17.24 USD, ISBN: 146992787X

At the onset of the play, Ajax is enraged because Achilles' armor was awarded to Odysseus, rather than to him. He vows to kill the Greek leaders who disgraced him. Before he can enact his revenge, though, he is tricked by the goddess Athena into believing that the sheep and cattle that were taken by the Achaeans as spoil are the Greek leaders. He slaughters some of them, and takes the others back to his home to torture, including a ram which he believes to be his main rival, Odysseus. Ajax realizes what he has done and is in agony over his actions. Ajax's pain is not because of his wish to kill Agamemnon and Odysseus.

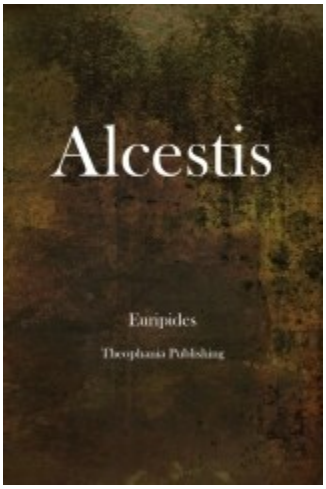
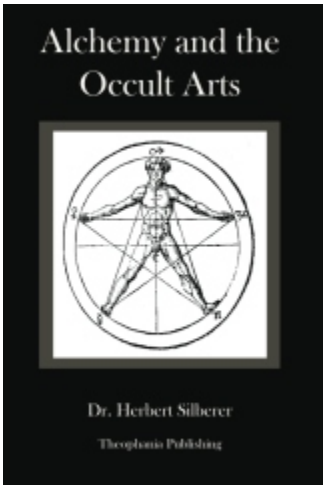
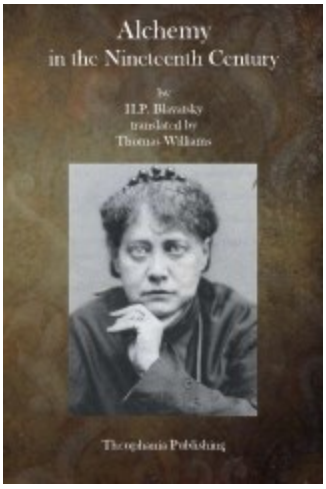
Al-Saheefah Al-Alawiyah or The Alawite Book
By Imam Ali bin Abi-Talib
282 Pages, $20.24 USD, ISBN: 147912785X
A Collection of Prayers The Alawites, also known as Alawis (Alawiyyah), are a prominent religious group, centred in Syria, who follow a branch of the Twelver school of Shia Islam but with syncretistic elements. Alawites revere Ali (Ali ibn Abi Talib), and the name 'Alawi' means followers of Ali. The sect is believed to have been founded by Ibn Nusayr during the 9th century. For this reason, Alawites are sometimes called 'Nusayris', though this term has come to have derogatory connotations in the modern era; another name, 'Ansari' (al-Ansariyyah), is believed to be a mistransliteration of 'Nusayri'.



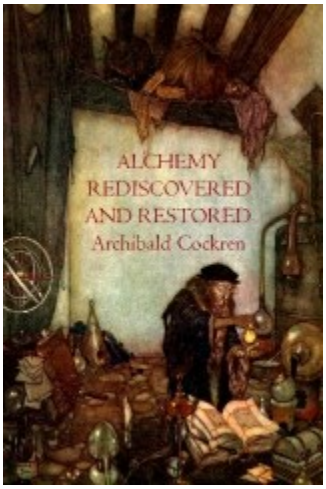
Alcestis
By Euripides
40 Pages, $16.24 USD, ISBN: 1479127787
At Pherae, outside the Palace of ADMETUS, King of Thessaly. The centre of the scene represents a portico with columns and a large double-door. To the left are the women's quarters, to the right the guest rooms. The centre doors of the Palace slowly open inwards, and Apollo comes out. In his left hand he carries a large unstrung golden bow. He moves slowly and majestically, turns, and raises his right hand in salutation to the Palace.



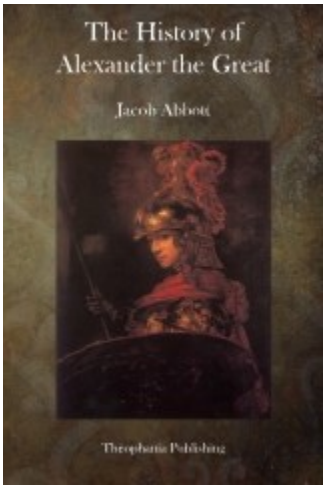
Alchemy and the Occult Arts
By Dr. Herbert Silberer
384 Pages, $24.24 USD, ISBN: 1478154047
Prominent among the stones of a fireplace in my country den, one large rounded giant stands out. It was bourne by the glacial streams from a more northern resting place and is marked by a fossil of a mollusk that inhabited northern seas many million years ago. Yet in spite of the eons of time that have passed it can be compared with specimens of mollusks that live to-day. Down through the countless centuries the living stream has carved its structural habitations in much the same form. The science of Paleontology has collected this history and has attempted a reconstruction of life from its beginnings.



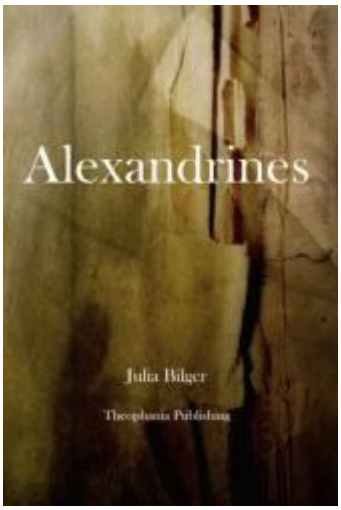
Alchemy in the Nineteenth Century
By H.P. Blavatsky
62 Pages, $16.24 USD, ISBN: 1500746886
THE language of archaic chemistry or Alchemy has always been, like that of the earlier religions, symbolical. We have shown in the Secret Doctrine that everything in this world of effects has three attributes or the triple synthesis of the seven principles. In order to state this more clearly, let us say that everything which exists in the world around us is made up of three principles and four aspects just as we have shown to be the case with man.



Alchemy Re-discovered and Restored
By Archibald Cockren
96 Pages, $16.24 USD, ISBN: 1770830901
With an account of the extraction of the seed of metals and the preparation of the medicinal elixir according to the practice of the hermetic Art and of the Alkahest of the Philosopher.

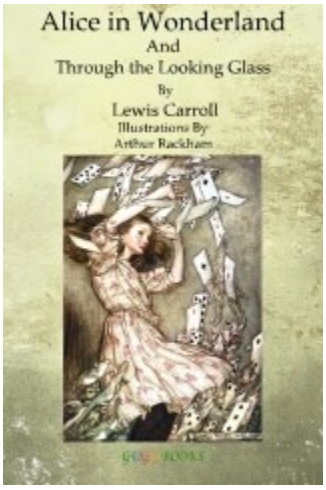


Alexander the Great
By Jacob Abbott
184 Pages, $18.24 USD, ISBN: 1500746975
THE history of the life of every individual who has, for any reason, attracted extensively the attention of mankind, has been written in a great variety of ways by a multitude of authors, and persons sometimes wonder why we should have so many different accounts of the same thing. The reason is, that each one of these accounts is intended for a different set of readers, who read with ideas and purposes widely dissimilar from each other. Among the twenty millions of people in the United States, there are perhaps two millions, between the ages of fifteen and twenty-five, who wish to become acquainted, in general, with the leading events in the history of the Old World, and of ancient times, but who, coming upon the stage in this land and at this period, have ideas and conceptions so widely different from those of other nations and of other times, that a mere republication of existing accounts is not what they require. The story must be told expressly to them.



Alexandrines
By Julia Bilger
74 Pages, $16.24 USD, ISBN: 1479127825
Alexandrines Translated from the “Cherubinischer Wandersmann” of Angelelus Silesius
“Three days: Today, Tomorrow and Yesterday, I know,
Yet if the past were cancelled within the here and now
And then the future hidden, I could regain that Day
Which I, before I was, had lived in God's own way.”

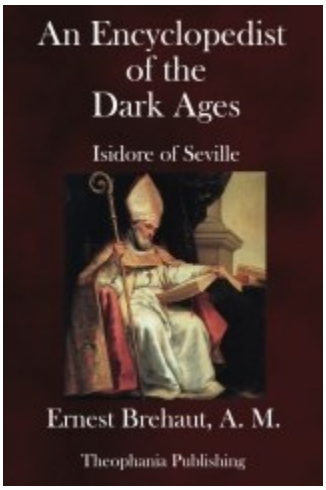
Algonquin Indian Tales
By Egerton R. Young
262 Pages, $22.24 USD, ISBN: 1469927896
In all ages, from the remotest antiquity, the story-teller has flourished. Evidences of his existence are to be found among the most ancient monuments and writings in the Orient ... Of this collection, Sir William Jones, the great Orientalist, wrote, "The fables of Veshnoo are the most beautiful, if not the most ancient, collection of apologues in the world." ... While the general impression is that the recital of these old myths and legends among Oriental nations was for the mere pastime of the crowds, it is well to bear in mind that many of them were used as a means to convey great truths or to reprove error.



Alice in Wonderland
By Lewis Carroll
338 Pages, $20.24 USD, ISBN: 151529160X GUGA BOOKS
Either the well was very deep, or she fell very slowly, for she had plenty of time as she went down to look about her, and to wonder what was going to happen next. First, she tried to look down and make out what she was coming to, but it was too dark to see anything: then she looked at the sides of the well, and noticed that they were filled with cupboards and book-shelves: here and there she saw maps and pictures hung upon pegs. She took down ajar from one of the shelves as she passed: it was labeled 'ORANGE MARMALADE' but to her great disappointment it was empty: she did not like to drop the jar, for fear of killing somebody underneath, so managed to put it into one of the cupboards as she fell past it. 'Well!' thought Alice to herself 'After such a fall as this, I shall think nothing of tumbling down-stairs!

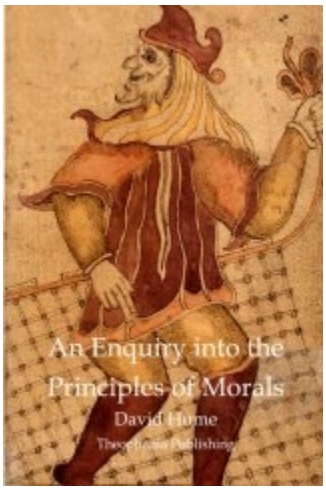
Among the Tibetans
By Isabella L. Bird
76 Pages, $16.24 USD, ISBN: 1770833080
The first view, and indeed the whole view of this temple of Wrath or Justice, was suggestive of a frightful Inferno, with its rows of demon gods, hideous beyond Western conception, engaged in torturing writhing and bleeding specimens of humanity. Demon masks of ancient lacquer hung from the pillars, naked swords gleamed in motionless hands, and in a deep recess whose 'darkness' was rendered 'visible' by one lamp, was that indescribable horror the executioner of the Lord of Hell, his many brandished arms holding instruments of torture, and before him the bell, the thunderbolt and sceptre, the holy water, and the baptismal flagon.

An Alchemical Treatise Of the Generation of Things
By Arthur Edward Waite
54 Pages, $16.24 USD, ISBN: 1770832939
Nature comprehends the visible and invisible Creatures of the Whole universe. What we call Nature especially, is the universal fire or Anima Mundi, filling the whole system of the Universe, and therefore is a Universal Agent, omnipresent, and endowed with an unerring instinct, and manifests itself in fire and Light. It is the First creature of Divine Omnipotence.



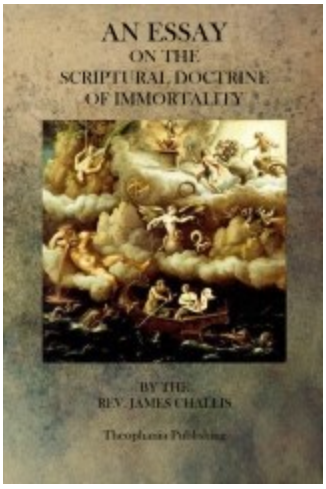
An Encyclopedist of the Dark Ages: Isidore of Seville
By Ernest Brehaut A.M.
374 Pages, $24.25 USD, ISBN: 1979208662
THE development of European thought as we know it from the dawn of history down to the Dark Ages is marked by the successive secularization and de-secularization of knowledge. From the beginning Greek secular science can be seen painfully disengaging itself from superstition. For some centuries it succeeded in maintaining its separate existence and made wonderful advances; then it was obliged to give way before a new and stronger set of superstitions which may be roughly called Oriental.

An Enquiry Concerning Human Understanding
By David Hume
188 Pages, $18.24 USD, ISBN: 1770833609
Most of the principles, and reasonings, contained in this volume, were published in a work in three volumes, called A Treatise of Human Nature: a work which the Author had projected before he left College, and which he wrote and published not long after. But not finding it successful, he was sensible of his error in going to the press too early, and he cast the whole anew in the following pieces, where some negligences in his former reasoning and more in the expression, are, he hopes, corrected.

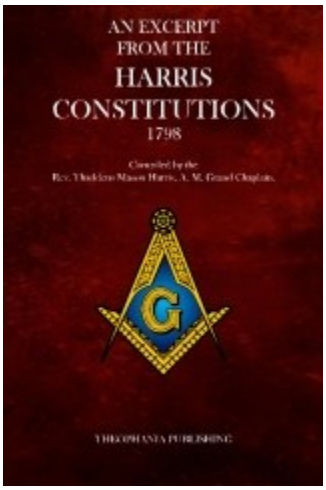


An Enquiry into the Principles of Morals
By David Hume
174 Pages, $18.24 USD, ISBN: 1770833617
Most of the principles, and reasonings, contained in this volume, were published in a work in three volumes, called A Treatise of Human Nature: a work which the Author had projected before he left College, and which he wrote and published not long after. But not finding it successful, he was sensible of his error in going to the press too early, and he cast the whole anew in the following pieces, where some negligences in his former reasoning and more in the expression, are, he hopes, corrected.

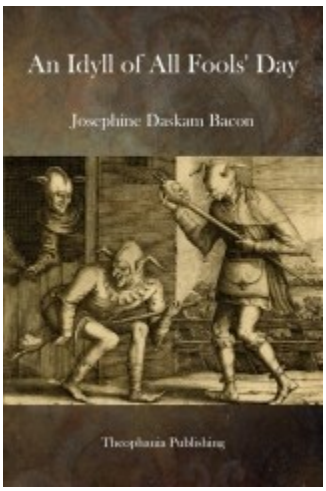
An Essay on the Lyric Poetry of the Ancients
By John Ogilvie A.M.
98 Pages, $16.24 USD, ISBN: 1500747041
It is an observation, no doubt, familiar to your Lordship, that Genius is the offspring of Reason and Imagination properly moderated, and co-operating with united influence to promote the discovery, or the illustration of truth. ... Reason in every mind is an uniform power, and its appearance is regular, and invariably permanent. When this Faculty therefore predominates in the sphere of composition, sentiments will follow each other in connected succession, the arguments employed to prove any point will be just and forcible; the stability of a work will be principally considered, and little regard will be payed to its exterior ornament.



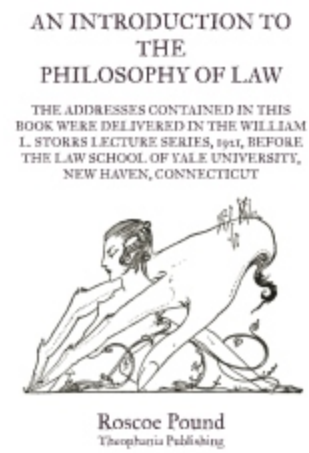
An Essay On The Scriptural Doctrine of Immortality
By Rev. James Challis
92 Pages, $16.24 USD, ISBN: 1770833099
Considering that under the existing conditions of humanity, disease, and decay, and death abound on every side, it is surprising that the word "immortality" obtained a place in systems of philosophy, the authors of which must be supposed to have been unacquainted with divine revelation. It is not surprising that in the absence of such aid the belief of immortality should not have been firmly held, or that by some philosophers it should have been expressly disavowed.



An Excerpt from the Harris Constitutions 1798
By Rev. Thaddeus Mason Harris
26 Pages, $16.24 USD, ISBN: 1516987721
AN EXCERPT FROM THE HARRIS CONSTITUTIONS 1798 It is something more than a glimpse into an Old Curiosity Shop, showing how Masonic history was written in that day, which is interesting as a warning, if nothing else; and at the same time furnishing some facts of real value. Such compilers are useful workers, and if some of the rubbish of the Temple gets into their records, it is for us to remove it, preserving, now and then, a stone of unique design--as did a certain young artist, once on a day, while digging in the quarry.) An old Manuscript which was destroyed, with many others in 1720, said to have been in the possession of NICHOLAS STONE, a curious Sculptor under INIGO JONES.



An Idyll of All Fools Day
By Josephine Daskam Bacon
96 Pages, $16.24 USD, ISBN: 1500747106
'TWAS a bloomy morning, all crocuses and tree buds, and Antony sniffed it into his nostrils thankfully, even while he scowled. "Come, come!" said his Uncle Julius, a wealthy old gentleman buttoned firmly into a white vest, "what a face! It is nothing so terrible that I ask of you! One would think it a hanging matter, to beau a pretty young girl about the place!" "You know that I do not care for schoolgirls, Uncle Julius," said Antony severely. "Fiddlestick!" his Uncle Julius cried, "and what are you sir, but a school boy, I should like to know? What shall we hear next, I wonder?" Antony put on some fresh grey gloves with a sigh.



AN INTRODUCTION TO THE PHILOSOPHY OF LAW

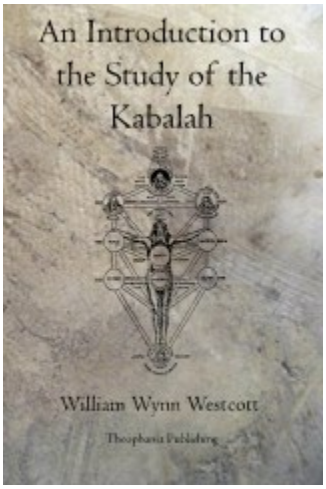
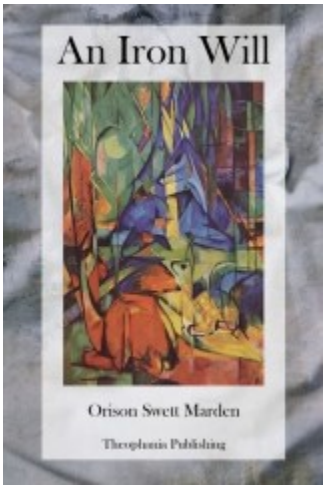
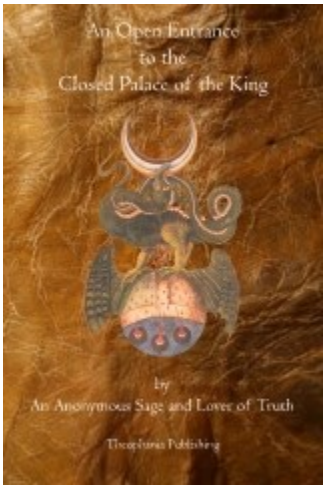
An Introduction to the Philosophy of Law
By Roscoe Pound
146 Pages, $18.24 USD, ISBN: 1469927918
This book is a written version of lectures delivered before the Law School of Yale University as Storrs Lectures in the school year 1921-1922. A metaphysician who had written on the secret of Hegel was congratulated upon his success in keeping the secret. One who essays an introduction to the philosophy of law may easily achieve a like success. His hearers are not unlikely to find that he has presented not one subject but two, presupposing a knowledge of one and giving them but scant acquaintance with the other.



An Introduction to the Study of the Kabalah
By William Wynn Westcott
44 Pages, $16.24 USD, ISBN: 177083043X
Students of literature, philosophy and religion who have any sympathy with the Occult Sciences may well pay some attention to the Kabalah of the Hebrew Rabbis of olden times; for whatever faith may be held by the enquirer he will gain not only knowledge, but also will broaden his views of life and destiny, by comparing other forms of religion with the faith and doctrines in which he has been nurtured, or which he has adopted after reaching full age and powers of discretion. Being fully persuaded of the good to be thus derived, I desire to call attention to the dogmas of the old Hebrew Kabalah.

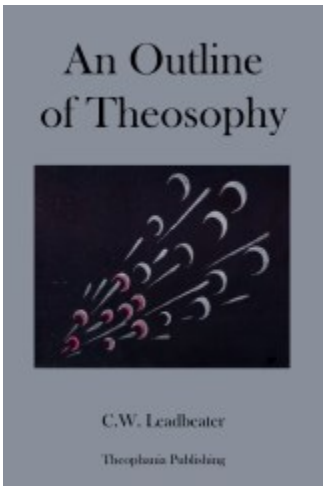


An Iron Will
By Orison Swett Marden
56 Pages, $16.24 USD, ISBN: 1478154071
In respect to mere mundane relations, the development and discipline of one's will-power is of supreme moment in relation to success in life. No man can ever estimate the power of will. It is a part of the divine nature, all of a piece with the power of creation. We speak of God's fiat "Fiat lux, Let light be." Man has his fiat. The achievements of history have been the choices, the determinations, the creations, of the human will. It was the will, quiet or pugnacious, gentle or grim, of men like Wilberforce and Garrison, Goodyear and Cyrus Field, Bismarck and Grant, that made them indomitable. They simply would do what they planned. Such men can no more be stopped than the sun can be, or the tide.



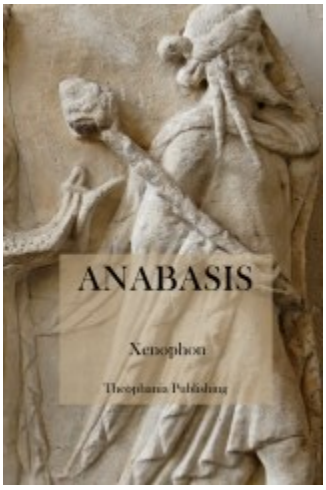
An Open Entrance to the Closed Palace of the King
By An Anonymous Sage And Lover Of Truth
56 Pages, $15.24 USD, ISBN: 1770830448

The contents of this Book are not fables, but real experiments which I have seen, touched, and handled, as an adept will easily conclude from these lines. I have written more plainly about this Art than any of my predecessors; sometimes I have found myself on the very verge of breaking my vow, and once or twice had to lay down my pen for a season; but I could not resist the inward prompting of God, which impelled me to persevere in the most loving course, who alone knows the heart, and to whom only be glory for ever. Hence, I undoubtedly gather that in this last age of the world, many will become blessed by this arcanum, through what I have thus faithfully written, for I have not willingly left anything doubtful to the young beginner. I know many who with me do enjoy this secret, and am persuaded that many more will also rejoice in its possession.



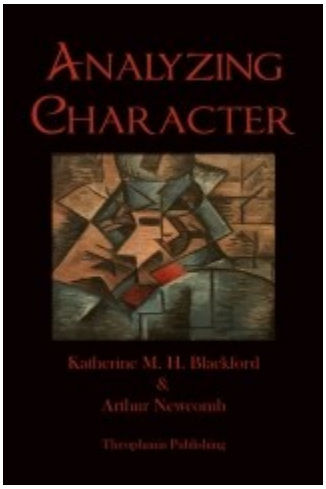
An Outline of Theosophy
By C. W. Leadbeater
86 Pages, $16.24 USD, ISBN: 1479127922

For many a year men have been discussing arguing, enquiring about certain great basic truths – about the existence and the Nature of God, about His relation to man, and about the past and future of humanity. So radically have they differed on these points, and so bitterly have they assailed and ridiculed one another's beliefs, that there has come to be a firmly-rooted popular opinion that with regard to all these matters there is no certainty available – nothing but vague speculation amid a cloud of unsound deductions drawn from ill-established premises.

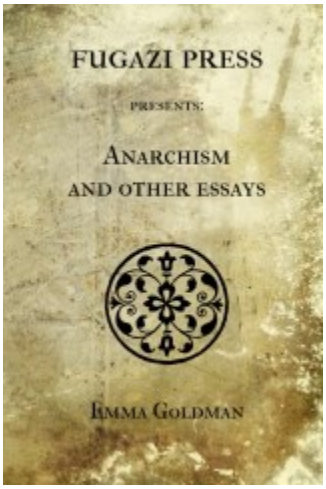


Anabasis
By Xenophon
288 Pages, $21.24 USD, ISBN: 1475006047

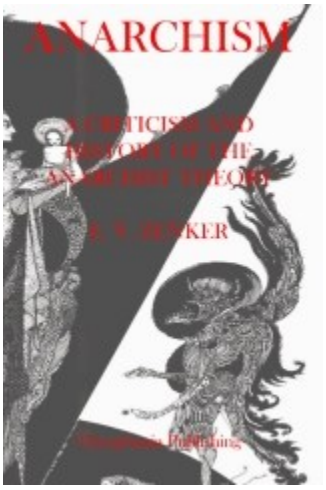
Xenophon the Athenian was born 431 B.C. He was a pupil of Socrates. He marched with the Spartans, and was exiled from Athens. Sparta gave him land and property in Scillus, where he lived for many years before having to move once more, to settle in Corinth. He died in 354 B.C. The Anabasis is his story of the march to Persia to aid Cyrus, who enlisted Greek help to try and take the throne from Artaxerxes, and the ensuing return of the Greeks, in which Xenophon played a leading role. This occurred between 401 B.C. and March 399 B.C.



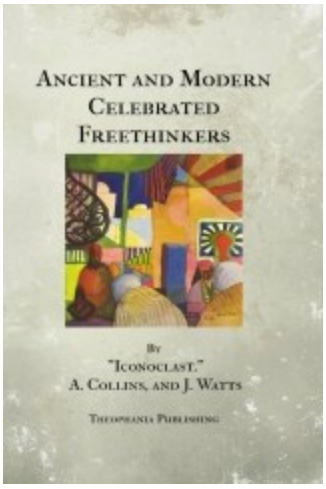
Analyzing Character
By Katherine M. H. Blackford
454 Pages, $26.24 USD, ISBN: 1479127973
This work is a treatise upon the fascinating and valuable art of analyzing human character. It makes no attempt to teach, as such, the technical principles upon which this art is based. It is, rather, an attempt to familiarize the reader with the most important of these by the inductive method by means of incidents and descriptions from our records and from the biographies of well-known men. Some effort has been made, also, to give the reader the benefit of the authors' experience and observation in vocational counsel, employment, and salesmanship.



Anarchism and Other Essays
By Emma Goldman
246 Pages, $20.24 USD, ISBN: 1477472797 FUGAZI PRESS
Propagandism is not, as some suppose, a trade because nobody will follow a trade at which you may work with the industry of a slave and die with the reputation of a mendicant. The motives of any persons to pursue such a profession must be different from those of trade, deeper than pride, and stronger than interest. George Jacob Holyoake. Among the men and women prominent in the public life of America there are but few whose names are mentioned as often as that of Emma Goldman. Yet the real Emma Goldman is almost quite unknown. The sensational press has surrounded her name with so much misrepresentation and slander, it would seem almost a miracle that, in spite of this web of calumny, the truth breaks through and a better appreciation of this much maligned idealist begins to manifest itself.



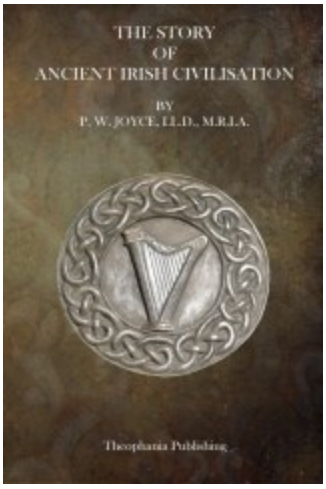
Anarchism A Criticism and History of Anarchist Theory
By E. V. Zenker
298 Pages, $23.24 USD, ISBN: 1469927934
In the day of the bomb outrage in the French Parliament I gave an impromptu discourse upon Anarchism to an intelligent audience anxious to know more about it, touching upon its intellectual ancestry, its doctrines, propaganda, the lines of demarcation that separate it from Socialism and Radicalism, and so forth. The impression which my explanations of it made upon my audience was at the same time flattering and yet painful to me. I felt almost ashamed that I had told these men, who represented the pick of the middle-class political electorate, something entirely new to them in speaking of matters which, considering their reality and the importance of the question, ought to be familiar to every citizen.



Ancient and Modern Celebrated Freethinkers
By Charles Bradlaugh
320 Pages, $22.24 USD, ISBN: 1475256442
In these pages, appearing under the title of "Half-Hours with the Freethinkers," are collected in a readable form an abstract of the lives and doctrines of some of those who have stood foremost in the ranks of Free-thought in all countries and in all ages; and we trust that our efforts to place in the hands of the poorest of our party a knowledge of works and workers—some of which and whom would otherwise be out of their reach—will be received by all in a favorable light.

Ancient Egypt The Light of the World
By Gerald Massey
738 Pages, $55.24 USD, ISBN: 1770833757
Nothing is more common or more unquestioned than the inference that primitive man would or could have asked, 'Who is doing it?' and that the who could have been personified in the human likeness. Indeed, it has become an axiom with modern metaphysicians and a postulate of the anthropologists that, from the beginning, man imposed his own human image upon external nature; that he personified its elemental energies and fierce physical forces after his own likeness; also that this was in accordance with the fundamental character and constitution of the human mind.

Ancient Fragments
By I.P. Cory
190 Pages, $20.24 USD, ISBN: 1770833641
IN presenting this collection of ANCIENT FRAGMENTS to the world, some explanation of what is comprehended under that title may not be deemed unnecessary. We are accustomed to regard the Hebrew scriptures, and the Greek and Latin writings, as the only certain records of antiquity: yet there have been other languages, in which have been written the annals and the historyies of other nations. Where then are those of Assyria and Babylon, of Persia and Egypt and Phoenicia, of Tyre and Carthage? Of the literature of all these mighty empires, where are even the remains?

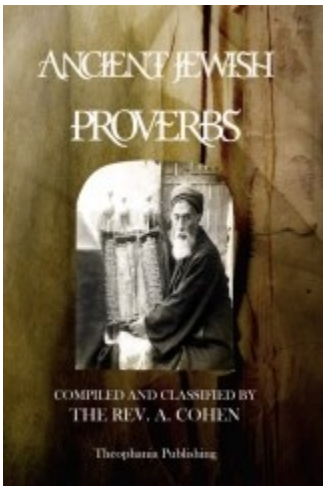


Ancient Irish Civilization

By P.W. Joyce LL.D.

144 Pages, $17.24 USD, ISBN: 1500747246

This little book has been written and published with the main object of spreading as widely as possible among our people, young and old, a knowledge of the civilisation and general social condition of Ireland from the fifth or sixth to the twelfth century, when it was wholly governed by native rulers. The publication comes at an appropriate time, when there is an awakening of interest in the Irish language, and in Irish lore of every kind, unparalleled in our history. But the book has a further mission. There are many English and many Anglo-Irish people who think, merely from ignorance, that Ireland was a barbarous and half-savage country before the English came among the people and civilised them. This book, so far as it finds its way among the two classes above mentioned, will, I fancy, open their eyes.

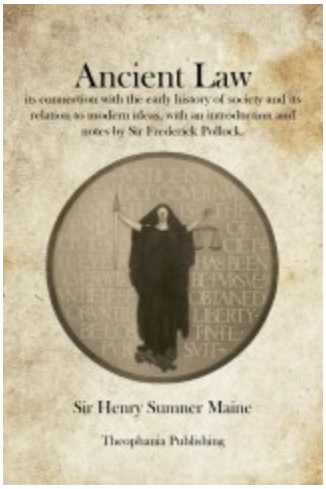


Ancient Jewish Proverbs

By Rev A. Cohen

116 Pages, $16.24 USD, ISBN: 147914021X

The best modern collection of Jewish proverbs is Rabbinische Blumenlese (Leipzig, 1844), and Zur rabbinischen Spruchkunde (Wien, 1851), by Leopold Dukes. The original sayings are given in alphabetical order with translation and explanatory notes. Many Hebrew maxims of individual Rabbis are also included in his list. My indebtedness to Dukes' work is very great, although I frequently differ from him in translation and interpretation. I have also been able to fill up several lacunae in his book. Every Rabbinic reference has been examined and rectified where incorrect.



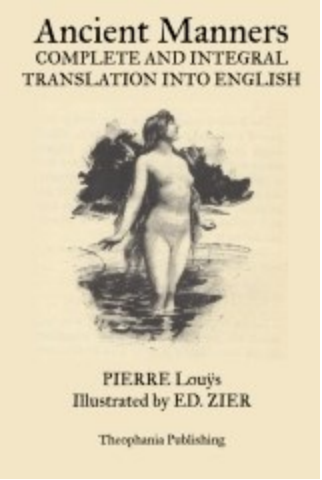
Ancient Law
its connection with the early history of society and its relation to modern ideas, with an introduction and notes by Sir Frederick Pollock.
Sir Henry Sumner Maine
Theophania Publishing

Ancient Law

By Sir Henry Sumner Maine

354 Pages, $25.24 USD, ISBN: 1469927950

The theory of legal development propounded in this volume has been generally accepted; but it has been thought that, in his Fifth Chapter on Primitive Society and Ancient Law, the Author has not done sufficient justice to investigations which appear to show the existence of states of society still more rudimentary than that vividly described in the Homeric lines quoted, and ordinarily known as the Patriarchal State. The Author has mentioned accounts by contemporary observers of civilisations less advanced than their own, as capable of affording peculiarly good evidence concerning the rudiments of society...

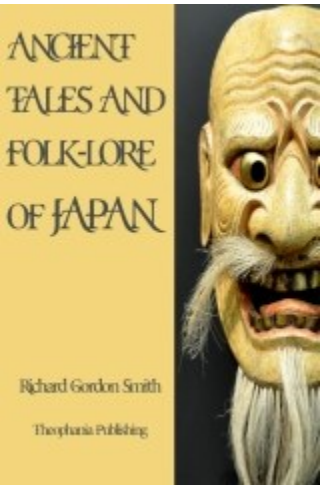


Ancient Manners

By Pierre Louÿs

356 Pages, $25.24 USD, ISBN: 1469927985

To little children he complacently held up the example of the austere choice of Heracles; to young men. doubtless, he related the voluptuous choice of Paris, and I imagine that to full-grown men he addressed himself somewhat as follows: "One day Odysseus was roaming about the foot of the mountains of Delphi, hunting, when he fell in with two maidens holding one another by the hand. One of them had glossy, black hair, clear eyes, and a grave look. She said to him: 'I am Arete.' The other had drooping eyelids, delicate hands, and tender breasts. She said: 'I am 'Tryphe.' And both exclaimed: 'Choose between us.'



Ancient Tales and Folk-Lore of Japan

By Richard Gordon Smith

388 Pages, $24.24 USD, ISBN: 1479140244

THE stories in this volume are transcribed from voluminous illustrated diaries which have been kept by me for some twenty years spent in travel and in sport in many lands the last nine of them almost entirely in Japan, while collecting subjects of natural history for the British Museum; trawling and dredging in the Inland Sea, sometimes with success, sometimes without, but in the end contributing to the treasury some fifty things new to Science, and, according to Sir Edwin Ray Lankester, 'adding greatly to the knowledge of Japanese Ethnology.'

And Even Now

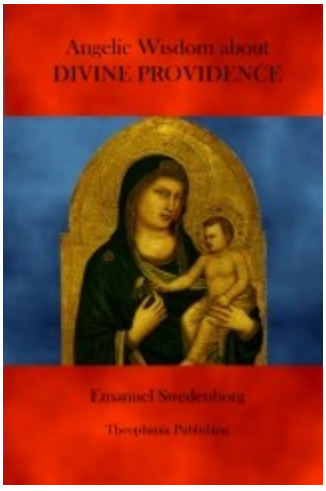
By Max Beerbohm

310 Pages, $22.25 USD, ISBN: 1981199519

I offer here some of the essays that I have written in the course of the past ten years. While I was collecting them and (quite patiently) reading them again, I found that a few of them were in direct reference to the moments at which they were severally composed. It was clear that these must have their dates affixed to them. And for sake of uniformity I have dated all the others, and, doing so, have thought I need not exclude all such topical remarks as in them too were uttered, nor throw into a past tense such of those remarks as I have retained.

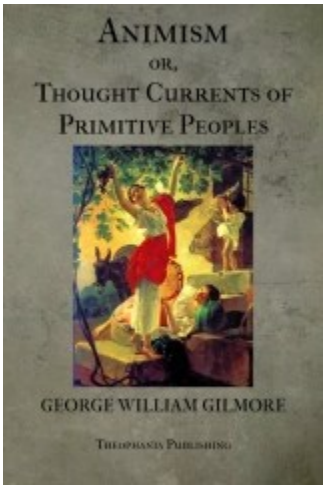
Androcles and the Lion
By George Bernard Shaw
172 Pages, $19.24 USD, ISBN: 1469928027
The question seems a hopeless one after 2000 years of resolute adherence to the old cry of Not this man, but Barabbas. Yet it is beginning to look as if Barabbas was a failure, in spite of his strong right hand, his victories, his empires, his millions of money, and his moralities and churches and political constitutions. This man has not been a failure yet; for nobody has ever been sane enough to try his way. But he has had one quaint triumph. Barabbas has stolen his name and taken his cross as a standard. There is a sort of compliment in that.

Andromache
By Euripides
40 Pages, $16.24 USD, ISBN: 1479140295
O city of Thebes, glory of Asia, whence on a day I came to Priam's princely home with many a rich and costly thing in my dower, affianced unto Hector to be the mother of his children, I Andromache, envied name in days of yore, but now of all women that have been or yet shall be the most unfortunate; for I have lived to see my husband Hector slain by Achilles, and the babe Astyanax, whom I bore my lord, hurled from the towering battlements, when the Hellenes sacked our Trojan home; and I myself am come to Hellas as a slave, though I was esteemed a daughter of a race most free, given to Neoptolemus that island-prince, and set apart for him as his special prize from the spoils of Troy.

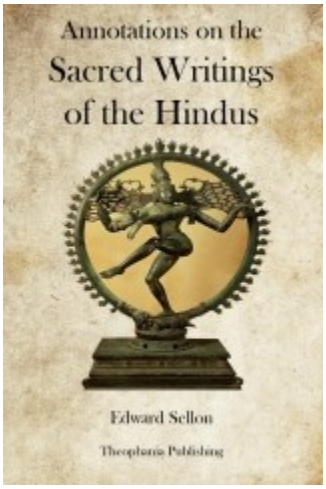


Angelic Wisdom about Divine Providence
By Emanuel Swedenborg
346 Pages, $25.24 USD, ISBN: 146992806X
The reader will find in this book a firm assurance of God's care of mankind as a whole and of each human being. The assurance is rested in God's infinite love and wisdom, the love pure mercy, the wisdom giving love its ways and means. It is further grounded in an interpretation of the universe as a spiritual-natural world, an interpretation fully set forth in the earlier book, Divine Love and Wisdom , on which the present work draws heavily. As there is a world of the spirit, no view of providence can be adequate which does not take that world into account. For in that world must be channels for the outreach of God's care to the human spirit.

Anima Astrologiae; or a Guide for Astrologers
By William Lilly
134 Pages, $17.24 USD, ISBN: 1478255919
Knowing how necessary the ensuing Considerations of Guido Bonatus and Aphorisms adjoined, are to be known and regarded, which many of our ingenious countrymen could not do, for they have hitherto remained in the Latin tongue with the rest of the works of these authors in large volumes, difficult to be got at and too chargeable for man to buy, we therefore recommend them to a friend to be translated by themselves, which he has judiciously performed in plain significant language, so that we judge the work may deserve the title Anima Astrologiae which we have given it, comprehending the marrow and substance of Astrology, and much excellent matter necessary to be observed by all honest students that practice Art to discover truth and not to vapour with.



Animism or Thought Currents of Primitive Peoples
By George William Gilmore
156 Pages, $17.24 USD, ISBN: 1475256469
THE result of recent historical studies, whether on anthropological, sociological, archeological, or religious lines, has brought into ever clearer vision as the substratum of all civilizations that stage of culture from which this book takes its title. One consequence is: general recognition of animism as a life factor, the power of which is not yet exhausted, the study of which fascinates because of its almost infinite variety and its persistent force. The words "animism," "animistic," have come to fall ever so lightly from tongue and pen and meet us at every turn. Yet what animism is few who use the term adequately realize.



Annotations on the Sacred Writings of the Hindus
By Edward Sellon
80 Pages, $17.24 USD, ISBN: 1469928094
IT HAS been suggested to the author of the following pages to compile a small treatise which, without professing to be an abridgment of the Hindu sacred writings, should convey in a concise form an "epitome" of the information that has been obtained with respect to the leading dogmas of the Brahminical superstition.

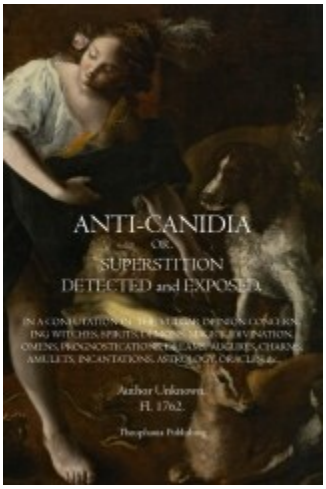
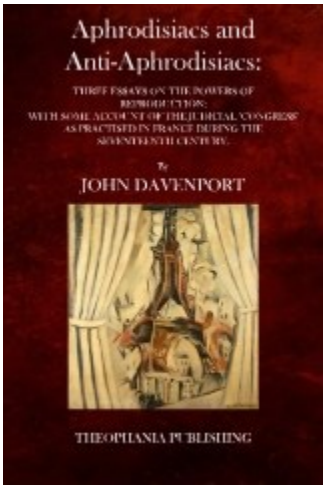
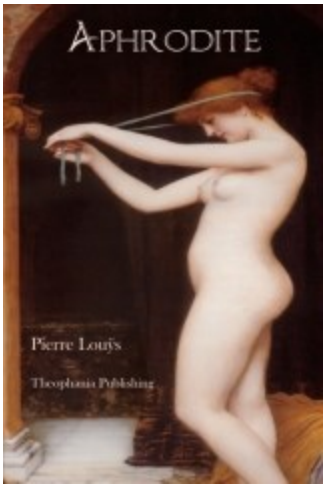
Antarctic Penguins: A Study of Their Social Habits
By DR. G. Murray Levick R.N.
130 Pages, $20.24 USD, ISBN: 1505275598
THE penguins of the Antarctic regions very rightly have been termed the true inhabitants of that country. The species is of great antiquity, fossil remains of their ancestors having been found, which showed that they flourished as far back as the eocene epoch. To a degree far in advance of any other bird, the penguin has adapted itself to the sea as a means of livelihood, so that it rivals the very fishes. This proficiency in the water has been gained at the expense of its power of flight, but this is a matter of small moment, as it happens.



Anti Canidia: SUPERSTITION DETECTED AND EXPOSED
By Author Unknown
72 Pages, $15.24 USD, ISBN: 1461165989
The tyranny of Superstition over the minds of mankind has certainly been more extensive, more lasting, and despotick, than any other empire in the world ever was. To attempt a resistance against it's dominion, during its strength, would have been only sacrificing to it what was least devoted: while a belief of Antipodes, which is certainly true; or a disbelief of transubstantiation, which is certainly false; were reckoned equal to the crimes of Socrates: and subjected the daring rebel to the spiritual discipline of the inquisition.



Aphrodisiacs and Anti-Aphrodisiacs
By John Davenport
208 Pages, $19.24 USD, ISBN: 1516994191
THE reproductive powers of Nature were regarded by the nations of remote antiquity with an awe and reverence so great, as to form an object of worship, under a symbol, of all others the most significant,—the Phallus; and thus was founded a religion, of which the traces exist to this day, not in Asia only, but even in Europe itself. That scarcely any notices of this worship should appear in modern works, except in the erudite pages of a few antiquarians may be accounted for by considering the difference of opinion between the ancients and the moderns as to what constitutes—modesty; the former being unable to see any moral turpitude in actions they regarded was the designs of nature



Aphrodite
By Pierre Louÿs
266 Pages, $21.24 USD, ISBN: 1479140368
The erudite Prodicos of Ceos, who flourished toward the end of the first century before our era, is the author of the celebrated apologue which St. Basil recommended to Christian meditation: "Herakles between virtue and voluptuousness." We know that Herakles decided for the first, and was thus enabled to accomplish a certain number of great crimes against the Hinds, the Amazons, the Golden Apples and the Giants. If Prodicos had limited himself to that, he would have written only a fable of readily comprehended symbolism, but he was a clever philosopher and his repertory of tales, "The Hours," which was divided into three parts, presented the moral truths under their three different aspects which correspond to the three ages of life.

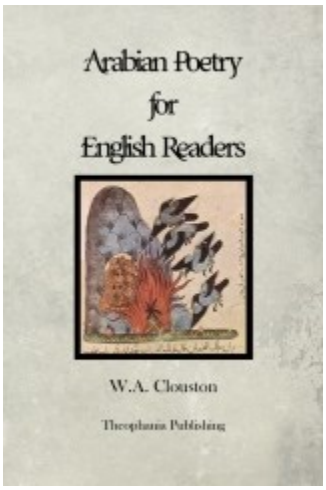
Apu Ollantay

By Dr. Valdez

80 Pages, $16.24 USD, ISBN: 147918277X

This is one of the only (if not the only) Native American dramatic compositions known. It compares favorably with European dramas; it also gives a rare look at the inner workings of the Inca culture. This is the tale of Ollantay, a noble commoner who defies the Inca because of his love for the princess Cusi Coyllor, and thereby puts the empire into a state of rebellion. Ollantay combines tragedy and comedy, and has a vivid cast of male and female characters. This translation by Clements Markham follows the original closely and is very readable.



Arabian Poetry for English Readers

By W. A. Clouston

558 Pages, $29.24 USD, ISBN: 1480081043

The Arabian Poets were the historians and moralists of the age; and if they sympathised with the prejudices, they inspired and crowned the virtues of their countrymen: the indissoluble union of generosity and valour was the darling theme of their song.

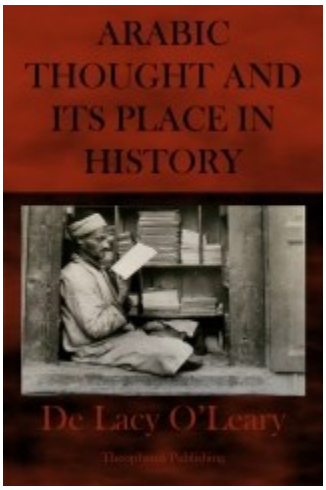
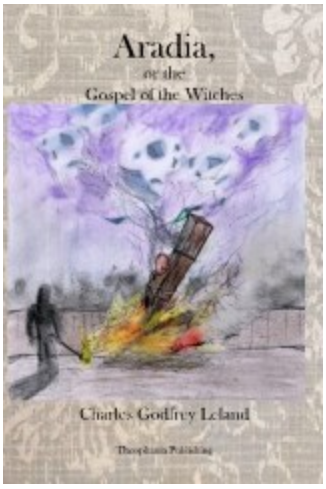
Arabian Wisdom
By John Wortabet
98 Pages, $15.24 USD, ISBN: 1480119121
The wise sayings and proverbs of ancient and modern times, and in all the languages I know or to which I had access in translations, have always had a great attraction for me. Drawn from the experiences and study of human life, they have been reduced by wise men to short, pithy sentences, generally expressed in some quaint or striking form, for conveying sound moral truths.



Arabic Thought and Its Place in History
By De Lacy O'Leary
216 Pages, $16.24 USD, ISBN: 1482757168
History traces the evolution of the social structure in which the community exists to-day. There are three chief factors at work in this evolution; racial descent, culture drift, and transmission of language: the first of these physiological and not necessarily connected with the other two, whilst those two are not always associated with each other.



Aradia: The Gospel of the Witches
By Charles Godfrey Leland
130 Pages, $20.24 USD, ISBN: 1926842340
Aradia, or the Gospel of the Witches is a book composed by the American folklorist Charles Leland, originally published in 1899. It contains what he believed was the religious text of a group of pagan witches in Tuscany, Italy, which documented their beliefs and rituals. Many historians and folklorists have disputed the existence of such a group. In the 20th century, the book was very influential in the development of the Neopagan religion of Wicca.

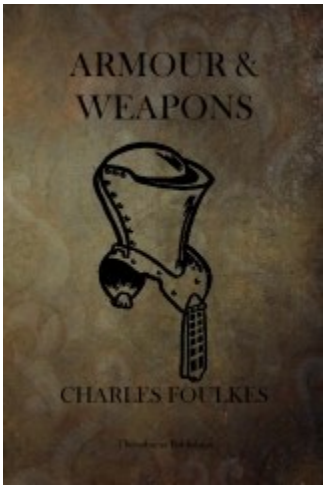
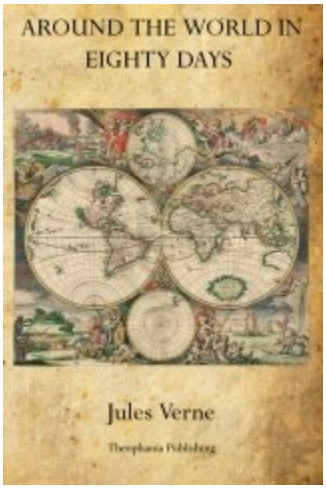
Architects of Fate
By Orison Swett Marden
364 Pages, $24.24 USD, ISBN: 147815411X
Inspiration to character-building and worthy achievement is the keynote of the present volume, its object, to arouse to honorable exertion youth who are drifting without aim, to awaken dormant ambitions in those who have grown discouraged in the struggle for success, to encourage and stimulate to higher resolve those who are setting out to make their own way, with perhaps neither friendship nor capital other than a determination to get on in the world.



Armour and Weapons
By Charles Foulkes
126 Pages, $16.24 USD, ISBN: 1500747319
Writers on Arms and Armour have approached the subject from many points of view, but, as all students know, their works are generally so large in size, or, what is more essential, in price, that for many who do not have access to large libraries it is impossible to learn much that is required. Then again, the papers of the Proceedings of the various Antiquarian and Archaeological Societies are in all cases very scattered and, in some cases, unattainable, owing to their being out of print.



Around the World in Eighty Days
By Jules Verne
210 Pages, $19.24 USD, ISBN: 1770831916
Around the World in Eighty Days was written during difficult times, both for France and for Verne. It was during the Franco-Prussian War (1870–1871) in which Verne was conscripted as a coastguard, he was having money difficulties (his previous works were not paid royalties), his father had died recently, and he had witnessed a public execution which had disturbed him.

In the chariot and in the flowing reins was Automedon skilled: in the Hæmonian ship of Jason Tiphys was the pilot. Me, too, skilled in my craft, has Venus made the guardian of Love. Of Cupid the Tiphys and the Automedon shall I be styled.

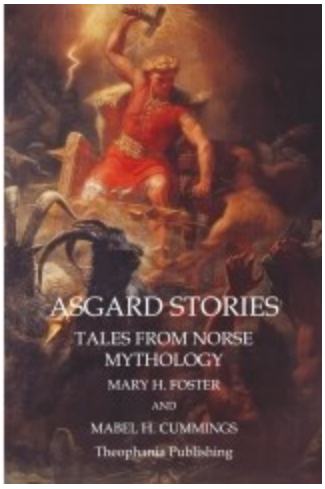
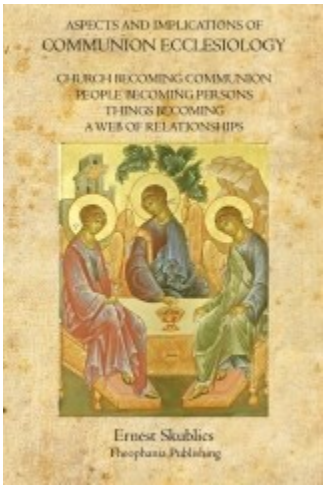
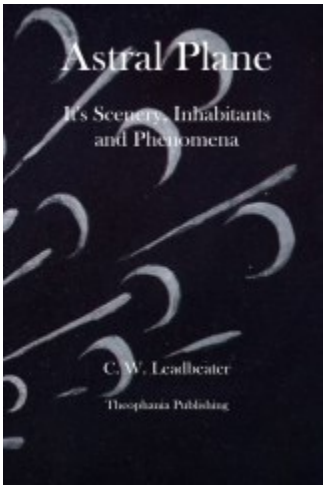
As A Man Thinketh
By James Allen
28 Pages, $10.24 USD, ISBN: 1926842707
"Eat thou not the bread of him that hath an evil eye, neither desire thou his dainty meats: For as he thinketh in his heart, so is he: Eat and drink, saith he to thee; but his heart is not with thee. The morsel which thou hast eaten shalt thou vomit up, and lose thy sweet words."



Asgard Stories: Tales from Norse Mythology
By Mary H. Foster
102 Pages, $16.24 USD, ISBN: 1770833633
This little volume is the outcome of several years experience in telling to classes of children the classic myths, both southern and northern. The insight and interest displayed by the children encourage the authors to hope that other teachers and pupils may enjoy the myths here reproduced. The interest shown at present in the teaching of myths to children seems to call for some such simple volume, giving the Norse myths in suitable form for use with pupils as well as for the childrens home reading.



Aspects and Implications of Communion Ecclesiology
By Ernest Skublics
418 Pages, $22.24 USD, ISBN: 1490558810
Christianity has survived two thousand years. But in that time it has cast itself into innumerable forms. It has diversified and subdivided to the point where, in some cases, one group of Christians hardly recognises another as professing the same religion. Many Christians do not understand each other when it comes to expressing their faith, and there are such cultural differences in the varied incarnations of that faith that it is often impossible for one group to feel in the least at home with the other, or indeed to share at least the basic presuppositions of any degree of 'communion' with each other. Yet, Christians are all baptised into the same Body, and, in the words of the First Letter to the Corinthians, they share a cup that 'is a communion with the blood of Christ,' and share the bread which 'is a communion with the body of Christ.



Astral Plane It's Scenery, Inhabitants and Phenomena
By C. W. Leadbeater
118 Pages, $16.24 USD, ISBN: 148008106X
Few words are needed in sending this little book out into the world. It is the fifth of a series of Manuals designed to meet the public demand for a simple exposition of Theosophical teachings. Some have complained that our literature is at once too abstruse, too technical, and too expensive for the ordinary reader, and it is our hope that the present series may succeed in supplying what is a very real want. Theosophy is not only for the learned; it is for all.

Astral Worship
By J. H. Hill
78 Pages, $15.24 USD, ISBN: 1926842855
Religion having been based upon the worship of personified nature, it is evident that its founders fabricated its dogmatic element from their conceptions of her destructive and reproductive processes as manifested in the rotation and diversity of the seasons. The apparent retreat of the sun from the earth, in winter, and his return in the spring, suggesting the idea of a figurative death and resurrection of the genius of that luminary, they applied these phenomena of the year to man, and composed the allegories relative to his fall and redemption, as inculcated in the Exoteric Creed.

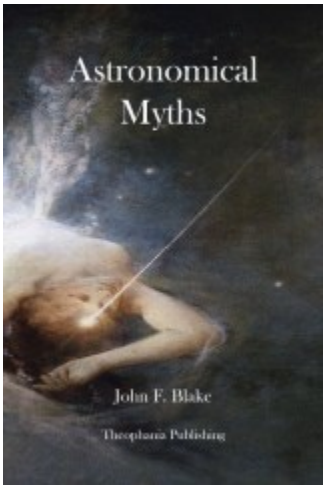
What influence the Stars naturally have on Man, and how the same may be diverted, and avoided. As also That the Outward Man, how eminent soever in all Natural and Political Sciences, is to be denied, and die in us; and, that the Inward Man by the Light of Grace, through profession and practice of a holy life, is to be acknowledged and live in us: Which is the only means to keep the true Sabbath in inward Holiness, and free from outward Pollution.



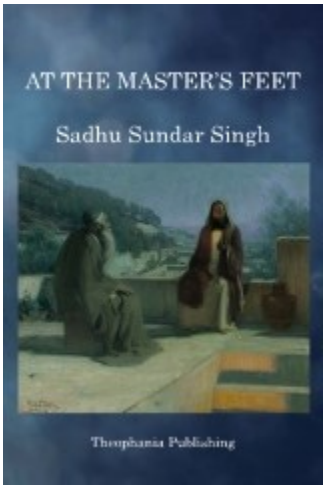
Astronomical Myths
By John F Blake
382 Pages, $24.24 USD, ISBN: 1478154152
The Book which is here presented to the public is founded upon a French work by M. Flammarion which has enjoyed considerable popularity. It contained a number of interesting accounts of the various ideas, sometimes mythical, sometimes intended to be serious, that had been entertained concerning the heavenly bodies and our own earth; with a popular history of the earliest commencement of astronomy among several ancient peoples. It was originally written in the form of conversations between the members of an imaginary party at the seaside.

At the Gate of Samaria

By William J. Locke

632 Pages, $32.25 USD, ISBN: 1979143048

It was a severe room, scrupulously neat. Along one side ran a bookcase, with beaded glass doors, containing, as one might see by peering through the spaces, the collected, unread literature of two stern generations. A few old prints, placed in bad lights, hung on the walls. In the centre of the room was a leather-covered library table, with writing materials arranged in painful precision. A couch was lined along one wall, in the draught of the door. On either side of the fireplace were ranged two stiff leather armchairs. In one of these chairs sat an old man, in the other a faded woman just verging upon middle age.

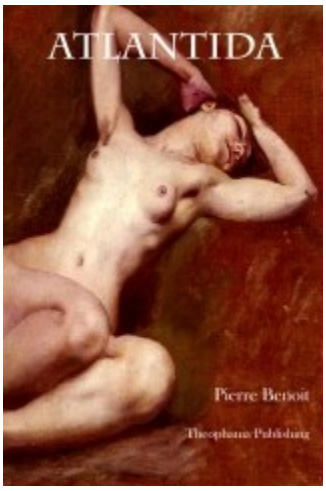


At the Master's Feet

By Sadhu Sundar Singh

70 Pages, $16.24 USD, ISBN: 1497464765

There is nothing so perfect in the world as to be quite above objection and criticism. The very sun which gives us light and warmth is not free from spots, yet notwithstanding these defects it does not desist from its regular duty. It behooves us in like manner to carry on to the best of our ability what has been entrusted to us, and strive constantly to make our lives fruitful. When the truths set forth in this book were revealed to me by the Master they deeply affected my life, and some of them have been used by me in my sermons and addresses in Europe, America, Africa, Australia, and Asia.



Atlantida

By Pierre Benoit

288 Pages, $21.24 USD, ISBN: 1479140511

I think of others, its brothers in France, the golden-brown May bugs, which I have seen on stormy summer evenings projecting themselves like little particles of the soil of my native countryside. It was there that as a child I spent my vacations, and later on, my leaves. On my last leave, through those same meadows, there wandered beside me a slight form, wearing a thin scarf, because of the evening air, so cool back there. But now this memory stirs me so slightly that I scarcely raise my eyes to that dark corner of my room where the light is dimly reflected by the glass of an indistinct portrait.

Atrocious Judges: Lives of Judges Infamous as Tools of Tyrants and Instruments of Oppression

By John Campbell

436 Pages, $26.24 USD, ISBN: 1478255943

The text of the following Book of Judges has been derived from Lord Campbell's Lives of the Chief Justices, and Lives of the Chancellors, with only a few verbal alterations for the sake of connection, some transpositions, the omission of some details of less interest to the American reader, and the insertion of a few paragraphs, enclosed in brackets, thus. Most biographers have been arrant flatterers.

By Murray Leinster

Legends do, of course, get somewhat distorted in the passage of time. In the future, the passage across space to other planets may cause a slight modification here and there ... Great treasures were once kept by the very wealthy, and the very privileged. These books were brought to the public eye with great difficulty, each one typeset by hand, the letters often carved meticulously by a master craftsman, and the individual pieces of type skillfully inked by hand, each page pressed in a large printing press, the pages impressed with the strength of one or two men, whose sole job it was to produce a single print. With movable lead and wood type the prints-men would create a perfect copy, the pages laid out to dry, and folded by hand, sewn on a large wooden frame, and bound by another master craftsman, his apprentices working feverishly to create the most beautiful copy that their patrons could afford.

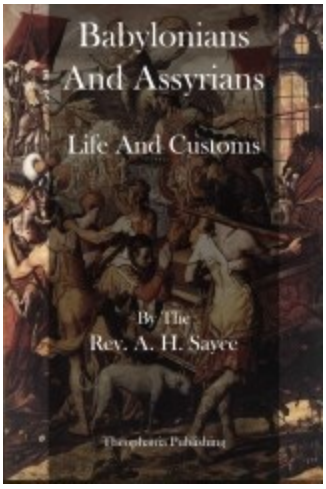
Babylonian Assyrian Birth Omens

By Morris Jastrow

96 Pages, $16.24 USD, ISBN: 1770831134

As a result of researches in the field of Babylonian-Assyrian divination, now extending over a number of years, it may be definitely said that apart from the large class of miscellaneous omens, the Babylonians and Assyrians developed chiefly three methods of divination into more or less elaborate systems, divination through the inspection of the liver of a sacrificial animal or Hepatoscopy, through the observation of the movements in the heavens or Astrology, and through the observance of signs noted at birth in infants and the young of animals or Birth-omens.

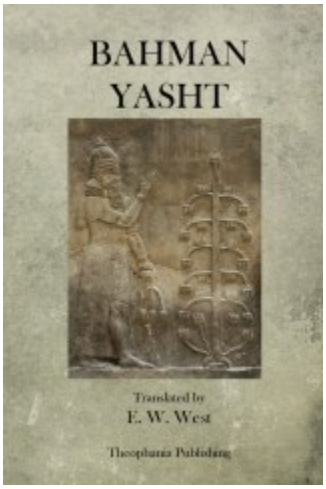


Babylonians And Assyrians

By Rev. A. H. Sayce

216 Pages, $19.24 USD, ISBN: 1770832599

Apart from the genetic relation which the thought of these peoples bears to the Christianity of the past and present, a study of their achievements in general has become a matter of general human interest. It is here that we find the earliest beginnings of civilization historically known to us—here that early religious ideas, social customs and manners, political organizations, the beginnings of art and architecture, the rise and growth of mythological ideas that have endured and spread to western nations, can be seen in their earliest stages, and here alone the information is supplied which enables us to follow them most successfully in their development.

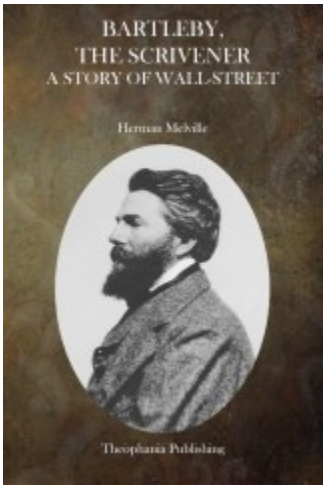


Bahman Yasht

By E. W. West

28 Pages, $16.24 USD, ISBN: 1470074060

In the Vohûman Yasht commentary (zand) it is declared that Zaratusht asked for immortality from Aûharmazd a second time, and spoke thus: 'I am Zaratusht, more righteous and more efficient among these thy creatures, O creator! when thou shalt make me immortal, as the tree opposed to harm, and Gopatshah, Gosht-i Fryan, and Kitrok-miyan son of Vishtâsp, who is Peshyotanu, were made. When thou shalt make me immortal they in thy good religion will believe that the upholder of religion, who receives from Aûharmazd his pure and good religion of the Mazdayasnians, will become immortal; then those men will believe in thy good religion.'

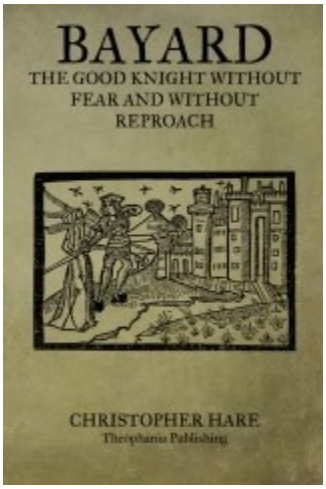


Bartleby the Scrivener

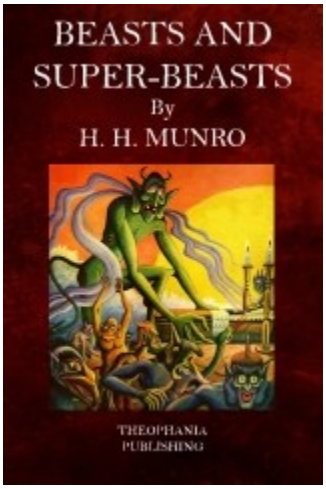
By Herman Melville

56 Pages, $16.24 USD, ISBN: 1500747424

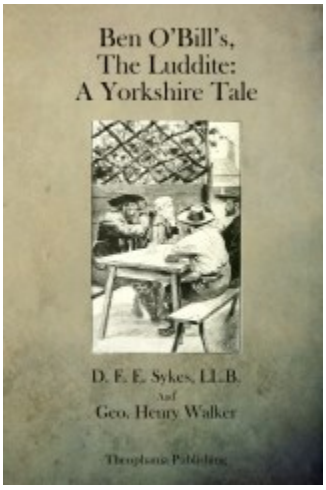
I am a rather elderly man. The nature of my avocations for the last thirty years has brought me into more than ordinary contact with what would seem an interesting and somewhat singular set of men, of whom as yet nothing that I know of has ever been written:—I mean the law-copyists or scriveners. I have known very many of them, professionally and privately, and if I pleased, could relate divers histories, at which good-natured gentlemen might smile, and sentimental souls might weep. But I waive the biographies of all other scriveners for a few passages in the life of Bartleby, who was a scrivener of the strangest I ever saw or heard of. While of other law-copyists I might write the complete life, of Bartleby nothing of that sort can be done. I believe that no materials exist for a full and satisfactory biography of this man.



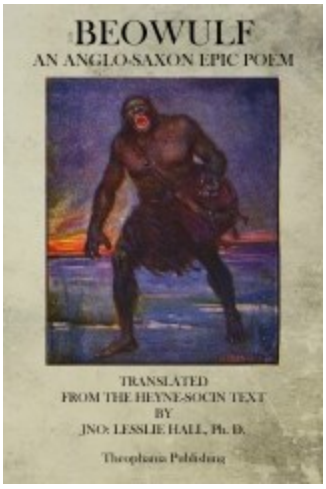
Bayard The Good Knight Without Fear and Without Reproach
By Christopher Hare
106 Pages, $17.24 USD, ISBN: 1469928124
That courtesy title which flies to the mind whenever the name Bayard is mentioned—"The Good Knight without Fear and without Reproach"—is no fancy name bestowed by modern admirers, but was elicited by the hero's merits in his own day and from his own people. The most valuable chronicle of the Good Knight's life and deeds was written with charming simplicity by a faithful follower, who, in single-hearted devotion to his beloved master's fame, took no thought for himself, but blotted out his own identity, content to remain for all time a nameless shadow—merely the LOYAL SERVITOR.



Beasts and Super-Beasts
By H.H. Munro
290 Pages, $22.24 USD, ISBN: 1517031184
His dabblings in the unseen might not have carried him beyond the customary platitudes of the drawing-room visionary if accident had not reinforced his stock-in-trade of mystical lore. In company with a friend, who was interested in a Ural mining concern, he had made a trip across Eastern Europe at a moment when the great Russian railway strike was developing from a threat to a reality; its outbreak caught him on the return journey, somewhere on the further side of Perm, and it was while waiting for a couple of days at a wayside station in a state of suspended locomotion that he made the acquaintance of a dealer in harness and metalware, who profitably whiled away the tedium of the long halt by initiating his English travelling companion in a fragmentary system of folk-lore that he had picked up from Trans-Baikal traders and natives.



Ben O'Bill's, The Luddite
By D.F.E. Sykes LL.B.
346 Pages, $23.25 USD, ISBN: 1978449313
IT HURTS me sore that folk in these days should so little understand the doings of us Luddites. To hear young people talk, the Luddites were miscreants that well, deserved the hanging they got—a set of idle, dissolute knaves and cut–throats the country was well rid of. Nay, worse, many young lads with a college learning seem to know next to nothing about them, and talk as though all great deeds were done in far–of parts, and as though of heroes and martyrs England has none to show. I am little apt at writing, and my hand is stiff and cramped with years.



Beowulf

By Lesslie Hall

168 Pages, $18.24 USD, ISBN: 1470078929

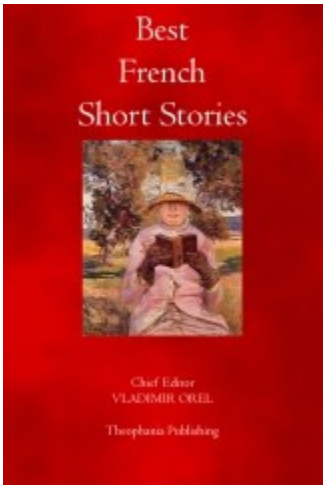
It is the devout desire of this translator to hasten the day when the story of Beowulf shall be as familiar to English speaking peoples as that of the Iliad. Beowulf is our first great epic. It is an epitomized history of the life of the Teutonic races. It brings vividly before us our forefathers of pre-Alfredian eras, in their love of war, of sea, and of adventure.

Best Before Expiration Date

By Robert L. Angus

128 Pages, $19.99 USD, ISBN: B0CV1GV4M6

Presented in no particular order these social media posts present a retrospective of an aspect of the author's search for joy, while facing his own personal failings, and dealing with familial trauma. The posts themselves jump back and forth over a period of nearly fifteen years, skimming over a short and disastrous marriage, detailing familial disputes, friendships, deaths, and grief. Here and there, light shines in, as those important and powerful relationships make themselves clearly known, showing support, faith, value, and humour. These are true, unedited glimpses into the author's life, and with the exception of a few spelling corrections and asides (for sake of clarity), they depict a decade and a half of yearning for something more, and yet, finding solace in the connections which have proven of true value.

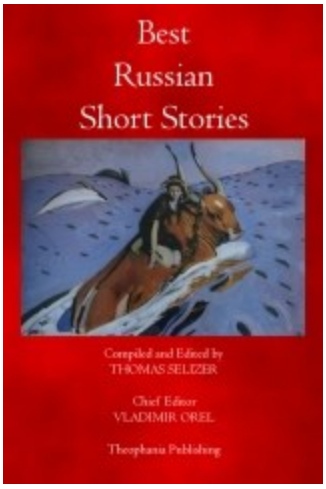


Best French Short Stories Edited

By Vladimir Orel

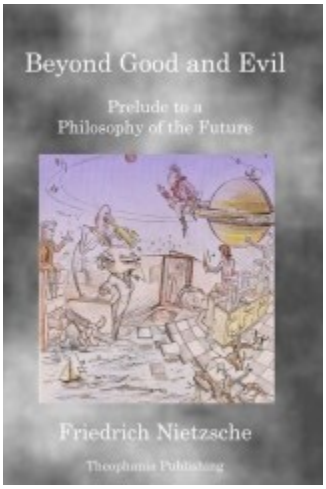
504 Pages, $28.24 USD, ISBN: 1770831142

This collection of French short stories is a logical continuation of our earlier publication, Best Russian Short Stories. The present volume reflects,to some extent ,the enigmatic universe of French story telling with its tradition of crisp, clear and stylistically refined language giving an unusual depth and laconism to psychological characteristics of human beings. We hope that English translations render some of the beauty and internal narrative consistency of French originals.



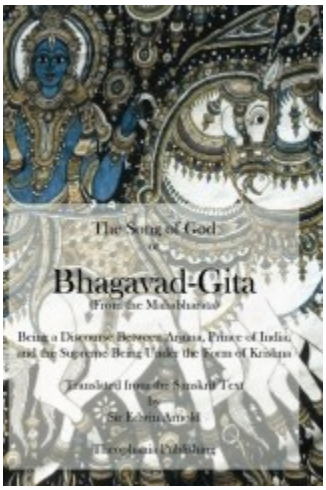
Best Russian Short Stories Edited
By Vladimir Orel, Thomas Selzer
284 Pages, $21.24 USD, ISBN: 1770831150

In the compilation of this volume I have been guided by the desire to give the largest possible representation to the prominent authors of the Russian short story, and to present specimens cha-racteristic of each. At the same time the element of interest has been kept in mind; and in a few instances, as in the case of Korolenko, the selection of the story was made with a view to its intrinsic merit and striking qualities rather than as typifying the writer's art. It was, of course, impossible in the space of one book to exhaust all that is best.



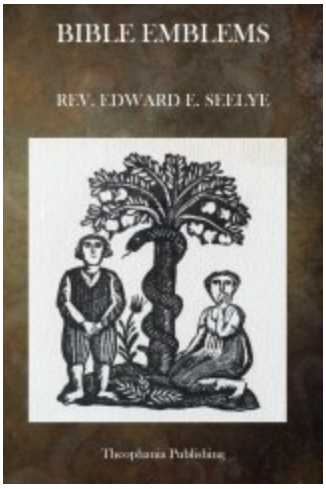
Beyond Good and Evil
By Friedrich Nietzsche
154 Pages, $25.24 USD, ISBN: 1926842251

It takes up and expands on the ideas of his previous work, Thus Spoke Zarathustra, but approached from a more critical, polemical direction. In Beyond Good and Evil, Nietzsche attacks past philosophers for their alleged lack of critical sense and their blind acceptance of Christian premises in their consideration of morality. The work moves into the realm "beyond good and evil" in the sense of leaving behind the traditional morality which Nietzsche subjects to a destructive critique in favour of what he regards as an affirmative approach that fearlessly confronts the perspectival nature of knowledge and the perilous condition of the modern individual.

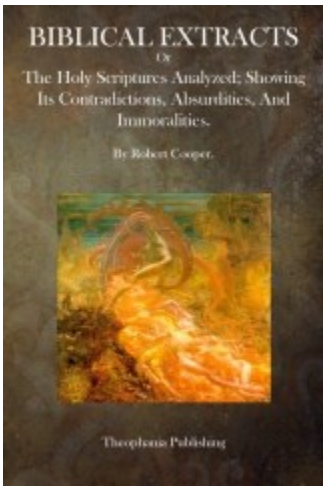


Bhagavad Gita or The Song of God
By Sir Edwin Arnold
98 Pages, $16.24 USD, ISBN: 1770833242

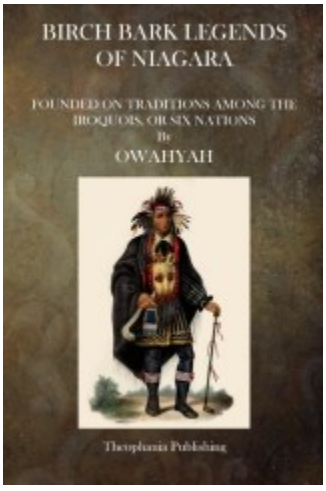
The context of the Gita is a conversation between Lord Krishna and the Pandava prince Arjuna taking place on the battlefield before the start of the Kurukshetra War. Responding to Arjuna's confusion and moral dilemma about fighting his own cousins who command a tyranny imposed on a captured State, Lord Krishna explains to Arjuna his duties as a warrior and prince, and elaborates on different Yogic and Vedantic philosophies, with examples and analogies.



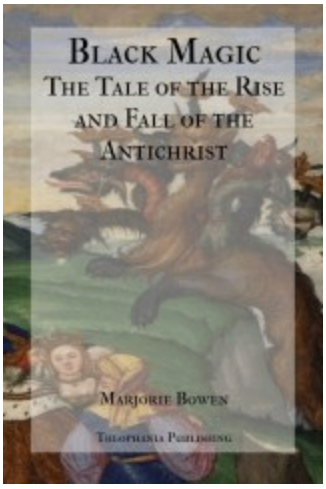
Bible Emblems
By Rev. Edward E. Seelye
160 Pages, $17.24 USD, ISBN: 1500747475
This is a humble cry: the cry of a soul needing help—a soul looking outside of and beyond self for aid and succor. Strange and unusual as it is to hear it, it is the most rational cry that the human soul ever uttered. It cannot be disguised, that man is unsatisfied with his present condition. He looks for something higher. He longs to become what he is not now. Every soul has within it the secret consciousness of imperfection, and a secret aspiration for improvement. Evils and infirmities now encompass it, but it has an idea of a higher state of being, and a more perfect development of spiritual life.



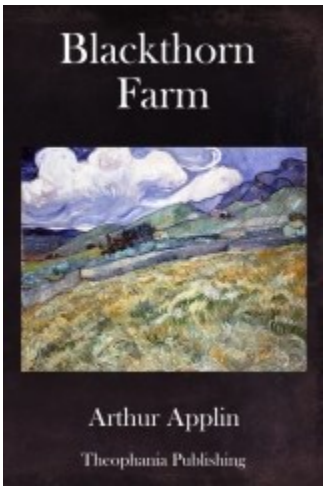
Biblical Extracts: The Holy Scriptures Analyzed Showing Its Contradictions, Absurdities, and Immoralities
By Robert Cooper
118 Pages, $16.24 USD, ISBN: 1500747521
The distinguishing characteristic of the present age, is the freedom of inquiry and discussion which prevails upon all subjects; and most particularly upon religious subjects. Intelligent and thinking men of every class, are beginning to investigate and discuss questions of the latter kind with considerable closeness, fearlessness and determination. They are now resolved no longer to be hoodwinked with the veil of prejudice, enchained with the trammels of superstition, or deluded by the Hosted by or intimidated by the denunciations of a crafty and intolerant priesthood; but to examine for themselves—"to prove all things, and hold fast that which is good."



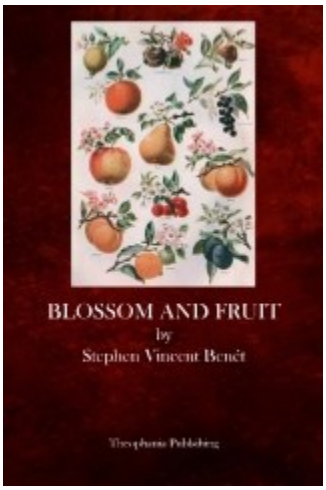
Birch Bark Legends of the Niagra
By Owahyah
48 Pages, $16.24 USD, ISBN: 1500747653
Within sound of the thundering cataract's roar once worshipped the roaming sons of the forest in all their primitive freedom. They recognized in its thunder the voice, in its mad waves the wrath, and in its crashing whirlpool the Omnipotence of the Great Spirit—the Manitou of their simple creed. Also in the rising mist, the flight of the soul, and in the beautiful bow—the brilliant path followed by the spirits of good Indians to their Happy Hunting Ground. With this belief came the custom of yearly offering a sacrifice to the Great Spirit, or whenever any particular blessing was to be acknowledged, or for some wrong perpetrated, to propitiate the righteous anger of their Deity of the roaring waters.



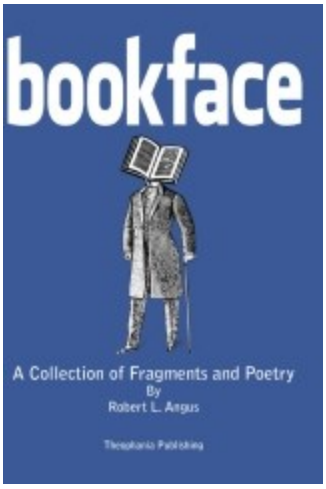
Black Magic - A Tale of the Rise and Fall of the Antichrist
By Marjorie Bowen
352 Pages, $23.24 USD, ISBN: 1475256566
By the door a figure of St. Michael leant against a chair, and round his feet were painted glasses of every colour and form. On the white-washed wall hung a winged picture representing a martyrdom; its vivid hues were the most brilliant thing in the room. The man was dressed in brown; he had a long dark face and straight dull hair; from the roll of gold leaf on his knee he carefully and slowly gilded the devil.



Blackthorn Farm
By Arthur Applin
414 Pages, $25.25 USD, ISBN: 1981493026
Rupert Dale sat at the writing-table before the open windows of his sitting-room in Clanton Street, Westminster. It was a glorious summer morning. The sun had torn aside the grey mantle from the face of London. The roofs and spires of the city shone. The trees rustled their leaves in the warm breeze. The roar of traffic echoed in his ears. Rupert stretched himself, sighed, and leant back in his chair. His table was littered with papers. There were letters, bills, advertisements—principally from tipsters and bookmakers—and the examination papers which had been set him at his third attempt to pass the final examination of the School of Mining Engineers.



Blossom and Fruit
By Stephen Vincent Benet
32 Pages, $16.24 USD, ISBN: 1517031192
WHEN the spring was in its mid-term and the apple trees entirely white they would walk down by the river, talking as they went, their voices hardly distinguishable from the voices of birds or waters. Their love had begun with the winter; they were both in their first youth. Those who watched them made various prophecies—none of which was fulfilled—laughed, criticized, or were sentimental according to the turn of their minds.

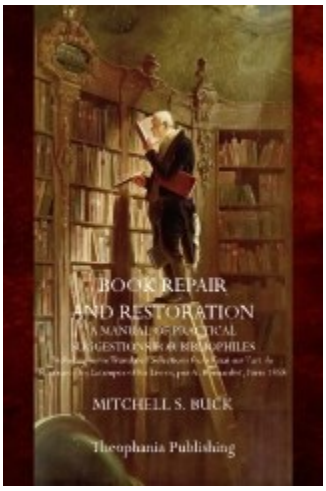


Book Face

By Robert L. Angus

308 Pages, $22.24 USD, ISBN: 1517667011

“No life means music, art, and writing. People wonder why it is that I am so accomplished -- its because I have no social life worth speaking of.” It is said that writing is a most intimate of art forms. The writer shares his ideas, lets the reader into his world, and peering through the veil, catches a glimpse of the writer’s soul. And in this modern age, many of us first-worlders have a book, a Face-Book, a collection of our thoughts and experiences, our feelings and our ideals. As an artist and a writer, I often use my friends as a sounding-board, to see what their thoughts are. My friends are a collection in an of themselves, of artists, writers, critics, actors, producers, musicians, and ordinary people. They are all intelligent (excepting maybe the ones who send me Farm-Ville requests) and it is their opinion that I often succumb to when my well being is on the line (I tried to quit drinking, recently, and they have been my support group -- I don’t do meetings). Book Face is a concept book, similar to my other collections of unfinished work, bits and pieces of poetry, and whatever else has come from my pen -- or in this case, my status messages. So, if it is true that writing is the most intimate of art forms, that my shared ideas let the reader into my world, this book takes it one step further, and lets them peer deeply into the disturbed mind of a writer on his day to day blather and rants.

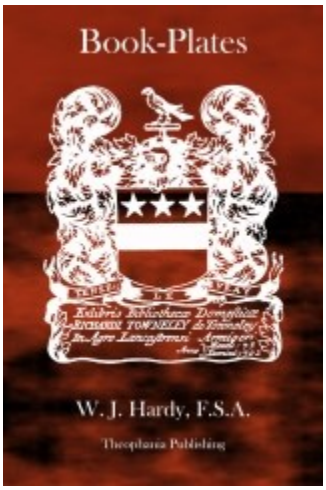


Book Repair and Restoration: A Manual of Practical Suggestions for Bibliophiles

By Mitchell S. Buck

78 Pages, $16.24 USD, ISBN: 1517031168

The following chapters contain suggestions partly gathered from the experience of others and partly evolved for myself in caring for my own books. Although many “books about books” have already been written, there is still, I think, a place for this one. I have designed it especially for the bibliophile who enjoys “fussing” over his books and who receives, in seeing them in good condition and repair through his own efforts, an echo of the pleasure he receives from reading them.

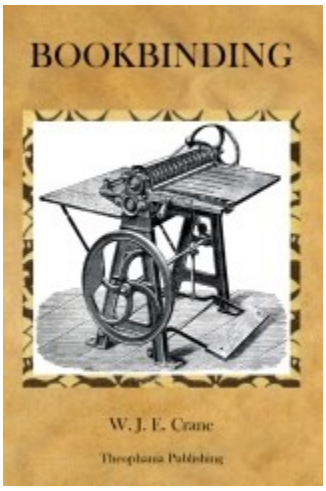


Book-Plates

By W. J. Hardy F.S.A

190 Pages, $18.24 USD, ISBN: 1484856449

The desire to possess a book-plate of one's own is in itself commendable enough, for in fixing the first copy into the first book the owner may surely be assumed to have registered a vow that he or she at least will not join the great army of book-persecutors—men and women who cannot touch a volume without maltreating it, and who, though they are often ready to describe the removal of a book-plate, even from a worthless volume, as an act of vandalism, do infinitely more harm to books in general by their ruthless handling of them.

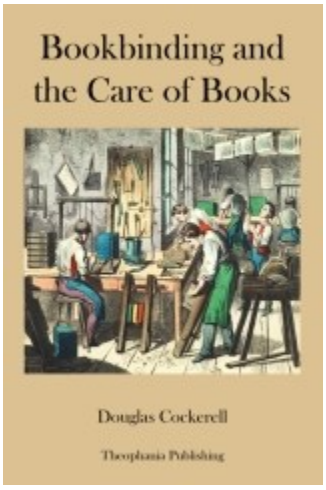


Bookbinding

By W. J.E. Crane

210 Pages, $19.24 USD, ISBN: 147815425X

LITTLE prefatory remark is required in introducing this small book to the public. The present day is especially noticeable for the number of amateur workers who are found in every department of art and technics. That being so, there is certainly no branch of work better fitted to claim their time and attention than that of Bookbinding. It is of great antiquity, of the utmost utility, and capable of almost any degree of artistic development. Looking back to the birth and early history of literature, we find all the oldest manuscripts, both classical and oriental, were written on sheets of parchment or papyrus, and rolled up when not in use.

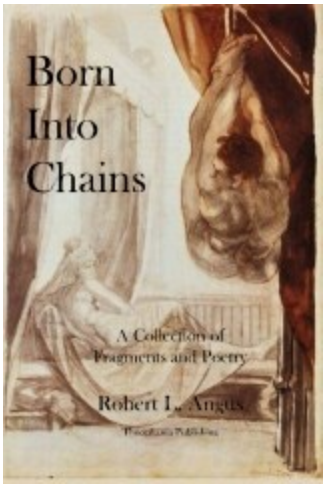


Bookbinding and the Care of Books

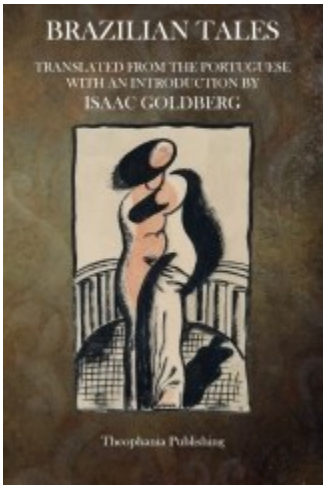
By Douglas Cockerell

244 Pages, $20.24 USD, ISBN: 1478154276

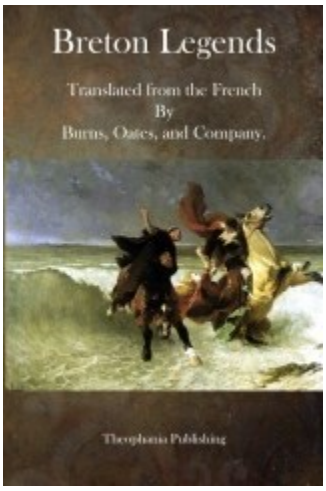
In the first place, we wish to provide trustworthy text-books of workshop practice, from the points of view of experts who have critically examined the methods current in the shops, and putting aside vain survivals, are prepared to say what is good workmanship, and to set up a standard of quality in the crafts which are more especially associated with design. Secondly, in doing this, we hope to treat design itself as an essential part of good workmanship. During the last century most of the arts, save painting and sculpture of an academic kind, were little considered, and there was a tendency to look on “design” as a mere matter of appearance.



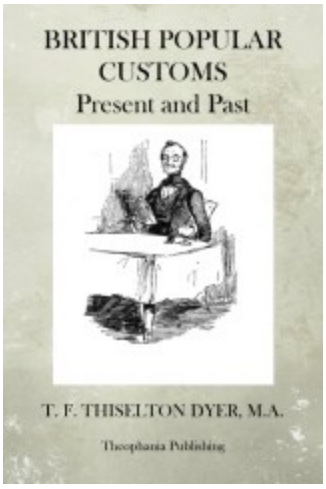
Born Into Chains: A Collection of Fragments and Poetry
By Robert L. Angus
206 Pages, $20.24 USD, ISBN: 1926842294
I'm full of sarcastic witticisms today, most of them heartfelt jargon of a bygone era - call me a romantic. Call me an anachronism. I used to think of myself as a renaissance man, but got muscled out by the guys with better clothes and more money than I have. When asked for my resume, I challenged, "I paint, I write, I bind beautiful books, I am a jeweler, and a sculptor, I have a massive collection of rare and antique books (that I read), and enjoy sharing what I have learned with others. I study and practice philosophy and magic. I enjoy great wines and can understand the subtleties in a single malt scotch. I tend to be literary in that way - always seeking the right words for the wrong circumstances. I've overcome many of my addictions, and have drowned in the sea of vice. I have been learning to conquer myself, and fear mainly that the art of subtlety may be lost amongst the masses. I enjoy the study of humanity without taking part in it. I am a god amongst mortals, and a mortal amongst gods." They rejected my application on the grounds of my immorality.



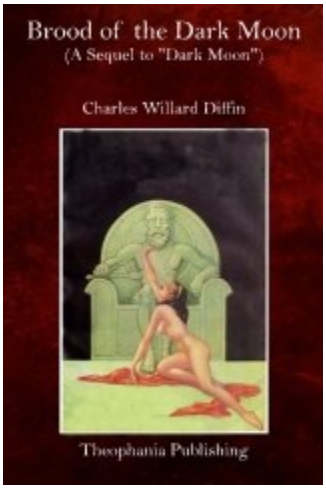
Brazilian Tales
By Isaac Goldberg
98 Pages, $16.24 USD, ISBN: 150074784X
The noted Brazilian critic, José Verissimo, in a short but important essay on the deficiencies of his country's letters, has expressed serious doubt as to whether there exists a genuinely Brazilian literature. 'I do not know,' he writes, 'whether the existence of an entirely independent literature is possible without an entirely independent language.' In this sense Verissimo would deny the existence of a Swiss, or a Belgian, literature. In this sense, too, it was no doubt once possible, with no small measure of justification, to deny the existence of an American, as distinguished from an English, literature.



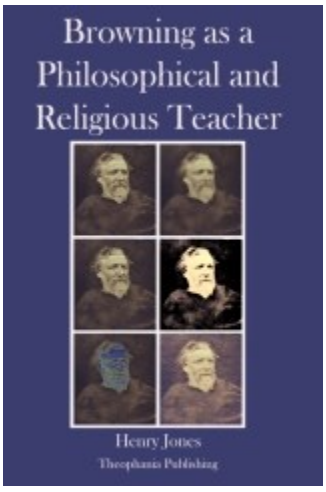
Breton Legends
By Burns
182 Pages, $18.24 USD, ISBN: 1500747866
The various Collections of Household and Legendary Tales of different countries which have appeared of late years sufficiently attest the popular interest which attaches to these curious and venerable relics of bygone days. Even such eminent scholars as the Messrs. Grimm have not thought it beneath them to devote their time and research to the task of collecting the old fireside Stories and Legends of Germany; and the result of their labours is a volume of tales of remarkable interest and attractiveness, distinguished no less for variety and invention than for pathos, humour, and graceful simplicity.



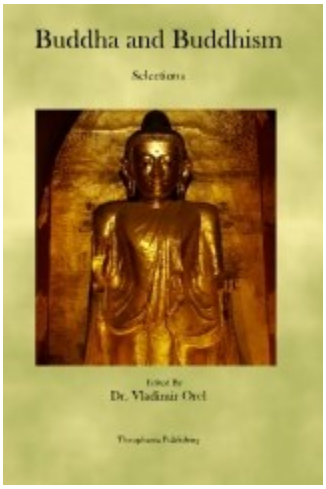
British Popular Customs Present and Past
By T. F. Thiselton Dyer
614 Pages, $32.24 USD, ISBN: 1470074257
In presenting the following pages to the Public I do not lay claim to any originality, my object simply having been to collect together, into a readable and condensed form, from various sources within my reach, accounts of Customs which, if not already obsolete, are quickly becoming so. With regard to the general plan of the book, it speaks for itself. It should, however, be stated that the movable feasts are placed under the earliest days on which they can fall.



Brood of the Dark Moon: A Sequel to...
By Charles Willard Diffin
278 Pages, $21.24 USD, ISBN: 1517031222
Once more Chet, Walt and Diane are united in a wild ride to the Dark Moon—but this time they go as prisoners of their deadly enemy Schwartzmann. In a hospital in Vienna, in a room where sunlight flooded through ultraviolet permeable crystal, the warm rays struck upon smooth walls the color of which changed from hot reds to cool yellow or gray or to soothing green, as the Directing Surgeon might order. An elusive blending of tones now seemed pulsing with life; surely even a flickering flame of vitality would be blown into warm livingness in such a place.



Browning as a Philosophical and Rel...
By Henry Jones
270 Pages, $21.24 USD, ISBN: 1478154306
The purpose of this book is to deal with Browning, not simply as a poet, but rather as the exponent of a system of ideas on moral and religious subjects, which may fairly be called a philosophy. I am conscious that it is a wrong to a poet to neglect, or even to subordinate, the artistic aspect of his work. At least, it would be a wrong, if our final judgment on his poetry were to be determined on such a method. But there is a place for everything; and, even in the case of a great poet, there is sometimes an advantage in attempting to estimate the value of what he has said, apart from the form in which he has said it. And of all modern poets, Browning is the one who most obviously invites and justifies such a method of treatment.

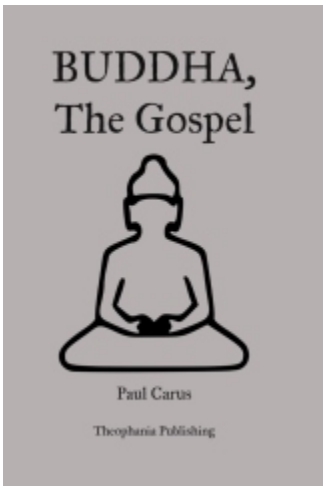


Buddha and Buddhism: Selections

By Various

440 Pages, $45.24 USD, ISBN: 1926842227

This volume introduces the reader to the life of Buddha and to two important religious writings in the domain of Buddhism. The first of them is Dhammapada ("The Path of Dharma"), a collection of mostly ethical sayings traditionally ascribed to Buddha and written in Pali. It constitutes a part of the Buddhist canon in the Theravada tradition. The second text, also belonging to the same tradition, is Sutta-Nipata, probably the oldest or one of the oldest Buddhist scriptures reflecting - we can believe - the most conservative form of Buddhism.

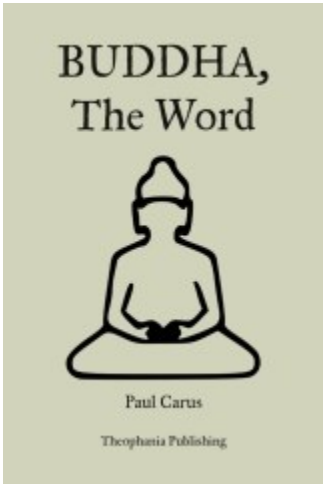


Buddha, The Gospel

By Paul Carus

294 Pages, $18.24 USD, ISBN: 1478398574

To those not familiar with the subject it may be stated that the bulk of its contents is derived from the old Buddhist canon. Many passages, and indeed the most important ones, are literally copied in translations from the original texts. Some are rendered rather freely in order to make them intelligible to the present generation; others have been rearranged; and still others are abbreviated. Besides the three introductory and the three concluding chapters there are only a few purely original additions, which, however, are neither mere literary embellishments nor deviations from Buddhist doctrines. Wherever the compiler has admitted modernization he has done so with due consideration and always in the spirit of a legitimate development.

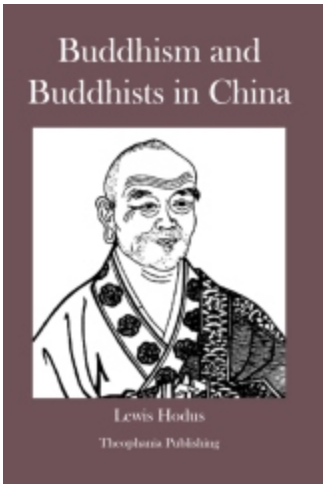


Buddha, The Word

By Paul Carus

90 Pages, $15.24 USD, ISBN: 1478398604

THUS has it been said by the Buddha, the Enlightened One: It is through not understanding, not realizing four things, that I, Disciples, as well as you, had to wander so long through this round of rebirths. And what are these four things? They are the Noble Truth of Suffering, the Noble Truth of the Origin of Suffering, the Noble Truth of the Extinction of Suffering, the Noble Truth of the Path that leads to the Extinction of Suffering.

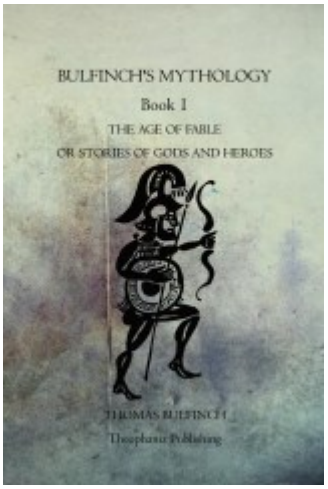


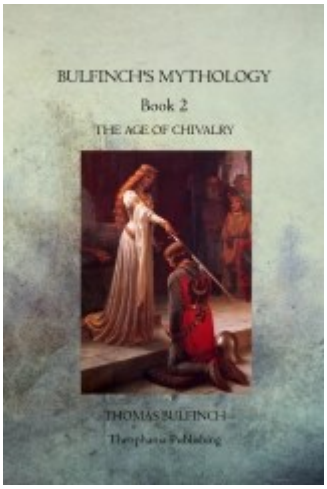
Buddhism and Buddhists in China

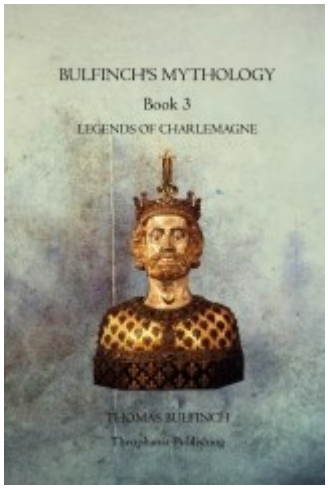
By Lewis Hodus

96 Pages, $15.24 USD, ISBN: 1478154322

Buddhism is a religion which must be viewed from many angles. Its original form, as preached by Gautama in India and developed in the early years succeeding, and as embodied in the sacred literature of early Buddhism, is not representative of the actual Buddhism of any land today. The faithful student of Buddhist literature would be as far removed from understanding the working activities of a busy center of Buddhism in Burmah, Tibet or China today as a student of patristic literature would be from appreciating the Christian life of London or New York City.







Bulfinchs Mythology 3 Volume Set

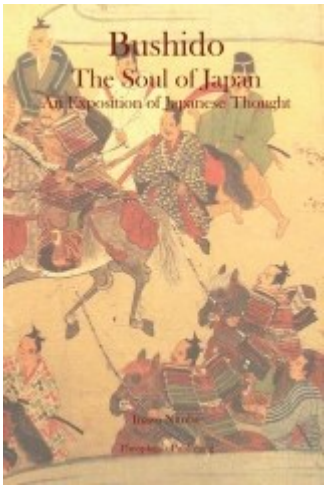
By Thomas Bulfinch

Volume One 422 Pages, $20.24 USD, ISBN: 1770833722

Volume Two 418 Pages, $20.24 USD, ISBN: 1770833730

Volume Three 344 Pages, $20.24 USD, ISBN: 1770833749

In this complete edition of his mythological and legendary lore "The Age of Fable," "The Age of Chivalry," and "Legends of Charlemagne" are included. Scrupulous care has been taken to follow the original text of Bulfinch, but attention should be called to some additional sections which have been inserted to add to the rounded completeness of the work, and which the publishers believe would meet with the sanction of the author himself, as in no way intruding upon his original plan but simply carrying it out in more complete detail.



Bushido: The Soul of Japan

By Inazo Nitobe

116 Pages, $15.24 USD, ISBN: 1926842863

CHIVALRY is a flower no less indigenous to the soil of Japan than its emblem, the cherry blossom; nor is it a dried-up specimen of an antique virtue preserved in the herbarium of our history. It is still a living object of power and beauty among us; and if it assumes no tangible shape or form, it not the less scents the moral atmosphere, and makes us aware that we are still under its potent spell. The conditions of society which brought it forth and nourished it have long disappeared; but as those far-off stars which once were and are not, still continue to shed their rays upon us, so the light of chivalry...

The north and the west and the south are good hunting ground, but it is forbidden to go east. It is forbidden to go to any of the Dead Places except to search for metal and then he who touches the metal must be a priest or the son of a priest. Afterwards, both the man and the metal must be purified. These are the rules and the laws; they are well made. It is forbidden to cross the great river and look upon the place that was the Place of the Gods—this is most strictly forbidden. We do not even say its name though we know its name. It is there that spirits live, and demons—it is there that there are the ashes of the Great Burning. These things are forbidden— they have been forbidden since the beginning of time.

SEPHER YETZIRAH The "Sepher Yetzirah," or "Book of Formation," is perhaps the oldest Rabbinical treatise of Kabalistic philosophy which is still extant. The great interest which has been evinced of 1ate years in the Hebrew Kabalah, and the modes of thought and doctrine allied to it, has induced me to translate this tractate from the original Hebrew texts, and to collate with them the Latin versions of mediaeval authorities; and I have also published An Introduction to the Kabalah which may be found useful to students. This book has been licensed by contract, and is the only publisher with such rights. (c) 2018, Adolph Hungry Wolf. It is just the plain truth to say that not for many years has the imagination of Canadians been so captured and illumined as it was during the recent epoch making run of the Fiftieth Anniversary Trans-continental passenger train, illustratingas it did the national development of the past half century . . . . Citizens of today cheered the . . . train because in it they saw the fulfillment of the promises of the first train, and a sound prophecy for the future.

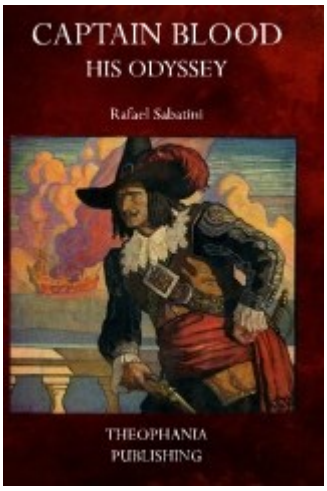
Candide

By Voltaire

156 Pages, $17.24 USD, ISBN: 1770831169

It begins with a young man, Candide, who is living a sheltered life in an Edenic paradise and being indoctrinated with Leibnizian optimism (or simply Optimism) by his mentor, Pangloss. The work describes the abrupt cessation of this lifestyle, followed by Candide's slow, painful disillusionment as he witnesses and experiences great hardships in the world.



Captain Blood: His Odyssey

By Rafael Sabatini

468 Pages, $27.24 USD, ISBN: 1517031427

eter Blood, bachelor of medicine and several other things besides, smoked a pipe and tended the geraniums boxed on the sill of his window above Water Lane in the town of Bridgewater. Sternly disapproving eyes considered him from a window opposite, but went disregarded. Mr. Blood's attention was divided between his task and the stream of humanity in the narrow street below; a stream which poured for the second time that day towards Castle Field, where earlier in the afternoon Ferguson, the Duke's chaplain, had preached a sermon containing more treason than divinity.

I have selected as a specimen of this class the Story of Deirdre, collected among the Scotch peasantry a few years ago, into which I have been able to insert a passage taken from an Irish vellum of the twelfth century. I could have more than filled this volume with similar oral traditions about Finn (the Fingal of Macpherson's "Ossian"). But the story of Finn, as told by the Gaelic peasantry of to-day, deserves a volume by itself, while the adventures of the Ultonian hero, Cuchulain, could easily fill another.

THE wind stirred the tops of the maple trees in the Quinsby front yard, and the old man who stood on the steps, watching the shadows and the moonlight, sighed as he heard the soft rustling sound. He glanced back into the house, through the hall, into the bedroom, where his wife was lighting a candle preparatory to turning down the bed. “I reckon I’ll jest step down there a minit,” he whispered to himself, and hurriedly but softly went down the steps.

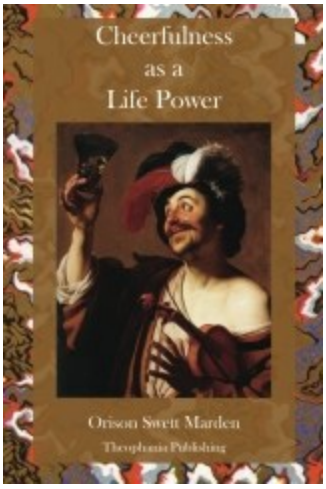
Charles Darwin: His Life Told In An Autobiographical Chapter and in a Selected Series of Published Letters

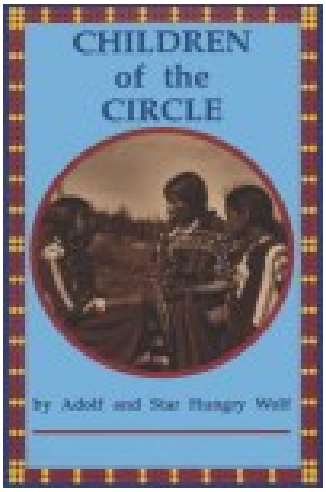
By Francis Darwin

430 Pages, $26.24 USD, ISBN: 1470074168

Charles Darwin had the strongest feeling of love and respect for his father's memory. His recollection of everything that was connected with him was peculiarly distinct, and he spoke of him frequently, generally prefacing an anecdote with some such phrase as, "My father, who was the wisest man I ever knew," &c. It was astonishing how clearly he remembered his father's opinions, so that he was able to quote some maxim or hint of his in many cases of illness. As a rule he put small faith in doctors, and thus his unlimited belief in Dr. Darwin's medical instinct and methods of treatment was all the more striking.



Cheerfulness as a Life Power
By Orison Swett Marden
92 Pages, $16.24 USD, ISBN: 1477613412
The soul-consuming and friction-wearing tendency of this hurrying, grasping, competing age is the excuse for this booklet. Is it not an absolute necessity to get rid of all irritants, of everything which worries and frets, and which brings discord into so many lives? Cheerfulness has a wonderful lubricating power. It lengthens the life of human machinery, as lubricants lengthen the life of inert machinery.



Children of the Circle
By Adolf Hungry Wolf
159 Pages, $15.24 USD, ISBN: 1697023983
As part of our family's cultural life, we have a large collection of old photographs showing Indian people, their camps, and scenes of many traditional activities. Among our favorites of these are ones that include native children, perhaps because four of them have grown up in our own household. It would be wonderful if the photographers had left a lot of information with these old pictures. Instead, we are lucky when they have names, dates or tribal affiliations; many are just blank dn the back. In this book, the title on each page will include whatever facts we have. After that, what we've written is based on our own research combined with thoughts and ideas inspired by our family's cultural life. These words are mainly presented for pleasure; the value of each photo speaks for itself. Life for the Indian people of North America has changed a great deal since most of these pictures were taken. Instead of tipis, they now live in houses with tvs and running water.

CHRISTIAN SECTS IN THE NINETEENTH CENTURY

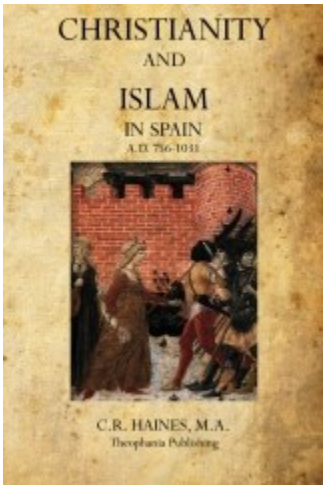
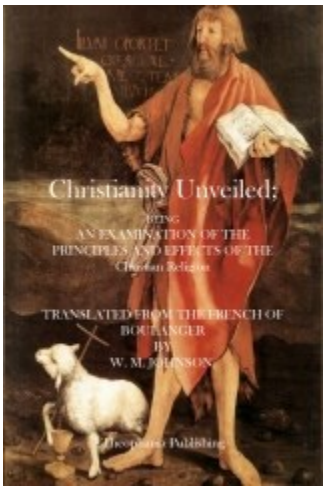
Caroline Frances Cornwallis
Theophania Publishing

Christian Sects in the Nineteenth Century
By Caroline Frances Cornwallis
92 Pages, $16.24 USD, ISBN: 1770832602
The following letters grew out of a conversation between one of the editors of the Small Books and a lady of his acquaintance; and as there are probably many who have felt the want of the information they contain, it has been thought that by publishing them in a collected form they may be useful. The views of the writer are sufficiently explained in the letters themselves. All lament the small sum of Christian charity to be found among religionists in general, but few when they begin to write have kept clear of a severity of comment which but prolongs differences.



Christianity and Islam In Spain
By C.R. Haines , M.A.
176 Pages, $18.24 USD, ISBN: 1770832017
There can be no doubt that Christianity was brought very early into Spain by the preaching, as is supposed, of St Paul himself, who is said to have made a missionary journey through Andalusia, Valencia, and Aragon. On the other hand, there are no grounds whatever for supposing that James, the brother of John, ever set foot in Spain. The "invention" of his remains at Ira Flavia in the 9th century, together with the story framed to account for their presence in a remote corner of Spain so far from the scene of the Apostle's martyrdom, is a fable too childish to need refutation.



Christianity Unveiled
By W.M. Johnson
118 Pages, $16.24 USD, ISBN: 1770832610
This publication bears a conspicuous rank among those works whose free and independent sentiments have introduced a happy change in the public mind, and concurred with the writings of Rousseau, Mably, Raynal, and Voltaire, in bringing forward the French Revolution: a revolution which will probably prove the harbinger of the complete triumph of reason. Persecutions and wars will then cease for ever throughout the civilized world. In offering this translation to the public, I pay a tribute that every member of society owes to his fellow citizens, that of endeavouring to acquaint them with their true rights and duties, and consequently, the means most conducive to their happiness.

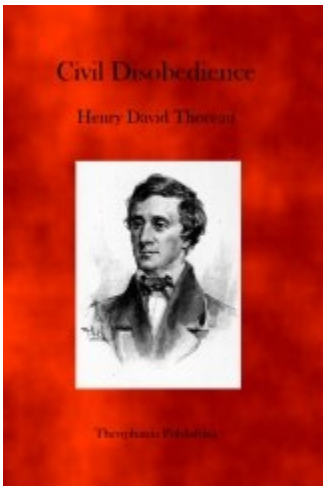
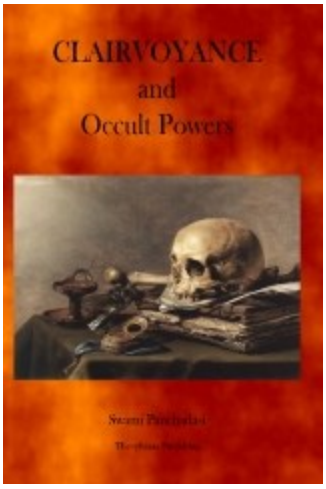
586 Pages, $30.24 USD, ISBN: 1478255978
“The first book teaches us how to contemn the terrors of death, and to look upon it as a blessing rather than an evil; “The second, to support pain and affliction with a manly fortitude; “The third, to appease all our complaints and uneasinesses under the accidents of life; “The fourth, to moderate all our other passions; “And the fifth explains the sufficiency of virtue to make men happy.”



Civil Disobedience
By Henry David Thoreau
38 Pages, $10.24 USD, ISBN: 1926842898
The only obligation which I have a right to assume is to do at any time what I think right.... Law never made men a whit more just; and, by means of their respect for it, even the well-disposed are daily made the agents of injustice." Indeed, he points out, you serve your country poorly if you do so by suppressing your conscience in favor of the law because your country needs consciences more than it needs conscienceless robots. Thoreau says that it is disgraceful to be associated with the United States government in particular: "I cannot for an instant recognize as my government that which is the slave's government also."



Clairvoyance and Occult Powers

The Hindu student never expects or demands anything in the nature of "proof" of the teachers statements of principle or method; in fact, he would regard it as an insult to the teacher to ask for the same. The Western student, on the other hand, is accustomed to maintaining the skeptical attitude of mind-the scientific attitude of doubt and demand for proof-and the teacher so understands it. Both are accustomed to illustrations bringing out the principles involved, but these illustrations must not be fanciful or figurative-they must be actual cases, well authenticated and vouched for as evidence.

The world of the XVIIth century French drama with all its artistic energy and moral fervour is now yours to explore.

A prototype of the more widely known "Grimorium Verum", this text is largely independant of more traditional works entitled "Clavicula Salomonis". Clever Betsy

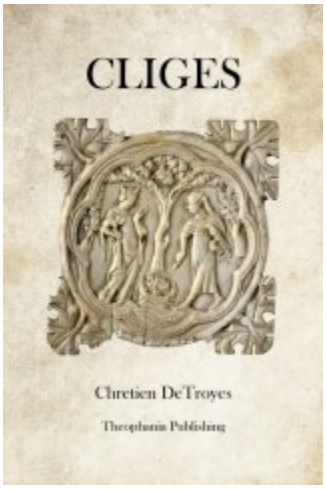
By Clara Louise Burnham

492 Pages, $27.25 USD, ISBN: 1979022909

“Hello there!” The man with grizzled hair and bronzed face under a shabby yachting-cap stopped in his leisurely ramble up the street of a seaport village, and his eyes lighted at sight of a spare feminine figure, whose lean vigorous arms were shaking a long narrow rug at a cottage gate. “Ahoy there—The Clever Betsy!” he went on. The energetic woman vouchsafed a sidewise twist of her mouth intended for a smile, but did not cease from her labors, and a cloud of dust met the hastened approach of the seaman. “Here, there’s enough o’ that! Don’t you know your captain?”

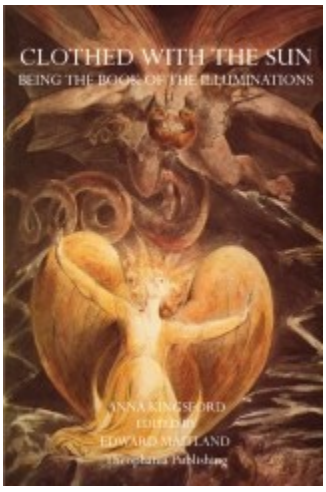


Cliges

By Chretien De Troyes

106 Pages, $17.24 USD, ISBN: 1469928183

He who wrote of Erec and Enide, and translated into French the commands of Ovid and the Art of Love, and wrote the Shoulder Bite, and about King Mark and the fair Iseut, and about the metamorphosis of the Lapwing, the Swallow, and the Nightingale, will tell another story now about a youth who lived in Greece and was a member of King Arthur's line. But before I tell you aught of him, you shall hear of his father's life, whence he came and of what family. He was so bold and so ambitious that he left Greece and went to England, which was called Britain in those days, in order to win fame and renown.



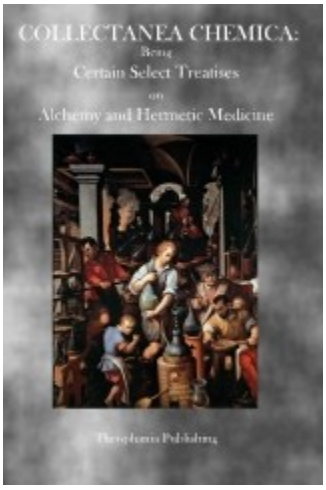
Clothed With The Sun: Being the Book of the Illuminations

By Anna Kingsford

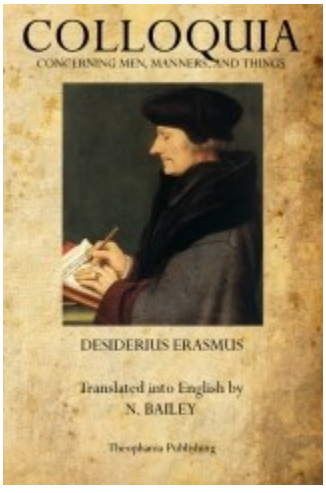
270 Pages, $20.24 USD, ISBN: 1770832033

IF, therefore, they be Mystic Books, they ought also to have a Mystic Consideration. But the Fault of most Writers lieth in this, that they distinguish not between the Books of Moses the Prophet, and those Books which are of an historical Nature. And this is the more surprising because not a few of such Critics have rightly discerned the esoteric Character, if not indeed the true Interpretation, of the Story of Eden; yet have they not applied to the Remainder of the Allegory the same Method which they found to fit the Beginning; but so soon as they are over the earlier Stanzas of the Poem, they would have the Rest of it to be of another Nature.

Code of the Illuminati: Illustrating the History of Jacobinism
By Abbé Barreul
282 Pages, $25.24 USD, ISBN: 1926842073
The Order of the Illuminati was to be based entirely on human nature and observation; hence its degrees, ceremonies, and statutes were formulated to that effect. For his prototype Adam Weishaupt, the founder of the order, relied mainly on Freemasonry, in accordance with which he modelled the degrees and ceremonial of his order. After the pattern of the Society of Jesus, Weishaupt built up the strictly hierarchical organization of his society. "To utilize for good purposes the very means which that order employed for evil ends".



Collectanea Chemica: Being Certain Select Treatises on Alchemy and Hermetic Medicine
By Various
96 Pages, $20.24 USD, ISBN: 192684291X
The Hermetic Tracts comprised in this volume are printed from a quarto manuscript (itself a transcript from an older but now untraceable work) belonging to the celebrated collection of the late Mr. Frederick Hockley, who was well known among modern students of the secret sciences, not only for the resources of his Hermetic library, but for his practical acquaintance with many branches of esoteric lore, and for his real or reputed connection with the numerous but unavowed associations which now, as at anterior periods, are supposed to dispense initiation into occult knowledge.



Colloquia: Concerning Men, Manners, and Things
By Desiderius Erasmus
204 Pages, $19.24 USD, ISBN: 1770831967
Colloquies is one of the many works of the "Prince of Christian Humanists", Desiderius Erasmus. Published in 1518, the pages "...held up contemporary religious practices for examination in a more serious but still pervasively ironic tone". Christian Humanists viewed Erasmus as their leader in the early 16th century. Erasmus' works had greater meaning to those learned few who had a larger knowledge of Latin and Greek. Colloquies in Latin means a formal written dialogue, thus in his book Erasmus explores man's reaction to others in conversations.

Compensation
By C.V. Trench
32 Pages, $16.24 USD, ISBN: 1517031443
"Why, John!" Involuntarily I halted at the entrance to my snug bachelor quarters as the flood of light my turning of the switch produced revealed a huddled figure slumped in an easy chair. "Aye, sir, 'tis me." The man got to his feet, gnarled hands rubbing at his eyes. "An' 'tis all day that I've been waiting for you, sir. The caretaker said you'd be back soon so let me in. I must have fell asleep, an' no wonder, what with the strain an' no sleep or rest all last night." "Strain? No rest?" I stared my bewilderment, trying at the same time to conceal the vague apprehensions occasioned by the fact that the trusted servitor of my friend, Professor Wroxton, should wait all day for me.

Though various scientific men spoke of magnetism, and understood that there was a power of a peculiar kind which one man could exercise over another, it was not until Frederick Anton Mesmer (a doctor of Vienna) appeared in 1775 that the general public gave any special attention to the subject. In the year mentioned, Mesmer sent out a circular letter to various scientific societies or Academies as they are called in Europe, stating his belief that "animal magnetism" existed, and that through it one man could influence another.

There, old friend, rest in peace! no more shall we in fellowship dash upon the enemy; no more, hand in hand, encounter the perils of the battlefield, the glory of triumph, the shame of defeat. Comte De Gabalis
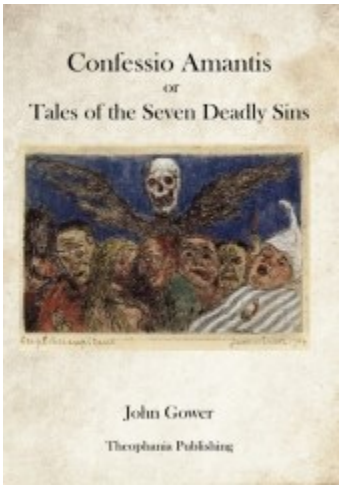
By Abbé N. De Montfaucon De Villars
346 Pages, $23.24 USD, ISBN: 1770832629
Warning ! This book is for the student who seeks to illuminate his intelligence by the Torch of his own divinity. Let him whose quest is the gratification of a selfish intellectualism beware its pages, for this is a book of hidden mystery and power. Therefore let the mind be pure that it may invite the approach of the Pilgrim Soul and come into a new realisation of God's Omnipotence and Justice. Across the title page of the first edition of Comte de Gabalis, published at Paris in the year 1670, runs the cryptic phrase from Tertullian "Quod tanto impendio absconditur etiam solummodo demonstrare destruere est," suggesting to the mind that there is a concealed mystery.



Confessio Amantis or Tales of the Seven Deadly Sins
By John Gower
342 Pages, $28.09 USD, ISBN: 1469928248
Confessio Amantis (The Lover's Confession) is a 33,000 line Middle English poem by John Gower, which uses the confession made by an ageing lover to the chaplain of Venus as a frame story for a collection of shorter narrative poems. According to its prologue, it was composed at the request of Richard II. It stands with the works of Chaucer, Langland, and the Pearl poet as one of the great works of late 14th century English literature. In genre it is usually considered a poem of consolation, a medieval form inspired by Boethius' Consolation of Philosophy and typified by works such as Pearl. Despite this, it is more usually studied alongside other tale collections with similar structures, such as the Decameron of Boccaccio, and particularly Chaucer's Canterbury Tales, with which the Confessio has several stories in common.

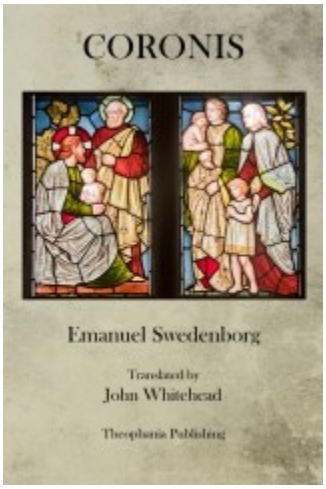
Contemplative Love: Monastic Wisdom for Everyone
By Kenneth C. Russell
714 Pages, $34.24 USD, ISBN: 1517284333
The “spiritual life”, just like every other kind of life or aspect of living and being and relating, begins in darkness and obscurity, long before any particular awareness has started to emerge. The bonds of living and relating are there long before we become consciously aware of them. And as we do become aware, we begin to explore and cultivate these bonds of living and relating, and then the journey of discovery, the adventure of seeking begins in earnest. Descriptions and studies of the spiritual journey, this adventure, abound, not surprisingly produced for the most part by those who most professionally attend to it, religious men and women and priests. But of course the project is common to all human beings, and, one way or another, more or less consciously and explicitly, we all fumble through it, through the varied ups and downs of a life-time. Some of the authors dealing with this aspect of human existence, particularly in the Christian context, seem to present an ordered progression, with predictable laws governing it and passing through characteristic “stages”.

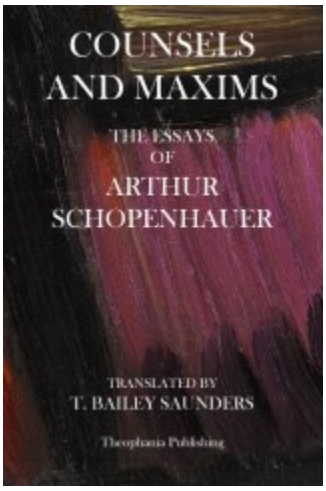


Coronis

By Emanuel Swedenborg

80 Pages, $16.24 USD, ISBN: 1470078953

THE CORONIS, OR APPENDIX TO THE TRUE CHRISTIAN RELIGION These three things, - the Consummation of the Age, the Coming of the Lord, and the New Church-have, it is true, been treated of in the last chapter of the work entitled The True Christian Religion. The reason why a Continuation follows concerning them, is because no one has hitherto known what the Consummation of the Age is, why the Second Coming of the Lord must take place, or that the New Church is about to come; and yet these three subjects are treated of in both the Prophetic and the Apostolic Word, and fully in the Apocalypse.



Counsels And Maxims

By Arthur Schopenhauer

124 Pages, $16.24 USD, ISBN: 1475006128

If my object in these pages were to present a complete scheme of counsels and maxims for the guidance of life, I should have to repeat the numerous rules—some of them excellent—which have been drawn up by thinkers of all ages, from Theognis and Solomon down to La Rochefoucauld; and, in so doing, I should inevitably entail upon the reader a vast amount of well-worn commonplace. But the fact is that in this work I make still less claim to exhaust my subject than in any other of my writings.

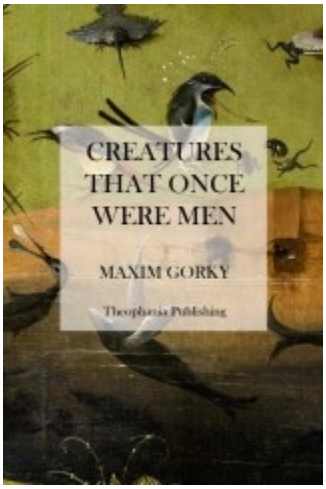
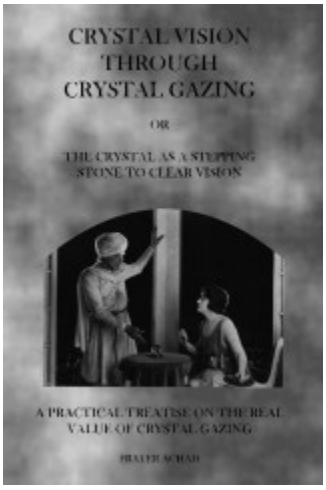
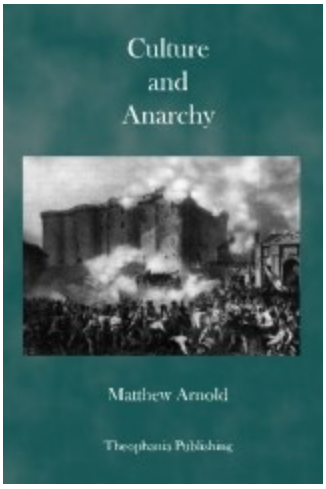
Creatures of the Abyss
By Murray Leinster
218 Pages, $19.24 USD, ISBN: 1517031079
The moment arrived when Terry Holt realized that he was simply holding the bag for Jimenez y Cía.—Jimenez and Company—in the city of Manila. He wasn't getting anywhere, himself. So, painfully, he prepared to wind up the company's affairs and his own, and start over. It seemed appropriate to take inventory, consult the police—they'd been both amiable and co-operative—and then make new plans. But first it would be a good idea to go somewhere else for a while, until the problem presented by La Rubia and radar and fish and orejas de ellos had been settled. He was at work on the inventory when the door opened, the warning-bell tinkled, and the girl came into the shop. He looked up with a wary eye, glancing over the partition separating the workshop area in which the merchandise sold by Jimenez y Cía. was assembled. There were certain people he felt should not come into the shop.



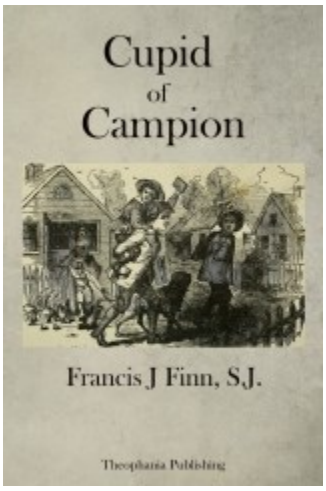
Creatures That Once Were Men
By Maxim Gorky
94 Pages, $16.24 USD, ISBN: 1475006160
A nation like Norway has a great realistic drama without having ever had either a great classical drama or a great romantic drama. A nation like Russia makes us feel its modern fiction when we have never felt its ancient fiction. It has produced its Gissing without producing its Scott. Everything that is most sad and scientific, everything that is most grim and analytical, everything that can truly be called most modern, everything that can without unreasonableness be called most morbid, comes from these fresh and untried and unexhausted nationalities. Out of these infant peoples come the oldest voices of the earth.



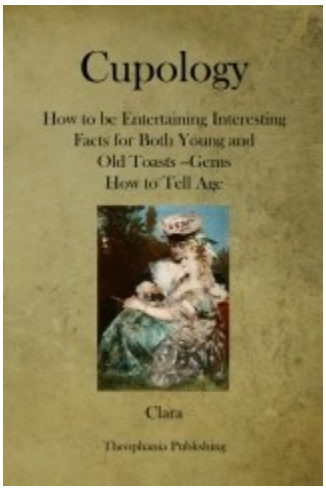
Crystal Vision Through Crystal Gazing
By Frater Achad
73 Pages, $15.24 USD, ISBN: 1926842928
The Purpose of this little volume is three-fold. (1) To give those who are interested in the art of Crystal-Gazing a clear and concise method of procedure, not alone in the practice of the work, but also in the preparation of the crystal itself, so that it becomes a true material basis or link with other planes. (2) To show that the Ancient Methods of Working -- if properly understood -- are more scientific than modern ones, since they were designed to insure a definite type of vision and to put the Seer in touch with definite Intelligences of a Higher Order. (3) To point out that there are other Crystalline Spheres besides the crystal ball at first used to contact them; and that eventually the practice may lead to very high results, if the necessary steps are taken to insure success.



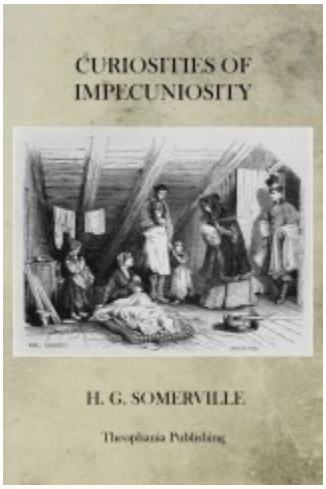
Culture and Anarchy: An Essay in Political and Social Criticism
By Matthew Arnold
156 Pages, $25.24 USD, ISBN: 1926842219
The whole scope of the essay is to recommend culture as the great help out of our present difficulties; culture being a pursuit of our total perfection by means of getting to know, on all the matters which most concern us, the best which has been thought and said in the world, and, through this knowledge, turning a stream of fresh and free thought upon our stock notions and habits, which we now follow staunchly but mechanically, vainly imagining that there is a virtue in following them staunchly which makes up for the mischief of following them mechanically.



Cupid of Campion
By Francis J. Finn S.J.
246 Pages, $20.25 USD, ISBN: 1978450702
On a morning early in September, the sun was shining brightly upon the village of McGregor. Nestled in a coulée between two hills, one rising squarely and rock-ribbed, lacking only the illusion of windows to give it the appearance of a ruined castle, the other to the northwest, sloping gently upwards, and crowned at the summit with a number of villas, McGregor, running down to the Mississippi River, was as pretty a town as Iowa could boast. On this bright particular morning, an overgrown youth was sitting on the boat-landing, his feet dangling above the water, his face glooming darkly.



Cupology: How to be Entertaining Interesting Facts for Both Young and Old Toasts --Gems How to Tell Age
By Clara
84 Pages, $15.24 USD, ISBN: 1479169676
"Prophecy is the science of being able to sense the casual influences or vibrations governing the person or subject on which the consciousness is centered, and knowing the purport or meaning of these influences. To the non-sensitive this has no existence, and he must judge the future by surface effects entirely--his knowledge of human character or of the subject to which he is devoted. A feeling of peace or quietude; that which disturbs or irritates; animates or enervates; engenders joy or gloom; that which attracts or repels without visible effects, are some of the sensations experienced and have their specific meanings, which must be grouped, counter-effects considered, and conclusions drawn from this to make the forecast or outline of the subject's future.

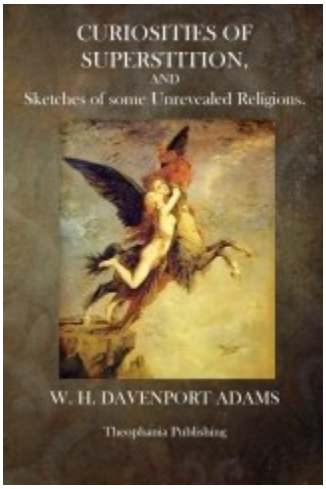


Curiosities Of Impecuniosity

By H. G. Somerville

280 Pages, $21.24 USD, ISBN: 1470079011

Samuel Smiles is of opinion that nothing sharpens a mans wits like poverty. Hence many of the greatest men have originally been poor men. Poverty often purifies and braces a mans morals. To spirited people difficult tasks are usually the most delightful ones. If we may rely upon the testimony of history, men are brave, truthful, and magnanimous, not in proportion to their wealth, but in proportion to the smallness of their means. With this I agree to a certain extent; but I claim for impecuniosity certain charms and characteristics not associated with poverty. To me the former conveys the idea of a temporary shortness of funds; the latter of a chronic state of want. I should also have preferred to say, Nothing sharpens a mans wits like impecuniosity, for to many minds poverty, pur et simple, has been simply crushing.



Curiosities of Superstition

CURIOSITIES OF SUPERSTITION, AND Sketches of some Unrevealed Religions. BY W. H. DAVENPORT ADAMS, AUTHOR OF “HEROES OF THE CROSS,” ETC. Curious Epitaphs

By William Andrews

226 Pages, $19.24 USD, ISBN: 147815456X

Many interesting epitaphs have been placed to the memory of tradesmen. Often they are not of an elevating character, nor highly poetical, but they display the whims and oddities of men. We will first present a few relating to the watch and clock-making trade.

Curious Facts in the History of Insects
By Frank Cowan
390 Pages, $25.24 USD, ISBN: 151526176X
A COMPLETE COLLECTION OF THE LEGENDS, SUPERSTITIONS, BELIEFS, AND OMINOUS SIGNS CONNECTED WITH INSECTS; TOGETHER WITH THEIR USES IN MEDICINE, ART, AND AS FOOD; AND A SUMMARY OF THEIR REMARKABLE INJURIES AND APPEARANCES. The facts contained in this volume are supposed to be purely historical, or rather not to belong to the natural history of Insects, namely, their anatomy, habits, classification, etc. They have been collected mostly from Chronicles, Histories, Books of Travels, and such like works, which, at first view, seem to be totally foreign to Insects: and were only discovered by examination of the indexes and tables of contents.

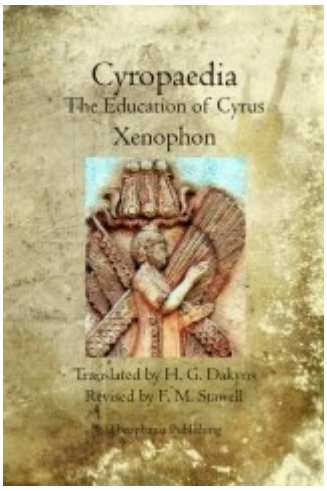
Current Superstitions: Collected From The Oral Tradition Of English Speaking Folk
By Fanny D. Bergen
194 Pages, $19.24 USD, ISBN: 1500747912
A single proverb, superstition, riddle, or tradition may, by association of ideas, act like a magic mirror in bringing back hundreds of long-forgotten people, pastimes, and occupations. And whatever makes one young, if only for an hour, will ever fascinate. The greater number of those who kindly responded to the request for additional notes to my animal and plant lore were naturally those of somewhat literary or scientific tastes and pursuits. Many letters were from teachers, many others from physicians, a few from professional scientists, the rest from men and women of various callings, who had been pleased by suggestions that aroused memories of the credulous and unreflecting period in their own lives. The abundant material thus brought in, which consisted of folk-lore items of the most varied kind, was read gratefully and with pleasant surprise.

Cynthia's Revels
By Ben Jonson
252 Pages, $20.24 USD, ISBN: 1515261832
"Cynthia's Revels," the second "comical satire," was acted in 1600, and, as a play, is even more lengthy, elaborate, and impossible than "Every Man Out of His Humour." Here personal satire seems to have absorbed everything, and while much of the caricature is admirable, especially in the detail of witty and trenchantly satirical dialogue, the central idea of a fountain of self-love is not very well carried out, and the persons revert at times to abstractions, the action to allegory. It adds to our wonder that this difficult drama should have been acted by the Children of Queen Elizabeth's Chapel, among them Nathaniel Field with whom Jonson read Horace and Martial, and whom he taught later how to make plays.



Cyropaedia: The Education of Cyrus
By Xenophon
344 Pages, $23.24 USD, ISBN: 1468020307
An accomplished Greek scholar, for many years a careful and sympathetic student of Xenophon, and possessing a rare mastery of English idiom, he was unusually well equipped for the work of a translator. And his version will, as I venture to think, be found to satisfy those requirements of an effective translation which Professor Jowett laid down. It is faithful to the tone and spirit of the original, and it has the literary quality of a good piece of original English writing. For these and other reasons it should prove attractive and interesting reading for the average Englishman

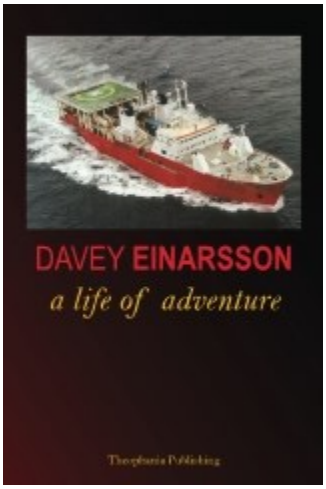
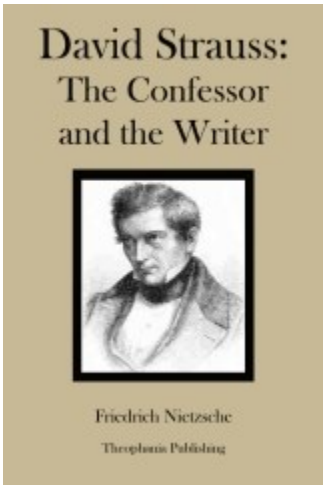
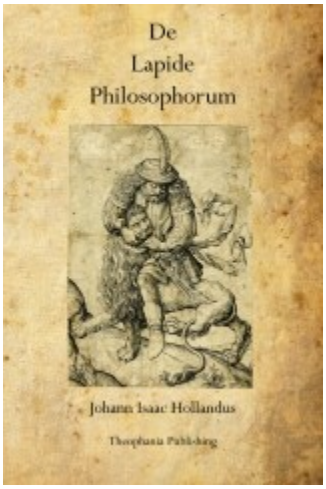
PRINCE KASAM OF BALUCHISTAN "What country did you say, Prince?" "Baluchistan, my lord." The great financier lay back in his chair and a slight smile flickered over his stern features. Then he removed his eye-glasses and twirled them thoughtfully around his finger as he addressed the young man opposite. "I remember," said he, "that when I attended school as a boy one of my chiefest trials in geography was to learn how to bound Baluchistan." "Ah, do not say that, sir," exclaimed Prince Kasam, eagerly. "It is a customary thing, whenever my country is mentioned, for an Englishman to refer to his geography.



Davey Einarsson: A Life of Adventure
By Davey Einarsson
314 Pages, $22.24 USD, ISBN: 177083382X
DAVID “DAVEY” EINARSSON grew up at a time when the world was just opening up. While people today seek out adventure through travel, Davey’s everyday life was one of excitement and new experiences. From growing up on the Canadian prairie before the arrival of electricity to experiencing, firsthand, revolutions in Indonesia and Libya, Davey Einarsson watched history unfold dramatically around him. He even made history as he sailed Arctic seas no one had sailed before. Read about Davey’s remarkable experience to share his enthusiasm and Viking sense of adventure.



David Strauss The Confessor and the Writer
By Friedrich Nietzsche
98 Pages, $16.24 USD, ISBN: 1478154659
Public opinion in Germany seems strictly to forbid any allusion to the evil and dangerous consequences of a war, more particularly when the war in question has been a victorious one. Those writers, therefore, command a more ready attention who, regarding this public opinion as final, proceed to vie with each other in their jubilant praise of the war, and of the powerful influences it has brought to bear upon morality, culture, and art. Yet it must be confessed that a great victory is a great danger. Human nature bears a triumph less easily than a defeat; indeed, it might even be urged that it is simpler to gain a victory of this sort than to turn it to such account that it may not ultimately prove a serous rout.



De Lapide Philosophorum: The Philosopher's Stone

. Therefore, stay with the Great Art, or the great Elixir, as your foregathers did. When you have accomplished that, you may try other operations of Nature with greater confidence. But if you do otherwise, you are not following my advice. To begin with, take in hand the Great Work, because there is no worry in it. Nothing in it is distilled, dissolved, coagulated or purified. In it there are no unknown works or things, no impure things that have faces. Nor do you calcine as there is no need for it. You do not separate any Elements, because they are pure. It is one species, one thing, one vessel, one furnace, and one work, to the White and to the Red.

Death - And After ?
By Annie Besant
84 Pages, $16.24 USD, ISBN: 1480081086
This book by Dr. Annie Besant has been through several Editions. The following is the Preface that appeared in the First Edition. FEW words are needed in sending this little book out into the world. It is the third of a series of Manuals designed to meet the public demand for a simple exposition of Theosophical teachings. Some have complained that our literature is at once too abstruse, too technical, and too expensive for the ordinary reader, and it is our hope that the present series may succeed in supplying what is a very real want. Theosophy is not only for the learned; it is for all.

Devil Worship in France: or the Question of Lucifer
By Arthur Edward Waite
200 Pages, $19.24 USD, ISBN: 149746496X
The term Modern Satanism is not intended to signify the development of some new aspect of old doctrine concerning demonology, or some new argument for the personification of the evil principle in universal nature. It is intended to signify the alleged revival, or, at least, the reappearance to some extent in public, of a cultus diabolicus, or formal religion of the devil, the existence of which, in the middle ages, is registered by the known facts of the Black Sabbath, a department, however, of historical research, to which full justice yet remains to be done.

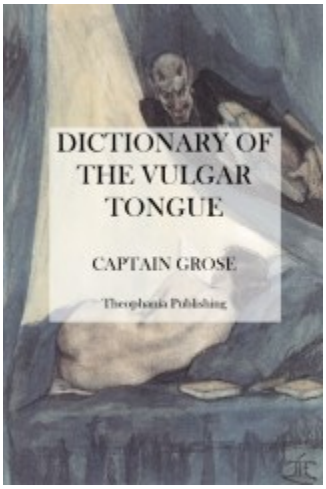
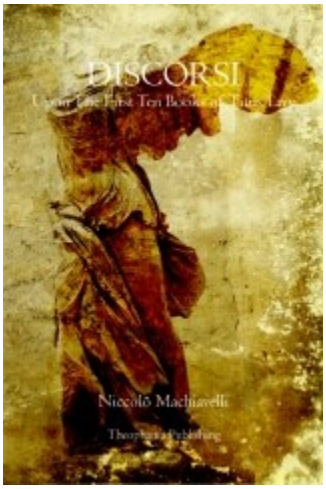
Dialogues Concerning Natural Religion
By David Hume
130 Pages, $17.24 USD, ISBN: 1770833781
It has been remarked, my HERMIPPUS, that though the ancient philosophers conveyed most of their instruction in the form of dialogue, this method of composition has been little practised in later ages, and has seldom succeeded in the hands of those who have attempted it. Accurate and regular argument, indeed, such as is now expected of philosophical inquirers, naturally throws a man into the methodical and didactic manner; where he can immediately, without preparation, explain the point at which he aims; and thence proceed, without interruption, to deduce the proofs on which it is established.

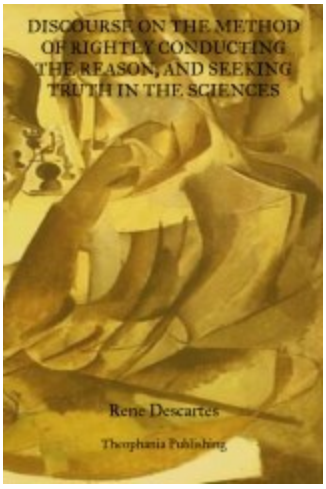
Dialogues Concerning Two New Sciences
By Galileo Galilei
434 Pages, $26.24 USD, ISBN: 177083379X
To render the Physics of Galileo also accessible to English and American students is the purpose of the following translation. The last of the great creators of the Renaissance was not a prophet without honor in his own time; for it was only one group of his countrymen that failed to appreciate him. Even during his life time, his Mechanics had been rendered into French by one of the leading physicists of the world, Mersenne.



Dictionary of the Vulgar Tongue
By Captain Grose
510 Pages, $28.24 USD, ISBN: 1475006241
The merit of Captain Grose's Dictionary of the Vulgar Tongue has been long and universally acknowledged. But its circulation was confined almost exclusively to the lower orders of society: he was not aware, at the time of its compilation, that our young men of fashion would at no very distant period be as distinguished for the vulgarity of their jargon as the inhabitants of Newgate; and he therefore conceived it superfluous to incorporate with his work the few examples of fashionable slang that might occur to his observation.



Discorsi: Upon The First Ten Books of Titus Livy
By Niccolõ Machiavelli
368 Pages, $24.24 USD, ISBN: 1468020366
When I consider how much honor is attributed to antiquity, and how many times, not to mention many other examples, a fragment of an antique statue has been bought at a great price in order to have it near to one, honoring his house, being able to have it imitated by those who delight in those arts, and how they then strive with all industry to present them in all their work: and when I see, on the other hand, the works of greatest virtu which Historians indicate have been accomplished by ancient Kingdoms and Republics, by Kings, Captains, Citizens, Lawgivers, and others who have worked themselves hard for their country...

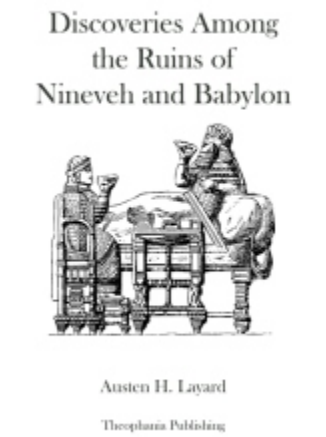


Discourse On The Method Of Rightly Conducting The Reason: And Seeking Truth In The Sciences

By Rene Descartes

62 Pages, $17.24 USD, ISBN: 1469928264

If this Discourse appear too long to be read at once, it may be divided into six Parts: and, in the first, will be found various considerations touching the Sciences; in the second, the principal rules of the Method which the Author has discovered, in the third, certain of the rules of Morals which he has deduced from this Method; in the fourth, the reasonings by which he establishes the existence of God and of the Human Soul, which are the foundations of his Metaphysic; in the fifth, the order of the Physical questions which he has investigated, and, in particular, the explication of the motion of the heart and of some other difficulties pertaining to Medicine, as also the difference between the soul of man and that of the brutes; and, in the last, what the Author believes to be required in order to greater advancement in the investigation of Nature than has yet been made, with the reasons that have induced him to write.

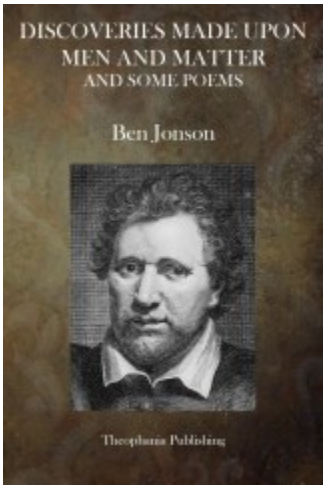


Discoveries Among The Ruins of Ninevah and Babylon

By Austen H. Layard

546 Pages, $29.24 USD, ISBN: 1478255986

Since the publication of my first work on the discoveries at Nineveh much progress has been made in deciphering the cuneiform character, and the contents of many highly interesting and important inscriptions have been given to the public. For these additions to our knowledge we are mainly indebted to the sagacity and learning of two English scholars, Col. Rawlinson and the Rev. Dr. Hincks. In making use of the results of their researches, I have not omitted to own the sources from which my information has been derived.

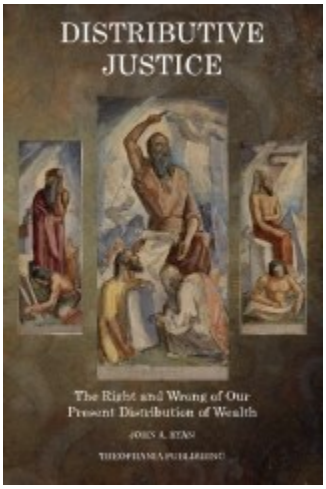


Discoveries Made Upon Matters and Men

By Ben Jonson

120 Pages, $16.24 USD, ISBN: 1500757934

Ben Jonson's 'Discoveries' are, as he says in the few Latin words prefixed to them, 'A wood - Sylva - of things and thoughts, which has for its first meaning material, but is also applied peculiarly to kinds of wood, and to a wood, 'from the multiplicity and variety of the material contained in it. For, as we are commonly used to call the infinite mixed multitude of growing trees a wood, so the ancients gave the name of Sylvæ - Timber Trees - to books of theirs in which small works of various and diverse matter were promiscuously brought together.'

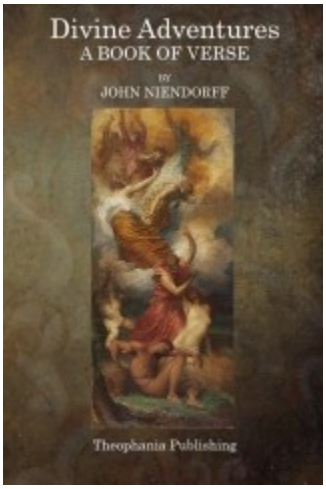


Distributive Justice: The Right and Wrong of Our Present Distribution of Wealth

By John A. Ryan

408 Pages, $25.24 USD, ISBN: 1515261891

The volume in hand represents an attempt to discuss systematically and comprehensively the justice of the processes by which the product of industry is distributed. Inasmuch as the product is actually apportioned among landowners, capitalists, business men, and labourers, the moral aspects of the distribution are studied with reference to these four classes. While their rights and obligations form the main subject of the book, the effort is also made to propose reforms that would remove the principal defects of the present system and bring about a larger measure of justice.

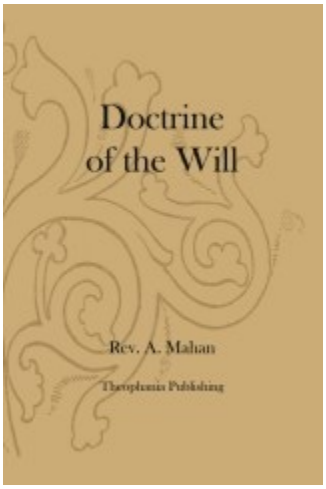


Divine Adventures

By John Niendorff

78 Pages, $16.24 USD, ISBN: 1515261980

For in the morning of our love, there came The spirit singing such entrancing notes, As sweeps the whole empyrian with a flame, Wherein, a dream, pure lofty pleasure floats, And love and beauty find their mellow throats, In glorious fervor, drinking from the golden bowl, The wine of joy that binds them soul to soul, Thou art my muse and thine the phantasy With spirit hand to guide unconsciously. For all I bring thee, minion of thy beauty, This little garland of a memory fruity— A simple tale, as old as love is old, Of virgin art within a golden mold, Still burning, molten, shaping unto glory.



Doctrine of the Will

By Rev A. Mahan

206 Pages, $19.24 USD, ISBN: 1477613447

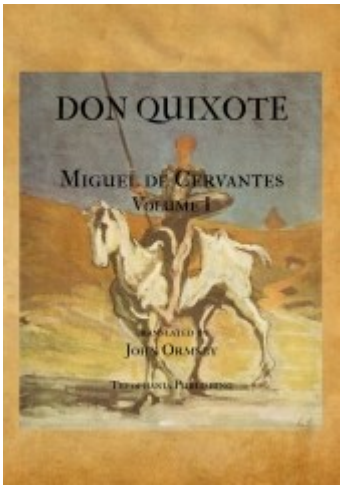
Many an author, thus disappointed, has had occasion to be reminded of the admonition, “Ye have need of patience.” Whether the following Treatise shall succeed in gaining the public ear, or not, one consolation will remain with the writer, the publication of the work has satisfied his sense of duty. To his respected Associates in the Institution over which he presides, Associates with whose approbation and counsel the work was prepared, the Author would take this occasion publicly to express his grateful acknowledgments for the many important suggestions which he received from them, during the progress of its preparation.

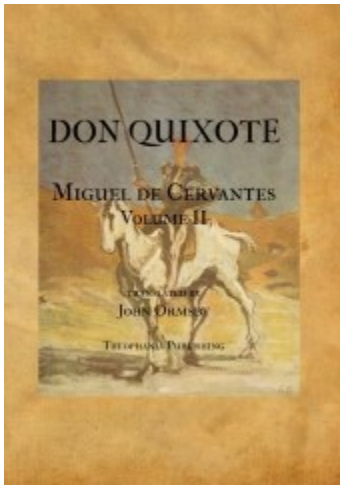
Domitia

By S. Baring-Gould

444 Pages, $26.25 USD, ISBN: 1979216002

Flashes as of lightning shot from each side of a galley as she was being rowed into port. She was a bireme, that is to say, had two tiers of oars; and as simultaneously the double sets were lifted, held for a moment suspended, wet with brine, feathered, and again dipped, every single blade gleamed, reflecting the declining western sun, and together formed a flash from each side of the vessel of a sheaf of rays. The bireme was approaching the entrance to the harbor of Cenchræa. The one white sail was filled with what little wind breathed, and it shone against a sapphire sea like a moon.





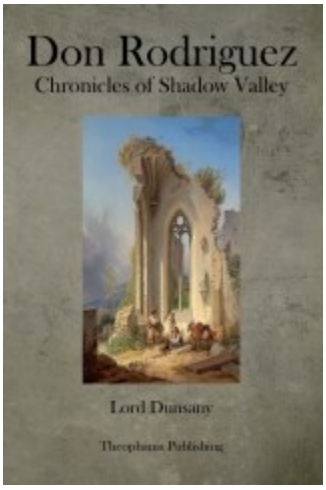
Don Quixote TWO VOLUME SET

By Miguel de Cervantes

560 Pages, $34.91 USD, ISBN: 1475256507

606 Pages, $35.29 USD, ISBN: 1475256647

It was with considerable reluctance that I abandoned in favour of the present undertaking what had long been a favourite project: that of a new edition of Shelton's "Don Quixote," which has now become a somewhat scarce book. There are some—and I confess myself to be one—for whom Shelton's racy old version, with all its defects, has a charm that no modern translation, however skilful or correct, could possess. Shelton had the inestimable advantage of belonging to the same generation as Cervantes; "Don Quixote" had to him a vitality that only a contemporary could feel; it cost him no dramatic effort to see things as Cervantes saw them; there is no anachronism in his language; he put the Spanish of Cervantes into the English of Shakespeare.



Don Rodriguez Chronicles of Shadow Valley

By Lord Dunsany

254 Pages, $17.24 USD, ISBN: 1479169684

After long and patient research I am still unable to give to the reader of these Chronicles the exact date of the times that they tell of. Were it merely a matter of history there could be no doubts about the period; but where magic is concerned, to however slight an extent, there must always be some element of mystery, arising partly out of ignorance and partly from the compulsion of those oaths by which magic protects its precincts from the tiptoe of curiosity.

Dope

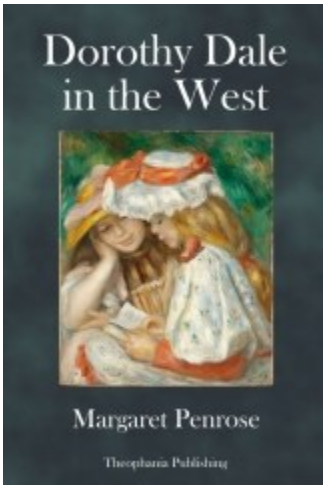
She mentioned the matter to another habitue, a lady of title addicted to the use of the hypodermic syringe, and learned that she (Rita) was being charged nearly twice as much as her friend. "I should bring the man to his senses, dear," said her ladyship. "I know a doctor who will be only too glad to supply you. When I say a doctor, he is no longer recognized by the B.M.A., but he's none the less clever and kind for all that." To the clever and kind medical man Rita repaired on the following day, bearing a written introduction from her friend.

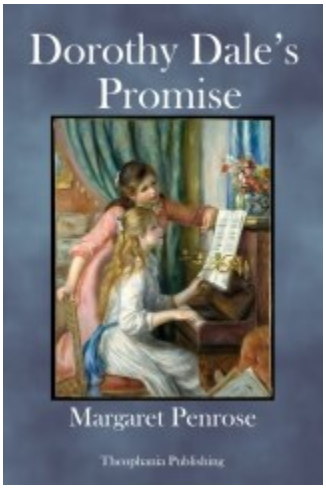


Dorothy Dale in the West

By Margaret Penrose

344 Pages, $23.25 USD, ISBN: 1982053534

“He, he, he!” giggled Tavia. “What is the matter now, child?” demanded Dorothy Dale, haughtily. “There are no ‘hes’ in this lane. The road is empty before us——” “And the world would be, too, if it wasn’t for the possible ‘hes’ that are to come into our lives,” quoth Tavia, with shocking frankness. “You talk like a cave girl,” declared her chum. “Is there nothing on your mind but boys?” “Yes’m! More boys!” chuckled Tavia. “It is June. The bridal-wreath is in bloom. If ‘In spring the young man’s fancy lightly turns to thoughts of love,’ can’t our girls’ fancies turn in June to thoughts of white lace veils, shoes that pinch your feet horribly—and can’t we dream of hobbling up to the altar to the sound of Mendelssohn’s march?” “Hobble to the haltar, you mean,” sniffed Dorothy, with her best suffragette air.

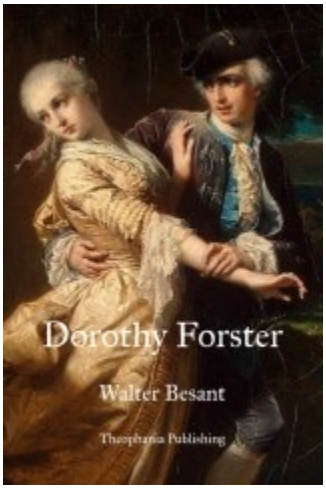


Dorothy Dale's Promise

By Margaret Penrose

338 Pages, $23.25 USD, ISBN: 1979110042

The train started a second after the two almost breathless girls entered the half-empty chair car. They came in with a rush, and barely found their seats and got settled in them before the easily rolling train had pulled clear of the station and the yards. “Back to dear old Glenwood School, Doro!” cried Tavia Travers, fairly hugging her more sober companion. “How do you feel about it?” “De-lighted, Miss,” laughed Dorothy Dale. “After our trying experiences in New York——Well! a country life is strenuous enough for me, I guess.”



Dorothy Forster

By Walter Besant

512 Pages, $30.24 USD, ISBN: 1469928337

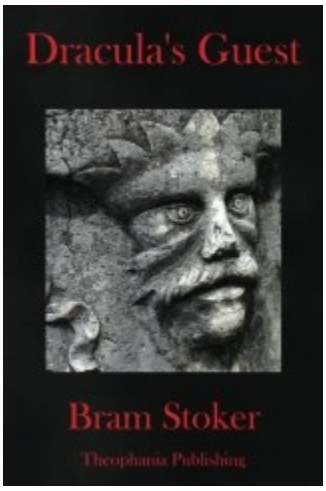
This Dorothy, my aunt, grew up a most incomparable beauty, the equal of whom was not to be seen anywhere in the county. In those days, and until the death of Ferdinando, there was open house kept at Bamborough, with so much company and such prodigality and lavishing of good things as no other house in the county could show. It was ever a distinction between the Forsters of Etherston and those of Bamborough, that the former were quiet gentlemen, lovers of home, and not profuse of expenditure ; while the latter were large-handed, hospitable, and never so happy as when they were spending money with open hands and both hands.

Dracula

By Bram Stoker

688 Pages, $33.25 USD, ISBN: 1981470565

JONATHAN HARKER'S JOURNAL. (Kept in shorthand.) 3 May. Bistritz.—Left Munich at 8.35 p.m. on 1st May, arriving at Vienna early next morning; should have arrived at 6.46, but train was an hour late. Buda-Pesth seems a wonderful place, from the glimpse which I got of it from the train and the little I could walk through the streets. I feared to go very far from the station, as we had arrived late and would start as near the correct time as possible.



Dracula's Guest

By Bram Stoker

278 Pages, $21.25 USD, ISBN: 1981465235

When we started for our drive the sun was shining brightly on Munich, and the air was full of the joyousness of early summer. Just as we were about to depart, Herr Delbrück (the maître d'hôtel of the Quatre Saisons, where I was staying) came down, bareheaded, to the carriage and, after wishing me a pleasant drive, said to the coachman, still holding his hand on the handle of the carriage door: 'Remember you are back by nightfall. The sky looks bright but there is a shiver in the north wind that says there may be a sudden storm. But I am sure you will not be late.'

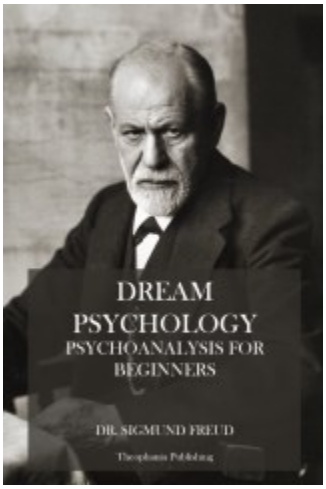
Dreads and Drolls

By Arthur Machen

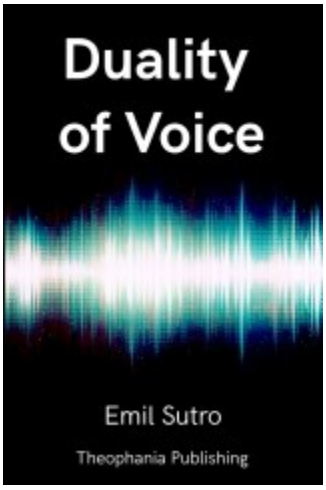
166 Pages, $20.24 USD, ISBN: 1469928388

All these Dreads and Drolls appeared in The Graphic . They were gathered from all sorts of sources. Most of them are strictly veridical, but it may be confessed that here and there imagination plays a small part. My favourite in the collection is, decidedly, the story of Grimaldi the Clown and his long-lost brother. It is an enigma of a tale. On the one hand, there is nothing improbable in the bare plot. Many lads, I have no doubt, went to sea in the adventurous times of the Napoleonic Wars, and were unheard of by their families for long years, often enough they were never heard of again.

Dream Days
By Kenneth Grahame
168 Pages, $18.24 USD, ISBN: 1475006284
IN the matter of general culture and attainments, we youngsters stood on pretty level ground. True, it was always happening that one of us would be singled out at any moment, freakishly, and without regard to his own preferences, to wrestle with the inflections of some idiotic language long rightly dead; while another, from some fancied artistic tendency which always failed to justify itself, might be told off without warning to hammer out scales and exercises, and to bedew the senseless keys with tears of weariness or of revolt.



Dream Psychology: Psychoanalysis for Beginners
By Dr. Sigmund Freud
172 Pages, $15.24 USD, ISBN: 1479169730
The medical profession is justly conservative. Human life should not be considered as the proper material for wild experiments. Conservatism, however, is too often a welcome excuse for lazy minds, loath to adapt themselves to fast changing conditions. Remember the scornful reception which first was accorded to Freud's discoveries in the domain of the unconscious.



Duality of Voice
By Emil Sutro
206 Pages, $19.25 USD, ISBN: 1979342792
By the time this book will appear, nearly six years will have elapsed since I discovered the voice of the œsophagus, and almost five since I published a preliminary account of this discovery in a book entitled The Basic Law of Vocal Utterance. This discovery, though the most comprehensive and far-reaching of any that has ever been made, not only in regard to the voice, but in regard to the better comprehension of our nature and our entire human existence, has remained as unknown to the world as if it had never been made.

Early Bardic Literature of Ireland
By Standish O'Grady
66 Pages, $16.24 USD, ISBN: 1770831959
There is one country in Europe in which, by virtue of a marvellous strength and tenacity of the historical intellect, and of filial devotedness to the memory of their ancestors, there have been preserved down into the early phases of mediaeval civilisation, and then committed to the sure guardianship of manuscript, the hymns, ballads, stories, and chronicles, the names, pedigrees, achievements, and even characters, of those ancient kings and warriors over whom those massive cromlechs were erected and great cairns piled.

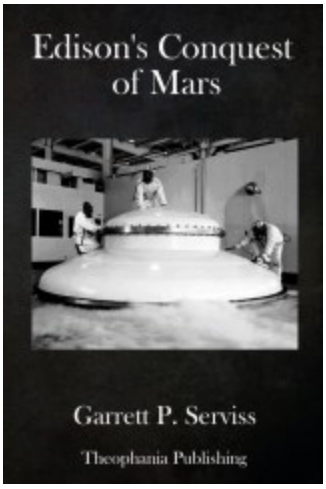
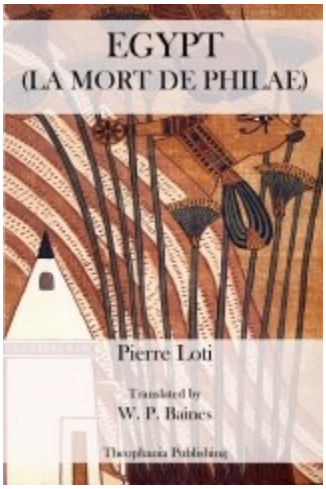
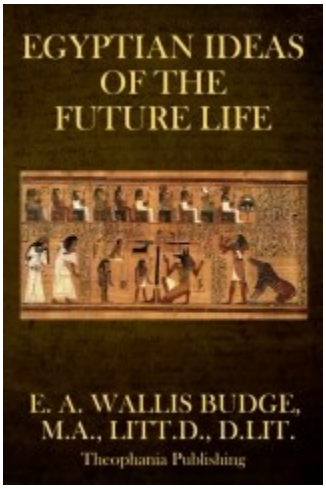
Echoes from the Orient
By William Q. Judge
116 Pages, $16.25 USD, ISBN: 1979235554
What appears to the Western mind to be a very strange superstition prevails in India about wonderful persons who are said to be of immense age, and who keep themselves secluded in places not accessible to the ordinary traveler. So long has this been current in India that the name applied to these beings is well known in the Sanskrit language: "Mahatma," a compound of two words, maha, great, and atma, soul. The belief in the existence of such persons is not confined to the ignorant, but is shared by the educated of all castes. The lower classes look upon the Mahatmas as a sort of gods, and think most of their wonderful powers and great age.



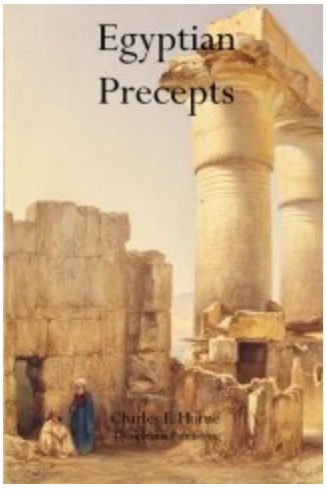
Edison's Conquest of Mars
By Garrett P. Serviss
356 Pages, $23.25 USD, ISBN: 1979235902
It is impossible that the stupendous events which followed the disastrous invasion of the earth by the Martians should go without record, and circumstances having placed the facts at my disposal, I deem it a duty, both to posterity and to those who were witnesses of and participants in the avenging counterstroke that the earth dealt back at its ruthless enemy in the heavens, to write down the story in a connected form. The Martians had nearly all perished, not through our puny efforts, but in consequence of disease, and the few survivors fled in one of their projectile cars, inflicting their cruelest blow in the act of departure.



Egypt La Mort De Philae
By Pierre Loti
174 Pages, $18.24 USD, ISBN: 1475036604
A night wondrously clear and of a colour unknown to our climate; a place of dreamlike aspect, fraught with mystery. The moon of a bright silver, which dazzles by its shining, illumines a world which surely is no longer ours; for it resembles in nothing what may be seen in other lands. A world in which everything is suffused with rosy color beneath the stars of midnight, and where granite symbols rise up, ghostlike and motionless. Is that a hill of sand that rises yonder? One can scarcely tell, for it has as it were no shape, no outline; rather it seems like a great rosy cloud, or some huge, trembling billow, which once perhaps raised itself there, forthwith to become motionless for ever. . . . And from out this kind of mummified wave a colossal human effigy emerges, rose-coloured too, a nameless, elusive rose; emerges, and stares with fixed eyes and smiles.



Egyptian Ideas of the Future Life
By E.A. Wallis Budge M.A.
206 Pages, $19.25 USD, ISBN: 1979236828
A study of ancient Egyptian religious texts will convince the reader that the Egyptians believed in One God, who was self-existent, immortal, invisible, eternal, omniscient, almighty, and inscrutable; the maker of the heavens, earth, and underworld; the creator of the sky and the sea, men and women, animals and birds, fish and creeping things, trees and plants, and the incorporeal beings who were the messengers that fulfilled his wish and word.



Egyptian Precepts
By Charles F. Horne
76 Pages, $16.24 USD, ISBN: 1770831894
Precepts of the prefect, the lord Ptah-hotep, under the Majesty of the King of the South and North, Assa, living eternally forever. The prefect, the feudal lord Ptah-hotep, says: O Ptah with the two crocodiles, my lord, the progress of age changes into senility. Decay falls upon man and decline takes the place of youth. A vexation weighs upon him every day; sight fails, the ear becomes deaf; his strength dissolves without ceasing. The mouth is silent, speech fails him; the mind decays, remembering not the day before. The whole body suffers. That which is good becomes evil; taste completely disappears.

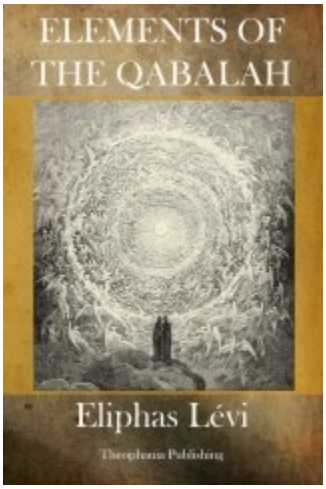
Egyptian Tales
By Sir William Matthew Flinders Petrie
188 Pages, $20.24 USD, ISBN: 1926842146
It seems that any simple form of fiction is supposed to be a "fairy tale:" which implies that it has to do with an impossible world of imaginary beings. Now the Egyptian Tales are exactly the opposite of this, they relate the doings and the thoughts of men and women who are human--sometimes "very human". Whatever there is of supernatural elements is a very part of the beliefs and motives of the people whose lives are here pictured. But most of what is here might happen in some corner of our own country to-day, where ancient beliefs may have a home. It is strange that while literature occupies so much attention as at present, and while fiction is the largest division of our book-work, the oldest literature and fiction of the world should yet have remained unpresented to English readers.

Electra

By Sophocles

62 Pages, $17.24 USD, ISBN: 1469928434

When King Agamemnon returns from the Trojan War with his new concubine, Cassandra, his wife Clytemnestra (who has taken Agamemnon's cousin Aegisthus as a lover) kills them. Clytemnestra believes the murder was justified, since Agamemnon had sacrificed their daughter Iphigenia before the war, as commanded by the gods. Electra, daughter of Agamemnon and Clytemnestra, rescued her young, twin brother Orestes from her mother by sending him to Strophius of Phocis. The play begins years later when Orestes has returned as a grown man with a plot for revenge, as well as to claim the throne. Orestes arrives with his friend Pylades, son of Strophius, and a pedagogue, i.e. tutor (an old attendant of Orestes, who took him from Electra to Strophius).

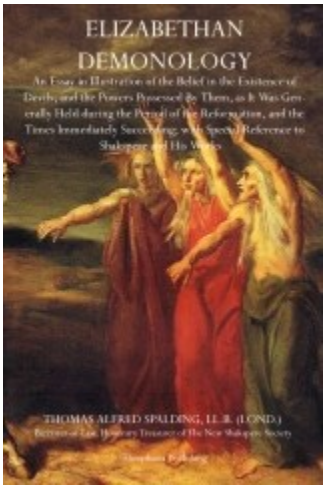


Elements of the Qabalah

By Eliphas Lévi

38 Pages, $16.24 USD, ISBN: 1770832726

Friend and Brother, I can give you this title because you are searching for the truth in the sincerity of your heart, ready to make the necessary sacrifices in order to find it. Truth, being the essence of all that is, is not difficult to find: it is within us and we are within it. It is like light and the blind do not see it. Being is. This is incontestable and absolute. The exact idea of Being is truth; its knowledge is science; its ideal expression is reason; its activity is creation and justice. You wish to believe, you say. For this, it is enough to know and to love truth. For the true faith is the unshakeable adhesion of the mind to the necessary deductions of science in conjectural infinity.Only occult sciences give certitude, for they have their bases in realities and not in dreams.



Elizabethan Demonology

By Thomas Alfred Spalding

130 Pages, $17.24 USD, ISBN: 1770831711

This Essay is an expansion, in accordance with a preconceived scheme, of two papers, one on “The Witches in Macbeth,” and the other on “The Demonology of Shakspere,” which were read before the New Shakspere Society in the years 1877 and 1878. The Shakspere references in the text are made to the Globe Edition. It is impossible to understand and appreciate thoroughly the production of any great literary genius who lived and wrote in times far removed from our own, without a certain amount of familiarity...

English Embroidered Bookbindings

By Cyril Davenport

182 Pages, $18.24 USD, ISBN: 1478154705

A new series of 'Books about Books,' exclusively English in its aims, may seem to savour of the patriotism which, in matters of art and historical research, is, with reason enough, often scoffed at as a treacherous guide. No doubt in these pleasant studies patriotism acts as a magnifying-glass, making us unduly exaggerate details. On the other hand, it encourages us to try to discover them, and just at present this encouragement seems to be needed. There are so many gaps in our knowledge of the history of books in England that we can hardly claim that our own dwelling is set in order, and yet many of our bookmen appear more inclined to re-decorate their neighbours' houses than to do work that still urgently needs to be done at home.

English Traits

By Ralph Waldo Emerson

204 Pages, $20.24 USD, ISBN: 1469928493

When I prepared to depart, he said he wished to show me what a common person in England could do, and he led me into the enclosure of his clerk, a young man, to whom he had given this slip of ground, which was laid out, or its natural capabilities shown, with much taste. He then said he would show me a better way towards the inn; and he walked a good part of a mile, talking, and ever and anon stopping short to impress the word or the verse, and finally parted from me with great kindness, and returned across the fields. Wordsworth honored himself by his simple adherence to truth, and was very willing not to shine; but he surprised by the hard limits of his thought

Epicoene: Or, The Silent Woman

The ends of all, who for the scene do write, Are, or should be, to profit and delight. And still't hath been the praise of all best times, So persons were not touch'd, to tax the crimes. Then, in this play, which we present to-night, And make the object of your ear and sight, On forfeit of yourselves, think nothing true: Lest so you make the maker to judge you, For he knows, poet never credit gain'd By writing truths, but things (like truths) well feign'd. Essay on the Creative Imagination
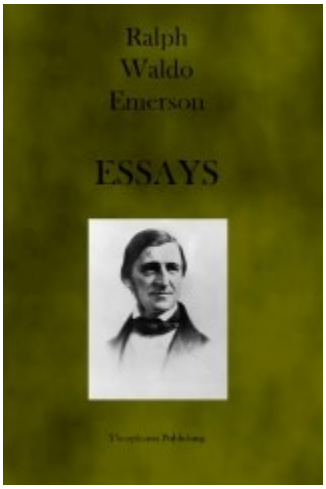
By T H Ribot
296 Pages, $22.24 USD, ISBN: 1479169927
The name of Th. Ribot has been for many years well known in America, and his works have gained wide popularity. The present translation of one of his more recent works is an attempt to render available in English what has been received as a classic exposition of a subject that is often discussed, but rarely with any attempt to understand its true nature.



Essays
By Ralph Waldo Emerson
722 Pages, $35.24 USD, ISBN: 1926842006
Our age is retrospective. It builds the sepulchres of the fathers. It writes biographies, histories, and criticism. The foregoing generations beheld God and nature face to face; we, through their eyes. Why should not we also enjoy an original relation to the universe? Why should not we have a poetry and philosophy of insight and not of tradition, and a religion by revelation to us, and not the history of theirs? Embosomed for a season in nature, whose floods of life stream around and through us, and invite us by the powers they supply, to action proportioned to nature, why should we grope among the dry bones of the past, or put the living generation into masquerade out of its faded wardrobe? The sun shines to-day also. There is more wool and flax in the fields. There are new lands, new men, new thoughts. Let us demand our own works and laws and worship.

Essays on Life, Art and Science

By Samuel Butler

184 Pages, $18.24 USD, ISBN: 1478154721

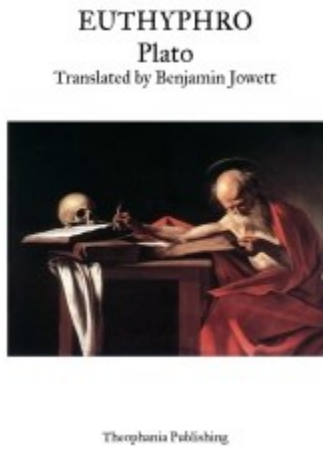
Samuel Butler was a man of such unusual versatility, and his interests were so many and so various that his literary remains were bound to cover a wide field. Nevertheless it will be found that several of the subjects to which he devoted much time and labour are not represented in these pages. I have not thought it necessary to reprint any of the numerous pamphlets and articles which he wrote upon the Iliad and Odyssey, since these were all merged in “The Authoress of the Odyssey,” which gives his matured views upon everything relating to the Homeric poems.

Essays Towards a Theory of Knowledge

By Alexander Philip

96 Pages, $17.24 USD, ISBN: 1469928523

Two years ago, in the preface to another essay, the present writer ventured to affirm that Civilisation moves rather towards a chaos than towards a cosmos. But he could not foretell that the descensus Averni would be so alarmingly rapid. When we find Science, which has done so much and promised so much for the happiness of mankind, devoting so large a proportion of its resources to the destruction of human life, we are prone to ask despairingly—Is this the end? If not; how are we to discover and assure for stricken Humanity the vision and the possession of a Better Land?

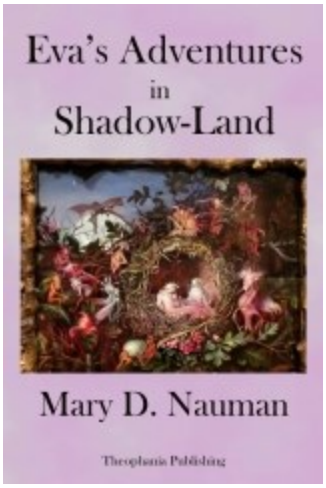


Euthyphro

By Plato

36 Pages, $17.24 USD, ISBN: 1469928574

The dialogue is set near the king-archon's court, where the two men encounter each other. They are both there for preliminary hearings before possible trials. Euthyphro has come to lay manslaughter charges against his father, as his father had allowed one of his workers to die exposed to the elements without proper care and attention . This worker had killed a slave belonging to the family estate on the island of Naxos; while Euthyphro's father waited to hear from the expounders of religious law about how to proceed, the worker died bound and gagged in a ditch. Socrates expresses his astonishment at the confidence of a man able to take his own father to court on such a serious charge, even when Athenian Law allows only relatives of the deceased to sue for murder .

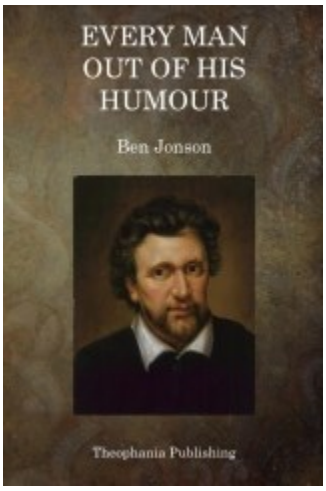


Eva's Adventures in Shadow-Land

By Mary D. Nauman

162 Pages, $17.25 USD, ISBN: 1978452322

There was nothing that Eva liked better than to go and sit in the tall grass; grass so tall that when the child, in her white dress, looped on her plump white shoulders with blue ribbons, her bright golden curls brushed back from her fair brow, and her blue eyes sparkling, sat down in it, you could not see her until you were near her, and then it was just as if you had found a picture of a little girl in a frame, or rather a nest of soft, green grass. All through this tall, wavy grass, down to the very edge of the pond, grew many flowers,—violets, and buttercups, and dandelions, like little golden suns.

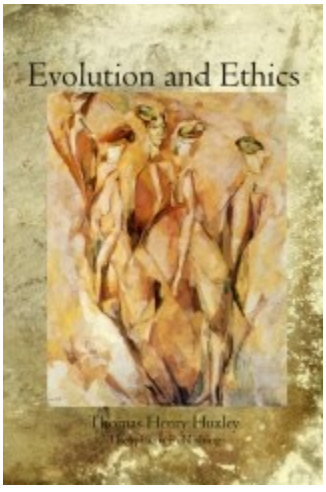


Every Man out of his Humour

By Ben Jonson

194 Pages, $18.24 USD, ISBN: 1515262340

TO THE NOBLEST NURSERIES OF HUMANITY AND LIBERTY IN THE KINGDOM THE INNS OF COURT I UNDERSTAND you, Gentlemen, not your houses: and a worthy succession of you, to all time, as being born the judges of these studies. When I wrote this poem, I had friendship with divers in your societies; who, as they were great names in learning, so they were no less examples of living. Of them, and then, that I say no more, it was not despised. Now that the printer, by a doubled charge, thinks it worthy a longer life than commonly the air of such things doth promise, I am careful to put it a servant to their pleasures, who are the inheritors of the first favour born it.

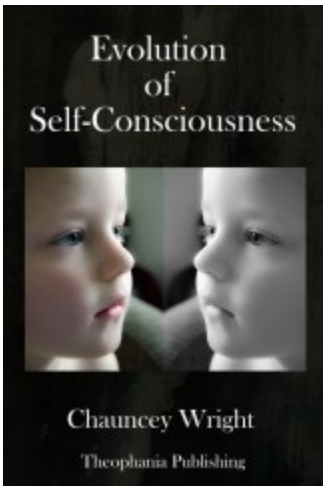


Evolution and Ethics

By Thomas Henry Huxley

122 Pages, $16.24 USD, ISBN: 1468020420

THE discourse on Evolution and Ethics, reprinted in the first half of the present volume, was delivered before the University of Oxford, as the second of the annual lectures founded by Mr. Romanes: whose name I may not write without deploring the untimely death, in the flower of his age, of a friend endeared to me, as to so many others, by his kindly nature; and justly valued by all his colleagues for his powers of investigation and his zeal for the advancement of knowledge.

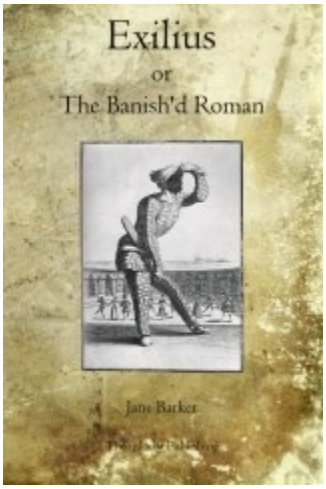


Evolution of Self-Consciousness

By Chauncey Wright

128 Pages, $16.25 USD, ISBN: 1979237352

It has come to be understood, and very generally allowed, that the conception of the origin of man as an animal race, as well as the origin of individual men within it, in accordance with the continuity of organic development maintained in the theory of evolution, does not involve any very Serious difficulties, or difficulties so great as are presented by any other hypothesis of this origin, not excepting that of "special creation "; -- if that can be properly called a hypothesis, which is, in fact, a resumption of all the difficulties of natural explanation, assuming them to be insuperable and summarizing them under a single positive name. Yet in this evolution, the birth of self-consciousness is still thought by many to be a step not following from antecedent conditions in "nature," except in an incidental manner, or in so far only as "natural" antecedents have prepared the way for the "supernatural" advent of the self-conscious soul.

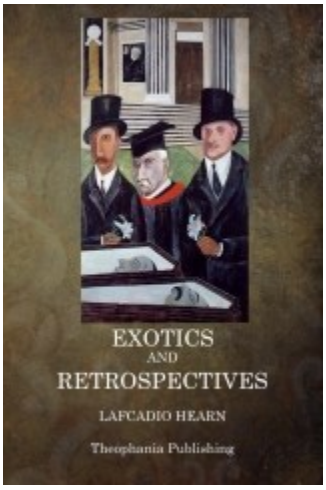


Exilius: The Banish'd Roman

By Jane Barker

286 Pages, $20.24 USD, ISBN: 1468020552

Tho' I cannot see my Fancy with the Hopes of Praise or Profit from the following Book, yet I am willing to plead its Cause, and deliver it with as fair a Title as I can to my Reader's Approbation, to which ('tis said) Books of this Kind have very little Right. For the Grave dislike them for treating on so gay a Subject; and the Sparks, for confining the Subject to such strict Rules of Virtue and Honour: So that a Romance is like the Husband in the Fable, whose Young Wife pull'd out all his grey Hairs, and his Old one, the black.

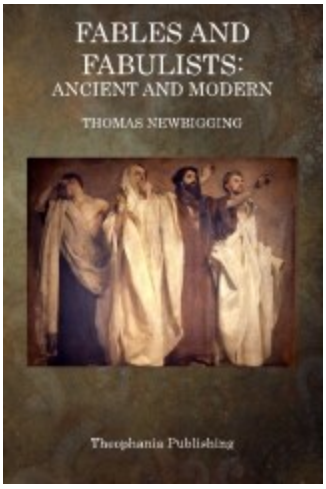


Exotics and Retrospectives

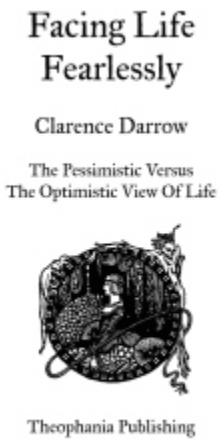
By Lafcadio Hearn

176 Pages, $18.24 USD, ISBN: 1515262103

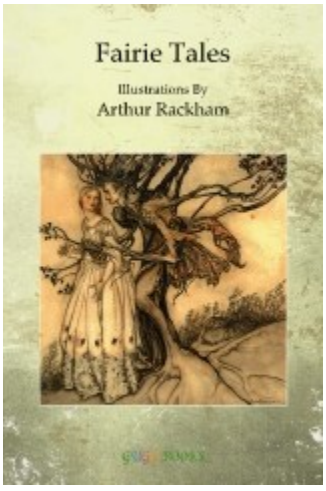
All but one of the papers composing this volume appear for the first time. The little essays, or rather fantasies, forming the second part of the book, deal with experiences in two hemispheres; but their general title should explain why they have been arranged independently of that fact. To any really scientific imagination, the curious analogy existing between certain teachings of evolutional psychology and certain teachings of Eastern faith,—particularly the Buddhist doctrine that all sense-life is Karma, and all substance only the phenomenal result of acts and thoughts,—might have suggested something much more significant than my cluster of Retrospectives. These are offered merely as intimations of a truth incomparably less difficult to recognize than to define.



Fables and Fabulists: Ancient and Modern
By Thomas Newbigging
114 Pages, $16.24 USD, ISBN: 1515262251
The term 'fable' is used in two senses, with two distinctive meanings. First, as fabulæ, it is employed to denote the myths or fictions which, by the aid of imagination and superstition, have clouded, or have become blended with, the history of the remote past. Such are the stories related of Scandinavian and Grecian heroes and gods; beings, some of whom doubtless had an actual human existence, and were wise and valiant and powerful, or the reverse, in their day, but around whose names and persons have clustered all the marvellous legends that are to be found in mythological lore. The better name for these is 'romance.'



Facing Life Fearlessly
By Clarence Darrow
36 Pages, $17.24 USD, ISBN: 1469928590
I am the master of my fate I am the captain of my soul. A fine captain of his soul; and a fine master of his fate! He wasn't master enough of his fate to get himself born, which is rather important, nor to do much of anything else, except brag about it. Instead of being the captain of his soul, as I have sometimes expressed it, man isn't even a deck-hand on a rudderless ship! He is just floating around and trying to hang on, and hanging on as long as he can.



Fairie Tales
By Arthur Rackham
508 Pages, $20.24 USD, ISBN: 1515291766 GUGA BOOKS
It all started with “Once upon a time…” and always ended with “Happily ever after”, and the in between spaces were filled with jolly tales of good deeds and bad goings on, all of which had some sort of moral o’ the story, and some didn’t seem to say much of anything other than not to anger the gods or the fairies or the kings and queens, lest they put you to sleep for good long ages. My grandmother would set us on her lap with care, open the book between us, and read with her high lilting voice those words which we came to know and to love, “Once upon a time…” and “Happily ever after.” These became such important words to us, and in time, we came to read them to our own children, and as good years pass, perhaps our children will read the same storys to our grandchildren.

Famous Men of the Middle Ages

By John H. Haaren

164 Pages, $18.24 USD, ISBN: 1478154764

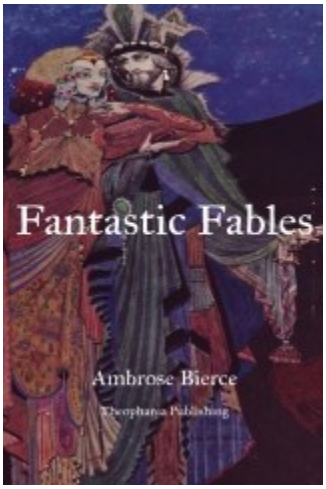
The study of history, like the study of a landscape, should begin with the most conspicuous features. Not until these have been fixed in memory will the lesser features fall into their appropriate places and assume their right proportions. The famous men of ancient and modern times are the mountain peaks of history. It is logical then that the study of history should begin with the biographies of these men. Not only is it logical; it is also pedagogical.

Fantasia of the Unconscious

By D. H. Lawrence

228 Pages, $19.24 USD, ISBN: 1479169951

The present book is a continuation from "Psychoanalysis and the Unconscious." The generality of readers had better just leave it alone. The generality of critics likewise. I really don't want to convince anybody. It is quite in opposition to my whole nature. I don't intend my books for the generality of readers. I count it a mistake of our mistaken democracy, that every man who can read print is allowed to believe that he can read all that is printed. I count it a misfortune that serious books are exposed in the public market, like slaves exposed naked for sale. But there we are, since we live in an age of mistaken democracy, we must go through with it.

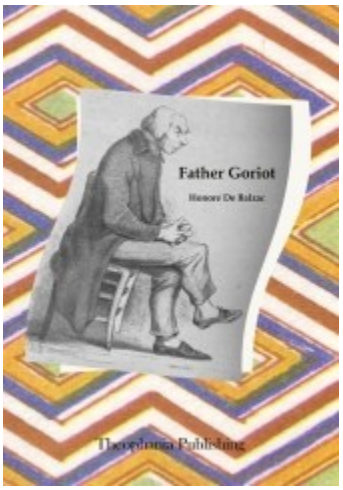


Fantastic Fables

By Ambrose Bierce

264 Pages, $23.24 USD, ISBN: 1469928612

Bierce was considered a master of pure English by his contemporaries, and virtually everything that came from his pen was notable for its judicious wording and economy of style. He wrote in a variety of literary genres. His short stories are held among the best of the 19th century, providing a popular following based on his roots. He wrote realistically of the terrible things he had seen in the war in such stories as An Occurrence at Owl Creek Bridge , The Boarded Window , Killed at Resaca , and Chickamauga . In addition to his ghost and war stories, he also published several volumes of poetry. His Fantastic Fables anticipated the ironic style of grotesquerie that became a more common genre in the 20th century.

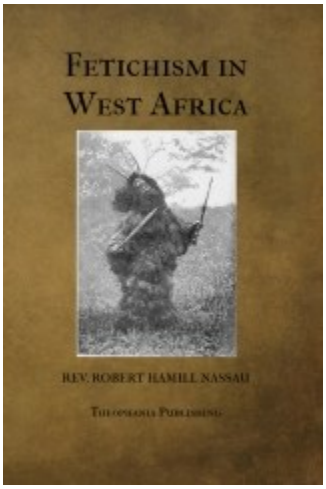


Father Goriot

By Honore De Balzac

250 Pages, $22.32 USD, ISBN: 1478392231

Mme. Vauquer (nee de Conflans) is an elderly person, who for the past forty years has kept a lodging-house in the Rue Nueve-Sainte-Genevieve, in the district that lies between the Latin Quarter and the Faubourg Saint-Marcel. Her house (known in the neighborhood as the Maison Vauquer) receives men and women, old and young, and no word has ever been breathed against her respectable establishment; but, at the same time, it must be said that as a matter of fact no young woman has been under her roof for thirty years, and that if a young man stays there for any length of time it is a sure sign that his allowance must be of the slenderest.

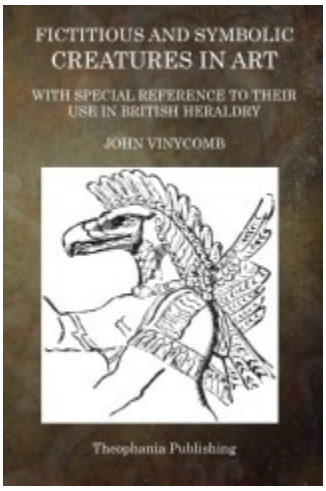


Fetichism in West Africa

By Rev Robert Hamill Nassau

434 Pages, $26.24 USD, ISBN: 1478154802

ON the 2d of July, 1861, I sailed from New York City on a little brig, the "Ocean Eagle," with destination to the island of Corisco, near the equator, on the West Coast of Africa. My first introduction to the natives of Africa was a month later, when the vessel stopped at Monrovia, the capital of the Liberian Republic, to land a portion of its trade goods, and at other ports of Liberia, Sinoe, and Cape Palmas; thence to Corisco on September 12.

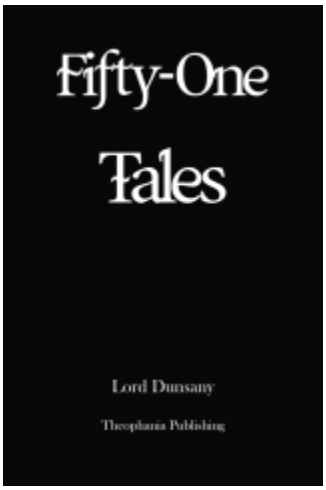


Fictitious and Symbolic Creatures in Art: With Special Reference to Their Use in British Heraldry

By John Vinycomb

298 Pages, $22.24 USD, ISBN: 1515262464

Under the title of this book it is proposed to describe and illustrate only those fictitious and symbolic creatures which appear in British Heraldry. The list will include all those beings of whose existence we have not the direct evidence of our senses, and those exaggerations and combinations of natural forms which have been adopted in the system of symbolic heraldry handed down to us from the Middle Ages. Many of the ideas of the writers of that period were undoubtedly derived from still earlier sources, namely, classic story, sacred and legendary art, and the marvellous tales of early travellers; others were the coinage of their own fancies and their fears.

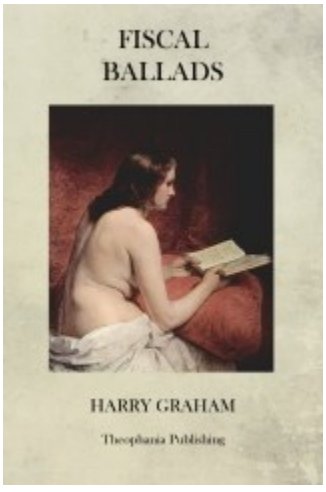


Fifty One Tales

By Lord Dunsany

88 Pages, $16.24 USD, ISBN: 1479169986

Fame singing in the highways, and trifling as she sang, with sordid adventurers, passed the poet by. And still the poet made for her little chaplets of song, to deck her forehead in the courts of Time: and still she wore instead the worthless garlands, that boisterous citizens flung to her in the ways, made out of perishable things.

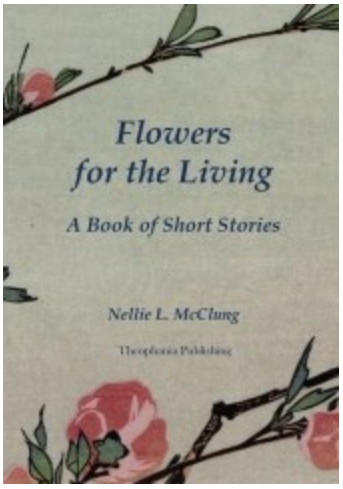


Fiscal Ballads

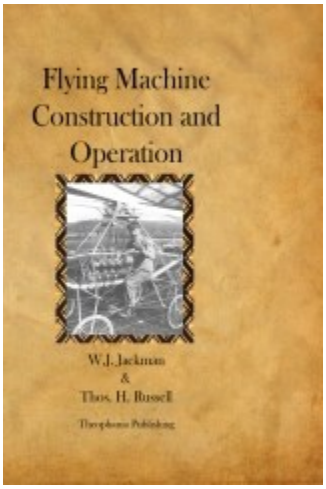
By Harry Graham

46 Pages, $16.24 USD, ISBN: 1475006438

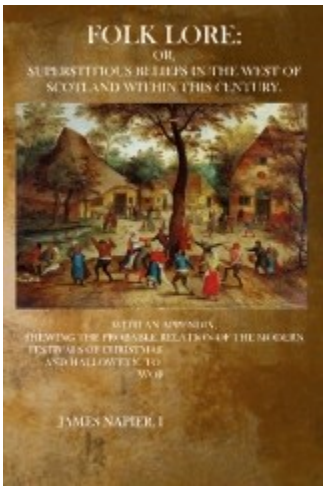
Beneath your roof I chanced to write These Ballads of the Fiscal Fight, A somewhat scant selection; So do not deem me indiscreet If I should 'dump' them at your feet, And ask for your Protection! Whate'er you be, or Fair or Free, Be still, as ever, fair—to me! Many of these 'Fiscal Ballads' have appeared in the columns of the Westminster Gazette, and are here republished by permission.



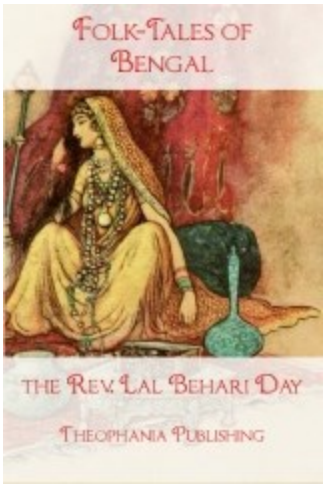
Flowers for the Living: A Book of Short Stories
By Nellie L. McClung
162 Pages, $14.59 USD, ISBN: 1478392258
Mary Coulter, who works by the day and has little time for reading, had never heard of Mary Webb's poem about the woman who had craved flowers all her life and never had had them, and yet when she died her coffin was lined with pink rosebuds, and stately white lilies stood like guardian angels among the tapers; and blue forget-me-nots, and lilies of the valley mingled with carnations and canterbury bells and narcissus and iris to form wreaths and pillows and shields and crosses and broken columns and what-nots, covering her coffin three times over, and overflowing the altar and chancel of the church .... while she lay, still and cold and dead, among all this belated loveliness, with a Mona Lisa smile on her face, not knowing a word about it, and certainly not caring!



Flying Machine Construction and Operation
By W. J. Jackman
210 Pages, $19.24 USD, ISBN: 147815487X
This book is written for the guidance of the novice in aviation, the man who seeks practical information as to the theory, construction and operation of the modern flying machine. With this object in view the wording is intentionally plain and non-technical. It contains some propositions which, so far as satisfying the experts is concerned, might doubtless be better stated in technical terms, but this would defeat the main purpose of its preparation. Consequently, while fully aware of its shortcomings in this respect, the authors have no apologies to make.



Folk Lore
By James Napier
154 Pages, $30.24 USD, ISBN: 1926842812
The doctrine taught concerning Satan, his motives and influence in the beginning of this century, supplied the popular mind with reasons to account for almost all the evils, public and private, which befell society; and as the observed ills of life, real or imaginary, greatly outnumbered the observed good occurrences, the thought of Satan was more constantly before the people's mind than was the thought of God. Practically, it might be said, and said with a very near approach to truth, that Satan, in popular estimation, was the greater of the two; but theoretically, the superiority of God was allowed, for Satan it was believed, was permitted by God to do what he did. It was commonly said, "Never speak evil of the Deil, for he has a long memory."

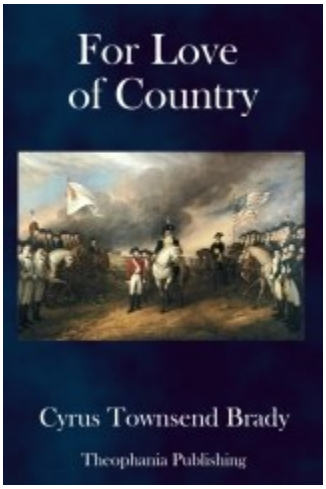


Folk-Tales of Bengal

By Rev. Lal Behari Day

312 Pages, $23.24 USD, ISBN: 1469928639

As I was no stranger to the Mährchen of the Brothers Grimm, to the Norse Tales so admirably told by Dasent, to Arnason's Icelandic Stories translated by Powell, to the Highland Stories done into English by Campbell, and to the fairy stories collected by other writers, and as I believed that the collection suggested would be a contribution, however slight, to that daily increasing literature of folk-lore and comparative mythology which, like comparative philosophy, proves that the swarthy and half-naked peasant on the banks of the Ganges is a cousin, albeit of the hundredth remove, to the fair-skinned and well-dressed Englishman on the banks of the Thames, I readily caught up the idea and cast about for materials. But where was an old story- telling woman to be got?



For Love of Country

By Cyrus Townsend Brady

460 Pages, $26.25 USD, ISBN: 1979239525

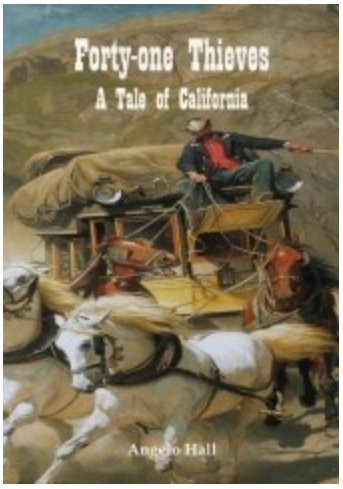
If Seymour could have voiced his thought, he would have said that the earth itself did not afford a fairer picture than that which lay within the level radius of his vision, and which had imprinted itself so powerfully upon his impressionable and youthful heart. It was not the scenery of Virginia either, the landscape on the Potomac, of which he would have spoken so enthusiastically, though even that were a thing not to be disdained by such a lover of the beautiful as Seymour had shown himself to be,—the dry brown hills rising in swelling slopes from the edge of the wide quiet river; the bare and leafless trees upon their crests, now scarce veiling the comfortable old white house, which in the summer they quite concealed beneath their masses of foliage

For the Defence

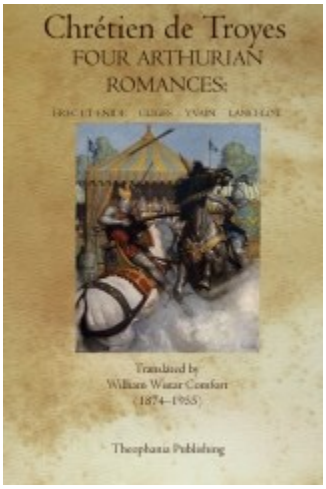
By Fergus Hume

334 Pages, $23.25 USD, ISBN: 1981814787

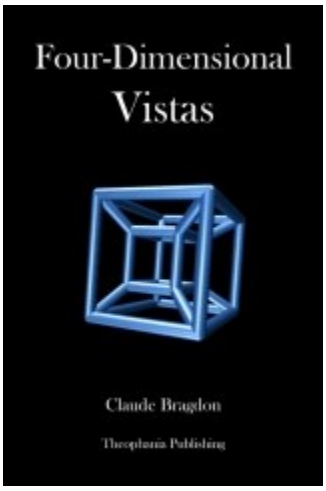
Laurence Jen was a retired major, a bachelor, and the proprietor of a small estate at Hurstleigh, in Surrey. On leaving the service, he decided--not unwisely--that it was better to be a Triton in the country than a minnow in town; and acting upon this theory he purchased "Ashantee" from a ruined squire. Formerly the place had been called Sarbylands, after its original owners; but Jen had changed the name, in honor of the one campaign in which he had participated. He had been present at the downfall of King Koffee; he had contracted during the expedition an ague which tormented him greatly during his later life, and he had received a wound and a medal.



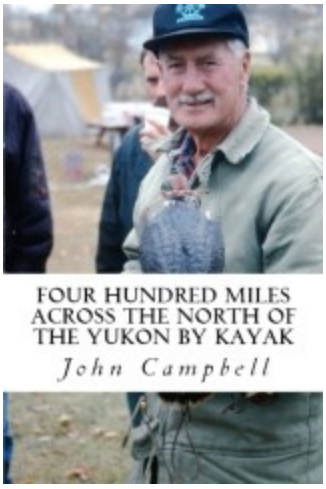
Forty-one Thieves A Tale of California
By Angelo Hall
126 Pages, $14.29 USD, ISBN: 1478392304
More than thirty-five years have passed since my father, returning from the scene of Cummins' murder, related the circumstances. With Mat Bailey, the stage-driver, with whom Cummins had traveled that fatal day, he had ridden over the same road, had passed the large stump which had concealed the robbers, and had become almost an eye-witness of the whole affair. My father's rehearsal of it fired my youthful imagination. So it was like a return to the scenes of boyhood when, thirty-six years after the event, I, too, traveled the same road that Cummins had traveled and heard from the lips of Pete Sherwood, stage-driver of a later generation, the same thrilling story.



Four Arthurian Romances: Erec et Enide, Cliges, Yvain, Lancelot
By Chrétien de Troyes
428 Pages, $25.24 USD, ISBN: 1770831193
Chrétien de Troyes was a French poet and trouvère who flourished in the late 12th century. Little is known of his life, but he seems to have been from Troyes, or at least intimately connected with it, and between 1160 and 1172 he served at the court of his patroness Marie of France, Countess of Champagne, daughter of Eleanor of Aquitaine, perhaps as herald at arms. His work on Arthurian subjects represents some of the best regarded of medieval literature. His use of structure, particular in Yvain, the Knight of the Lion, has been seen as a step towards the modern novel.

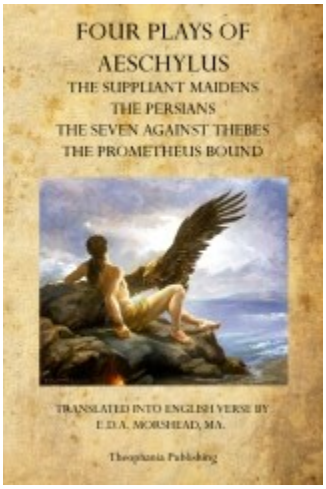


Four Dimensional Vistas
By Claude Bragdon
112 Pages, $15.24 USD, ISBN: 147839868X
There are two notable emancipations of the mind from the tyranny of mere appearances that have received scant attention save from mathematicians and theoretical physicists. In 1823 Bolyai declared with regard to Euclid's so-called axiom of parallels, "I will draw two lines through a given point, both of which will be parallel to a given line." The drawing of these lines led to the concept of the curvature of space, and this to the idea of higher space. The recently developed Theory of Relativity has compelled the revision of the time concept as used in classical physics. One result of this has been to introduce the notion of curved time.



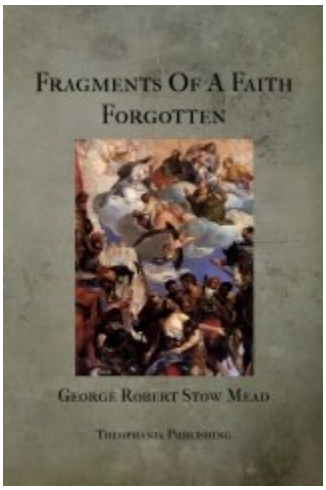
Four Hundred Miles Across the North of the Yukon
By Kayak
By John Campbell
114 Pages, $30.11 CAD ISBN: 1517193656

This manuscript was written by my father John Campbell after completing a trip down the Blackstone and Peel Rivers in the Yukon Territory in Northern Canada. It is the only river in the north that goes west to east and is featured in the February 2014 edition of the National Geographic. To the best of our knowledge Dad and his companions were the first group to do this entire trip. The manuscript was found in my grandfather's house in Scotland by my cousin, Shena Mclelland, and her husband Ken McClelland who kept it for several years. When I was visiting them in the summer of 2013 they brought it out and asked me if I knew what it was. To my amazement it was this manuscript. Rupert Plummer, married to Shena's sister Teresa, scanned it for me and I transcribed it into its current format.



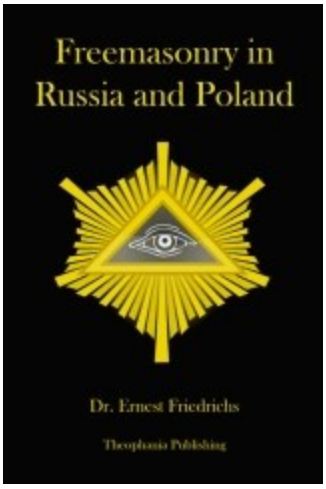
Four Plays of Aeschylus: The Suppliant Maidens, The Persians, The Seven Against Thebes, The Prometheus Bound
By Aeschylus
196 Pages, $19.24 USD, ISBN: 1770832009

The Suppliants pays tribute to the democratic undercurrents running through Athens in advance of the establishment of a democratic government in 461. In the play, the Danaids, the fifty daughters of Danaus, founder of Argos, flee a forced marriage to their cousins in Egypt. They turn to King Pelasgus of Argos for protection, but Pelasgus refuses until the people of Argos weigh in on the decision, a distinctly democratic move on the part of the king. The people decide that the Danaids deserve protection, and they are allowed within the walls of Argos despite Egyptian protests.

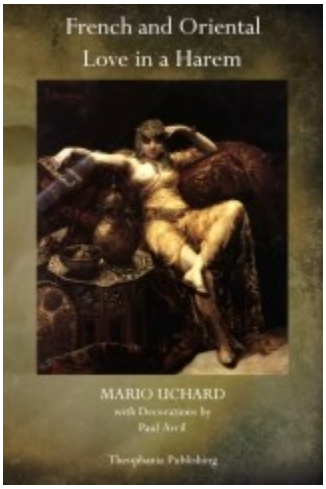


Fragments Of A Faith Forgotten
By George Robert Stow Mead
534 Pages, $29.24 USD, ISBN: 1475257856

MYSTERIOUS Time is once more big with child and labouring to bring forth her twentieth babe, as theWestern world counts her progeny; for, according to the books, just nineteen children of her centenarian brood have lived and died since He appeared to whom all Christians look as Teacher of the Way to God. The common conscience of the General Church flows not only from the fact that all believe He is the Teacher of the Way, but from the faith, He is that Way itself. This is the common bond of Christians the world over, and this has been the symbol of their union throughout the centuries

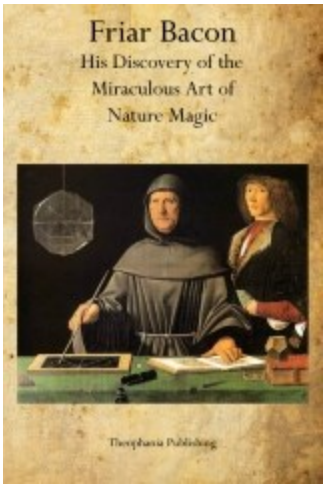


Freemasonry in Russia and Poland
By Dr Ernest Friedrichs
102 Pages, $16.24 USD, ISBN: 1478154896
In Russia and Poland as well as in Austria it was political opinions and political currents of thought that dug its grave.The most zealous and the most active of these grave-diggers were those who everywhere and at all times from the first day of its existence to the present day have striven to kill freemasonry, viz:- in Roman Catholic countries the Clerical, in Russia the Orthodox Party.They were not very particular about the means used in trying to suppress it, and many a Brother was obliged on account of his love for the Brethren and his neighbours to give up all his goods and chattels and suffer imprisonment or exile for many years.

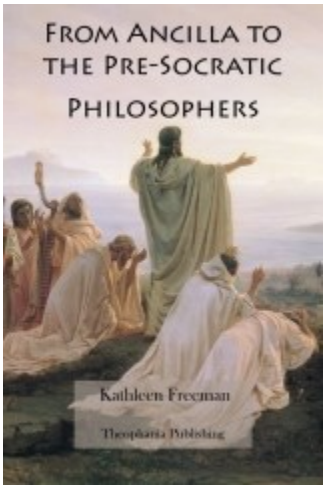


French and Oriental Love in a Harem
By Mario Uchard
270 Pages, $21.24 USD, ISBN: 1463597681
All this may appear absurd to you. I daresay you are right, but I am only analysing for you an enchantment which still influences me like a dream. While longing for the virginal delights which awaited me, my tumultuous senses were plunged into certain apprehensions at once anxious and sweet. How am I to explain it to you? Sultan though I have been in my life, never before have I come in for such a delightful windfall of pleasures, my heart having been generally occupied, as you know, with much less worthy objects.

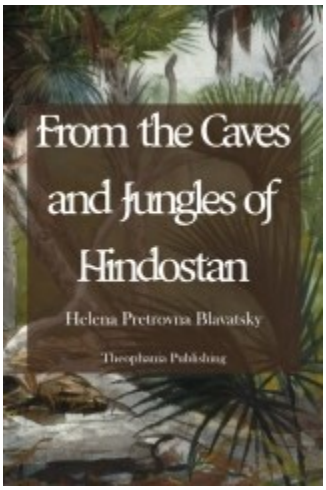
French Book Plates
By Walter Hamilton
446 Pages, $27.24 USD, ISBN: 1515262553
SINCE the first edition of this Handbook was published in 1892 the taste for collecting book-plates has spread with such rapidity that that which was formerly the hobby of a few, has now become the serious pursuit of the many. Societies devoted to the collection and study of ex-libris have been founded by eminent genealogists and heraldists, not only in Great Britain, but also in Germany, France, and the United States, all of which are in a flourishing condition, numbering many active and enthusiastic members.



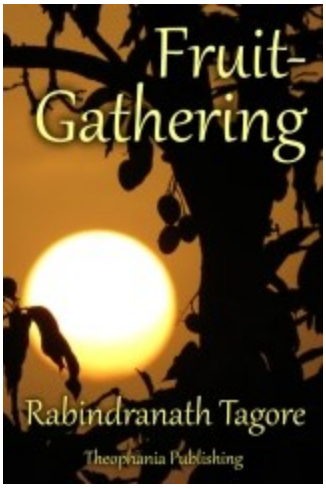
Friar Bacon: His Discovery of the Miraculous Art of Nature Magic
By Friar Bacon
42 Pages, $16.24 USD, ISBN: 1770831932
Bacon made many discoveries while coming near to many others, despite many disadvantages and discouragements. His Opus Majus contains treatments of mathematics and optics, alchemy and the manufacture of gunpowder, the positions and sizes of the celestial bodies, and anticipates later inventions such as microscopes, telescopes, spectacles, flying machines, hydraulics and steam ships. Bacon studied astrology and believed that the celestial bodies had an influence on the fate and mind of humans. The study of optics in part five of Opus Majus draws heavily on the works of both Claudius Ptolemy.



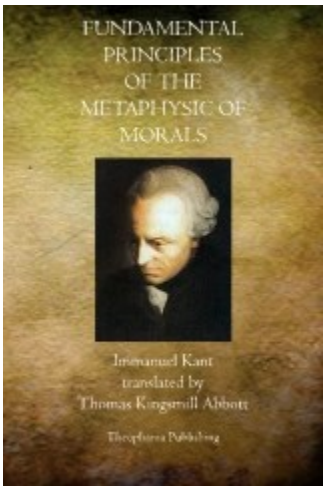
From Ancilla to the Pre-Socratic Philosophers
By Kathleen Freeman
194 Pages, $18.24 USD, ISBN: 1479170038
This book is a complete translation of the fragments of the Pre-Socratic philosophers given in Diels, Fragmente der Vorsokratiker, Fifth Edition (B-sections). Comments on readings and interpretation have been confined to footnotes, and are restricted to the minimum; for further discussion, the reader is referred to my Companion to the Pre-Socratic Philosophers, to which this book is ancillary.



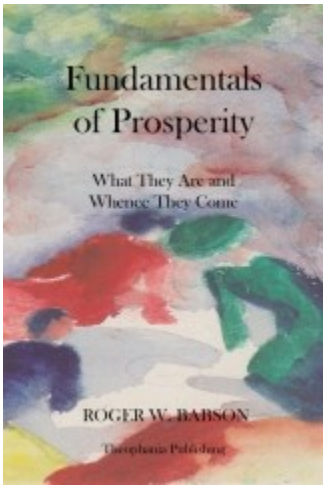
From the Caves and Jungles of Hindostan
By Helena Pretrovna Blavatsky
334 Pages, $23.24 USD, ISBN: 1479170127
"You must remember," said Mme. Blavatsky, "that I never meant this for a scientific work. My letters to the Russian Messenger, under the general title: 'From the Caves and Jungles of Hindostan,' were written in leisure moments, more for amusement than with any serious design. "Broadly speaking, the facts and incidents are true; but I have freely availed myself of an author's privilege to group, colour, and dramatize them, whenever this seemed necessary to the full artistic effect; though, as I say, much of the book is exactly true, I would rather claim kindly judgment for it, as a romance of travel, than incur the critical risks that haunt an avowedly serious work."



Fruit-Gathering
By Rabindranath Tagore
72 Pages, $16.25 USD, ISBN: 1981200231
BID me and I shall gather my fruits to bring them in full baskets into your courtyard, though some are lost and some not ripe. For the season grows heavy with its fulness, and there is a plaintive shepherd's pipe in the shade. Bid me and I shall set sail on the river. The March wind is fretful, fretting the languid waves into murmurs. The garden has yielded its all, and in the weary hour of evening the call comes from your house on the shore in the sunset.



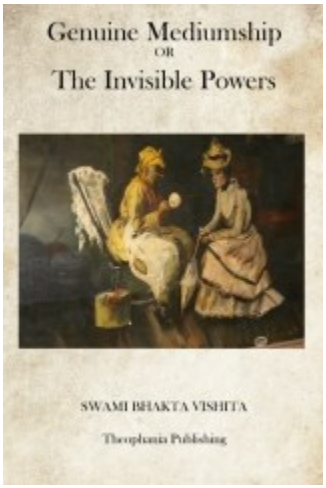
Fundamental Principles of the Metaphysic of Morals
By Immanuel Kant
82 Pages, $16.24 USD, ISBN: 1770830464
Ancient Greek philosophy was divided into three sciences: physics, ethics, and logic. This division is perfectly suitable to the nature of the thing; and the only improvement that can be made in it is to add the principle on which it is based, so that we may both satisfy ourselves of its completeness, and also be able to determine correctly the necessary subdivisions. All rational knowledge is either material or formal: the former considers some object, the latter is concerned only with the form of the understanding and of the reason itself, and with the universal laws of thought in general without distinction of its objects. Formal philosophy is called logic.



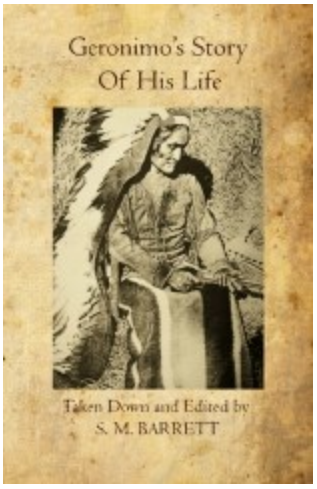
Fundamentals of Prosperity What They Are and Whence They Come
By Roger W Babson
52 Pages, $16.24 USD, ISBN: 1475036671
Following the war we enjoyed the greatest prosperity this country has ever witnessed;—the greatest activity, the greatest bank clearings, the greatest foreign trade, the greatest railroad gross earnings, the highest commodity prices. We then constructed a ten-story building on a foundation meant for only a two or three story building. Hence the problem confronting us business men is to strengthen the foundation or else see the structure fall. I am especially glad of the opportunity to write for business men. There are two reasons:—first, because I feel that the business men are largely responsible for having this ten-story structure on a foundation made for one of only two or three stories; secondly, because I believe such men alone have the vision, the imagination and the ability to strengthen the foundation and prevent the structure from falling.

Gallegher and Other Stories
By Richard Harding Davis
212 Pages, $19.25 USD, ISBN: 1979239681
We had had so many office-boys before Gallegher came among us that they had begun to lose the characteristics of individuals, and became merged in a composite photograph of small boys, to whom we applied the generic title of "Here, you"; or "You, boy." We had had sleepy boys, and lazy boys, and bright, "smart" boys, who became so familiar on so short an acquaintance that we were forced to part with them to save our own self-respect. They generally graduated into district-messenger boys, and occasionally returned to us in blue coats with nickel-plated buttons, and patronized us. But Gallegher was something different from anything we had experienced before. Gallegher was short and broad in build, with a solid, muscular broadness, and not a fat and dumpy shortness.

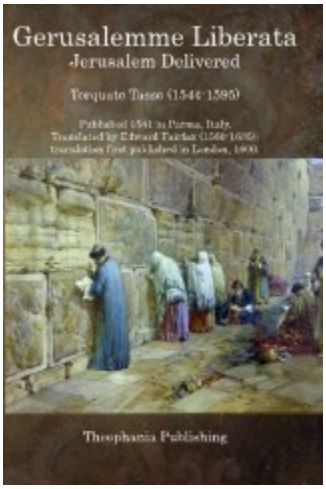
Gargoyles
By Ben Hecht
348 Pages, $23.24 USD, ISBN: 1475006462
Beautiful phrase. The soul of man, in its struggle toward God knows what, paused elatedly to contemplate the new milestone. Elated as all youth is elated for no other reason than that there is a tomorrow, a tomorrow of unknown and multiple milestones. Elated with the knowledge of progress—that sage and flattering word by which the soul of man explains the baffling phenomenon of its survival. The great men of the day stood staring through half-closed eyes at the calendars. To anticipate by a single day! But the future no less than the past remains a current mystery.



Genuine Mediumship: OR The Invisible Powers
By Swami Bhakta Vishita
330 Pages, $25.24 USD, ISBN: 146992868X
One of the most common mistaken conceptions of the average student of the occult sciences, and of so called "psychic phenomena" in general, is that which may be expressed by the term "supernatural." This term, as you know, is used to express the idea of "that which is outside of the realm of Nature, and of Nature's laws." As a matter of fact, as all the advanced students and teachers of the occult doctrine know full well, we have no direct knowledge whatsoever of anything that is "outside of the realm of nature, and of Nature's laws."



Geronimo's Story of His Life
By S. M. Barrett
148 Pages, $17.24 USD, ISBN: 1456598279
While Geronimo said he was never a chief, he was a military leader. As a Chiricahua Apache, this meant he was one of many people with special spiritual insights and abilities known to Apache people as "Power". Among these were the ability to walk without leaving tracks; the abilities now known as telekinesis and telepathy; and the ability to survive gunshot. Geronimo was wounded numerous times by both bullets and buckshot, but survived. Apache men chose to follow him of their own free will, and offered first-hand eyewitness testimony regarding his many "powers".



Gerusalemme Liberata: Jerusalem Delivered

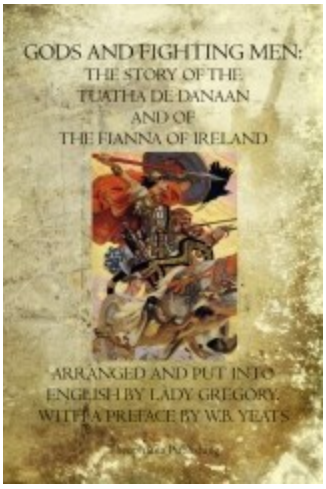
Gnostic John the Baptizer
By G. R.S. Mead
160 Pages, $17.24 USD, ISBN: 1479170119
THE main materials contained in these pages will certainly be new for the vast majority of readers. Moreover the Mandæan narratives, legends and discourses are not only interesting because of their own distinctive matter and manner, but they are also arresting; for they raise a number of problems, some of which are far-reaching and one is fraught with implications of immense importance. The definite solutions of these problems, however, lie in the future, and the most important of them will perhaps never be reached; for, in the absence of straightforward historical information, general agreement on any subject that concerns Christian origins...



Gods and Fighting Men: The Story Of The Tuatha De Danaan And Of The Fianna Of Ireland

We appreciate your business and look forward to serving you soon. We have thousands of titles available, and we invite you to search for us by name, contact us via our website, or download our most recent catalogues. Gorgias

By Plato

200 Pages, $19.24 USD, ISBN: 1475006497

In several of the dialogues of Plato, doubts have arisen among his interpreters as to which of the various subjects discussed in them is the main thesis. The speakers have the freedom of conversation; no severe rules of art restrict them, and sometimes we are inclined to think, with one of the dramatis personae in the Theaetetus, that the digressions have the greater interest. Yet in the most irregular of the dialogues there is also a certain natural growth or unity; the beginning is not forgotten at the end, and numerous allusions and references are interspersed, which form the loose connecting links of the whole.

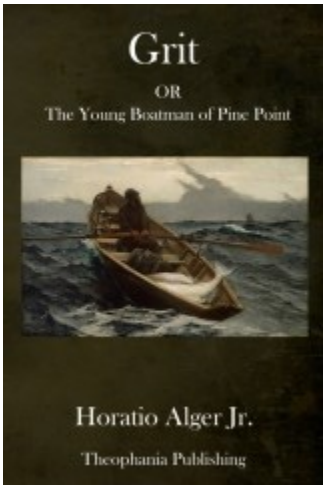
Grimoirium Verum

By Solomon

64 Pages, $16.24 USD, ISBN: 1475256787

In the first part is contained various dispositions of characters, by which powers the spirits or, rather, the devils are invoked, to make them come when you will, each according to his power, and to bring whatever is asked: and that without any discomfort, providing also that they are content on their part; for this sort of creature does not give anything for nothing. In the first part is taught the means of calling forth the Elemental Spirits of the Air, Earth, Sea or of the Infernus, according to their affinities. In the second part are expressed the secrets, both Natural and Supernatural which operate by the power of the Demons. You will find the manner to make use of them, and all without deceit.

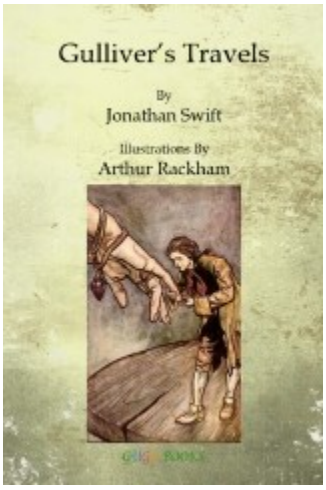


Grit: OR The Young Boatman of Pine Point

By Horatio Alger Jr.

314 Pages, $22.25 USD, ISBN: 1979239940

"Grit!" "Well, mother, what is it?" The speaker was a sturdy, thick-set boy of fifteen, rather short for his age, but strongly made. His eyes were clear and bright, his expression was pleasant, and his face attractive, but even a superficial observer could read in it unusual firmness and strength of will. He was evidently a boy whom it would not be easy to subdue or frighten. He was sure to make his way in the world, and maintain his rights against all aggression. It was the general recognition of this trait which had led to the nickname, "Grit," by which he was generally known. His real name was Harry Morris, but even his mother had fallen into the habit of calling him Grit, and his own name actually sounded strange to him.

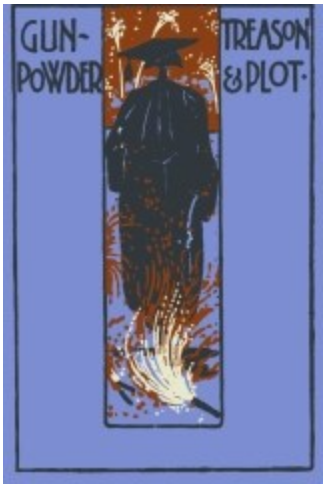


Gulliver's Travels

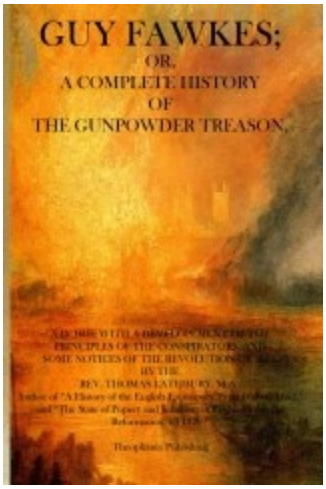
By Jonathan Swift GUGA BOOKS

536 Pages, $20.24 USD, ISBN: 1515291561

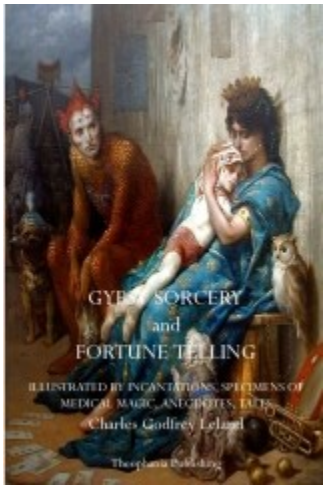
THEN I found myself on my Feet, I looked about me, and must confess I never beheld a more entertaining Prospect. The Country round appeared like a continued Garden, and the inclosed Fields, which were generally Forty Foot square, resembled so many Beds of Flowers. These Fields were intermingled with Woods of half a Stang, and the tallest Trees, as I could judge, appeared to be seven Foot high. I viewed the Town on my left Hand, which looked like the painted Scene of a City in a Theatre. I had been for some Hours extremely pressed by the Necessities of Nature; which was no Wonder, it being almost two Days since I had last disburthened myself. I was under great Difficulties between Urgency and Shame.



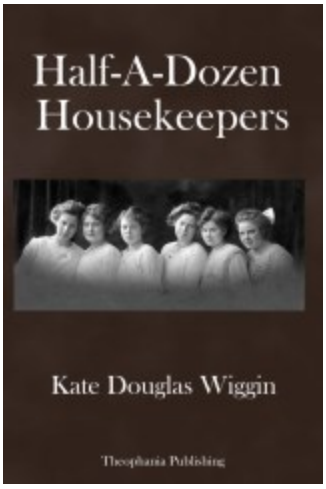
Gunpowder Treason and Plot: And Other Stories for Boys
By Harold Avery
124 Pages, $33.99 USD, ISBN: 146359030X
GUNPOWDER TREASON AND PLOT And Other Stories for Boys BY HAROLD AVERY, FRED WHISHAW, AND R. B. TOWNSHEND WITH FOURTEEN ILLUSTRATIONS



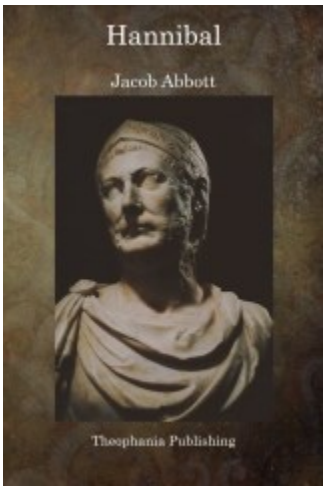
Guy Fawkes: A Complete History of the Gunpowder Treason
By Rev. Thomas Lathbury MA
94 Pages, $15.24 USD, ISBN: 177083091X
Though the particulars connected with the Gunpowder Treason may be perused in the general histories of the period, yet I am not aware, that any modern narrative of that dark design is to be found in a separate form. Many brief sketches have, indeed, been published in various modern works: but no full and complete history of the Treason has ever been set forth. In compiling the present volume, I have collected, from various quarters, all the information which I could discover on the subject. It will be found to be the most complete narrative of the Treason ever published in a detached form: at the same time it is sufficiently concise not to weary the patience of the reader.



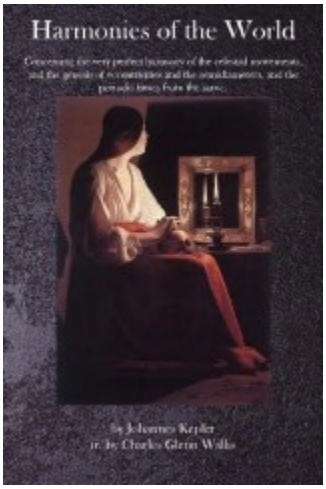
Gypsy Sorcery and Fortune Telling
By Charles Godfrey Leland
334 Pages, $23.24 USD, ISBN: 177083172X
This work contains a collection of the customs, usages, and ceremonies current among gypsies, as regards fortune-telling, witch-doctoring, love-philtering, and other sorcery, illustrated by many anecdotes and instances, taken either from works as yet very little known to the English reader or from personal experiences. Within a very few years, since Ethnology and Archæology have received a great inspiration, and much enlarged their scope through Folk-lore, everything relating to such subjects is studied with far greater interest and to much greater profit than was the case when they were cultivated in a languid, half believing, half sceptical spirit which was in reality rather one of mere romance than reason.



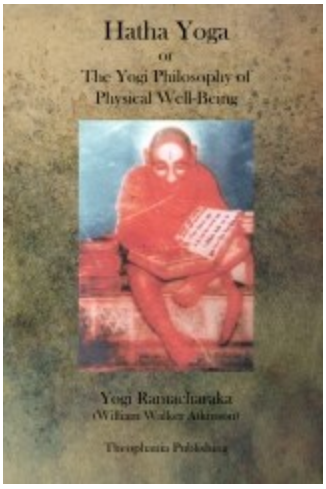
Half-A-Dozen Housekeepers
By Kate Douglas Wiggin
100 Pages, $16.25 USD, ISBN: 1979148414
MARCH had come in like a lion, and showed no sign of going out like a lamb. The pussy willows knew that it was, or ought to be, spring, but although it takes a deal to discourage a New England pussy willow, they shivered in their brown skins and despaired of making their annual appearance even by April Fool's Hay. The swallows still lingered in the South, having received private advices from the snow-birds that State o' Maine weather, in the present season, was only fitted for Arctic explorers.



Hannibal
By Jacob Abbott
198 Pages, $19.24 USD, ISBN: 1515262499
THE author of this series has made it his special object to confine himself very strictly, even in the most minute details which he records, to historic truth. The narratives are not tales founded upon history, but history itself, without any embellishment or any deviations from the strict truth, so far as it can now be discovered by an attentive examination of the annals written at the time when the events themselves occurred. In writing the narratives, the author has endeavored to avail himself of the best sources of information which this country affords; and though, of course, there must be in these volumes, as in all historical narratives, more or less of imperfection and error, there is no intentional embellishment. Nothing is stated, not even the most minute and apparently imaginary details, without what was deemed good historical authority.



Harmonies of the World
By Johannes Kepler
106 Pages, $25.24 USD, ISBN: 1926842979
Concerning the very perfect harmony of the celestial movements, and the genesis of eccentricities and the semidiameters, and the periodic times from the same. After the model of the most correct astronomical doctrine of today, and the hypothesis not only of Copernicus but also of Tycho Brahe, whereof either hypotheses are today publicly accepted as most true, and the Ptolemaic as outmoded. I commence a sacred discourse, a most true hymn to God the Founder, and I judge it to be piety, not to sacrifice many hecatombs of bulls to Him and to burn incense of innumerable perfumes and cassia, but first to learn myself, and afterwards to teach others too, how great He is in wisdom, how great in power, and of what sort in goodness.

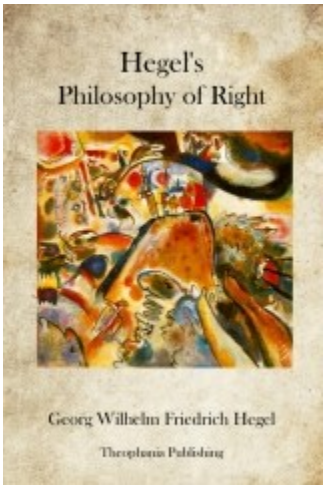


Hatha Yoga

By William Walker Atkinson

188 Pages, $18.24 USD, ISBN: 1770833110

Hatha Yoga is that branch of the Yoga Philosophy which deals with the physical body, its care, its well being, its health, its strength, and all that tends to keep it in its natural and normal state of health. It teaches a natural mode of living and voices the cry which has been taken up by many of the Western world: "Let us get back to Nature," excepting that the Yogi does not have to get back for he is already there, for he has always clung close to nature and her ways, and has not been dazzled and befooled by the mad rush toward externals which has caused the modern civilized races to forget that such a thing as nature existed.

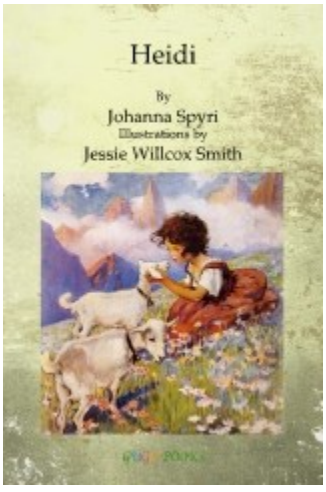


Hegel's Philosophy of Right

By Georg Wilhelm Friedrich Hegel

420 Pages, $27.24 USD, ISBN: 1469930617

THE immediate occasion for publishing these outlines is the need of placing in the bands of my hearers a guide to my professional lectures upon the Philosophy of Right. Hitherto I have used as lectures that portion of the Encyclopaedia of the Philosophic Sciences (1817) which deals with this subject. The present work covers the same ground in a more detailed and systematic way. But now that these outlines are to be printed and given to the general public, there is an opportunity of explaining points which in lecturing would be commented on orally. Thus the notes are enlarged in order to include cognate or conflicting ideas, further consequences of the theory advocated, and the like.

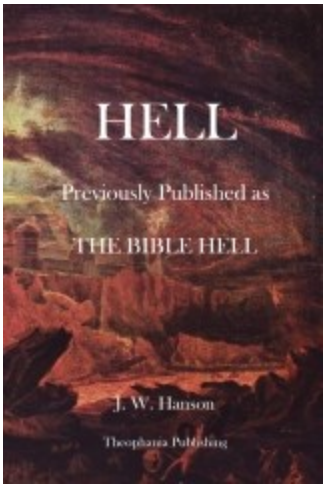


Heidi

By Johanna Spyri GUGA BOOKS

470 Pages, $20.24 USD, ISBN: 1515291731

On a clear sunny morning in June two figures might be seen climbing the narrow mountain path; one, a tall strong-looking girl, the other a child whom she was leading by the hand, and whose little checks were so aglow with heat that the crimson color could be seen even through the dark, sunburnt skin. And this was hardly to be wondered at, for in spite of the hot June sun the child was clothed as if to keep off the bitterest frost.

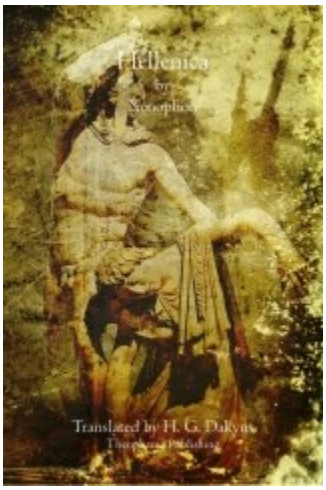


Hell

By J. W. Hanson

100 Pages, $16.24 USD, ISBN: 1478229373

Dr. Strong says, that not only Moses, but "every Israelite who came out of Egypt, must have been fully acquainted with the universally recognized doctrine of future rewards and punishments." And yet Moses is utterly silent on the subject. Dr. Thayer remarks: "Is it possible to imagine a more conclusive proof against the divine origin of the doctrine? If he had believed it to be of God, if he had believed in endless torments as the doom of the wicked after death, and had received this as a revelation from heaven, could he have passed it over in silence? Would he have dared to conceal it, or treat so terrible a subject with such marked contempt? And what motive could he have had for doing this?

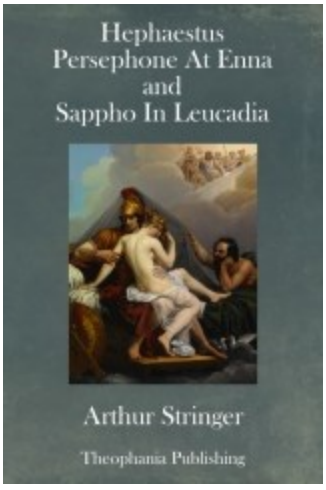


Hellenica

By Xenophon

502 Pages, $28.24 USD, ISBN: 1468022946

B.C. 411. To follow the order of events. A few days later Thymochares arrived from Athens with a few ships, when another sea fight between the Lacedaemonians and Athenians at once took place, in which the former, under the command of Agesandridas, gained the victory. Another short interval brings us to a morning in early winter, when Dorieus, the son of Diagoras, was entering the Hellespont with fourteen ships from Rhodes at break of day. The Athenian day-watch descrying him, signalled to the generals, and they, with twenty sail, put out to sea to attack him. Dorieus made good his escape, and, as he shook himself free of the narrows, ran his triremes aground off Rhoeteum.

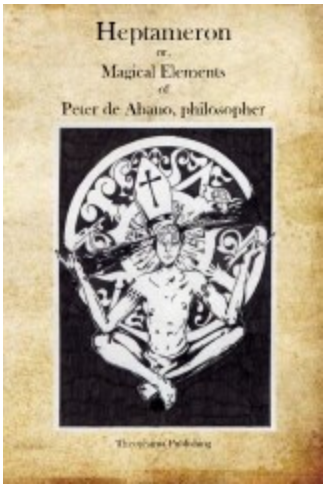


Hephaestus, Persephone At Enna and Sappho In Leucadia

By Arthur Stringer

58 Pages, $16.25 USD, ISBN: 1981200312

What bird that climbs the cool dim Dawn But loves the air its wild wings roam? And yet when all the day is gone But turns its weary pinions home, And when the yellow twilight fills The lonely stretches of the West, Comes down across the darkened hills, Once more to its remembered nest? And I who strayed, O Fond and True, To seek that glory fugitive And fleeting music that is You, But echoes of yourself can give As through the waning gold I come To where the Dream and Dreamer meet: Yet should my faltering lips be dumb, I lay these gleanings at your feet!



Heptameron

By Peter de Abano

52 Pages, $15.24 USD, ISBN: 1926842359

Those who have not "tasted magical superstitions" may here find them ready to their hand. "In brief, in this book are kept the principles of magical conveyances." It may be conceded at once that the undertaking is scrupulously fulfilled; what the operator must do and how he should perform it, so as to "draw spirits into discourse," are matters set forth so plainly that the wayfaring man need not err therein. Assuming the sacerdotal office of the operator, or a priest for an accomplice, it is all so simple that failure could not well be ascribed to a blunder on his part.

Heretics

By Gilbert K. Chesterton

278 Pages, $21.25 USD, ISBN: 1979240590

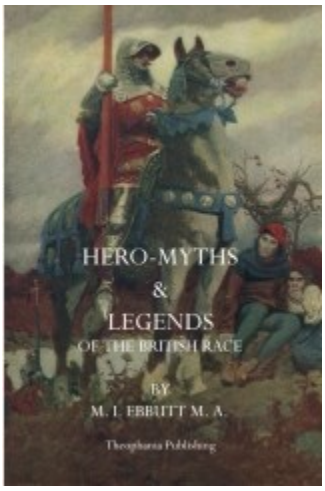
Nothing more strangely indicates an enormous and silent evil of modern society than the extraordinary use which is made nowadays of the word "orthodox." In former days the heretic was proud of not being a heretic. It was the kingdoms of the world and the police and the judges who were heretics. He was orthodox. He had no pride in having rebelled against them; they had rebelled against him. The armies with their cruel security, the kings with their cold faces, the decorous processes of State, the reasonable processes of law—all these like sheep had gone astray. The man was proud of being orthodox, was proud of being right.

Herland

By Charlotte Perkins Gilman

288 Pages, $21.25 USD, ISBN: 1981463682

This is written from memory, unfortunately. If I could have brought with me the material I so carefully prepared, this would be a very different story. Whole books full of notes, carefully copied records, firsthand descriptions, and the pictures—that's the worst loss. We had some bird's-eyes of the cities and parks; a lot of lovely views of streets, of buildings, outside and in, and some of those gorgeous gardens, and, most important of all, of the women themselves. Nobody will ever believe how they looked. Descriptions aren't any good when it comes to women, and I never was good at descriptions anyhow. But it's got to be done somehow; the rest of the world needs to know about that country. I haven't said where it was for fear some self-appointed missionaries, or traders, or land-greedy expansionists, will take it upon themselves to push in.

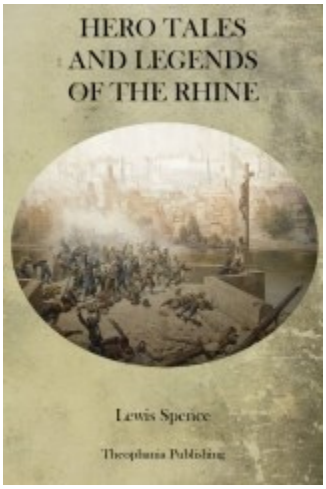


Hero Myths & Legends of the British Race

By M. I. Ebbutt

506 Pages, $28.24 USD, ISBN: 1770831738

It may be that to some people that heroes may not seem heroic, but there is no doubt that to the age and generation which wrote or sang of them they appeared worthy of remembrance and celebration, and it is the object of this retelling to come as close as possible to the mediæval mind, with its elementary conceptions of honour, loyalty, devotion, and duty. It often happens that one person sees in a legend only the central heroism, while another sees only the inartistic details of mediæval life which tend to disguise and warp the heroic quality.

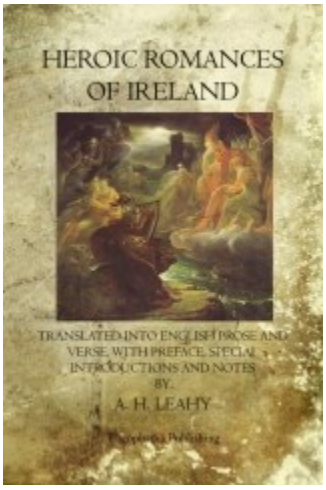


Hero Tales and Legends of the Rhine

By Lewis Spence

300 Pages, $22.24 USD, ISBN: 1770832971

An abundance of literature exists on the subject of the Rhine and its legends, but with few exceptions the works on it which are accessible to English speaking peoples are antiquated in spirit and verbiage, and their authors have been content to accept the first version of such legends and traditions as came their way without submitting them to any critical examination. It is claimed for this book that much of its matter was collected on the spot, or that at least most of the tales here presented were perused in other works at the scene of the occurrences related.

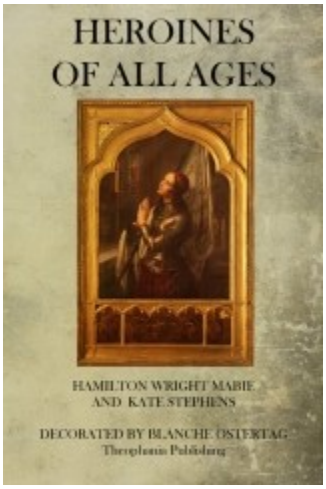


Heroic Romances of Ireland

By A. H. Leahy

330 Pages, $23.24 USD, ISBN: 1468023020

AT a time like the present, when in the opinion of many the great literatures of Greece and Rome are ceasing to hold the influence that they have so long exerted upon human thought, and when the study of the greatest works of the ancient world is derided as useless, it may be too sanguine to hope that any attention can be paid to a literature that is quite as useless as the Greek; which deals with a time, which, if not actually as far removed from ours as are classical times, is yet further removed in ideas; a literature which is known to few and has yet to win its way to favour, while the far superior literature of Greece finds it hard to defend the position that it long ago won.

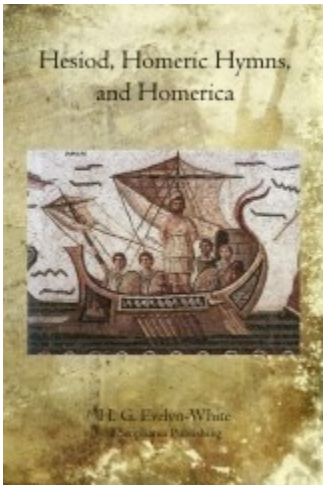


Heroines Of All Ages

By Hamilton Wright Mabie

230 Pages, $17.24 USD, ISBN: 1770832696

The Book of Heroes should never be separated from the Book of Heroines; they are the two parts of that story of courage, service and achievement which is the most interesting and inspiring chapter in the history of human kind in this wonderful world of ours. Whenever and wherever there has appeared a hero, a heroine has almost always worked with or for him; for heroic and noble deeds are rarely done without some kind of coöperation. Now and then, it is true, single acts of daring stand out alone; but, as a rule, the hero gains his end because other men or women stand beside him in times of great peril.

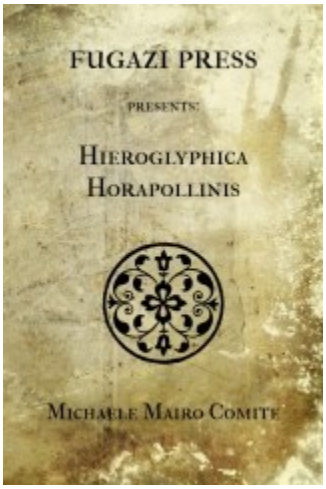


Hesiod, Homeric Hymns, and Homerica

By H. G. Evelyn-White

364 Pages, $24.24 USD, ISBN: 1468023586

This volume contains practically all that remains of the post-Homeric and pre academic epic poetry. I have for the most part formed my own text. In the case of Hesiod I have been able to use independent collations of several MSS. by Dr. W.H.D. Rouse; otherwise I have depended on the apparatus criticus of the several editions, especially that of Rzach (1902). The arrangement adopted in this edition, by which the complete and fragmentary poems are restored to the order in which they would probably have appeared had the Hesiodic corpus survived intact, is unusual, but should not need apology; the true place for the Catalogues (for example), fragmentary as they are, is certainly after the Theogony.

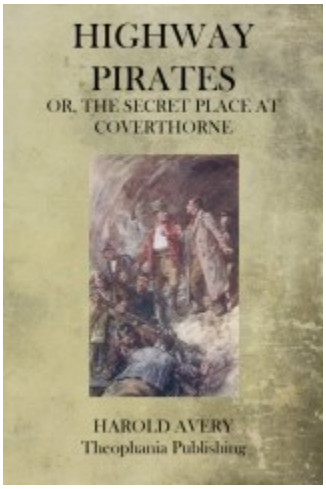


Hieroglyphica Horapollinis

By Michaele Mairo Comite FUGAZI PRESS

60 Pages, $16.24 USD, ISBN: 1477520325

For some years past an ardent spirit of enquiry has been awakened with regard to the interpretation of the hieroglyphics inscribed upon the monuments of Egypt. For ages, these had been looked upon as the depositories to which had been committed the religion arts and sciences of a nation once pre-eminent in civilization. Attempts had been continually made to penetrate the darkness, but without the slightest success, till the great discovery of Dr. Young kindled the light, with which the energetic and imaginative genius of Champollion, and the steady industry and zeal of his fellow labourers and successors, have illustrated almost every department of Egyptian antiquity, and rendered the religion and arts, and manners of that country, almost as familiar to us as those of Greece and Rome; and revived the names and histories of the long-forgotten Pharaohs.



Highway Pirates

By Harold Avery

188 Pages, $18.24 USD, ISBN: 1770832963

Owing to the peculiar character of its passengers, the coach was found to be carrying practically nothing in the way of luggage, except my own trunk and the one large hamper already mentioned, which had been pushed into the boot for conveyance to Castlefield, probably to relieve the mail, which was sure to be heavily laden at this time of the year. From the gruff remarks of the would-be plunderers, it was evident that they were disappointed. It was probably within the knowledge of most of them that a stage coach sometimes carried a valuable cargo.

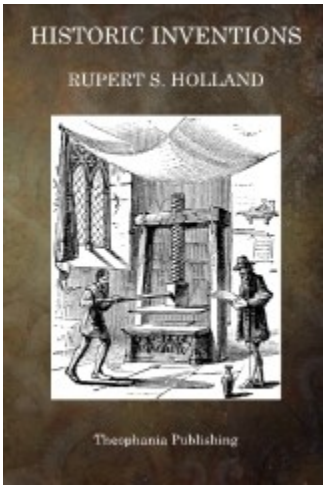
Historic Ghosts and Ghost Hunters

By H. Addington Bruce

154 Pages, $17.24 USD, ISBN: 1479170143

The following pages represent in the main a discussion of certain celebrated mysteries, as viewed in the light of the discoveries set forth in the writer's earlier work "The Riddle of Personality." That dealt, it may briefly be recalled, with the achievements of those scientists whose special endeavor it is to illumine the nature of human personality. On the one hand, it reviewed the work of the psychopathologists, or investigators of abnormal mental life; and, on the other hand, the labors of the psychical researchers, those enthusiastic and patient explorers of the seemingly supernormal in human experience.

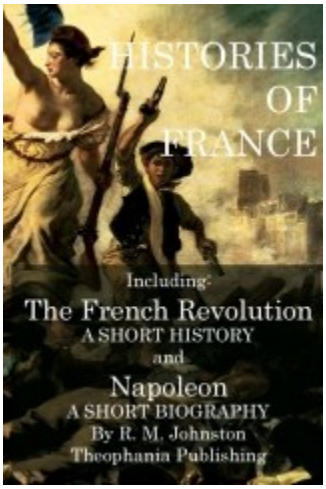


Historic Inventions

By Rupert S. Holland

312 Pages, $22.24 USD, ISBN: 1515276171

One evening after supper, as Gutenberg and his wife were sitting in the room behind the shop, he chanced to pick up a playing-card. He studied it very carefully, as though it were new to him. Presently his wife looked up from her sewing, and noticed how much absorbed he was. “Prithee, John, what marvel dost thou find in that card?” said she. “One would think it the face of a saint, so closely dost thou regard it.”

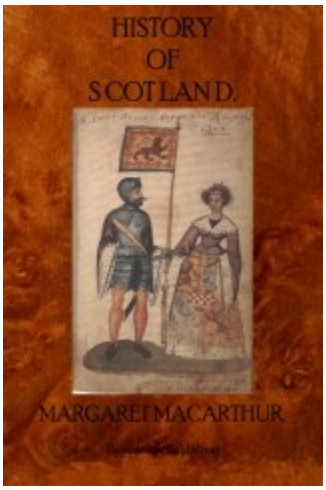


Histories of France: The French Revolution: A Short History, and Napoleon: A Short Biography

By R. M. Johnston

350 Pages, $23.24 USD, ISBN: 1770831401

The object of this book is similar to that with which, a few years ago, I wrote a short biography of Napoleon. The main outlines of the Revolution, the proportion and relation of things, tend to become obscured under the accumulation of historical detail that is now proceeding. This is an attempt, therefore, to disentangle from the mass of details the shape, the movement, the significance of this great historical cataclysm. To keep the outline clear I have deliberately avoided mentioning the names of many subordinate actors; thinking that if nothing essential was connected with them the mention of their names would only tend to confuse matters.

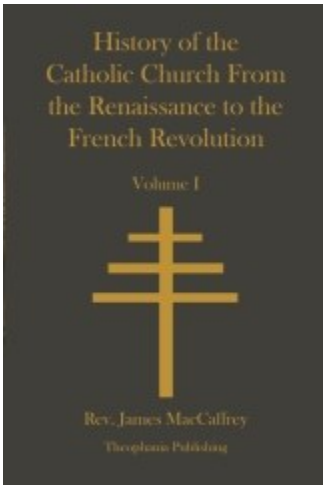


History of Scotland

By Margaret MacArthur

242 Pages, $20.24 USD, ISBN: 1770831223

Covering the History of Scotland in a concise and efficient manner, from the Gaelic Period through to the Reformation. The northern part of Great Britain is now called Scotland, but it was not called so till the Scots, a Celtic people, came over from Ireland and gave their name to it. The Romans who first mention it in history speak of it as Caledonia. There are two points in which the history of this country and of the people who live in it is unlike the history of most of the other countries and nations of Europe. Firstly, it never was taken into the great Roman Empire; and secondly in it we find a Celtic people who, instead of disappearing before the Teutons, held their ground against them so well that in the end the Teutons were called by the name of the Celtic people, were ruled by the Celtic kings and fought for the independence of the Celtic kingdom as fiercely as if they had themselves been of the Celtic race.



History of the Catholic Church From the Renaissance to the French Revolution

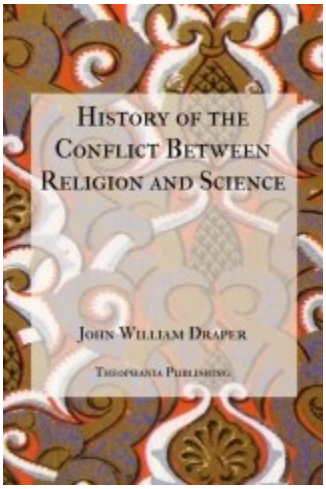
By Rev James MacCaffrey

788 Pages, $36.24 USD, ISBN: 1478155000

Engravings of the fifteenth century may be regarded as a period of transition from the ideals of the Middle Ages to those of modern times. The world was fast becoming more secular in its tendencies, and, as a necessary result, theories and principles that had met till then with almost universal acceptance in literature, in art, in education, and in government, were challenged by many as untenable.



History of the Conflict Between Religion and Science

By John William Draper

338 Pages, $23.24 USD, ISBN: 1475256809

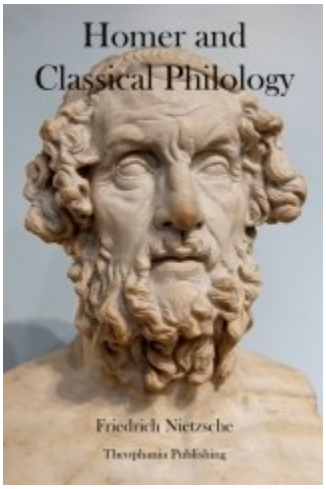
WHOEVER has had an opportunity of becoming acquainted with the mental condition of the intelligent classes in Europe and America, must have perceived that there is a great and rapidly-increasing departure from the public religious faith, and that, while among the more frank this divergence is not concealed, there is a far more extensive and far more dangerous secession, private and unacknowledged. So wide-spread and so powerful is this secession, that it can neither be treated with contempt nor with punishment. It cannot be extinguished by derision, by vituperation, or by force.

Holy Terrors

By Arthur Machen

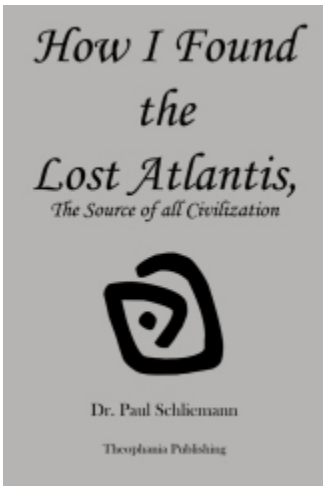
232 Pages, $20.24 USD, ISBN: 1469930668

Young Joseph Last, having finally gone down from Oxford, wondered a good deal what he was to do next and for the years following next. He was an orphan from early boyhood, both his parents having died of typhoid within a few days of each other when Joseph was ten years old, and he remembered very little of Dunham, where his father ended a long line of solicitors, practising in the place since 1707. The Lasts had once been very comfortably off.

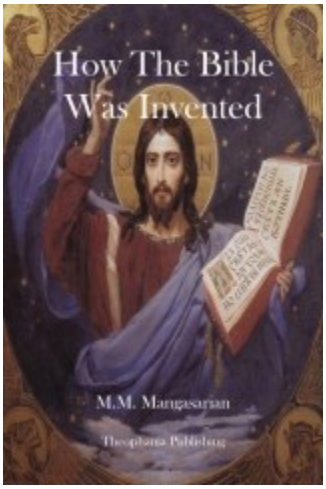


Homer and Classical Philology
By Friedrich Nietzsche
30 Pages, $16.24 USD, ISBN: 1478155051
At the present day no clear and consistent opinion seems to be held regarding Classical Philology. We are conscious of this in the circles of the learned just as much as among the followers of that science itself. The cause of this lies in its many-sided character, in the lack of an abstract unity, and in the inorganic aggregation of heterogeneous scientific activities which are connected with one another only by the name "Philology." It must be freely admitted that philology is to some extent borrowed from several other sciences, and is mixed together like a magic potion from the most outlandish liquors, ores, and bones.

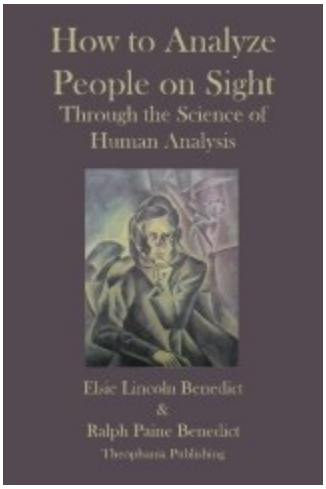
Honor Bright
By Laura E. Richards
284 Pages, $21.25 USD, ISBN: 1979109532
Honor Bright was twelve years old when her parents died, and left her alone in the world. (Only, as Soeur Séraphine said, Honor would never be wholly alone so long as the earth was inhabited.) Six of the twelve years had been spent at school in Vevay, at the Pension Madeleine, the only home she knew. She was too little to remember the big New York house where she was born, and where her toddling years were spent. She was only two when her father accepted the high scientific mission which banished him to the far East for an indefinite time.



How I Found the Lost Atlantis
By Dr. Paul Schliemann
38 Pages, $16.24 USD, ISBN: 1479146404
On October 20th, 1912, readers of the New York American were regaled with a startling and perhaps history-making story in a lavish two-page spread. Paul Schliemann, grandson of Heinrich Schliemann, the famous archeologist who excavated Mycenae and the legendary city of Troy, revealed that his grandfather on his deathbed produced a mysterious bequest for any of his heirs willing to devote their life to proving the existence of Atlantis. He claimed that he had spent years following up on this and now was about to produce actual physical evidence of the reality of the fabled lost continent.



How The Bible Was Invented
By M. M. Mangasarian
50 Pages, $16.24 USD, ISBN: 1478155086
Many good people believe that the Bible was given by inspiration of God. The wording of my subject suggests that it is the work of men, and not always of honest men, either. Am I trying to offend people by intimating that the Bible was invented? On the contrary, I am exposing myself to criticism by telling these good people the truth about the Bible, which their own preachers, for some reason or other, have withheld from them.



How to Analyze People on Sight
By Elsie Lincoln Benedict
268 Pages, $21.24 USD, ISBN: 1478256044
The most essential thing in the world to any individual is to understand himself. The next is to understand the other fellow. For life is largely a problem of running your own car as it was built to be run, plus getting along with the other drivers on the highway. From this book you are going to learn which type of car you are and the main reasons why you have not been getting the maximum of service out of yourself. Also you are going to learn the makes of other human cars, and how to get the maximum of co-operation out of them. This co-operation is vital to happiness and success. We come in contact with our fellowman in all the activities of our lives and what we get out of life depends, to an astounding degree, on our relations with him.

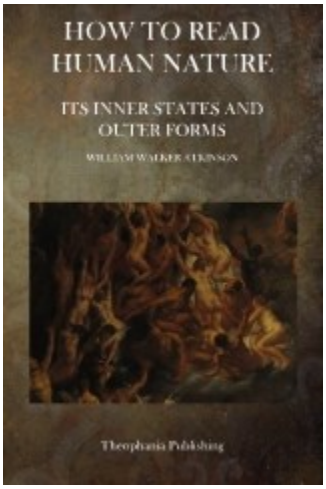
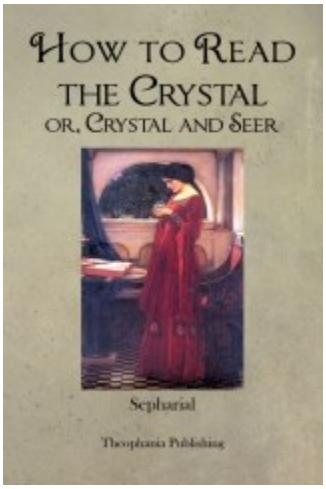
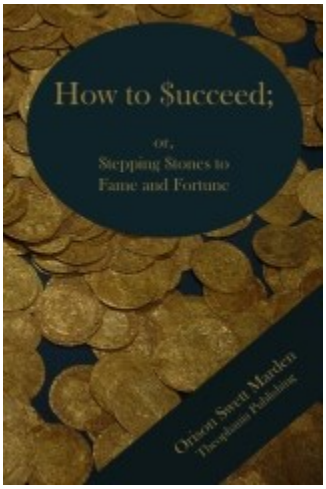
How to Become Rich: A Treatise on Phrenology, Choice of Professions and Matrimony
By William Windsor
158 Pages, $17.24 USD, ISBN: 1479170178
The unremitting demand made by an indulgent and appreciative public for a printed edition of the lectures delivered by me in my professional capacity, has furnished the motive for the publication of the present edition, comprising the three most popular lectures of my usual course, to mixed audiences. The work has been prepared for the press hurriedly, while under the strain of enormous professional and personal r esponsibilities, and during the busiest season of a professional practice, which already imposes the burden of fifteen hours per day of incessant labor, which may account for any inaccuracies, typographical or otherwise, which may appear.



How To Read Human Nature: Its Inner States and Outer Forms
By William Walker Atkinson
136 Pages, $17.24 USD, ISBN: 151527635X
"Human Nature" is a term most frequently used and yet but little understood. The average person knows in a general way what he and others mean when this term is employed, but very few are able to give an off-hand definition of the term or to state what in their opinion constitutes the real essence of the thought expressed by the familiar phrase. We are of the opinion that the first step in the process of correct understanding of any subject is that of acquaintance with its principal terms, and, so, we shall begin our consideration of the subject of Human Nature by an examination of the term used to express the idea itself. "Human," of course, means "of or pertaining to man or mankind."



How to Read the Crystal or, Crystal and Seer
By Sepharial
56 Pages, $16.24 USD, ISBN: 1479182818
Any attempt at a scientific explanation of the phenomenon of "crystal seering," to use an irregular but comprehensive term, would perhaps fall short of completeness, and certainly would depend largely upon the exercise of what Professor Huxley was wont to call "the scientific imagination." The reasons for this are obvious. We know comparatively little about atomic structure in relation to nervous organism. We are informed to a certain degree upon atomic ratios; we know that all bodies are regarded by the physicist as a congeries of atoms, and that these atoms are "centres of force."



How to Succeed; or Stepping Stones to Fame and Fortune
By Orison Swett Marden
250 Pages, $17.24 USD, ISBN: 1478343761
The great need at this hour is manly men. We want no goody-goody piety; we have too much of it. We want men who will do right, though the heavens fall, who believe in God, and who will confess Him. -Rev. W. J. Dawson. All the world cries, Where is the man who will save us? We want a man! Don't look so far for this man. You have him at hand. This man it is you, it is I; it is each one of us!... How to constitute one's self a man? Nothing harder, if one knows not how to will it; nothing easier, if one wills it. -Alexander Dumas. "I thank God I am a Baptist," said a little, short Doctor of Divinity, as he mounted a step at a convention. "Louder! louder!" shouted a man in the audience; "we can't hear." "Get up higher," said another. "I can't," replied the doctor, "to be a Baptist is as high as one can get."

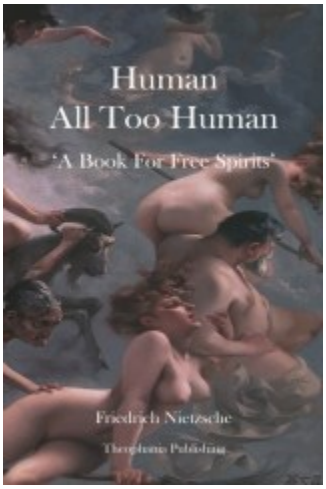
Hugh Gwyeth: A Roundhead Cavalier
By Beulah Marie Dix
488 Pages, $27.25 USD, ISBN: 1981200509
Up in the tops of the tall elms that overshadowed the east wing of Everscombe manor house the ancient rooks were gravely wrangling. A faint morning breeze swept the green branches and, as the leaves stirred, the warm September sunlight smiting through fell in flakes of yellow on the dark flagstones of the terrace below. For a moment Hugh Gwyeth ceased to toss up and catch the ball in his hand, while he stood to count the yellow spots that shifted on the walk. Eight, nine,—but other thoughts so filled his head that there he lost count and once more took up his listless tramp. Off to his left, where beyond the elms the lawn sloped down to the park, he could hear the calls of the boys at play,—his Oldesworth cousins and Aunt Rachel Millington's sons.



Human All Too Human
By Friedrich Nietzsche
468 Pages, $22.24 USD, ISBN: 1478155124
NIETZSCHE'S essay, Richard Wagner in Bayreuth, appeared in 1876, and his next publication was his present work, which was issued in 1878. A comparison of the books will show that the two years of meditation intervening had brought about a great change in Nietzsche's views, his style of expressing them, and the form in which they were cast. The Dionysian, overflowing with life, gives way to an Apollonian thinker with a touch of pessimism. The long essay form is abandoned, and instead we have a series of aphorisms, some tinged with melancholy, others with satire, several, especially towards the end, with Nietzschian wit at its best, and a few at the beginning so very abstruse as to require careful study.

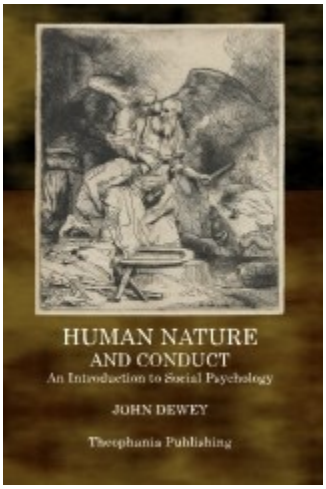
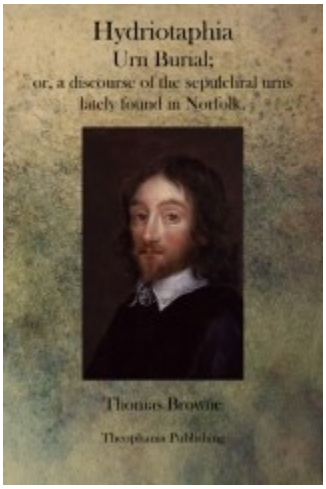
"Life requires no context. These photos, gleaned from the open spaces of the internet, draw upon emotion, reflex, and creative drive. The Human experience is about living life in the most complete way possible. Reach higher. Love harder."

The HuMaN project was originally an attempt by the Publisher to explain to a friend the simplest approach to creating a periodical of compiled creative content from all over the world, and launching a new magazine dedicated to the creative arts, while also providing a voice for creatives. Plans for an expanded publishing project failed when the friend was himself unceremoniously launched back to his own country, as his visa had expired, and he was deported.

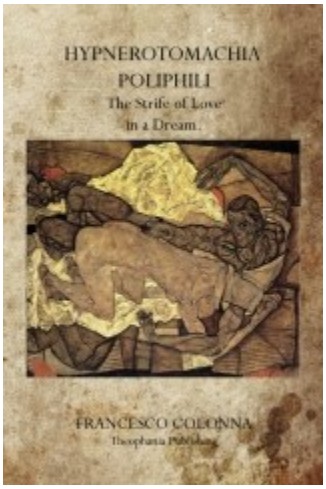


Human Nature and Conduct: An Introduction to Social Psychology
By John Dewey
264 Pages, $21.24 USD, ISBN: 1515276449

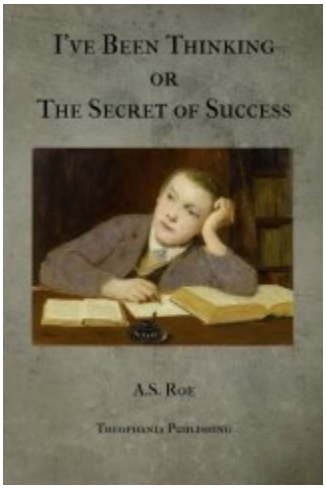
In the spring of 1918 I was invited by Leland Stanford Junior University to give a series of three lectures upon the West Memorial Foundation. One of the topics included within the scope of the Foundation is Human Conduct and Destiny. This volume is the result, as, according to the terms of the Foundation, the lectures are to be published. The lectures as given have, however, been rewritten and considerably expanded. An Introduction and Conclusion have been added. The lectures should have been published within two years from delivery. Absence from the country rendered strict compliance difficult; and I am indebted to the authorities of the University for their indulgence in allowing an extension of time, as well as for so many courtesies received during the time when the lectures were given.



Hydriotaphia
By Thomas Browne
50 Pages, $16.24 USD, ISBN: 1770833129
WHEN the general pyre was out, and the last valediction over, men took a lasting adieu of their interred friends, little expecting the curiosity of future ages should comment upon their ashes; and, having no old experience of the duration of their relicks, held no opinion of such after considerations. But who knows the fate of his bones, or how often he is to be buried? Who hath the oracle of his ashes, or whither they are to be scattered? The relicks of many lie like the ruins of Pompey's, in all parts of the earth; and when they arrive at your hands these may seem to have wandered far, who, in a direct and meridian travel, have but few miles of known earth between yourself and the pole.



Hypnerotomachia Poliphili: The Strife of Love in a Dream
By Francesco Colonna
212 Pages, $19.24 USD, ISBN: 1770832041
Poliphilo's Strife of Love in a Dream, is a romance said to be by Francesco Colonna. First published in Venice, 1499, in an elegant page layout, with refined woodcut illustrations in an Early Renaissance style, Hypnerotomachia Poliphili presents a mysterious arcane allegory in which Poliphilo pursues his love Polia through a dreamlike landscape, and is at last reconciled with her by the Fountain of Venus. The text of the book is written in a bizarre Latinate Italian, full of words based on Latin and Greek roots without explanation.



I've Been Thinking or The Secret of Success
By A S Roe
512 Pages, $22.24 USD, ISBN: 1475256884
Jim, as he was called, rested a moment on his hoe, eyed his brother closely, and then, with something of a smile, replied: 'Come, Ned, don't give up to lazy feelings; the things will do somebody good; and you know my father always told us, that it was better to be at work, even if we got no pay for it: and besides, I have been thinking of a plan by which we may do something with what we raise, if we have more than we can use.'

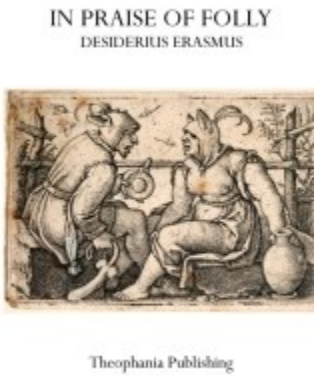
Illusions: A Psychological Study

By James Sully

308 Pages, $22.24 USD, ISBN: 1497465184

The present volume takes a wide survey of the field of error, embracing in its view no only the illusions of sense dealt with in treatises on physiological optics, etc., but also other errors familiarly known as illusions, and resembling the former in their structure and mode of origin. I have throughout endeavoured to keep to a strictly scientific treatment, that is to say, the description and classification of acknowledged errors, and the explanation of these by a reference to their psychical and physical conditions. At the same time, I was not able, at the close of my exposition, to avoid pointing out how the psychology leads on to the philosophy of the subject.

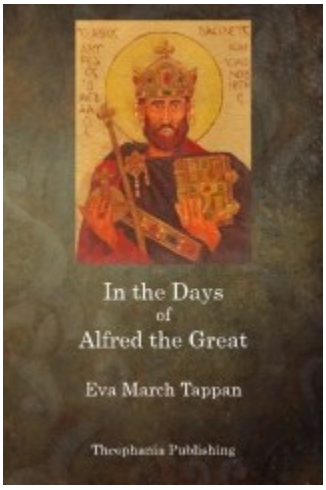


In Praise of Folly

By Desiderius Erasmus

134 Pages, $17.24 USD, ISBN: 1770831746

In Praise of Folly is considered one of the most notable works of the Renaissance and one of the catalysts of the Protestant Reformation. It starts off with a satirical learned encomium after the manner of the Greek satirist Lucian, whose work Erasmus and Sir Thomas More had recently translated into Latin, a piece of virtuoso foolery; it then takes a darker tone in a series of orations, as Folly praises self-deception and madness and moves to a satirical examination of pious but superstitious abuses of Catholic doctrine and corrupt practices in parts of the Roman Catholic Church, to which Erasmus was ever faithful, and the folly of pedants (including Erasmus himself).

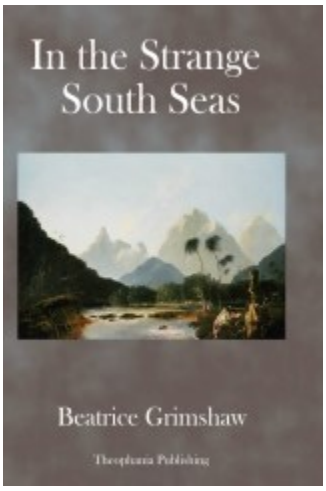


In the Days of Alfred the Great

By Eva March Tappan

220 Pages, $19.24 USD, ISBN: 1515277372

THE palace in which Alfred the Great was born was hardly what we should call a palace in these days. It was a long, low, wooden house, or rather a group of houses; for whenever more room was needed, a new building was put up, and joined to the old ones wherever it seemed most convenient, so that the palace looked much like a company of one-story houses that had drifted together in a flood. There had to be room for a large family, for the king's counsellors and many of the church dignitaries lived with him. All around the house were many smaller houses for the fighting and the working men.

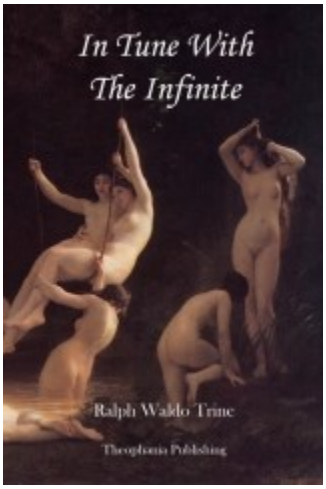


In the Strange South Seas

By Beatrice Grimshaw

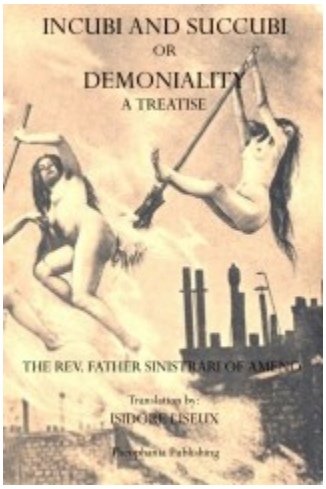
518 Pages, $28.25 USD, ISBN: 1979145253

MOST men have their loves, happy or hopeless, among the countries of the earth. There are words in the atlas that ring like trumpet calls to the ear of many a stay-at-home in grey northern cities—names of mountains, rivers, islands, that tramp across the map to the sound of swinging music played by their own gay syllables, that summon, and lure, and sadden the man who listens to their fifing, as the music of marching regiments grips at the heart of the girl who loves a soldier. They call, they call, they call—through the long March mornings, when the road that leads to everywhere is growing white and dry—through restless summer nights, when one sits awake at the window to see the stars turn grey with the dawn—in the warm midday, when one hurries across the city bridge to a crowded eating-house, and the glittering masts far away down the river must never be looked at as one passes.



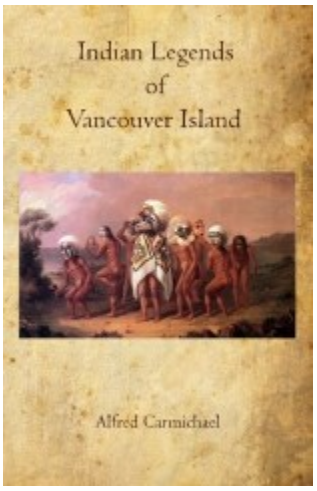
In Tune With The Infinite
By Ralph Waldo Trine
104 Pages, $16.24 USD, ISBN: 1478155205

There is a golden thread that runs through every religion in the world. There is a golden thread that runs through the lives and the teachings of all the prophets, seers, sages, and saviours in the world's history, through the lives of all men and women of truly great and lasting power. All that they have ever done or attained to has been done in full accordance with law. What one has done, all may do. This same golden thread must enter into the lives of all who today, in this busy work-a-day world of ours, would exchange impotence for power, weakness and suffering for abounding health and strength, pain and unrest for perfect peace, poverty of whatever nature for fullness and plenty.



Incubi and Succubi: or Demoniality
By Isidore Liseux
258 Pages, $20.24 USD, ISBN: 1770831657

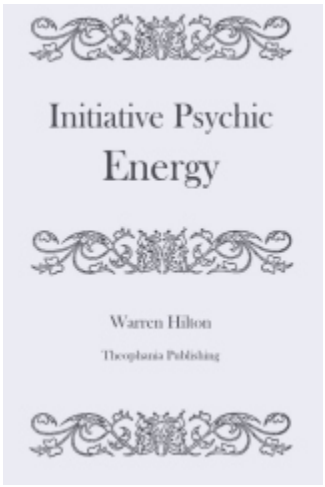
INCUBI AND SUCCUBI OR DEMONIALITY A TREATISE wherein is shown that there are in existence on earth rational creatures besides man, endowed like him with a body and a soul, that are born and die like him, redeemed by our Lord Jesus-Christ, and capable of receiving salvation or damnation



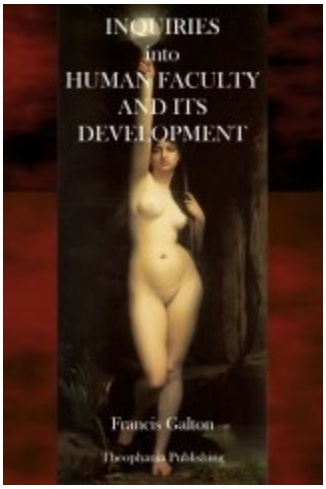
Indian Legends of Vancouver Island
By Alfred Carmichael
46 Pages, $16.24 USD, ISBN: 1460901355

The unsophisticated aboriginal of British Columbia is almost a memory of the past. He leaves no permanent monument, no ruins of former greatness. His original habitation has long given place to the frame house of sawn timber, and with the exception of the carvings in black slate made by the Hydah Indians of the Queen Charlotte Islands, and the stone hammers, spear and arrow points, fashioned in the days before the coming of the white man, the mementos of his sojourn in British Columbia are only relics in wood, bark or reeds. In the Alberni District of Vancouver Island there are two tribes of Indians, the Seshaht and the Opitchesaht.

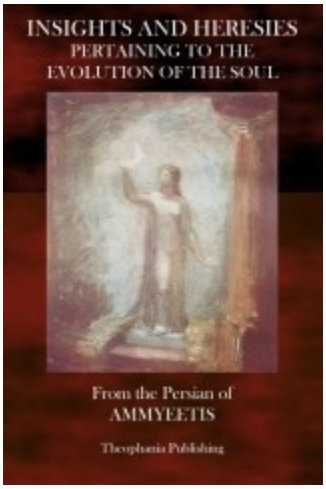
Indian Tribes of the Northern Rockies
By Adolf Hungry Wolf
143 Pages, $17.24 USD, ISBN: 1099812380
The main purpose of this book is to present a volume of cultural information and historical facts about several neighboring tribes living in and around the Rocky Mountains of British Columbia, Alberta and Montana. It is especially intended as a handy reference for younger members of those tribes, who see a lot of educational material about the rest of the world, but not so much about their own. A second purpose is to provide important and interesting historical material about these tribes to the general public, to encourage better understanding and greater respect towards the native people of this land. The heritage of these tribes is much too great and complicated to cover in a single book, especially one of this size. Readers are encouraged to seek out volumes listed in the bibliographies for further study and information.



Initiative Psychic Energy
By Warren Hilton
42 Pages, $16.24 USD, ISBN: 1478155213
Are you an unusually persevering and persistent person? Or, like most of us, do you sometimes find it difficult to stick to the job until it is done? What is your usual experience in this respect? Is it not this, that you work steadily along until of a sudden you become conscious of a feeling of weariness, crying "Enough!" for the time being, and that you then yield to the impulse to stop?



Inquiries into Human Faculty and its Development
By Francis Galton
370 Pages, $24.24 USD, ISBN: 1484856538
We must free our minds of a great deal of prejudice before we can rightly judge of the direction in which different races need to be improved. We must be on our guard against taking our own instincts of what is best and most seemly, as a criterion for the rest of mankind. The instincts and faculties of different men and races differ in a variety of ways almost as profoundly as those of animals in different cages of the Zoological Gardens; and however diverse and antagonistic they are, each may be good of its kind. It is obviously so in brutes; the monkey may have a horror at the sight of a snake, and a repugnance to its ways, but a snake is just as perfect an animal as a monkey.



Insights and Heresies Pertaining to the Evolution of the Soul
By Ammyeetis
186 Pages, $18.24 USD, ISBN: 1484856643
There is no new revelation to be given to man; there is no need of it. Those who have labored most strenuously to evolve from their inner consciousness a new, a better religion, have found themselves bogged in the mire of their egotism which has landed them in a police court, or they have been confronted by exactly the same problems as those from which they have sought to escape. Few, indeed, have survived the test of time. There is an ancient promise that stands yet for man's use: To him that hath (improved) shall more be given, and from him that hath not (improved) shall be taken away that which he already has.

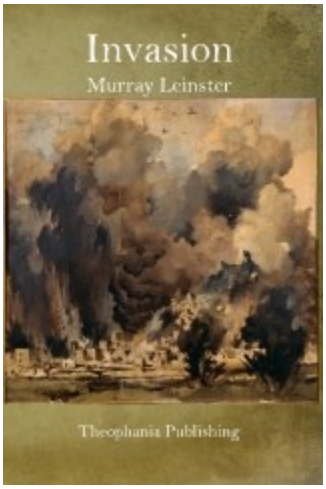
Introduction To The Philosophy And Writings Of Plato
By Thomas Taylor
114 Pages, $17.24 USD, ISBN: 1469930722
"Philosophy," says Hierocles, "is the purification and perfection of human life. It is the purification, indeed, from material irrationality, and the mortal body; but the perfection, in consequence of being the resumption of our proper felicity, and a reascent to the divine likeness. To effect these two is the province of Virtue and Truth; the former exterminating the immoderation of the passions; and the latter introducing the divine form to those who are naturally adapted to its reception."

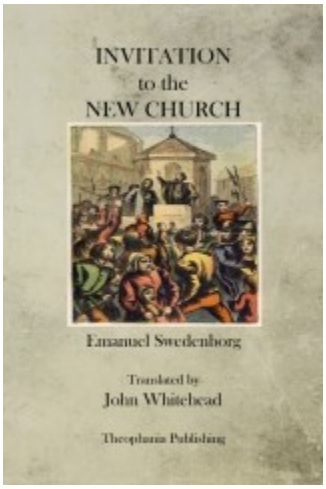


Invasion

By Murray Leinster

60 Pages, $16.24 USD, ISBN: 151936377X

It was August 19, 2037. The United Nations was just fifty years old. Televisors were still monochromatic. The Nidics had just won the World Series in Prague. Com-Pub observatories were publishing elaborate figures on moving specks in space which they considered to be Martian spaceships on their way to Earth, but which United Nations astronomers could not discover at all. Women were using gilt lipsticks that year. Heat-induction motors were still considered efficient prime movers. Thorn Hard was a high-level flier for the Pacific Watch. Bathyletis was the most prominent of nationally advertised diseases, and was to be cured by RO-17, "The Foundation of Personal Charm."

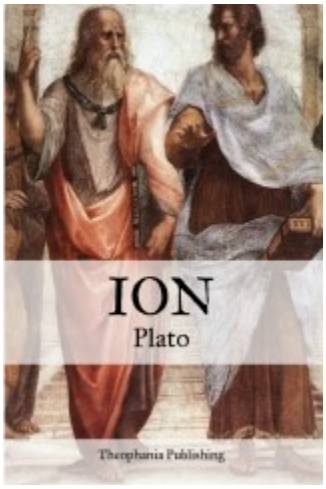


Invitation to the New Church

By Emanuel Swedenborg

28 Pages, $15.24 USD, ISBN: 147007902X

During man's regeneration, the light of heaven is instilled into natural light, and at the same time the heat of heaven; these two constitute, as it were, the new soul, through which man is formed by the Lord. This light and heat are instilled through the higher mind, which is called the spiritual mind. By virtue of this instilling, or insertion, man becomes a new creature, and becomes more enlightened and more intelligent in matters of the church, and consequently in the reading of the Word. This also is the new understanding and the new will. Afterwards the man is led by the Lord through the above light and through the above heat, and from natural becomes spiritual. There is a still higher or more interior light and heat, which is called celestial.

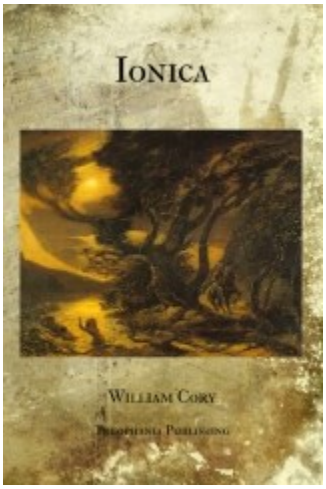


Ion

By Plato

34 Pages, $17.24 USD, ISBN: 1469930765

Ion has just come from a festival of Asclepius at the city of Epidaurus, after having won first prize in the competition. Socrates engages Ion in a philosophical discussion. Ion admits when Socrates asks, that his skill in performance recitation is limited to Homer, and that all other poets bore him. Socrates finds this puzzling, and sets out to solve the "riddle" of Ion's limited expertise. He points out to Ion that art critics and judges of sculpture normally do not limit themselves to judging the work of only a single artist, but can criticize the art no matter who the particular artist.

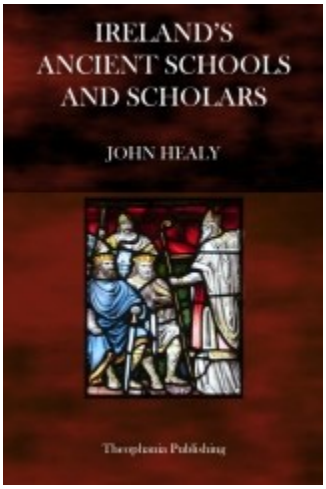


Ionica

By William Cory

142 Pages, $17.24 USD, ISBN: 1475256876

William Johnson published in 1858 a slender volume bound in green cloth, (Smith, Elder & Co.) which was entitled "Ionica," and which comprised forty-eight poems. In 1877 he printed privately a little paper-covered book (Cambridge University Press), entitled "Ionica II," containing twenty-five poems. This book is a rare bibliographical curiosity. It has neither titlepage nor index; it bears no author's name; and it is printed without punctuation, on a theory of the author's, spaces being left, instead of stops, to indicate pauses.



Ireland's Ancient Schools and Scholars

By John Healy

592 Pages, $30.24 USD, ISBN: 149746529X

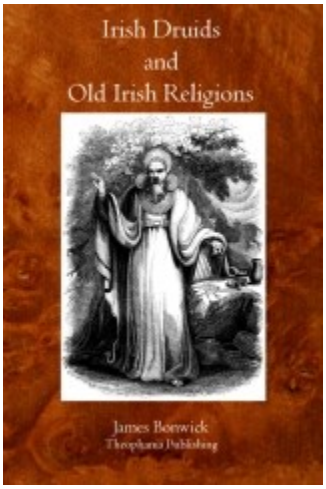
In the following pages it has been the author’s purpose to give a full and accurate, but at the same time, as he hopes, a popular account of the Schools and Scholars of Ancient Ireland. It is a subject about which much is talked, but little is known, and even that little is only to be found in volumes that are not easily accessible to the general reader. In the present work the history of the Schools and Scholars of Celtic Erin is traced from the time of St. Patrick down to the Anglo Norman Invasion of Ireland. The first three centuries of this period is certainly the brightest page of what is, on the whole, the rather saddening, but not inglorious record, of our country’s history.

Irenaeus Against Heresies

By St. Irenaeus

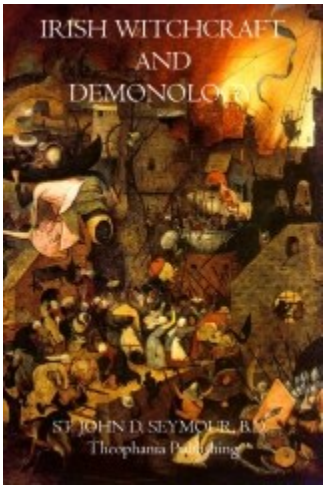
774 Pages, $36.24 USD, ISBN: 1480081159

INASMUCH as certain men have set the truth aside, and bring in lying words and vain genealogies, which, as the apostle says, "minister questions rather than godly edifying which is in faith," and by means of their craftily-constructed plausibilities draw away the minds of the inexperienced and take them captive, [I have felt constrained, my dear friend, to compose the following treatise in order to expose and counteract their machinations.] These men falsify the oracles of God, and prove themselves evil interpreters of the good word of revelation.



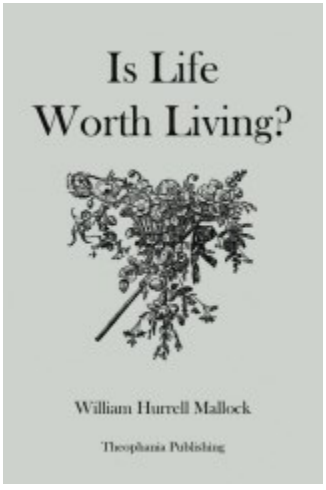
Irish Druids And Old Irish Religions
By James Bonwick
326 Pages, $22.24 USD, ISBN: 1770831231

IRELAND, whether viewed from an antiquarian or an ethnological point of view, is one of the most interesting countries in the world. It is not the less an object of attention from the fact, that in its early history there are traces of nearly every kind of pagan belief. The author of this work, conscious of the importance of inquiry into ancient faiths, has collected such information upon Irish religions as a lengthened course of general reading has thrown in his way, since it may benefit those who have less leisure or opportunity for research. He is content to state various views, presented in quotations from writers, rather than to put forth any special conjectures of his own.



Irish Witchcraft and Demonology
By St. John D. Seymour , B.D.
140 Pages, $17.24 USD, ISBN: 177083124X

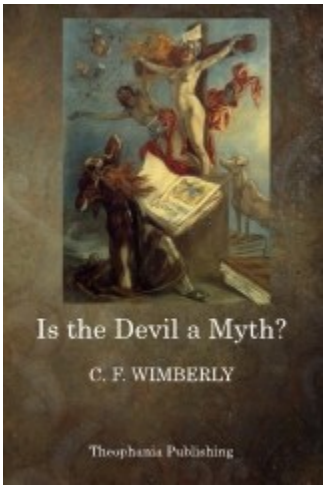
IT is said, though we cannot vouch for the accuracy of the statement, that in a certain book on the natural history of Ireland there occurs a remarkable and oft-quoted chapter on Snakes--the said chapter consisting of the words, "There are no snakes in Ireland." In the opinion of most people at the present day a book on Witchcraft in Ireland would be of equal length and similarly worded, except for the inclusion of the Kyteler case in the town of Kilkenny in the first half of the fourteenth century. For, with the exception of that classic incident, modern writers seem to hold that the witch-cult never found a home in Ireland as it did elsewhere.



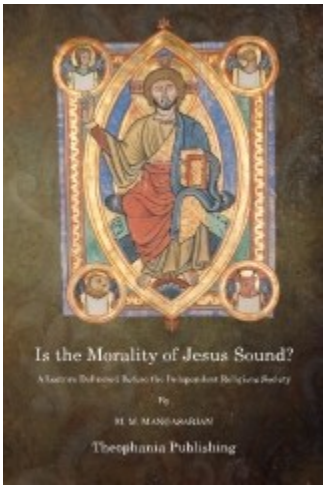
Is Life Worth Living
By William Hurrell Mallock
216 Pages, $19.24 USD, ISBN: 1477613471

The import of the book is independent of the book itself, and of the author of it; nor do the arguments it contains stand or fall with my success in stating them; and these last at least I may associate with your name. They are not mine. I have not discovered or invented them. They are so obvious that any one who chooses may see them; and I have been only moved to meddle with them, because, from being so obvious, it seems that no one will so much as deign to look at them, or at any rate to put them together with any care or completeness. They might be before everybody's eyes; but instead they are under everybody's feet.

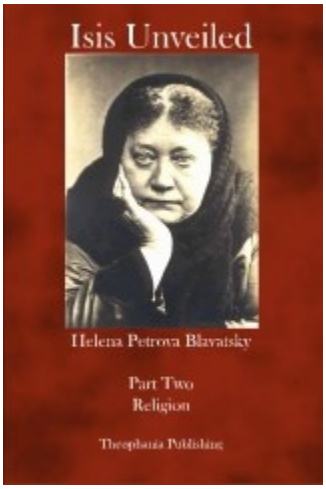
Is Life Worth Living Without Immortality
By M. M. Mangasarian
30 Pages, $16.24 USD, ISBN: 1477613390
Is life worth living? If we are in good health, it certainly is. In a certain sense, even to ask such a question implies that we are not at our best. It is the sick, mentally as well as physically, who question the value of life. We cannot appreciate health too highly. Our philosophy of life is more profoundly affected by the condition of our body than we have any idea. If I were composing a new set of beatitudes, one of them would be in exaltation of health: Blessed are they that have health, for they shall take pleasure in life. Health also inspires faith in life.

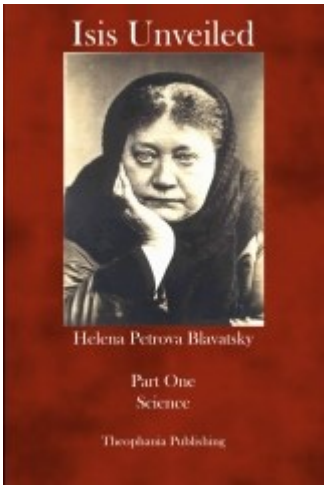


Is the Devil a Myth?
By C.F. Wimberly
194 Pages, $18.24 USD, ISBN: 1515277429
It is the writer's firm conviction, in these days when the most enthusiastic "bookworm" cannot even keep up with the titles of the book output, that an earnest, sensible reason should be given for adding another to the already endless list of books. We have enough books to-day, "good, bad, indifferent," with which, if they were collected, to build another Cyclops pyramid. The sage of the Old Testament declared in his day, concerning the endless making of books; such a statement, compared with modern writing and publishing of books, sounds amusing. Every possible subject, vagary, or ism, for which a book could be written, is overworked.



Is The Morality of Jesus Sound?
By M. M. Mangasarian
30 Pages, $16.24 USD, ISBN: 1515276619
A great deal depends upon the answer to the question, "Is the moral teaching of Jesus sound?" This question brings us to the inner and most closely guarded citadel of Christianity. If it can be captured, the rout of supernaturalism will be complete; but as long as it stands, Christianity can afford to lose every one of its outer fortifications, and still be the victor. Reason may drive supernaturalism out of the Catholic position into the Protestant, and out of that, into the Unitarian, and out of that again into Liberalism, but reason does not become master of the field until it has stormed and razed to the ground this last and greatest of all the strongholds—the morality of Christianity.





Isis Unveiled TWO VOLUME SET

By Helena Petrova Blavatsky

Isis Unveiled: Part One Science 596 Pages, $30.24 USD, ISBN: 1503280047

Isis Unveiled: Part Two Religion 608 Pages, $30.24 USD, ISBN: 1770830952

THERE exists somewhere in this wide world an old Book, so very old that our modern antiquarians might ponder over its pages an indefinite time, and still not quite agree as to the nature of the fabric upon which it is written. It is the only original copy now in existence. The most ancient Hebrew document on occult learning, the Siphra Dzeniouta, was compiled from it, and that at a time when the former was already considered in the light of a literary relic. One of its illustrations represents the Divine Essence emanating from ADAM.

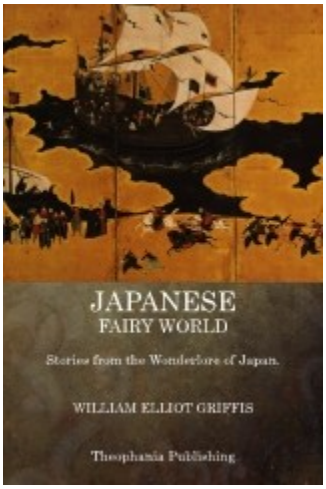
Japanese Fairy Tales

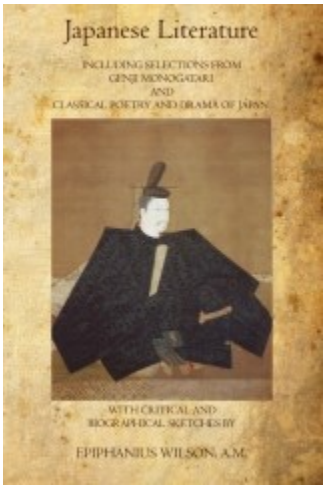
By Yei Theodora Ozaki

252 Pages, $20.24 USD, ISBN: 1515277399

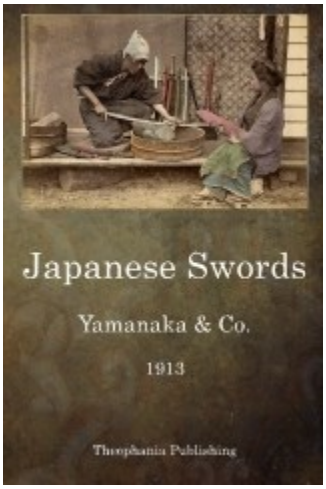
Long, long ago there lived, in Japan a brave warrior known to all as Tawara Toda, or "My Lord Bag of Rice." His true name was Fujiwara Hidesato, and there is a very interesting story of how he came to change his name. One day he sallied forth in search of adventures, for he had the nature of a warrior and could not bear to be idle. So he buckled on his two swords, took his huge bow, much taller than himself, in his hand, and slinging his quiver on his back started out. He had not gone far when he came to the bridge of Seta-no-Karashi spanning one end of the beautiful Lake Biwa.



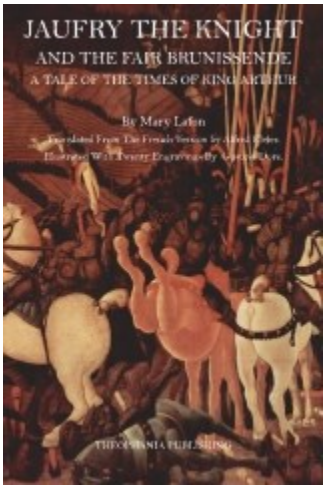
Japanese Fairy World: Stories from
By William Elliot Griffis
186 Pages, $18.24 USD, ISBN: 1515277402
The thirty-four stories included within this volume do not illustrate the bloody, revengeful or licentious elements, with which Japanese popular, and juvenile literature is saturated. These have been carefully avoided. It is also rather with a view to the artistic, than to the literary, products of the imagination of Japan, that the selection has been made. From my first acquaintance, twelve years ago, with Japanese youth, I became an eager listener to their folk lore and fireside stories.



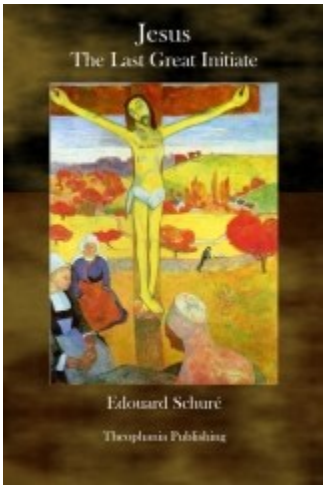
Japanese Literature
By Epiphanius Wilson A.M.
326 Pages, $22.24 USD, ISBN: 1770831681
Genji Monogatari, the original of this translation, is one of the standard works of Japanese literature. It has been regarded for centuries as a national treasure. The title of the work is by no means unknown to those Europeans who take an interest in Japanese matters, for it is mentioned or alluded to in almost every European work relating to our country. It was written by a lady, who, from her writings, is considered one of the most talented women that Japan has ever produced.



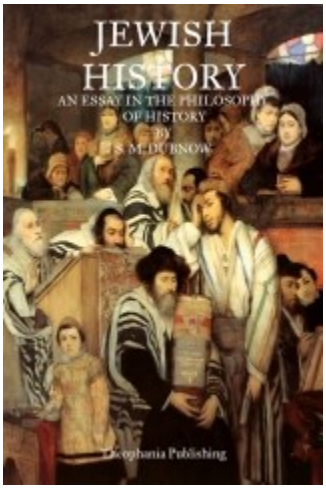
Japanese Swords
By Yamanaka & Co.
26 Pages, $16.24 USD, ISBN: 1515277275
AMONGST the numberless articles of Japanese attire, works of art or mere household objects which the Restoration of 1868 compelled the Japanese to cast upon the market, none has met with such wide fame and yet with such a limited study as the Sword. When, in 1877, the Government prohibited the Samurai from wearing any longer the two swords which had been the privilege and distinctive mark of their martial caste, the Imperial wish was obeyed, notwithstanding the feeling that something was snapping in the life of the nation.



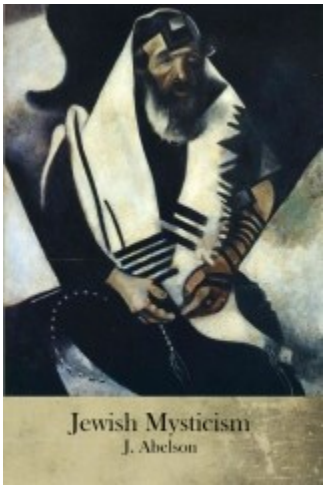
Jaufry the Knight
By Mary Lafon
134 Pages, $17.24 USD, ISBN: 1519363648
The description given by one of the authors of Jauvfry about the origin of the romance, and the evidence afforded by the French adapter concerning the Mss. wherein it is contained, make it unnecessary for me to dwell upon these particulars. The veneration in which King Arthur's name is held by all lovers of the early romantic history of Britain will give the tale a strong recommendation in such eyes; while the personages with which it deals render the appearance of its characters in an English dress the more pleasing and appropriate.



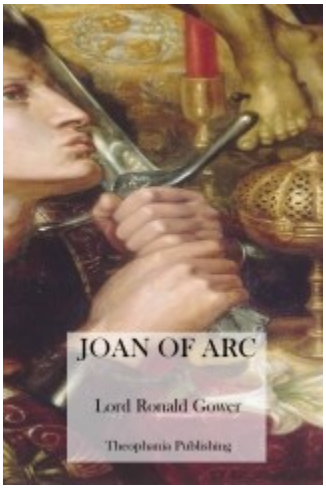
Jesus The Last Great Initiate
By Edouard Schuré
112 Pages, $16.24 USD, ISBN: 1515262677
How did Jesus become the Messiah? That is the primordial question, the solution of which is essential to the right understanding of the Christ; it is also that before which M. Renan hesitated and turned aside. M. Théodore Kein saw that this question must be boldly faced. His life of Jesus is the most remarkable that has appeared since M. Renan's. It throws on the question all the light given by texts and history esoterically interpreted. But the problem is not one capable of being solved without the aid of intuition and esoteric tradition. It is by means of this esoteric light, the inner flame of all religions, the central truth of all fruitful philosophy, that I have attempted to reconstruct along its main lines, the life of Jesus, taking into account whatever previous historical criticism has hitherto cleared and prepared the ground.



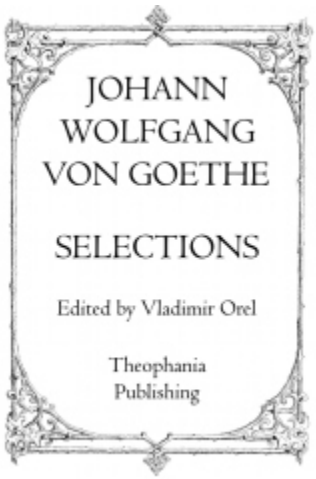
Jewish History: An Essay In The Philosophy Of History
By S. M. Dubnow
124 Pages, $17.24 USD, ISBN: 146993079X
The history of a people is not a mere mental discipline, like botany or mathematics, but a living science, a magistra vitae, leading straight to national self-knowledge, and acting to a certain degree upon the national character. History is a science by the people, for the people, and, therefore, its place is the open forum, not the scholar's musty closet. We relate the events of the past to the people, not merely to a handful of archaeologists and numismaticians. We work for national self-knowledge, not for our own intellectual diversion."



Jewish Mysticism
By J. Abelson
124 Pages, $16.24 USD, ISBN: 1770832858
To write profitably on Jewish mysticism, it is necessary to have, not only a discriminating sympathy with the mystical standpoint, but also a first hand knowledge of Jewish religious literature, the peculiar genius of which, perhaps, no one but a member of the race that has produced it can adequately appreciate and interpret. In addition to this, Dr. Abelson comes well prepared for his task, as he has already opened up a new field of research by his valuable critical study on The Immanence of God in Rabbinical Literature, a subject which is the indispensable presupposition of all Jewish mysticism.

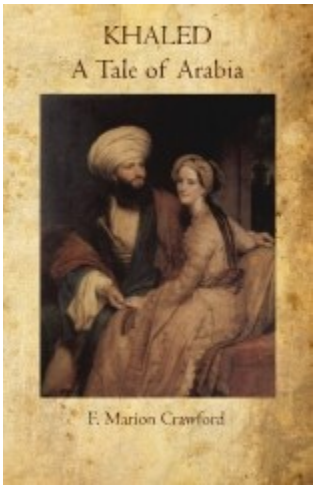


Joan of Arc
By Lord Ronald Gower F.S.A.
256 Pages, $20.24 USD, ISBN: 1475006551
The authors whose works I have chiefly used in writing this Life of Joan of Arc, are—first, Quicherat, who was the first to publish at length the Minutes of the two trials concerning the Maid—that of her trial at Rouen in 1430, and of her rehabilitation in 1456, and who unearthed so many chronicles relating to her times; secondly, Wallon, whose Life of Joan of Arc is of all the fullest and most reliable; thirdly, Fabre, who has within the last few years published several most important books respecting the life and death of Joan. Fabre was the first to make a translation in full of the two trials which Quicherat had first published in the original Latin text.

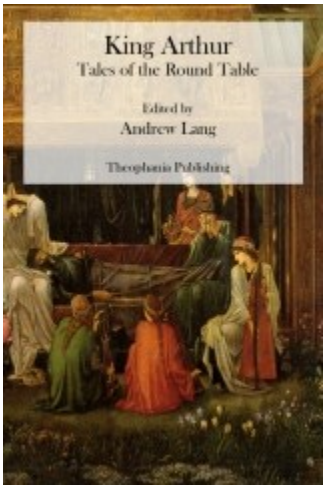


Johann Wolfgang Von Goethe: Selections
By Johann Wolfgang Von Goethe
730 Pages, $35.24 USD, ISBN: 1770831320
Goethe's name is known by each and every educated person and became closely associated with his most famous work, Faust. Yet, Goethe's genius and his contribution to the world were much wider than just one book. He wrote remarkable prose, outstanding poetry and plays and even treatises in the physical theory of colour. Our volume allows the reader to learn Goethe as a creator of love poetry, a powerful playwright and also a somewhat sly and highly imaginative autobiography.

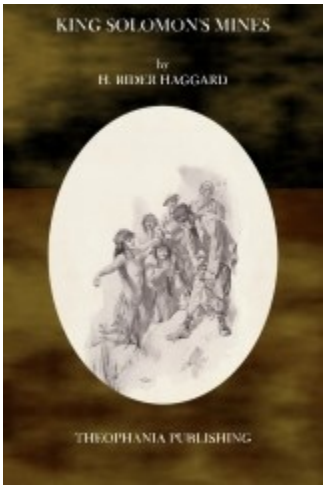
Karma
By Annie Besant
54 Pages, $15.24 USD, ISBN: 1480119172
FEW words are needed in sending this little book out into the world. It is the fourth of a series of manuals designed to meet the public demand for a simple exposition of theosophical teachings. Some have complained that our literature is at once too abstruse, too technical, and too expensive for the ordinary reader, and it is our hope that the present series may succeed in supplying what is a very real want. Theosophy is not only for the learned; it is for all.



Khaled A Tale of Arabia
By F. Marion Crawford
204 Pages, $19.24 USD, ISBN: 1456595652
Khaled is a djinn working in the service of Allah. So truly does he believe that in his overzealousness, he misses the mark and causes the demise of a non-believer, and is condemned to being human for a while. Although Khaled has no soul, he is offered the opportunity to become fully human, if he should make his wife come to love him.\

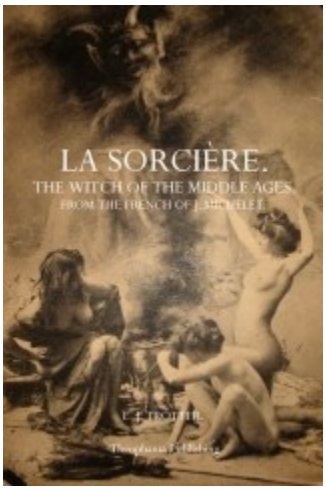


King Arthur: Tales of the Round Table
By Andrew Lang
144 Pages, $17.24 USD, ISBN: 1470074443
LONG, long ago, after Uther Pendragon died, there was no King in Britain, and every Knight hoped to seize the crown for himself. The country was like to fare ill when laws were broken on every side, and the corn which was to give the poor bread was trodden underfoot, and there was none to bring the evildoer to justice. Then, when things were at their worst, came forth Merlin the magician, and fast he rode to the place where the Archbishop of Canterbury had his dwelling. And they took counsel together, and agreed that all the lords and gentlemen of Britain should ride to London and meet on Christmas Day, now at hand, in the Great Church.



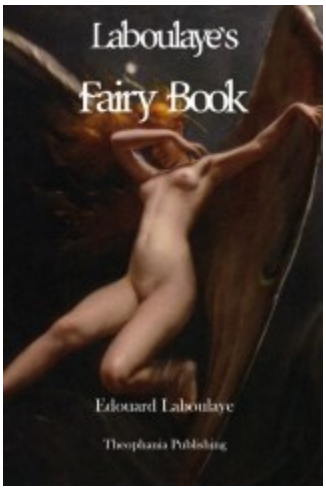
King Solomon's Mines
By H. Rider Haggard
270 Pages, $22.24 USD, ISBN: 1515365883
Allan Quatermain, an adventurer and white hunter based in Durban, in what is now South Africa, is approached by aristocrat Sir Henry Curtis and his friend Captain Good, seeking his help finding Sir Henry's brother, who was last seen travelling north into the unexplored interior on a quest for the fabled King Solomon's Mines. Quatermain has a mysterious map purporting to lead to the mines, but had never taken it seriously. However, he agrees to lead an expedition in return for a share of the treasure, or a stipend for his son if he is killed along the way. He has little hope they will return alive, but reasons that he has already outlived most people in his profession, so dying in this manner at least ensures that his son will be provided for.

La Guerra Del Vespro Siciliano
By Michele Amari ITALIAN EDITION
616 Pages, $30.24 USD, ISBN: 1519363567
Questo libro si pubblicò in Palermo, non è ancora un anno, col titolo un po' lungo e indeterminato di «Un periodo delle istorie siciliane del secol XIII.» Non ebbe altro proemio che i due primi paragrafi del primo capitolo. Ma nella presente edizione, perchè avvi qualche cosa di nuovo, mi par bene intrattenerne il lettore per poche pagine. E per cominciare da ciò che rileva meno, avverto che ho fatto alcune correzioni di stile; senza presumere di essere pervenuto con ciò alla forma...

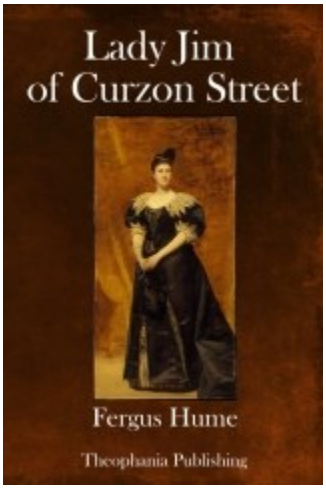


La Sorcière: The Witch of the Middle Ages
By L. J. Trotter
282 Pages, $20.24 USD, ISBN: 1770831630
It was said by Sprenger, before the year 1500, “Heresy of witches, not of wizards, must we call it, for these latter are of very small account.” And by another, in the time of Louis XIII.: “To one wizard, ten thousand witches.” “Witches they are by nature.” It is a gift peculiar to woman and her temperament. By birth a fay, by the regular recurrence of her ecstasy she becomes a sibyl. By her love she grows into an enchantress. By her subtlety, by a roguishness often whimsical and beneficent, she becomes a Witch; she works her spells; does at any rate lull our pains to rest and beguile them. All primitive races have the same beginning, as so many books of travel have shown. While the man is hunting and fighting, the woman works with her wits, with her imagination: she brings forth dreams and gods.

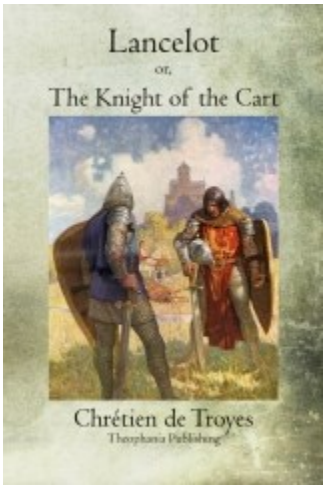
La Toyson D'Or ou La Fleur Des Tresors
By Salomon Trismosin French Edition
234 Pages, $20.24 USD, ISBN: 1517242363 Facsimile
This copy, published 1612. Great treasures were once kept by the very wealthy, and the very privileged. These books were brought to the public eye with great difficulty, each one typeset by hand, the letters often carved meticulously by a master craftsman, and the individual pieces of type skillfully inked by hand, each page pressed in a large printing press, the pages impressed with the strength of one or two men, whose sole job it was to produce a single print. With movable lead and wood type the prints-men would create a perfect copy, the pages laid out to dry, and folded by hand, sewn on a large wooden frame, and bound by another master craftsman, his apprentices working feverishly to create the most beautiful copy that their patrons could afford...



Laboulaye's Fairy Book
By Edward G. McCandlish
216 Pages, $19.24 USD, ISBN: 1479183733
There was once a green book, deliciously thick, with gilt-edged pages and the name of the author in gilt script on the front cover. Like an antique posy ring, it was a "box of jewels, shop of rarities"; it was a veritable Pandora's box, and if you laid warm, childish hands upon it and held it pressed close to your ear, you could hear, as Pandora did, soft rustlings, murmurings, flutterings, and whisperings from the fairy folk within. For this was a fairy book—Edouard Laboulaye's "Tales," and its heroes and heroines became first the daily companions, and then the lifetime possession, of the two little girls to whom it belonged.



Lady Jim of Curzon Street
By Fergus Hume
686 Pages, $34.25 USD, ISBN: 1981813837
"We're on the rocks this time, Leah, smashin' for all we're worth. How we can win clear beats me." With hands which had never earned a shilling thrust into pockets empty even of that coin, Jim Kaimes stretched out his long legs and surveyed his neat boots as he made this cryptic speech. His habit of expressing himself in a parabolic fashion was confusing to his friends. But five years of marital squabbling had schooled his wife into ready comprehension, and she usually responded without comment.

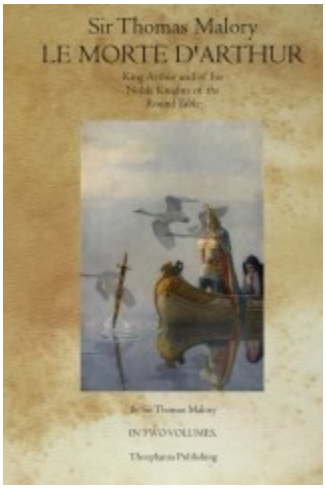


Lancelot: or, The Knight of the Car
By Chrétien de Troyes
122 Pages, $16.24 USD, ISBN: 1468023454

Since my lady of Champagne wishes me to undertake to write a romance, I shall very gladly do so, being so devoted to her service as to do anything in the world for her, without any intention of flattery. But if one were to introduce any flattery upon such an occasion, he might say, and I would subscribe to it, that this lady surpasses all others who are alive, just as the south wind which blows in May or April is more lovely than any other wind. But upon my word, I am not one to wish to flatter my lady. I will simply say: "The Countess is worth as many queens as a gem is worth of pearls and sards." Nay I shall make no comparison, and yet it is true in spite of me; I will say, however, that her command has more to do with this work than any thought or pains that I may expend upon it.

Laughter An Essay on the Meaning of
By Henri Bergson
118 Pages, $17.24 USD, ISBN: 1469930838

What does laughter mean? What is the basal element in the laughable? What common ground can we find between the grimace of a merry-andrew, a play upon words, an equivocal situation in a burlesque and a scene of high comedy? What method of distillation will yield us invariably the same essence from which so many different products borrow either their obtrusive odour or their delicate perfume? The greatest of thinkers, from Aristotle downwards, have tackled this little problem, which has a knack of baffling every effort, of slipping away and escaping only to bob up again, a pert challenge flung at philosophic speculation.



Le Morte D' Arthur: King Arthur and of his Noble Knights of the Round Table
By Sir Thomas Malory

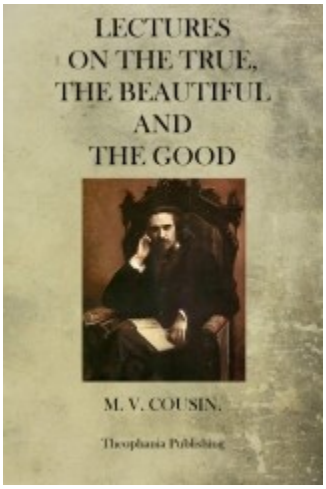
“Then all these things aforesaid alleged, I could not well deny but that there was such a noble king named Arthur, and reputed one of the nine worthy, and first and chief of the Christian men. And many noble volumes be made of him and of his noble knights in French, which I have seen and read beyond the sea, which be not had in our maternal tongue. But in Welsh be many and also in French, and some in English but nowhere nigh all.



Lectures On The True, The Beautiful and The Good
By M.V. Cousin
378 Pages, $24.24 USD, ISBN: 1770832866
For some time past we have been asked, on various sides, to collect in a body of doctrine the theories scattered in our different works, and to sum up, in just proportions, what men are pleased to call our philosophy. This résumé was wholly made. We had only to take again the lectures already quite old, but little known, because they belonged to a time when the courses of the Faculté des Lettres had scarcely any influence beyond the Quartier Latin, and, also, because they could be found only in a considerable collection, comprising all our first instruction, from 1815 to 1821. These lectures were there, as it were, lost in the crowd.

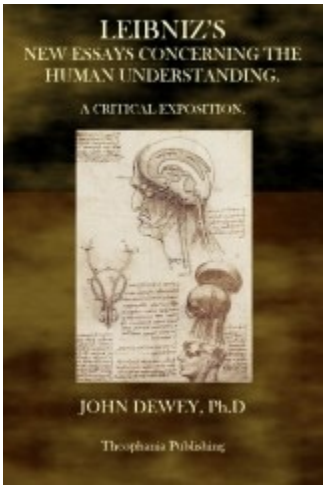
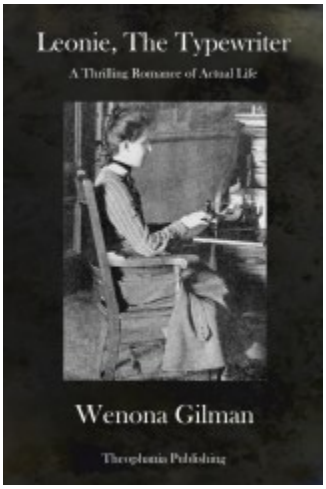
Legends and Romances of Spain
By Lewis Spence
386 Pages, $24.24 USD, ISBN: 1478155299
Since the days of Southey the romantic literature of Spain has not received from English writers and critics the amount of study and attention it undoubtedly deserves. In no European country did the seeds of Romance take root so readily or blossom so speedily and luxuriantly as in Spain, which perhaps left the imprint of its national character more deeply upon the literature of chivalry than did France or England. When we think of chivalry, do we not think first of Spain, of her age-long struggle against the pagan invaders of Europe, her sensitiveness to all that concerned personal and national honour, of the names of the Cid Campeador, Gayferos, and Gonzalvo de Cordova, gigantic shadows in harness, a pantheon of heroes, which the martial legends of few lands can equal and none surpass.

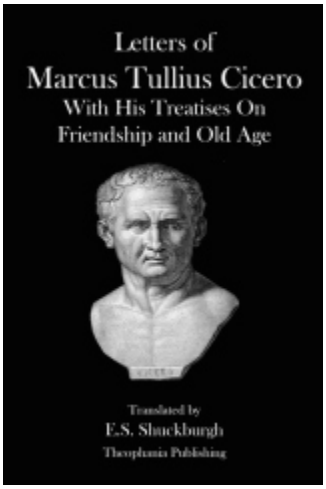


Leibniz's New Essays Concerning the Human Understanding
By John Dewey Phd.
198 Pages, $19.24 USD, ISBN: 1515277453
In the main, the course of philosophic thought since the time of Leibniz has been such as to render almost self-evident his limitations, and to suggest needed corrections and amplifications. Indeed, it is much easier for those whose thoughts follow the turn that Kant has given modern thinking to appreciate the defects of Leibniz than to realize his greatness. I have endeavored, therefore, in the body of the work, to identify my thought with that of Leibniz as much as possible, to assume his standpoint and method, and, for the most part, to confine express criticism upon his limitations to the final chapter.

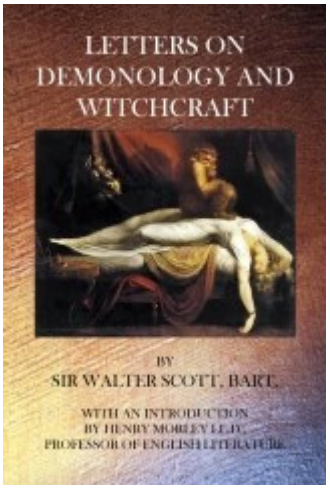


Leonie, The Typewriter: A Thrilling
By Wenona Gilman
374 Pages, $24.25 USD, ISBN: 1979020949
The day was delicious! A warm, soft breeze, that seemed to suggest sunny Italy, or the luxurious indolence of far-off Japan, tinted the atmosphere with a golden hue. It rested like a halo upon the head of a young man who sat beside a desk, idly twisting a pen between his fingers. It was a beautiful head! Too beautiful for a man, too strong for a woman.

Les Clavicules De Salomon and other Grimoires: Les Clavicules de Salomon Lumière Sortie des Tenèbres d'où il s'ensuit le Grand Grimoire La Grande ... Grimoire du Pape Honorius (French Edition)
By Pseudo Salomon
211 Pages, $64.99 USD, ISBN: B0CR1N2QZT
Facsimile Edition of the GRIMOIRE MS.4666
This rare and important 18th Century Grimoire is comprised of several works in the Goetic, Theurgic and Solomonic traditions, including Les Clavicules de Salomon, Lumière Sortie des Tenèbres, d'où il s'ensuit le Grand Grimoire, La Grande Clavicule et la Magie Noire, Schemhammaphoras, Le véritable Grimoire du Pape Honorius. The tome is illustrated with various kabbalistic figures and pentacles, sigils, seals, and drawings of various tools of the art. Hand written in French, this copy is a lesser known, though excellent example of the Salomonic Grimoire, with many excellent drawings which ought to be examined and compared to other similar Goetic and Theurgic manuscripts, as the symbols have been beautifully constructed and are well preserved in spite of obvious damage due to age and mishandling.



Letters of Marcus Tullius Cicero
By Marcus Tullius Cicero
98 Pages, $16.24 USD, ISBN: 1478229586
THE letters of Cicero are of a very varied character. They range from the most informal communications with members of his family to serious and elaborate compositions which are practically treatises in epistolary form. A very large proportion of them were obviously written out of the mood of the moment, with no thought of the possibility of publication; and in these the style is comparatively relaxed and colloquial.



Letters on Demonology and Witchcraf
By Sir Walter Scott
302 Pages, $20.24 USD, ISBN: 1770830391
Sir Walter Scott's "Letters on Demonology and Witchcraft" were his contribution to a series of books, published by John Murray, which appeared between the years 1829 and 1847, and formed a collection of eighty volumes known as "Murray's Family Library." The series was planned to secure a wide diffusion of good literature in cheap five shilling volumes, and Scott's "Letters," written and published in 1830, formed one of the earlier books in the collection.

Letters written during a short residence in Sweden, Norway, and Denmark

Her mother was a rigorous Irishwoman, of the Dixons of Ballyshannon. Edward John Wollstonecraft—of whose children, besides Mary, the second child, three sons and two daughters lived to be men and women—in course of the got rid of about ten thousand pounds, which had been left him by his father. He began to get rid of it by farming.

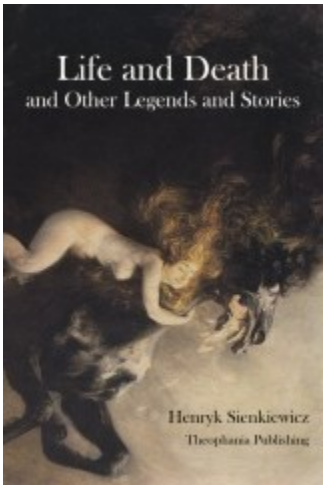
Library Bookbinding

By Arthur L. Bailey

280 Pages, $18.24 USD, ISBN: 1478155329

It has been the purpose of the writer in these chapters on library bookbinding to set forth as clearly as possible the best information relating to processes, materials, routine and various other lesser matters pertaining to bookbinding which must be taken into consideration by librarians, or by assistants in charge of binding departments. Although much of this information exists elsewhere in printed form, it is scattered through various books and articles. In some respects, therefore, this book is a gathering together of scattered material. It is hoped, however, that there is enough new material to make the book of interest to those who deal daily with binding problems, and that the book as a whole may help to solve some of the questions relating to binding in libraries both large and small.

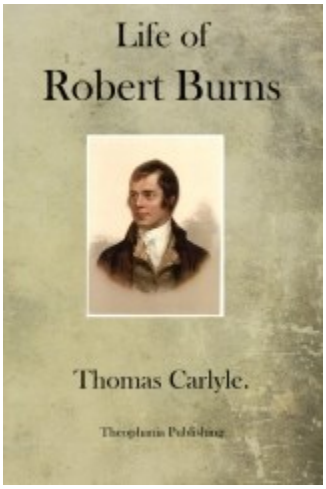


Life and Death and Other Legends and Stories

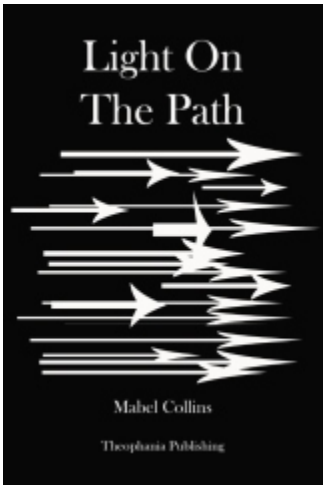
By Henryk Sienkiewicz

40 Pages, $16.24 USD, ISBN: 147815537X

“Is He the Dearest One?” was produced under the following circumstances: About fourteen years ago there was a famine, or at least hunger, in Silesia. Though that land is a German possession at present, it was once a part of the Polish Commonwealth, and there are many un-Germanized Poles in it yet. The mother in this sketch is Poland. Yasko, the most unfortunate of her sons, is Silesia. Poor, ill-fated, he neglects his own language, forgets his mother; but she does not forget him, as was shown on the occasion of that hunger in Silesia. The Poles of Russian Poland collected one million marks and sent them to Yasko.



Life of Robert Burns
By Thomas Carlyle
84 Pages, $16.24 USD, ISBN: 1770832882
This Life of the great Scottish bard is composed of two parts. The first part, which is brief, and gives merely his external life, is taken from the "Encyclopedia Britannica." The principle object of it, in this place, is to prepare the reader for what follows. The second part is a grand spiritual portrait of Burns, the like of which the ages have scarcely produced; the equal of which, in our opinion, does not exist. In fact, since men began to write and publish their thoughts in this world, no one has appeared who equals Carlyle as a spiritual-portrait painter; and, taken all in all, this of his gifted countryman Burns is his master-piece.



Light On The Path: and Through the Gates of Gold

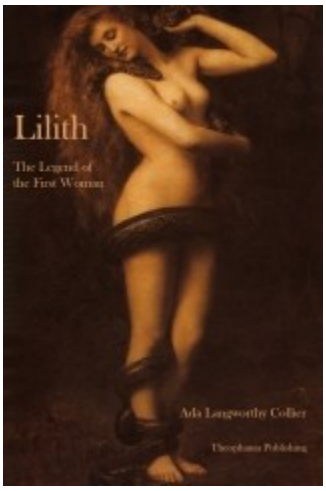
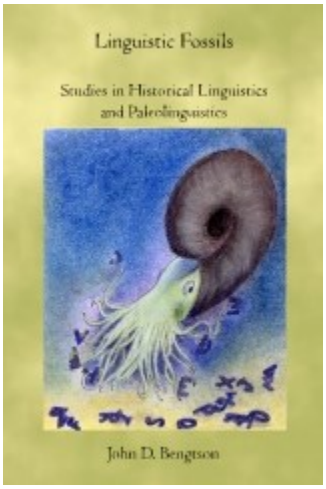
The present edition of LIGHT ON THE PATH is a verbatim reprint of the 1888 edition (George Redway, London) in which later edition the NOTES by the Author first appear. The COMMENTS, which are not in the 1888 edition, are here taken directly from Lucifer, Volume I, 1887-8, where they were first published. Also in this volume we reprint verbatim the original edition (1887) of THROUGH THE GATES OF GOLD by the same Author, together with a commentary by William Q. Judge taken from his magazine, The Path, March, 1887.



Lilith The Legend of the First Woman
By Ada Langworthy Collier
82 Pages, $15.24 USD, ISBN: 1480119237
From these few and meagre details of a fabled existence, which are all that the author has been able to collect from any source whatever, has sprung the following poem. The poet feels quite justified in dissenting from the statements made in the preceding extracts, and has not drawn Lilith as [6]there represented—the bloodthirsty sovereign who ruled Damascus, the betrayer of men, the murderer of children. The Lilith of the poem is transferred to the more beautiful shadow-world. To that country which is the abode of poets themselves.



Linguistic Fossils: Studies in Historical Linguistics and Paleolinguistics
By John D. Bengtson
236 Pages, $25.24 USD, ISBN: 0986510270
The articles in this book represent a large part of Mr. Bengtson's work in historical linguistics and paleolinguistics over the past few years. The first two articles concern the worldwide picture of a human language family: global etymologies. The third is a brief summary of Mr. Bengtson's current view of the Austric macrofamily. The next six articles are concerned with the so called "isolates," Basque and Burushaski, and Mr. Bengtson's view that they are just members of a larger macrofamily, Dene-Caucasian. The two essays with titles beginning "The Problem of 'Isolates'..." approach the issues in a narrative,minimally technical style, while the other four papers are more detail-oriented and technical. The last two articles concentrate on the Na-Dene family, which Mr. Bengtson's considers an integral part of Dene-Caucasian. It hardly needs saying that much of the content of this book is out of the mainstream of historical linguistic work.

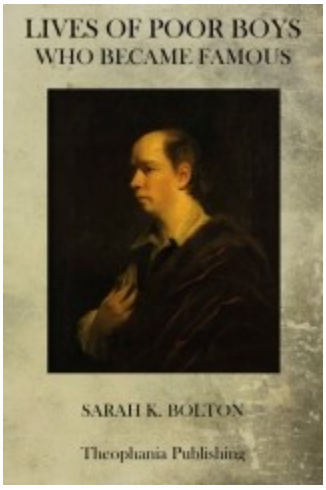
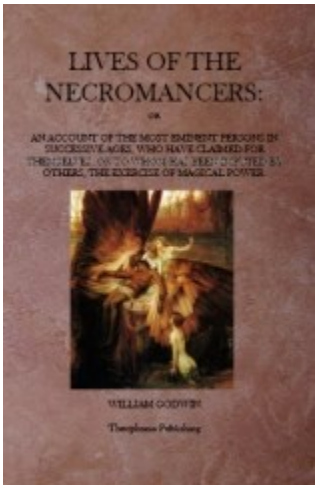
Literary Taste:
How to Form It
With Detailed Instructions for Collecting a Complete Library of English Literature
Theophania Publishing

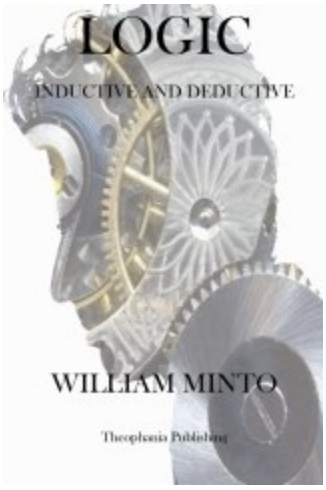
Literary Taste How To Form It
By Arnold Bennett
94 Pages, $17.24 USD, ISBN: 1469930846
At the beginning a misconception must be removed from the path. Many people, if not most, look on literary taste as an elegant accomplishment, by acquiring which they will complete themselves, and make themselves finally fit as members of a correct society. They are secretly ashamed of their ignorance of literature, in the same way as they would be ashamed of their ignorance of etiquette at a high entertainment, or of their inability to ride a horse if suddenly called upon to do so. There are certain things that a man ought to know, or to know about, and literature is one of them, such is their idea.



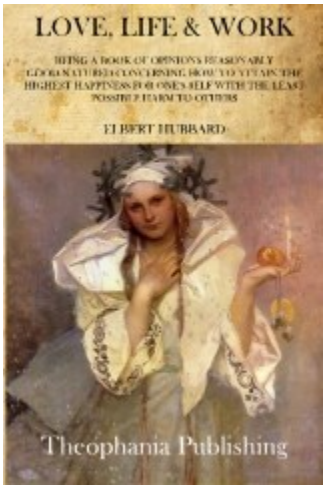
Lives Of Poor Boys Who Became Famous
By Sarah K. Bolton
336 Pages, $23.24 USD, ISBN: 1770832890
These characters have been chosen from various countries and from varied professions, that the youth who read this book may see that poverty is no barrier to success. It usually develops ambition, and nerves people to action. Life at best has much of struggle, and we need to be cheered and stimulated by the careers of those who have overcome obstacles. If Lincoln and Garfield, both farmer-boys, could come to the Presidency, then there is a chance for other farmer boys.



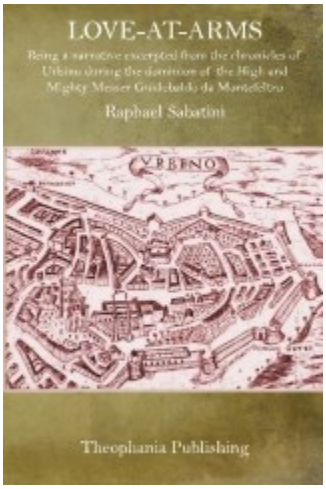
Lives of the Necromancers
By William Godwin
314 Pages, $30.24 USD, ISBN: 1770830340
The main purpose of this book is to exhibit a fair delineation of the credulity of the human mind. Such an exhibition cannot fail to be productive of the most salutary lessons. One view of the subject will teach us a useful pride in the abundance of our faculties. Without pride man is in reality of little value. It is pride that stimulates us to all our great undertakings. Without pride, and the secret persuasion of extraordinary talents, what man would take up the pen with a view to produce an important work, whether of imagination and poetry, or of profound science, or of acute and subtle reasoning and intellectual anatomy?



Logic Inductive and Deductive
By William Minto
362 Pages, $25.24 USD, ISBN: 1469934264
In this little treatise two things are attempted that at first might appear incompatible. One of them is to put the study of logical formulæ on a historical basis. Strangely enough, the scientific evolution of logical forms, is a bit of history that still awaits the zeal and genius of some great scholar. I have neither ambition nor qualification for such a magnum opus, and my life is already more than half spent; but the gap in evolutionary research is so obvious that doubtless some younger man is now at work in the field unknown to me. All that I can hope to do is to act as a humble pioneer according to my imperfect lights.



Love, Life & Work
By Elbert Hubbard
118 Pages, $16.24 USD, ISBN: 1515365700
By exercise of its faculties the spirit grows, just as a muscle grows strong thru continued use. Expression is necessary. Life is expression, and repression is stagnation—death. Yet, there can be right and wrong expression. If a man permits his life to run riot and only the animal side of his nature is allowed to express itself, he is repressing his highest and best, and the qualities not used atrophy and die. Men are punished by their sins, not for them. Sensuality, gluttony, and the life of license repress the life of the spirit, and the soul never blossoms; and this is what it is to lose one's soul. All adown the centuries thinking men have noted these truths, and again and again we find individuals forsaking in horror the life of the senses and devoting themselves to the life of the spirit. This question of expression through the spirit, or through the senses—through soul or body—has been the pivotal point of all philosophy and the inspiration of all religion.

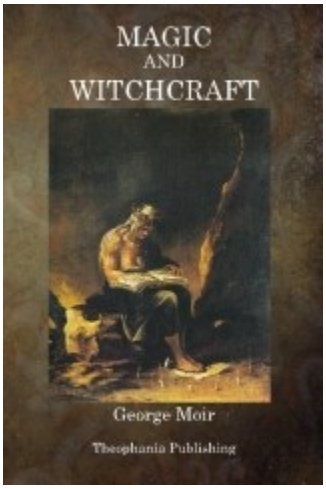


Love-At-Arms: Being a narrative excerpted from the chronicles of Urbino during the dominion of the High and Mighty Messer Guidobaldo da Montefeltro

By Raphael Sabatini

348 Pages, $23.24 USD, ISBN: 1519363400

From the valley, borne aloft on the wings of the evening breeze, rose faintly the tolling of an Angelus bell, and in a goat-herd's hut on the heights above stood six men with heads uncovered and bowed, obeying its summons to evening prayer. A brass lamp, equipped with three beaks, swung from the grimy ceiling, and, with more smoke than flame, shed an indifferent light, and yet a more indifferent smell, throughout the darkening hovel.

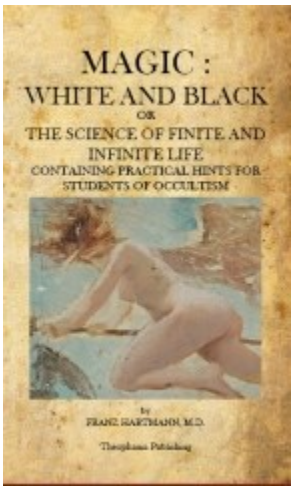


Magic and Witchcraft

By George Moir

94 Pages, $16.24 USD, ISBN: 1515277461

We have long wished that some English or foreign university would offer a prize for a history of Magic and Witchcraft. The records of human opinion would contain few chapters more instructive than one which should deal competently with the Black Art. For gross and painful as the details of superstition may be, yet superstition, by its very etymology, implies a dogma or a system of practice standing upon some basis of fact or truth: and however vain or noxious the superstructure may be, the foundation of it is in some way connected with those deep verities upon which rest also the roots of philosophy and religion.

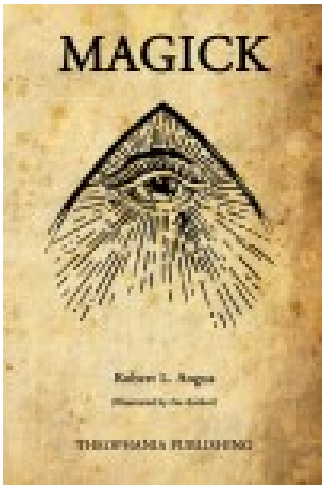


Magic: White and Black: The Science of Finite and Infinite Life

By Franz Hartmann

328 Pages, $30.24 USD, ISBN: 1926842723

This book was originally written for the purpose of disenchanting certain credulous inquirers, who fancied that the exercise of spiritual powers could be taught by teaching them certain incantations and formulas. It was to prove that spiritual powers must be developed before they can be exercised, and to explain the conditions necessary for their development. Since the appearance of the previous edition, a little additional knowledge, gained by the experiences of my own inner life, has enabled me to make certain corrections; to sift out much of what was irrelevant, and to remodel a great deal of what was incorrectly expressed. Moreover in this edition an attempt has been made to answer the numerous questions which have been addressed to me by the readers of "Magic".

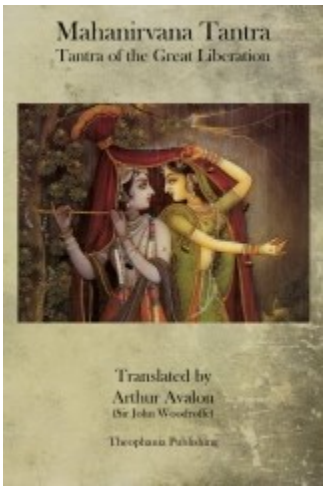


Magick

By Robert L. Angus

77 Pages, $19.99 USD, ISBN: B0CS9YB538

Throughout his life, Robert L. Angus has pursued the study of esoteric and occult subjects from various world religions, cultures, and societies, both ancient and modern. His fundamental perspective is generally less focused upon the religious, spiritual or supernatural aspects of methods and practice, but more on the functional and psychological ideas which are exerienced by the practitioners of various magical systems, similarities of meaning and usage, their intricate symbols and cyphers, styles of language and ceremony, the mythological and literary forms which they draw upon, as well as the historic influences that have shaped modern ideas and concepts which live on today as abstract and sometimes overlooked allegorical elements of design and spiritual practice, the meanings of which are often hidden and forgotten by generations...



Mahanirvana Tantra

By Arthur Avalon

426 Pages, $25.24 USD, ISBN: 1770832904

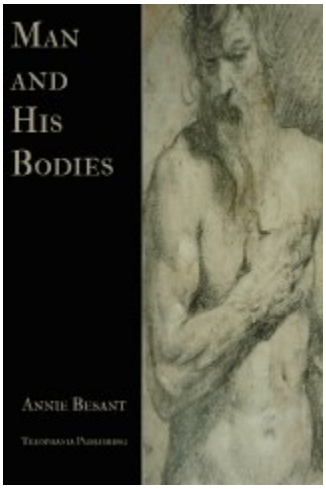
THE Indian Tantras, which are numerous, constitute the Scripture (Shastra) of the Kaliyuga, and as such are the voluminous source of present and practical orthodox "Hinduism." The Tantra Shastra is, in fact, and whatever be its historical origin, a development of the Vaidika Karmakanda, promulgated to meet the needs of that age. Shiva says: "For the benefit of men of the Kali age, men bereft of energy and dependent for existence on the food they eat, the Kaula doctrine, O auspicious one! Is given" (Chap. IX., verse 12).

Malleus Maleficarum: Hammer of the Witches

By Heinrich Kramer

552 Pages, $29.24 USD, ISBN: 1770831754

The Malleus Maleficarum (Latin for "Hammer of the Witches", or "Der Hexenhammer" in German) is a famous treatise on witches, written in 1486 by Heinrich Kramer, an Inquisitor of the Catholic Church, and was first published in Germany in 1487. Jacob Sprenger is also often attributed as an author, but some scholars now believe that he became associated with the Malleus Maleficarum largely as a result of Kramer's wish to lend his book as much official authority as possible. In 1484 Kramer made one of the first attempts at a systematic persecution of witches in the region of Tyrol. It was not a success, Kramer was thrown out of the territory, and dismissed by the local bishop as a "senile old man".



Man and His Bodies

By Annie Besant

110 Pages, $15.24 USD, ISBN: 1478343753

FEW words are needed in sending this little book out into the world. It is the seventh of a series of Manuals designed to meet the public demand for a simple exposition of theosophical teaching. Some have complained that our literature is ,at once too abstruse, too technical, and too expensive for the ordinary reader, and it is our hope that the present series may succeed in supplying what is a very real want. Theosophy is not only for the learned; it is for all. It may be that among those who in these little books catch their first glimpse of its teachings, there may be a few who will be led by them to penetrate more deeply into its philosophy, its science, and its religion, facing its abstruser problems with the student's zeal and the neophyte's ardour.

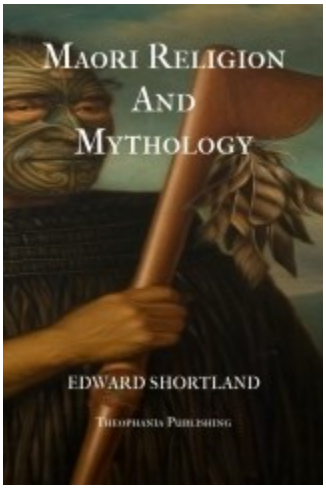
Manual of Zen Buddhism

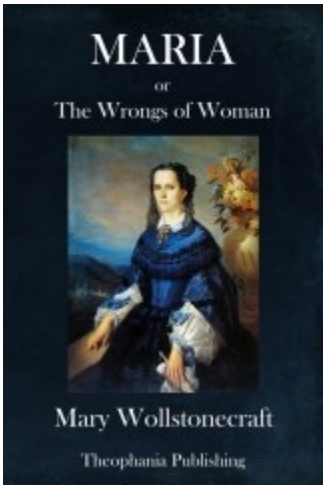
By Daisetz Teitaro Suzuki

192 Pages, $18.24 USD, ISBN: 1479182842

Of Zen itself I need say nothing here, but the increasing sale of books on the subject, such as The Spirit of Zen by Alan Watts (Murray), and the series of original translations of Chinese Zen Scriptures and other works published by the Buddhist Society prove that the interest of the West is rising rapidly. Zen, however, is a subject extremely easy to misunderstand, and it is therefore important that the words of a qualified Master should come readily to hand.



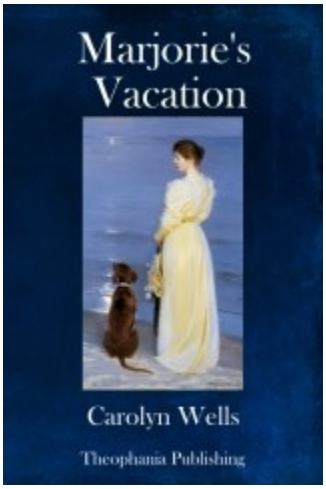
Maori Religion And Mythology
By Edward Shortland
106 Pages, $16.24 USD, ISBN: 1475256914
THE Maori MSS. of which translations are now published were collected by the author many years ago. The persons through whom the MSS. were obtained are now, with one exception, no longer living. They were all of them men of good birth, and competent authorities. One who could write sent me, from time to time, in MS. such information as he himself possessed, or he could obtain from the tohunga, or wise men of his family. Chapters iii. and iv. contain selections from information derived from this source. The others not being sufficiently skilled in writing, it was necessary to take: down their information from dictation.



Maria: Or, the Wrongs of Woman
By Mary Wollstonecraft
246 Pages, $20.25 USD, ISBN: 1981742905
THE WRONGS OF WOMAN, like the wrongs of the oppressed part of mankind, may be deemed necessary by their oppressors: but surely there are a few, who will dare to advance before the improvement of the age, and grant that my sketches are not the abortion of a distempered fancy, or the strong delineations of a wounded heart. In writing this novel, I have rather endeavoured to pourtray passions than manners. In many instances I could have made the incidents more dramatic, would I have sacrificed my main object, the desire of exhibiting the misery and oppression, peculiar to women, that arise out of the partial laws and customs of society. In the invention of the story, this view restrained my fancy; and the history ought rather to be considered, as of woman, than of an individual.

Marjorie At Seacote
By Carolyn Wells
304 Pages, $22.25 USD, ISBN: 1981712119
"Kitty-Cat Kitty is going away, Going to Grandma's, all summer to stay. And so all the Maynards will weep and will bawl, Till Kitty-Cat Kitty comes home in the fall." This affecting ditty was being sung with great gusto by King and Marjorie, while Kitty, her mood divided between smiles and tears, was quietly appreciative. The very next day, Kitty was to start for Morristown, to spend the summer with Grandma Sherwood, and to-night the "Farewell Feast" was to be celebrated. Every year one of the Maynard children spent the summer months with their grandmother, and this year it was Kitty's turn.

Marjorie In Command
By Carolyn Wells
320 Pages, $22.25 USD, ISBN: 1981518959
“Well,” said Marjorie, “I think it’s too perfectly, awfully, horribly dreadful for anything in all this world!” “I do, too,” agreed King. “It’s a calamity, and a catastrophe and a cat,—a cata—cataclysm!” “Of course it is,” said Kitty, who was philosophical. “But as it’s all settled, and we’ve got to live through it, we may as well make the best of it.” “The best of it!” grumbled King; “there isn’t any best! It’s all outrageously horrid, and that’s all there is about it! I don’t see how we can stand it.” “S’pose we say we just won’t stand it,” suggested Marjorie; “do you think they’d stay home?” “No, indeedy!” declared King. “You know as well as I do, the tickets are bought, and everything is arranged for.” “Even us,” said Kitty, sadly. “Yes; even us,” repeated her brother. “And how are we arranged for? Left in charge of Larkin! Old Loony Larkin!”



Marjorie's Vacation

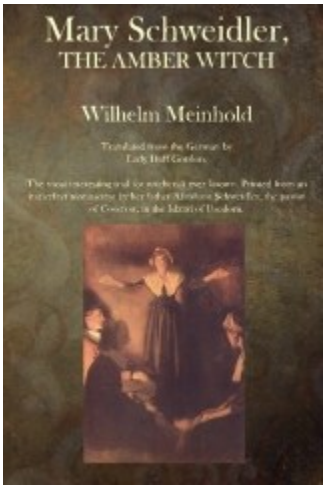
Mary Queen of Scots
By Jacob Abbott
192 Pages, $18.24 USD, ISBN: 1515365603
OF THE unfortunates of history, few touch our sympathies so deeply as Mary Queen of Scots, though perhaps in so doing we allow her beauty, her grace and her rare accomplishments to influence us too strongly, for history cannot acquit her of grave error. Half French by birth and wholly French by education, she dazzled the brilliant court of which she became queen, when suddenly her gorgeous diadem vanished, and she was torn from her beloved France to be thrust upon stern and rugged Scotland.



Mary Schweidler, The Amber Witch
By Wilhelm Meinhold
212 Pages, $19.24 USD, ISBN: 1515291324
Not alone is the demoniacal character, which pervades nearly all these fearful stories, so deeply marked, as to fill the attentive reader with feelings of alternate horror and dismay, but the eternal and unchangeable laws of human feeling and action are often arrested in a manner so violent and unforeseen, that the understanding is entirely baffled. For instance, one of the original trials which a friend of mine, a lawyer, discovered in our province, contains the account of a mother, who, after she had suffered the torture, and received the holy Sacrament, and was on the point of going to the stake, so utterly lost all maternal feeling, that her conscience obliged her to accuse as a witch her only dearly-loved daughter, a girl of fifteen, against whom no one had ever entertained a suspicion, in order, as she said, to save her poor soul.

Masonic Monitor
By George Thornburgh
180 Pages, $18.24 USD, ISBN: 1478155493
This Monitor has been prepared in obedience to that resolution. The book is the child of my heart and mind. A love for the cause inspired its preparation. It goes to the craft with my earnest prayers that it may cause a more general and closer study of the beautiful ceremonies of the first three degrees, which are the foundation of all true Freemasonry. I dedicate the book to the Masons of Arkansas, who have so often and so kindly honored me above my merit.

Mastery of Self

By Frank Channing Haddock

96 Pages, $16.24 USD, ISBN: 1478155507

This book brings to a close that portion of MASTERY OF SELF, which deals with the art of Success-Magnetism. Acquiring magnetism is a constructive effort. It is a building process. You are rearing a structure. You rise, from the foundation, through successive stories to the culminating peak. The most pleasing, notable structures men build from granite and steel and wood, tower like a Woolworth Building or a Rheims Cathedral, higher and higher, until they finally reach a gold- tipped crown or spire, high in the sunlit sky.

Medieval English Nunneries

By Eileen Power

750 Pages, $35.24 USD, ISBN: 1478155523

There is only too much truth in the frequent complaint that history, as compared with the physical sciences, is neglected by the modern public. But historians have the remedy in their own hands; choosing problems of equal importance to those of the scientist, and treating them with equal accuracy, they will command equal attention. Those who insist that the proportion of accurately ascertainable facts is smaller in history, and therefore the room for speculation wider, do not thereby establish any essential distinction between truth-seeking in history and truth-seeking in chemistry. The historian, whatever be his subject, is as definitely bound as the chemist “to proclaim certainties as certain, falsehoods as false, and uncertainties as dubious.” Those are the words, not of a modern scientist, but of the seventeenth century monk, Jean Mabillon; they sum up his literary profession of faith.

By Marcus Aurelius

236 Pages, $20.24 USD, ISBN: 1770831762

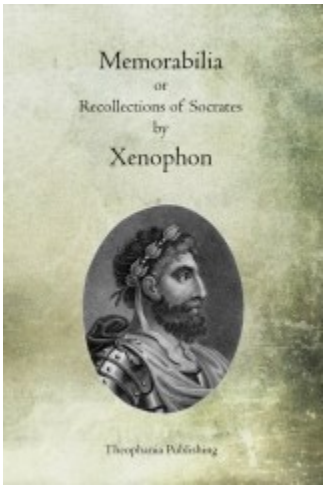
Marcus Aurelius' work Meditations, written in Greek while on campaign between 170 and 180, is still revered as a literary monument to a philosophy of service and duty, describing how to find and preserve equanimity in the midst of conflict by following nature as a source of guidance and inspiration. The meditations serve as an example of how Aurelius approached the Platonic ideal of a philosopher-king and how he symbolized much of what was best about Roman civilization.

Meditations on First Philosophy

By Rene Descartes

114 Pages, $17.24 USD, ISBN: 1469934299

The motive which impels me to present this Treatise to you is so reasonable, and when you shall learn its design, I am confident that you also will consider that there is ground so valid for your taking it under your protection, that I can in no way better recommend it to you than by briefly stating the end which I proposed to myself in it. I have always been of the opinion that the two questions respecting God and the Soul were the chief of those that ought to be determined by help of Philosophy rather than of Theology; for although to us, the faithful, it be sufficient to hold as matters of faith, that the human soul does not perish with the body, and that God exists, it yet assuredly seems impossible ever to persuade infidels of the reality of any religion, or almost even any moral virtue, unless, first of all, those two things be proved to them by natural reason.

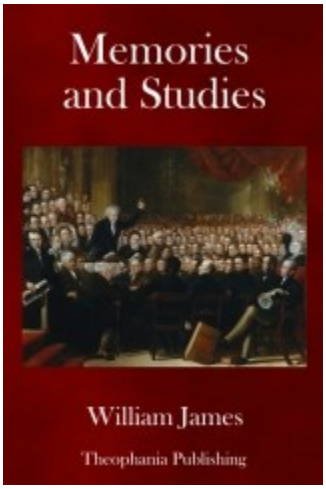


Memorabilia: Recollections of Socrates

By Xenophon

328 Pages, $22.24 USD, ISBN: 1468023497

I have often wondered by what arguments those who indicted Socrates could have persuaded the Athenians that his life was justly forfeit to the state. The indictment was to this effect: “Socrates is guilty of crime in refusing to recognise the gods acknowledged by the state, and importing strange divinities of his own; he is further guilty of corrupting the young.” In the first place, what evidence did they produce that Socrates refused to recognise the gods acknowledged by the state? Was it that he did not sacrifice? or that he dispensed with divination? On the contrary, he was often to be seen engaged in sacrifice, at home or at the common altars of the state. Nor was his dependence on divination less manifest. Indeed that saying of his, “A divinity gives me a sign,” was on everybody’s lips.



Memories and Studies

By William James

310 Pages, $22.25 USD, ISBN: 1979343462

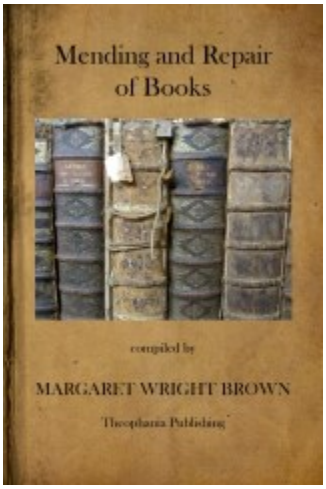
It would be unnatural to have such an assemblage as this meet in the Museum and Faculty Room of this University and yet have no public word spoken in honor of a name which must be silently present to the minds of all our visitors. At some near future day, it is to be hoped some one of you who is well acquainted with Agassiz's scientific career will discourse here concerning it,—I could not now, even if I would, speak to you of that of which you have far more intimate knowledge than I. On this social occasion it has seemed that what Agassiz stood for in the way of character and influence is the more fitting thing to commemorate, and to that agreeable task I have been called. He made an impression that was unrivalled.

Men, Manners and Critics

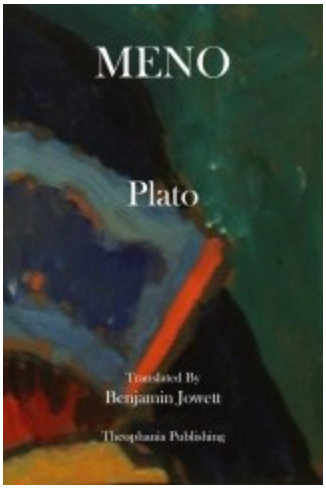
By Anonymous

52 Pages, $16.24 USD, ISBN: 1515277380

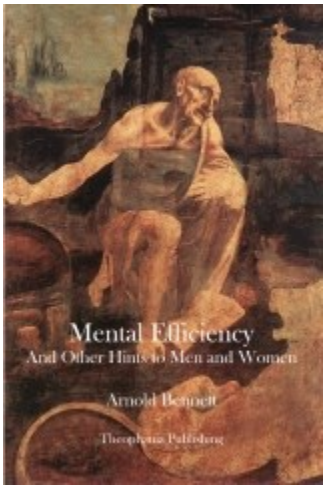
The anonymous essay "Of Genius," which appeared in the Occasional Paper of 1719, still considers "genius" largely a matter of aptitude or talent, and applies the term to the "mechanick" as well as the fine arts. The work is, in fact, essentially a pamphlet on education. The author's main concern is training, and study, and conscious endeavor. Naturally enough, his highest praise—even where poetry is in question—is reserved for those solid Augustan virtues of "judgment" and "good sense." And yet the pamphlet reveals some of the tangled roots from which the later concept of the "original" or "primitive" genius grew.



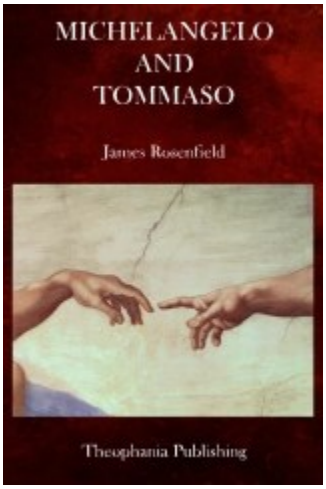
Mending and Repair of Books
By Margaret Wright Brown
42 Pages, $16.24 USD, ISBN: 147503671X
THE task of mending demands so much of the time and energy of library workers and is a factor of such economic importance in every public library that it cannot be put aside as incidental. It is hoped that these suggestions may give definite aid in this homely task which is ever present in all libraries. No attempt has been made to give instruction in the advanced processes of mending, as this at once encroaches on the art of binding. The best mending can be done only where an acquaintance with the construction of the book has been acquired through a study of the various processes of binding. Librarians are urged to visit binderies to see the various processes; and to study the art of binding under personal instruction of experienced binders whenever this is feasible.



Meno
By Plato
84 Pages, $16.24 USD, ISBN: 1475006594
This Dialogue begins abruptly with a question of Meno, who asks, 'whether virtue can be taught.' Socrates replies that he does not as yet know what virtue is, and has never known anyone who did. 'Then he cannot have met Gorgias when he was at Athens.' Yes, Socrates had met him, but he has a bad memory, and has forgotten what Gorgias said. Will Meno tell him his own notion, which is probably not very different from that of Gorgias? 'O yes—nothing easier: there is the virtue of a man, of a woman, of an old man, and of a child; there is a virtue of every age and state of life, all of which may be easily described.'



Mental Efficiency: And Other Hints
By Arnold Bennet
76 Pages, $16.24 USD, ISBN: 1480081108
If there is any virtue in advertisements—and a journalist should be the last person to say that there is not—the American nation is rapidly reaching a state of physical efficiency of which the world has probably not seen the like since Sparta. In all the American newspapers and all the American monthlies are innumerable illustrated announcements of "physical-culture specialists," who guarantee to make all the organs of the body perform their duties with the mighty precision of a 60 h.p. motor-car that never breaks down.

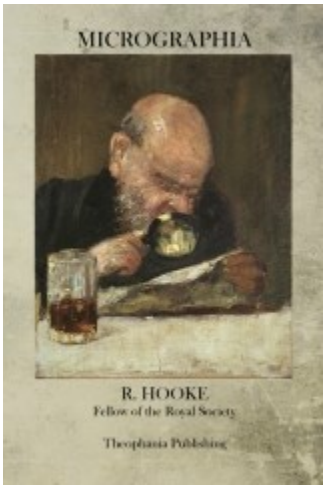


Michelangelo and Tommaso

By James Rosenfield

250 Pages, $20.24 USD, ISBN: 1517031060

This play is the telling of a 32-year-long love story between two men, which has been suppressed by the Catholic Church for 500 years. Tommaso de Cavalieri, 17-year-old Roman nobleman and artistic aspirant, was acclaimed as the most beautiful youth in Italy. He met the lonely Michelangelo di Lodovico Buonarroti in 1532 during a Pope's dinner. An immediate passion between them led to the inspiration for Michelangelo's most magnificent love sonnets, enflamed letters, and the drawings of the "Rape of Ganymede," "Tityos," and the "Fall of Phaeton." Tommaso modeled for the only life-sized portrait Michel ever drew, now mysteriously disappeared, the "Victory" statue, and, ironically, the figure of the angry Christ in "The Last Judgment." The story of their passionate relationship is told by Tommaso's lifetime friend, the Papal bastard, Enrico Cardinal Farnese. Although the age when they lived was the sunset of the glorious Roman Renaissance, when "Greek" love was more or less the norm, the couple faced the chasms of intergenerational and religious differences. Michel very closely followed medieval Catholicism, while Tommaso was a secular worshipper of Zeus. The couple also faced Michel's penchant for very young men, Tommaso's hidden vein of violence, a vicious blackmailing scheme, and Pope Paul III's command that Tommaso marry and beget a legitimate heir. It was Tommaso's wife who launched a terrifying betrayal to the Inquisition.



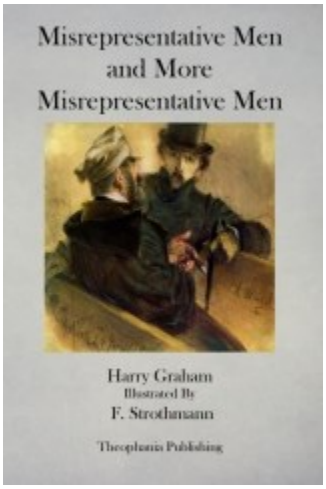
Micrographia

By R. Hooke

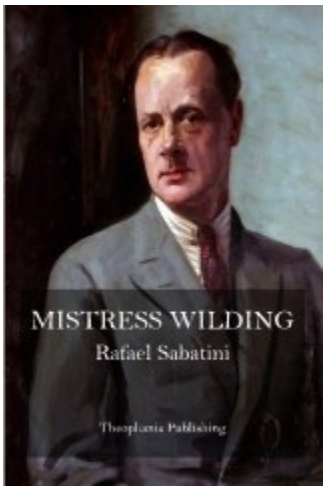
490 Pages, $27.24 USD, ISBN: 1470079038

Published under the aegis of The Royal Society, the popularity of the book helped further the society's image and mission of being the scientifically progressive organization of London. Micrographia also focused attention on the miniature world, capturing the public's imagination in a radically new way. This impact is illustrated by Samuel Pepys' reaction upon completing the tome: the most ingenious book that I ever read in my life. Hooke also selected several objects of human origin; among these objects were the jagged edge of a honed razor and the point of a needle, seeming blunt under the microscope.

Mind and Motion and Monism
By George John Romanes
116 Pages, $17.24 USD, ISBN: 1469934310
Of the contents of this little volume the section on Mind and Motion which forms, in accordance with a suggestion of the author's, a general introduction, was delivered at Cambridge as the Rede Lecture in 1885, and was printed in the Contemporary Review for June in that year. The chapter on The World as an Eject was published, almost as it now stands, in the Contemporary Review for July, 1886. A paper on The Fallacy of Materialism, of which Mr. Romanes incorporated the more important parts in the Essay on Monism, was contributed to the Nineteenth Century for December, 1882.



Misrepresentative Men and More Misrepresentative Men
By Harry Graham
106 Pages, $16.24 USD, ISBN: 1475006675
One single favour do I crave, Which is that You regard my pen As Your devoted humble slave. Most fortunate shall I be then Of mortal men; For what more happiness ensures Than work in service such as Yours? Should You be pleased, at any time, To dip into this shallow brook Of simple, unpretentious rhyme, Or chance with fav'ring smile to look Upon my book; Don't mention such a fact out loud, Or haply I shall grow too proud! Accept these verses then, I pray, Disarming press and public too, For what can hostile critics say? What else is left for them to do, Because of You, But view with kindness this collection, Which bears the seal of Your protection?



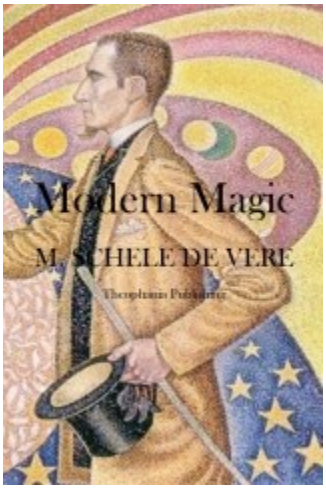
Mistress Wilding
By Rafael Sabatini
372 Pages, $24.24 USD, ISBN: 1519363346
Then drink it thus, cried the rash young fool, and splashed the contents of his cup full into the face of Mr. Wilding even as that gentleman, on his feet, was proposing to drink to the eyes of the young fool's sister. The moments that followed were full of interest. A stillness, a brooding, expectant stillness, fell upon the company—and it numbered a round dozen—about Lord Gervase's richly appointed board. In the soft candlelight the oval table shone like a deep brown pool, in which were reflected the gleaming silver and sparkling crystal that seemed to float upon it. Blake sucked in his nether-lip, his florid face a thought less florid than its wont, his prominent blue eyes a thought more prominent.

Moby Dick

By Herman Melville

638 Pages, $32.24 USD, ISBN: 1519363230

Call me Ishmael. Some years ago—never mind how long precisely—having little or no money in my purse, and nothing particular to interest me on shore, I thought I would sail about a little and see the watery part of the world. It is a way I have of driving off the spleen and regulating the circulation. Whenever I find myself growing grim about the mouth; whenever it is a damp, drizzly November in my soul; whenever I find myself involuntarily pausing before coffin warehouses, and bringing up the rear of every funeral I meet; and especially whenever my hypos get such an upper hand of me, that it requires a strong moral principle to prevent me from deliberately stepping into the street, and methodically knocking people's hats off—then, I account it high time to get to sea as soon as I can.



Modern Magic

By M. Schele De Vere

386 Pages, $25.24 USD, ISBN: 1469934337

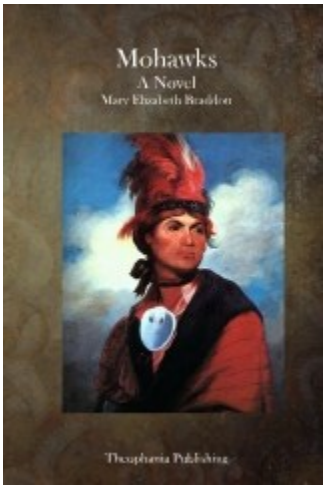
The main purpose of our existence on earth—aside from the sacred and paramount duty of securing our salvation—is undoubtedly to make ourselves masters of the tangible world around us, as it stands revealed to our senses, and as it was expressly made subject to our will by the Creator. We are, however, at the same time, not left without information about the existence of certain laws and the occurrence of certain phenomena, which belong to a world not accessible to us by means of our ordinary senses, and which yet affect seriously our intercourse with Nature and our personal welfare.

Mohammedanism

By C. Snouck Hurgronje

124 Pages, $16.24 USD, ISBN: 1478155566

There are more than two hundred million people who call themselves after the name of Mohammed, would not relinquish that name at any price, and cannot imagine a greater blessing for the remainder of humanity than to be incorporated into their communion. Their ideal is no less than that the whole earth should join in the faith that there is no god but Allah and that Mohammed is Allah's last and most perfect messenger, who brought the latest and final revelation of Allah to humanity in Allah's own words.

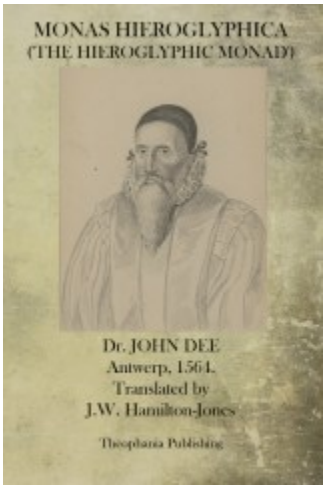


Mohawks

By Mary Elizabeth Braddon

518 Pages, $28.24 USD, ISBN: 1515352463

This had all happened about a fortnight before that September morning when the fatherless baby was found sleeping so peacefully beside the dead. The Squire had shrunk from introducing a stranger's brat into that stately desolate home of his, which it had been the business of his later years to keep closed against all the world. In his solitary rides he had reconnoitred many a farmer's homestead where children swarmed; he had looked in upon his gamekeeper's and gardener's cottages, where it seemed to him there was ever a plethora of babies; but he could not bring himself to invite one of these superfluous brats to take up its abode with him, to lie cheek by jowl with his dead wife's fair young daughter—a child whose lineage was alike ancient and honourable on the side of mother and father.



Monas Hieroglyphica

By Dr. John Dee

44 Pages, $16.24 USD, ISBN: 1770832912

By these indications and signs, for which they should be very thankful, they themselves will be able to take vengeance on their enemy. And I affirm (O King!) that it is not Aesop but Oedipus who prompts me, for he presented these things to worthy souls, and ventured for the first time to speak of these supreme mysteries of Nature. I know perfectly well that there have been certain men who, by the art of the scarab, have dissolved the eagle's egg and its shell with pure albumen and have formed thereby a mixture of all; afterwards they have reduced this mixture to a yellow liquid, by a notable process, viz. by a ceaseless circulation just as the scarabs roll their balls of earth.

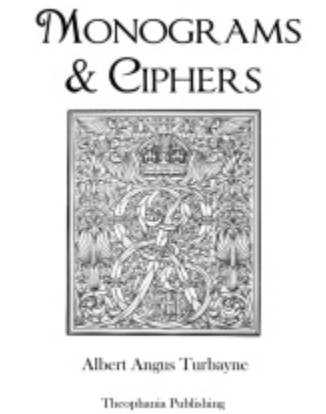
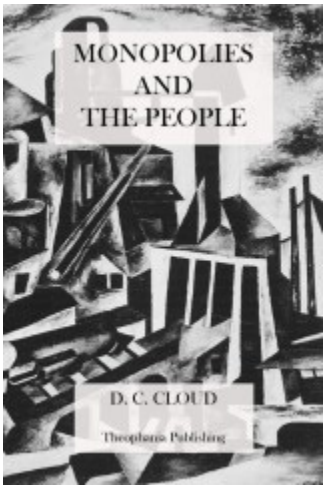
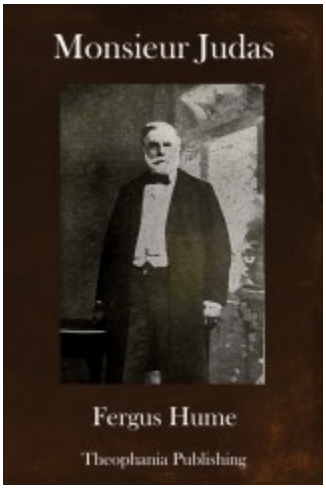
Monks, Popes and their Political Intrigues
By John Alberger
394 Pages, $24.24 USD, ISBN: 151536576X
That the Holy Catholic Church is artfully constituted to subjugate all secular and ecclesiastical power under its authority, and that its object is not to advance the interests of moral goodness, but to acquire temporal dominion, must be admitted by every one that fully comprehends the principles upon which its religious Orders are organized. These Orders were founded by Catholic saints and Bishops. They have been confirmed by Popes and Councils. And though they have been suppressed, on account of their corrupt tendency and political intrigues, in kingdom after kingdom, yet in pontifical bulls they have been defended as being the most useful and pious class of the Catholic community.



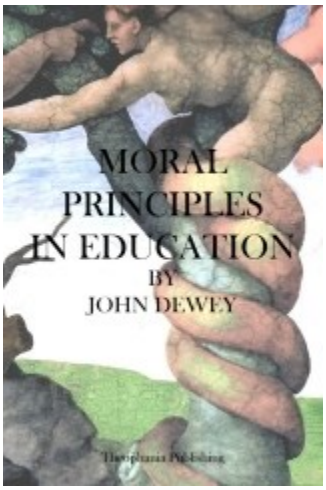
Monograms & Ciphers
By Albert Angus Turbayne
152 Pages, $15.24 USD, ISBN: 1480119296
There is to-day a growing taste for severe chaste forms in printing types and lettering; the same influence is also directing a change of style in the more decorative Monogram and Cipher. The florid combinations of the last two centuries are gradually falling into disuse, and are giving place to the very simplest forms. The aim of the present work is towards simplicity, but in order that the book may appeal to various tastes, and thus be of greater value, examples of many styles are included. Each of these styles, while based on some familiar form which has long been in use, has had its pruning, and as much of the superfluous flourish not necessary to letter or design has been discarded.



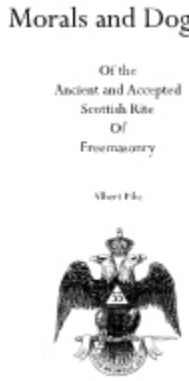
Monopolies And The People
By D. C. Cloud
490 Pages, $27.24 USD, ISBN: 1475036779
For two years past the author has awaited the auspicious moment for presenting to the public his views upon the oppressions and abuses practiced by corporations and combinations of men who were apparently getting a controlling influence over the commerce, finances, and government of the country. Recent action on the part of the people has convinced him that his opportunity has come, and he embraces it. He has aimed to present a true history of the operations of the different monopolies.



Monsieur Judas
By Fergus Hume
354 Pages, $23.25 USD, ISBN: 1981853960
Not an important place by any means, this sleepy little town lying at the foot of a low range of undulating hills, beside a slow-flowing river. A square-towered church of Norman architecture, very ancient and very grim; one principal narrow street, somewhat crooked in its course; other streets, narrower and more crooked, leading off on the one side to the sheltering hills, and on the other down to the muddy stream. Market-place octagonal in shape, with a dilapidated stone cross of the Plantagenet period in the centre; squat stone bridge, with massive piers, across the sullen gray waters; on the farther shore a few red-roofed farmhouses; beyond, fertile pastoral lands and the dim outline of distant hills.



Moral Principles in Education
By John Dewey
38 Pages, $17.24 USD, ISBN: 1469934396
It is one of the complaints of the schoolmaster that the public does not defer to his professional opinion as completely as it does to that of practitioners in other professions. At first sight it might seem as though this indicated a defect either in the public or in the profession; and yet a wider view of the situation would suggest that such a conclusion is not a necessary one. The relations of education to the public are different from those of any other professional work. Education is a public business with us, in a sense that the protection and restoration of personal health or legal rights are not.



Morals and Dogma: Of the Ancient and Accepted Scottish Rite of Freemasonry

By Albert Pike

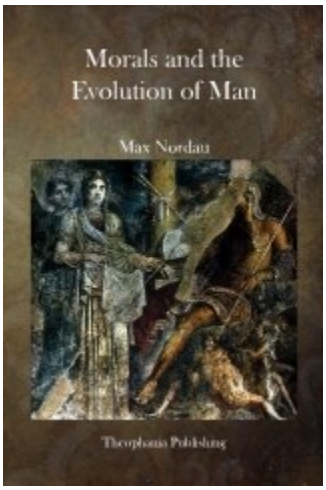
820 Pages, $37.24 USD, ISBN: 1478155612 Newly Revised and Illustrated (7 x 10 paperback)

The teachings of these Readings are not sacramental, so far as they go beyond the realm of Morality into those of other domains of Thought and Truth. The Ancient and Accepted Scottish Rite uses the word Dogma in its true sense, of doctrine, or teaching; and is not dogmatic in the odious sense of that term. Everyone is entirely free to reject and dissent from whatsoever herein may seem to him to be untrue or unsound. It is only required of him that he shall weigh what is taught, and give it fair hearing and unprejudiced judgment. Of course, the ancient theosophic and philosophic speculations are not embodied as part of the doctrines of the Rite; but because it is of interest and profit to know what the Ancient Intellect thought upon these subjects, and because nothing so conclusively proves the radical difference between our human and the animal nature, as the capacity of the human mind to entertain such speculations in regard to itself and the Deity.



Morals and the Evolution of Man

By Max Nordau

240 Pages, $20.24 USD, ISBN: 1515352471

The average man can act morally without first working out a clear picture of the future. It is enough that he has been trained to the habit of respecting current precepts, and of accepting the views obtaining in his circle as to what is good or bad, what is admissible or inadmissible. This morality, of course, is merely a matter of drill or training; it is unthinking automatism; it is inferior, and not to be compared with the living, creative morality of higher natures, which, as a sovereign law-giver, comes to an independent decision in every case and, like the guardian angel of childlike faith, guides man on his path through life, indicates the right course at the cross-roads, and warns him of pitfalls and stumbling-blocks.

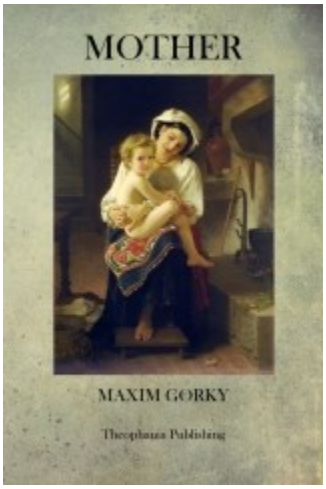
Morocco

By A.S. Forrest

232 Pages, $54.99 USD, ISBN: 1519363184

It has been a pleasant task to recall the little journey set out in the following pages, but the writer can hardly escape the thought that the title of the book promises more than he has been able to perform. While the real Morocco remains a half-known land to-day, this book does not take the traveller from the highroad. The mere idler, the wayfarer to whom Morocco is no more than one of many places of pilgrimage, must needs deal modestly with his task, even though modesty be an unfashionable virtue; and the painstaking folk who pass through this world pelting one another with hard facts will find here but little to add to their store of ammunition.

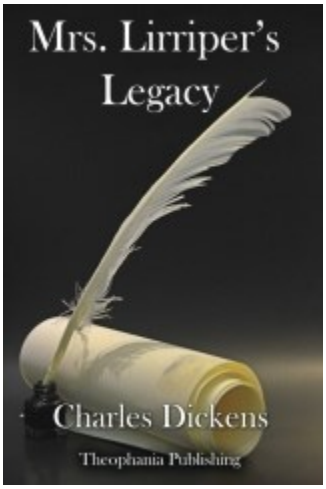


Mother

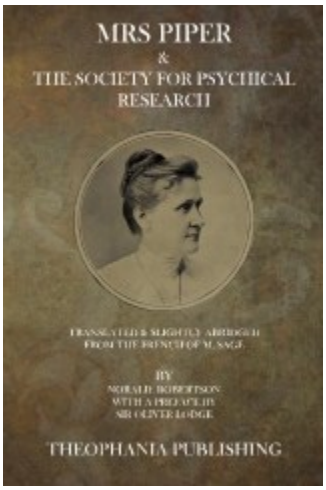
By Maxim Gorky

528 Pages, $28.24 USD, ISBN: 1475006705

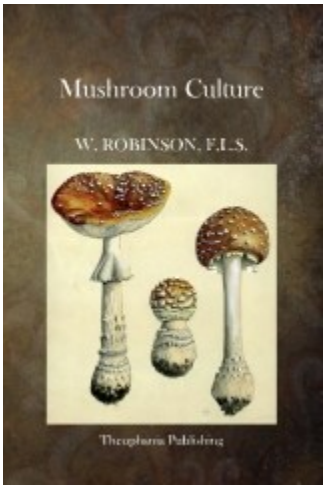
Every day the factory whistle bellowed forth its shrill, roaring, trembling noises into the smoke-begrimed and greasy atmosphere of the workingmen's suburb; and obedient to the summons of the power of steam, people poured out of little gray houses into the street. With somber faces they hastened forward like frightened roaches, their muscles stiff from insufficient sleep. In the chill morning twilight they walked through the narrow, unpaved street to the tall stone cage that waited for them with cold assurance, illumining their muddy road with scores of greasy, yellow, square eyes. The mud plashed under their feet as if in mocking commiseration.



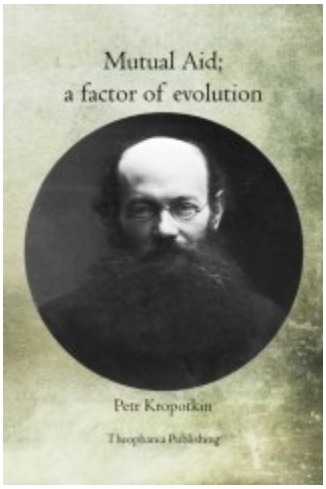
Mrs. Lirriper's Legacy
By Charles Dickens
56 Pages, $16.25 USD, ISBN: 1981201149
Ah! It's pleasant to drop into my own easy-chair my dear though a little palpitating what with trotting up-stairs and what with trotting down, and why kitchen stairs should all be corner stairs is for the builders to justify though I do not think they fully understand their trade and never did, else why the sameness and why not more conveniences and fewer draughts and likewise making a practice of laying the plaster on too thick I am well convinced which holds the damp, and as to chimney-pots putting them on by guess-work like hats at a party and no more knowing what their effect will be upon the smoke bless you than I do if so much, except that it will mostly be either to send it down your throat in a straight form or give it a twist before it goes there.



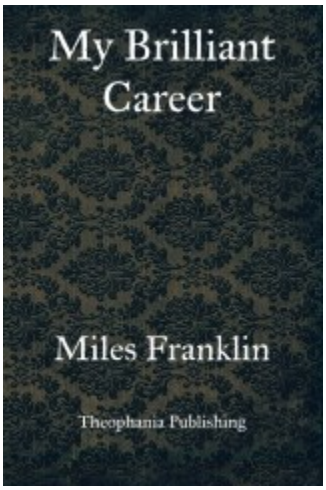
Mrs. Piper & The Society for Psychical Research
By M. Sage
194 Pages, $18.24 USD, ISBN: 1515365727
Perhaps the most remarkable, and certainly the most thorough, of all the investigations made under the auspices of this Society has been the case of the American lady, Mrs Piper; which, begun in 1887, has continued ever since, with only such intervals as were necessitated by the circumstances of the case. She was already known to the Professor of Psychology at Harvard and to some other American savants, but she was brought to the notice of the leaders of the English Society by Dr Richard Hodgson, who has been for some years, and is still, acting as its representative in America, and Secretary of its American Branch.



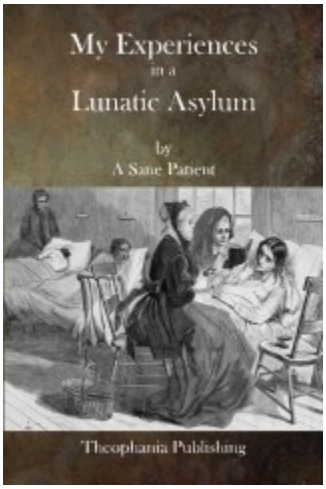
Mushroom Culture
By W. Robinson F.L.S.
170 Pages, $18.24 USD, ISBN: 1515365689
Mushroom Culture is but little practised in this country compared to the extent to which it ought to be, considering the abundance of the necessary materials in all parts of these islands, both in town and country, and the high estimation in which the Mushroom is held. I now refer to ordinary Mushroom Culture as practised in our best private gardens. I believe it possible and desirable to extend this, the only phase of the Culture that can be called popular, in a tenfold degree, and that every place in which a gardener and horses are kept should be abundantly supplied with Mushrooms throughout the greater part of the year.



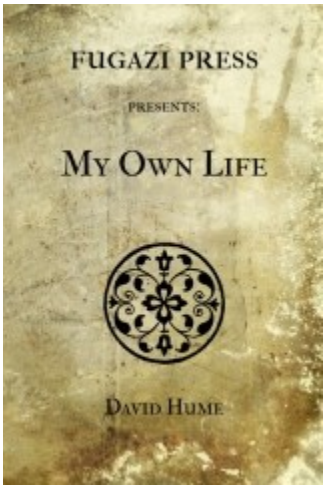
Mutual Aid: a factor of evolution
By Petr Kropotkin
324 Pages, $22.24 USD, ISBN: 1468023179
Two aspects of animal life impressed me most during the journeys which I made in my youth in Eastern Siberia and Northern Manchuria. One of them was the extreme severity of the struggle for existence which most species of animals have to carry on against an inclement Nature; the enormous destruction of life which periodically results from natural agencies; and the consequent paucity of life over the vast territory which fell under my observation. And the other was, that even in those few spots where animal life teemed in abundance, I failed to find, although I was eagerly looking for it, that bitter struggle for the means of existence, among animals belonging to the same species, which was considered by most Darwinists (though not always by Darwin himself) as the dominant characteristic of struggle for life, and the main factor of evolution.



My Brilliant Career
By Miles Franklin
296 Pages, $23.24 USD, ISBN: 1469934353
A few months before I left Australia I got a letter from the bush signed Miles Franklin, saying that the writer had written a novel, but knew nothing of editors and publishers, and asking me to read and advise. Something about the letter, which was written in a strong original hand, attracted me, so I sent for the MS., and one dull afternoon I started to read it. I hadn‘t read three pages when I saw what you will no doubt see at once that the story had been written by a girl. And as I went on I saw that the work was Australian born of the bush. I don‘t know about the girlishly emotional parts of the book I leave that to girl readers to judge; but the descriptions of bush life and scenery came startlingly, painfully real to me, and I know that, as far as they are concerned, the book is true to Australia — the truest I ever read.



My Experiences in a Lunatic Asylum
By A Sane Patient
102 Pages, $16.24 USD, ISBN: 1515352374
Sitting at my desk as I am sitting now, with the comforting pipe and jug of beer by my side (deadly poisons to me, both of them, I have been often assured), and with a profound and grateful sense of extreme physical wellbeing, it is difficult for me to believe that not so long ago I was pronounced to be suffering at different times or all at once from epilepsy, partial paralysis, fits, delusions, suicidal and homicidal mania, ‘voices’ (a very professional and dangerous piece of humbug, of which I shall have more to say presently), ‘visions’ (Anglicè, dreams), and the Lord knows what beside.

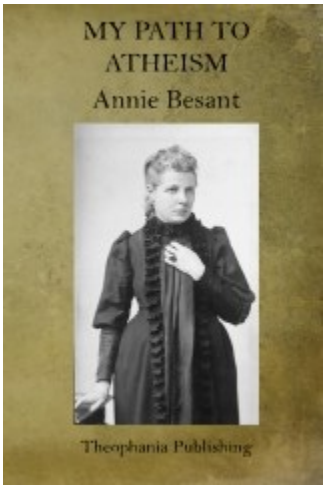


My Own Life

By David Hume FUGAZI PRESS

30 Pages, $16.24 USD, ISBN: 1477528636

It is difficult for a man to speak long of himself without vanity; therefore, I shall be short. It may be thought an instance of vanity that I pretend at all to write my life; but this Narrative shall contain little more than the History of my Writings; as, indeed, almost all my life has been spent in literary pursuits and occupations. The first success of most of my writings was not such as to be an object of vanity. I was born the 26th of April 1711, old style, at Edinburgh. I was of a good family, both by father and mother: my father's family is a branch of the Earl of Home's, or Hume's; and my ancestors had been proprietors of the estate, which my brother possesses, for several generations. My mother was daughter of Sir David Falconer, President of the College of Justice: the title of Lord Halkerton came by succession to her brother.

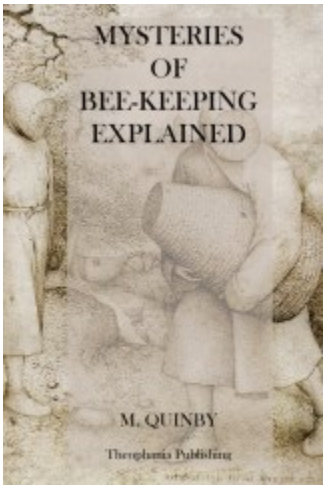


My Path to Atheism

By Annie Besant

306 Pages, $22.24 USD, ISBN: 1519363079

SOME time ago a Clergyman was proving to me by arguments many and strong that hell was right, necessary and just; that it brought glory to God and good to man; that the holiness of God required it as a preventive, and the justice of God exacted it as a penalty, of sin. I listened quietly till all was over and silence fell on the reverend denunciator; he ceased, satisfied with his arguments, triumphant in the consciousness that they were crushing and unassailable. But my eyes were fixed on the fair scene without the library window, on the sacrament of earth, the visible sign of the invisible beauty, and the contrast between God's works and the Church's speech came strongly upon me.



Mysteries of Bee-Keeping Explained

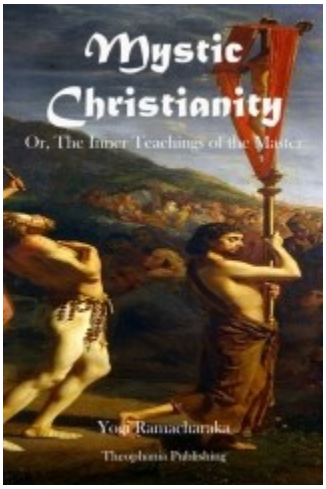
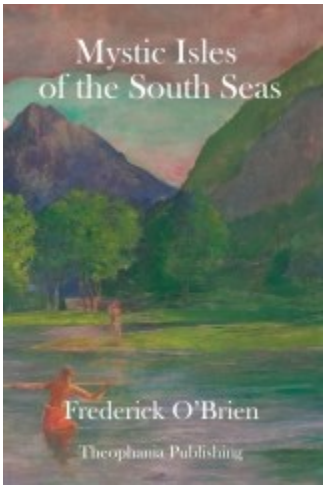
Mysteries of the Rosie Cross
By Their Leaders and Disciples
176 Pages, $18.24 USD, ISBN: 1515352161
In the following pages an attempt has been made to convey something like an intelligible idea of the peculiar mystic sect known to the readers of history, as the Rosicrucians. The subject is confessedly difficult, owing to the grossly absurd character of the writings left by the disciples of this body, and the secrecy with which they sought to surround their movements and clothe their words. Anything like a consecutive narration is an impossibility, the materials at hand being so fragmentary and disjointed. We have, however, done the best that we could with such facts as were within reach, and if we are not able to present so scientific and perfect a treatise as we might have hoped to do, we at least trust that the following contribution to the scanty literature treating of this matter will be found interesting, and will throw some light upon what is shrouded in such profound mystery.



Mystic Christianity
By Yogi Ramacharaka
236 Pages, $20.24 USD, ISBN: 1478155655
Strange rumors reached the ears of the people of Jerusalem and the surrounding country. It was reported that a new prophet had appeared in the valley of the lower Jordan, and in the wilderness of Northern Judea, preaching startling doctrines. His teachings resembled those of the prophets of old, and his cry of "Repent! Repent ye! for the Kingdom of Heaven is at hand," awakened strange memories of the ancient teachers of the race, and caused the common people to gaze wonderingly at each other, and the ruling classes to frown and look serious, when the name of the new prophet was mentioned.



Mystic Isles of the South Seas
By Frederick O'Brien
640 Pages, $32.25 USD, ISBN: 1979344418
This is a simple record of my days and nights, my thoughts and dreams, in the mystic isles of the South Seas, written without authority of science or exactitude of knowledge. These are merely the vivid impressions of my life in Tahiti and Moorea, the merriest, most fascinating world of all the cosmos; of the songs I sang, the dances I danced, the men and women, white and tawny, with whom I was joyous or melancholy; the adventures at sea or on the reef, upon the sapphire lagoon, and on the silver beaches of the most beautiful of tropics. In this volume are no discoveries unless in the heart of the human. I went to the islands below the equator with one thought—to play. All that I have set down here is the profit of that spirit.

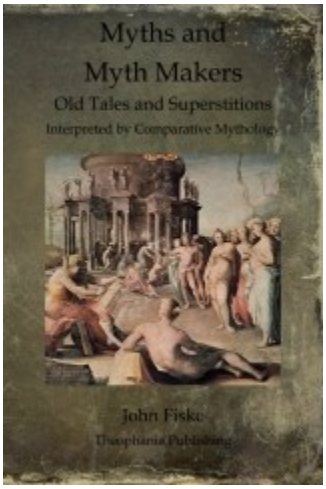
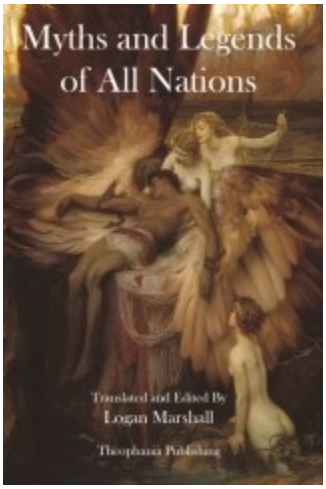
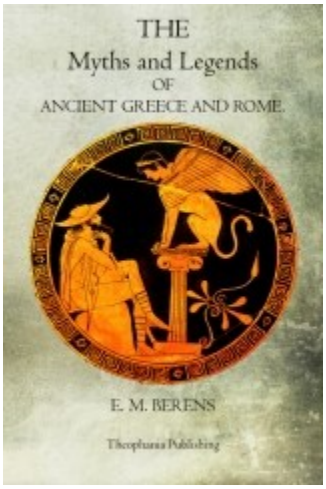
Perhaps the most remarkable, and certainly the most thorough, of all the investigations made under the auspices of this Society has been the case of the American lady, Mrs Piper; which, begun in 1887, has continued ever since, with only such intervals as were necessitated by the circumstances of the case. She was already known to the Professor of Psychology at Harvard and to some other American savants, but she was brought to the notice of the leaders of the English Society by Dr Richard Hodgson, who has been for some years, and is still, acting as its representative in America, and Secretary of its American Branch. A complete record of the whole investigation has not yet been published, but large portions of it have appeared from time to time in the Proceedings of the Society.



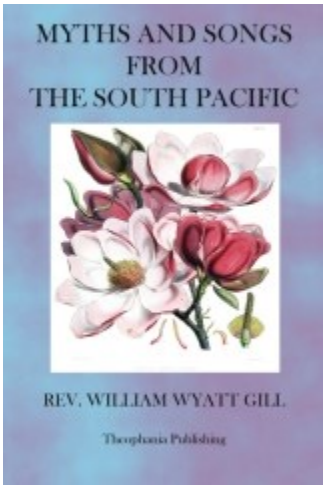
Myths and Myth Makers: Old Tales and Superstitions Interpreted
By Comparative Mythology
By John Fiske
256 Pages, $20.24 USD, ISBN: 1468023071
In treating of popular legends and superstitions, the paths of inquiry are circuitous enough, and seldom can we reach a satisfactory conclusion until we have travelled all the way around Robin Hood's barn and back again. I am sure that the reader would not have thanked me for obstructing these crooked lanes with the thorns and brambles of philological and antiquarian discussion, to such an extent as perhaps to make him despair of ever reaching the high road.



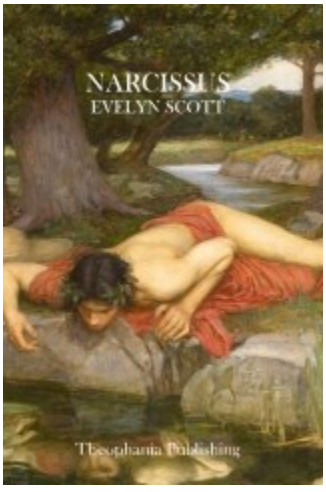
Myths and Legends of All Nations
By Logan Marshall
292 Pages, $21.24 USD, ISBN: 1478155760
The myths and legends here gathered together have appealed and will continue to appeal to every age. Nowhere in the realm of fiction are there stories to compare with those which took form centuries ago when the race was in its childhood, stories so intimately connected with the life and history and religion of the great peoples of antiquity that they have become an integral part of our own civilization, a heritage of wealth to every child that is born into the world.



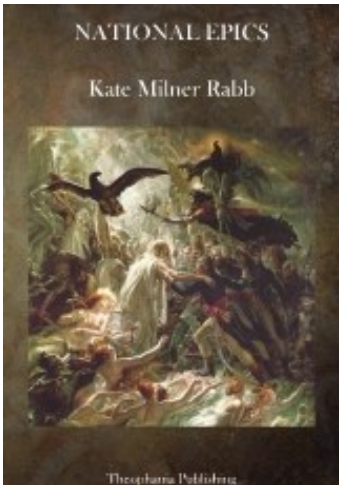
Myths and Legends of Ancient Greece and Rome
By E. M. Berens
346 Pages, $23.24 USD, ISBN: 1477528725
The want of an interesting work on Greek and Roman mythology, suitable for the requirements of both boys and girls, has long been recognized by the principals of our advanced schools. The study of the classics themselves, even where the attainments of the pupil have rendered this feasible, has not been found altogether successful in giving to the student a clear and succinct idea of the religious beliefs of the ancients, and it has been suggested that a work which would so deal with the subject as to render it at once interesting and instructive would be hailed as a valuable introduction to the study of classic authors, and would be found to assist materially the labours of both master and pupil.



Myths and Songs from the South Pacific
By Rev. William Wyatt Gill
362 Pages, $23.24 USD, ISBN: 1470073544
Having expressed a strong desire that the collection of Myths and Songs from the South Pacific, which the Rev. W. Wyatt Gill brought home with him from Mangaia, should not be allowed to lie forgotten, or, like other valuable materials collected by hard-working missionaries, perish altogether, I could not well decline to state, in a few words, what I consider the real importance of this collection to be. I confess it seemed strange to me that its importance should be questioned. If new minerals, plants, or animals are discovered, if strange petrifactions are brought to light, if flints or other stone weapons are dredged up, or works of art disinterred, even if a hitherto unknown language is rendered accessible for the first time, no one, I think, who is acquainted with the scientific problems of our age, would ask what their importance consists in, or what they are good for.



Narcissus
By Evelyn Scott
190 Pages, $18.24 USD, ISBN: 1515352390
Dudley had been floundering inwardly through the attempt to avoid facing the ridiculous. Watching the harsh bitter line of her lips, he noticed the pulse that swelled and fluttered in her throat. The sight of her pain, for which he was responsible, made him feel all at once very sure and complete. He accepted no burden from it, for he told himself it was a part of her awakening to detached and perfect understanding. He was grateful to himself that he had an ideal notion of what she might be that held him cruelly and steadily against all that she was. He felt voluptuously intimate with her emotions.



National Epics

By Kate Milner Rabb

588 Pages, $30.24 USD, ISBN: 1515352455

This volume is intended for an introduction to the study of the epics. While the simplicity and directness of the epic style seem to make such a book unnecessary, the fact that to many persons of literary tastes some of these great poems are inaccessible, and that to many more the pleasure of exploring for themselves "the realms of gold" is rendered impossible by the cares of business, has seemed sufficient excuse for its being.

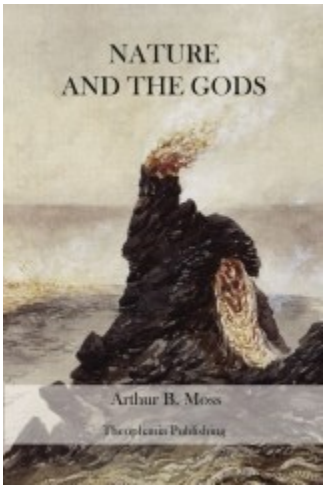
John Baptista Porta

Natural Magick: Magiae naturalis: A

By John Baptista Porta

654 Pages, $37.69 USD, ISBN: 1468023152

There are two sorts of Magick; the one is infamous, and unhappy, because it has to do with foul Spirits, and consists of incantations and wicked curiosity; and this is called Sorcery; an art which all learned and good men detest; neither is it able to yield an truth of reason or nature, but stands merely upon fancies and imaginations, such as vanish presently away, and leave nothing behind them; as Jamblicus writes in his book concerning the mysteries of the Egyptians. The other Magick is natural; which all excellent wise men do admit and embrace, and worship with great applause; neither is there any thing more highly esteemed, or better thought of, by men of learning.

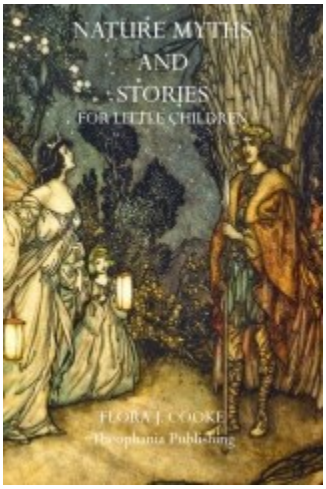


Nature and the Gods

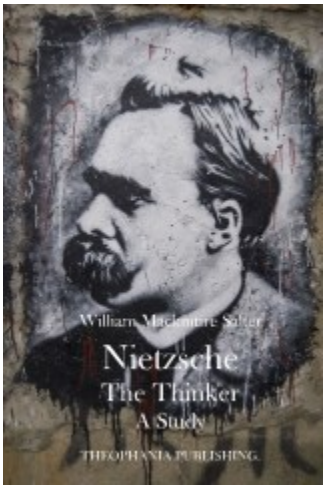
By Arthur B Moss

24 Pages, $16.24 USD, ISBN: 1470079070

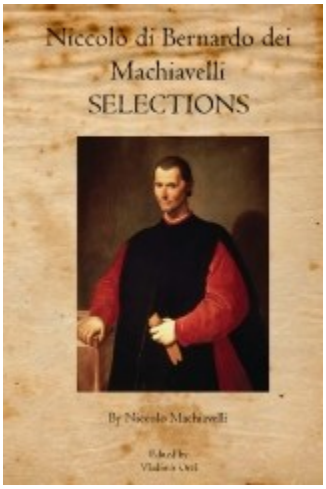
Ladies and Gentlemen,—No word has played a more important part in the discussion of scientific and philosophical questions than the word Nature. Everyone thinks he knows the meaning of it. Yet how few have used it to express the same idea; indeed it has been employed to convey such a variety of impressions that John Stuart Mill asserts that it has been the fruitful source of the propagation of false taste, false philosophy, false morality, and even bad law. Now, I propose in this lecture that we start with some clear ideas concerning the meaning of such words, upon the right understanding of which the whole force of my arguments depends. What, then, is meant by the word Nature?



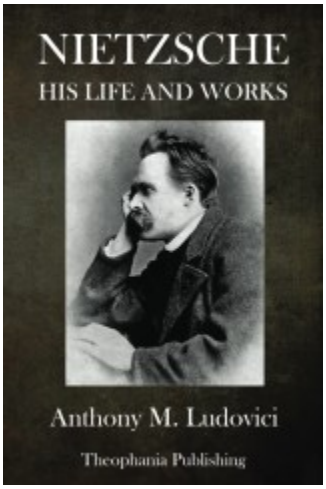
Nature Myths and Stories for Little Children
By Flora J. Cooke
104 Pages, $16.24 USD, ISBN: 1770832122
FEELING the great need of stories founded upon good literature, which are within the comprehension of little children, I have written the following stories, hoping that they may suggest to primary teachers the great wealth of material within our reach. Many teachers, who firmly believe that reading should be something more than mere word-getting while the child's reading habit is forming, are practically helpless without the use of a printing press. We will all agree that myths and fables are usually beautiful truths clothed in fancy, and the dress is almost always simple and transparent. Who can study these myths and not feel that nature has a new language for him, and that though the tales may be thousands of years old, they are quite as true as they were in the days of Homer.



Neitzsche The Thinker: A Study
By William Mackintire Salter
788 Pages, $36.24 USD, ISBN: 1519564430
ONCE when about to give a "Nietzsche" course before a university audience, those in charge suggested to me—a novice in such situations—that I should begin by considering some of the notable aspects or tendencies of our present civilization which Nietzsche expresses, so as to give a raison d'être for the course. It seemed to be taken for granted that he reflected the age and was chiefly important as illustration—perhaps as warning. I confess that I was somewhat embarrassed. For what had struck me as I had been reading him was that he went more or less counter to most of the distinctive tendencies of our time. My personal experience had been of shock after shock.



Niccolò di Bernardo dei Machiavelli
By Niccolo Machiavelli
598 Pages, $30.24 USD, ISBN: 1926842103
Niccolò Machiavelli (1469-1527), an Italian political philosopher, is remarkable for his self-contradictions. In his writings he appears sometimes as a cynical pragmatist, sometimes - as an ardent Republican. Perception of Machiavelli is also quite contradictory - sometimes entirely derogatory and scornful, sometimes - admiring and appreciative. Who was he, this peer of Leonardo da Vinci? A smart and cruel manipulator or a passionate libertarian? And if both are true, does not it shed a strange light on the heritage of High Renaissance? Our readers can now judge Machiavelli on the basis of his work.

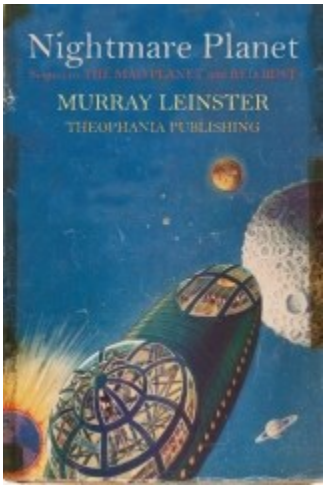


NIETZSCHE: His Life and Works

By Anthony M. Ludovici

110 Pages, $16.25 USD, ISBN: 1979345392

The commission for a book on Nietzsche, to form the latest addition to a series of famous philosophers, is most certainly a sign that the age of adversity, through which the earlier Nietzscheans had to struggle, has at last come to an end. For ten consecutive years they had had no reply whatever to their propaganda, and their publications, loud as some of them were, proved as ineffective as cannon shots fired into the eternity of interplanetary space.

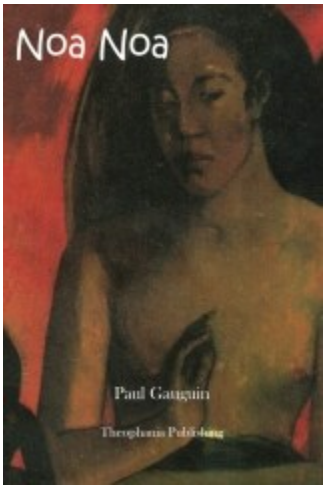


Nightmare Planet

By Murray Leinster

68 Pages, $16.24 USD, ISBN: 1519362986

In science-fiction, as in all categories of fiction, there are stories that are so outstanding from the standpoint of characterization, concept, and background development that they remain popular for decades. Two such stories were Murray Leinster's The Mad Planet and Red Dust. Originally published in 1923, they have been reprinted frequently both here and abroad. They are now scheduled for book publication. Especially for this magazine, Murray Leinster has written the final story in the series. It is not necessary to have read the previous stories to enjoy this one.

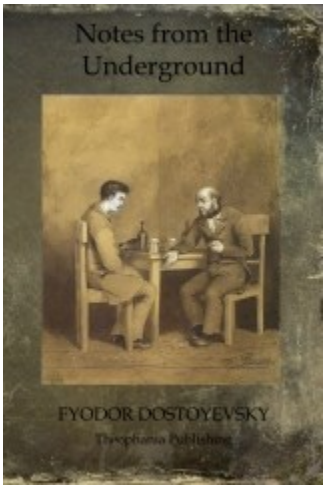


Noa Noa

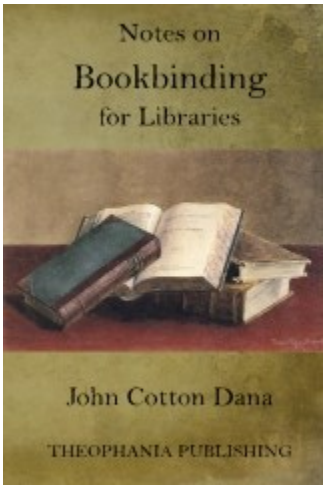
By Paul Gauguin

98 Pages, $16.24 USD, ISBN: 1479146382

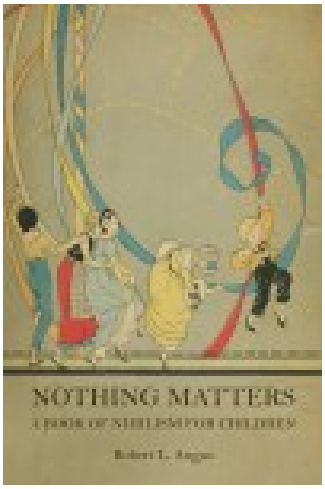
ON the eighth of June, during the night, after a sixty-three days' voyage, sixty-three days of feverish expectancy, we perceived strange fires, moving in zigzags on the sea. From the somber sky a black cone with jagged indentions became disengaged. We turned Morea and had Tahiti before us. Several hours later dawn appeared, and we gently approached the reefs, entered the channel, and anchored without accidents in the roadstead. The first view of this part of the island discloses nothing very extraordinary; nothing, for instance, that could be compared with the magnificent bay of Rio de Janeiro. It is the summit of a mountain submerged at the time of one of the ancient deluges.



Notes from the Underground
By Fyodor Dostoyevsky
126 Pages, $16.24 USD, ISBN: 1468023438
The author of the diary and the diary itself are, of course, imaginary. Nevertheless it is clear that such persons as the writer of these notes not only may, but positively must, exist in our society, when we consider the circumstances in the midst of which our society is formed. I have tried to expose to the view of the public more distinctly than is commonly done, one of the characters of the recent past. He is one of the representatives of a generation still living. In this fragment, entitled "Underground," this person introduces himself and his views, and, as it were, tries to explain the causes owing to which he has made his appearance and was bound to make his appearance in our midst. In the second fragment there are added the actual notes of this person concerning certain events in his life.



Notes on Bookbinding for Libraries
By John Cotton Dana
172 Pages, $18.24 USD, ISBN: 1519362927
“The following statement is not an exaggeration: A library saves half the cost of new popular books, and of replacements for which much use may be anticipated, if it purchases them in Cedric Chivers’ patent bindings. New books supplied in these bindings are sold as being bound once for all. It is thought that they are so bound as to serve for quite fifty per cent. more issues than will a book purchased in publisher’s cloth, used for a time, and then rebound in the ordinary way.



Nothing Matters: A Book of Nihilism for Children
By Robert L. Angus
53 Pages, $19.99 USD, ISBN: B0D3VH13LD
Nihilism is not necessarily pessimistic and negative, though that conclusion is understandable when drawn by those whom have never successfully questioned their own convictions. After careful scrutiny, one will discover that there is no objective meaning to anything in the universe, except what we choose to give it. A nihilist is free to experience oneself and the universe clearly, while determining for themselves what purpose, importance, meaning, priority, passion, value and morality ought to be ascribed to life’s little puzzle pieces. Such enquiry requires facing horrors and uncertainties, which means accepting that uncomfortable realities must be confronted instead of avoided. To a nihilist, the answers are never resolved, and questions always beget endless, inconclusive lines of inquiry.

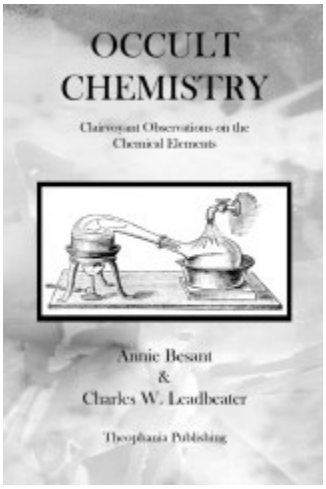
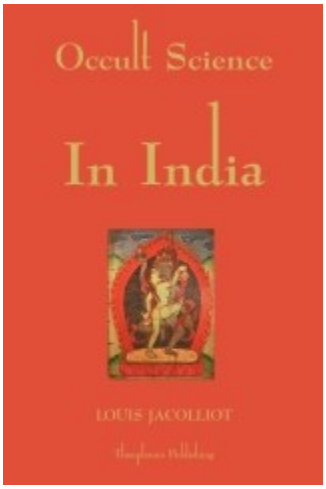
Observations on Popular Antiquities TWO VOLUME SET
By John Brand
Volume 1 678 Pages, $31.24 USD, ISBN: 1470079119
Volume 2 616 Pages, $31.24 USD, ISBN: 1470079143
Volume 3 538 Pages, $31.24 USD, ISBN: 1470079151
THE great popularity of BRAND'S Work on the Customs and Provincial Antiquities of Great Britain having led to the demand for a new edition, it was thought advisable to attempt some more convenient arrangement of the matter. With this object, the most entertaining and popular portions have been inserted in the text, while the merely recondite and subordinate have been thrown into foot-notes. This plan will, it is hoped, render the work more acceptable to the general reader. Various articles and passages also, that did not before appear to be inserted in their proper places, have been transposed: the long notes, for example, which in the former edition were subjoined to the Author's preface, are now placed under the heads to which they particularly relate.



Occult Chemistry: Clairvoyant Obser
By Annie Besant
166 Pages, $18.24 USD, ISBN: 1479146366
When undertaking to prepare a new edition of this book I received permission from the authors to "throw it into the form in which you think it would be most useful at the present time." It was left to my discretion, "What to use and what to omit." I have not found it necessary to avail myself to any considerable extent of this latter permission. But as the contents of the book were originally arranged the reader was ill-prepared to appreciate the importance of the later research for want of introductory matter explaining how it began, and how the early research led up to the later investigation.

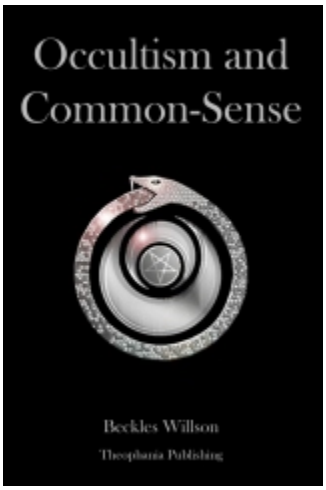


Occult Science In India

By Louis Jacolliot

314 Pages, $18.24 USD, ISBN: 1478392711

This is neither a doctrinal book nor a work of criticism. We are not called upon to decide, either for or against, the belief in spirits, either mediating or inspiring, which was held by all who had been initiated in the temples of antiquity, which is to-day the keystone of the philosophical and religious instruction of the Brahmins, and to which many of our Western thinkers and scientists seem inclined to assent. Being neither an advocate of this belief, nor the opposite, we are, on that account, better able to write its history. An ardent partisan would have been too credulous, and would have taken everything upon trust. A rabid opponent would have made it his business to disparage and discredit it.



Occultism and Common Sense

By Beckles Willson

214 Pages, $19.24 USD, ISBN: 1478155809

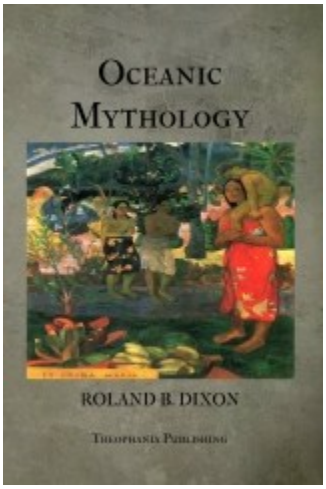
When I first ventured into the wide and misty domain of Occultism, with a light heart I set forth and an open mind. My sole aim was to ascertain, as far as the means at the disposal of an ordinary man with little of the mystic in his composition would allow, what degree of probability attached to published phenomena, which the ordinary laws of Nature, as most of us understand them, could not satisfactorily explain.

Ocean of Theosophy

By William Q. Judge

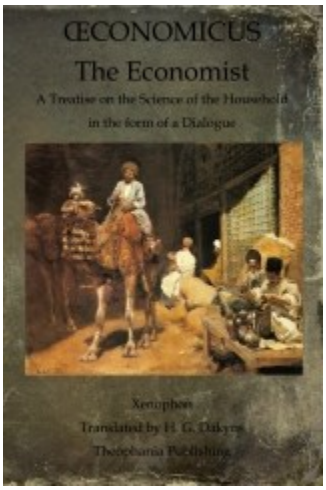
140 Pages, $17.24 USD, ISBN: 1770832920

The subject of the Will has received no treatment, inasmuch as that power or faculty is hidden, subtle, undiscoverable as to essence, and only visible in effect. As it is absolutely colorless and varies in moral quality in accordance with the desire behind it, as also it acts frequently without our knowledge, and as it operates in all the kingdoms below man, there could be nothing gained by attempting to enquire into it apart from the Spirit and the desire. I claim no originality for this book. I invented none of it, discovered none of it, but have simply written that which I have been taught and which has been proved to me. It therefore is only a handing on of what has been known before.



Oceanic Mythology
By Roland Dixon
366 Pages, $24.24 USD, ISBN: 1475256949

IN the following pages we shall seek to present an outline of the mythology of the Oceanic peoples. Although certain aspects of the mythic system of this area, as well as the myths of separate portions of it, have been treated by others, the present writer does not know of any recent endeavour to gather all available materials from the whole region, or to discuss the relationship of the mythologies of the various portions of Oceania to one another, and to the adjacent lands. The attempt has been made to go over all the myths of worth which have been published; but it is not impossible that valuable and important material has been overlooked. Some omissions, however, have been due to circumstances beyond control.



Oeconomicus: The Economist: A Trea
By Xenophon
170 Pages, $18.24 USD, ISBN: 1468023659

Addressing Critobulus, he said: Tell me, Critobulus, is “economy,” like the words “medicine,” “carpentry,” “building,” “smithying,” “metal working,” and so forth, the name of a particular kind of knowledge or science? Crit. Yes, I think so. Soc. And as, in the case of the arts just named, we can state the proper work or function of each, can we (similarly) state the proper work and function of economy? Crit. It must, I should think, be the business of the good economist at any rate to manage his own house or estate well. Soc. And supposing another man’s house to be entrusted to him, he would be able, if he chose, to manage it as skilfully as his own, would he not? since a man who is skilled in carpentry can work as well for another as for himself: and this ought to be equally true of the good economist?

Of Isis and Osiris

By Plutarch

92 Pages, $16.24 USD, ISBN: 1468024116

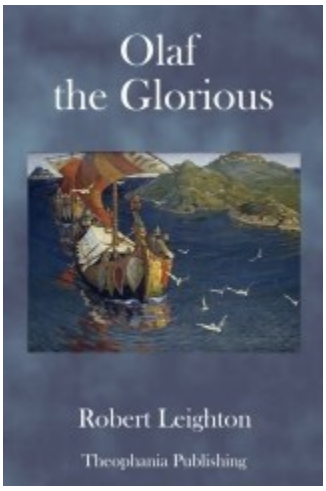
And therefore the desire of truth, especially in what relates to the Gods, is a sort of grasping after divinity, it using learning and enquiry for a kind of resumption of things sacred, a work doubtless of more religion than any ritual purgation or charge of temples whatever, and especially most acceptable to the Goddess you serve, since she is more eminently wise and speculative, and since knowledge and science (as her very name seems to import) appertain more peculiarly to her than any other thing.

Of The Nature Of Things

By Titus Lucretius Carus

250 Pages, $20.24 USD, ISBN: 147500687X

Mother of Rome, delight of Gods and men, Dear Venus that beneath the gliding stars Makest to teem the many-voyaged main And fruitful lands—for all of living things Through thee alone are evermore conceived, Through thee are risen to visit the great sun— Before thee, Goddess, and thy coming on, Flee stormy wind and massy cloud away, For thee the daedal Earth bears scented flowers, For thee waters of the unvexed deep Smile, and the hollows of the serene sky Glow with diffused radiance for thee! For soon as comes the springtime face of day, And procreant gales blow from the West unbarred, First fowls of air, smit to the heart by thee, Foretoken thy approach, O thou Divine, And leap the wild herds round the happy fields Or swim the bounding torrents.



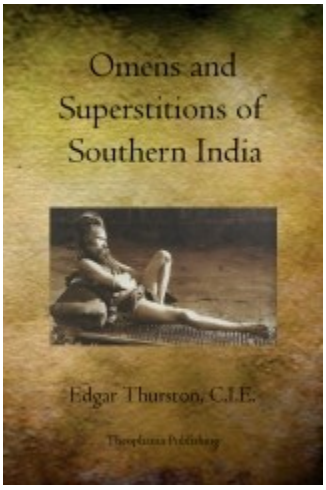
Olaf the Glorious: A story of the Viking Age

By Robert Leighton

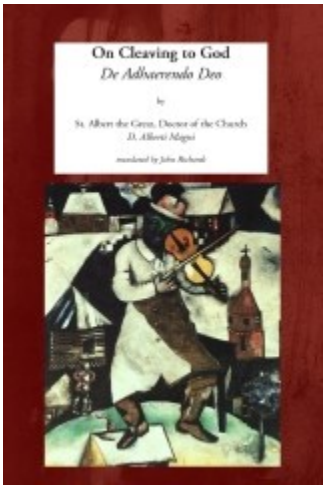
412 Pages, $25.25 USD, ISBN: 1979347255

The following narrative is not so much a story as a biography. My hero is not an imaginary one; he was a real flesh and blood man who reigned as King of Norway just nine centuries ago. The main facts of his adventurous career -- his boyhood of slavery in Esthonia, his life at the court of King Valdemar, his wanderings as a viking, the many battles he fought, his conversion to Christianity in England, and his ultimate return to his native land -- are set forth in the various Icelandic sagas dealing with the period in which he lived. I have made free use of these old time records, and have added only such probable incidents as were necessary to give a continuous thread of interest to the narrative.

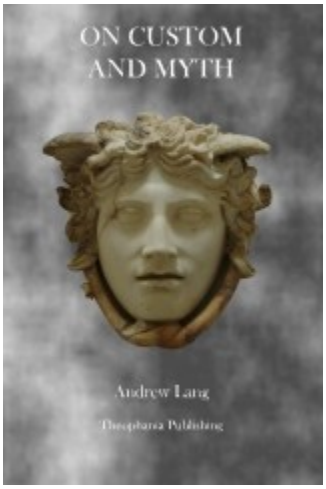
Old New Zealand
By A Pakeha Maori
140 Pages, $17.24 USD, ISBN: 147761351X
To the English reader, and to most of those who have arrived in New Zealand within the last thirty years, it may be necessary to state that the descriptions of Maori life and manners of past times, found in these sketches, owe nothing to fiction. The different scenes and incidents are given exactly as they occurred, and all the persons described are real persons. Contact with the British settlers has of late years effected a marked and rapid change in the manners and mode of life of the natives, and the Maori of the present day are as unlike what they were when I first saw them as they are still unlike a civilized people or British subjects.



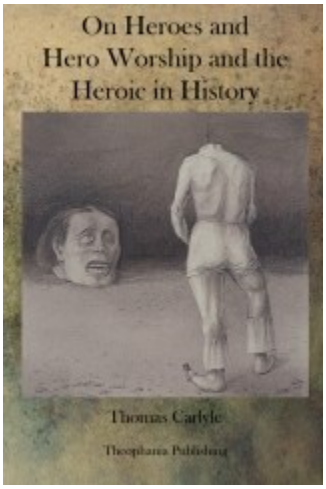
Omens and Superstitions of Southern India
By Edgar Thurston, C.I.E.
326 Pages, $22.24 USD, ISBN: 1770831274
In my "Ethnographic Notes in Southern India" (1906), I stated that the confused chapter devoted to omens, animal superstitions, evil eye, charms, sorcery, etc., was a mere outline sketch of a group of subjects, which, if worked up, would furnish material for a volume. This chapter has now been remodelled, and supplemented by notes collected since its publication, and information which lies buried in the seven bulky volumes of my encyclopædic "Castes and Tribes of Southern India" (1909). The area dealt with (roughly, 182,000 square miles, with a population of 47,800,000) is so vast that I have had perforce to supplement the personal knowledge acquired in the course of wandering expeditions in various parts of Southern India, and in other ways, by recourse to the considerable mass of information, which is hidden away in official reports, gazetteers, journals of societies, books, etc.



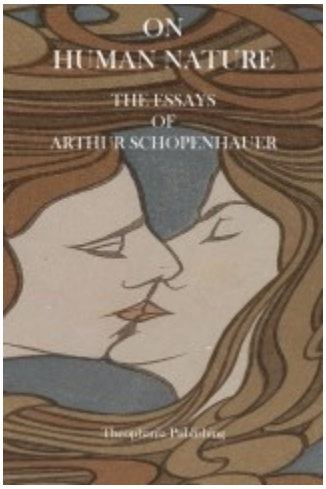
On Cleaving to God
By St. Albert The Great
78 Pages, $16.24 USD, ISBN: 1515352498
This famous and much loved little treatise, On Cleaving to God, (De Adhaerendo Deo) has always been attributed to Saint Albert the Great, who lived from about 1200 to 1280, and was one of the most respected theologians of his time. He was moreover a voluminous writer in the scholastic tradition, and, amongst other things, Bishop of Ratisbonne and one of the teachers of Eckhart at Paris University. The Latin text of which this is a translation is found in volume 37 of his Opera Omnia published in Paris in 1898. However almost all modern scholars are agreed that the work could not have been written by him, at least certainly not in its present form.



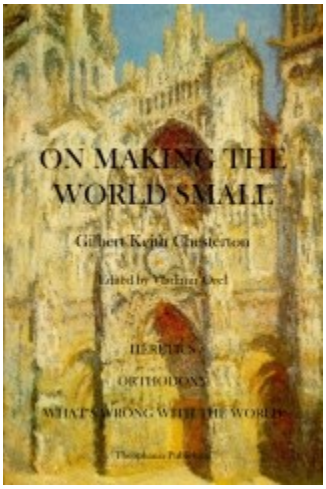
On Custom and Myth
By Andrew Lang
236 Pages, $20.24 USD, ISBN: 1926842456
Though some of the essays in this volume have appeared in various serials, the majority of them were written expressly for their present purpose, and they are now arranged in a designed order. During some years of study of Greek, Indian, and savage mythologies, I have become more and more impressed with a sense of the inadequacy of the prevalent method of comparative mythology. That method is based on the belief that myths are the result of a disease of language, as the pearl is the result of a disease of the oyster.



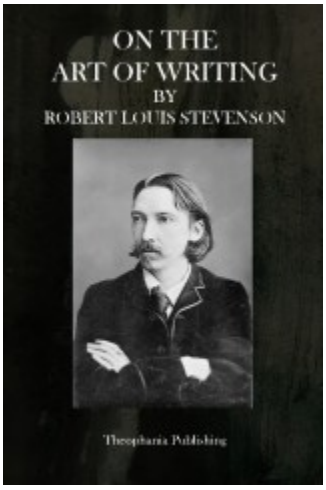
On Heroes and Hero Worship and the Heroic in History
By Thomas Carlyle
230 Pages, $20.24 USD, ISBN: 1770833161
We have undertaken to discourse here for a little on Great Men, their manner of appearance in our world‘s business, how they have shaped themselves in the world‘s history, what ideas men formed of them, what work they did; on Heroes, namely, and on their reception and performance; what I call Hero worship and the Heroic in human affairs. Too evidently this is a large topic; deserving quite other treatment than we can expect to give it at present. A large topic; indeed, an illimitable one; wide as Universal History itself.



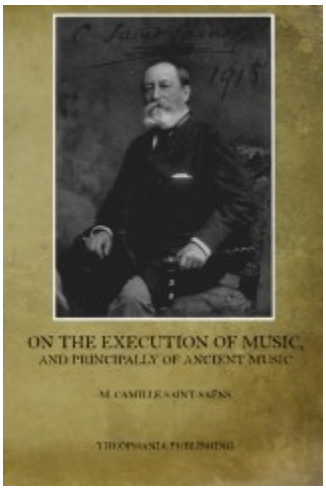
On Human Nature - The Essays of Art
By Arthur Schopenhauer
96 Pages, $16.24 USD, ISBN: 1475006942
The following essays are drawn from the chapters entitled Zur Ethik and Zur Rechtslehre und Politik which are to be found both in Schopenhauer's Parerga and in his posthumous writings. As in my previous volumes, so also in this, I have omitted a few passages which appeared to me to be either antiquated or no longer of any general interest. For convenience' sake I have divided the original chapters into sections, which I have had to name; and I have also had to invent a title which should express their real scope. The reader will find that it is not so much Ethics and Politics that are here treated, as human nature itself in various aspects.



On Making the World Small: Heretics
By Gilbert Keith Chesterton
530 Pages, $30.24 USD, ISBN: 1770830545
Gilbert Keith Chesterton (1874-1936) was one of the wittiest writers in the whole history of English literature. His paradoxes, quite often as valid as paradoxes can be, make his essays unforgettable and leave the reader with a feeling that the world is not such a simple place to understand, after all. Chesterton was a paradox himself, combining interest in Catholic theology and apologetics with profound involvement in social and literary issues of his time – and of all times. “Nothing more strangely indicates an enormous and silent evil of modern society than the extraordinary use which is made nowadays of the word “orthodox.”



On the Art of Writing
By Robert Louis Stevenson
68 Pages, $16.24 USD, ISBN: 1515366049
There is nothing more disenchanting to man than to be shown the springs and mechanism of any art. All our arts and occupations lie wholly on the surface; it is on the surface that we perceive their beauty, fitness, and significance; and to pry below is to be appalled by their emptiness and shocked by the coarseness of the strings and pulleys. In a similar way, psychology itself, when pushed to any nicety, discovers an abhorrent baldness, but rather from the fault of our analysis than from any poverty native to the mind. And perhaps in æsthetics the reason is the same: those disclosures which seem fatal to the dignity of art seem so perhaps only in the proportion of our ignorance; and those conscious and unconscious artifices which it seems unworthy of the serious artist to employ were yet, if we had the power to trace them to their springs, indications of a delicacy of the sense finer than we conceive, and hints of ancient harmonies in nature.



On the Execution of Music: And Principally of Ancient Music
By M. Camille Saint-Saens
30 Pages, $16.24 USD, ISBN: 1519362765
MUSIC was written in a scrawl impossible to decipher up to the thirteenth century, when Plain Song (Plain Chant) made its appearance in square and diamond-shaped notes. The graduals and introits had not yet been reduced to bars, but the songs of the troubadours appear to have been in bars of three beats with the accent on the feeble note of each bar. However, the theory that this bar of three beats or triple time was used exclusively is probably erroneous. St. Isidore, in his treatise on music, speaking of how Plain Song should be interpreted, considers in turn all the voices and recommends those

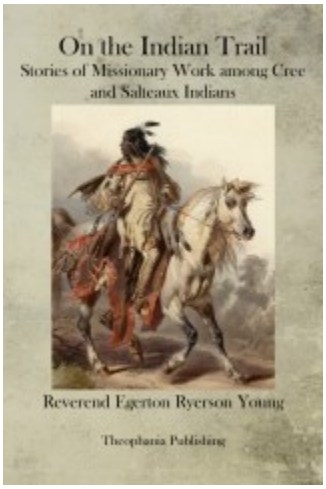
which are high, sweet and clear, for the execution of vocal sounds, introits, graduals, offertories, etc.

On the Improvement of the Understanding

By Baruch Spinoza

54 Pages, $17.24 USD, ISBN: 1469934388

This Treatise on the Emendation of the Intellect etc., which we give you here, kind reader, in its unfinished, that is, defective state, was written by the author many years ago now. He always intended to finish it. But hindered by other occupations, and finally snatched away by death, he was unable to bring it to the desired conclusion. But since it contains many excellent and useful things, which - we have no doubt - will be of great benefit to anyone sincerely seeking the truth, we did not wish to deprive you of them. And so that you would be aware of, and find less difficult to excuse, the many things that are still obscure, rough, and unpolished, we wished to warn you of them. Farewell.

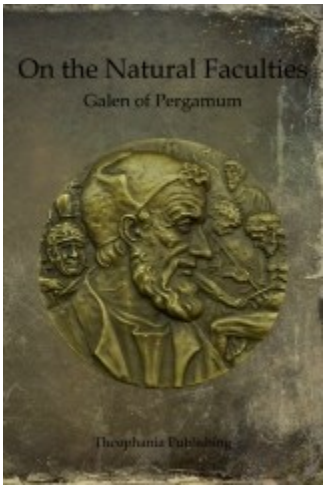


On the Indian Trail

By Egerton Ryerson Young

170 Pages, $18.24 USD, ISBN: 1470079178

This is not a continuous narrative of missionary work as are some of the author's books. It is a collection of distinct chapters, some of which are written expressly for this volume, others of which, having in whole or in part seen the light in other form, are now, at the request of friends, and thanks to the courtesy of the publishers, here gathered. Romantic missionary work among the red Indians will soon be a thing of the past. Civilisation is reaching this people, and the iron horse rushes and shrieks where the Indian trail was once the only pathway. The picturesque garb is fast disappearing, and store clothes, often too soon transformed into rags anything but picturesque, have robbed, the Indian of the interest that once clung to him.



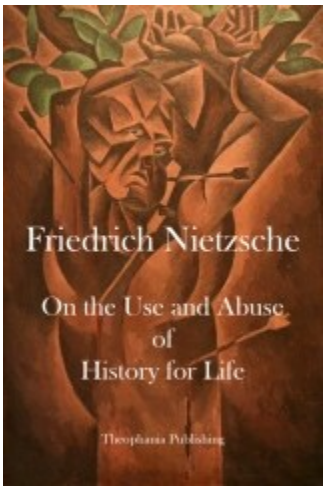
On the Natural Faculties

By Galen of Pergamum

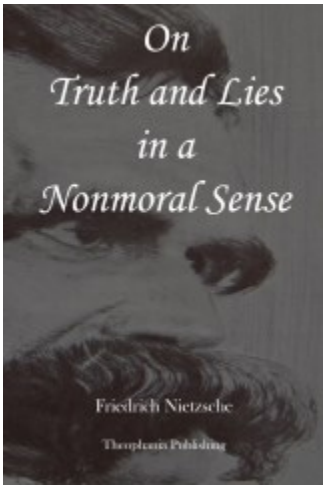
144 Pages, $17.24 USD, ISBN: 1468024043

Since feeling and voluntary motion are peculiar to animals, whilst growth and nutrition are common to plants as well, we may look on the former as effects of the soul and the latter as effects of the nature. And if there be anyone who allows a share in soul to plants as well, and separates the two kinds of soul, naming the kind in question vegetative, and the other sensory, this person is not saying anything else, although his language is somewhat unusual. We, however, for our part, are convinced that the chief merit of language is clearness, and we know that nothing detracts so much from this as do unfamiliar terms; accordingly we employ those terms which the bulk of people are accustomed to use, and we say that animals are governed at once by their

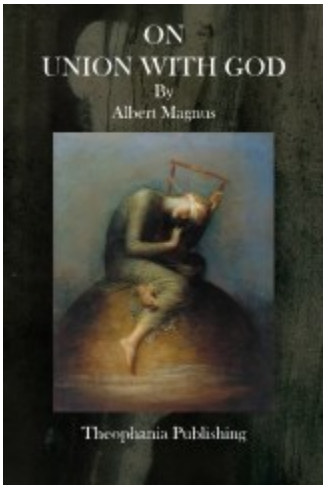
soul and by their nature, and plants by their nature alone, and that growth and nutrition are the effects of nature, not of soul.



On the Use and Abuse of History for Life
By Friedrich Nietzsche
66 Pages, $16.24 USD, ISBN: 1478255889
"Incidentally, I despise everything which merely instructs me without increasing or immediately enlivening my activity." These are Goethe's words. With them, as with a heartfelt expression of Ceterum censeo [I judge otherwise], our consideration of the worth and the worthlessness of history may begin. For this work is to set down why, in the spirit of Goethe's saying, we must seriously despise instruction without vitality, knowledge which enervates activity, and history as an expensive surplus of knowledge and a luxury, because we lack what is still most essential to us and because what is superfluous is hostile to what is essential.



On Truth and Lies in a Nonmoral Sense
By Friedrich Nietzsche
30 Pages, $16.24 USD, ISBN: 1479183741
Once upon a time, in some out of the way corner of that universe which is dispersed into numberless twinkling solar systems, there was a star upon which clever beasts invented knowing. That was the most arrogant and mendacious minute of “world history,” but nevertheless, it was only a minute. After nature had drawn a few breaths, the star cooled and congealed, and the clever beasts had to die.



On Union With God
By Albert Magnus
74 Pages, $17.24 USD, ISBN: 1515365905
Simply and clearly the great principles are laid down, the way is made plain which leads to the highest spiritual life. It seems as though, while one reads, the mists of earth vanish and the snowy summits appear of the mountains of God. We breathe only the pure atmosphere of prayer, peace, and love, and the one great fact of the universe, the Divine Presence, is felt and realized without effort. But is such a life possible amid the whirl of the twentieth century? To faith and love all things are possible, and our author shows us the loving Father, ever ready to give as much and more than we can ask. The spirit of such a work is ever true; the application may vary with circumstances, but the guidance of the Holy Spirit will never be wanting to those souls who crave for closer union with their Divine Master.

One Touch of Nature: A petite drama in one act
By Benjamin Webster Esq.
42 Pages, $16.25 USD, ISBN: 1981201513
SCENE I.—Mr. Beaumont Fletcher's chambers in the Adelphi, handsomely furnished, doors R., L., and C. JONES discovered. Jones (writing). To address the lady's-maid of a marchioness is no trifling affair, especially in the present march of intellect, when the maids know more than the mistresses. One's obliged not only to mind one's stops, but one's grammar. I have been nearly three-quarters of an hour now trying to round a period—I, who French-polish the boots of a dramatic author. Ought I to put "I was smitten," or "I was struck with your charms?"—it's very embarrassing—I must consult Mr. Fletcher. In my letter I must inclose the order he promised to procure for me; but if, with the order, I cannot conclude my letter——

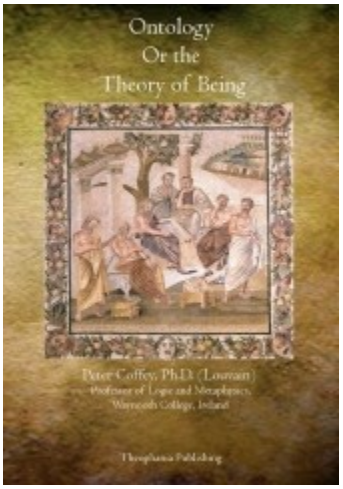
ONESIMUS TO THE READER. Art thou a slave, as I was? Or an orphan, as I was? Or wanderest thou still, as I long wandered, in the wilderness of doubt and sin? Then for thee is written this story of one that was made free in Christ, and adopted to be the child of God, and in the end brought safe out of the deep darkness of Satan into the Light of the Eternal Truth.

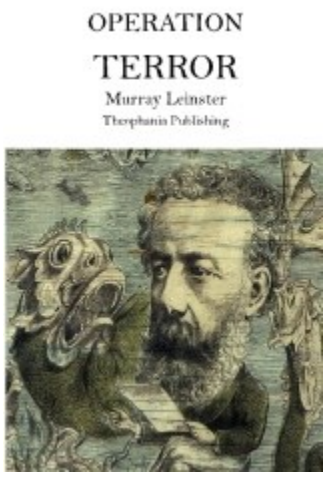


Ontology Or the Theory of Being

By Peter Coffey, Ph.D.

422 Pages, $28.76 USD, ISBN: 1770831282

In the domain of Ontology there are many scholastic theories and discussions which are commonly regarded by non-scholastic writers as possessing nowadays for the student of philosophy an interest that is merely historical. This mistaken notion is probably due to the fact that few if any serious attempts have yet been made to transpose these questions from their medieval setting into the language and context of contemporary philosophy. Perhaps not a single one of these problems is really and in substance alien to present-day speculations.

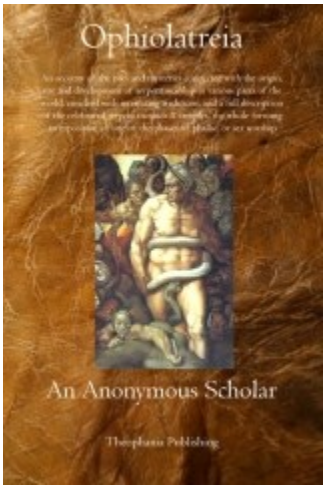


Operation Terror

By Murray Leinster

196 Pages, $19.24 USD, ISBN: 1519362676

On the morning the radar reported something odd out in space, Lockley awoke at about twenty minutes to eight. That was usual. He'd slept in a sleeping bag on a mountain-flank with other mountains all around. That was not unprecedented. He was there to make a base line measurement for a detailed map of the Boulder Lake National Park, whose facilities were now being built. Measuring a base line, even with the newest of electronic apparatus, was more or less a commonplace job for Lockley.

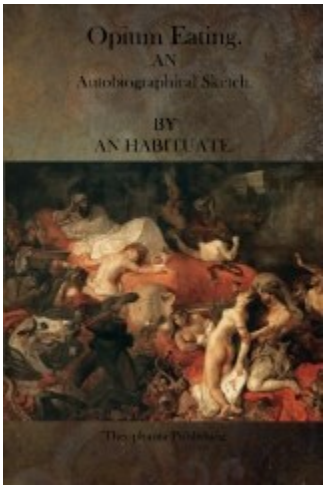


Ophiolatreia

By An Anonymous Scholar

120 Pages, $16.24 USD, ISBN: 177083057X

Ophiolatreia, the worship of the serpent, next to the adoration of the phallus, is one of the most remarkable, and, at first sight, unaccountable forms of religion the world has ever known. Until the true source from whence it sprang can be reached and understood, its nature will remain as mysterious as its universality, for what man could see in an object so repulsive and forbidding in its habits as this reptile, to render worship to, is one of the most difficult of problems to find a solution to. There is hardly a country of the ancient world, however, where it cannot be traced, pervading every known system of mythology, and leaving proofs of its existence and extent in the shape of monuments, temples, and earthworks of the most elaborate and curious character. Babylon, Persia, Hindostan, Ceylon, China, Japan, Burmah, Java, Arabia, Syria, Asia Minor, Egypt, Ethiopia, Greece, Italy, Northern and Western Europe, Mexico, Peru, America---all yield abundant testimony to the same effect, and point to the common origin of Pagan systems wherever found.



Opium Eating: An Autobiographical Sketch
By An Habituate
108 Pages, $16.24 USD, ISBN: 1515365913
The reader is forewarned that in the perusal of the succeeding pages, he will not find the incomparable music of De Quincey's prose, or the easy-flowing and harmonious graces of his inimitable style, as presented in the "Confessions of an English Opium Eater;" but a dull and trudging narrative of solid facts, disarrayed of all flowers of speech, and delivered by a mind, the faculties of which are bound up and baked hard by the searing properties of opium—a mind without elasticity or fertility—a mind prostrate.

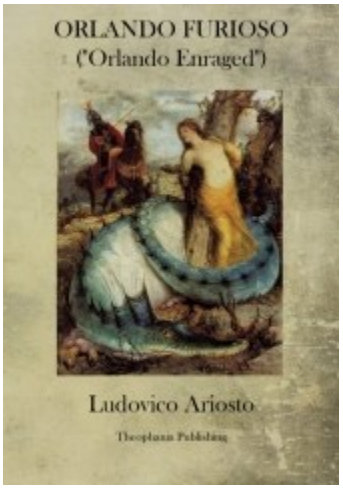
Oration on the Dignity of Man
By Giovanni Pico della Mirandola
60 Pages, $16.24 USD, ISBN: 151536562X
Most esteemed Fathers, still, as I reflected upon the basis assigned for these estimations, I was not fully persuaded by the diverse reasons advanced for the pre-eminence of human nature; that man is the intermediary between creatures, that he is the familiar of the gods above him as he is the lord of the beings beneath him; that, by the acuteness of his senses, the inquiry of his reason and the light of his intelligence, he is the interpreter of nature, set midway between the timeless unchanging and the flux of time; the living union (as the Persians say), the very marriage hymn of the world, and, by David's testimony but little lower than the angels.



Orlando Furioso: Orlando Enraged
By Ludovico Ariosto
364 Pages, $27.27 USD, ISBN: 1770832955
Orlando furioso (The Frenzy of Orlando, more literally Mad Orlando; in Italian furioso is seldom capitalized) is an Italian romantic epic by Ludovico Ariosto which has exerted a wide influence on later culture. The earliest version appeared in 1516, although the poem was not published in its complete form until 1532. Orlando Furioso is a continuation of Matteo Maria Boiardo's unfinished romance Orlando Innamorato ("Orlando in Love", published posthumously in 1495). The action takes place against the background of the war between, on the one side, Charlemagne and his Christian paladins, and, on the other side, the Saracen army which is attempting to invade Europe. However, Ariosto has little concern for historical or geographical accuracy, and the poem wanders at will from Japan to the Hebrides, as well as including many fantastical and magical elements ...

Orlando Innamorato of Matteo Maria Boiardo
By Francesco Berni

The beautiful Angelica, daughter of the king of Cataio (Cathay), comes to Charlemagne’s court for a tournament in which both Christians and pagans can participate. She offers herself as a prize to whoever will defeat her brother, Argalia, who in so doing imprisons lots of Christians. But then Ferraguto (aka Ferraù) kills Argalia and Angelica flees, chased by many paladins, especially Orlando and Rinaldo. Stopping in the Ardenne forest, she drinks at the Stream of Love (making her fall in love with Rinaldo), while Rinaldo drinks at the fount of hate (making him conceive a passionate hatred of Angelica): first reversal.

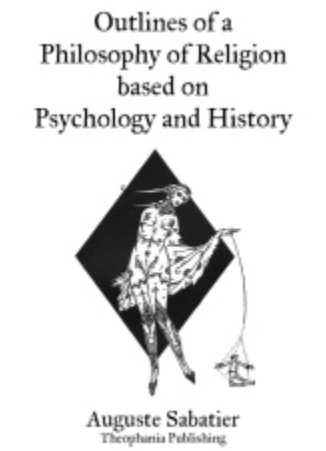
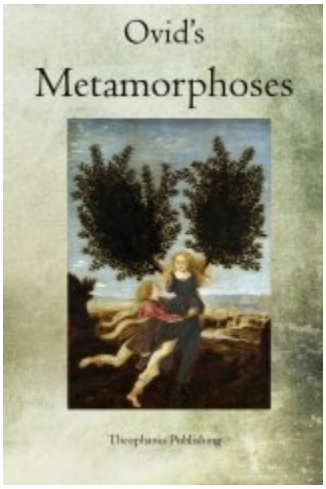
Our Androcentric Culture: Or The Man Made World
By Charlotte Perkins Gilman
246 Pages, $20.25 USD, ISBN: 1981461841
Let us begin, inoffensively, with sheep. The sheep is a beast with which we are all familiar, being much used in religious imagery; the common stock of painters; a staple article of diet; one of our main sources of clothing; and an everyday symbol of bashfulness and stupidity. In some grazing regions the sheep is an object of terror, destroying grass, bush and forest by omnipresent nibbling; on the great plains, sheep-keeping frequently results in insanity, owing to the loneliness of the shepherd, and the monotonous appearance and behavior of the sheep. By the poet, young sheep are preferred, the lamb gambolling gaily; unless it be in hymns, where "all we like sheep" are repeatedly described, and much stress is laid upon the straying propensities of the animal. To the scientific mind there is special interest in the sequacity of sheep, their habit of following one another with automatic imitation.

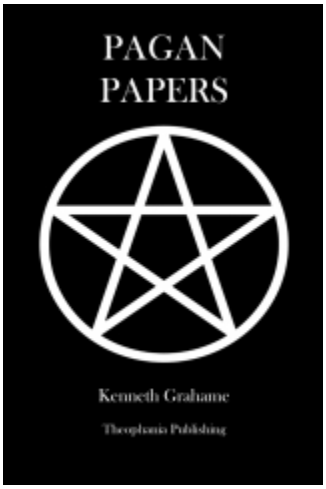


Outlines of a Philosophy of Religion based on Psychology and History
By Auguste Sabatier
222 Pages, $20.24 USD, ISBN: 146993440X
his volume contains three parts which are related to each other as the three stories of one and the same edifice. The first treats of religion and its origin; the second of Christianity and its essence; the third of Dogma and its nature. Proceeding thus from the general to the particular, from the elementary forms of religion to its highest form, passing afterwards from religious phenomena to religious doctrines, I have endeavoured to develop a series of connected and progressive views which I do not wish to be regarded as a system, but as the rigid application and the first results of the method of strictly psychological and historical observation that for years I have applied to this species of studies.

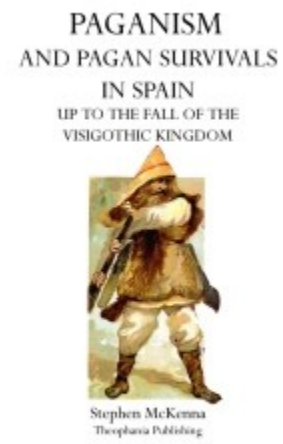


Ovid's Metamorphoses
By Ovid
596 Pages, $31.24 USD, ISBN: 1468023462
Ovid works his way through his subject matter, often in an apparently arbitrary fashion, by jumping from one transformation tale to another, sometimes retelling what had come to be seen as central events in the world of Greek mythology and sometimes straying in odd directions. The poem is often called a mock epic. It is written in dactylic hexameter, the form of the great heroic and nationalistic epic poems, both those of the ancient tradition (the Iliad and the Odyssey) and of Ovid's own day (the Aeneid of Virgil). It begins with the ritual "invocation of the muse", and makes use of traditional epithets and circumlocutions. But instead of following and extolling the deeds of a human hero, it leaps from story to story with little connection.

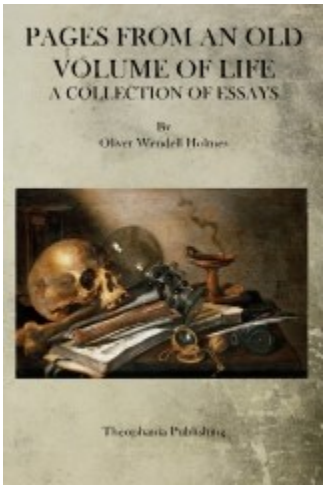
Pagan & Christian Creeds: Their Ori
By Edward Carpenter
288 Pages, $21.24 USD, ISBN: 177083169X
The subject of Religious Origins is a fascinating one, as the great multitude of books upon it, published in late years, tends to show. Indeed the great difficulty to-day in dealing with the subject, lies in the very mass of the material to hand—and that not only on account of the labor involved in sorting the material, but because the abundance itself of facts opens up temptation to a student in this department of Anthropology (as happens also in other branches of general Science) to rush in too hastily with what seems a plausible theory. The more facts, statistics, and so forth, there are available in any investigation, the easier it is to pick out a considerable number which will fit a given theory.



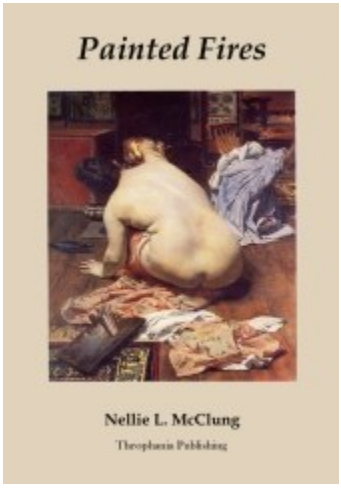
Pagan Papers
By Kenneth Grahame
84 Pages, $16.24 USD, ISBN: 1475007000
Among the many places of magic visited by Pantagruel and his company during the progress of their famous voyage, few surpass that island whose roads did literally ``go'' to places -- ``ou les chemins cheminent, comme animaulx'': and would-be travellers, having inquired of the road as to its destination, and received satisfactory reply, ``se guindans'' (as the old book hath it -- hoisting themselves up on) ``au chemin opportun, sans aultrement se poiner ou fatiguer, se trouvoyent au lieu destiné.'' The best example I know of an approach to this excellent sort of vitality in roads is the Ridgeway of the North Berkshire Downs.



Paganism and Pagan Survivals in Spa
By Stephen McKenna
128 Pages, $16.24 USD, ISBN: 1770831827
The purpose of the present study is to describe the struggle against paganism and pagan survival in Spain up to the fall of the Visigothic kingdom in 712. By paganism is here meant not only the worship of the pagan gods, but also the practices associated with pagan worship, such as astrology and magic. An attempt will be made to show the part that political, social and religious factors played in pagan survivals as well as to point out the various manifestations of paganism. This study, it is hoped, will throw light upon a phase of early Spanish history that has not hitherto been adequately treated. It will enable the reader to compare the paganism of Spain with that found in Africa, France, Germany and Italy, in as far as the extant sources and modern studies make such comparison possible.



Pages from an Old Volume of Life: A Collection of Essays
By Oliver Wendell Holmes
148 Pages, $17.24 USD, ISBN: 1515352277
This is the new version of the Panem et Circenses of the Roman populace. It is our ultimatum, as that was theirs. They must have something to eat, and the circus-shows to look at. We must have something to eat, and the papers to read. Everything else we can give up. If we are rich, we can lay down our carriages, stay away from Newport or Saratoga, and adjourn the trip to Europe sine die. If we live in a small way, there are at least new dresses and bonnets and every-day luxuries which we can dispense with. If the young Zouave of the family looks smart in his new uniform, its respectable head is content, though he himself grow seedy as a caraway-umbel late in the season.



Painted Fires
By Nellie L. McClung

It all began with the rustle of silk. When Helmi's Aunt Lili came back to Finland for a visit, after six years of the crowded ways of life in America, the older women-folk of her family regarded her with mingled feelings of awe, envy and reproach. Her elder sister, Helmi's mother, said it was foolishness for a girl who had to earn her money hard, carrying trays, to put it all on her back and wear clothes that only queens should be wearing. At which Aunt Lili had laughed, showing her gold teeth, and said it was a matter of principle with her to spend her money so fast that no one could steal it from her! Helmi was the one member of the family who gave the visitor full hearted and unmixed devotion.

There is no country in the world where the "study of character" is more indulged in than in the United States of America. During my many visits there I could not help remarking how even the "hardest headed" business men used any form of this study that they could get hold of to help them in their business dealings with other men and also in endeavouring to ascertain the character of their clerks and employees. In looking over the records of my career I find that in the course of my visits to America I gave private lessons to the heads of two hundred and seventy business establishments in New York, one hundred and thirty-five in Boston, and three hundred and forty-two in Chicago.

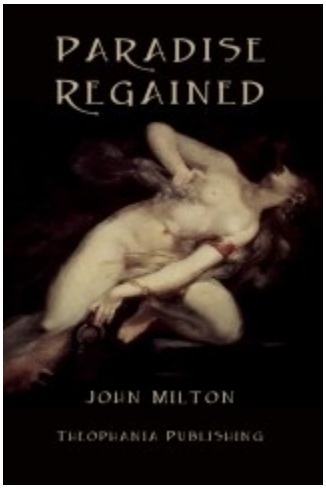
Paradise Lost
By John Milton
364 Pages, $24.24 USD, ISBN: 1478229624
This first Book proposes first in brief the whole Subject, Mans disobedience, and the loss thereupon of Paradise wherein he was plac't: Then touches the prime cause of his fall, the Serpent, or rather Satan in the Serpent; who revolting from God, and drawing to his side many Legions of Angels, was by the command of God driven out of Heaven with all his Crew into the great Deep. Which action past over, the Poem hasts into the midst of things, presenting Satan with his Angels now fallen into Hell, describ'd here, not in the Center (for Heaven and Earth may be suppos'd as yet not made, certainly not yet accurst) but in a place of utter darknesse, fitliest call'd Chaos: Here Satan with his Angels lying on the burning Lake, thunder-struck and, astonisht, after a certain space recovers, as from confusion, calls up him who next in Order and Dignity lay by him; they confer of thir miserable fall.



Paradise Regained

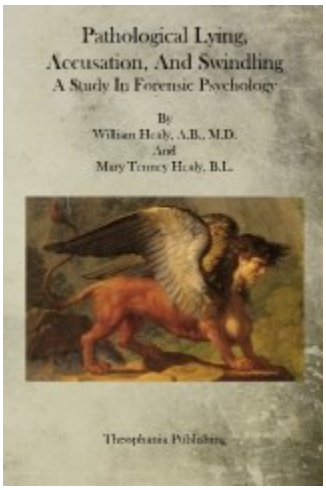
I, WHO erewhile the happy Garden sung By one man's disobedience lost, now sing Recovered Paradise to all mankind, By one man's firm obedience fully tried Through all temptation, and the Tempter foiled In all his wiles, defeated and repulsed, And Eden raised in the waste Wilderness. Thou Spirit, who led'st this glorious Eremite Into the desert, his victorious field Against the spiritual foe, and brought'st him thence By proof the undoubted Son of God, inspire, As thou art wont, my prompted song, else mute, And bear through highth or depth of Nature's bounds, With prosperous wing full summed, to tell of deeds Above heroic, though in secret done, And unrecorded left through many an age: Worthy to have not remained so long unsung.



Pathological Lying, Accusation, and Swindling
By William Healy
300 Pages, $22.24 USD, ISBN: 1515365794
Careful studies of offenders make group-types stand out with distinctness. Very little advancement in the treatment of delinquents or criminals can be expected if typical characteristics and their bearings are not understood. The group that our present work concerns itself with is comparatively little known, although cases belonging to it, when met, attract much attention. It is to all who should be acquainted with these striking mental and moral vagaries, particularly in their forensic and psychological significances, that our essay is addressed.

Patrick's Book of Negatives

By Patrick O. Bradley

108 Pages, $16.99 USD, ISBN: B0CRBG7FLB

Patrick Bradley is an interesting fellow. His vision and ideas are more than merely off center, they refuse to recognize the normal ideas which common minded folk assume to be simple truths. His world is inspired by iconography, symbolism, and interpretations of such which formulate puzzles and metaphysical ideas which only he can make sense of. To listen to him explain what he perceives is simply mind boggling, a sort of cunning only reachable by "Beautiful Minds", where connections are made and unmade, exempt from absolutes and grasping at seeing patterns in static chaos. Of his "Book of Negatives", Patrick was inspired by something so seemingly unrelated as his negative blood type, and his belief that his own struggles with mental health gives him a sense of the world which he describes as an extraordinary sense, a spiritual sense, which seeks to engage with delusion as a new form of sensory experience, which need not fit with the generalizations which others call "reality".

Patty - Bride

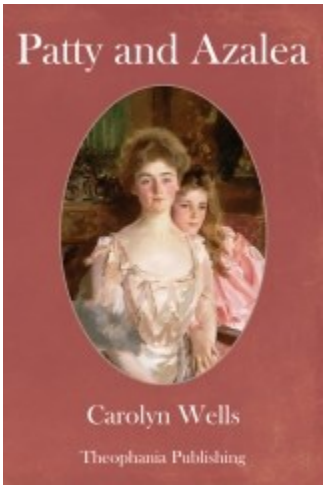
“I can’t stand it, Patty, I simply can’t stand it!” “But you’ll have to, Phil, dear. I’m engaged to Little Billee, and some day I’m going to marry him. And that’s all there is about it.” “Oh, no, Patty, that isn’t all about it. I’m not going to give you up so easily. You don’t know how I care for you. You’ve no idea what a determined chap I can be,——” “Now, stop, Phil. You know you promised that we should be friends and nothing more. You promised not to ask for more than my friendship—didn’t you, now?” “I did but that was only so you’d stay friendly with me, and I thought,—forgive the egotism,—I thought I could yet win your love. Patty, you don’t care such a lot for Farnsworth, do you, now?” “Indeed I do, Phil.



Patty and Azalea

"Oh, Little Billee! Come quick, for goodness' sake! The baby's choking!" Patty was in the sun parlour, her arms full of a fluttering bundle of lace and linen, and her blue eyes wide with dismay at her small daughter's facial contortions. "Only with laughter," Bill reassured her after a quick glance at the restless infant. "Give her to me." The baby nestled comfortably in his big, powerful arms, and Patty sat back in her chair and watched them both. "What a pleasure," she said, complacently, "to be wife and mother to two such fine specimens of humanity! She grows more and more like you every day, Little Billee."

Patty at Home
By Carolyn Wells
296 Pages, $21.25 USD, ISBN: 1981559213
In Mrs. Elliott's library at Vernondale a great discussion was going on. It was an evening in early December, and the room was bright with firelight and electric light, and merry with the laughter and talk of people who were trying to decide a great and momentous question. For the benefit of those who are not acquainted with Patty Fairfield and her relatives, it may be well to say that Mrs. Elliott was Patty's Aunt Alice, at whose home Patty and her father were now visiting. Of the other members of the Elliott family, Uncle Charley, grandma, Marian, and Frank were present, and these with Mr. Fairfield and Patty were debating a no less important subject than the location of Patty's future home.

"Patty, Patty, pit-a-pat, Grinning like a Chessy Cat, if you don't stop looking so everlasting cheerful, I'll throw something at you!" "Throw," returned Patty, as her grin perceptibly and purposely widened to the full extent of her scarlet lips. "All right!" and Elise threw a sofa cushion and another and another, following them up with a knitted afghan, a silk slumber robe, and then beginning on a pile of newspapers. Patty, who was lounging on a broad divan, protected her face with a down pillow, and contentedly endured the avalanche.

Patty Fairfield

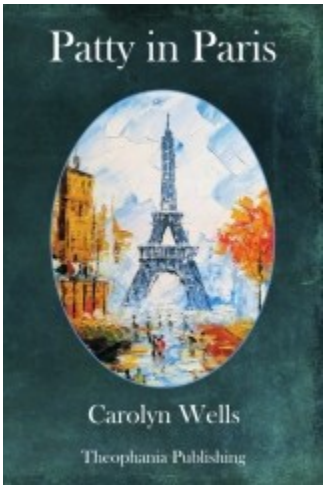
"How old are you, Patty?" asked her father, abruptly. "Fourteen, papa,—why?" "My conscience! what a great girl you're getting to be. Stand up and let me look at you." Patty Fairfield, with two twists and a spring, brought herself to her feet, and stood awaiting her father's inspection. He saw a slender, graceful girl, a Southern blonde of the purest type. Her pretty golden hair would gladly have hung in curly masses, but it was only allowed to have its own sweet will around her temples and at the end of a long thick braid. Her eyes were blue, deep and twinkly, and the rest of her face was as pretty and sweet as soft girlish contours and a perfect complexion could make it.



Patty in Paris

288 Pages, $21.25 USD, ISBN: 1981643508
The Fairfields were holding a family conclave. As the Fairfield family consisted of only three members, the meeting was not large but it was highly enthusiastic. The discussion was about Patty; and as a consequence, Patty herself was taking a lively part in it. "But you promised me, last year, papa," she said, "that if I graduated from the Oliphant School with honours, I needn't go to school this year." "But I meant in the city," explained her father; "it's absurd, Patty, for you to consider your education finished, and you not yet eighteen." "But I'll soon be eighteen, papa, and so suppose we postpone this conversation until then."

DIFFERENT OPINIONS "Different men are of different opinions; some like apples, some like inions," sang Patty, as she swayed herself idly back and forth in the veranda swing; "but, truly-ooly, Nan," she went on, "I don't care a snipjack. I'm quite ready and willing to go to the White Mountains,—or the Blue or Pink or even Lavender Mountains, if you like." "You're willing, Patty, only because you're so good-natured and unselfish; but, really, you don't want to go one bit." "Now, Nan, I'm no poor, pale martyr, with a halo roundy-bout me noble brow.

"I think Labour Day is an awfully funny holiday," remarked Patty. "It doesn't seem to mean anything. It doesn't commemorate anybody's birth or death or heroism." "It's like Bank Holiday in England," said her father. "Merely to give the poor, tired business man a rest." "Well, you don't specially need one, Daddy; you've recreated a lot this summer; and it's done you good,—you're looking fine." "Isn't he?" said Nan, smiling at the finely tanned face of her husband. The Fairfields were down at "The Pebbles," their summer home at the seashore, and Patty, who had spent much of the season in New England, had come down for a fortnight with her parents.

Patty's Motor Car

Patty was curled up in her favourite big easy-chair in her own study. Though called a study, because it had been used as such during her schooldays, the pretty room was really more like a boudoir. Her desk was still there, but was now filled with programmes, friendly letters, and social correspondence instead of school themes or problems. The general colouring of the room was green, but the sash curtains of thin yellow silk, and the heap of yellow sofa cushions, did much to lighten the effect, and gave the room a sunshiny air, even on a dull day.

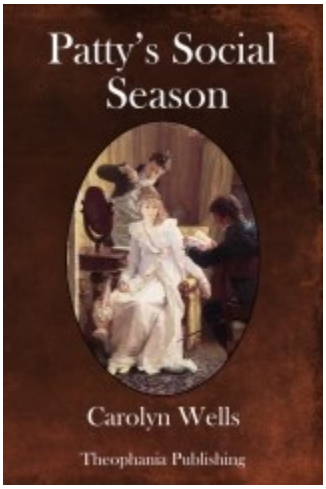
"THERE is one thing sure," mused Patty Sanford, newly awakened by the sun's rays which streamed through her honeysuckle-draped casement; "there is one thing sure,—I shall go to the picnic with whom I like: else why should I go at all? To-day they will come to invite me. Burleigh will come, of course; but it is easy to get rid of him. Then Clarence Toxteth is sure to ask me. How it piques the girls to see me behind his span! Clarence's span is so nice! It is a pity he isn't—I mean I wish I liked him better. But he isn't always saying horrid things, like Tom Putnam. I wonder if Tom will ask me. I do so hope he will, so I can snub him.



Patty's Social Season
By Carolyn Wells
372 Pages, $24.25 USD, ISBN: 198164539X
“Patty, do come along and get your luncheon before everything grows cold!” “‘And the stars are old, And the leaves of the judgment book unfold,’” chanted Patty, who had just learned this new song, and was apt to sing it at unexpected moments. She sat on the floor in the middle of the long drawing-room of her New York home. To say she was surrounded by flowers, faintly expresses it. She was hemmed in, barricaded, nearly smothered in flowers. They were or had been in enormous florist’s boxes, and as fast as Patty opened the boxes and read the cards which accompanied the blossoms, Jane took the boxes away. It was the great occasion of Patty’s début, and in accordance with the social custom, all her friends had sent her flowers as a message of congratulation.

“I do think waiting for a steamer is the horridest, pokiest performance in the world! You never know when they’re coming, no matter how much they sight them and signal them and wireless them!” Mrs. Allen was not pettish, and she spoke half laughingly, but she was wearied with her long wait for the Mauretania, in which she expected her daughter, Nan, and, incidentally, Mr. Fairfield and Patty. “There, there, my dear,” said her husband, soothingly, “I think it will soon arrive now.” “I think so, too,” declared Kenneth Harper, who was looking down the river through field-glasses. “I’m just sure I see that whale of a boat in the dim distance, and I think I see Patty’s yellow head sticking over the bow.”

"It IS a boofy frock, isn't it, Nansome?" Patty craned her head over her shoulder, as she waited for her stepmother's response, which was only, "Yes." "Oh, my gracious, Nan! Enthuse! Don't you know half the fun in life is enthusiasm?" "What shall I say?" asked Nan, laughing. "Oh, say it's a peach! a hummer! a lallapaloosa!" "Patty, Patty! what language!" "Oh, yes; I forgot I meant to stop using slang. But when any one is so lukewarm in her admiration as you are, forcible language is called for." "Well, it certainly is a lovely gown, and you never looked prettier.

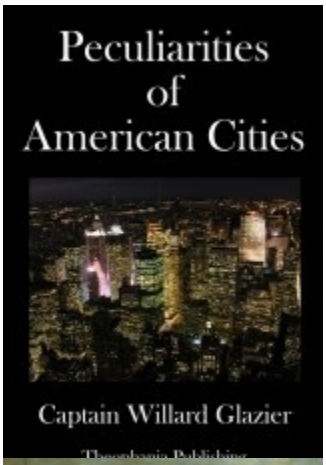
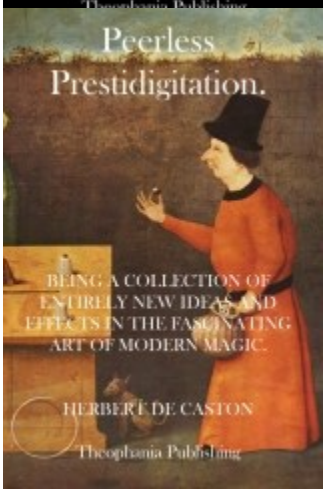
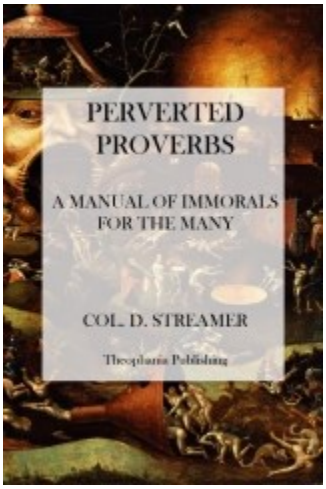
“Isn’t Mrs. Phelps too perfectly sweet! That is the loveliest fan I ever laid eyes on, and to think it’s mine!” “And will you look at this? A silver coffee-machine! Oh, Nan, mayn’t I make it work, sometimes?” “Indeed you may; and oh, see this! A piece of antique Japanese bronze! Isn’t it great?” “I don’t like it as well as the sparkling, shiny things. This silver tray beats it all hollow. Did you ever see such a brightness in your life?” “Patty, you’re hopelessly Philistine! But that tray is lovely, and of an exquisite design.” Patty and Nan were unpacking wedding presents, and the room was strewn with boxes, tissue paper, cotton wool, and shredded-paper packing. Only three days more, and then Nan Allen was to marry Mr. Fairfield, Patty’s father.



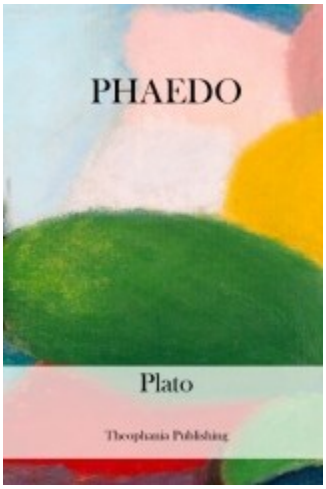
Peculiarities of American Cities
By Capt Willard Glazier
720 Pages, $34.25 USD, ISBN: 1979377952
An exceedingly cold day was February fourth, 1875, the day which marked our journey from Boston to Albany. My inclination to step outside our car and tip my hat to the various familiar places along the route was suddenly checked by a gust of cutting, freezing, zero-stinging air. A ride of between one and two hours brought us to Worcester, a stirring town of about forty thousand inhabitants.



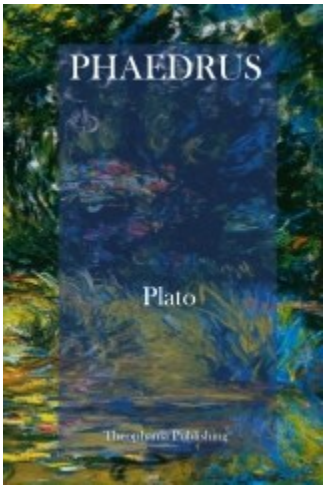
Peerless Prestidigitation: Being A Collection Of Entirely New Ideas And Effects In The Fascinating Art Of Modern Magic
By Herbert De Caston
46 Pages, $17.24 USD, ISBN: 1469934418
Ladies and Gentlemen, In calling your attention to a deceptive entertainment, Legerdemain, more generally known as Conjuring, a few introductory remarks may not be out of place. The superstition that existed in the early ages, when wizards and magicians were supposed to exist, time has not worn out; the mystery that hangs over all professors of magic is still in part retained. Many there are who class them amongst supernatural beings, their seeming impossibilities are converted into positive realities, their power supposed to be supreme.



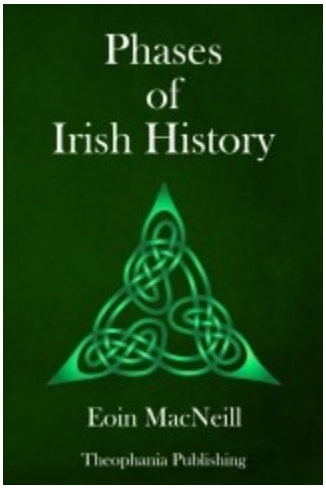
Perverted Proverbs: A Manual of Immorals for the Many
By Col. D. Streamer
28 Pages, $16.24 USD, ISBN: 1475007051
Do you recall those bygone days, When you received with kindly praise My bantling book of Rhyme? Praise undeserved, alas! and yet How sweet! For, tho' we had not met, (Ah! what a waste of time!) I could the more enjoy such mercies Since I delighted in your verses. And when a Poet stoops to smile On some one of the rank and file, (Inglorious—if not mute,) Some groundling bard who craves to climb, Like me, the dizzy rungs of Rhyme, To reach the Golden Fruit; For one in such a situation The faintest praise is no damnation. Parnassus heights must surely pall; For simpler diet do you call, Of nectar growing tired? These verses to your feet I bring, Drawn from an unassuming spring, Well-meant—if not inspired; O charming Poet's charming daughter, Descend and taste my toast and water!



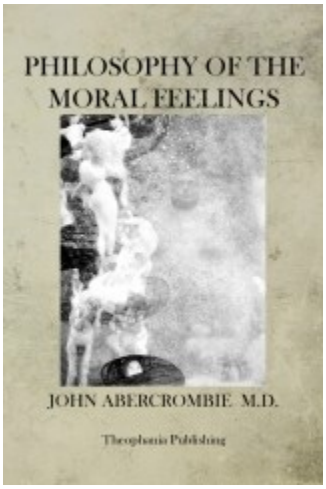
Phaedo
By Plato
134 Pages, $17.24 USD, ISBN: 1475011407
After an interval of some months or years, and at Phlius, a town of Peloponnesus, the tale of the last hours of Socrates is narrated to Echecrates and other Phliasians by Phaedo the 'beloved disciple.' The Dialogue necessarily takes the form of a narrative, because Socrates has to be described acting as well as speaking. The minutest particulars of the event are interesting to distant friends, and the narrator has an equal interest in them. During the voyage of the sacred ship to and from Delos, which has occupied thirty days, the execution of Socrates has been deferred.



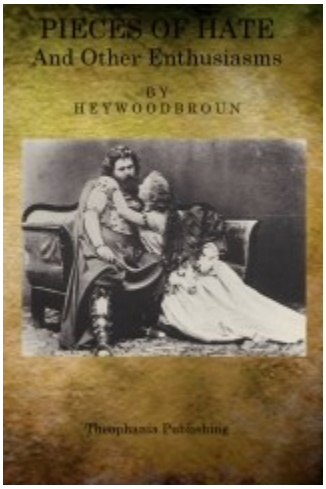
Phaedrus
By Plato
118 Pages, $16.24 USD, ISBN: 147501158X
The Phaedrus is closely connected with the Symposium, and may be regarded either as introducing or following it. The two Dialogues together contain the whole philosophy of Plato on the nature of love, which in the Republic and in the later writings of Plato is only introduced playfully or as a figure of speech. But in the Phaedrus and Symposium love and philosophy join hands, and one is an aspect of the other. The spiritual and emotional part is elevated into the ideal, to which in the Symposium mankind are described as looking forward, and which in the Phaedrus, as well as in the Phaedo, they are seeking to recover from a former state of existence.



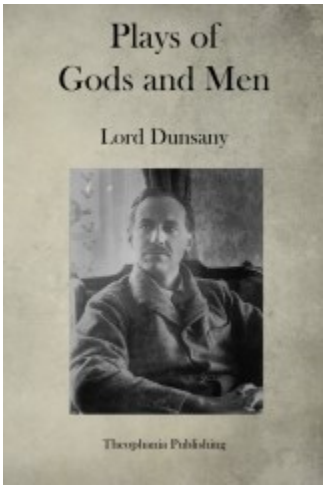
Phases of Irish History
By Eoin MacNeill
424 Pages, $25.25 USD, ISBN: 1979380805
Every people has two distinct lines of descent—by blood and by tradition. When we consider the physical descent of a people, we regard them purely as animals. As in any breed of animals, so in a people, the tokens of physical descent are mainly physical attributes—such as stature, complexion, the shape of the skull and members, the formation of the features. When we speak of a particular race of men, if we speak accurately, we mean a collection of people whose personal appearance and bodily characters, inherited from their ancestors and perhaps modified by climate and occupation, distinguish them notably from the rest of mankind. It is important for us to be quite clear in our minds about this meaning of Race



Philosophy of the Moral Feelings
By John Abercrombie
166 Pages, $18.24 USD, ISBN: 1470079216
In a former work, the Author endeavoured to delineate, in a simple and popular form, the leading facts relating to the Intellectual Powers, and to trace the principles which ought to guide us in the Investigation of Truth. The volume which he now offers to the public attention, is intended as a sequel to these Inquiries; and his object in it is to investigate, in the same unpretending manner, the Moral Feelings of the Human Mind, and the principles which ought to regulate our volitions and our conduct as moral and responsible beings. The two branches of investigation are, in many respects, closely connected; and, on this account, it may often happen, that, in the present work, principles are assumed as admitted or proved, which, in the former, were stated at length, with the evidence by which they are supported.



Pieces of Hate And Other Enthusiasms
By Heywood Broun
166 Pages, $18.24 USD, ISBN: 1770831290
We wish we could speak with unreserved enthusiasm about this book. It would be pleasant to make out a list of three essential volumes for humanity and suggest the complete works of William Shakespeare, the Bible and "Pieces of Hate," but Mr. Broun's book does not deserve any such ranking. Speaking as a critic of books, we are not at all sure that we care to recommend it. It seems to us that the author is honest, but the value of that quality has been vastly overstressed in present-day reviewing. We are inclined to say "What of it?"

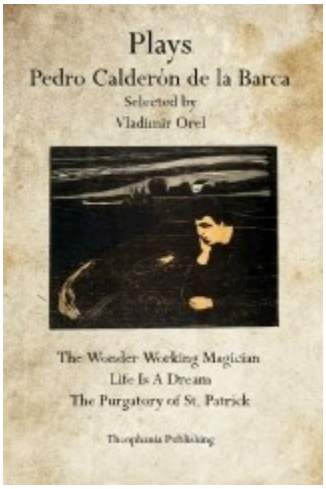


Plays of Gods and Men

By Lord Dunsany

182 Pages, $18.24 USD, ISBN: 1515262154

Lest any idle person might think that I have had time to write plays during the last few years I may mention that the first act of The Tents of the Arabs was written on September 3rd, and the second act on September 8th, 1910. The first and second acts of The Laughter of the Gods were written on January 29th, and the third act on February 2nd and 3rd, 1911. A Night at an Inn was written on January 17th, 1912, and The Queen's Enemies on April 19, 20, 21, 24, 28, 29, 1913.



Plays Pedro Calderon de la Barca

By Pedro Calderon de la Barca

334 Pages, $25.24 USD, ISBN: 1926842464

The son and one of the creators of the Spanish “Golden Age”, Calderón (1600 - 1681) was an inexhaustible playwright – he wrote more than 200 original comedies and autos sacramentales, dramatic works in which he gave artistic expression to seemingly abstract concepts of theology. A persistent labourer, Calderón continued reshaping and rewriting his own work, seeking esthetic perfection. Tightly knit, his plays are full of intricately organized action and nexpected, yet natural, motivations.

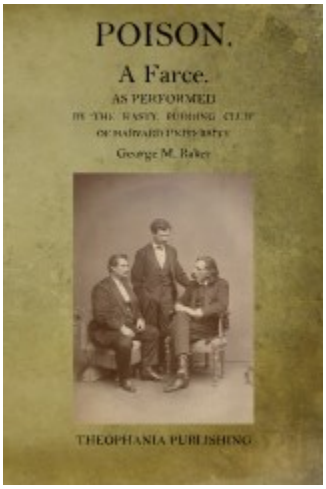
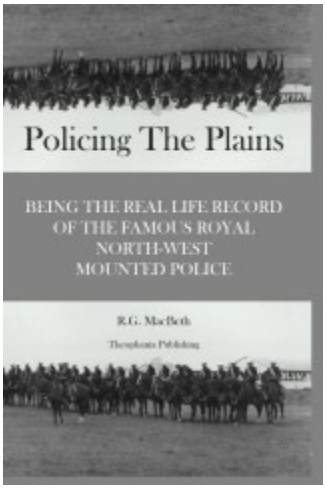
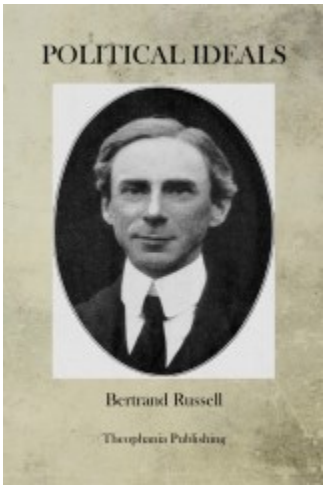
Poets and Dreamers: Studies & Translations from the Irish
By Lady Gregory
216 Pages, $20.24 USD, ISBN: 1468023993
'I am in age, and my shape is withered; many a day I have been going astray.... When I was young, my deeds were evil; I delighted greatly in quarrels and rows. I liked much better to be playing or drinking on a Sunday morning than to be going to Mass.... I was given to great oaths, and I did not let lust or drunkenness pass me by.... The day has stolen away, and I have not raised the hedge until the crop in which Thou didst take delight is destroyed.... I am a worthless stake in a corner of a hedge, or I am like a boat that has lost its rudder, that would he broken against a rock in the sea, and that would be drowned in the cold waves.'



Poison A Farce
By George M. Baker
34 Pages, $16.24 USD, ISBN: 1519362382
MARY JANE. But I tell you this is Mr. Twitters' breakfast, mum. There's no telling what he'll do if he don't catch the train this morning. He's ordered the horse ready since seven o'clock. MOTHER (breaking an egg). In the midst of life we are in death. I have left my humble lodgings this morning to attend the interment of the remains of our late pastor, the Rev. Dr. Elijah Paddy——a hot muffin, Mary Jane! MARY JANE. What will master say, mum? There won't be no breakfast left. He has the alarm-clock set in his hat-bath to wake him at seven, and it made such a noise, mum, that he flung it out the window and went to sleep again. And he's been rampaging round and ordering breakfast on the table for the last hour.



Policing the Plains
By R. G. MacBeth
334 Pages, $19.24 USD, ISBN: 1478282266
A few years ago I was away north of Edmonton on the trail of Alexander Mackenzie, fur trader and explorer, who a century and a quarter before had made the amazing journey from the prairies over the mountains to the Pacific Coast. We looked with something like awe and wonder at the site of the old fort near the famous Peace River Crossing, from which, after wintering there in 1792, he had started out on that unprecedented expedition, and we followed up the majestic Peace to Fort Dunvegan, past whose present location Mackenzie had gone his adventurous way.

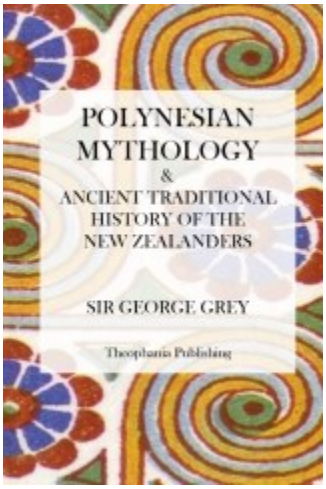


Political Ideals

By Bertrand Russell

74 Pages, $16.24 USD, ISBN: 1470079232

In dark days, men need a clear faith and a well-grounded hope; and as the outcome of these, the calm courage which takes no account of hardships by the way. The times through which we are passing have afforded to many of us a confirmation of our faith. We see that the things we had thought evil are really evil, and we know more definitely than we ever did before the directions in which men must move if a better world is to arise on the ruins of the one which is now hurling itself into destruction.

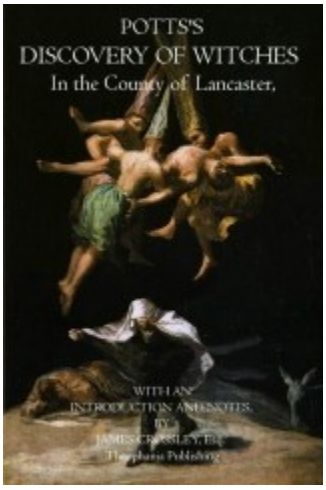


Polynesian Mythology

By Sir George Grey

244 Pages, $20.24 USD, ISBN: 1470079283

TOWARDS the close of the year 1845 I was suddenly and unexpectedly required by the British Government to administer the affairs of New Zealand, and shortly afterwards received the appointment of Governor-in-chief of those Islands. When I arrived in them, I found Her Majesty's native subjects engaged in hostilities with the Queen's troops, against whom they had up to that time contended with considerable success; so much discontent also prevailed generally amongst the native population, that where disturbances had not yet taken place, there was too much reason to apprehend they would soon break out, as they shortly afterwards did, in several parts of the Islands.

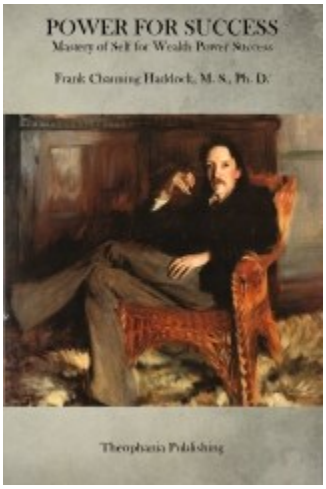


Potts's Discovery of Witches: In the County of Lancaster

By James Crossley, Esq.

310 Pages, $22.24 USD, ISBN: 1770831304

Were not every chapter of the history of the human mind too precious an inheritance to be willingly relinquished, for appalling as its contents may be, the value of the materials it may furnish may be inestimable, we might otherwise be tempted to wish that the miserable record in which the excesses occasioned by the witch mania are narrated, could be struck out of its pages, and for ever cancelled.

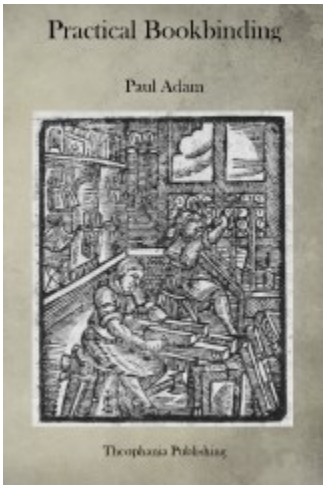


Power for Success

By Frank Channing Haddock

94 Pages, $16.24 USD, ISBN: 1515352315

This book brings to a close that portion of MASTERY OF SELF, which deals with the art of Success-Magnetism. Acquiring magnetism is a constructive effort. It is a building process. You are rearing a structure. You rise, from the foundation, through successive stories to the culminating peak. The most pleasing, notable structures men build from granite and steel and wood, tower like a Woolworth Building or a Rheims Cathedral—higher and higher, until they finally reach a gold- tipped crown or spire, high in the sunlit sky. And so, in rearing your invisible shrine of personal Success- magnetism, we now come to the topmost peak of the structure.

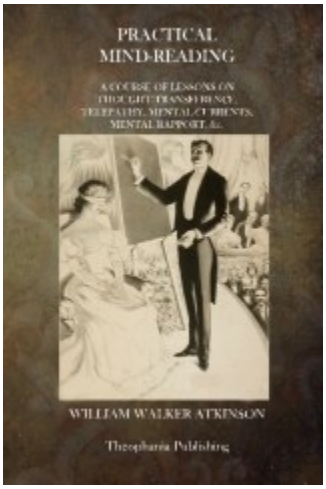


Practical Bookbinding

By Paul Adam

170 Pages, $18.24 USD, ISBN: 1515352323

Nowadays the bookbinder does not bind only those books given to him for this purpose as was the case in former years, for present conditions necessitate his undertaking many kinds of work which have little or nothing to do with the binding of books, particularly such as are connected with the making or finishing of printed matter and paper goods, or where pasting, gumming, and gluing are required, which, in their turn, are connected with paper and cardboard. On the other hand, some branches of the bookbinder's craft have now become quite distinct, and have developed into special industries, and have so enlarged and extended that even their particular methods of working and technical terms have quite changed.

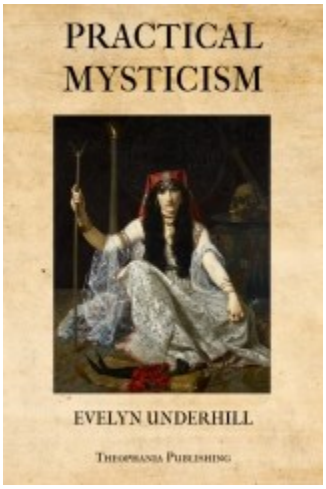


Practical Mind-Reading: A Course of Lessons on Thought-Transference, Telepathy, Mental Currents, Mental Rapport, &c.

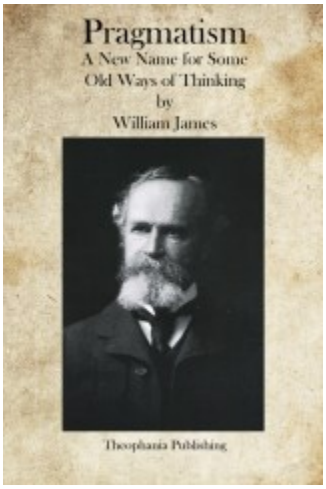
By William Walker Atkinson

74 Pages, $16.24 USD, ISBN: 1515337715

Only a few years ago the general public was in almost total ignorance of the great truth of Thought Transference, Thought Projection, Telepathy, or Mind Reading. It is true that here and there were to be found a few scientists earnestly investigating and eagerly uncovering the hidden truths concerning the subjects. But the mass of the people were either entirely ignorant of the subject, or else were intensely skeptical of any thing concerning the matter, laughing to scorn the daring thinker who ventured to express his interest or belief in this great scientific phenomena.



Practical Mysticism
By Evelyn Underhill
130 Pages, $15.24 USD, ISBN: 1478392746
This little book, written during the last months of peace, goes to press in the first weeks of the great war. Many will feel that in such a time of conflict and horror, when only the most ignorant, disloyal, or apathetic can hope for quietness of mind, a book which deals with that which is called the "contemplative" attitude to existence is wholly out of place. So obvious, indeed, is this point of view, that I had at first thought of postponing its publication. On the one hand, it seems as though the dreams of a spiritual renaissance, which promised so fairly but a little time ago, had perished in the sudden explosion of brute force.



Pragmatism: A New Name for Some Old Ways of Thinking
By William James
168 Pages, $19.24 USD, ISBN: 1469934434
A number of tendencies that have always existed in philosophy have all at once become conscious of themselves collectively, and of their combined mission; and this has occurred in so many countries, and from so many different points of view, that much unconcerted statement has resulted. I have sought to unify the picture as it presents itself to my own eyes, dealing in broad strokes, and avoiding minute controversy. Much futile controversy might have been avoided, I believe, if our critics had been willing to wait until we got our message fairly out.

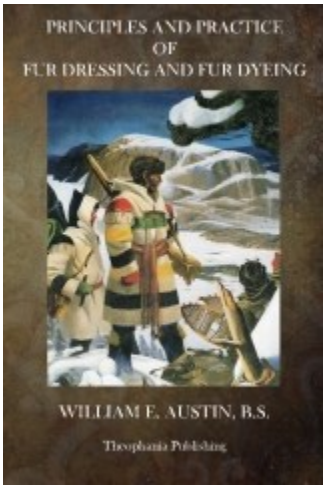
Preparative toward a Natural and Ex
By Francis Bacon
32 Pages, $16.24 USD, ISBN: 1770833153
My object in publishing my Instauration by parts is that some portion of it may be put out of peril. A similar reason induces me to subjoin here another small portion of the work, and to publish it along with that which has just been set forth. This is the description and delineation of a natural and experimental history, such as may serve to build philosophy upon, and containing material true and copious and aptly digested for the work of the interpreter which follows. The proper place for it would be when I come in due course to the "Preparatives" of Inquiry.



Principles and Practice of Fur Dressing and Fur Dyeing
By William E. Austin
236 Pages, $20.24 USD, ISBN: 1515352536
The great increase in the use of furs during the past few decades has caused the fur dressing and dyeing industry to rise from relative insignificance to considerable importance as a branch of applied chemistry. The past eight years, moreover, have witnessed the virtual transference of the leadership in the dressing and dyeing of furs from Europe to America, and in the quality and variety of products, the domestic industry is now in every way the equal of, and in many respects superior to the foreign.

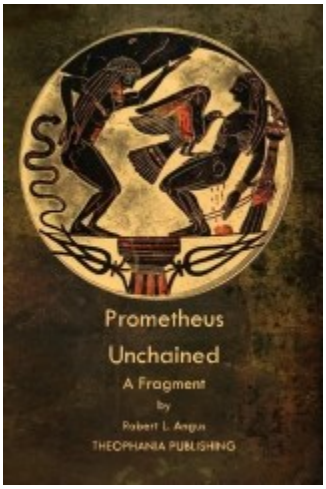
Procopius: Secret History

By Richard Atwater

148 Pages, $17.24 USD, ISBN: 1484856821

Procopius of Caesarea (in Palestine) is the most important source for information about the reign of the emperor Justinian and his wife Theodora. From 527 to 531 Procopius was a counsel the great general of the time, Belisarius. He was on Belisarius's first Persian campaign, and later took part in an expedition against the Vandals. He was in Italy on the Gothic campaign until 540, after which he lived in Constantinople, since he describes the great plague of 542 in the capital.

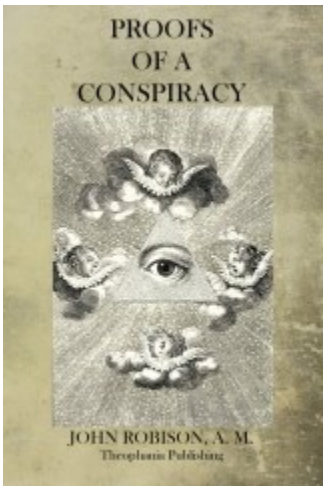


Prometheus Unchained: A Fragment

By Robert L. Angus

62 Pages, $20.24 USD, ISBN: 1517668948

Its not worth the paper its written on. I am not proud of it, but I have to get it out. I've been exorcising my demons all of these years. I hope that this represents my final passage. I see here that I was mourning the loss of my mother, my failed relationships, my broken home, my poor relationship with my kids, and my difficult family. I do hope that this has gotten me beyond all of that tripe and gristle. I don't have any more words for it. It makes me look like a whiney adolescent. I want to be a decent writer, not yearning for meaning, but finding meaning in an of itself. So, I offer this sacrifice to you, hopefully it will be my last. We unleash Prometheus again upon the earth, and his liver intact, will give him some semblance of life. Rave on, keen spirit.



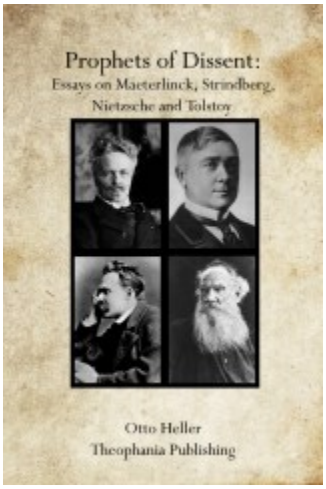
Proofs of a Conspiracy

By John Robison

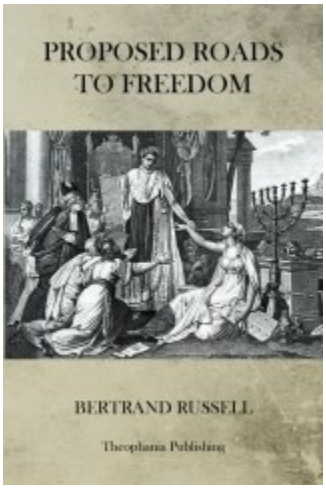
340 Pages, $23.24 USD, ISBN: 177083284X

The Association of which I have been speaking, is the Order of ILLUMINATI, founded in 1775, by Dr. Adam Weishaupt, professor of Canon law in the university of Ingolstadt, and abolished in 1786 by the Elector of Bavaria, but revived immediately after, under another name, and in a different form, all over Germany. It was again detected, and seemingly broken up; but it had by this time taken so deep root that it still subsists without being detected, and has spread into all the countries of Europe. It took its first rise among the Free Masons, but is totally different from Free Masonry.

Prophetical, Educational and Playing Cards
By Mrs. John King Van Rensselaer
280 Pages, $21.24 USD, ISBN: 151535251X
If an apology is needed for writing again on the subject of playing cards, the excuse may be offered that new lights have been turned on the subject, so that there is fresh information to lay before the public, derived from a close and exhaustive study of the European libraries and museums, as well as of the pictures on the Playing Cards themselves or prints found in those repositories, and also in the collection owned by the writer; for these speak their histories to those who regard their symbols with appreciative knowledge, since they had an immense significance when originally adopted. It is twenty years since The Devil's Picture Book was published and it is now out of print.



Prophets of Dissent: Essays on Maeterlinck, Strindberg, Nietzsche and Tolstoy
By Otto Heller
126 Pages, $16.24 USD, ISBN: 1770832149
The collocation of authors so widely at variance in their moral and artistic aims as are those assembled in this little book may be defended by the safe and simple argument that all of these authors have exerted, each in his own way, an influence of singular range and potency. By fairly general consent they are the foremost literary expositors of important modern tendencies. It is, therefore, of no consequence whether or not their ways of thinking fit into our particular frame of mind; what really matters is that in this small group of writers more clearly perhaps than in any other similarly restricted group the basic issues of the modern struggle for social transformation appear to be clearly and sharply joined.



Proposed Roads To Freedom
By Bertrand Russell
162 Pages, $17.24 USD, ISBN: 1470082926
THE attempt to conceive imaginatively a better ordering of human society than the destructive and cruel chaos in which mankind has hitherto existed is by no means modern: it is at least as old as Plato, whose Republic set the model for the Utopias of subsequent philosophers. Whoever contemplates the world in the light of an ideal—whether what he seeks be intellect, or art, or love, or simple happiness, or all together—must feel a great sorrow in the evils that men needlessly allow to continue, and—if he be a man of force and vital energy—an urgent desire to lead men to the realization of the good which inspires his creative vision.

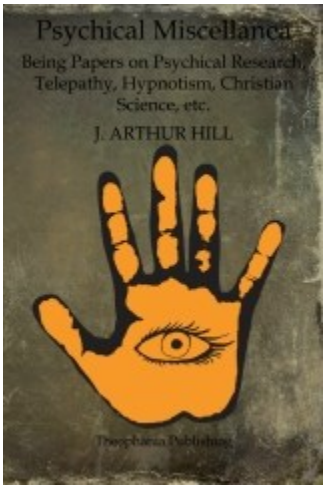
Psychic Phenomena of Jamaica

By Joseph J. Williams S.J.

214 Pages, $20.24 USD, ISBN: 1926842472

Since that fateful day, about twenty-seven years ago, I have made three other visits to Jamaica and I have spent there in all nearly six years. It has been my good fortune to penetrate to some of the least accessible parts of mountain and "bush" and I have lived for considerable time in those remote districts where superstitious practices are most prevalent. It has been my constant purpose to forward a scientific study of such unusual phenomena as might be regarded as psychic, both by discussing the incidents with natives of every class and colour, and by seeking out those who were reputed as practitioners of the black man's witchcraft.



Psychical Miscellanea: Being Papers

By J. Arthur Hill

108 Pages, $17.24 USD, ISBN: 1468023985

There are many who in these stressful days have no time for even one volume on this kind of thing, and for them, or such of them as may read this, I have tried in the present article to give an idea of what psychical research is, on the spiritualistic side, omitting the medical side which concerns itself with suggestive therapeutics. The article was first written as a paper which was read before a society of clergy in Bradford, whose request for it was a significant and pleasing indication that ministers are aware of the importance of the subject. They are realising that psychical research is a powerful support to religious faith, and that its results provide comfort for the bereaved. We live in a scientific age, and the sorrowing heart asks for more than a text and an assurance that it is God’s will and all for the best...

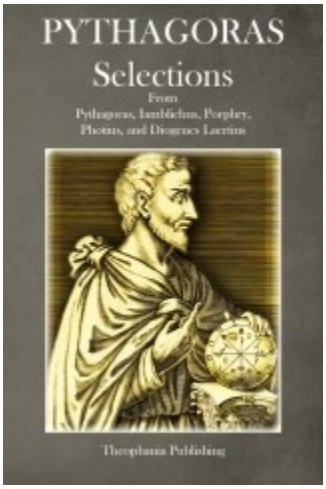
Pythagoras and the Delphic Mysteries

By Edouard Schure

150 Pages, $17.24 USD, ISBN: 1770832165

Although appearing in the full light of historical times, Pythagoras has come down to us as almost a legendary character. The main reason for this is the terrible persecution of which he was the victim in Sicily, and which cost so many of his followers their lives. Some were crushed to death beneath the ruins of their burning schools, others died of hunger in temples. The Master's memory and teaching were only perpetuated by such survivors as were able to escape into Greece. Plato, at great trouble and cost, obtained through Archytas a manuscript of the Master, who, it must be mentioned, never transferred to writing his esoteric teachings except under symbols and secret characters.



Pythagoras Selections

By Pythagoras

484 Pages, $27.24 USD, ISBN: 1484857070

Since wise people are in the habit of invoking the divinities at the beginning of any philosophic consideration, this is all the more necessary on studying that one which is justly named after the divine Pythagoras. Inasmuch as it emanated from the divinities it could not be apprehended without their inspiration and assistance. Besides, its beauty and majesty so surpasses human capacity, that it cannot be comprehended in one glance. Gradually only can some details of it be mastered when, under divine guidance we approach the subject with a quiet mind.

Quacks and Grafters

By Ex Osteopath

98 Pages, $16.24 USD, ISBN: 1475011679

There has been but one other period in the history of medicine when so many systems of the healing art were in vogue. In the seventeenth century, during the Reform Period, following the many epoch-making discoveries, as the blood and lymph circulation; when alchemy was abandoned and chemistry became a science; when Galileo regenerated physics, and zoology and botany were largely extended; when Newton enunciated the laws of gravitation; when cinchona bark, the great febrifuge, was introduced into Europe, and the cell doctrine was founded by Hooke, Malpighi and Grew, the old Hippocratic, Galenic and Arabic systems of medicine were undermined.

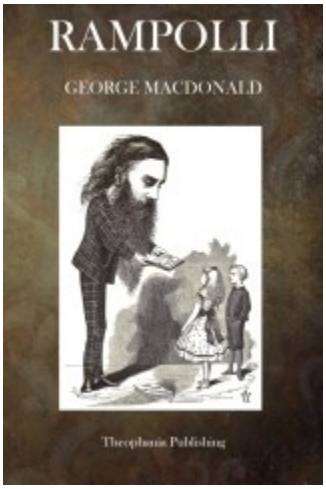
Ramakrishna: His Life and Sayings

By Hon. F. Max Muller K.M.

208 Pages, $19.24 USD, ISBN: 1497465516

THE name of Râmakrishna has lately been so often mentioned in Indian, American, and English newspapers that a fuller account of his life and doctrine seemed to me likely to be welcome, not only to the many who take an interest in the intellectual and moral state of India, but to the few also to whom the growth of philosophy and religion, whether at home or abroad, can never be a matter of indifference. I have therefore tried to collect as much information as I could about this lately-deceased Indian Saint (died in 1886), partly from his own devoted disciples, partly from Indian newspapers, journals, and books in which the principal events of his life were chronicled, and his moral and religious teaching described and discussed, whether in a friendly or unfriendly spirit.

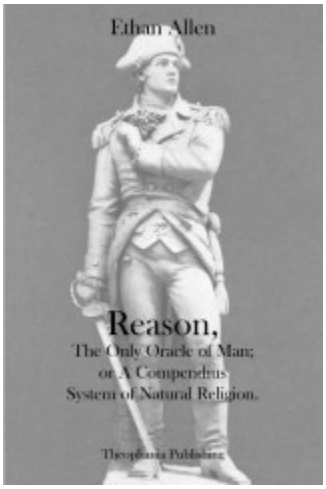


Rampolli

By George Macdonald

192 Pages, $18.24 USD, ISBN: 1497488893

I think every man who can should help his people to inherit the earth by bringing into his own of the wealth of other tongues. In the flower-pots of translation I offer these few exotics, with no little labour taught to exist, I hope to breathe, in English air. Such labour is to me no less serious than delightful, for to do a man's work, in the process of carrying over, more injury than must be, is a serious wrong. I have endeavoured, first of all, to give the spirit of the poetry. Next, I have sought to retain each individual meaning that goes to form the matter of a poem. Third, I have aimed at preserving the peculiar mode, the aroma of the poet's style, so far as I could do it without offence to the translating English.



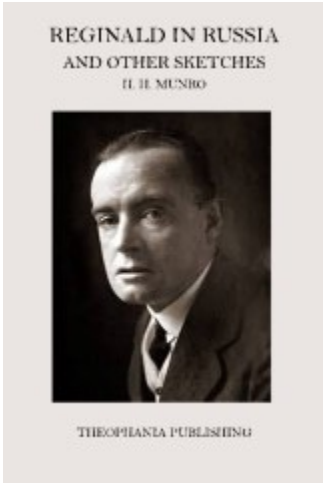
Reason The Only Oracle of Man

By Ethan Allen

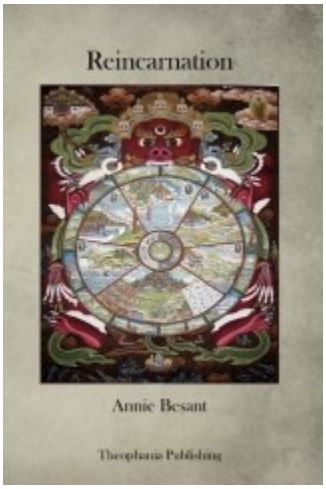
162 Pages, $17.24 USD, ISBN: 1469934469

Colonel Ethan Allen, the author of Oracles of Reason, was the son of Joseph Allen, a native of Coventry, Connecticut, a farmer in moderate circumstances. He afterwards resided in Litchfield, where Ethan was born in the year 1739. The family consisted of eight children, of whom our author was the eldest. But few incidents connected with his early life are known. We are apprised, however, that notwithstanding his education was very limited, his ambition to prove himself worthy of that attention which superior intellect ever commands, induced him diligently to explore every subject that came under his notice.

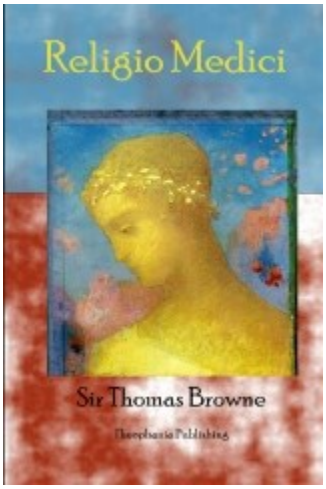
Red Money
By Fergus Hume
480 Pages, $27.25 USD, ISBN: 198185455X
"Gypsies! How very delightful! I really must have my fortune told. The dear things know all about the future." As Mrs. Belgrove spoke she peered through her lorgnette to see if anyone at the breakfast-table was smiling. The scrutiny was necessary, since she was the oldest person present, and there did not appear to be any future for her, save that very certain one connected with a funeral. But a society lady of sixty, made up to look like one of forty (her maid could do no more), with an excellent digestion and a constant desire, like the Athenians of old, for "Something New!" can scarcely be expected to dwell upon such a disagreeable subject as death.



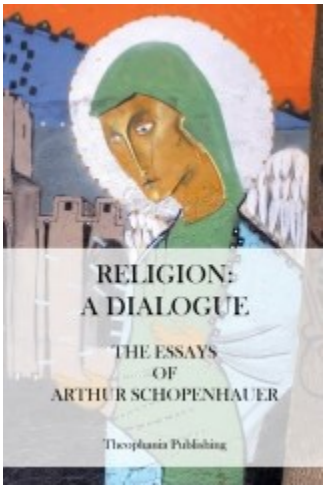
Reginald in Russia and Other Stories
By H.H. Munro
110 Pages, $16.24 USD, ISBN: 1519362331
Reginald sat in a corner of the Princess's salon and tried to forgive the furniture, which started out with an obvious intention of being Louis Quinze, but relapsed at frequent intervals into Wilhelm II. He classified the Princess with that distinct type of woman that looks as if it habitually went out to feed hens in the rain. Her name was Olga; she kept what she hoped and believed to be a fox-terrier, and professed what she thought were Socialist opinions. It is not necessary to be called Olga if you are a Russian Princess; in fact, Reginald knew quite a number who were called Vera; but the fox-terrier and the Socialism are essential.



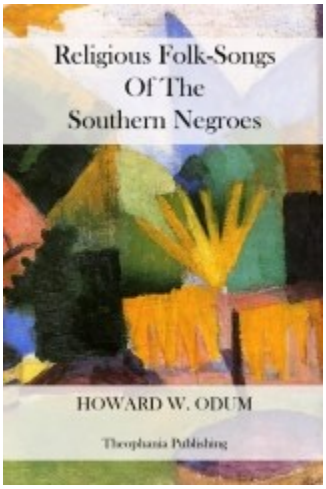
Reincarnation
By Annie Besant
58 Pages, $16.24 USD, ISBN: 1484875176
FEW words are needed in sending this little book out into the world. It is the second of a series of Manuals designed to meet the public demand for a simple exposition of Theosophical teachings. Some have complained that our literature is at once too abstruse, too technical, and too expensive for the ordinary reader, and it is our hope that the present series may succeed in supplying what is a very real want. Theosophy is not only for the learned; it is for all. Perhaps among those who in these little books catch their first glimpse of its teachings, there may be a few who will be led by them to penetrate more deeply into its philosophy, its science, and its religion, facing its abstruser problems with the student's zeal and the neophyte's ardour.



Religio Medici
By Sir Thomas Browne
80 Pages, $13.24 USD, ISBN: 1926842480
And to be true, and speak my soul, when I survey the occurrences of my life, and call into account the Finger of GOD, I can perceive nothing but an abyss and mass of mercies, either in general to mankind, or in particular to my self. And (whether out of the prejudice of my affection, or an inverting and partial conceit of His mercies, I know not; but) those which others term crosses, afflictions, judgements, misfortunes, to me, who inquire farther into them then their visible effects, they both appear, and in event have ever proved, the secret and dissembled favours of His affection.



Religion: A Dialogue. - The Essays
By Arthur Schopenhauer
86 Pages, $16.24 USD, ISBN: 1475011717
Schopenhauer is one of the few philosophers who can be generally understood without a commentary. All his theories claim to be drawn direct from the facts, to be suggested by observation, and to interpret the world as it is; and whatever view he takes, he is constant in his appeal to the experience of common life. This characteristic endows his style with a freshness and vigor which would be difficult to match in the philosophical writing of any country, and impossible in that of Germany. If it were asked whether there were any circumstances apart from heredity, to which he owed his mental habit, the answer might be found in the abnormal character of his early education, his acquaintance with the world rather than with books, the extensive travels of his boyhood, his ardent pursuit of knowledge for its own sake and without regard to the emoluments and endowments of learning.



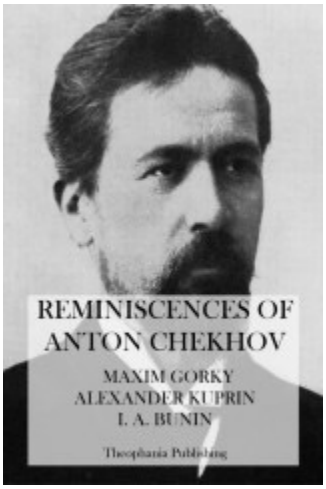
Religious Folk-Songs of the Southern Negroes
By Howard W. Odum
138 Pages, $17.24 USD, ISBN: 1475036825
To know the soul of a people and to find the source from which flows the expression of folk-thought is to comprehend in a large measure the capabilities of that people. To obtain the truest expression of the folk-mind and feeling is to reveal much of the inner-consciousness of a race. And the knowledge of those evidences which are most representative of race life constitutes the groundwork of a knowledge of social and moral tendencies, hence of social and moral needs. The student of race traits and tendencies must accept testimony from within the race, and in the study of race character the value of true expressions of the feelings and mental imagery cannot be overestimated.

Religious Reality

By A.E.J. Rawlinson

140 Pages, $17.24 USD, ISBN: 1770832823

This is a book which is wanted. Thoughtful men, in every class, are not afraid of theology, i.e. of a reasoned account of their religion, but they want a theology which can be stated without conventions and technicalities; they do not at all care for a religion which pretends to do away with all mystery, but they are glad to be assured of the essential reasonableness of the Christian Faith; they do not expect a ready made solution of the problem of evil

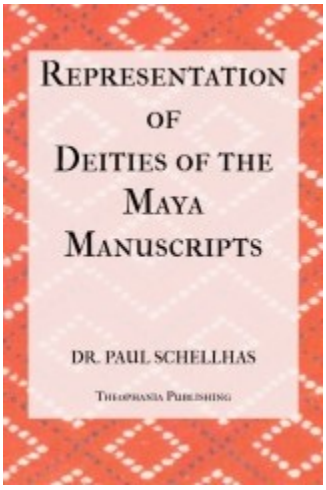


Reminiscences of Anton Chekhov

By Maxim Gorky

66 Pages, $16.24 USD, ISBN: 1475011784

Once he invited me to the village Koutchouk-Koy where he had a tiny strip of land and a white, two-storied house. There, while showing me his “estate,” he began to speak with animation: “If I had plenty of money, I should build a sanatorium here for invalid village teachers. You know, I would put up a large, bright building—very bright, with large windows and lofty rooms. I would have a fine library, different musical instruments, bees, a vegetable garden, an orchard.... There would be lectures on agriculture, mythology.... Teachers ought to know everything, everything, my dear fellow.”

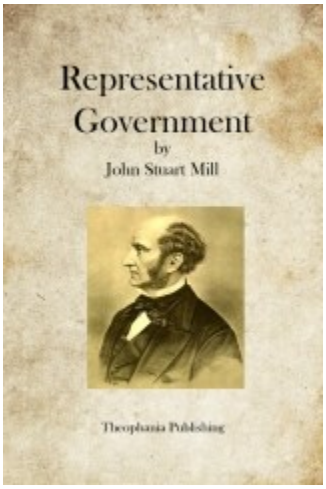


Representation of Deities of the Maya Manuscripts

By Paul Schellhas

54 Pages, $16.24 USD, ISBN: 1475257023

Since the first edition of this pamphlet appeared in the year 1897, investigation in this department of science has made such marked progress, notwithstanding the slight amount of material, that a revision has now become desirable. It can be readily understood, that a new science, an investigation on virgin soil, such as the Maya study is, makes more rapid progress and develops more quickly than one pertaining to some old, much explored territory.

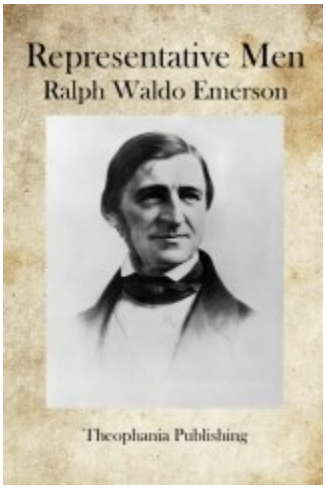


Representative Government

By John Stuart Mill

304 Pages, $23.24 USD, ISBN: 1469934507

THOSE who have done me the honour of reading my previous writings will probably receive no strong impression of novelty from the present volume; for the principles are those to which I have been working up during the greater part of my life, and most of the practical suggestions have been anticipated by others or by myself. There is novelty, however, in the fact of bringing them together, and exhibiting them in their connection; and also, I believe, in much that is brought forward in their support. Several of the opinions at all events, if not new, are for the present as little likely to meet with general acceptance as if they were.

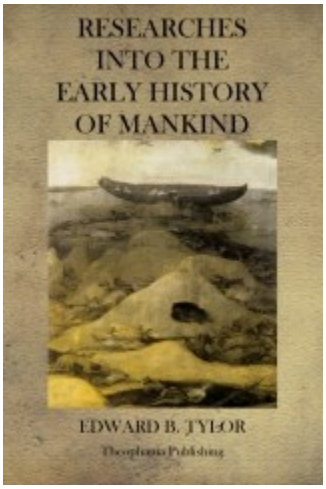


Representative Men

By Ralph Waldo Emerson

232 Pages, $22.24 USD, ISBN: 1469934515

IT IS NATURAL to believe in great men. If the companions of our childhood should turn out to be heroes, and their condition regal it would not surprise us. All mythology opens with demigods, and the circumstance is high and poetic; that is, their genius is paramount. In the legends of the Gautama, the first men ate the earth and found it deliciously sweet. Nature seems to exist for the excellent. The world is upheld by the veracity of good men: they make the earth wholesome. They who lived with them found life glad and nutritious. Life is sweet and tolerable only in our belief in such society; and, actually or ideally, we manage to live with superiors.



Researches into the Early History of Mankind

By Edward B. Tylor

436 Pages, $25.24 USD, ISBN: 1470101335

IN studying the phenomena of knowledge and art, religion and mythology, law and custom, and the rest of the complex whole which we call Civilization, it is not enough to have in view the more advanced races, and to know their history so far as direct records have preserved it for us. The explanation of the state of things in which we live has often to be sought in the condition of rude and early tribes; and without a knowledge of this to guide us, we may miss the meaning even of familiar thoughts and practices.

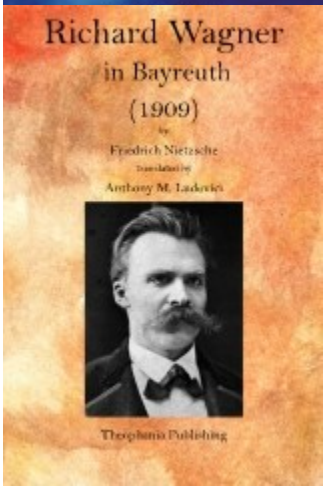
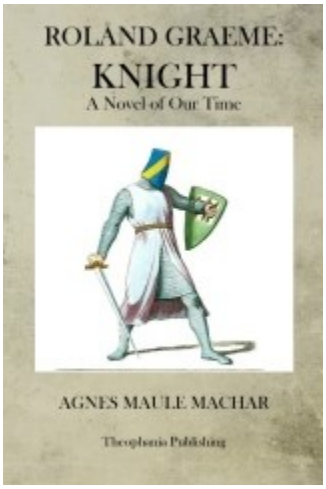
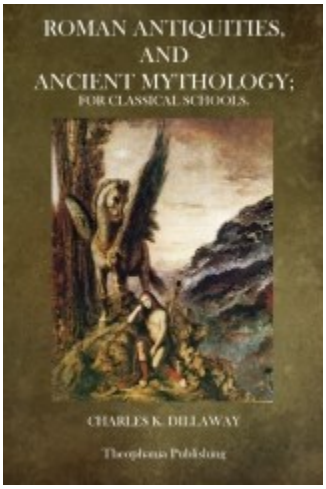
Only a scar on a sapling That is almost overgrown; A withered snag far up the stream Where the ax marks still are shown. This tells 'tis the trail of a trapper Made many years ago, So I take up the trail and follow, And I care not where I go.



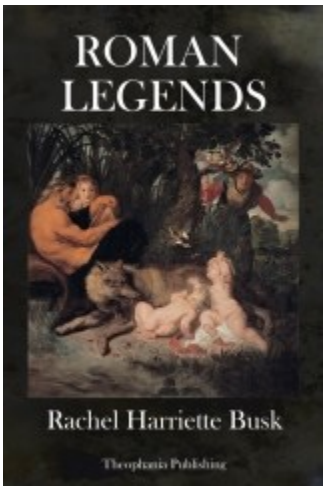
Richard Wagner in Bayreuth
By Friedrich Neitzsche
108 Pages, $16.24 USD, ISBN: 1519682530
FOR an event to be great, two things must be united—the lofty sentiment of those who accomplish it, and the lofty sentiment of those who witness it. No event is great in itself, even though it be the disappearance of whole constellations, the destruction of several nations, the establishment of vast empires, or the prosecution of wars at the cost of enormous forces: over things of this sort the breath of history blows as if they were flocks of wool. But it often happens, too, that a man of might strikes a blow which falls without effect upon a stubborn stone; a short, sharp report is heard, and all is over.



Roland Graeme: Knight
By Agnes Maule Machar
282 Pages, $21.24 USD, ISBN: 1470101378
He was now hard at work, with the critical presence of the reporter of the Minerva painfully before his mind, as he racked his brain for new and original thoughts, fresh illustrations, apt and terse expressions, with an eager anxiety that often threatened to put too great a strain on even his fine and well-balanced physique. There were indeed already, in his inward experience, some unwelcome tokens of overstrain in a growing nervous irritability, and a miserable day, now and then, in which all the brightness of life, and faith, and hope seemed to disappear before the deadly touch of nervous prostration.



Roman Antiquities and Ancient Mythology
By Charles K. Dillaway
224 Pages, $19.24 USD, ISBN: 1497537223
The editor has endeavored in the following pages to give some account of the customs and institutions of the Romans and of ancient Mythology in a form adapted to the use of classical schools. In making the compilation he has freely drawn from all creditable sources of information within his reach, but chiefly from the following, sketches of the institutions and domestic customs of the Romans, published in London a few years since; from the works of Adams, Kennett, Lanktree, Montfaucon, Middleton and Gesner; upon the subject of mythology, from Bell, Spense, Pausanias, La Pluche, Plutarch, Pliny, Homer, Horace, Virgil, and many others to whom reference has been occasionally made.



Roman Legends

I had heard it so often positively asserted that modern Italy had no popular mythology, and no contribution of special versions to offer to the world's store of Traditionary Tales, that, while possessing every opportunity, I was many years without venturing to set myself against the prevailing opinion so far as to attempt putting it to the proof.

It is now more than ten years since I met, for the last time, Michael Robartes, and for the first time and the last time his friends and fellow students; and witnessed his and their tragic end, and endured those strange experiences, which have changed me so that my writings have grown less popular and less intelligible, and driven me almost to the verge of taking the habit of St. Dominic.

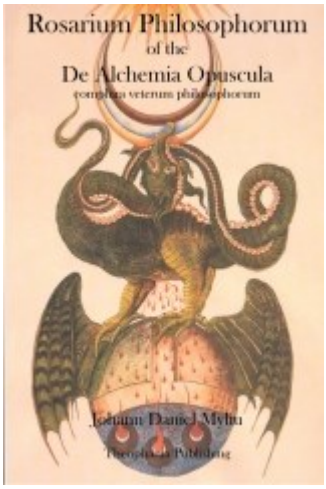
Stoddard's telegram was brought to me on the Glenarm pier at four o'clock Tuesday afternoon, the fifth of June. I am thus explicit, for all the matters hereinafter described turn upon the receipt of Stoddard's message, which was, to be sure, harmless enough in itself, but, like many other scraps of paper that blow about the world, the forerunner of confusion and trouble. My friend, Mr. John Glenarm, had gone abroad for the summer with his family and had turned over to me his house at Annandale that I might enjoy its seclusion and comfort while writing my book on Russian Rivers.



Rosarium Philosophorum: of the De Alchemia Opuscula

By Johann Daniel Myliu

They who desire to have the most true knowledge of the greater science of the philosophical Art, let them diligently peruse this little book and often times read it over and they shall obtain their prosperous and wished desire. Rossum´s Universal Robots
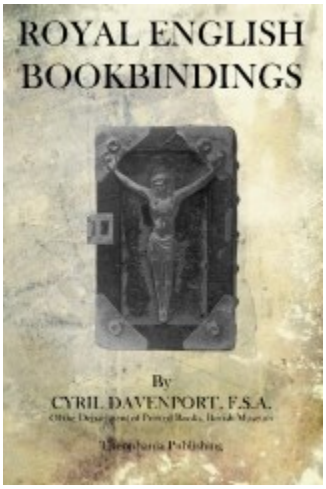
By Karel Capek
92 Pages, $16.24 USD, ISBN: 1770833188
R.U.R. is a science fiction play in the Czech language by Karel Capek. R.U.R. stands for Rossum's Universal Robots, an English phrase used as the subtitle in the Czech original. It premiered in 1921 and introduced the word "robot" to the English language and to science fiction as a whole.The play begins in a factory that makes artificial people called "robots". Unlike the modern usage of the term, these creatures are closer to the modern idea of androids or even clones, as they can be mistaken for humans and can think for themselves. They seem happy to work for humans, although that changes and a hostile robot rebellion leads to the extinction of the human race.



Royal English Bookbindings
By Cyril Davenport F.S.A.
124 Pages, $16.24 USD, ISBN: 1515337820
It is curious that twice in English history the royal libraries have been given to the nation. The ancient royal collection, containing manuscripts from the reign of Richard III., was added to by each sovereign in turn; but it seems to have been brought into notice and taken special care of by Prince Henry, the eldest son of James I. Out of his own private income, this Prince added largely to the old collection, and purchased the important libraries of Lord Lumley, of a Welshman named Maurice, and that of Isaac Casaubon.

Rule of the Monk: Or, Rome In The Nineteenth Century.By General Garibaldi
312 Pages, $22.24 USD, ISBN: 1469940280
The renowned writer of Caesar's "Commentaries" did not think it necessary to furnish a preface for those notable compositions, and nobody has ever yet attempted to supply the deficiency—if it be one. In truth, the custom is altogether of modern times. The ancient heroes who became authors and wrote a book, left their work to speak for itself—"to sink or swim," we had almost said, but that is not exactly the case. Cæsar carried his "Commentaries" between his teeth when he swam ashore from the sinking galley at Alexandria, but it never occurred to him to supply posterity with a prefatory flourish.

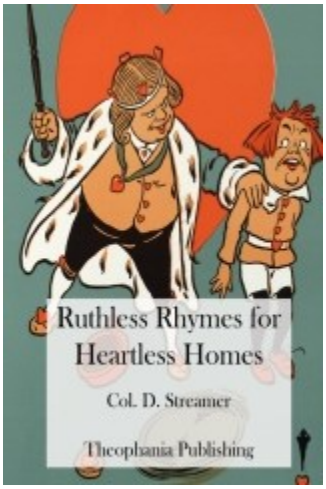
Russian Etymological Dictionary FOUR VOLUME SET

By Vladimir Orel ALEPH ACADEMIC (Theophania Publishing)

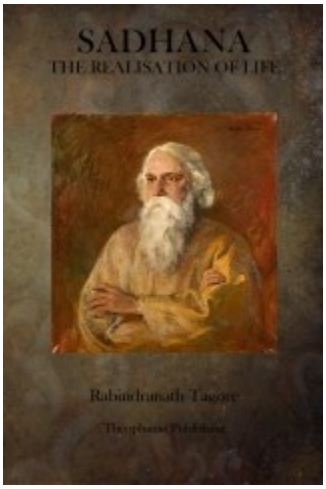
Vol 1 414 Pages, $25.24 USD, ISBN: 1770833005, Vol 2 400 Pages, $25.24 USD, ISBN: 1770833013
Vol 3 332 Pages, $25.24 USD, ISBN: 1770833021 (Pub. Posthumously), Vol 4 302 Pages, $25.24 USD, ISBN: 177083026X (Pub. Posthumously)

This book is a new concise etymological lexicon of the Russian literary language. It provides up to date etymological explanations of thousands of elements of the modern Russian vocabulary. A valuable contribution to Russian, Slavic and Indo European linguistics, four books of the dictionary offers to its readers, linguists, historians, archaeologists, anthropologists, and students of Russian, with a detailed and accurate knowledge of the origins of words, including modern colloquialisms, recent loanwords and dialectal forms. Vladimir Orel, PhD in Linguistics (1981), Russian Academy of Sciences, is a researcher in the field of Slavic and Indo European historical linguistics. He has published Hamito Semitic Etymological Dictionary (1995), The Language of Phrygians (1997), Albanian Etymological Dictionary (1998), The Concise Historical Grammar of Albanian (2000), and Handbook of Germanic Etymology (2003), as well as a number of articles in Russian, Slavic and Indo-European etymology.

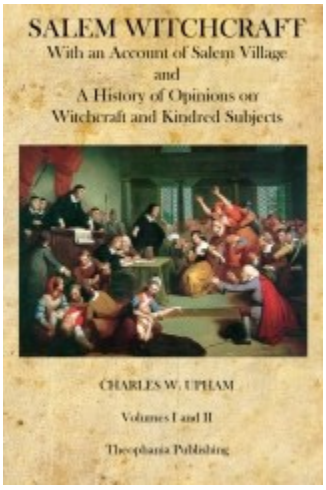
Acknowledgements: In the spring and summer of 2007, Dr. Vladimir Orel worked simultaneously on Volumes Three and Four of this series, his Russian Etymological Dictionary, which he hoped to see published by December 2007. In late summer of that year, Dr. Orel suffered a massive stroke and passed away, leaving a son, two daughters, and many friends to mourn - and both volumes unfinished. Thanks to the superior skills of linguistic scholar Dr. Vitalij Shevoroshkin, Volume Three was quickly completed and published by the end of 2007. Volume Four was another story. Far less complete than its predecessor, the volume needed significant work to flesh out the entries begun by Dr. Orel. Again, Dr. Shevoroshkin's skill and time were invaluable in completing the text in view of his own projects and international teaching. But more assistance and time were required. Several other very busy scholars lent their hands and minds to the Russian Etymological Dictionary's completion. In particular, we would like to express our gratitude to A.Lehrman and B. Podolsky, without whose time and assistance this text would be a dusty, unfinished manuscript. For their assistance with this volume, we would also like to thank G. Barinova, V. Blažek, Zh. Varbot, L. Kasatin, L. Krysin, and L. Kulikov. Thanks to the work of the above scholars, Volume Four has been belatedly but successfully completed within the framework of Dr. Orel's original plan and mindset.



Ruthless Rhymes for Heartless Homes
By Col. D. Streamer
52 Pages, $15.24 USD, ISBN: 1475011792
I NEED no Comments of the Press, No critic's cursory caress, No paragraphs my book to bless With praise, or ban with curses, So long as You, for whom I write, Whose single notice I invite, Are still sufficiently polite To smile upon my verses. If You should seek for Ruthless Rhymes (In memory of Western climes), And, for the sake of olden times, Obtain this new edition, You must not be surprised a bit, Nor even deem the act unfit, That I have dedicated it To You, without permission.

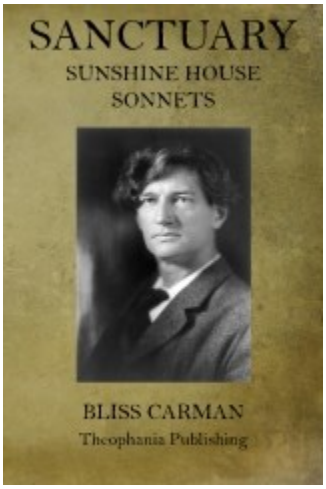


Sadhana: The Realisation of Life
By Rabindranath Tagore
142 Pages, $17.24 USD, ISBN: 1497537452
Perhaps it is well for me to explain that the subject matter of the papers published in this book has not been philosophically treated, nor has it been approached from the scholar's point of view. The writer has been brought up in a family where texts of the Upanishads are used in daily worship; and he has had before him the example of his father, who lived his long life in the closest communion with God, while not neglecting his duties to the world, or allowing his keen interest in all human affairs to suffer any abatement.

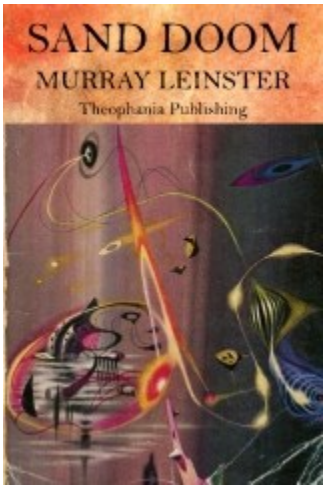


Salem Witchcraft: With an Account of Salem Village and a History of Opinions on Witchcraft and Kindred Subjects
By Charles W. Upham
742 Pages, $35.24 USD, ISBN: 1497537541
THIS work was originally constructed, and in previous editions appeared, in the form of Lectures. The only vestiges of that form, in its present shape, are certain modes of expression. The language retains the character of an address by a speaker to his hearers; being more familiar, direct, and personal than is ordinarily employed in the relations of an author to a reader. The former work was prepared under circumstances which prevented a thorough investigation of the subject. Leisure and freedom from professional duties have now enabled me to prosecute the researches necessary to do justice to it.

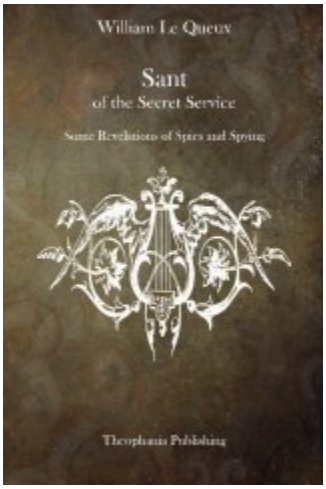
Salomy Jane
By Bret Harte
44 Pages, $16.25 USD, ISBN: 1981201734
Only one shot had been fired. It had gone wide of its mark,—the ringleader of the Vigilantes,—and had left Red Pete, who had fired it, covered by their rifles and at their mercy. For his hand had been cramped by hard riding, and his eye distracted by their sudden onset, and so the inevitable end had come. He submitted sullenly to his captors; his companion fugitive and horse-thief gave up the protracted struggle with a feeling not unlike relief. Even the hot and revengeful victors were content. They had taken their men alive.



Sanctuary: Sunshine House Sonnets
By Bliss Carman
46 Pages, $16.24 USD, ISBN: 1519338821
Whence came the sweet insurgence of the Spring That loosed the wild bird songs, the willow buds, The twilight chorus in the marsh, and shone Within the visionary soul of Man?... When we behold in August on a day The goldenrod upon a thousand trails, The asters in blue drifts through clearings wild, And every roadside gay with meadow rue— The poet's recompense and traveller's joy— When, thrilled by beauty passing thought, we sense That harmony which is the artist's peace And presage of creation, then we know One walked with love among the misty hills In a gray cloak of rain, and dreamed a dream.



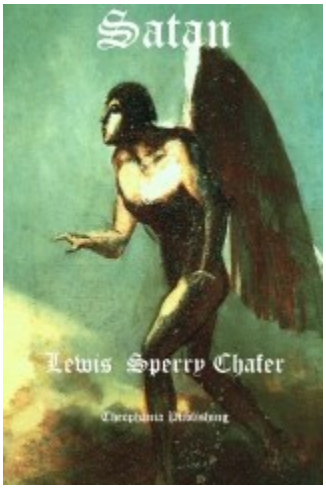
Sand Doom
By Murray Leinster
76 Pages, $16.24 USD, ISBN: 1519338880
Bordman knew there was something wrong when the throbbing, acutely uncomfortable vibration of rocket blasts shook the ship. Rockets were strictly emergency devices, these days, so when they were used there was obviously an emergency. He sat still. He had been reading, in the passenger lounge of the Warlock—a very small lounge indeed—but as a senior Colonial Survey officer he was well-traveled enough to know when things did not go right. He looked up from the bookscreen, waiting.



Sant of the Secret Service: Some Revelations of Spies and Spying
By William Le Queux
214 Pages, $19.24 USD, ISBN: 1515337669
To those who, like myself, have moved in the Continental underworld of spies and spying, the name of “Sant of the Secret Service” is synonymous with all that is ingenious, resourceful, and daring. In the Intelligence Departments of London, Paris, Rome, and New York, the name of “Sant of the Secret Service” is to-day one to conjure with. Cheerful, optimistic, and the most modest of men, Gerry Sant has seldom spoken of his own adventures. The son of a certain nobleman who must here remain nameless, and hence the scion of a noble house, he has graduated through all stages of the dark and devious ways of espionage.

Santal Folk Tales
By A. Campbell
132 Pages, $17.24 USD, ISBN: 1497537622
Of late years the Folk tales of India have been the subject of much study and research, and several interesting collections of them have been published. But I am not aware that as yet the folk lore of the Santals, has received the attention which it deserves. The Santals as a people, have, to a remarkable degree, succeeded in resisting the subtle Hinduising influences to which they have long been exposed, and to which such a large number of aboriginal tribes have succumbed. They have retained their language, institutions, tribal organization, and religion almost intact.

Sappho: A New Rendering
By H. De Vere Stacpoole
32 Pages, $16.24 USD, ISBN: 151533547X
Sappho lies remote from us, beyond the fashions and the ages, beyond sight, almost beyond the wing of Thought, in the world's extremest youth. To thrill the imagination with the vast measure of time between the world of Sappho and the world of the Great War, it is quite useless to express it in years, one must express it in æons, just as astronomers, dealing with sidereal distances, think, not in miles, but in light years. Between us and Sappho lie the Roman Empire and the age of Christ, and beyond the cross the age of Athenian culture, culminating in the white flower of the Acropolis. Had she travelled she might have visited Nineveh before its destruction by Cyaxares, or watched the Phœnicians set sail on their African voyage at the command of Nechos.

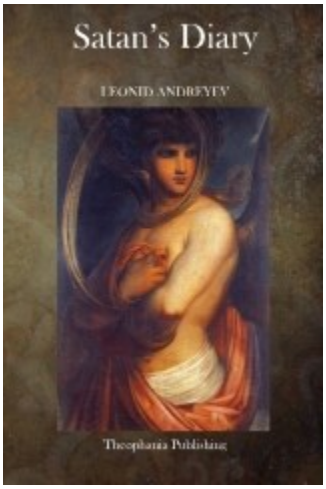


Satan

By Lewis Sperry Chafer

124 Pages, $17.24 USD, ISBN: 1926842499

The world has been willing to comply with the wishes and projects of Satan to the extent of ceasing to believe that he really exists; this unbelief being most advantageous to his present undertakings. Yet the opinions of men have never changed the facts of revelation, and, according to Scripture, Satan exists; still possessed with great power and influence over the affairs of men—a power and influence to be increasingly dreaded as this present age advances. The teachings of Scripture on this important subject are but little understood by Christians and seem to be entirely outside the thought of the world.

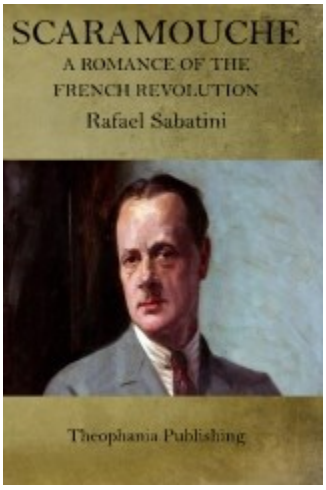


Satan's Diary

By Leonid Andreyev

252 Pages, $20.24 USD, ISBN: 1515336409

SATAN'S DIARY," Leonid Andreyev's last work, was completed by the great Russian a few days before he died in Finland, in September, 1919. But a few years ago the most popular and successful of Russian writers, Andreyev died almost penniless, a sad, tragic figure, disillusioned, broken-hearted over the tragedy of Russia. A year ago Leonid Andreyev wrote me that he was eager to come to America, to study this country and familiarize Americans with the fate of his unfortunate countrymen. I arranged for his visit to this country and informed him of this by cable.



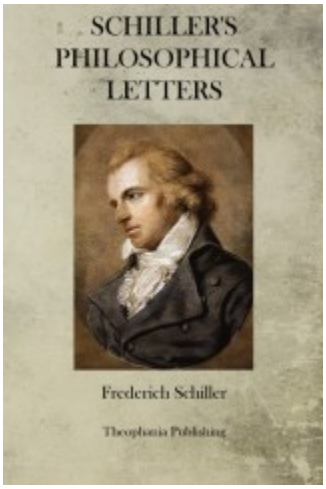
Scaramouche: A Romance of the French Revolution

By Rafael Sabatini

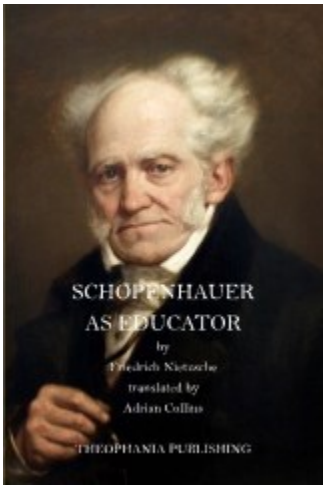
530 Pages, $29.24 USD, ISBN: 1519338783

He was born with a gift of laughter and a sense that the world was mad. And that was all his patrimony. His very paternity was obscure, although the village of Gavrillac had long since dispelled the cloud of mystery that hung about it. Those simple Brittany folk were not so simple as to be deceived by a pretended relationship which did not even possess the virtue of originality. When a nobleman, for no apparent reason, announces himself the godfather of an infant fetched no man knew whence, and thereafter cares for the lad's rearing and education, the most unsophisticated of country folk perfectly understand the situation.

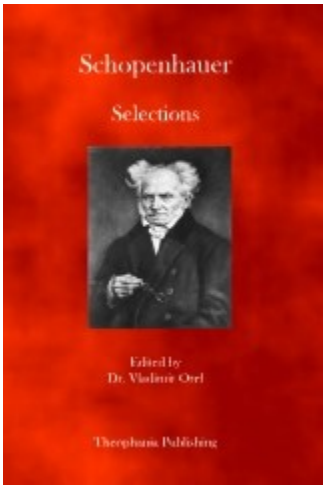
Scenes from a Courtesan's Life
By Honoré de Balzac
710 Pages, $34.24 USD, ISBN: 1478229683
In 1824, at the last opera ball of the season, several masks were struck by the beauty of a youth who was wandering about the passages and greenroom with the air of a man in search of a woman kept at home by unexpected circumstances. The secret of this behavior, now dilatory and again hurried, is known only to old women and to certain experienced loungers. In this immense assembly the crowd does not trouble itself much to watch the crowd; each one's interest is impassioned, and even idlers are preoccupied.



Schiller's Philosophical Letters
By Frederich Schiller
74 Pages, $16.24 USD, ISBN: 1470101459
The reason passes, like the heart, through certain epochs and transitions, but its development is not so often portrayed. Men seem to have been satisfied with unfolding the passions in their extremes, their aberration, and their results, without considering how closely they are bound up with the intellectual constitution of the individual. Degeneracy in morals roots in a one-sided and wavering philosophy, doubly dangerous, because it blinds the beclouded intellect with an appearance of correctness, truth, and conviction, which places it less under the restraining influence of man's instinctive moral sense.



Schopenhauer as Educator
By Friedrich Nietzsche
86 Pages, $16.24 USD, ISBN: 1519338678
WHEN the traveller, who had seen many countries and nations and continents, was asked what common attribute he had found everywhere existing among men, he answered, "They have a tendency to sloth." Many may think that the fuller truth would have been, "They are all timid." They hide themselves behind "manners" and "opinions." At bottom every man knows well enough that he is a unique being, only once on this earth; and by no extraordinary chance will such a marvellously picturesque piece of diversity in unity as he is, ever be put together a second time. He knows this, but hides it like an evil conscience;—and why?

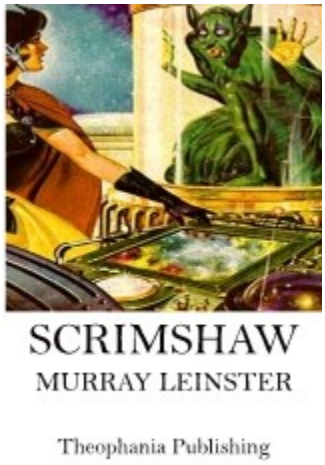


Schopenhauer Selections

By Arthur Schopenhauer

132 Pages, $20.24 USD, ISBN: 1926842200

Arthur Schopenhauer (22 February 1788 - 21 September 1860) was a German philosopher known for his pessimism and philosophical clarity. At age 25, he published his doctoral dissertation, On the Fourfold Root of the Principle of Sufficient Reason, which examined the fundamental question of whether reason alone can unlock answers about the world. Schopenhauer's most influential work, The World as Will and Representation, emphasized the role of man's basic motivation, which Schopenhauer called will. His analysis of will led him to the conclusion that emotional, physical, and sexual desires can never be fulfilled.

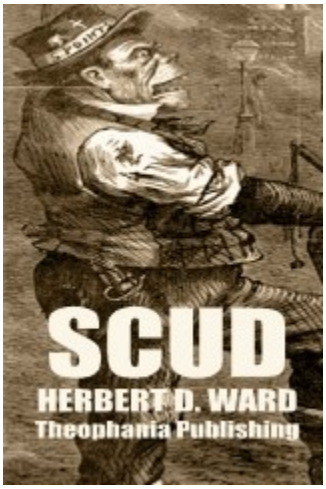


Scrimshaw

By Murray Leinster

28 Pages, $16.24 USD, ISBN: 1519339755

Pop Young was the one known man who could stand life on the surface of the Moon's far side, and, therefore, he occupied the shack on the Big Crack's edge, above the mining colony there. Some people said that no normal man could do it, and mentioned the scar of a ghastly head-wound to explain his ability. One man partly guessed the secret, but only partly. His name was Sattell and he had reason not to talk. Pop Young alone knew the whole truth, and he kept his mouth shut, too. It wasn't anybody else's business. The shack and the job he filled were located in the medieval notion of the physical appearance of hell.

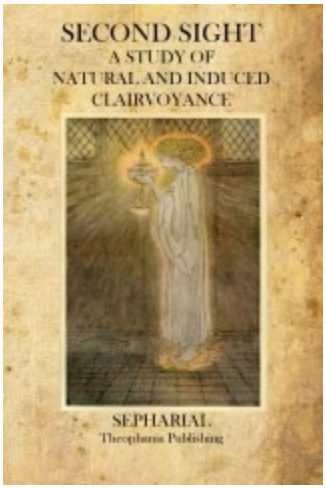


Scud

By Herbert D. Ward

32 Pages, $16.24 USD, ISBN: 1519338937

It was the morning after my arrival. I had just come, jaded from examination papers, agued with the incessant ring of orations, abhorrent of the rustle of white tarlatans, distrustful of the future attitude of trustees, and utterly wilted from the effect of a country academy exhibition held in the heat of June in the torridest of Western towns. I had never seen the ocean, and before my window the glorious old Atlantic heaved solemnly. Its intermittent swash upon the rocks sent peace into my soul. I found myself near enough even to throw something into the water.



Second Sight: A Study of Natural and Induced Clairvoyance
By Sepharial
74 Pages, $16.24 USD, ISBN: 1497537916
I have not here written anything which is intended to displace the observations of other authors on this subject, nor will it be found that anything has been said subversive of the conclusions arrived at by experimentalists who have essayed the study of clairvoyant phenomena in a manner that is altogether commendable, and who have sought to place the subject on a demonstrable and scientific basis. I refer to the proceedings of the Society for Psychical Research. In the following pages I have endeavoured to indicate the nature of the faculty of Second Sight or Clairvoyance, the means of its development, the use of suitable media or agents for this purpose, and the kind of results that may be expected to follow a regulated effort in this direction.

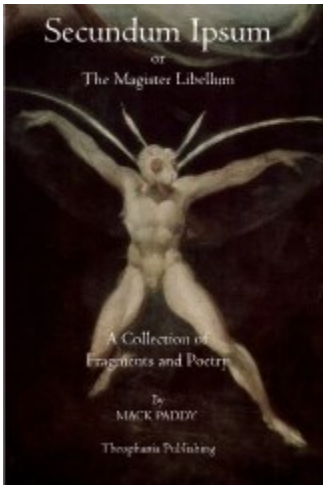
Secret Societies and Subversive Movements
By Nesta Webster
190 Pages, $14.24 USD, ISBN: 1926842111
The object of the present book is in the tracing the course secret societies. I shall rely as far as possible on the documents and admissions of their members, on which point I have been able to collect a great deal of fresh data entirely corroborating my former thesis. It should be understood that I do not propose to give a complete history of secret societies, but only of secret societies in their relation to the revolutionary movement.

Secretum Secretorum

By Pseudo Aristotle

96 Pages, $25.24 USD, ISBN: 1770830596

Secretum Secretorum of Pseudo-Aristotle The Secret of Secrets, or in Latin Secretum or Secreta Secretorum is a translation of the Arabic Kitab Sirr Al-Asrar, the Book of the Science of Government, on the Good Ordering of Statecraft. The origins of the treatise are uncertain. No Greek original exists, though there are claims in the Arabic treatise that it was translated from the Greek into Syriac and from Syriac into Arabic by a well-known 9th century translator, Yahya ibn al-Bitriq. It appears, however, that the treatise was actually composed originally in Arabic.

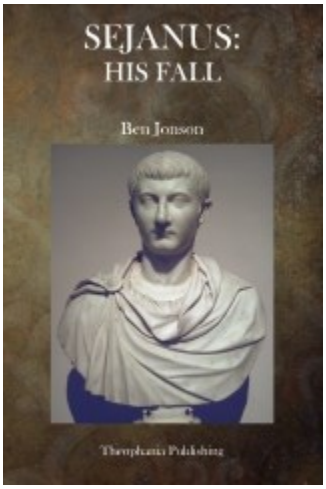


Secundum Ipsum: The Magister Libellum

By Mack Paddy

124 Pages, $20.24 USD, ISBN: 1770830936

“Only in your self can darkness exist. You pray for a devil that does not exist. You pray for a darkness that does not toil against you. You feel that where there is light there must also be darkness. It is you who fights against yourself, and is it not said that a house divided against itself cannot stand? You, who stand against the light, so that your own duplicity can contain darkness, you keep your self from the very light you crave. You jump from shadows for fear of what cannot exist, you personify evil so that you can feel comfortable in your faith, you ask for salvation from a scapegoat you stand against. Do you not see your own mistake? Open your eyes, oh Saint of Creation. You are drunk on your own philosophy.” For you who seek evil in everything, you will find it . Whatever the mind obsesses upon, it will see it everywhere.

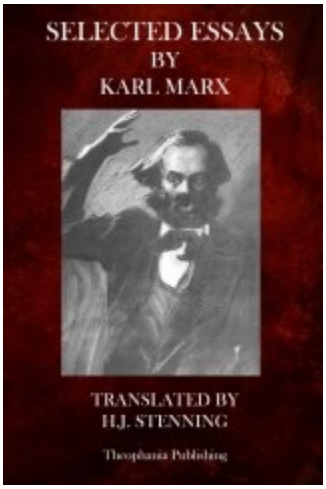


Sejanus: His Fall

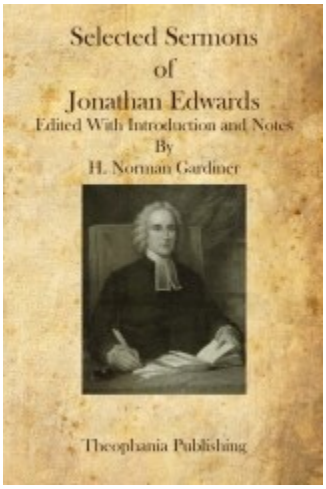
By Ben Jonson

276 Pages, $21.24 USD, ISBN: 1515336441

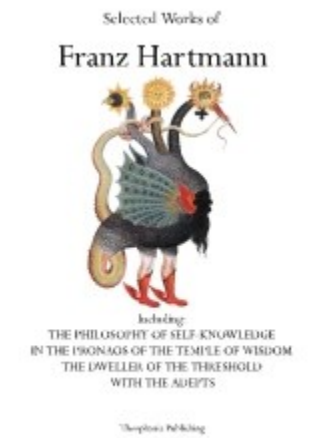
First, if it be objected, that what I publish is no true poem, in the strict laws of time, I confess it: as also in the want of a proper chorus; whose habit and moods are such and so difficult, as not any, whom I have seen, since the ancients, no, not they who have most presently affected laws, have yet come in the way of. Nor is it needful, or almost possible in these our times, and to such auditors as commonly things are presented, to observe the old state and splendour of dramatic poems, with preservation of any popular delight.



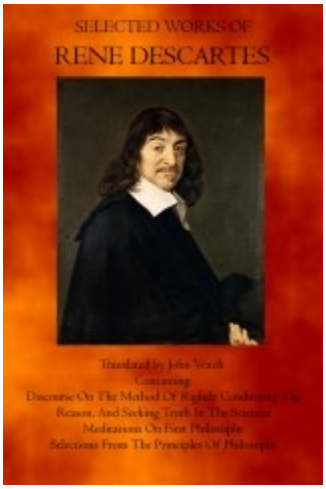
Selected Essays By Karl Marx
By Karl Marx
138 Pages, $17.24 USD, ISBN: 1469941090
The present volume consists of a translation of some of Karl Marx's principal writings during the six years 1844-1850. In 1843 Marx was twenty-five years old. He had just married, apparently on the strength of the modest salary he was to receive for editing, jointly with Arnold Ruge, a periodical called the Deutsch-Französische Jahrbücher (Franco-German Annuals), the purpose of which was to promote the union of German philosophy with French social science. Only one double-number of this journal appeared in 1844. It contained Marx's criticism of the Hegelian Philosophy of Right and his exposition of the social significance of the Jewish question, in the form of a review of two works by Bruno Bauer.



Selected Sermons of Jonathan Edwards
By Jonathan Edwards
206 Pages, $19.24 USD, ISBN: 1497538017
The sermons in the present volume have been selected as representative of Edwards the preacher rather than of Edwards the theologian. Any such collection must include at least the following four: the sermon on Man’s Dependence, the sermon on Spiritual Light, the Enfield Sermon and the Farewell Sermon. These are classic. Moreover, they represent Edwards in four of his most distinguishing aspects: as the powerful champion of a theology resting ultimately on the principle of a transcendent, righteous, sovereign Will ...

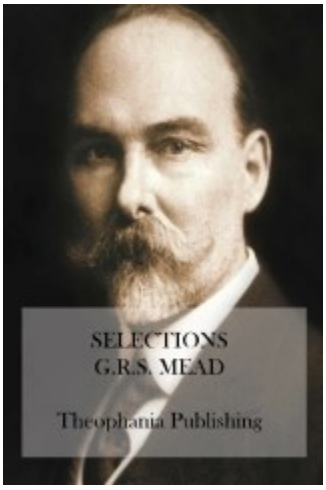


Selected Works of Franz Hartmann: The Philosophy of Self-Knowledge, In the Pronaos of the Temple of Wisdom, The Dweller of the Threshold, With the Adepts.
By Franz Hartmann
290 Pages, $20.24 USD, ISBN: 1770830499
THE object of the following pages is to aid those who are in search of the truth in realizing that there is no other real knowledge, except the knowledge of the reality in one's own soul. The reality in man is the truth, and although truth is eternal and independent of the recognition of men, nevertheless it is nothing to men if they do not realize its existence. He who refuses to seek for the light within himself will not find the true light anywhere in externals, and will continue to dwell in his darkness.

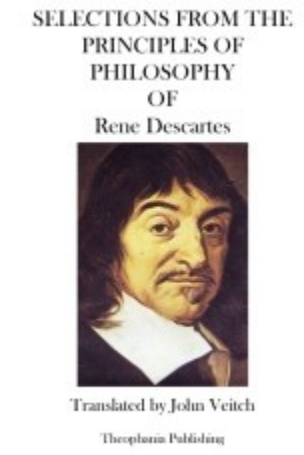


Selected Works of Rene Descartes
By Rene Descartes
246 Pages, $20.24 USD, ISBN: 1770831312
René Descartes was a French philosopher and writer who spent most of his adult life in the Dutch Republic. He has been dubbed the 'Father of Modern Philosophy', and much subsequent Western philosophy is a response to his writings, which are studied closely to this day. In particular, his Meditations on First Philosophy continues to be a standard text at most university philosophy departments. Descartes's influence in mathematics is equally apparent; the Cartesian coordinate system, allowing geometric shapes to be expressed in algebraic equations, was named after him. He is credited as the father of analytical geometry. Descartes was also one of the key figures in the Scientific Revolution.

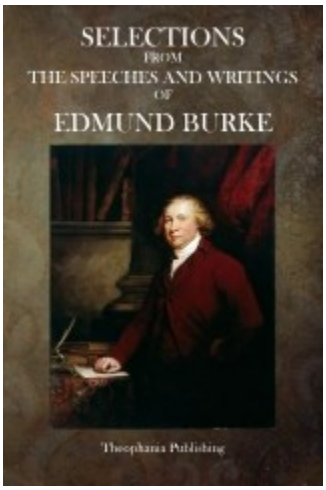
Selections
By Richard Carlile
220 Pages, $19.24 USD, ISBN: 1515336719
Richard Carlile (8 December 1790 – 10 February 1843) was an important agitator for the establishment of universal suffrage and freedom of the press in the United Kingdom. His interest in politics was kindled first by economic conditions in the winter of 1816 when Carlile was put on short-time work by his employer creating serious problems for the family: "I shared the general distress of 1816 and it was this that opened my eyes." He began attending political meetings where speakers like Henry Hunt complained that only three men in a hundred had the vote, and was also influenced by the publications of William Cobbett. As a way of making a living he sold the writings of parliamentary reformers such as Tom Paine on the streets of London, often walking "thirty miles for a profit of eighteen pence".



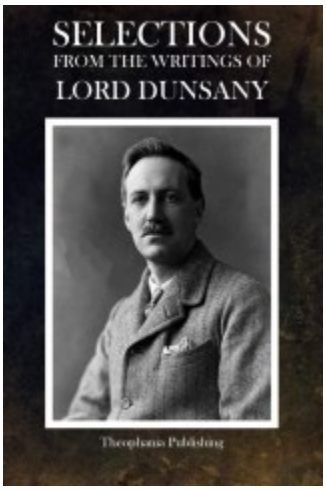
Selections: Essays of G.R.S. Mead
By G.R.S. Mead
108 Pages, $16.24 USD, ISBN: 1515336832
George Robert Stowe Mead was an English author, editor, translator, and an influential member of the Theosophical Society as well as the founder of the Quest Society. While still at Cambridge University Mead read Esoteric Buddhism by Alfred Percy Sinnett. This comprehensive theosophical account of the eastern religion prompted Mead to contact two theosophists in London named Bertam Keightly and Mohini Chatterji, which eventually led him to join the Theosophical Society. Mead became a member of Helena Petrovna Blavatsky's Theosophical Society in 1884. He abandoned his teaching profession in 1889 to be Blavatsky's private secretary and also became a joint-secretary of the Esoteric Section (E.S.) of the Theosophical Society.



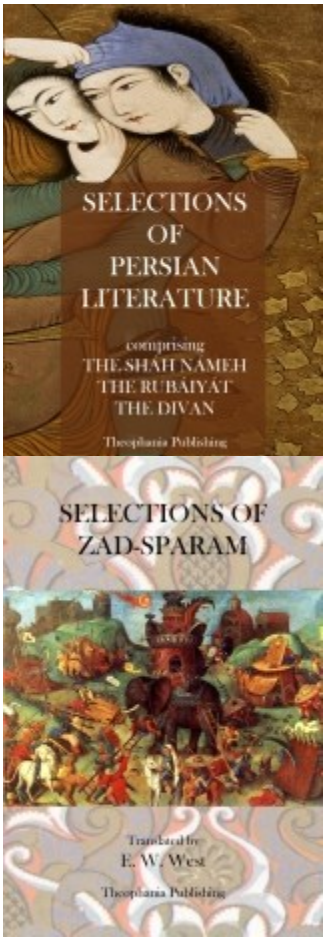
Selections from the Principles of Philosophy
By Rene Descartes
130 Pages, $17.24 USD, ISBN: 1469941112
The version of my principles which you have been at pains to make, is so elegant and finished as to lead me to expect that the work will be more generally read in French than in Latin, and better understood. The only apprehension I entertain is lest the title should deter some who have not been brought up to letters, or with whom philosophy is in bad repute, because the kind they were taught has proved unsatisfactory; and this makes me think that it will be useful to add a preface to it for the purpose of showing what the MATTER of the work is, what END I had in view in writing it, and what UTILITY may be derived from it.



Selections from the Speeches and Writings of Edmund Burke
By Edmund Burke
714 Pages, $34.24 USD, ISBN: 1515337073
"Democracy is the most monstrous of all governments, because it is impossible at once to act and control; and, consequently, the Sovereign Power is then left without any restraint whatever. That form of government is the best which places the efficient direction in the hands of the aristocracy, subjecting them in its exercise to the control of the people at large." —Sir James Mackintosh.



Selections from the Writings of Lord Dunsany
100 Pages, $16.24 USD, ISBN: 1499105827
Lady Wilde once told me that when she was a young girl she was stopped in some Dublin street by a great crowd and turned into a shop to escape from it. She stayed there some time and the crowd still passed. She asked the shopman what it was, and he said, 'the funeral of Thomas Davis, a poet.' She had never heard of Davis; but because she thought a country that so honoured a poet must be worth something, she became interested in Ireland and was soon a famous patriotic poet herself, being, as she once said to me half in mockery, an eagle in her youth.



Selections of Persian Literature

By Firdusi

530 Pages, $29.24 USD, ISBN: 1475012020

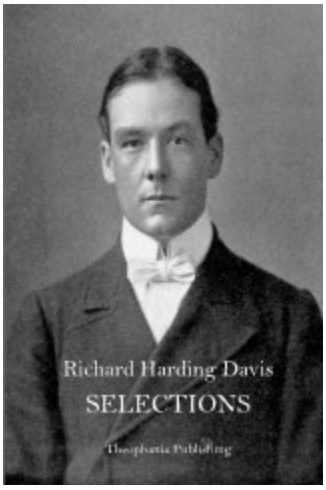
A certain amount of romantic interest has always attached to Persia. With a continuous history stretching back into those dawn-days of history in which fancy loves to play, the mention of its name brings to our minds the vision of things beautiful and artistic, the memory of great deeds and days of chivalry. We seem almost to smell the fragrance of the rose-gardens of Tus and of Shiraz, and to hear the knight-errants tell of war and of love.

Selections of Zad Sparam

By E.W. West

70 Pages, $16.24 USD, ISBN: 1470101521

Ohrmazd perceived, through the spirit of wisdom, thus: 'Even the blustering of Ahriman is capable of performance, if I do not allow disunion (la barininam) during a period of struggle.' And he demanded of him a period for friendship, for it was seen by him that Ahriman does not rely upon the intervention of any vigorous ones, and the existence of a period is obtaining the benefit of the mutual friendship and just arrangement of both; and he formed it into three periods, each period being three millenniums. Ahriman relied upon it, and Ohrmazd perceived that, though it is not possible to have Ahriman sent down, ever when he wants he goes back to his own requisite, which is darkness; and from the poison which is much diffused endless strife arises.



SELECTIONS Richard Harding Davis

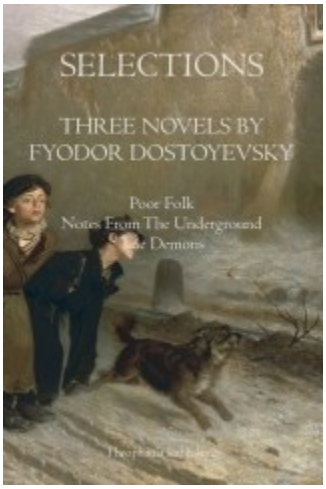
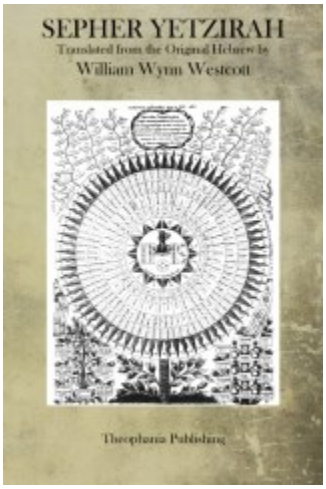
The Man Who Could Not Lose The Amateur A Wasted Day Richard Harding Davis (April 18, 1864 – April 11, 1916) was a journalist and writer of fiction and drama, known foremost as the first American war correspondent to cover the Spanish–American War, the Second Boer War, and the First World War. His writing greatly assisted the political career of Theodore Roosevelt and he also played a major role in the evolution of the American magazine. His influence extended to the world of fashion and he is credited with making the clean-shaven look popular among men at the turn of the 20th century.



Selections Three Novels
By Fyodor D
By Fydor Dostoyevsky

760 Pages, $35.24 USD, ISBN: 1770831576

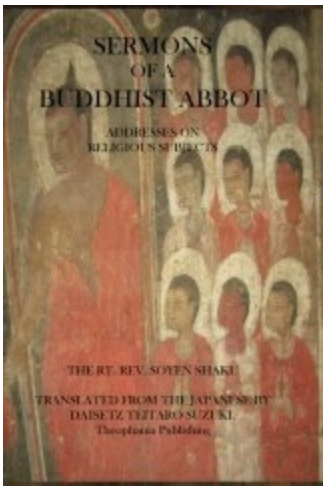
Whatever topics of his writing were, Dostoyevsky (1821-1881) invariably assumed a view of life as seen from the literal or metaphoric underground. His uniquely incisive analysis of the human nature combined with an invention that can only be compared with Joyce's "stream of consciousness" – polyphony of narrative. English and American readers are sometimes embarrassed by the spiritual openness and nakedness in which Dostoyevsky's characters appear in his novels. This, however, is not really related to the so-called Russian character; we deal with a method of writing that requires absolute honesty and nakedness before the reader.



Sepher Yetzirah
By William Wynn Westcott

58 Pages, $10.24 USD, ISBN: 1770832807

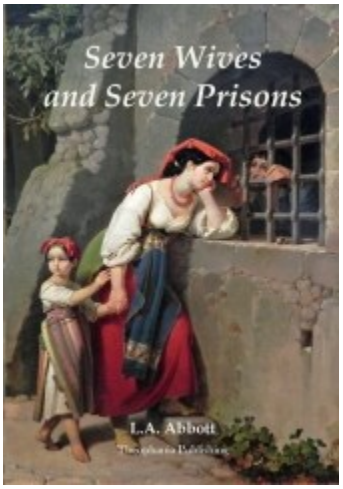
The Sepher Yetzirah is one of the most famous of the ancient Qabalistic texts. It was first put into writing around 200 AD. Westcott's Translation of the Sepher Yetzirah was a primary source for the rituals and Knowledge Lectures of the Golden Dawn. This is the Third Edition of Westcott's translation, first published in 1887.



Sermons of a Buddhist Abbot: Addresses on Religious Subjects
By Rev. Soyen Shaku Rt.

136 Pages, $17.24 USD, ISBN: 1499105983

This little work is a collection of some of the lectures delivered by the Right Reverend Soyen Shaku., Lord Abbot of Engaku-ji and Kencho-ji, Kamakura, Japan, during his sojourn in this country, 1905-1906. He came here early in the summer of 1905 and stayed with friends on the Pacific coast until March in the following year. Lectures on Buddhism were frequently delivered at the request of his hostess, Mrs. Alexander Russell of San Francisco, for the benefit of her friends. He lectured on the Sutra of Forty-two Chapters, and naturally chose the texts for his sermons from this most popular among the canonical books.

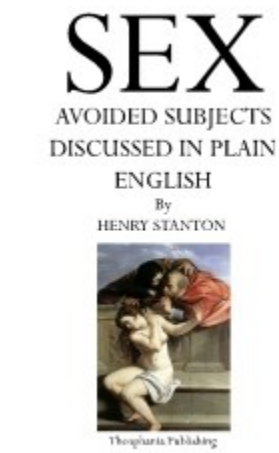


Seven Wives and Seven Prisons: Or Experiences In The Life Of A Matrimonial Maniac. A True Story.

By L. A. Abbott

132 Pages, $15.34 USD, ISBN: 1478392452

SOME one has said that if any man would faithfully write his autobiography, giving truly his own history and experiences, the ills and joys, the haps and mishaps that had fallen to his lot, he could not fail to make an interesting story; and Disraeli makes Sidonia say that there is romance in every life. How much romance, as well as sad reality, there is in the life of a man who, among other experiences, has married seven wives, and has been seven times in prison solely on account of the seven wives, may be learned from the pages that follow.



Sex: Avoided Subjects Discussed in

By Henry Stanton

54 Pages, $16.24 USD, ISBN: 1926842995

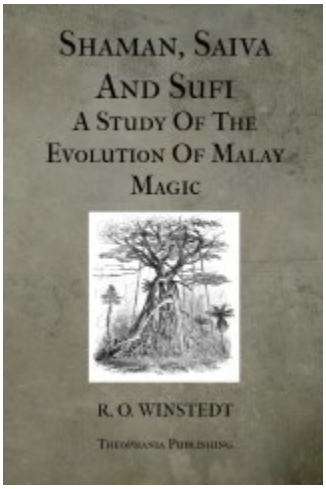
Although Stanton was writing in an era where sexual reseearch and medical knowledge were still rather antiquated, he attempts to give light to a subject which is rife with a Victorian sort of tabboo. In an era where a child is berrated and punished for an act so natural and common as masterbation, where little ones are taught that babies are the gifts of benevolent storks, and where religious superstition sways the imagination far more than science and research, this book opened the doors for an enlightenment in sexual discussion. The reader should be warned that, in spite of Stanton's attempt at opening doors on the subject, that sex and sexual hygene were then still in its infancy, and that the cautions and suggeestions offered here are still quite ancient to our modern philosophy.

Sex and Society

By William I. Thomas

188 Pages, $18.24 USD, ISBN: 1770833056

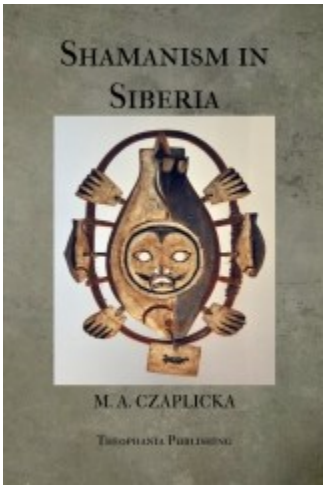
These studies have been published in various journals at different times. They are reprinted together because there is some demand for them, and they are not easily accessible. In preparing them for publication in the present form, some of them have been expanded and all of them have been revised. While each study is complete in itself, the general thesis running through all of them is the same—that the differences in bodily habit between men and women, particularly the greater strength, restlessness, and motor aptitude of man, and the more stationary condition of woman, have had an important influence on social forms and activities, and on the character and mind of the two sexes.



Shaman, Saiva And Sufi A Study Of The Evolution Of Malay Magic
By Winstedt

178 Pages, $18.24 USD, ISBN: 1475257058

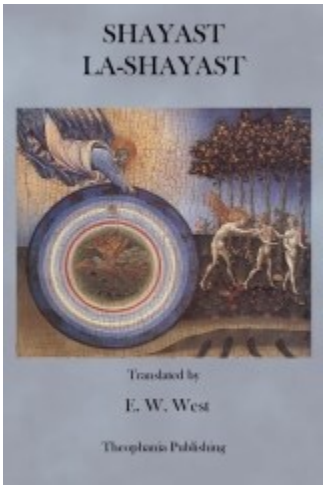
THis book is the outcome of a close study of the language and beliefs of the Malays during a period of residence in the Malay Peninsula that has now reached twenty-two years. Its object is to unravel a complex system of magic in the light of historical and comparative data. By itself this system is a tangle every thread of which scholars working in Europe are led to term Malay, although even the native distinguishes this thread as Indian and that as Muslim.



Shamanism in Siberia
By M. A. Czaplicka

180 Pages, $18.24 USD, ISBN: 1475257104

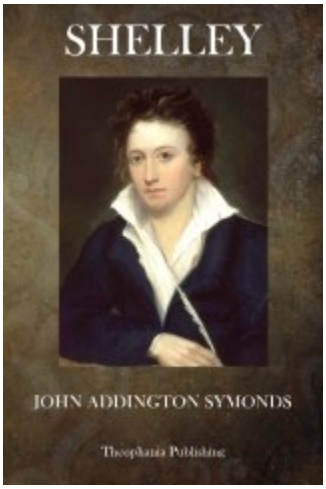
SHAMANISM is understood by some people to be a primitive form of religion or religio-magic practised by the aborigines of northern Asia as well as by all other aborigines in other parts of the world. This opinion is held by Mikhailowski, Kharuzin, and some other Russian scientists. Others hold that Shamanism was only one form of expression of the religious cult of northern Asia, practised in order to avert the evil spirits. This opinion is found in the writings of Jochelson and Bogoras.



Shayast La Shayast
By E.W. West

104 Pages, $16.24 USD, ISBN: 1470101556

If one shall die on a terrace roof (ban), when one of his limbs, or a hair, remains behind at the edge of the roof, the roof is polluted for the size of the body as far as the water; and they should carry down all the sacred twigs (barsom) in the house, from the place where the pollution is, until there are thirty steps of three feet to the sacred twigs, so that the sacred twigs may not be polluted; and when his hair or limb has not come to the eaves (parakan) the roof is polluted to the bottom (tohik).

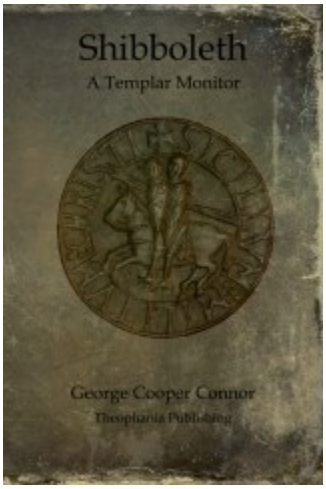


Shelley

By John Addington Symonds

104 Pages, $18.24 USD, ISBN: 1515352412

This sketch of Shelley's life was written in the summer of 1878. Since then Professor Dowden's Life of Percy Bysshe Shelley (2 vols., Kegan Paul, Trench, and Co., 1886) has been given to the world. In that exhaustive work many important documents belonging to the poet's heirs have been freely used for the first time. Professor Dowden has thus been able to elucidate some hitherto obscure points in Shelley's history, and to settle several doubtful questions. It is not probable that much more will be added in the future to our knowledge of his life.

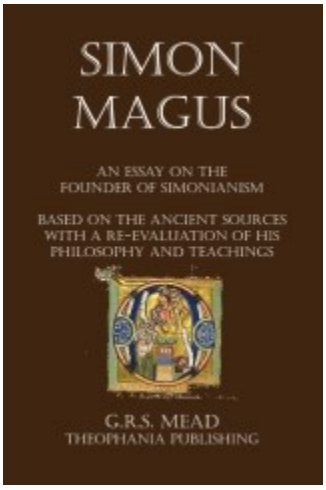


Shibboleth: A Templar Monitor

By George Cooper Connor

302 Pages, $22.24 USD, ISBN: 1468024108

Unlike the initial degrees conferred in a Masonic Lodge, which only require a belief in a Supreme Being regardless of religious affiliation, the Knights Templar is one of several additional Masonic Orders in which membership is open only to Freemasons who profess a belief in the Christian religion. The full title of this Order is The United Religious, Military and Masonic Orders of the Temple and of St John of Jerusalem, Palestine, Rhodes and Malta. The word "United" in this title indicates that more than one historical tradition and more than one actual Order are jointly controlled within this system.

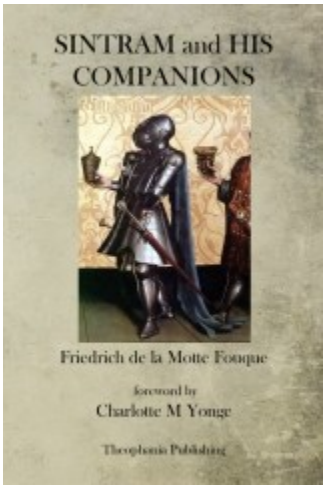


Simon Magus

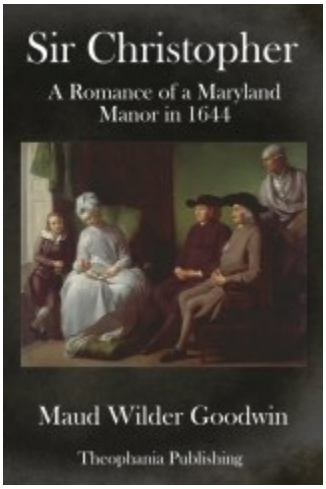
By G. R.S. Mead

128 Pages, $16.24 USD, ISBN: 1479183776

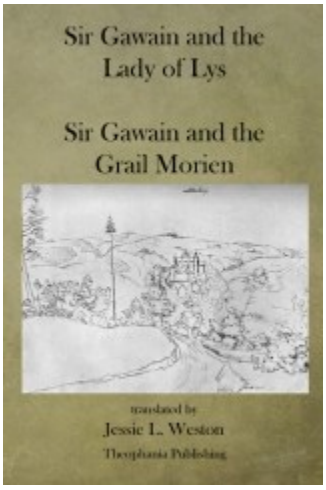
Everybody in Christendom has heard of Simon, the magician, and how Peter, the apostle, rebuked him, as told in the narrative of the Acts of the Apostles. Many also have heard the legend of how at Rome this wicked sorcerer endeavoured to fly by aid of the demons, and how Peter caused him to fall headlong and thus miserably perish. And so most think that there is an end of the matter, and either cast their mite of pity or contempt at the memory of Simon, or laugh at the whole matter as the invention of superstition or the imagination of religious fanaticism, according as their respective beliefs may be in orthodoxy or materialism.



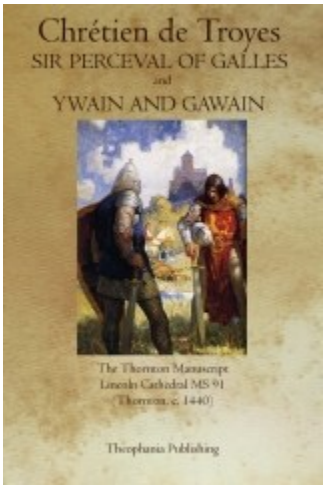
Sintram and His Companions
By Friedrich de la Motte Fouque
152 Pages, $17.24 USD, ISBN: 1470101564
The author of these tales, as well as of many more, was Friedrich, Baron de la Motte Fouque, one of the foremost of the minstrels or tale-tellers of the realm of spiritual chivalry—the realm whither Arthur's knights departed when they took the Sancgreal's holy quest, —whence Spenser's Red Cross knight and his fellows came forth on their adventures, and in which the Knight of la Mancha believed, and endeavoured to exist. La Motte Fouque derived his name and his title from the French Huguenot ancestry, who had fled on the Revocation of the Edict of Nantes.



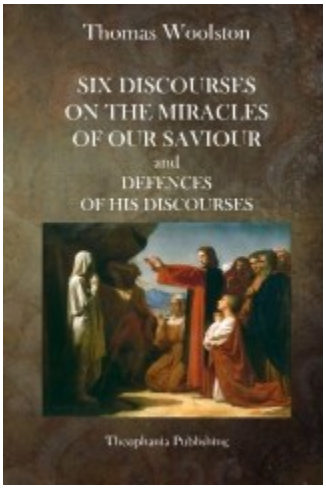
Sir Christopher: A Romance of a Maryland Manor in 1644
By Maud Wilder Goodwin
474 Pages, $25.25 USD, ISBN: 1979592160
Through the January twilight a sail-boat steered its course by the light of a fire which blazed high in the throat of the chimney at St. Gabriel's Manor. Within the hall, circled by the light from the fire, a Danish hound stretched its lazy length on the floor, and, pillowing his head against the dog's body, lay a boy eight or nine years old. He was a plain laddie, with a freckled nose, a wide mouth, and round apple cheeks over which flaxen curls tumbled in confusion. His big eyes, the redeeming feature of the face, were just now fixed upon the shadows cast by the motion of his joined hands on the wall.



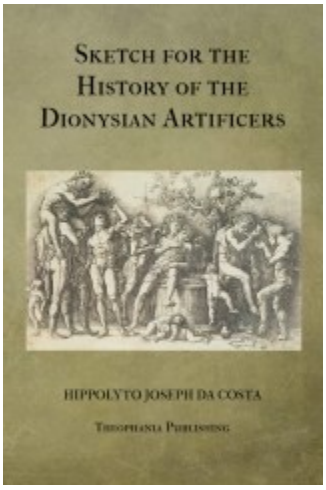
Sir Gawain and the Lady of Lys: Sir Gawain and the Grail Morien
By Jessie L. Weston
166 Pages, $18.24 USD, ISBN: 1470101572
THE stories contained in the present volume of Arthurian Romances are drawn from the same collection of tales as that from which the first visit of Gawain to the Grail castle, in the preceding volume of the series, is derived. Indeed, the stories follow in close sequence, and a glance at the introductory lines of the Grail visit will show that that adventure is placed immediately after the successful termination of the expedition against Chastel Orguellous, which forms the subject of this volume.



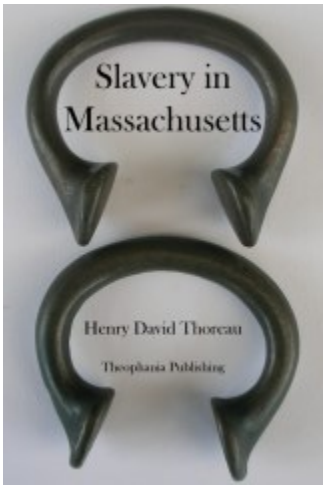
Sir Perceval of Galles and Ywain and Gwain
By Chrétien de Troyes
210 Pages, $19.24 USD, ISBN: 1770831339
Chrétien de Troyes was a French poet and trouvère who flourished in the late 12th century. Little is known of his life, but he seems to have been from Troyes, or at least intimately connected with it, and between 1160 and 1172 he served at the court of his patroness Marie of France, Countess of Champagne, daughter of Eleanor of Aquitaine, perhaps as herald at arms. His work on Arthurian subjects represents some of the best regarded of medieval literature.



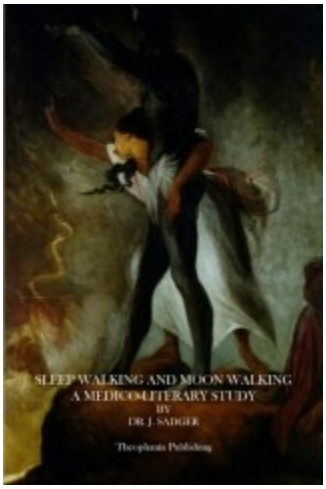
Six Discourses On The Miracles Of Our Saviour
By Thomas Woolston
440 Pages, $26.24 USD, ISBN: 1515335909
Whether your Prosecution of me, for the Moderator, was just and reasonable, I'll not dispute here, having already expostulated that Matter with you in several Letters, to which you would not condescend to give me any Answer. For what Reason you was silent, is best known to your self. But, in my own Vindication, I hope, I may publish without Offence, that your taking me for an Infidel, was such a Mistake as I thought no Scholar could have made; and the Injury done to my Reputation and low Fortunes, by the Prosecution, so considerable, that the least I expected from your Lordship, was a courteous Excuse, if not an ample Compensation, for it.



Sketch for the History of the Dionysian Artificers
By Da Costa
42 Pages, $16.24 USD, ISBN: 1475257171
THE mysteries of the ancients, and the associations in which their doctrines were taught, have hardly been considered in modern times, but with a view to decry and ridicule them. The systems of ancient mythology have been treated as monstrous absurdities, debasing the human reason, conducting to idolatry, and favouring depravity of manners. However, they deserve attention, if the motives of their inventors, rather than the profligacy and ignorance of their corruptors be contemplated.

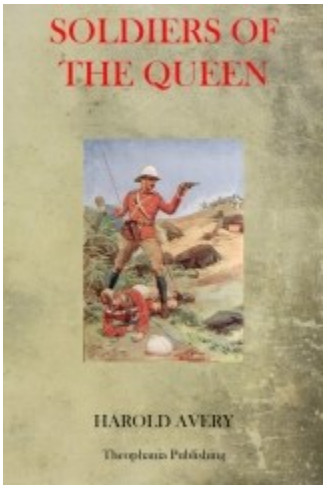


Slavery in Massachusetts
By Henry David Thoreau
32 Pages, $16.24 USD, ISBN: 1479183830
I lately attended a meeting of the citizens of Concord, expecting, as one among many, to speak on the subject of slavery in Massachusetts; but I was surprised and disappointed to find that what had called my townsmen together was the destiny of Nebraska, and not of Massachusetts, and that what I had to say would be entirely out of order.



Sleep Walking and Moon Walking
By Dr. J. Sadger
206 Pages, $19.24 USD, ISBN: 1499106033
Sleep walking or night wandering, known also by its Latin name of noctambulism, is a well-known phenomenon. Somnambulism is not so good a term for it, since that signifies too many things. In sleep walking a person rises from his bed in the night, apparently asleep, walks around with closed or half opened eyes, but without perceiving anything, yet performs all sorts of apparently purposeful and often quite complicated actions and gives correct answers to questions, without afterward the least knowledge of what he has said or done.

Sofonisba
By Vittorio Alfieri
ITALIAN 44 Pages, $16.24 USD, ISBN: 1519339615
Resti ogni uomo in disparte. All'infelice re fora insulto ogni corteggio mio.—Siface, ove pur mai duol si potesse allevíar di vinto re, mi udresti parole or muover di pietá: ma nota m'è del tuo cor l'altezza, a cui novella piaga sarebbe ogni pietoso detto. Quind'io non altro omai farò, che trarti con la mia mano stessa i mal portati ferri: sgravar questa tua destra, io 'l deggio. Memore ancor son io, che questa destra, e d'amistade e d'alleanza in pegno, tu mi porgevi in Cirta.—Ma, che veggo? Sdegni il mio ufficio? e torvo immoto il ciglio nel suolo affiggi? Ah!

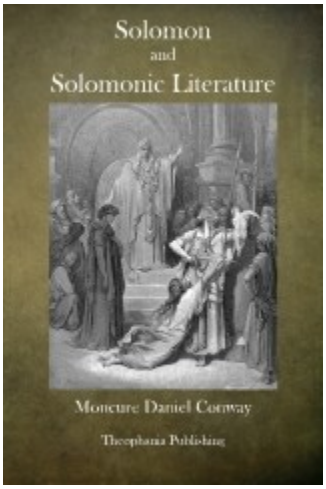


Soldiers of the Queen

By Harold Avery

216 Pages, $19.24 USD, ISBN: 1770832793

The battle was nearly over. Gallant tin soldiers of the line lay where they had fallen; nearly the whole of a shilling box of light cavalry had paid the penalty of rashly exposing themselves in a compact body to the enemy's fire; while a rickety little field-gun, with bright red wheels, lay overturned on two infantry men, who, even in death, held their muskets firmly to their shoulders, like the grim old "die hards" that they were.

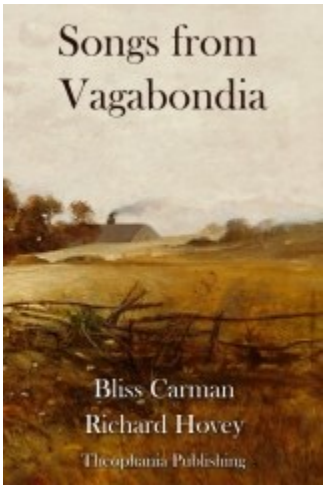


Solomon and Solomonic Literature

By Moncure Daniel Conway

194 Pages, $18.24 USD, ISBN: 1515336050

An English lady of my acquaintance, sojourning at Baalbek, was conversing with an humble stonecutter, and pointing to the grand ruins inquired, “Why do you not occupy yourself with magnificent work like that?” “Ah,” he said, “those edifices were built by no mortal, but by genii.” These genii now represent the demons which in ancient legends were enslaved by the potency of Solomon’s ring. Some of these folk-tales suggest the ingenuity of a fabulist. According to one, Solomon outwitted the devils even after his death, which occurred while he was leaning on his staff and superintending the reluctant labors of the demons on some sacred edifice.

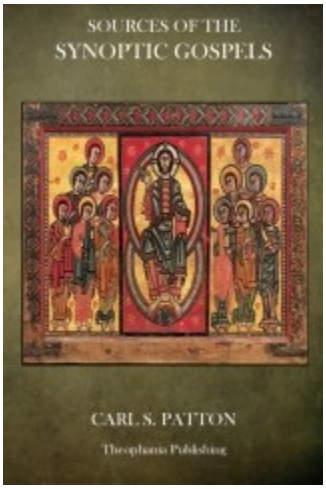


Songs from Vagabondia

By Bliss Carman

82 Pages, $16.25 USD, ISBN: 1979578141

Off with the fetters That chafe and restrain! Off with the chain! Here Art and Letters, Music and wine, And Myrtle and Wanda, The winsome witches, Blithely combine. Here are true riches, Here is Golconda, Here are the Indies, Here we are free— Free as the wind is, Free, as the sea. Free! Houp-la!

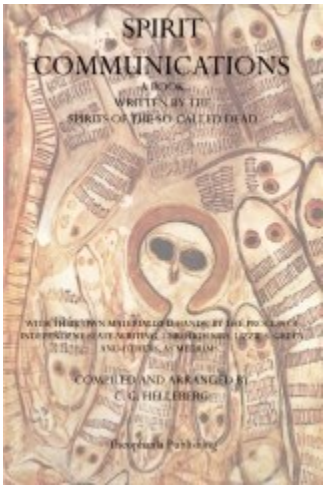


Sources of the Synoptic Gospels

By Carl S. Patton

298 Pages, $22.24 USD, ISBN: 1499106076

The one universally accepted result of modern study of the synoptic problem is the dependence of Matthew and Luke upon the Gospel of Mark. Tho it is no longer necessary to demonstrate this use of Mark by Matthew and Luke, the relation among the three Gospels is not to be dismissed with a simple statement of this dependence. The Gospel of Mark is the one document possessed by us in substantially the same form in which it was used by Matthew and Luke. A consideration of how Matthew and Luke treated the sources which we no longer have before us will be influenced by the treatment which they accorded to this one source which we have.

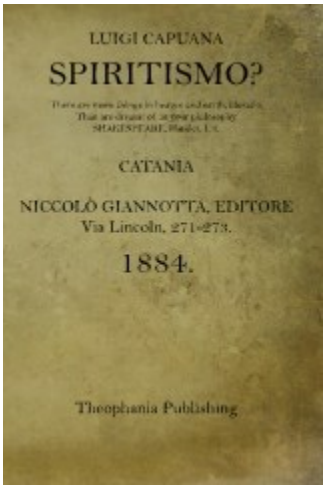


Spirit Communications

By C.G. Helleberg

212 Pages, $19.24 USD, ISBN: 1770831800

The communications in this little volume, purporting to come from disembodied spirits, came in the manner hereinafter stated, and all that I had to do with them was to faithfully and to the letter transcribe them from the slate on which they were written into blank memorandum books which I procured for the purpose.

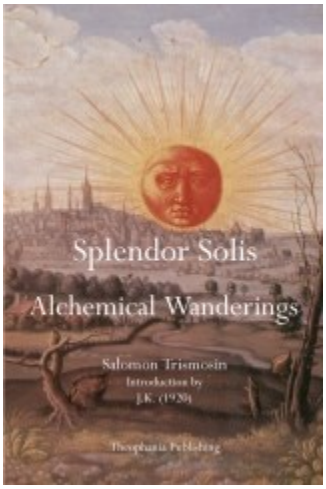


Spiritismo?

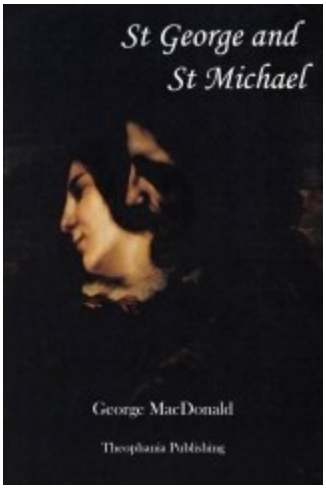
By Niccolo Giannotta

ITALIAN 158 Pages, $17.24 USD, ISBN: 1519339704

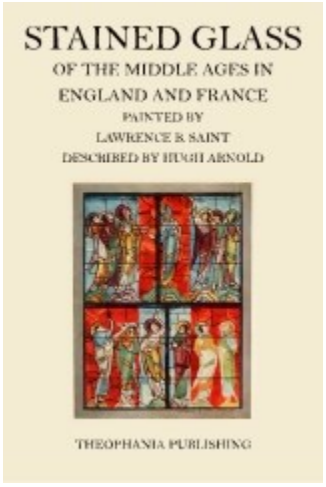
Abbiamo tante e tante volte ragionato insieme di Spiritismo, tu da credente, con molte riserbe e cautele, attirato più dal misticismo della dottrina spiritica che dal meraviglioso delle communicazionio delle apparizioni, io da curioso, da dilettante che ha tentato e provato e non ha perduto la voglia di ritentare e riprovare; ne abbiamo ragionato insieme tante volte, che ora ti dovrà parere naturalissimo il vederti indirizzata in pubblico una lettera colla quale si vuol sottoporre al giudizio delle persone competenti alcuni fatti e alcune ipotesi meritevoli, mi pare, di considerazione e spiegazione.



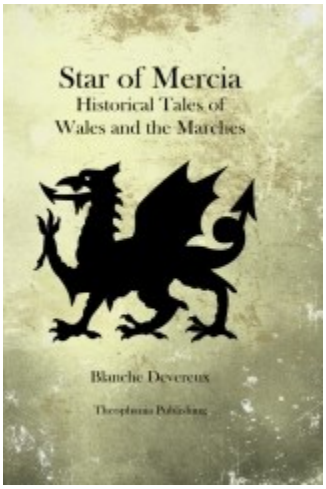
Splendor Solis: Alchemical Wanderin
By Salomon Trismosin
90 Pages, $27.99 USD, ISBN: 1770831665
THIS BOOK IS NAMED SPLENDOR SOLIS AND IS DIVIDED INTO SEVEN PARTS, IN WHICH IS DESCRIBED THE HIDDEN MYSTERY OF THE OLD PHILOSOPHERS, AS WELL AS ALL THAT NATURE REQUIRES TO CLEARLY ACCOMPLISH THE WHOLE WORK, INCLUDING ALL THE ADDED THINGS; AFTER WHICH NO ONE SHALL BE ADVISED TO GRAPPLE WITH THE MYSTERY OF THE NOBLE ART WITH HIS OWN SENSES. ALPHIDIUS, one of the old Philosophers, said: “Every one who does not care for the trouble of obtaining the Philosopher's Stone, will do better in making no enquiries at all than only useless ones." The same also says RHASES, in his book "LIGHT OF LIGHTS":



St George and St Michael
By George MacDonald
594 Pages, $24.24 USD, ISBN: 1478269731
It was the middle of autumn, and had rained all day. Through the lozenge-panes of the wide oriel window the world appeared in the slowly gathering dusk not a little dismal. The drops that clung trickling to the dim glass added rain and gloom to the landscape beyond, whither the eye passed, as if vaguely seeking that help in the distance, which the dripping hollyhocks and sodden sunflowers bordering the little lawn, or the honeysuckle covering the wide porch, from which the slow rain dropped ceaselessly upon the pebble-paving below, could not give steepy slopes, hedge-divided into small fields, some green and dotted with red cattle, others crowded with shocks of bedraggled and drooping corn, which looked suffering and patient.



Stained Glass of the Middle Ages in
By Lawrence B. Saint
248 Pages, $65.99 USD, ISBN: 1519339836
The Cathedral verger, conducting his flock of tourists round the building, while giving them plenty of really interesting and valuable information about it (for the verger of to-day is a different man from his predecessor, and is often very intelligent and well informed), remarks briefly, "The glass is of the thirteenth century"—or fourteenth or fifteenth, as the case may be; the procession gazes carelessly at it, and passes on. Yet from out of that dazzling and glowing labyrinth of coloured jewels a past age is speaking far more articulately, if one stops to unravel the message, than ever in stone or wood, and it is for those who can be induced to take that second look which will be followed by a third and a fourth and many more that I have written this book.

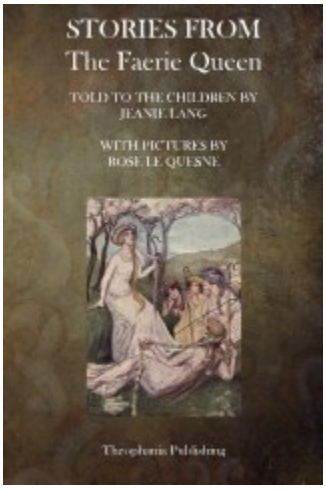


Star of Mercia: Historical Tales of
By Blanche Devereux
192 Pages, $18.24 USD, ISBN: 1480081388

There are three reading-publics to which a tale-writer who attempts the uncertain business of writing about Wales may appeal. One is the homebred Welsh public that asks for a tale in the old tongue, yr hen iaith, and has never been quite satisfied, I believe, by any novel or short story about its life, or its real or romantic concerns, written in English. The second is the quasi-Celtic public, which may or may not know the Mabinogion or Borrow's Wild Wales, and is glad of anything that gets the romance atmosphere.

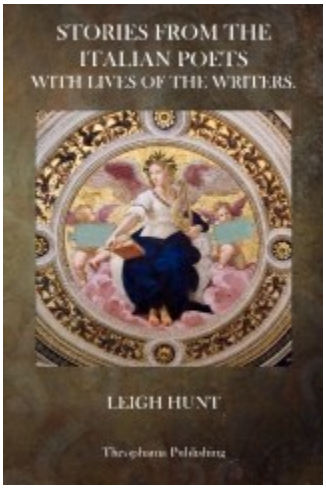
Stella Maris
By William J. Locke
548 Pages, $29.25 USD, ISBN: 1979145504

STELLA MARIS—Star of the Sea! That was not her real name. No one could have christened an inoffensive babe so absurdly. Her mother had, indeed, through the agency of godfathers and godmothers, called her Stella after a rich old maiden aunt, thereby showing her wisdom; for the maiden aunt died gratefully a year after the child was born, and bequeathed to her a comfortable fortune. Her father had given her the respectable patronymic of Blount, which, as all the world knows, or ought to know, is not pronounced as it is spelled. It is not pronounced “Maris,” however, as, in view of the many vagaries of British nomenclature, it might very well be, but “Blunt.”



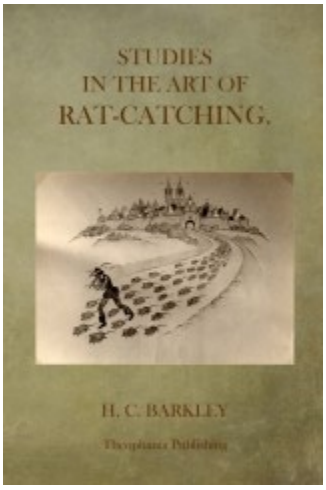
Stories from The Faerie Queen
By Jeanie Lang
104 Pages, $16.24 USD, ISBN: 151533628X

More than three hundred years ago there lived in England a poet named Edmund Spenser. He was brave and true and gentle, and he loved all that was beautiful and good. Edmund Spenser wrote many poems, and the most beautiful of all is the one called ‘The Faerie Queen.’ He loved so dearly all things that are beautiful and all things that are good, that his eyes could see Fairyland more clearly than the eyes of other men ever could. There are many, many stories in ‘The Faerie Queen,’ and out of them all I have told you only eight.



Stories from the Italian Poets
By Leigh Hunt
512 Pages, $28.24 USD, ISBN: 1515337723
More than three hundred years ago there lived in England a poet named Edmund Spenser. He was brave and true and gentle, and he loved all that was beautiful and good. Edmund Spenser wrote many poems, and the most beautiful of all is the one called 'The Faerie Queen.' He loved so dearly all things that are beautiful and all things that are good, that his eyes could see Fairyland more clearly than the eyes of other men ever could. There are many, many stories in 'The Faerie Queen,' and out of them all I have told you only eight. Some day you will read the others for yourself. In this little book Miss Rose Le Quesne has made one pretty picture for each story.

Stories, True and Not So True
By Hans Christian Andersen
346 Pages, $25.24 USD, ISBN: 0986510297
Hans Christian Andersen (1805-1875) is probably the most famous Dane. We all meet with him in our childhood as a wonderful and touching story-teller. In our volume Andersen appears in two different roles - as a familiar teller of fairy tales and as an intriguing author of his own story, his life.



Studies in the Art of Rat-Catching
By H. C. Barkley
86 Pages, $16.24 USD, ISBN: 1499106165
My publisher writes to say that he, and he thinks others too, would like to know how I ever came to write such a book as this! It came about in this way. Some two years ago, I was about to leave England for a considerable time, and a few days before starting, I went to stay in a country house, full of lads and lassies, to say good-bye. One evening, while sitting over the study fire, the subject of rat-catching came up and, as the aged are somewhat wont to do, I babbled on about past days and various rat-catching experiences, till one of the boys exclaimed, "I say, what sport it would be if they would only teach rat-catching at school! Wouldn't I just work hard then, that's all!"

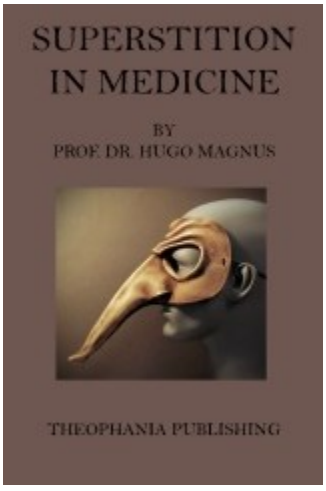
Superstition in All Ages

By Jean Meslier

400 Pages, $25.24 USD, ISBN: 1770831347

"I call heaven to witness that I also thoroughly despised those who laughed at the simplicity of the blind people, those who furnished piously considerable sums of money to buy prayers. How horrible this monopoly! I do not blame the disdain which those who grow rich by your sweat and your pains, show for their mysteries and their superstitions; but I detest their insatiable cupidity and the signal pleasure such fellows take in railing at the ignorance of those whom they carefully keep in this state of blindness. Let them content themselves with laughing at their own ease, but at least let them not multiply their errors by abusing the blind piety of those who, by their simplicity, procured them such an easy life."

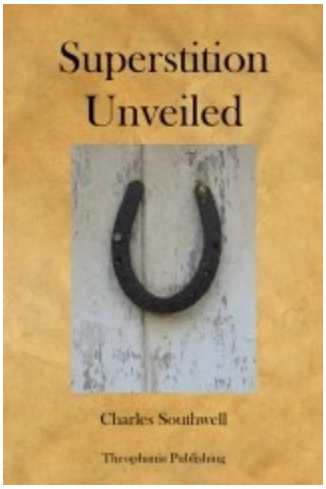


Superstition in Medicine

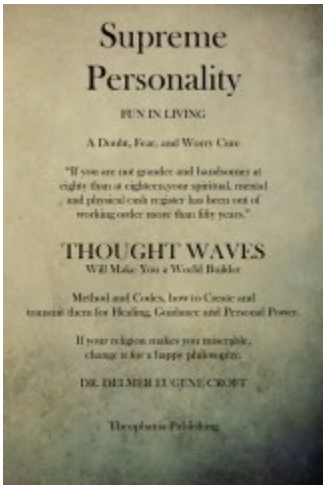
By Dr. Hugo Magnus

170 Pages, $18.24 USD, ISBN: 1519339321

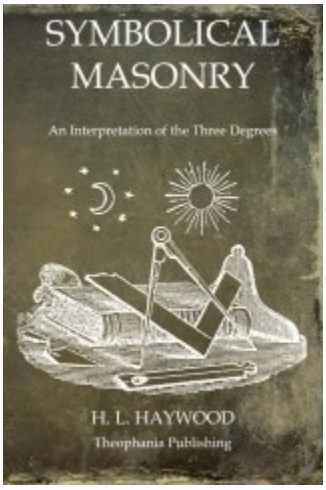
The history of medicine is closely interlinked with the development of theology. The errors of one are for the most part reflected in the mistakes of the other. No matter how obscure and dark the origin of either, whether derived from ignorance and superstition or not, the ultimate achievement alone must be taken into consideration. We do not reject chemistry because it originated in alchemy, we do not disregard astronomy because its roots are entwined with the teachings of astrology, and so in theology and medicine we look to the final issue.



Superstition Unveiled
By Charles Southwell
72 Pages, $15.24 USD, ISBN: 1480119555
Religion has an important bearing on all the relations and conditions of life. The connexion between religious faith and political practice is, in truth, far closer than is generally thought. Public opinion has not yet ripened into a knowledge that religious error is the intangible but real substratum of all political injustice. Though the ' Schoolmaster' has done much, there still remain among us, many honest and energetic assertors of 'the rights of man,' who have to learn that a people in the fetters of superstition cannot, secure political freedom.

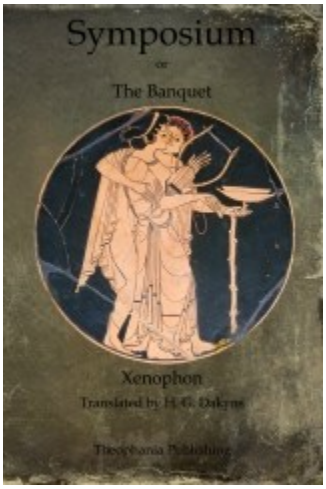


Supreme Personality: Fun in Living
By Dr. Delmer Eugene Crofty
70 Pages, $16.24 USD, ISBN: 1499106432
The purpose of this Course of Lessons is to kill Doubt, Fear, and Worry, Cure the habit of growing old, develop your limitless Psychic, Mental and Bodily forces, bring you back to Nature, renew your cosmos, and help you lay a pipe line to the power house of the Universe to supply forever your Supreme Capacities.

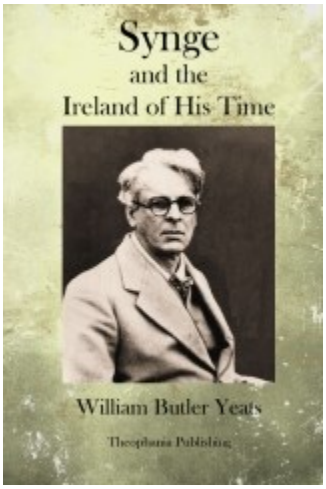


Symbolical Masonry: An Interpretation of the Degrees
By H.L. Haywood
456 Pages, $28.24 USD, ISBN: 1468023837
There is no need to tell the veteran Masonic scholar who may chance to peruse these pages that the book was not designed for his uses, but rather for the host of beginners in the field, whose first intellectual interest in the Craft is usually aroused by their curiosity as to what the work "is all about." I have tried to tell the beginners what it is all about, as clearly as possible, within the limits of space and of the obligations to secrecy, and as far as the results of modern Masonic scholarship have allowed. "Unto the divine light of the holy altar, from the outer darkness of ignorance, through the shadow of our earth life, winds the beautiful path of initiation."

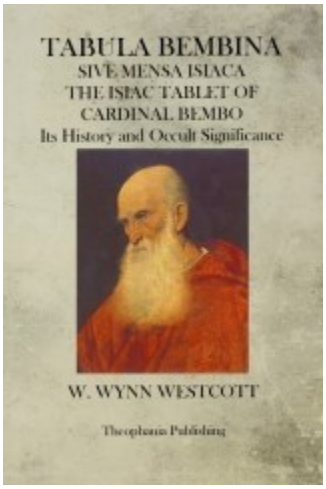
Symbolism of Alchemy and the Occult Arts
By Dr. Herbert Silberer
288 Pages, $21.24 USD, ISBN: 1499106521
Prominent among the stones of a fireplace in my country den, one large rounded giant stands out. It was bourne by the glacial streams from a more northern resting place and is marked by a fossil of a mollusk that inhabited northern seas many million years ago. Yet in spite of the eons of time that have passed it can be compared with specimens of mollusks that live to-day. Down through the countless centuries the living stream has carved its structural habitations in much the same form.



Symposium: or The Banquet
By Xenophon
110 Pages, $16.24 USD, ISBN: 146802406X
For myself, I hold to the opinion that not alone are the serious transactions of “good and noble men” most memorable, but that words and deeds distinctive of their lighter moods may claim some record. In proof of which contention, I will here describe a set of incidents within the scope of my experience. The occasion was a horse-race at the great Panathenaic festival. Callias, the son of Hipponicus, being a friend and lover of the boy Autolycus, had brought the lad, himself the winner of the pankration, to see the spectacle.



Synge and the Ireland of His Time
By William Butler Yeats
54 Pages, $16.24 USD, ISBN: 1499106688
At times during Synge’s last illness, Lady Gregory and I would speak of his work and always find some pleasure in the thought that unlike ourselves, who had made our experiments in public, he would leave to the world nothing to be wished away—nothing that was not beautiful or powerful in itself, or necessary as an expression of his life and thought. When he died we were in much anxiety, for a letter written before his last illness, and printed in the selection of his poems published at the Cuala Press, had shown that he was anxious about the fate of his manuscripts and scattered writings.

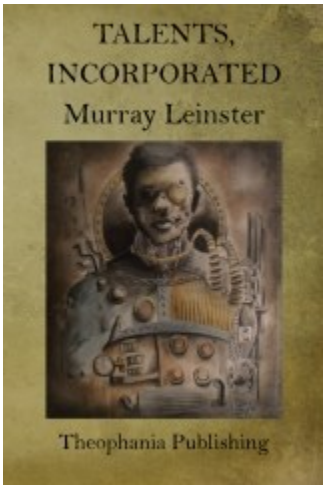


Tabula Bembina: SIVE MENSA ISIACA THE ISIAC TABLET OF CARDINAL BEMBO Its History and Occult Significance

By W. Wynn Westcott

56 Pages, $16.24 USD, ISBN: 1470101599

THIS curious relic of an age long past cannot fail to attract the attention of every earnest student of the Mysteries; its beauty of design, its careful execution, its obvious antiquity, its certain connection with that most incomprehensible scheme of religion—the Egyptian, all combine to fascinate the mind and stimulate the intellect in a search for the explanation of the purpose and meaning of this very elaborate pictorial work of Art. Mysterious in its conception, of unknown origin, and of peculiar workmanship, this Tablet merits examination and research.

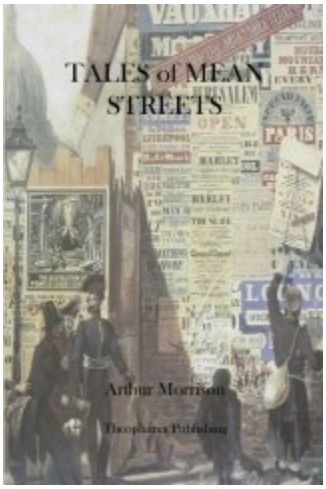


Talents, Incorporated

By Murray Leinster

228 Pages, $19.24 USD, ISBN: 1519339453

YOUNG CAPTAIN BORS—who impatiently refused to be called anything else—was strangely occupied when the communicator buzzed. He'd ripped away the cord about a thick parcel of documents and heaved them into the fireplace of the office of the Minister for Diplomatic Affairs. A fire burned there, and already there were many ashes. The carpet and the chairs of the cabinet officer's sanctum were coated with fine white dust. As the communicator buzzed again, Captain Bors took a fireplace tool and stirred the close-packed papers to looseness. They caught and burned instead of only smouldering. The communicator buzzed yet again. He brushed off his hands and pressed the answer-stud.

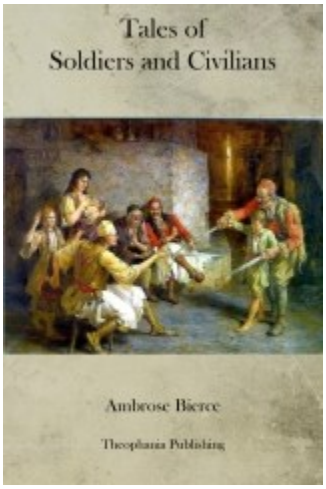


Tales of Mean Streets

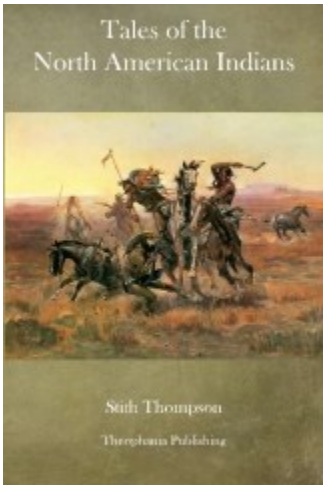
By Arthur Morrison

196 Pages, $19.24 USD, ISBN: 1470101629

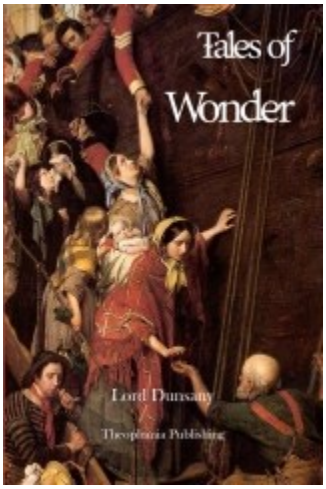
This street is in the East End. There is no need to say in the East End of what. The East End is a vast city, as famous in its way as any the hand of man has made. But who knows the East End? It is down through Cornhill and out beyond Leadenhall Street and Aldgate Pump, one will say: a shocking place, where he once went with a curate; an evil plexus of slums hat hide human creeping things; where filthy men and women live on pennorths of gin, where collars and clean shirts are decencies unknown, where every citizen wears a black eye, and none ever combs his hair. The East End is a place, says another, which is given over to the unemployed.



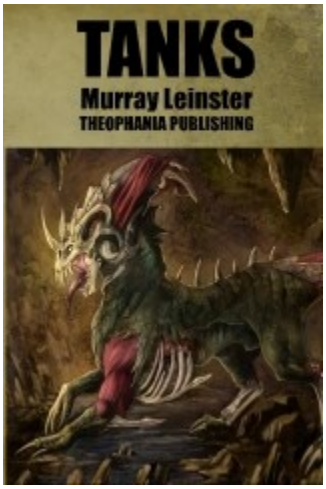
Tales of Soldiers and Civilians
By Ambrose Bierce
256 Pages, $20.24 USD, ISBN: 1470101653
The Federal cannoneers fought their hopeless battle in an atmosphere of living iron whose thoughts were lightnings and whose deeds were death. —Tales of Soldiers and Civilians: The Affair at Coulter's Notch. Since the book is a compilation of short stories, there is not an overarching plot. However, there are literary elements, or plot devices, that are shared throughout. Bierce's stories often begin mid-plot, with relevant details withheld until the end, where the dramatic resolution unfolds differently than expected, to a degree where most are considered twist endings.



Tales of the North American Indians
By Stith Thompson
336 Pages, $23.24 USD, ISBN: 1515337200
From them we have at this early date rather good versions of the Iroquois creation myth (No. v of this collection), of "The Sun Snarer" (No. xv) and of "The Empounded Water" (No. xxii). These tales have the same form when collected in the twentieth century as they had in the early seventeenth. Though tales were reported sporadically during the next two centuries by travellers and explorers, it was not till the second quarter of the nineteenth century that any considerable body of this folk-lore became available. Through the labors of Henry Rowe Schoolcraft, the legends of the Ojibwa and their neighbors were reported at some length. Unfortunately, the scientific value of his work is marred by the manner in which he has reshaped the stories to suit his own literary taste.



Tales of Wonder
By Lord Dunsany
138 Pages, $16.24 USD, ISBN: 1479163031
I do not know where I may be when this preface is read. As I write it in August 1916, I am at Ebrington Barracks, Londonderry, recovering from a slight wound. But it does not greatly matter where I am; my dreams are here before you amongst the following pages; and writing in a day when life is cheap, dreams seem to me all the dearer, the only things that survive. Just now the civilization of Europe seems almost to have ceased, and nothing seems to grow in her torn fields but death, yet this is only for a while and dreams will come back again and bloom as of old, all the more radiantly for this terrible ploughing, as the flowers will bloom again where the trenches are and the primroses shelter in shell-holes for many seasons, when weeping Liberty has come home to Flanders.



Tanks

By Murray Leinster

46 Pages, $16.24 USD, ISBN: 1519339909

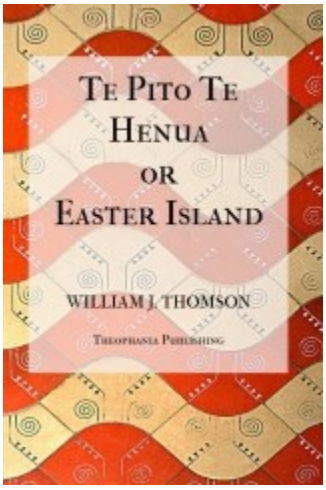
The persistent, oily smell of fog-gas was everywhere, even in the little pill-box. Outside, all the world was blotted out by the thick gray mist that went rolling slowly across country with the breeze. The noises that came through it were curiously muted—fog-gas mutes all noises somewhat—but somewhere to the right artillery was pounding something with H E shell, and there were those little spitting under-current explosions that told of tanks in action. To the right there was a distant rolling of machine-gun fire. In between was an utter, solemn silence.

Tao Te Ching

By Lao Tzu

84 Pages, $15.24 USD, ISBN: 1478399961

Always without desire we must be found, If its deep mystery we would sound; But if desire always within us be, Its outer fringe is all that we shall see.



Te Pito Te Henua, or Easter Island

By Willliam Thomson

204 Pages, $19.24 USD, ISBN: 147525721X

The honor of the discovery of Easter Island is contested by several of the earlier voyagers in the Pacific. Spanish writers claim that the island was sighted by Mendana in 1566, but the account is by no means authenticated, and the records preserved are not sufficiently accurate to determine the exact track sailed over by that ancient mariner.

Tea Cup Reading and Fortune Telling
By A Highland Seer
64 Pages, $16.24 USD, ISBN: 1479163058

It is somewhat curious that among the great number of books on occult science and all forms of divination which have been published in the English language there should be none dealing exclusively with the Tea-cup Reading and the Art of Telling Fortunes by the Tea-leaves: notwithstanding that it is one of the most common forms of divination practised by the peasants of Scotland and by village fortune-tellers in all parts of this country. In many of the cheaper handbooks to Fortune-telling by Cards or in other ways only brief references to the Tea-cup method are given; but only too evidently by writers who are merely acquainted with it by hearsay and have not made a study of it for themselves.

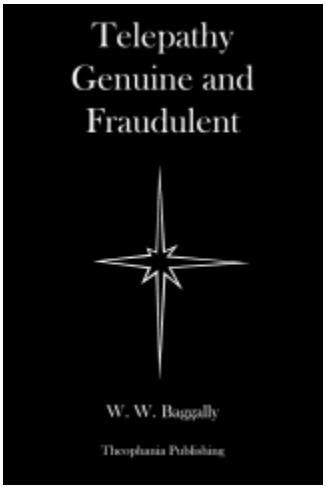
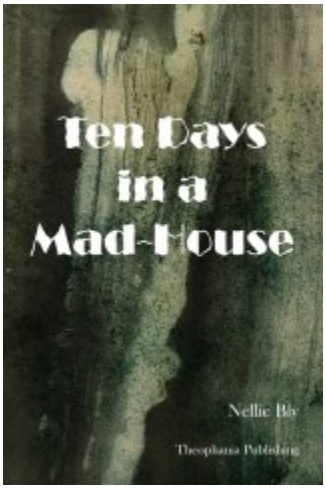
Telepathy And The Subliminal Self: An Account Of Recent Investigations Regarding Hypnotism, Automatism, Dreams, Phantasms, And Related Phenomena
By R. Osgood Mason
276 Pages, $21.24 USD, ISBN: 1468024019

To whatever conclusions it may lead us, there is no mistaking the fact that now more than ever before is the public interested in matters relating to the “New Psychology.” Scarcely a day passes that notice of some unusual psychical experience or startling phenomenon does not appear in popular literature. The newspaper, the magazine, and the novel vie with each other in their efforts to excite interest and attract attention by the display of these strange incidents, presented sometimes with intelligence and taste, but oftener with a culpable disregard of both taste and truth.



Telepathy Genuine and Fraudulent
By W. W. Baggally
74 Pages, $15.24 USD, ISBN: 1478398655

Mr. W. W. Baggally, an experienced investigator of supernormal phenomena, has set down some of his experiences in connexion with the subject of Telepathy, and I heartily commend his book to the public as the record of a careful, conscientious, and exceptionally skilled and critical investigator. It would be difficult to find anyone more competent by training and capacity to examine into the genuineness of these subtle and elusive phenomena, which yet are of the utmost importance in the development of psychological science. Telepathy, or the direct action of mind on mind apart from the ordinary channels of sense, opens a new chapter; it is not a coping-stone completing an erection, but a foundation-stone on which to build.



Ten Days in a Mad-House
By Nellie Bly
158 Pages, $17.24 USD, ISBN: 1478256451
Since my experiences in Blackwell's Island Insane Asylum were published in the World I have received hundreds of letters in regard to it. The edition containing my story long since ran out, and I have been prevailed upon to allow it to be published in book form, to satisfy the hundreds who are yet asking for copies. I am happy to be able to state as a result of my visit to the asylum and the exposures consequent thereon, that the City of New York has appropriated $1,000,000 more per annum than ever before for the care of the insane. So I have at least the satisfaction of knowing that the poor unfortunates will be the better cared for because of my work.

Ten Great Religions: An Essay in Co
By James Freeman Clarke
582 Pages, $30.24 USD, ISBN: 1770832181
The first six chapters of the present volume are composed from six articles prepared for the Atlantic Monthly, and published in that magazine in 1868. They attracted quite as much attention as the writer anticipated, and this has induced him to enlarge them, and add other chapters. His aim is to enable the reader to become acquainted with the doctrines and customs of the principal religions of the world, without having to consult numerous volumes.

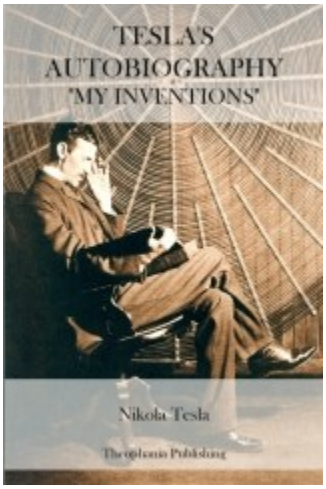
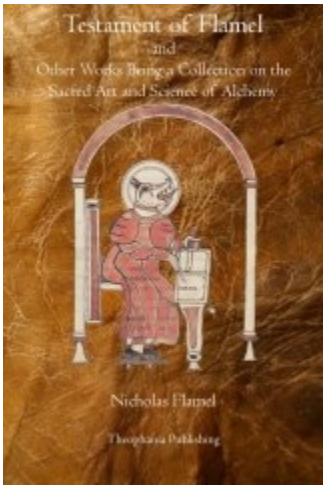
Tertullian Five Books Against Marcion
By Tertullian
544 Pages, $29.24 USD, ISBN: 1479163236

We present a series widely differing, in its contents, from those which have gone before; it contains the works of the great founder of Latin Christianity, the versatile and brilliant Tertullian. Not all his works, indeed, for they could not be contained in one of our books. This book, however, considerably overruns the promised number of pages, and gives three complete parts of Tertullian's writings, according to the classification of our Editor-in-chief. The Fourth volume will begin with the fourth class of his works, those which exhibit our author's ascetic ideas and the minor morals of the Primitive Christians, that collection being closed by the four treatises which were written in support of a defined and schismatical Montanism. The Editor-in-chief has been in active correspondence with representative men of divers theological schools, hoping to secure their co-operation in editorial work.

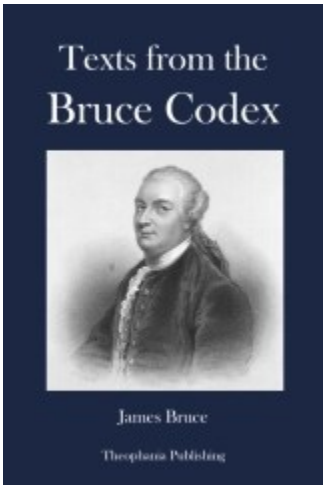


Tesla's Autobiography
By Nikola Tesla
120 Pages, $16.24 USD, ISBN: 1470101319
The progressive development of man is vitally dependent on invention. It is the most important product of his creative brain. Its ultimate purpose is the complete mastery of mind over the material world, the harnessing of the forces of nature to human needs. This is the difficult task of the inventor who is often misunderstood and unrewarded. But he finds ample compensation in the pleasing exercises of his powers and in the knowledge of being one of that exceptionally privileged class without whom the race would have long ago perished in the bitter struggle against pitiless elements.

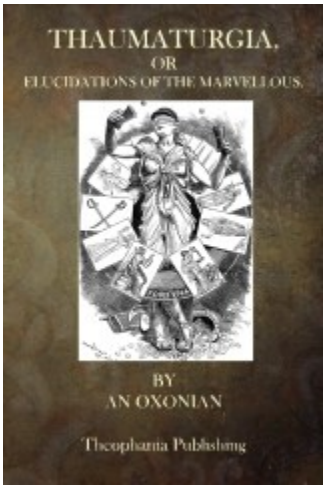


Testament of Flamel: and Other Work
By Nicholas Flamel
58 Pages, $16.24 USD, ISBN: 1770830022
I, Nicholas Flamel, a scrivener of Paris, in the year 1414, in the reign of our gracious Prince Charles the VIth, whom God preserve; and after the death of my faithful partner Perenelle, am seized with a desire and a delight, in remembrance of her, and in your behalf, dear nephew, to write out the whole magistery of the secret of the Powder of Projection, or the Philosophical Tincture, which God hath willed to impart to his very insignificant servant, and which I have found out, as thou also wilt find out in working as I shall declare unto you. And for this cause do not forget to pray to God to bestow on thee the understanding of the reason of the truth of nature, which thou wilt see in this book, wherein I have written the secrets word for word, sheet by sheet...

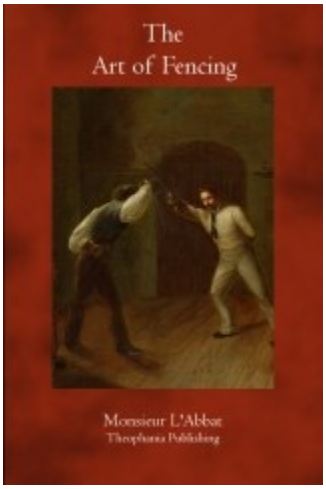
Tetrabiblos
By Claudius Ptolemy
140 Pages, $15.24 USD, ISBN: 1478282304
OF the means of prediction through astronomy, O Syrus, two ara the most important and valid. One, which is first both in order and in effectiveness, is that whereby we apprehend the aspects of the movements of sun, moon, and stars in relation to each other and to the earth, as they occur from time to time; the second is that in which by means of the natural character of these aspects themselves we investigate the changes which they bring about in that which they surround. The first of these, which has its own science, desirable in itself even though it does not attain the result given by its combination with the second, has been expounded to you as best we could in its own treatise by the method of demonstration.



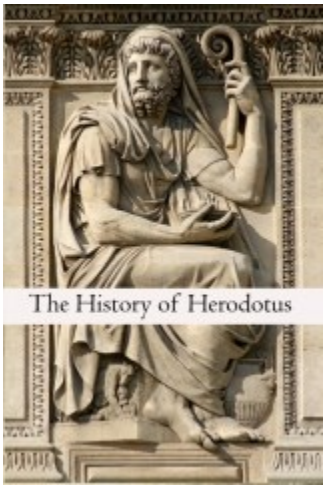
Texts from the Bruce Codex
By James Bruce
92 Pages, $16.24 USD, ISBN: 1479163317
This codex, which comprises Coptic. Arabic and Ethiopic manuscripts, is said to have been bought at Medinet Habu in Upper Egypt in about 1769 by the Scottish traveller. James Bruce.' We owe this information to C. G. Woide who made the first copy of the Coptic gnostic texts contained in it. He also first brought them to public notice with an article on the Egyptian version of the Bible, and he gave the biblical citations in his Appendix ad editionem Novi tions Testamenti. After his death his copy of the texts was held by the Clarendon Press, Oxford, under the number MS. Clarendon Press d. 13. In 1848 the codex was acquired by the Bodleian Library, together with Woide's transcript of the gnostic texts. The gnostic manuscripts were catalogued under the number Bruce 96.



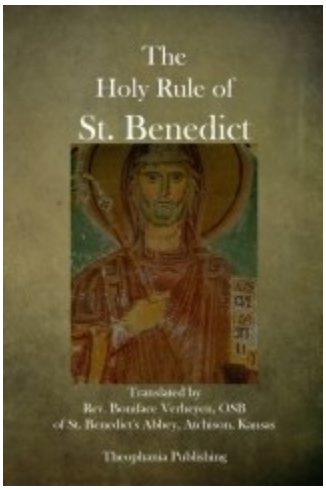
Thaumaturgia, or Elucidations of the Marvelous
By An Oxonian
410 Pages, $25.24 USD, ISBN: 1515335666
Children and old women have been accustomed to hear so many frightful things of the cloven-footed potentate, and have formed such diabolical ideas of his satanic majesty, exhibiting him in so many horrible and monstrous shapes, that really it were enough to frighten Beelzebub himself, were he by any accident to meet his prototype in the dark, dressed up in the several figures in which imagination has embodied him. And as regards men themselves, it might be presumed that the devil could not by any means terrify them half so much, were they actually to meet and converse with him face to face: so true it is that his satanic majesty is not near so black as he is painted.



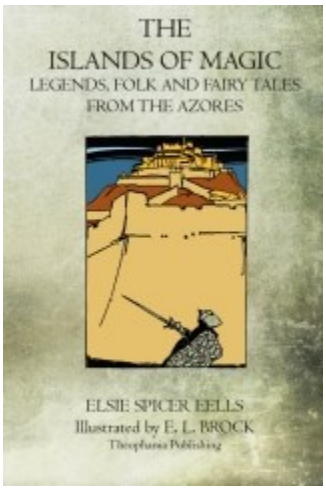
The Art of Fencing
By Monsieur L'Abbat
112 Pages, $16.24 USD, ISBN: 1770830790
Of all Professions, that of Arms has in all Ages, since their Invention, been esteemed the noblest and most necessary; it being by them that the Laws preserve their Force, that our Dominions are defended from the Encroachments of our Enemies, and ill designing People kept in the Subjection due to their Sovereigns; and of all Arms, the Sword is probably the most ancient: It is honourable and useful, and upon Occasion, causes a greater Acquisition of Glory than any other: It is likewise worn by Kings and Princes, as an Ornament to Majesty and Grandeur, and a Mark of their Courage, and distinguishes the Nobility from the lower Rank of Men.



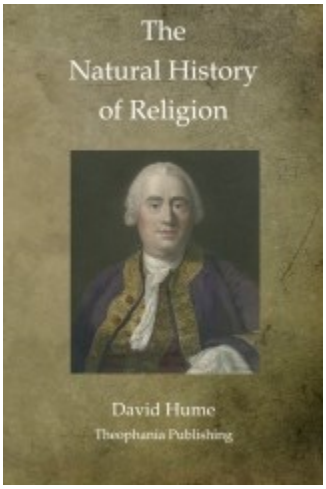
The History of Herodotus
By Herodotus
728 Pages, $40.24 USD, ISBN: 1468026100
THESE are the researches of Herodotus of Halicarnassus, which he publishes, in the hope of thereby preserving from decay the remembrance of what men have done, and of preventing the great and wonderful actions of the Greeks and the Barbarians from losing their due meed of glory; and withal to put on record what were their grounds of feuds. According to the Persians best informed in history, the Phoenicians began to quarrel. This people, who had formerly dwelt on the shores of the Erythraean Sea, having migrated to the Mediterranean and settled in the parts which they now inhabit, began at once, they say, to adventure on long voyages, freighting their vessels with the wares of Egypt and Assyria.



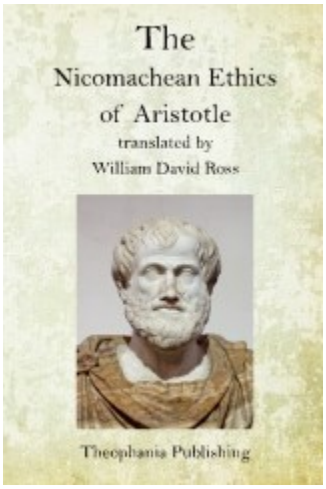
The Holy Rule of St. Benedict
By St. Benedict
106 Pages, $16.24 USD, ISBN: 1503050955
Listen, O my son, to the precepts of thy master, and incline the ear of thy heart, and cheerfully receive and faithfully execute the admonitions of thy loving Father, that by the toil of obedience thou mayest return to Him from whom by the sloth of disobedience thou hast gone away. To thee, therefore, my speech is now directed, who, giving up thine own will, takest up the strong and most excellent arms of obedience, to do battle for Christ the Lord, the true King.



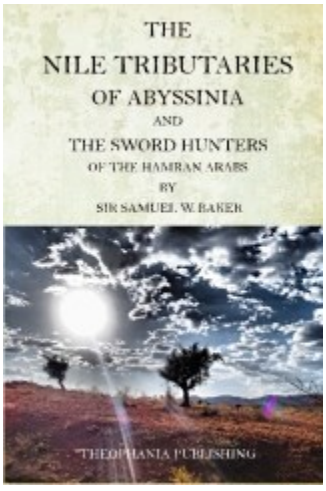
The Islands Of Magic: Legends, Fol
By Elsie Spicer Eells
156 Pages, $18.24 USD, ISBN: 1468026143
Some three-fourths of the distance between America and Europe there is a group of nine beautiful islands called the Azores which belong to Portugal. Their names are Flores, Corvo, Fayal, Pico, S. Jorge, Graciosa, Terceira, S. Miguel, and Santa Maria. Many people think them to be the mountain peaks of the submerged continent, Atlantis, which long ago was covered by the ocean. There are ancient records which tell of Arabian caravels driven back by dangerous seas surrounding islands full of volcanoes. There are old pictures which portray seas of spouting geysers and flaming volcanic isles. In these regions islands had a habit of suddenly lifting themselves out of the ocean and then disappearing again from view.



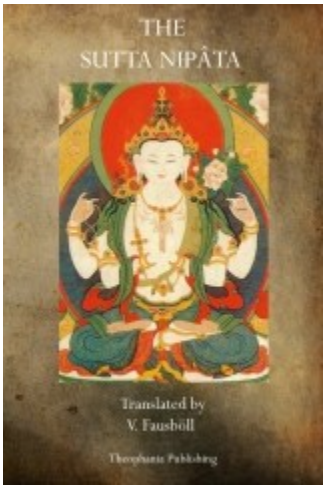
The Natural History of Religion
By David Hume
128 Pages, $16.24 USD, ISBN: 1468025619
The belief of invisible, intelligent power has been very generally diffused over the human race, in all places and in all ages; but it has neither perhaps been so universal as to admit of no exceptions, nor has it been, in any degree, uniform in the ideas which it has suggested. Some nations have been discovered, who entertained no sentiments of Religion, if travellers and historians may be credited; and no two nations, and scarce any two men, have ever agreed precisely in the same sentiments.



The Nicomachean Ethics of Aristotle
By Aristotle
268 Pages, $22.24 USD, ISBN: 1518652476
EVERY art and every inquiry, and similarly every action and pursuit, is thought to aim at some good; and for this reason the good has rightly been declared to be that at which all things aim. But a certain difference is found among ends; some are activities, others are products apart from the activities that produce them. Where there are ends apart from the actions, it is the nature of the products to be better than the activities.



The Nile Tributaries Of Abyssinia and The Sword Hunters of the Hamran Arabs
By Sir Samuel W. Baker
574 Pages, $30.24 USD, ISBN: 1518648932
THE work entitled "The Albert N'yanza Great Basin of the Nile," published in 1866, has given an account of the equatorial lake system from which the Egyptian river derives its source. It has been determined by the joint explorations of Speke, Grant, and myself, that the rainfall of the equatorial districts supplies two vast lakes, the Victoria and the Albert, of sufficient volume to support the Nile throughout its entire course of thirty degrees of latitude. Thus the parent stream, fed by never-failing reservoirs, supplied by the ten months' rainfall of the equator, rolls steadily on its way through arid sands and burning deserts until it reaches the Delta of Lower Egypt.

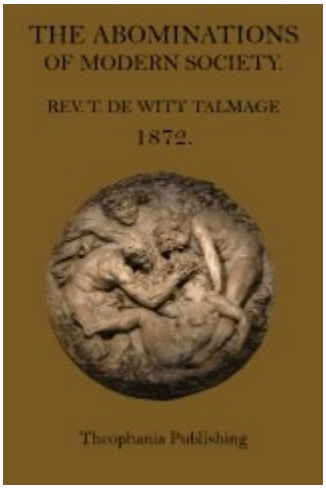


The Sutta Nipâta

By V. Fausböll

204 Pages, $19.24 USD, ISBN: 1770832653

The Sutta Nipata is a Buddhist scripture, a sutta collection in the Khuddaka Nikaya, part of the Pali Canon of Theravada Buddhism. All its suttas consist largely of verse, though some also contain some prose. It is divided into five sections: Uraga Vagga Cula Vagga Maha Vagga Atthaka Vagga Parayana Vagga Some scholars consider this the oldest of all Buddhist scriptures. Others agree that it contains much very early material.

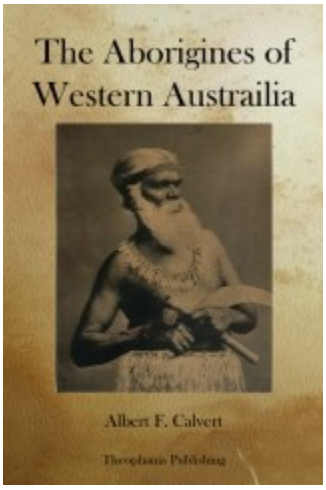


The Abominations of Modern Society

By Rev. T. De Witt Talmage

196 Pages, $19.24 USD, ISBN: 1519340052

Pride of city is natural to men, in all times, if they live or have lived in a metropolis noted for dignity or prowess. Caesar boasted of his native Rome; Lycurgus of Sparta; Virgil of Andes; Demosthenes of Athens; Archimedes of Syracuse; and Paul of Tarsus. I should suspect a man of base-heartedness who carried about with him no feeling of complacency in regard to the place of his residence; who gloried not in its arts, or arms, or behavior; who looked with no exultation upon its evidences of prosperity, its artistic embellishments, and its scientific attainments. I have noticed that men never like a place where they have not behaved well. Swarthout did not like New York; nor Dr. Webster, Boston.



The Aborigines of Western Austrailia

By Albert F. Calvert

70 Pages, $15.24 USD, ISBN: 1478399899

This short essay on the Aborigines of Western Australia is primarily useful as a historical document. Even at the time this was written there were few Aborigines remaining in this area, and so even scraps of information like this are important. The text is particularly revealing as to Victorian attitudes towards Aborigines. Every paragraph of this piece needs to be read with a careful eye for underlying racist assumptions. That said, the author was well intentioned. Calvert, who lists literally dozens of academic affiliations on the title page, does criticize his contemporaries for their treatment of Aborigines as subhumans. Throughout the essay he attempts to demonstrate that the native Australians have a complete cultural inventory.

The Absolute at Large

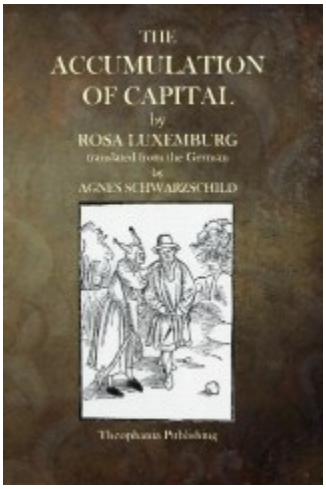
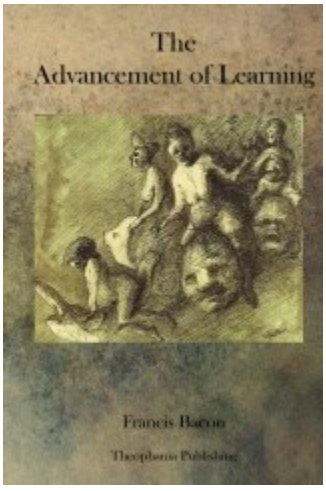
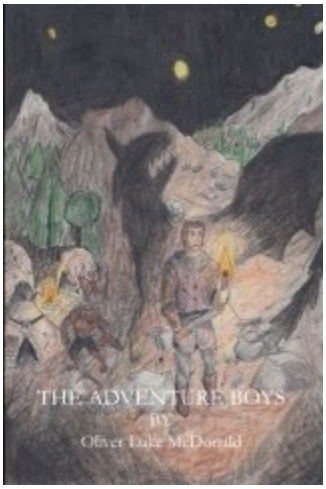
In this classic satire, after inventing the Karburator, a machine that can create almost free energy a brilliant scientist discovers this reactor yields and releases a powerful bi-product, The Absolute into the World.



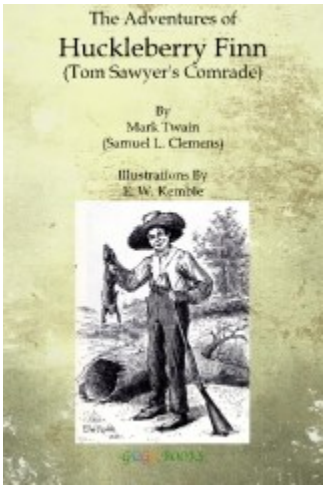
The Accumulation of Capital
By Rosa Luxemburg
528 Pages, $28.24 USD, ISBN: 1515291405
The book is one of considerable difficulty (apart from the vivid historical chapters), and to those accustomed only to academic analysis the difficulty is rendered well-nigh insurmountable by the Marxist terminology in which it is expressed. The purpose of this preface is to provide a glossary of terms, and to search for the main thread of the argument (leaving the historical illustrations to speak for themselves) and set it out in simpler language. The result is no doubt too simple.



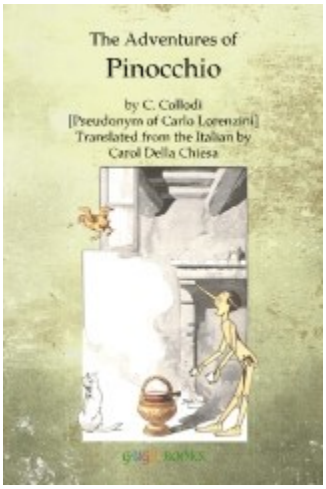
The Advancement of Learning
By Francis Bacon
134 Pages, $17.24 USD, ISBN: 1770833196
I hear the former sort say that knowledge is of those things which are to be accepted of with great limitation and caution; that the aspiring to overmuch knowledge was the original temptation and sin whereupon ensued the fall of man; that knowledge hath in it somewhat of the serpent, and, therefore, where it entereth into a man it makes him swell; Scientia inflat; that Solomon gives a censure, “That there is no end of making books, and that much reading is weariness of the flesh;” and again in another place, “That in spacious knowledge there is much contristation, and that he that increaseth knowledge increaseth anxiety;” that Saint Paul gives a caveat, “That we be not spoiled through vain philosophy;” that experience demonstrates how learned men have been arch heretics, how learned times have been inclined to atheism, and how the contemplation of second causes doth derogate from our dependence upon God, who is the first cause.



The Adventure Boys
By Oliver Luke McDonald
62 Pages, $10.24 USD, ISBN: 1500746002
Once there lived two boys. They lived in a little town on a hill in New Zealand. One was named Michael and one was named Luke. Luke was 12 and Michael was 19. Their parents had died when Luke was 5 and Michael was 12. Since then, they had lived alone in a cottage. It was a very splendid cottage, that is, until the war. The book takes place during the time of world war 1. This is the story of my adventures when I was a 12 year old boy. The crazy adventure that I will tell you about has werewolves, a dragon and the most crazy awesome bow and arrow shooting Noroks. Luke and Michael once had a mom and dad and their family lived peacefully in a little town. Their parents had told them to never tell anyone about the werewolves that invaded their town long ago until they fixed it. And this is how it all happened ...



The Adventures of Huckleberry Finn:
By Mark Twain
564 Pages, $20.24 USD, ISBN: 1515291782 GUGA BOOKS
YOU don't know about me without you have read a book by the name of The Adventures of Tom Sawyer; but that ain't no matter. That book was made by Mr. Mark Twain, and he told the truth, mainly. There was things which he stretched, but mainly he told the truth. That is nothing.



The Adventures of Pinocchio
By C. Collodi
270 Pages, $20.24 USD, ISBN: 1515291642 GUGA BOOKS
Cat and Fox and Marionette walked and walked and walked. At last, toward evening, dead tired, they came to the Inn of the Red Lobster. 'Let us stop here a while,' said the Fox, 'to eat a bite and rest for a few hours. At midnight we'll start out again, for at dawn tomorrow we must be at the Field of Wonders.' They went into the Inn and all three sat down at the same table. However, not one of them was very hungry. The poor Cat felt very weak, and he was able to eat only thirty-five mullets with tomato sauce and four portions of tripe with cheese.

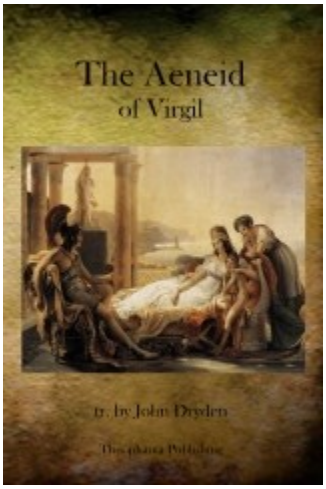
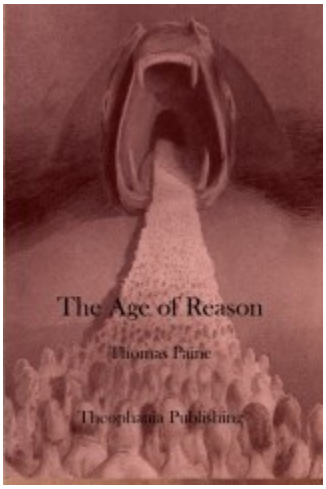
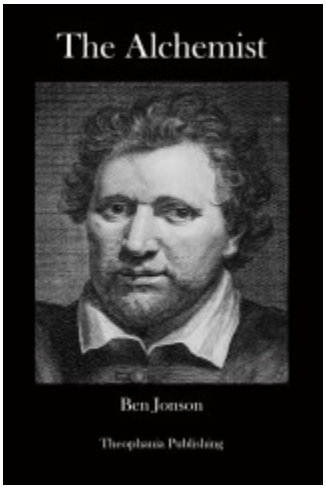
'Hang the boy, can't I never learn anything? Ain't he played me tricks enough like that for me to be looking out for him by this time? But old fools is the biggest fools there is. Can't learn an old dog new tricks, as the saying is. But my goodness, he never plays them alike, two days, and how is a body to know what's coming? He 'pears to know just how long he can torment me before I get my dander up, and he knows if he can make out to put me off for a minute or make me laugh, it's all down again and I can't hit him a lick.



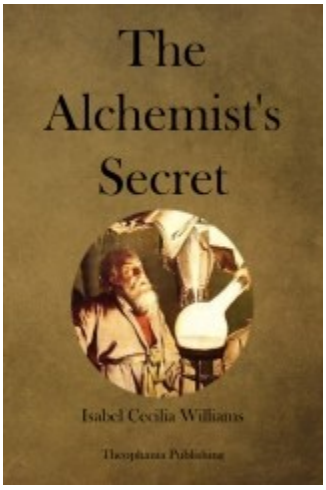
The Aeneid of Virgil
By Virgil
356 Pages, $25.24 USD, ISBN: 1770830987
The Aeneid is a Latin epic poem written by Virgil in the late 1st century BC, that tells the legendary story of Aeneas, a Trojan who travelled to Italy, where he became the ancestor of the Romans. It is composed of roughly 10,000 lines in dactylic hexameter. The first six of the poem's twelve books tell the story of Aeneas's wanderings from Troy to Italy, and the poem's second half tells of the Trojans' ultimately victorious war upon the Latins, under whose name Aeneas and his Trojan followers are destined to be subsumed.



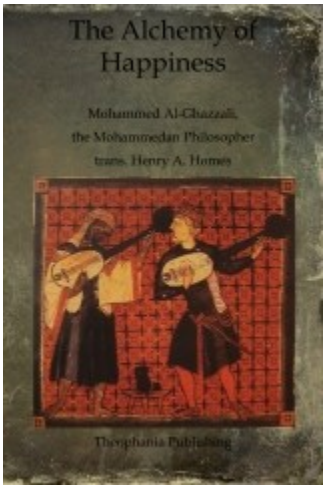
The Age of Reason
By Thomas Paine
172 Pages, $18.24 USD, ISBN: 177083320X
To My Fellow-Citizens of the United States of America: I PUT the following work under your protection. It contains my opinions upon Religion. You will do me the justice to remember, that I have always strenuously supported the Right of every Man to his own opinion, however different that opinion might be to mine. He who denies to another this right, makes a slave of himself to his present opinion, because he precludes himself the right of changing it. The most formidable weapon against errors of every kind is Reason. I have never used any other, and I trust I never shall. Your affectionate friend and fellow-citizen, Thomas Paine



The Alchemist
By Ben Jonson
316 Pages, $22.24 USD, ISBN: 1478256524
The greatest of English dramatists except Shakespeare, the first literary dictator and poet-laureate, a writer of verse, prose, satire, and criticism who most potently of all the men of his time affected the subsequent course of English letters: such was Ben Jonson, and as such his strong personality assumes an interest to us almost unparalleled, at least in his age. Ben Jonson came of the stock that was centuries after to give to the world Thomas Carlyle; for Jonson's grandfather was of Annandale, over the Solway, whence he migrated to England. Jonson's father lost his estate under Queen Mary, "having been cast into prison and forfeited."

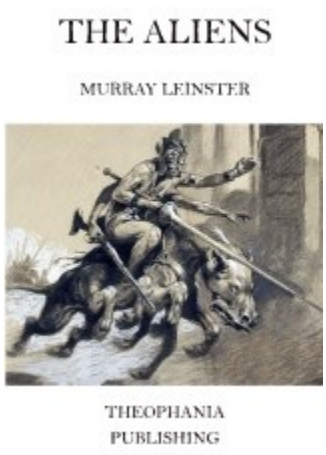


The Alchemist's Secret
By Isabel Cecilia Williams
138 Pages, $17.24 USD, ISBN: 1479176680
He sighed again as he turned up over the hill to the left and started for home. It had been a long, cold walk down to the village, and it would be equally long and even colder on the way back, for a sharp wind was blowing directly in his face. It was a bad night for an old man like Tony to be abroad and he was almost sorry that he had ventured out. But there was his promise to Martha; it would never do to break that. Martha had always been of a more hopeful turn of mind than he, anyway. While she was still alive she had imparted to him the same spirit of trust and hopefulness which shone in her steady gray eyes, but since God had taken Martha and left him all alone in the world of care and trouble, life had been hard indeed.



The Alchemy of Happiness
By Mohammed Al-Ghazzali
110 Pages, $16.24 USD, ISBN: 1468023705
“Ghazzali,” says Tholuck, “if ever any man have deserved the name, was truly a divine, and he may justly he placed on a level with Origen, so remarkable was he for learning and ingenuity, and gifted with such a rare faculty for the skillful and worthy exposition of doctrine. All that is good, noble and sublime, which his great soul had compassed, he bestowed upon Mohammedanism; and he adorned the doctrines of the Koran with so much piety and learning, that, in the form given them by him, they seem in my opinion worthy the assent of Christians.

The Algonquin Legends of New England
By Charles G. Leland
354 Pages, $23.24 USD, ISBN: 1515291359
AMONG the six chief divisions of the red Indians Of North America the most widely extended is the Algonquin. This people ranged from Labrador to the far South, from Newfoundland to the Rocky Mountains, speaking forty dialects, as the Hon. J. H. Trumbull has shown in his valuable work on the subject. Belonging to this division are the Micmacs of Nora Scotia and the Passamaquoddy and Penobscot tribes of Maine, who with the St. Francis Indians of Canada and some smaller clans call themselves the Wabanaki, a word derived from a root signifying white or light, intimating that they live nearest to the rising sun or the east. In fact, the French-speaking St. Francis family, who are known par éminence as "the Abenaki," translate the term by point du jour.



The Aliens
By Murray Leinster
64 Pages, $16.24 USD, ISBN: 1519340389
The human race was expanding through the galaxy ... and so, they knew, were the Aliens. When two expanding empires meet ... war is inevitable. Or is it ...? At 04 hours 10 minutes, ship time, the Niccola was well inside the Theta Gisol solar system. She had previously secured excellent evidence that this was not the home of the Plumie civilization. There was no tuned radiation. There was no evidence of interplanetary travel—rockets would be more than obvious, and a magnetronic drive had a highly characteristic radiation-pattern—so the real purpose of the Niccola's voyage would not be accomplished here. She wouldn't find out where Plumies came from.

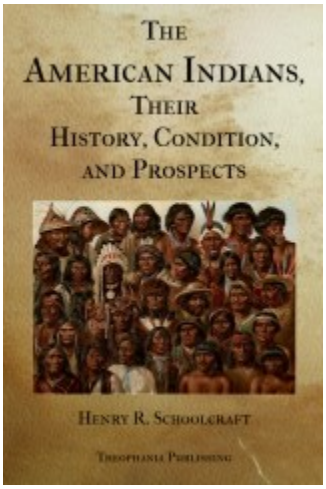
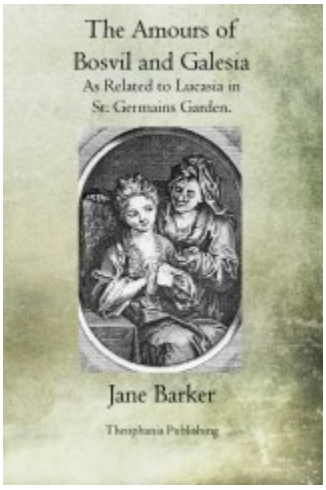
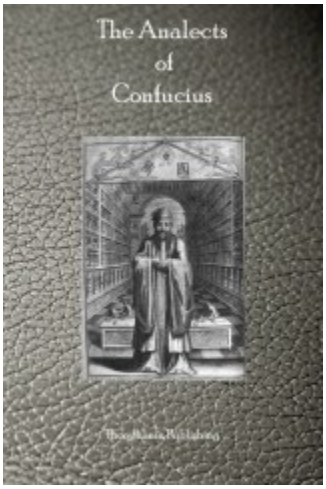
The Ambulance Made Two Trips
By Murray Leinster
36 Pages, $16.24 USD, ISBN: 1519340281
If you should set a thief to catch a thief, what does it take to stop a racketeer...? Detective Sergeant Fitzgerald found a package before his door that morning, along with the milk. He took it inside and opened it. It was a remarkably fine meerschaum pipe, such as the sergeant had longed irrationally to own for many years. There was no message with it, nor any card. He swore bitterly. On his way to Headquarters he stopped in at the orphanage where he usually left such gifts.



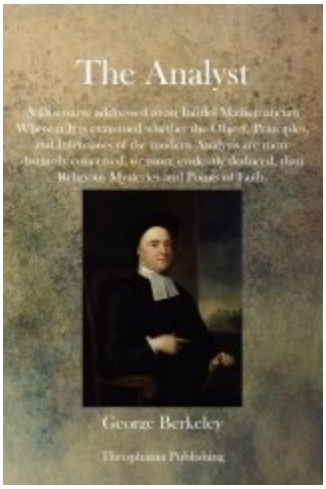
The American Indians Their History
By Henry R. Schoolcraft
632 Pages, $25.24 USD, ISBN: 1478392614
Having devoted so large a portion of my life in an active sphere, in which the intervals of travel left me favourable opportunities of pursuing the languages and history of this branch of the race, it appears to be a just expectation, that, in sitting down to give some account of this people, there should be some preliminary remarks, to apprise the reader how and why it is, that his attention is recalled to a topic which he may have supposed to be well nigh exhausted. This it is proposed to do by some brief personal reminiscences, beginning at the time above alluded to.



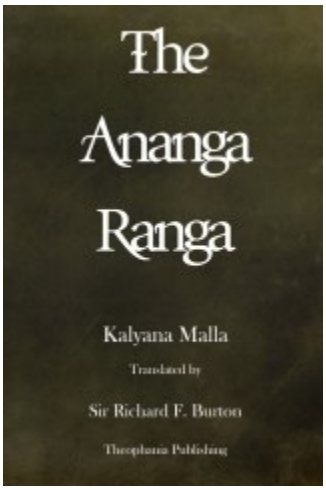
The Amours of Bosvil and Galesia: As Related to Lucasia in St. Germains Garden
By Jane Barker
58 Pages, $16.24 USD, ISBN: 1468023810
It was in the Heat of Summer, when News is daily coming and hourly expected from the Campaigns; which, as it employs the Heads of the Politicians, and Arms of the Heroes, so it fills the Hearts of the Fair with a thousand Apprehensions, in Consideration of their respective Friends and Relations therein concern'd. This induc'd Galesia to an early Walk in St. Germains Garden, where meeting with her Friend Lucasia, they took a Turn or two by the little Wood, entertaining themselves on the Adventures of the present and foregoing War, and what they had to hope or fear from the Success or Overthrow of either or both Parties; their dearest and nearest Relations being equally engag'd on both Sides.



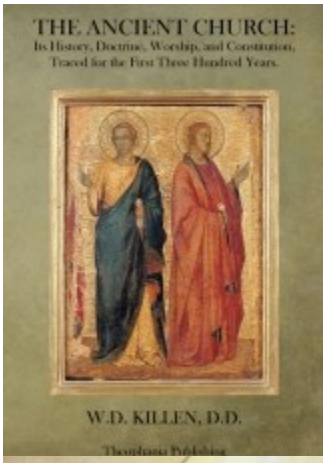
The Analects of Confucius
By Confucius
88 Pages, $16.24 USD, ISBN: 1770830030
The Analects were written by Confucius's pupils during the period 30 to 50 years after his death. Begun some time during the Spring and Autumn Period, the work was probably finished during the Warring States Period, though the exact publication date of the first complete Analects cannot be pinpointed. Much as the Republic purports to be a collection of Socrates' discussions but actually contains original material from his disciple Plato, the Analects were almost certainly penned and compiled by disciples and second-generation disciples of Confucius, albeit being mostly about Confucius himself and his thought.



The Analyst
By George Berkeley
60 Pages, $16.24 USD, ISBN: 1770833218
Though I am a Stranger to your Person, yet I am not, Sir, a Stranger to the Reputation you have acquired, in that branch of Learning which hath been your peculiar Study; nor to the Authority that you therefore assume in things foreign to your Profession, nor to the Abuse that you, and too many more of the like Character, are known to make of such undue Authority, to the misleading of unwary Persons in matters of the highest Concernment, and whereof your mathematical Knowledge can by no means qualify you to be a competent Judge.



The Ananga Ranga
By Kalyana Malla
98 Pages, $16.24 USD, ISBN: 1479176648
The loves of Krishna and the sixteen thousand milkmaids are recorded in the Bhagavat; this eleventh incarnation of Vishnu is a dark-blue man, playing with both hands upon the pipe, whilst Radha, his wife, stands his left side. Kamadeva, or the Hindu Cupid, the son of Bramha, is represented as a beautiful youth, the most lovely of all the gods, holding a bow and flower-tipped arrow, with which, while wandering through perfumed glades, accompanied by Rati, his spouse, he wounds the hearts of the inhabitants of the Triloka or Three Worlds. Sir William Jones says that he appears to correspond with the Greek Eros and the Roman Cupido, but that the Indian description of his person and arms, his family, attendants and attributes has new and peculiar beauties.

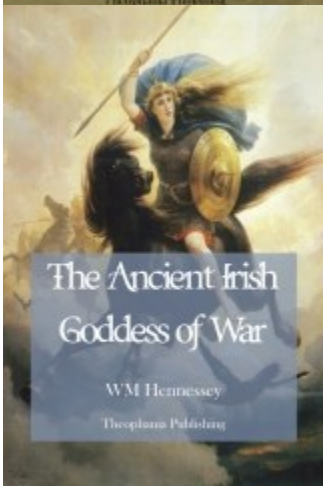


The Ancient Church: History, Doctrine, Worship, and Constitution, Traced for the First Three Hundred Years

By W. D. Killen D.D.

524 Pages, $28.24 USD, ISBN: 1499106823

The appearance of another history of the early Church requires some explanation. As the progress of the Christian commonwealth for the first three hundred years has been recently described by British, German, and American writers of eminent ability, it may, perhaps, be thought that the subject is now exhausted.



The Ancient Irish Goddess of War

By W M Hennessey

42 Pages, $16.24 USD, ISBN: 1479163406

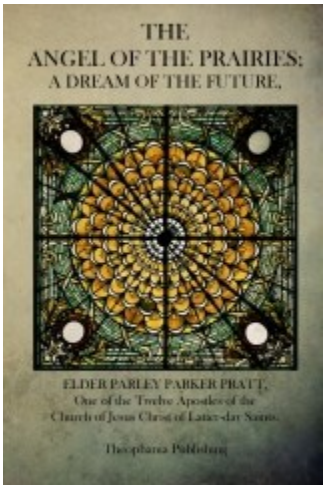
The etymology of the name athubodua, or cathubodua, as we may venture to read it, has been examined with great industry by M. Pictet, who has managed to compress within the narrow limits of his essay a great mass of illustrative facts and evidences drawn from all the sources accessible to him. The first member of the name (cathu, = Irish cath, «pugna») presents but little difficulty to a Celtic scholar like M. Pictet, who would however prefer finding it written catu, without aspiration, as more nearly approaching the rigid orthography of Gaulish names, in which it is very frequently found as the first element ...

The Ancient Wisdom

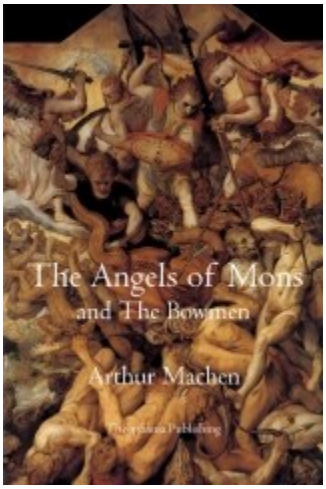
By Annie Besant

242 Pages, $20.24 USD, ISBN: 1499106831

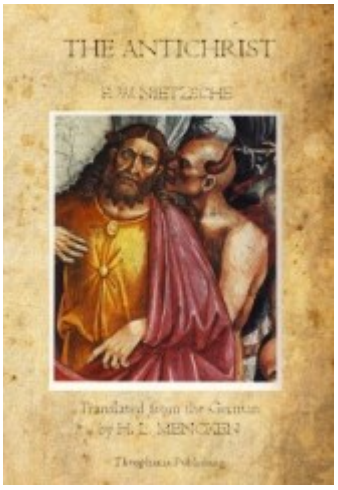
As the origin and basis of all religions, it cannot be the antagonist of any : it is indeed their purifier, revealing the valuable inner meaning of much that has become mischievous in its external presentation by the perverseness of ignorance and the accretions of superstition ; but it recognises and defends itself in each, and seeks in each to unveil its hidden wisdom. No man in becoming a Theosophist need cease to be a Christian, a Buddhist, a Hindu ; he will but acquire a deeper insight into his own faith, a firmer hold on its spiritual truths, a broader understanding of its sacred teachings.



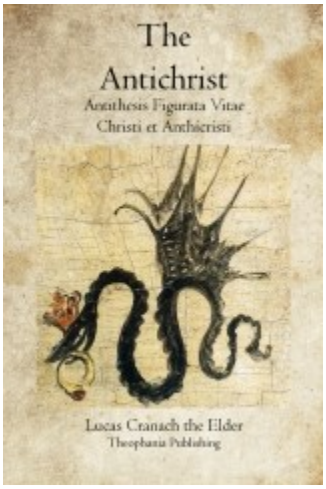
The Angel of the Prairies
By Eld. Parley Parker Pratt
36 Pages, $16.24 USD, ISBN: 1499106890
THE thrilling and interesting narrative contained in this little book, though setting up no claim to being an authentic or infallible prophecy, yet probably contains as much condensed truth and as little fiction as any work in any age, that has inspired truth for its foundation, and romance simply for its embellishment and adornings. This manuscript was read in Nauvoo, in a Council of the Church, in the presence of the Prophet Joseph Smith, but never appeared in print until last Spring, in the Northern Light, when it became at once the admiration of all the Saints who had the privilege of its perusal.



The Angels of Mons: and The Bowmen
By Arthur Machen
34 Pages, $16.24 USD, ISBN: 1770831355
I appreciate the absurdity, nay, the enormity of the position in all its grossness. And my excuse for these pages must be this: that though the story itself is nothing, it has yet had such odd and unforeseen consequences and adventures that the tale of them may possess some interest. And then, again, there are certain psychological morals to be drawn from the whole matter of the tale and its sequel of rumours and discussions that are not, I think, devoid of consequence; and so to begin at the beginning.



The Antichrist
By F. W. Nietzsche
134 Pages, $17.24 USD, ISBN: 1770830804
This book belongs to the most rare of men. Perhaps not one of them is yet alive. It is possible that they may be among those who understand my “Zarathustra”: how could I confound myself with those who are now sprouting ears? First the day after tomorrow must come for me. Some men are born posthumously. The conditions under which any one understands me, and necessarily understands me, I know them only too well. Even to endure my seriousness, my passion, he must carry intellectual integrity to the verge of hardness. He must be accustomed to living on mountain tops, and to looking upon the wretched gabble of politics and nationalism as beneath him.

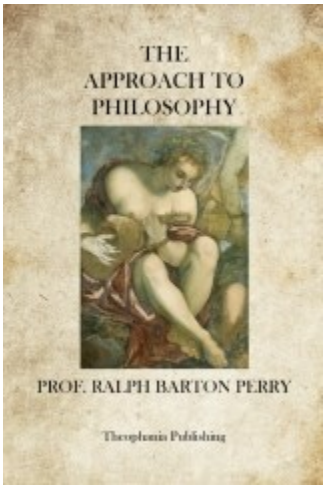


The Antichrist

By Lucas Cranach the Elder

28 Pages, $15.24 USD, ISBN: 1770832173

Lucas Cranach the Elder painted religious subjects, first in the Catholic tradition, and later trying to find new ways of conveying Lutheran religious concerns in art. He continued throughout his career to paint nude subjects drawn from mythology and religion. He had a large workshop and many works exist in different versions; his son Lucas Cranach the Younger, and others, continued to create versions of his father's works for decades after his death.

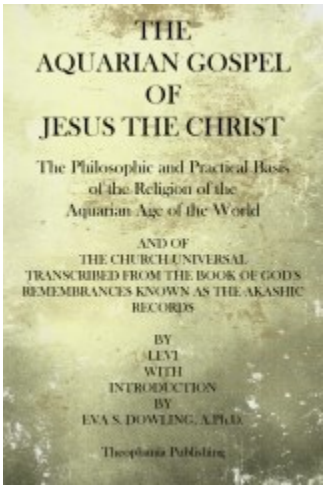


The Approach to Philosophy

By Ralph Barton Perry

282 Pages, $21.24 USD, ISBN: 1469941120

In an essay on "The Problem of Philosophy at the Present Time," Professor Edward Caird says that "philosophy is not a first venture into a new field of thought, but the rethinking of a secular and religious consciousness which has been developed, in the main, independently of philosophy." If there be any inspiration and originality in this book, they are due to my great desire that philosophy should appear in its vital relations to more familiar experiences. If philosophy is, as is commonly assumed, appropriate to a phase in the development of every individual, it should grow out of interests to which he is already alive.

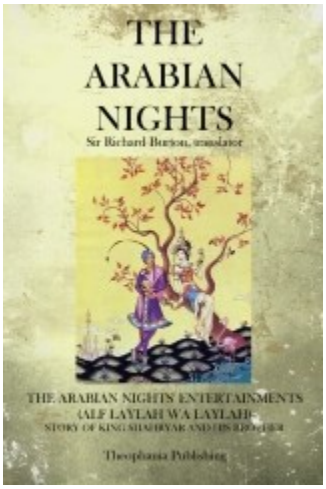


The Aquarian Gospel of Jesus the Christ

By Levi

440 Pages, $26.24 USD, ISBN: 1499106998

What is an Age? Astronomers tell us that our sun and his family of planets revolve around a central sun, which is millions of miles distant, and that it requires something less than 26,000 years to make one revolution. His orbit is called the Zodiac, which is divided into twelve signs, familiarly known as Aries, Taurus, Gemini, Cancer, Leo, Virgo, Libra, Scorpio, Sagittarius, Capricorn, Aquarius and Pisces. It requires our Solar System a little more than 2,100 years to pass through one of these signs, and this time is the measurement of an Age or Dispensation. Because of what Astronomers call "the precession of the Equinoxes" the movement of the sun through the signs of the Zodiac is in order reverse from that given above.

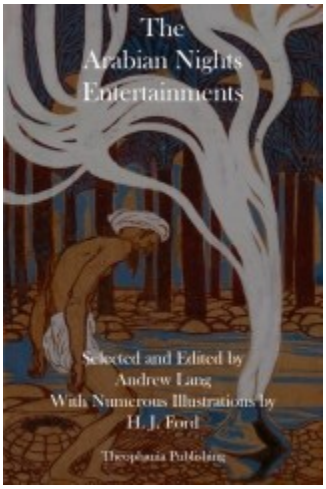


The Arabian Nights

By Sir Richard Burton

572 Pages, $30.24 USD, ISBN: 1499107161

AND AFTERWARD. Verily the works and words of those gone before us have become instances and examples to men of our modern day, that folk may view what admonishing chances befell other folk and may therefrom take warning; and that they may peruse the annals of antique peoples and all that hath betided them, and be thereby ruled and restrained. Praise, therefore, be to Him who hath made the histories of the past an admonition unto the present! Now of such instances are the tales called "A Thousand Nights and a Night," together with their far-famed legends and wonders.

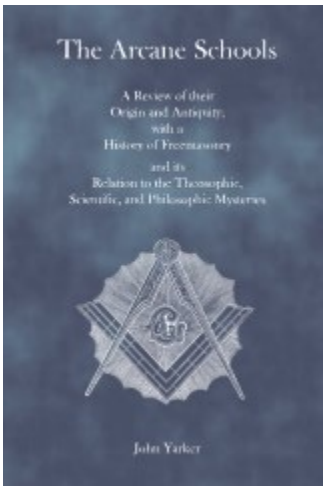


The Arabian Nights Entertainments

By Andrew Lang

428 Pages, $25.24 USD, ISBN: 1515261565

In the chronicles of the ancient dynasty of the Sassanidæ, who reigned for about four hundred years, from Persia to the borders of China, beyond the great river Ganges itself, we read the praises of one of the kings of this race, who was said to be the best monarch of his time. His subjects loved him, and his neighbors feared him, and when he died he left his kingdom in a more prosperous and powerful condition than any king had done before him. The two sons who survived him loved each other tenderly, and it was a real grief to the elder, Schahriar, that the laws of the empire forbade him to share his dominions with his brother Schahzeman.

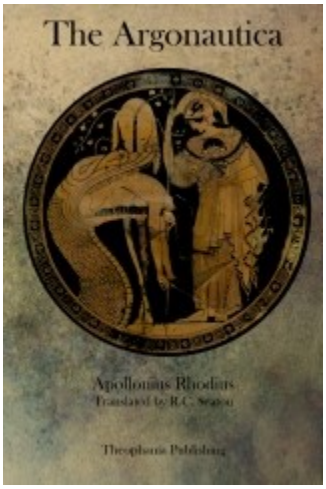


The Arcane Schools

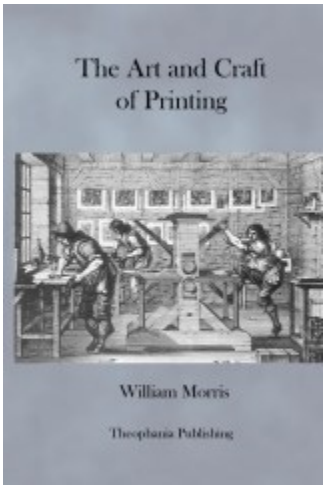
By John Yarker

472 Pages, $45.24 USD, ISBN: 1926842170

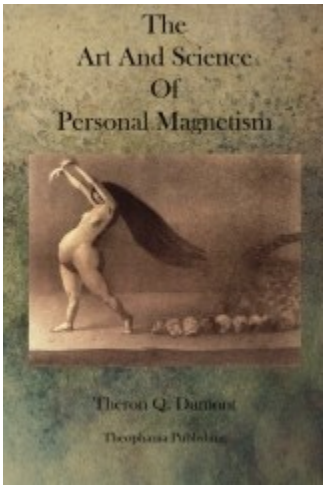
IN the following pages I have sought to satisfy a request, often made to me, to give a short but comprehensive view of the whole fabric of the Arcane mysteries, and affinity with the Masonic System; and I here take the opportunity of recording my protest against the sceptical tendencies of the present generation of the Moderns who are Masons, and against the efforts that are made, in season and out of season, to underrate the indubitable antiquity of the Masonic ceremonies.



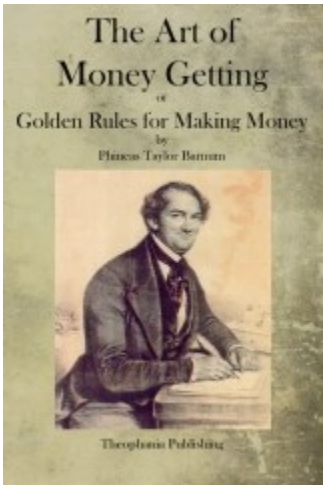
The Argonautica
By Apollonius Rhodius
264 Pages, $18.24 USD, ISBN: 1770833226
In the Argonautica, Jason is impelled on his quest by King Peleas, who receives a prophecy that a man with one sandal would be his nemesis. Jason, a hero in training, loses a sandal in a river, arrives at the court of Peleas, and the epic is set in motion. So Peleas sends Jason off on the ultimate scavenger hunt for 'The Golden Fleece.' Jason assembles a group of Greek heroes, including Odysseus, Orpheus, Heracles and dozens of others. They journey in a great ship, the Argo, to the eastern end of the Black Sea to the ends of the earth.



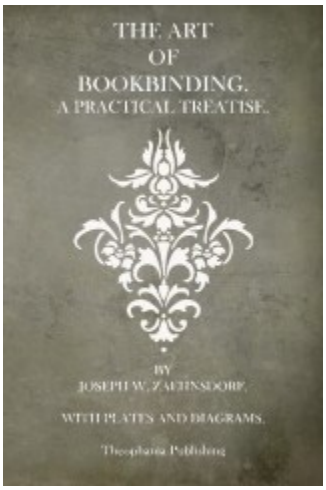
The Art and Craft of Printing
By William Morris
96 Pages, $15.24 USD, ISBN: 1470101262
I began printing books with the hope of producing some which would have a definite claim to beauty, while at the same time they should be easy to read and should not dazzle the eye, or trouble the intellect of the reader by eccentricity of form in the letters. I have always been a great admirer of the calligraphy of the Middle Ages, & of the earlier printing which took its place. As to the fifteenth-century books, I had noticed that they were always beautiful by force of the mere typography, even without the added ornament, with which many of them are so lavishly supplied.



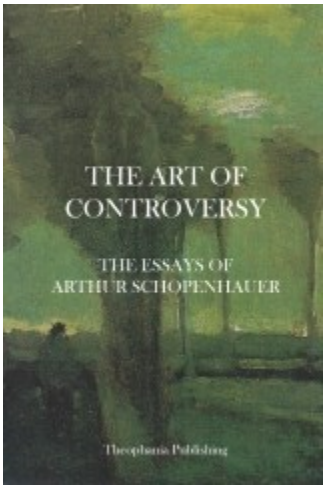
The Art and Science of Personal Magnetism
By Theron Q. Dumont
106 Pages, $16.24 USD, ISBN: 1770833234
It is a strange and almost amusing fact that there should be at the same time, on the part of the general public, such a general acceptance of the existence of personal magnetism, on the one hand, and such an ignorance of the nature of this wonderful force, on the other hand. In short, while everyone believes in the existence of personal magnetism, scarcely anyone possesses knowledge of the real nature of the same, much less a working knowledge of its principles of application. A belief in the existence of a personal power, influence, or atmosphere, on the part of certain individuals, which enables the possessor to attract, influence, dominate or control others, has been held by the race from the earliest days of written history.



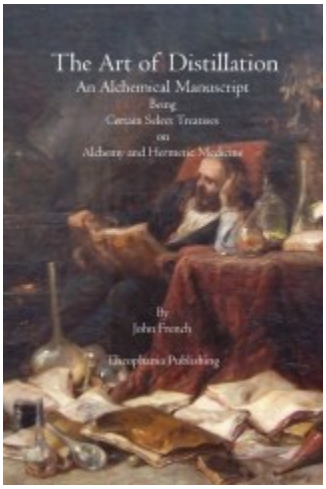
The Art of Money Getting
By Phineas Taylor Barnum
48 Pages, $15.24 USD, ISBN: 1770832785
he road to wealth is, as Dr. Franklin truly says, "as plain as the road to the mill." It consists simply in expending less than we earn; that seems to be a very simple problem. Mr. Micawber, one of those happy creations of the genial Dickens, puts the case in a strong light when he says that to have annual income of twenty pounds per annum, and spend twenty pounds and sixpence, is to be the most miserable of men; whereas, to have an income of only twenty pounds, and spend but nineteen pounds and sixpence is to be the happiest of mortals. Many of my readers may say, "we understand this: this is economy, and we know economy is wealth; we know we can't eat our cake and keep it also."



The Art of Bookbinding
By Joseph H. Zaehnsdorf
212 Pages, $19.24 USD, ISBN: 1515291286
BOOKBINDING carries us back to the time when leaden tablets with inscribed hieroglyphics were fastened together with rings, which formed what to us would be the binding of the volumes. We might go even still further back, when tiles of baked clay with cuneiform characters were incased one within the other, so that if the cover of one were broken or otherwise damaged there still remained another, and yet another covering; by which care history has been handed down from generation to generation. The binding in the former would consist of the rings which bound the leaden tablets together, and in the latter, the simple covering formed the binding which preserved the contents.



The Art of Controversy - The Essays
By Arthur Schopenhauer
86 Pages, $16.24 USD, ISBN: 1475012012
The volume now before the reader is a tardy addition to a series in which I have endeavoured to present Schopenhauer's minor writings in an adequate form. Its contents are drawn entirely from his posthumous papers. A selection of them was given to the world some three of four years after his death by his friend and literary executor, Julius Frauenstädt, who for this and other offices of piety, has received less recognition than he deserves.

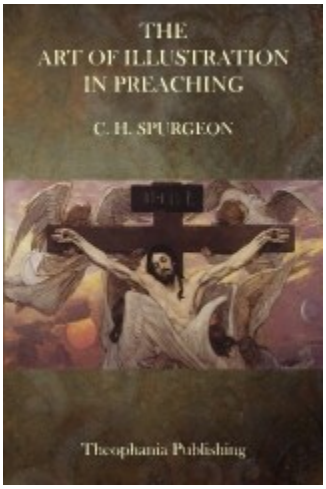


The Art of Distillation

By John French

188 Pages, $20.24 USD, ISBN: 1770830057

If what I know may add to your experience, you may have it freely. And if I shall see that this treatise of distillation passes with acceptance among the artists of this nation, I shall hereafter gratify them for their good will with two other parts of chemistry, viz. sublimation and calcination. And I hope this will be occasion to set the more expert artist on work, for the communicating their experiences to the world.

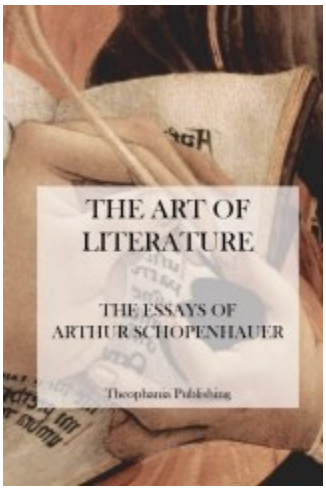


The Art of Illustration in Preaching

By C.H. Spurgeon

166 Pages, $18.24 USD, ISBN: 1515336344

The lectures in this volume were originally delivered to the students of the Pastors' College, Metropolitan Tabernacle, London, England. It is the first of his unfinished books to be published, and one to which he had himself given the title, "The Art of Illustration." Of the five lectures included in this volume, the first two were revised during Mr. Spurgeon's lifetime. Two were partially revised by him before being redelivered to a later company of students than those who had heard them for the first time. The remaining lecture was printed substantially as it was taken by the reporter; only such verbal corrections having been made as were absolutely necessary to insure accuracy of statement.

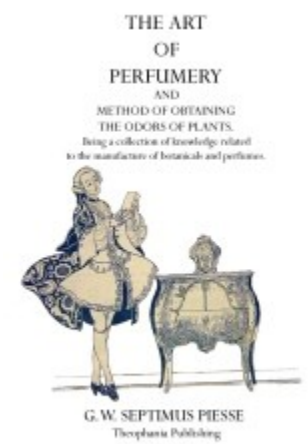


The Art of Literature - The Essays

By Arthur Schopenhauer

108 Pages, $16.24 USD, ISBN: 1475012055

The contents of this, as of the other volumes in the series, have been drawn from Schopenhauer's Parerga, and amongst the various subjects dealt with in that famous collection of essays, Literature holds an important place. Nor can Schopenhauer's opinions fail to be of special value when he treats of literary form and method. For, quite apart from his philosophical pretensions, he claims recognition as a great writer; he is, indeed, one of the best of the few really excellent prose-writers of whom Germany can boast.

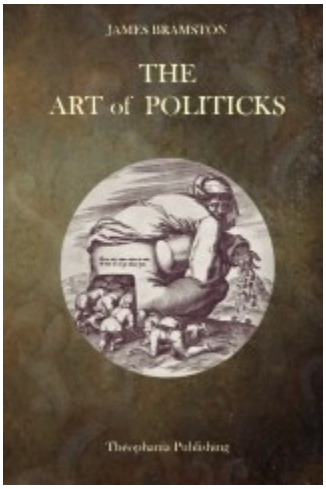


The Art of Perfumery

By G.W. Septimus Piesse

236 Pages, $20.24 USD, ISBN: 1770831797

Of the five senses, that of smelling is the least valued, and, as a consequence, is the least tutored; but we must not conclude from this, our own act, that it is of insignificant importance to our welfare and happiness. By neglecting to tutor the olfactory nerve, we are constantly led to breathe impure air, and thus poison the body by neglecting the warning given at the gate of the lungs. Persons who use perfumes are more sensitive to the presence of a vitiated atmosphere than those who consider the faculty of smelling as an almost useless gift.



The Art of Politicks

By James Bramston

42 Pages, $16.24 USD, ISBN: 1515291251

The Art of Politicks, Bramston's first English poem, was published anonymously in 1729 and advertised in the Monthly Chronicle of 8 December. Several reimpressions followed, as did another London edition, one from Edinburgh, and two from Dublin, all dated 1729, and a London edition of 1731. It was reprinted in Robert Dodsley's Collection of Poems, by Several Hands (1748), where it was attributed to Bramston, and in John Bell's Classical Arrangement of Fugitive Poetry, Volume 5 (1789), with a few notes.

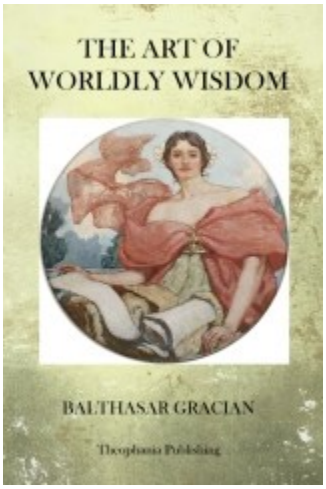
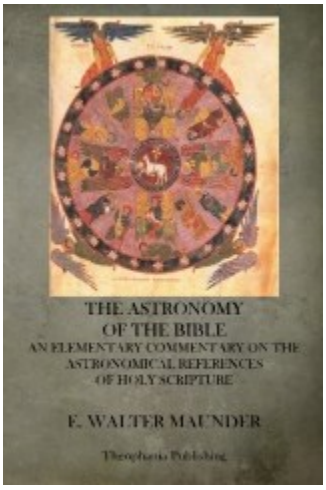
By Sun Tzu
58 Pages, $16.24 USD, ISBN: 1770830618
The Art of War is a Chinese military treatise that is attributed to Sun Tzu, a military strategist of the State of Wu who was active in the late-sixth century BC, during the late Spring and Autumn period. Composed of 13 chapters, each of which is devoted to one aspect of warfare, it is said to be the definitive work on military strategies and tactics of its time, and is still read for its military insights. The Art of War is one of the oldest and most successful books on military strategy in the world. It has been the most famous and influential of China's Seven Military Classics...



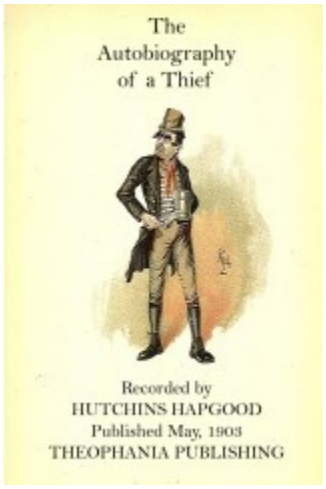
The Art of Worldy Wisdom
By Balthasar Gracian
208 Pages, $19.24 USD, ISBN: 1470101203
I have endeavoured to reproduce Gracian's Laconism and Cultismo in my version, and have even tried to retain his many paronomasias and jingles of similar sound. I may have here and there introduced others of my own to redress the balance for cases where I found it impossible to produce the same effect in English. In such cases I generally give the original in the Notes. Wherever possible I have replaced Spanish proverbs and proverbial phrases by English ones, and have throughout tried to preserve the characteristic rhythm and brevity of the Proverb.



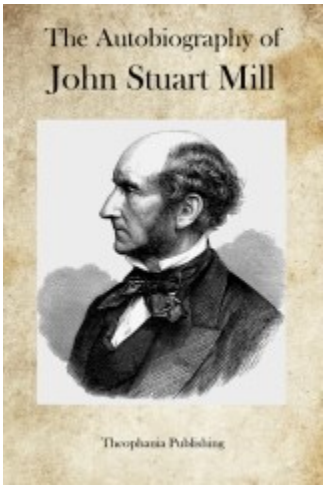
THE ASTRONOMY OF THE BIBLE
AN ELEMENTARY COMMENTARY ON THE ASTRONOMICAL REFERENCES OF HOLY SCRIPTURE
E. WALTER MAUNDER

The Astronomy of the Bible
By E. Walter Maunder
374 Pages, $24.24 USD, ISBN: 1515291200
Why should an astronomer write a commentary on the Bible? Because commentators as a rule are not astronomers, and therefore either pass over the astronomical allusions of Scripture in silence, or else annotate them in a way which, from a scientific point of view, leaves much to be desired. Astronomical allusions in the Bible, direct and indirect, are not few in number, and, in order to bring out their full significance, need to be treated astronomically. Astronomy further gives us the power of placing ourselves to some degree in the position of the patriarchs and prophets of old.

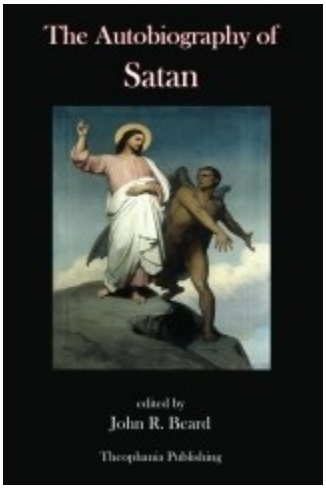
The Author's Craft
By Arnold Bennett
72 Pages, $16.24 USD, ISBN: 1515291146
And if and when, having comprehended that the rôle of observer is not passive but active, we determine by an effort to rouse ourselves from the coma and really to see the spectacle of the world (a spectacle surpassing circuses and even street accidents in sustained dramatic interest), we shall discover, slowly in the course of time, that the act of seeing, which seems so easy, is not so easy as it seems.



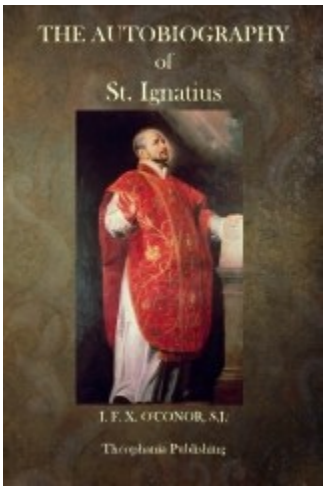
The Autobiography of a Thief
By Hutchins Hapgood
266 Pages, $22.24 USD, ISBN: 1519340141
I met the ex-pickpocket and burglar whose autobiography follows soon after his release from a third term in the penitentiary. For several weeks I was not particularly interested in him. He was full of a desire to publish in the newspapers an exposé of conditions obtaining in two of our state institutions, his motive seeming partly revenge and partly a very genuine feeling that he had come in contact with a systematic crime against humanity. But as I continued to see more of him, and learned much about his life, my interest grew; for I soon perceived that he not only had led a typical thief's life, but was also a man of more than common natural intelligence, with a gift of vigorous expression.



The Autobiography of John Stuart Mill
By John Stuart Mill
230 Pages, $20.24 USD, ISBN: 1469946017
I do not for a moment imagine that any part of what I have to relate can be interesting to the public as a narrative, or as being connected with myself. But I have thought that in an age in which education, and its improvement, are the subject of more, if not of profounder study than at any former period of English history, it may be useful that there should be some record of an education which was unusual and remarkable, and which, whatever else it may have done, has proved how much more than is commonly supposed may be taught, and well taught, in those early years which, in the common modes of what is called instruction, are little better than wasted.

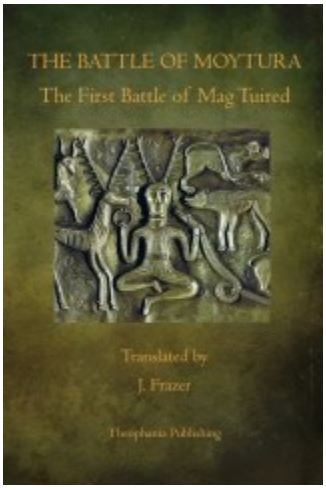


The Autobiography of Satan
By John Beard
666 Pages, $33.24 USD, ISBN: 1477473041
To handle adequately all the grave topics of this comprehensive theme would require a library instead of a volume. Having aimed at nothing less than to deal a blow at Traditionalism, Sacerdotalism and Satanism, which reciprocally evoke and support each other, and which, in a brood of superstitions, have inflicted on our race many of the direst evils under which it has suffered, I have simply pursued such a method as seemed to me most likely to conduce to my object. I may have missed my mark, but I shall pass the rest of my days in deeper satisfaction for having shot the arrow. And this observation leads me to say that personal considerations have exercised an influence in determining me to compose the book.

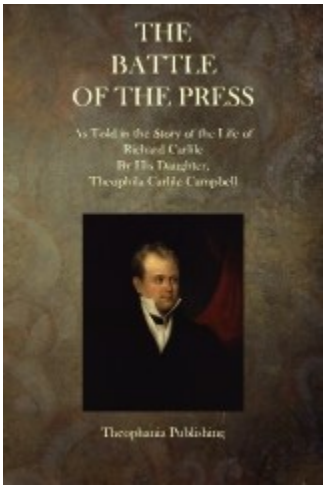


The Autobiography of St. Ignatius
By J.F.X. O'Conor S.J.
90 Pages, $16.24 USD, ISBN: 1515291081
... St. Ignatius then related to me that for two years he had struggled against vain glory; so much so, indeed, that when he was about to embark for Jerusalem at Barcelona he did not dare to tell any one where he was going. He told me, moreover, that since that time his soul had experienced great peace in regard to this matter. An hour or two later we went to dinner, and, while Master Polancus and I were dining with him, St. Ignatius said that Master Natalis and others of the Society had often asked him to give a narrative of his life, but he had never as yet decided to do so. On this occasion, however, after I had spoken to him, he reflected upon it alone. He was favorably inclined toward it. From the way he spoke, it was evident God had enlightened him.

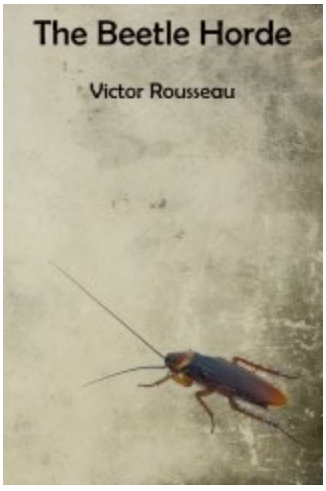
The Avenger
By Thomas De Quincey
62 Pages, $16.24 USD, ISBN: 1470101165
That series of terrific events by which our quiet city and university in the northeastern quarter of Germany were convulsed during the year 1816, has in itself, and considered merely as a blind movement of human tiger-passion ranging unchained among men, something too memorable to be forgotten or left without its own separate record; but the moral lesson impressed by these events is yet more memorable, and deserves the deep attention of coming generations in their struggle after human improvement, not merely in its own limited field of interest directly awakened, but in all analogous fields of interest; as in fact already, and more than once, in connection with these very events, this lesson has obtained the effectual attention of Christian kings and princes assembled in congress.



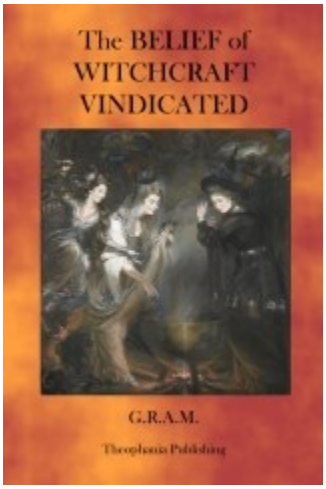
The Battle of Moytura: The First Battle of Mag Tuired
By J. Frazer
32 Pages, $16.24 USD, ISBN: 1770833773
Cath Maige Tuired (modern spelling: Cath Maighe Tuireadh), meaning "The Battle of Magh Tuireadh", is the name of two saga texts of the Mythological Cycle of Irish mythology. The name Mag Tuired (modern spelling: Magh Tuireadh) means "plain of pillars" or "plain of towers", and is anglicised as Moytura or Moytirra. It refers to two separate places, both in Connacht: the first near Cong, County Mayo on the border with County Galway; the second by Lough Arrow in County Sligo.



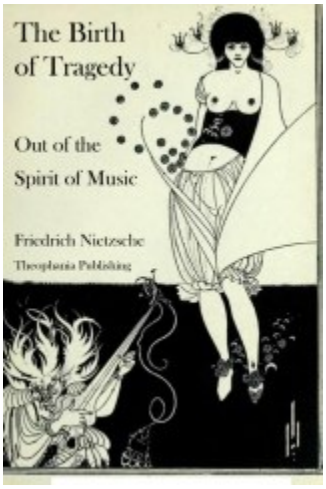
The Battle of the Press: As Told in the Story of the Life of Richard Carlile
By His Daughter, Theophila Carlile Campbell
By Richard Carlile
320 Pages, $22.24 USD, ISBN: 1515290883
To rescue the name of a true friend of the people from the undeserved obloquy or silence under which it has been so long obscured, and to place his memory and name where it truly belongs in the list of the honored dead of his country, and in the hearts of his countrymen, there to dwell as long as English history lasts, is the second motive. In doing this we may turn upon all the evidences, both public and private, the modern searchlight of critical investigation, and I am satisfied that when the clouds of malignant abuse and the mass of unsubstantiated charges that were heaped upon his name and fame by those who were interested in doing so are cleared away, his name and the record of his life will stand out from the past as a star of the first magnitude stands out from the darkened sky of night—bright, clear, and pure.



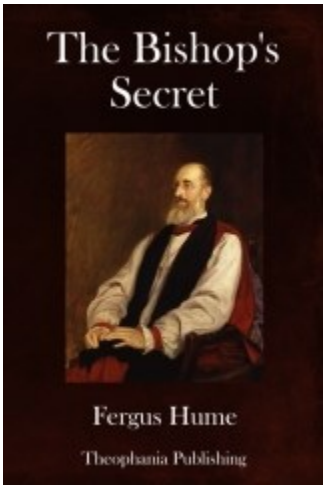
The Beetle Horde
By Victor Rousseau
122 Pages, $16.24 USD, ISBN: 1519340966
Out of the south the biplane came winging back toward the camp, a black speck against the dazzling white of the vast ice-fields that extended unbroken to the horizon on every side. It came out of the south, and yet, a hundred miles further back along the course on which it flew, it could not have proceeded in any direction except northward. For a hundred miles south lay the south pole, the goal toward which the Travers Expeditions had been pressing for the better part of that year. Not that they could not have reached it sooner. As a matter of fact, the pole had been crossed and re-crossed, according to the estimate of Tommy Travers, aviator, and nephew of the old millionaire who stood fairy uncle to the expedition.



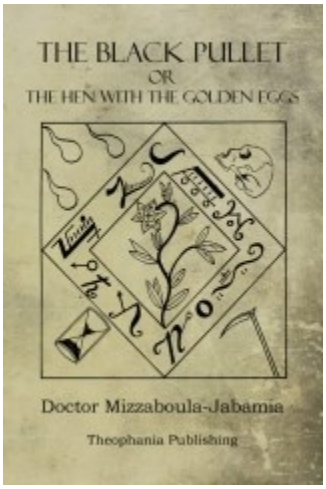
The Belief of Witchcraft Vindicated
By G.R.A.M.
32 Pages, $16.24 USD, ISBN: 1470080648
THE late Tryal and Condemnation of Jane Wenham for a Witch, at Hertford Assizes, having occasion'd many and various Speculations upon the Subject of Witchcraft, and many that I have convers'd with concluding, that there neither is, nor can be any such Thing, I was naturally led into a deeper Search of the Subject, than I had either Leisure or Inclination to allow my self before, and to consider whether such an Opinion, so contrary to that of our Forefathers, and our Laws, so contrary to innumerable Historical Matters of Fact, so contrary to plain Scripture...



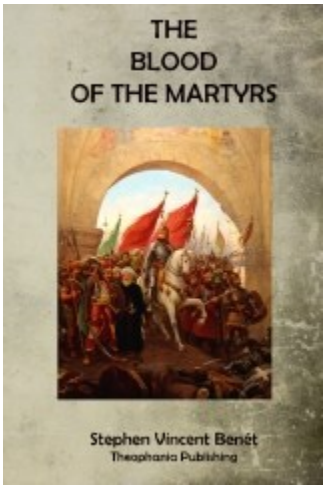
The Birth of Tragedy Out of the Spirit of Music
By Friedrich Nietzsche
182 Pages, $18.24 USD, ISBN: 1478256559
To keep at a distance all the possible scruples, excitements, and misunderstandings that the thoughts united in this essay will occasion, in view of the peculiar character of our aesthetic public, and to be able to write these introductory remarks, too, with the same contemplative delight whose reflection—the distillation of good and elevating hours—is evident on every page, I picture the moment when you, my highly respected friend, will receive this essay.



The Bishop's Secret
By Fergus Hume
616 Pages, $31.25 USD, ISBN: 1981813632
In his earlier works, notably in "The Mystery of a Hansom Cab" and "The Silent House in Pimlico," Mr. Hume won a reputation second to none for plot of the stirring, ingenious, misleading, and finally surprising kind, and for working out his plot in vigorous and picturesque English. In "The Bishop's Secret," while there is no falling off in plot and style, there is a welcome and marvelous broadening out as to the cast of characters, representing an unusually wide range of typical men and women. These are not laboriously described by the author, but are made to reveal themselves in action and speech in a way that has, for the reader, all the charm of personal intercourse with living people.

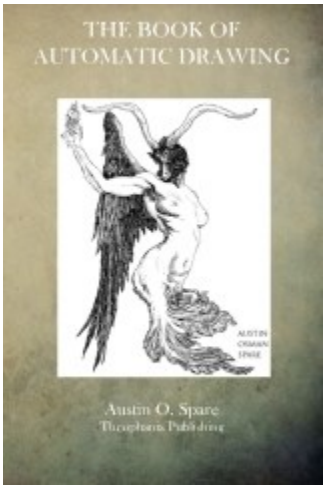


The Black Pullet: The Hen With The Golden Eggs
By Doctor Mizzaboula Jabamia
Illustrated By Robert L. Angus
100 Pages, $17.24 USD, ISBN: 1770832777
It is only given to those who are favoured by The Great Being, to raise themselves above the terrestrial sphere, and to plan a bold flight in the etheric regions; it is for these privileged men that we write. To us no importance is given to the splenetic Voices which are raised against us. The silence and the smile of disdain will be the only answer with which We shall oppose them, and we shall follow with firm Sustained steps the route which indicates to us the luminous stars which fill the heavens, which cover our heads, and which light these thousands of worlds, which bless every day with our Sovereign Master of the Universe, which He has created, also ourselves, and whose Will maintains this admirable order, Which commands our admiration, our respect and our love.

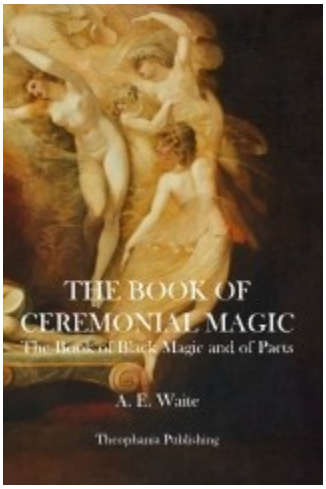


The Blood of the Martyrs
By Stephen Vincent Benet
30 Pages, $16.24 USD, ISBN: 1519340907
The man who expected to be shot lay with his eyes open, staring at the upper left-hand corner of his cell. He was fairly well over his last beating, and they might come for him any time now. There was a yellow stain in the cell corner near the ceiling; he had liked it at first, then disliked it; now he was coming back to liking it again. He could see it more clearly with his glasses on, but he only put on his glasses for special occasions now—the first thing in the morning, and when they brought the food in, and for interviews with the General. The lenses of the glasses had been cracked in a beating some months before, and it strained his eyes to wear them too long.

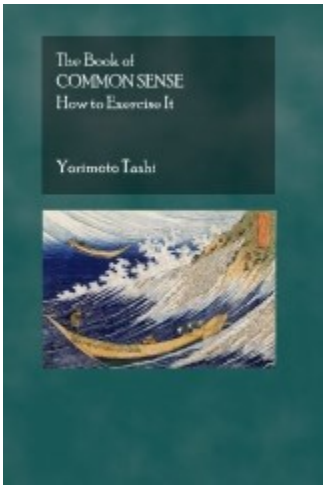
The Bomb-Makers
By William Le Queux
132 Pages, $17.24 USD, ISBN: 1515290859
Being some Curious Records concerning the Craft and Cunning of Theodore Drost, an enemy alien in London, together with certain Revelations regarding his daughter Ella The pair had been discussing certain schemes to the detriment of the English: schemes which, in the main, depended upon the crafty old Drost's expert knowledge of high-explosives. "Ah! my dear Count!" exclaimed the wily old professor of chemistry in German, as he replaced his glass upon the table. "How marvellously clever is our Emperor! How he befooled and bamboozled these silly sheep of English.



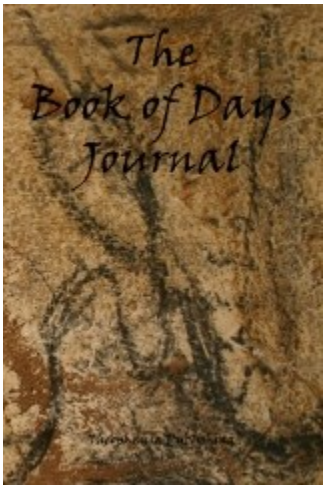
The Book of Automatic Drawing
By Austin O. Spare
56 Pages, $16.24 USD, ISBN: 1503083675
The objective understanding, as we see, has to be attacked by the artist and a subconscious method, for correction of conscious visual accuracy, must be used. No amount of manual skill and consciousness of error will produce good drawing. A recent book on drawing by a well-known painter is a case in point; there the examples of masters of draughtsmanship may be compared with the painter-author's own, side by side, and the futility of mere skill and interest examined. Therefore to proceed further, it is necessary to dispose of the subject in art also (that is to say the subject in the illustrative or complex sense). Thus to clear the mind of inessentials permits through a clear and transparent medium, without prepossessions of any kind, the most definite and simple forms and ideas to attain expression.



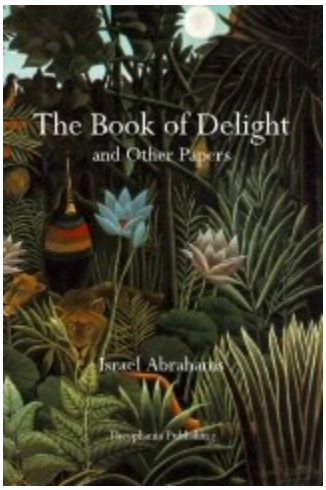
The Book of Ceremonial Magic
By A. E. Waite
322 Pages, $25.24 USD, ISBN: 1926842391
The mystic tradition in Christian Times is preserved, apart from all questions and traces of Instituted Mysteries, in the literature of Christian Mystical Theology; it is a large and exceedingly scattered literature; some of its most important texts are available in no modern language; they stand very seriously in need of codification, and--if I may be so frank--even of re-expression. But if, for other reasons, they are in their entirety a study which must be left to the expert, there is no person now living in Europe who has not close at his hands the specific, simple, isolated texts--much too numerous to name--which are sufficient to give some general idea of the scope and aims of the tradition.



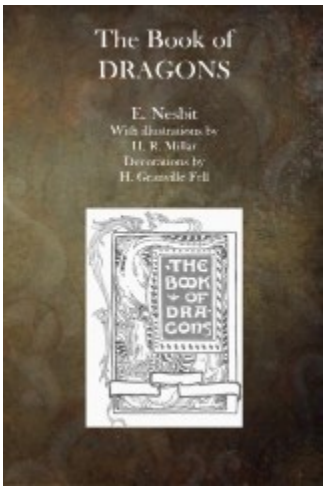
The Book of Common Sense: How To Exercise It
By Yoritomo Tashi
114 Pages, $20.24 USD, ISBN: 1926842235
The quality popularly designated as "Common Sense" comprehends, according to the modern point of view, the sound judgment of mankind when reflecting upon problems of truth and conduct without bias from logical subtleties or selfish interests. It is one of Nature's priceless gifts; an income in itself, it is as valuable as its application is rare. In the teachings that follow, the venerable Shogun, Yoritomo-Tashi, points out that Common Sense is a composite product consisting of (1) Perception; (2) Memory; (3) Thought; (4) Alertness; (5) Deduction; (6) Foresight; (7) Reason, and (8) Judgment.



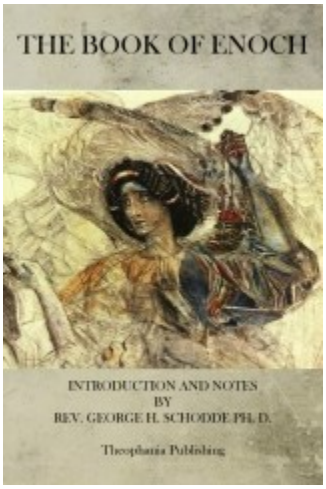
The Book of Days Journal
By Theophania Publishing
192 Pages, $20.24 USD, ISBN: 1770830316
A 'Book of Days' is a collection of events, dates, times, and special occurrences - an aide-memoire. The better uses of such a book are anniversaries, birthdays, death days, reminders, and moments of recollection. In modern times, popular calendars are used for this purpose, but are often lost, misplaced, forgotten, or merely tossed away. This book is not marred by holidays or historic events, but leaves the personal taste and traditions of its owner to its owner. These journals have been used throughout history to record holy days, seasonal almanacs, rituals and traditions, diaries, journals, collections of curious synchronicities, daily affirmations, agricultural almanacs, astrological events, and esoterica.



The Book of Delight and Other Paper
By Israel Abrahams
182 Pages, $23.24 USD, ISBN: 1926842510
Joseph Zabara has only in recent times received the consideration justly due to him. Yet his “Book of Delight,” finished about the year 1200, is more than a poetical romance. It is a golden link between folk-literature and imaginative poetry. The style is original, and the framework of the story is an altogether fresh adaptation of a famous legend. The anecdotes and epigrams introduced incidentally also partake of this twofold quality.



The Book of Dragons
By E. Nesbit
180 Pages, $20.24 USD, ISBN: 1503083470
He happened to be building a Palace when the news came, and he left all the bricks kicking about the floor for Nurse to clear up—but then the news was rather remarkable news. You see, there was a knock at the front door and voices talking downstairs, and Lionel thought it was the man come to see about the gas, which had not been allowed to be lighted since the day when Lionel made a swing by tying his skipping rope to the gas bracket. And then, quite suddenly, Nurse came in and said, ‘Master Lionel, dear, they've come to fetch you to go and be King.’



The Book of Enoch

By Rev. George H. Schodde

244 Pages, $20.24 USD, ISBN: 1470080516

The central sun casts its rays of resplendent light on ever-day objects, and these become prominent in proportion as they reflect this light. In more than one respect the Book of Enoch is an important factor in these investigations. Being one of the oldest specimens of apocalyptic literature; reflecting in its different parts the convictions, feelings, and longings of the people of God at different stages of their development; written in imitation of the spirit of the prophets, with religious purposes and spiritual objects; it can safely be said to be an invaluable aid to the understanding of the religious and moral atmosphere in which the Saviour lived.

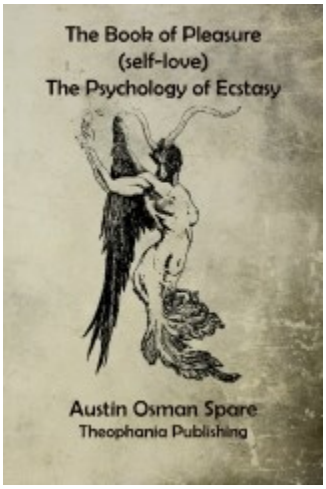
The Book of Life

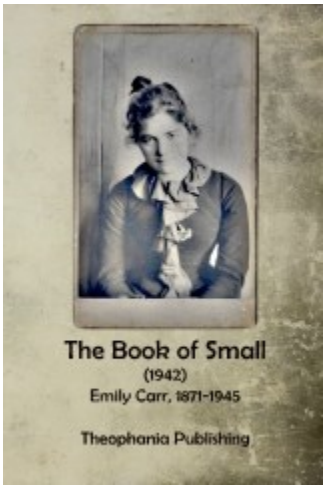
By Upton Sinclair

526 Pages, $22.24 USD, ISBN: 1478399007

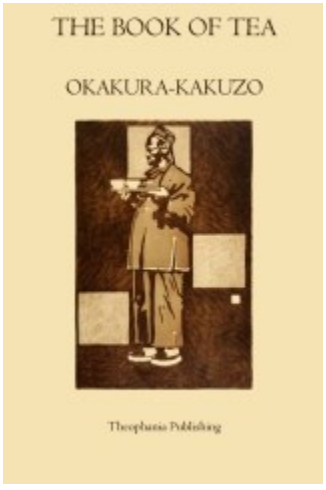
There come to the writer literally thousands of letters every year, asking him questions, some of them of the strangest. A man is dying of cancer, and do I think it can be cured by a fast? A man is unable to make his wife happy, and can I tell him what is the matter with women? A man has invested his savings in mining stock, and can I tell him what to do about it? A man works in a sweatshop, and has only a little time for self-improvement, and will I tell him what books he ought to read? Many such questions every day make one aware of a vast mass of people, earnest, hungry for happiness, and groping as if in a fog.



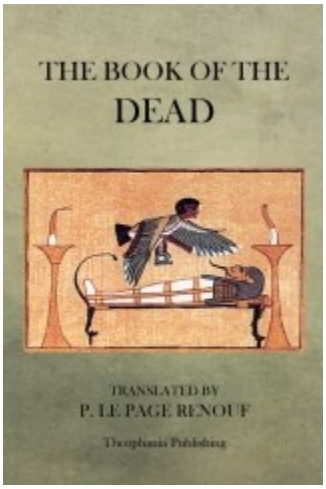
The Book of Pleasure: The Psychology of Ecstasy
By Austin Osman Spare
72 Pages, $16.24 USD, ISBN: 1519340621
To believe that they are Gods (or anything else) would make them such-proving by all they do, to be full of its non-belief. Better is it to admit incapacity or insignificance, than reinforce it by faith; since the superficial "protects" but does not change the vital. Therefore reject the former for the latter. Their formula is deception and they are deceived, the negation of their purpose. Faith is denial, or the metaphor Idiotcy, hence it always fails. To make their bondage more secure Governments force religion down the throats of their slaves, and it always suceeds; those who escape it are but few, therefore their honour is the greater. When faith perishes, the "Self" shall come into its own.



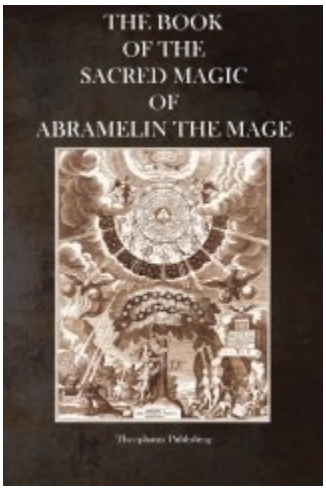
The Book of Small
By Emily Carr
172 Pages, $18.24 USD, ISBN: 1519340540
The great iron soup pot, the copper wash-boiler and several kettles covered the top of the stove, and big sister Dede filled them by working the kitchen pump-handle furiously. It was a sad old pump and always groaned several times before it poured. Dede got the brown Windsor soap, heated the towels and put on a thick white apron with a bib. Mother unbuttoned us and by that time the pots and kettles were steaming. Dede scrubbed hard. If you wriggled, the flat of the long-handled tin dipper came down spankety on your skin. As soon as each child was bathed Dede took it pick-a-back and rushed it upstairs through the cold house.



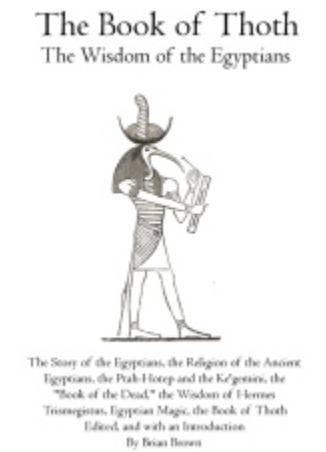
The Book of Tea
By Okakura -Kakuzo
44 Pages, $16.24 USD, ISBN: 1926842529
The Philosophy of Tea is not mere aestheticism in the ordinary acceptance of the term, for it expresses conjointly with ethics and religion our whole point of view about man and nature. It is hygiene, for it enforces cleanliness; it is economics, for it shows comfort in simplicity rather than in the complex and costly; it is moral geometry, inasmuch as it defines our sense of proportion to the universe. It represents the true spirit of Eastern democracy by making all its votaries aristocrats in taste.



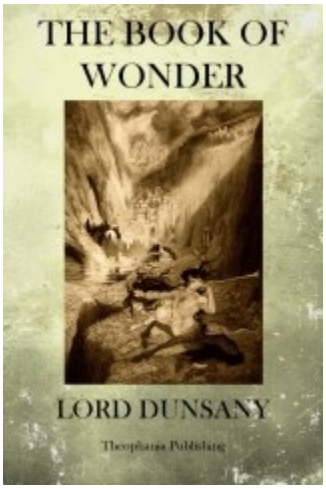
The Book of the Dead
By P. Le Page Renouf
300 Pages, $18.24 USD, ISBN: 1470101122
By a judicious blending of the versions of de Rouge, Pierret, Deveria, Lefebure, Guyesse and others who might be mentioned, a very plausible translation of the Book of the Dead might be composed. The impudent jackdaw of the fable would strut with borrowed plumes; or, to take the illustration from another fable, the ass would go forth under the cover of the lion's skin, and impose upon all who failed to discern the long ears occasionally protruding. To all real scholars a translation worthy of the name is a task which cannot possibly be executed until certain difficulties have been overcome, the solution of which requires very mature thought and research extending, to say the least, over very many years.



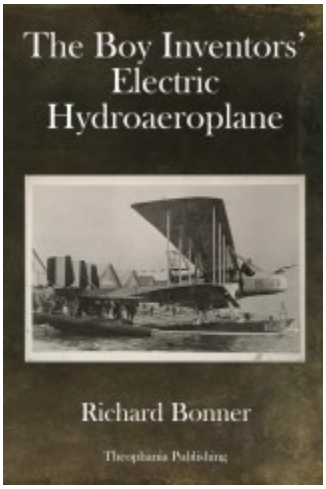
The Book of the Sacred Magic of Abramelin The Mage
By Abramelin The Mage
Pages, $25.24 USD, ISBN: 1926842383
The Book of Abramelin tells the story of an Egyptian mage named Abramelin, or Abra-Melin, who taught a system of magic to Abraham of Worms, a German Jew presumed to have lived from c.1362 - c.1458. The system of magic from this book regained popularity in the 19th and 20th centuries due to the efforts of Mathers' translation, The Book of the Sacred Magic of Abramelin the Mage, its import within the Hermetic Order of the Golden Dawn, and later within the mystical system of Thelema. Georg Dehn attributed authorship of The Book of Abramelin to Rabbi Yaakov Moelin, a German Jewish Talmudist. This identification has since been disputed.



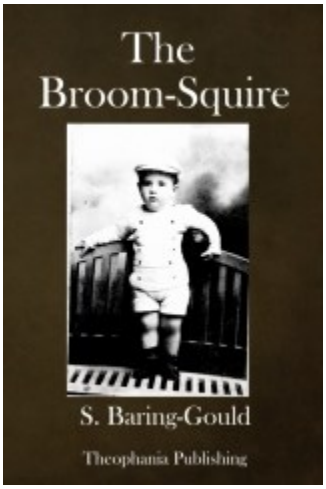
The Book of Thoth: The Wisdom of the Egyptians
By Brian Brown
182 Pages, $18.24 USD, ISBN: 1770832203
If we were called upon to characterize the Egyptian religion in a few words, we should call it, both as a system and as a cult, an almost monarchical polytheism in a theocratic form. The Egyptian polytheism was not purely monarchical, for there were several divine monarchies; and only by the somewhat arbitrary doctrine that all the chief gods were in reality the same under different names, could the semblance of monarchy be maintained. But this religion was undoubtedly theocratic in the strictest sense of the word. The divinity himself reigned through his son, the absolute king, his incarnation and representative on earth.



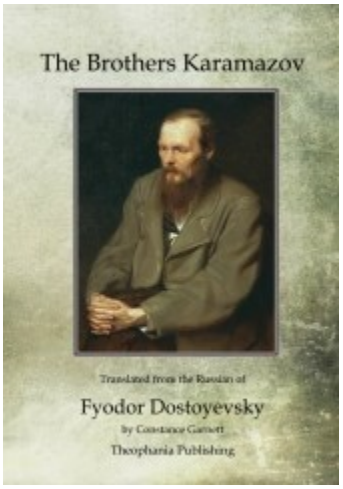
The Book of Wonder
By Lord Dunsany
86 Pages, $16.24 USD, ISBN: 1503083624
In the morning of his two hundred and fiftieth year Shepperalk the centaur went to the golden coffer, wherein the treasure of the centaurs was, and taking from it the hoarded amulet that his father, Jyshak, in the year of his prime, had hammered from mountain gold and set with opals bartered from the gnomes, he put it upon his wrist, and said no word, but walked from his mother's cavern. And he took with him too that clarion of the centaurs, that famous silver horn, that in its time had summoned to surrender seventeen cities of Man, and for twenty years had brayed at star-girt walls in the Siege of Tholdenblarna, the citadel of the gods...



The Boy Inventors' Electric Hydroaeroplane
By Richard Bonner
264 Pages, $21.25 USD, ISBN: 1978488742
“Are either Mr. Chadwick or Mr. Jesson about?” “Humph!” and the gangling, rather disagreeable-looking youth who had answered the summons to the door of the Boy Inventors’ workshop, gave a supercilious look over the dusty and worn, although carefully mended, clothes of the dark-eyed, dark-haired, slender youth who confronted him. “What do you want to know that for, anyhow?” and upon the personal pronoun he placed a contemptuous emphasis. “That is a question to which I can only reply when I can see either Jack Chadwick or Tom Jesson personally. My name is Ned Nevins,—not that either of them knows me,—but will you be so kind as to find out if they’ll see me?”



The Broom-Squire
By S. Baring-Gould
610 Pages, $31.25 USD, ISBN: 1979417431
On a September evening, before the setting of the sun, a man entered the tavern of the Ship in Thursley, with a baby under his arm. The tavern sign, rudely painted, bore, besides a presentment of a vessel, the inscription on one side of the board:— "Now before the hill you climb, Come and drink good ale and wine." On the other side of the board the legend was different. It ran thus:— "Now the hill you're safely over, Drink, your spirits to recover." The tavern stood on the high-road side between Godalming and Portsmouth; that is to say the main artery of communication between London and Portsmouth.

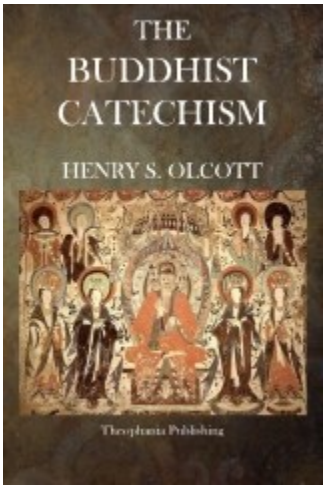


The Brothers Karamazov

By Fyodor Dostoyevsky

666 Pages, $40.79 USD, ISBN: 1468023969

The Brothers Karamazov is a passionate philosophical novel that enters deeply into the ethical debates of God, free will, and morality. It is a spiritual drama of moral struggles concerning faith, doubt, and reason, set against a modernizing Russia. Dostoyevsky composed much of the novel in Staraya Russa, which is also the main setting of the novel. The Brothers Karamazov has had a deep influence on many writers and philosophers that followed it. Sigmund Freud called it "the most magnificent novel ever written" and was fascinated with the book for its Oedipal themes.

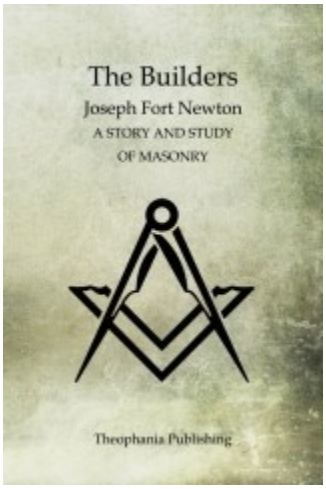


The Buddhist Catechism

By Henry S. Olcott

112 Pages, $17.24 USD, ISBN: 1515290700

The object in view was to cause the most virtuous, intelligent, unselfish and spiritually-minded persons to withdraw from the social surroundings where their sensual and other selfish desires were naturally strengthened, devote their lives to the acquisition of the highest wisdom, and fit themselves to teach and guide others out of the pleasant path leading towards misery, into the harder path that leads to true happiness and final liberation.

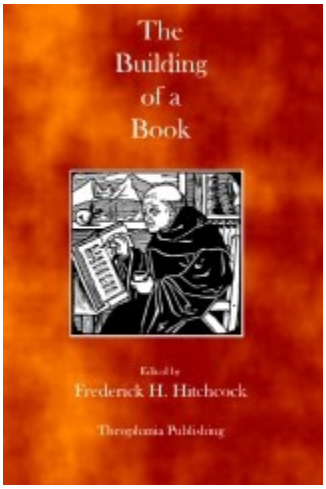


The Builders

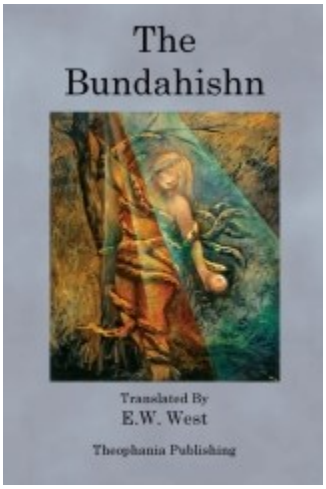
By Joseph Fort Newton

270 Pages, $21.24 USD, ISBN: 1468024086

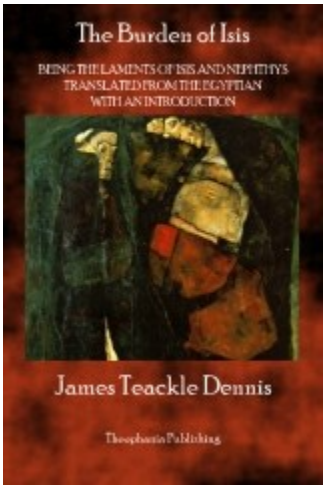
Written as a commission from the Grand Lodge of Iowa, and approved by that Grand body, a copy of this book is to be presented to every man upon whom the degree of Master Mason is conferred within this Grand Jurisdiction. Naturally this intention has determined the method and arrangement of the book, as well as the matter it contains; its aim being to tell a young man entering the order the antecedents of Masonry, its development, its philosophy, its mission, and its ideal. Keeping this purpose always in mind, the effort has been to prepare a brief, simple, and vivid account of the origin, growth, and teaching of the Order, so written as to provoke a deeper interest in and a more earnest study of its story and its service to mankind.



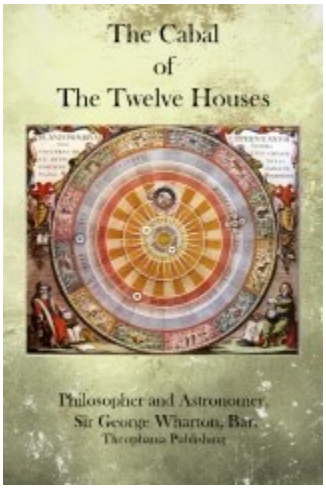
The Building of a Book
By Frederick H. Hitchcock
310 Pages, $25.24 USD, ISBN: 1926842278
"The Building of a Book" had its origin in the wish to give practical, non-technical information to readers and lovers of books. I hope it will also be interesting and valuable to those persons who are actually engaged in book making and selling. All of the contributors are experts in their respective departments, and hence write with authority. I am exceedingly grateful to them for their very generous efforts to make the book a success.



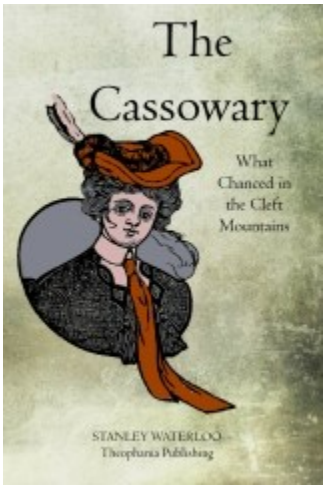
The Bundahishn
By E.W. West
100 Pages, $16.24 USD, ISBN: 1470101092
The Zand-akas ('Zand-knowing or tradition-informed'), which is first about Ohrmazd's original creation and the antagonism of the evil spirit, and afterwards about the nature of the creatures from the original creation till the end, which is the future existence (tanu-i pasino). As revealed by the religion of the Mazdayasnians, so it is declared that Ohrmazd is supreme in omniscience and goodness, and unrivalled in splendour; the region of light is the place of Ohrmazd, which they call 'endless light,' and the omniscience and goodness of the unrivalled Ohrmazd is what they call 'revelation.'



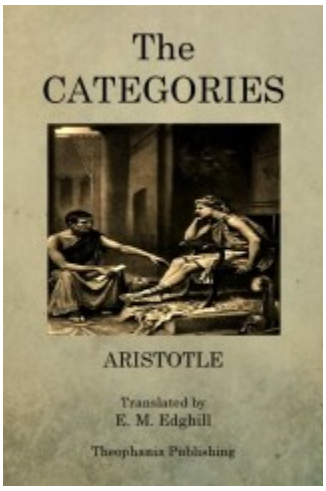
The Burden of Isis
By James Teackle Dennis
42 Pages, $13.24 USD, ISBN: 1926842537
OF all the Egyptian religious beliefs that existed from the Prehistoric period down into Roman times, the oldest and the one most held in veneration was that connected with the worship of Osiris, Isis and Horus. These three, though primarily only local gods, at an. early period became prominent deities of all Egypt; and the cult of Isis, more particularly, remained a favourite always, rivalling even that of Osiris in later times. During the many thousand years of Egyptian history, not only did many changes occur in the ceremonies connected with these cults, but also the legends and origin of the Osirian faith received many additions and interpolations; and thus the old faith lost much of its purity.



The Cabal of The Twelve Houses
By Sir George Wharton Bar.
26 Pages, $16.24 USD, ISBN: 1503083594
I shall not dispute how much Astronomers differ among themselves concerning the Number, Site, Motions, and Nature of the Heavens: Neither here undertake to compose such a strike, nor to censure, any Man's judgment therein; forasmuch as at least, in this, they do many of them agree [That there is one supream Heaven and First Moveable, which by its own motion from East to West, accomplisheth its Revolution about the Earth, in the space of 24 hours; and causeth such a force of stupend Motion, in the bodies subordinate, that it manifestly carried with it, from East to West, whatsoever is betwixt it and the middle Region of Air]



The Cassowary: What Chanced in the Cleft Mountain
By Stanley Waterloo
320 Pages, $22.24 USD, ISBN: 1468023756
The blizzard snorted and raged at midnight up the narrow pass west of Pike's Peak, at the bottom of which lay the railroad track, and with this tumult of the elements the snow was falling in masses which were caught up and tossed about in the gale until the air was but a white, swirling, yeasty mass through which nothing could be seen a yard away. The canyon was filling rapidly and the awful storm showed no sign of abatement. The passage was not of the narrowest at the place to which this description refers. The railroad builders had done good work in what had been little more than a gorge.



The Categories

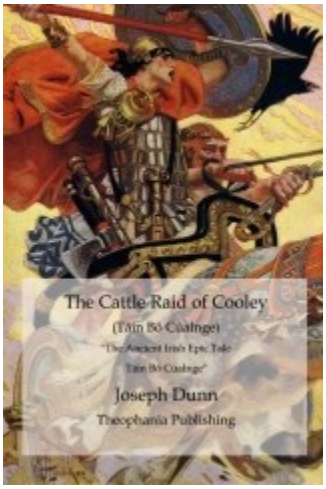
Things are said to be named 'equivocally' when, though they have a common name, the definition corresponding with the name differs for each. Thus, a real man and a figure in a picture can both lay claim to the name 'animal'; yet these are equivocally so named, for, though they have a common name, the definition corresponding with the name differs for each. For should any one define in what sense each is an animal, his definition in the one case will be appropriate to that case only. On the other hand, things are said to be named 'univocally' which have both the name and the definition answering to the name in common.

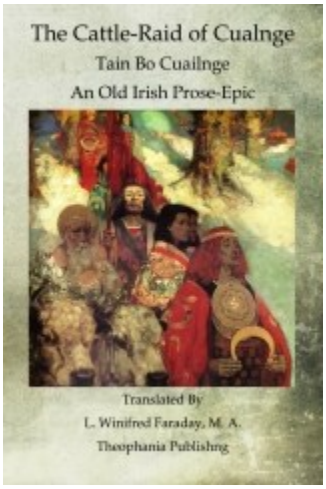


The Cattle Raid of Cooley (Táin Bó Cúalnge): The Ancient Irish Epic Tale Táin Bó Cúalnge

By Joseph Dunn

338 Pages, $23.24 USD, ISBN: 146802504X

ONCE of a time, that Ailill and Medb had spread their royal bed in Cruachan, the stronghold of Connacht, such was the pillow talk that befell betwixt them: Quoth Ailill: 'True is the saying, lady, 'She is a well off woman that is a rich man's wife.'' 'Aye,that she is,' answered the wife; 'but wherefore opin'st thou so?' 'For this,' Ailill replied,'that thou art this day better off than the day that first I took thee.' Then answered Medb: 'As well off was I before I ever saw thee.' 'It was a wealth, forsooth, we never heard nor knew of,' Ailill said; 'but a woman's wealth was all thou hadst, and foes from lands next thine were used to carry off the spoil and booty that they took from thee.'

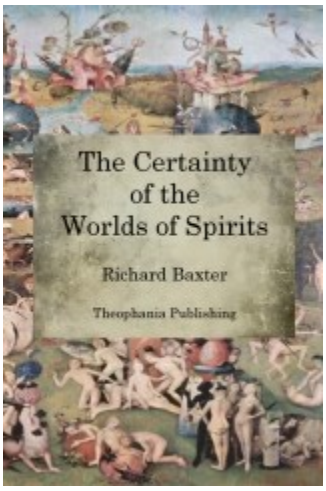


The Cattle-Raid of Cualnge: Tain Bo Cuailnge An Old Irish Prose-Epic

By L. Winifred Faraday

146 Pages, $17.24 USD, ISBN: 1468024922

THE Cattle-Raid of Cualnge is the chief story belonging to the heroic cycle of Ulster, which had its centre in the deeds of the Ulster king, Conchobar Mac Nessa, and his nephew and chief warrior, Cuchulainn Mac Sualtaim. Tradition places their date at the beginning of the Christian era. The events leading up to this tale, the most famous of Irish mythical stories, may be shortly summarised here from the Book of Leinster introduction to the Tain, and from the other tales belonging to the Ulster cycle.

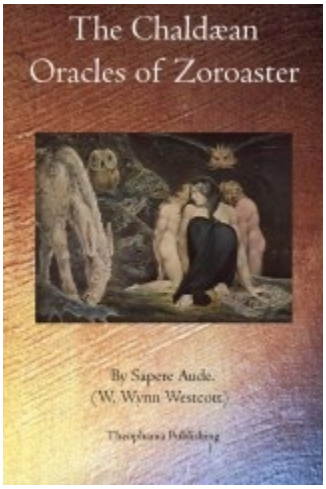


The Certainty of the Worlds of Spirits

By Richard Baxter

164 Pages, $18.24 USD, ISBN: 1470101009

IT seemeth hard to unruly Minds, that God should keep Intellectual Souls, so strange to the unseen World of Spirits; that we know so little of them, and that our Knowledge of them, is no more by the way of sense: But there is in it, much of Gods Arbitrary Soveraign Power, and much of his Wisdom, and much of his Justice, and also of his Love. It pleased him to make Variety of Creatures: What harmony would there be without Variety? were there nothing but Unity there would be nothing but God. And various Creatures, must have a various Scituation, Reception and Operations: The Fishes must not dwell in our Cities, nor be acquainted with our Affairs.



The Chaldæan Oracles of Zoroaster

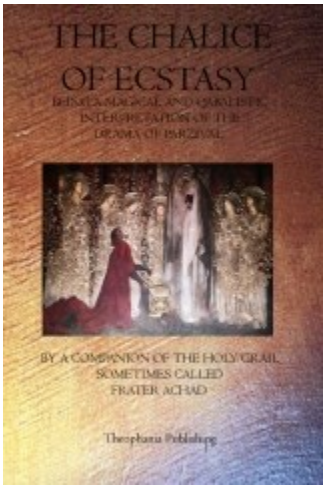
The Chaldean Oracles (Chaldaean Oracles in International English) have survived as fragmentary texts from the 2nd century AD, and consist mainly of Hellenistic commentary on a single mystery-poem (which may have been compilations from several oracular sources, considering the random subject changes) that was believed to have originated in Chaldea (Babylonia). They appear to be a syncretic combination of Neoplatonic elements with others that were Persian or Babylonian in origin. Later Neoplatonists, such as Proclus and Iamblichus, rated them highly.

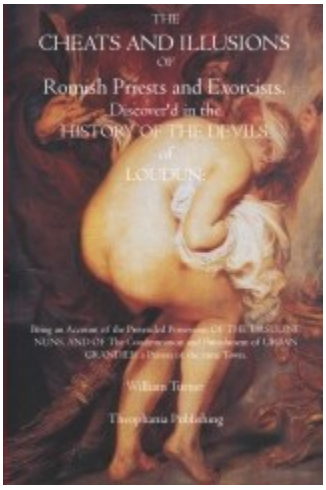


The Chalice of Ecstasy

By Frater Achad

44 Pages, $16.24 USD, ISBN: 1770830073

The collective tradition of mankind is endowed with a relative infallibility, and when rightly interpreted, must represent the largest truth, the most perfect beauty and the purest goodness known on earth. This transcendental truth and goodness and beauty represents the divine substratum of human nature, the ideal humanity which lies above and behind the aberrations of individuals, races and periods. It is not subjected, as are the latter, to Time and Circumstance or to the limitations from which the appearance of error, evil and deformity seem to spring.

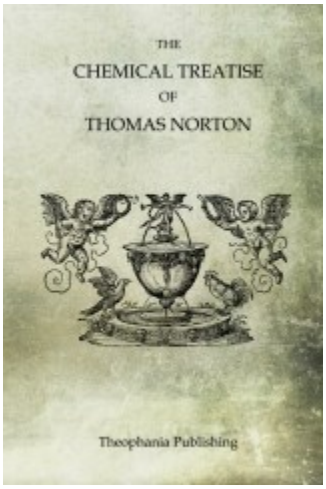


The Cheats and Illusions of Romish

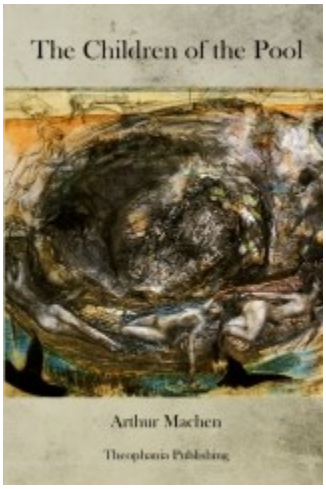
By William Turner

376 Pages, $20.24 USD, ISBN: 1770831614

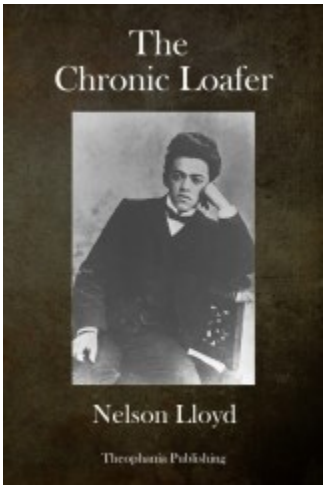
There is no doubt but that particular Relations of the nature of those which are contain'd in this Book, would have been much better receiv'd, and have made more impression, whilst they had the grace of Novelty, than when after a long course of time they seem to have been buried in Darkness and Oblivion. 'Tis upon this Motive, that because at this time one may speak freely, and without constraint, that now are publish'd the long and fatal Intrigues of a Convent of Nuns, and a great number of Ecclesiasticks, supported by a party of the Magistrates and Inhabitants of a Town, and favour'd by the Court.



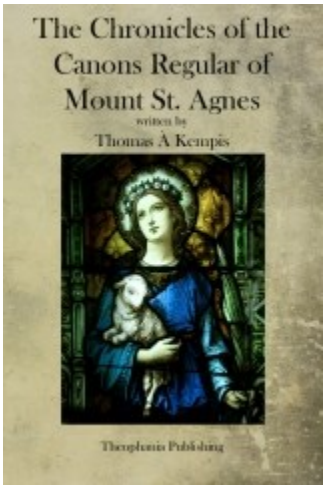
The Chemical Treatise of Thomas Norton
By Thomas Norton
126 Pages, $16.24 USD, ISBN: 1468025279
As the Nile with its overflowing waters floods the surrounding country, and covers it with fertilizing slime, bearing in it the promise of a rich and laughing harvest, so the genius of Norton overflows its banks far and wide, while he makes known to us the glorious works of Nature. He spreads himself abroad over an immensity of space, that he may fertilize the fields of Alchemy, and rejoice the hearts of its husband men. If you are fortunate you will catch beneath this wide expanse of waters a fish which will satisfy the longing of your heart.



The Children of the Pool
By Arthur Machen
38 Pages, $16.24 USD, ISBN: 1470100940
Machen's strong opposition to a materialistic viewpoint is obvious in many of his works, marking him as part of neo-romanticism. He was deeply suspicious of science, materialism, commerce, and Puritanism, all of which were anathema to Machen's conservative, bohemian, mystical, and ritualistic temperament. Machen's virulent satirical streak against things he disliked has been regarded as a weakness in his work, and rather dating, especially when it comes to the fore in works such as Dr Stiggins.

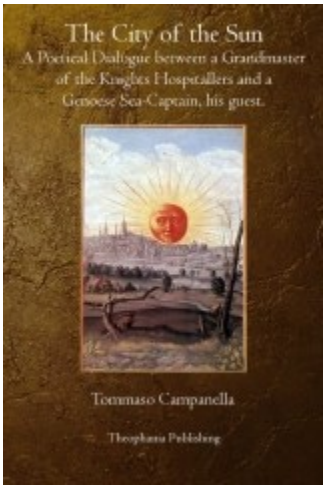


The Chronic Loafer
By Nelson Lloyd
328 Pages, $22.25 USD, ISBN: 1979013721
In the center of one of the most picturesque valleys in the heart of Pennsylvania lies the village and at one end of its single street stands the store. On the broad porch of this homely and ancient edifice there is a long oak bench, rough, and hacked in countless places by the knives of many generations of loungers. From this bench, looking northward across an expanse of meadows, a view is had of a low, green ridge, dotted here and there with white farm buildings. Behind that rise the mountains, along whose sides on bright days play the fanciful shadows of the clouds.



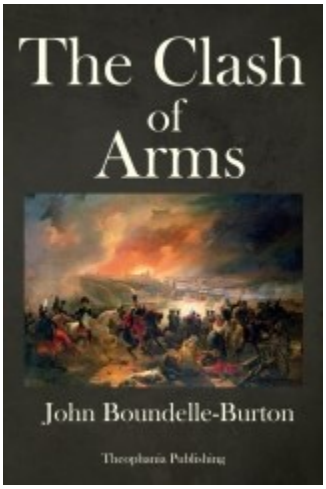
The Chronicles of the Canons Regular of Mount St. Agnes
By Thomas A Kempis
188 Pages, $20.24 USD, ISBN: 1770832769
The Chronicle of Mount St. Agnes is the only work of Thomas a Kempis of which no English translation has yet appeared, and even in its original form the book is not readily accessible to readers, since the only text is that published by Peter and John Beller of Antwerp in 1621. The ordinary collections of the works of a Kempis do not contain the Chronicle, although there is no doubt as to the authenticity of the book, which is of considerable importance to students of the movement known as The New Devotion, and to those who are interested in the Brotherhood of the Common Life.

The Chymical Wedding Of Christian Rosenkreutz
By Christian Rosenkreutz
140 Pages, $17.24 USD, ISBN: 1503083527
On an evening before Easter Day, I sat at a table, and having (as my custom was) in my humble prayer sufficiently conversed with my Creator, and considered many great mysteries (whereof the Father of Lights his Majesty had shown me not a few) and being now ready to prepare in my heart, together with my dear Paschal Lamb, a small, unleavened, undefiled cake; all of a sudden arose so horrible a tempest, that I imagined no other but that through its mighty force, the hill on which my little house was founded would fly into pieces.

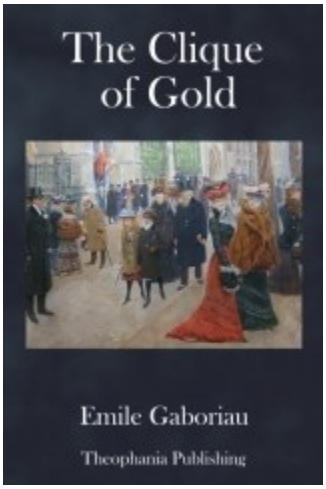


The City of the Sun
A Poetical Dialogue between a Grandmaster of the Knights Hospitallers and a Genoese Sea-Captain, his guest.
Tommaso Campanella
Theophania Publishing

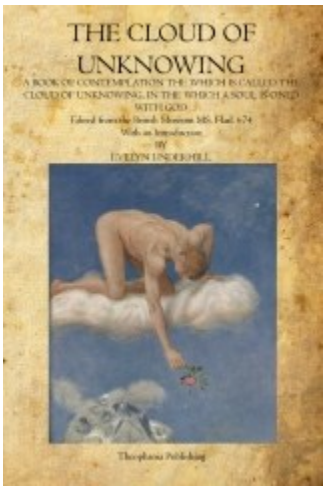
The City of The Sun
By Tommaso Campanella
46 Pages, $16.24 USD, ISBN: 1926842545
Born in Stignano (in the county of Stilo) in the province of Reggio di Calabria in southern Italy, Campanella was a child prodigy. Son of a poor and illiterate cobbler, he entered the Dominican Order before the age of fifteen, taking the name of fra' Tommaso in honour of Thomas Aquinas. He studied theology and philosophy with several masters. Early on, he became disenchanted with the Aristotelian orthodoxy and attracted by the empiricism of Bernardino Telesio (1509–1588), who taught that knowledge is sensation and that all things in nature possess sensation.



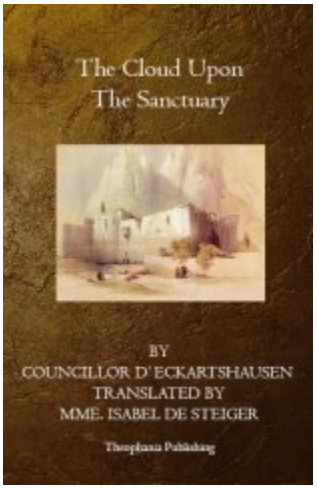
The Clash of Arms
By John Bloundelle-Burton
492 Pages, $27.25 USD, ISBN: 1978453760
"If," said the sick man, a little complainingly, perhaps a little peevishly, "he comes not soon, he is as like as not to see me in my coffin. Yet," he added a moment later, "he was ever used to keep his word. With all his faults he always did that. Prided himself on it, indeed, almost as much as on the broils and fights and troubles he was always in." "If," said the other person in the room, "he said he would come, he will come. Andrew Vause ever kept his promise." "What did he tell the messenger who found him when he rode to London?—in a tavern, be sure! Tell me again the message he sent."



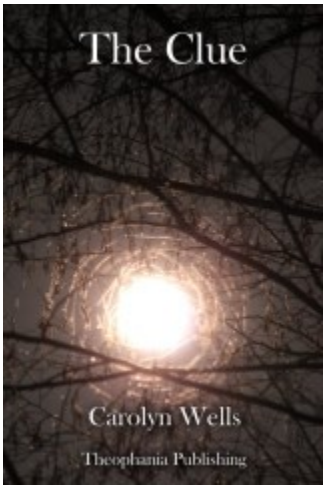
The Clique of Gold
By Emile Gaboriau
722 Pages, $33.25 USD, ISBN: 1981202560
There is not in all Paris a house better kept or more inviting-looking than No. 23 in Grange Street. As soon as you enter, you are struck by a minute, extreme neatness, which reminds you of Holland, and almost sets you a-laughing. The neighbors might use the brass plate on the door as a mirror to shave in; the stone floor is polished till it shines; and the woodwork of the staircase is varnished to perfection. In the entrance-hall a number of notices, written in the peculiar style which owners of houses affect, request the tenants to respect the property of others, without regard to the high price they pay for their share.



The Cloud of Unknowing
By Evelyn Underhill
212 Pages, $20.24 USD, ISBN: 177083222X
THE little family of mystical treatises which is known to students as "the Cloud of Unknowing group," deserves more attention than it has hitherto received from English lovers of mysticism: for it represents the first expression in our own tongue of that great mystic tradition of the Christian Neoplatonists which gathered up, remade, and "salted with Christ's salt" all that was best in the spiritual wisdom of the ancient world.



The Cloud Upon The Sanctuary
By Councillor D' Eckartshausen
62 Pages, $16.24 USD, ISBN: 1926842553
There is no age more remarkable to the quiet observer than our own. Everywhere there is fermentation in the minds of men; everywhere there is a battle between light and darkness, between exploded thought and living ideas, between powerless wills and living active force; in short everywhere is there war between animal man and growing spiritual man. It is said that we live in an age of light, but it would be truer to say that we are living in an age of twilight; here and there a luminous ray pierces through the mists of darkness, but does not light to full clearness either our reason or our hearts.



The Clue

The Code of Hammurabi
By L. W. King
90 Pages, $16.24 USD, ISBN: 1470100894
[B]y far the most remarkable of the Hammurabi records is his code of laws, the earliest-known example of a ruler proclaiming publicly to his people an entire body of laws, arranged in orderly groups, so that all men might read and know what was required of them. The code was carved upon a black stone monument, eight feet high, and clearly intended to be reared in public view. This noted stone was found in the year 1901, not in Babylon, but in a city of the Persian mountains, to which some later conqueror must have carried it in triumph.

The Coil of Carne
By John Oxenham
744 Pages, $35.25 USD, ISBN: 1979103437
If by any chance you should ever sail on a low ebb-tide along a certain western coast, you will, if you are of a receptive humour and new to the district, receive a somewhat startling impression of the dignity of the absolutely flat. Your ideas of militant and resistant grandeur may have been associated hitherto with the iron frontlets and crashing thunders of Finisterre or Sark, of Cornwall or the Western Isle. Here you are faced with a repressive curbing of the waters, equal in every respect to theirs, but so quietly displayed as to be somewhat awesome, as mighty power in restraint must always be.

The Collected Adventures of Peter Pan
By J.M. Barrie
488 Pages, $20.24 USD, ISBN: 1515291588 GUGA BOOKS
IF you ask your mother whether she knew about Peter Pan when she was a little girl she will say, "Why, of course, I did, child," and if you ask her whether he rode on a goat in those days she will say, "What a foolish question to ask, certainly he did." Then if you ask your grandmother whether she knew about Peter Pan when she was a girl, she also says, "Why, of course, I did, child," but if you ask her whether he rode on a goat in those days, she says she never heard of his having a goat. Perhaps she has forgotten, just as she sometimes forgets your name and calls you Mildred, which is your mother's name.

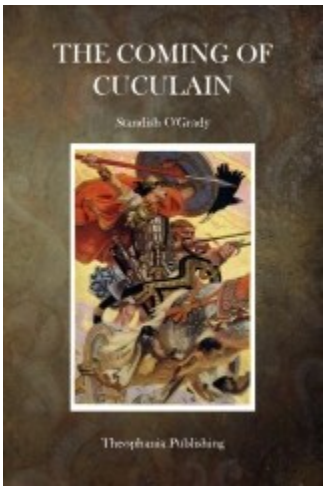
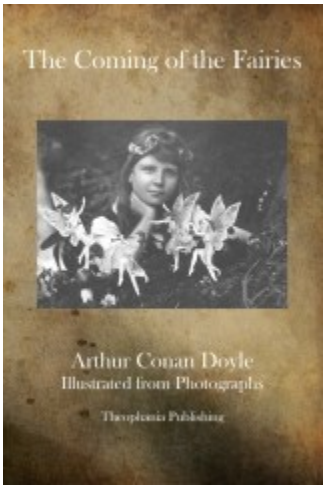
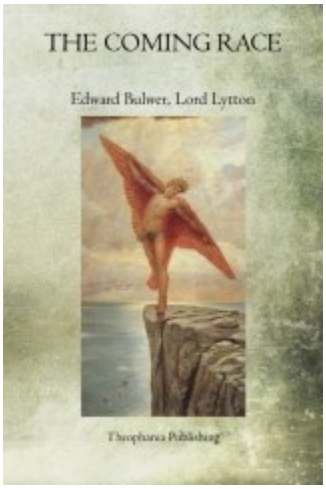
The Column of Dust
By Evelyn Underhill
258 Pages, $20.24 USD, ISBN: 1470100886
This is the story of a being—a thing—a spirit, if you will—who loved nothing, and therefore was free. It wished to serve neither its own interests nor those of the Supernal Light; and had no aim, only an aching inquisitiveness. Now the itch to know, coupled with the inability to care, produces there, as here, that restless and unsociable disposition which we classify as the result of an imperfect and egotistical education. There, as here, it of course frustrates itself; since those who do not love can never understand.



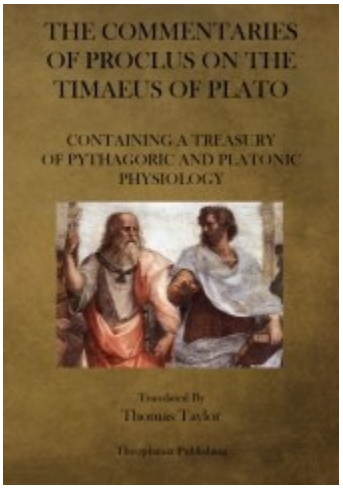
The Coming of Cuculain
By Standish O'Grady
144 Pages, $17.24 USD, ISBN: 1515336964
There are three great cycles of Gaelic literature. The first treats of the gods; the second of the Red Branch Knights of Ulster and their contemporaries; the third is the so-called Ossianic. Of the Ossianic, Finn is the chief character; of the Red Branch cycle, Cuculain, the hero of our tale. Cuculain and his friends are historical characters, seen as it were through mists of love and wonder, whom men could not forget, but for centuries continued to celebrate in countless songs and stories.



The Coming of the Fairies
By Arthur Conan Doyle
118 Pages, $16.24 USD, ISBN: 1770833250
This book contains reproductions of the famous Cottingley photographs, and gives the whole of the evidence in connection with them. The diligent reader is in almost as good a position as I am to form a judgment upon the authenticity of the pictures. This narrative is not a special plea for that authenticity, but is simply a collection of facts the inferences from which may be accepted or rejected as the reader may think fit. I would warn the critic, however, not to be led away by the sophistry that because some professional trickster, apt at the game of deception, can produce a somewhat similar effect, therefore the originals were produced in the same way.

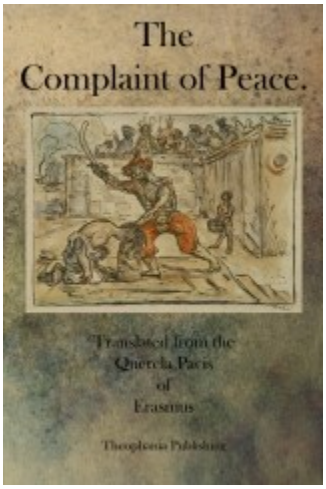


The Coming Race
By Edward Bulwer
206 Pages, $19.24 USD, ISBN: 1468025295
The nearest approach to it in outline and expression is the face of the sculptured sphinx—so regular in its calm, intellectual, mysterious beauty. Its colour was peculiar, more like that of the red man than any other variety of our species, and yet different from it—a richer and a softer hue, with large black eyes, deep and brilliant, and brows arched as a semicircle. The face was beardless; but a nameless something in the aspect, tranquil though the expression, and beauteous though the features, roused that instinct of danger which the sight of a tiger or serpent arouses. I felt that this manlike image was endowed with forces inimical to man. As it drew near, a cold shudder came over me. I fell on my knees and covered my face with my hands.



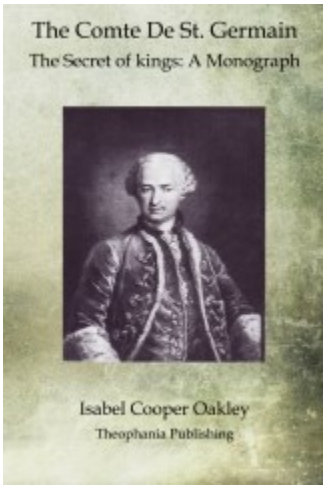
THE COMMENTARIES OF PROCLUS ON THE TIMAEUS OF PLATO
CONTAINING A TREASURY OF PYTHAGORIC AND PLATONIC PHYSIOLOGY
Thomas Taylor

The Commentaries of Proclus on the Timaeus of Plato
By Proclus
750 Pages, $41.49 USD, ISBN: 1475067232
Of that golden chain of philosophers, who, having themselves happily penetrated, luminously unfolded to others the profundities of the philosophy of Plato, Proclus is indisputably the largest and most refulgent link. Born with a genius transcendently great, and accompanied through life with a fortune singularly good, he exhibited in his own person a union of the rarest kind, in which power concurred with will, the benefit resulting from genuine philosophy with the ability of imparting it, and in which Wisdom was inseparable from Prosperity.

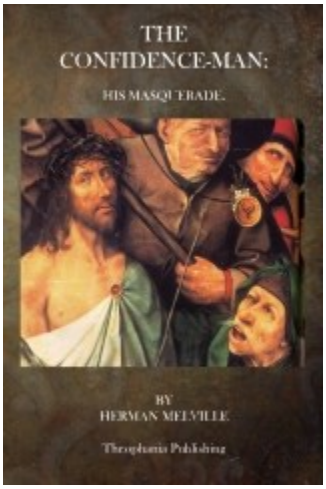


The Complaint of Peace
By Erasmus
76 Pages, $16.24 USD, ISBN: 1770833269
THOUGH I certainly deserve no ill treatment from mortals, yet if the insults and repulses I receive were attended with any advantage to them, I would content myself with lamenting in silence my own unmerited indignities and man's injustice. But since, in driving me away from them, they remove the source of all human blessings, and let in a deluge of calamities on themselves, I am more inclined to bewail their misfortune, than complain of ill usage to myself; and I am reduced to the necessity of weeping over and commiserating those whom I wished to view rather as objects of indignation than of pity.

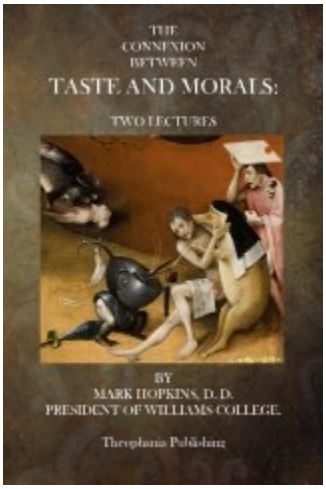
The Compleat Angler
By Izaak Walton
232 Pages, $20.24 USD, ISBN: 1519340664
Piscator. Sir, my fortune has answered my desires, and my purpose is to bestow a day or two in helping to destroy some of those villanous vermin: for I hate them perfectly, because they love fish so well, or rather, because they destroy so much; indeed so much, that, in my judgment all men that keep Otter-dogs ought to have pensions from the King, to encourage them to destroy the very breed of those base Otters, they do so much mischief. Venator. But what say you to the Foxes of the Nation, would not you as willingly have them destroyed? for doubtless they do as much mischief as Otters do.



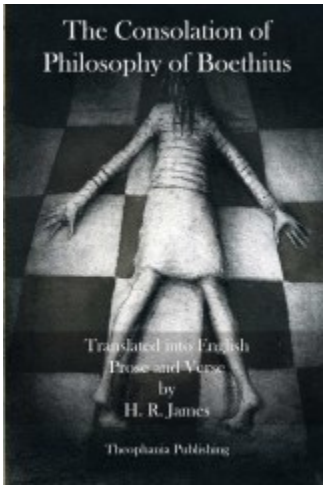
The Comte De St. Germain: The Secret of kings: A Monograph
By Isabel Cooper Oakley
256 Pages, $20.24 USD, ISBN: 1468025171
AMONG the strange mysterious beings, with which the eighteenth century was so richly dowered, no one has commanded more universal comment and attention than the mystic who was known by the name of the Comte de St. Germain. A hero of romance; a charlatan; a swindler and an adventurer; rich and varied were the names that showered freely upon him. Hated by the many, loved and reverenced by the few, time has not yet lifted the veil which screened his true mission from the vulgar speculators of the period. Then, as now, the occultist was dubbed charlatan by the ignorant; only some men and women here and there realised the power of which he stood possessed.



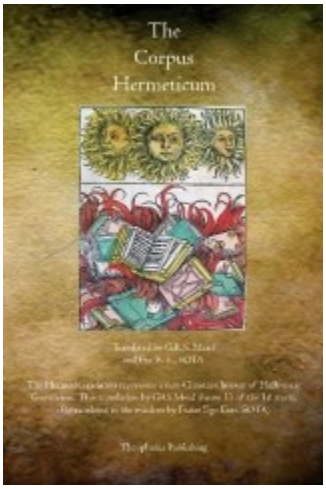
The Confidence-Man: His Masquerade
By Herman Melville
382 Pages, $24.24 USD, ISBN: 1515290689
The novel's title refers to its central character, an ambiguous figure who sneaks aboard a Mississippi steamboat on April Fool's Day. This stranger attempts to test the confidence of the passengers, whose varied reactions constitute the bulk of the text. Each person including the reader is forced to confront that in which he places his trust. The Confidence-Man uses the Mississippi River as a metaphor for those broader aspects of American and human identity that unify the otherwise disparate characters.



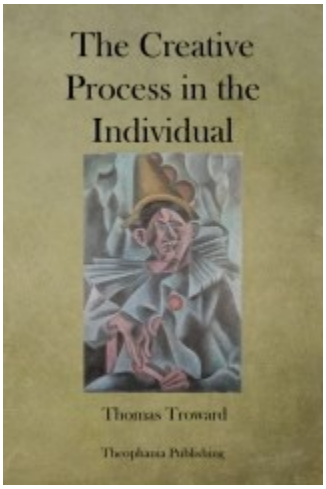
The Connexion Between Taste and Morals: Two Lectures
By Mark Hopkins D.D.
48 Pages, $16.24 USD, ISBN: 1515290611
Is the prevalence of a cultivated taste, favorable to morals? Is there a connexion, either in individuals, or in communities, between good taste and good morals? When I began to reflect upon this point with reference to a public discussion of it, I put the above questions to three educated men, as I happened to meet them. The first said, he had not thought of it, but that, at the first view, he did not believe there was any such connexion; the second said he should wish to see it proved before he would believe it; and the third said, he thought there was such a connexion.



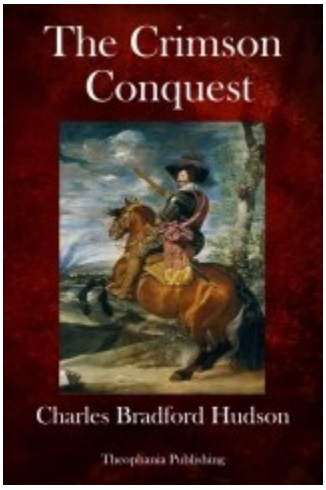
The Consolation of Philosophy of Boethius
By Boethius
192 Pages, $18.24 USD, ISBN: 1770833277
The great work of Boethius, with its alternate prose and verse, skilfully fitted together like dialogue and chorus in a Greek play, is unique in literature, and has a pathetic interest from the time and circumstances of its composition. It ought not to be forgotten. Those who can go to the original will find their reward. There may be room also for a new translation in English after an interval of close on a hundred years.



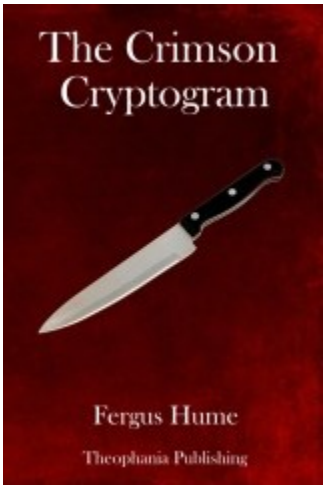
The Corpus Hermeticum
By G.R.S. Mead
74 Pages, $15.24 USD, ISBN: 1770830758
Then IT said to me “Do you understand what this Vision means?” “No; but I wish to know,” I said. “That Light,” IT said, “is myself, Ptah, Mind, prior to Moist Nature which appeared from Darkness; the Light-Word (Logos) that appeared from Mind is the Son of Ptah.” “What then?” I said. “Know that what sees and hears the thoughts within you is the Lord's Word (Logos); but Mind is Creator - Ptah. They are not separate from each other; just in their union, rather is it Life consists.” “Thank you,” I said. “So, understand the Light and make friends with it.”



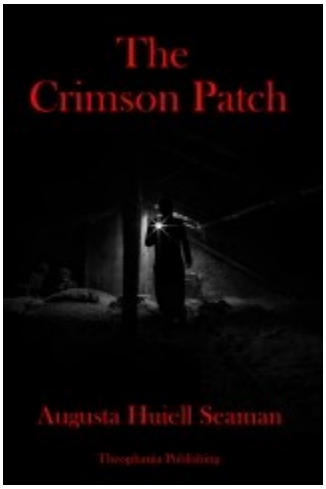
The Creative Process in the Individual
By T. Troward
118 Pages, $16.24 USD, ISBN: 1479176591
In the present volume I have endeavored to set before the reader the conception of a sequence of creative action commencing with the formation of the globe and culminating in a vista of infinite possibilities attainable by every one who follows up the right line for their unfoldment. I have endeavored to show that, starting with certain incontrovertible scientific facts, all these things logically follow, and that therefore, however far these speculations may carry us beyond our past experience, they nowhere break the thread of an intelligible connection of cause and effect.



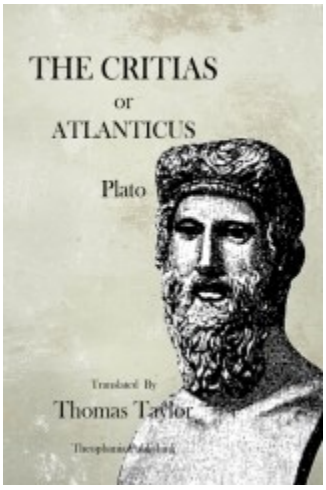
The Crimson Conquest
By Charles Bradford Hudson
668 Pages, $32.25 USD, ISBN: 1979110875
Toward the end of a day in the year Fifteen Hundred and Thirty-one, as the air cooled slightly with the sun's decline, the plaza of the little Spanish city of Panama grew languidly animate. The square had blazed, shimmered, and baked all day, shunned in its fervor except by those compelled to cross it in order to avoid the exertion of going round, or by the few straggling natives whose half-naked bodies and sun-tanned hides were proof; but this was the hour of listless awakening, and groups formed at the corners, exchanging gossip...



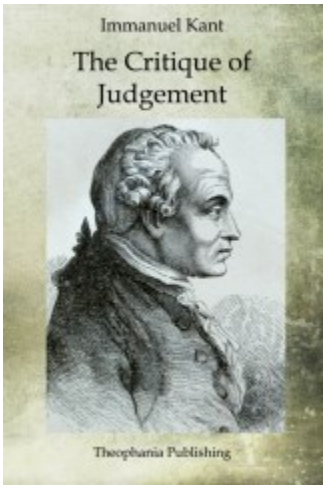
The Crimson Cryptogram
By Fergus Hume
334 Pages, $23.25 USD, ISBN: 1981812563
"Poverty, naked and unconcealed! One can endure that, with some patience, as a beaten soldier in the battle of life. But genteel pauperism--the semi-poverty of the middle-class, that lives a necessary lie at the cost of incessant worry and constant defeat--there you have the true misery of life. Believe me, Cass, there is no torture like that of an ambition which cannot be attained for lack of money." "I did not know you were ambitious, Ellis."



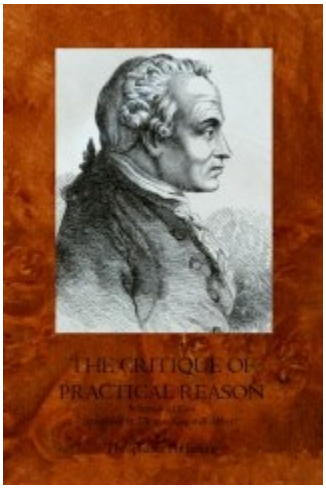
The Crimson Patch
By Augusta Huiell Seaman
180 Pages, $28.25 USD, ISBN: 1979107602
So this was to be her home—and for three long months! Patricia Meade dropped her suitcase on a convenient chair and gazed curiously about her. A hotel bedroom, with stiff-looking twin brass beds, two willow rockers, one straight chair, an imposing mahogany bureau and one small table—absolutely all the furniture, if one excepted the stiff draperies at the windows and one or two not particularly artistic pastel pictures adorning the wall.



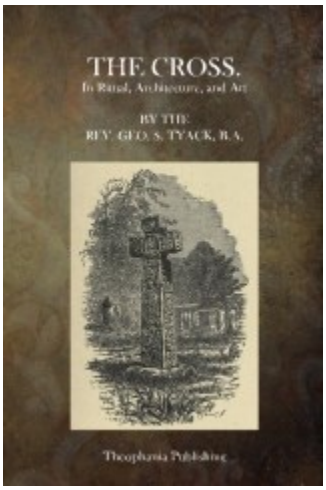
The Critias
By Plato
26 Pages, $16.24 USD, ISBN: 1470100835
That the authenticity of the following history should have been questioned by many of the moderns, is by no means surprising, if we consider that it is the history of an island and people that are asserted to have existed NINE THOUSAND years prior to Solon; as this contradicts the generallyreceived opinion respecting the antiquity of the world. However, as Plato expressly affirms, that it is a relation in every respect true, and, as Crantor, the first interpreter of Plato, asserts, 'that the following history was said, by the Egyptian priests of his time, to he still preserved inscribed on pillars,' it appears to me to he at least as well attested as any other narration in any ancient historian.



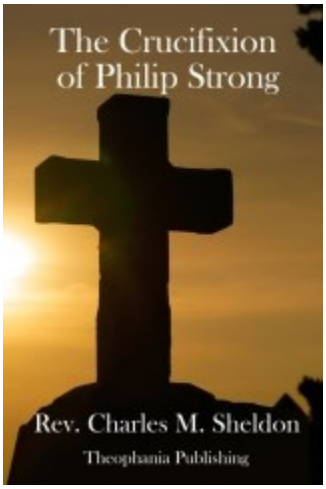
The Critique of Judgement
By Immanuel Kant
438 Pages, $26.24 USD, ISBN: 1468025244
We may call the faculty of cognition from principles a priori, pure Reason, and the inquiry into its possibility and bounds generally the Critique of pure Reason, although by this faculty we only understand Reason in its theoretical employment, as it appears under that name in the former work; without wishing to inquire into its faculty, as practical Reason, according to its special principles.



The Critique of Practical Reason
By Immanuel Kant
172 Pages, $18.24 USD, ISBN: 1770830626
This work is called the Critique of Practical Reason, not of the pure practical reason, although its parallelism with the speculative critique would seem to require the latter term. The reason of this appears sufficiently from the treatise itself. Its business is to show that there is pure practical reason, and for this purpose it criticizes the entire practical faculty of reason. If it succeeds in this, it has no need to criticize the pure faculty itself in order to see whether reason in making such a claim does not presumptuously overstep itself (as is the case with the speculative reason). For if, as pure reason, it is actually practical, it proves its own reality and that of its concepts by fact, and all disputation against the possibility of its being real is futile.

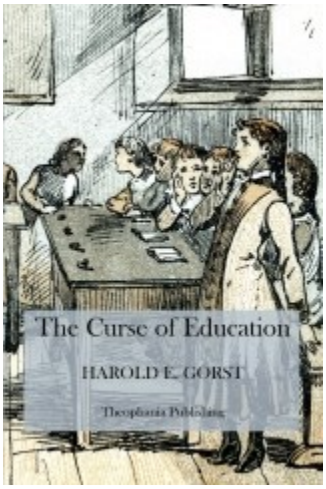


The Cross in Ritual, Architecture and Art
By Rev. Geo S. Tyack B.A.
132 Pages, $17.24 USD, ISBN: 1515291472
In this work my aim has been to deal in a popular way with the manifold uses of the Cross as the symbol of the Christian Faith. The attempt necessitates certain limitations; to give prominence to controversial points, to go to foreign lands for illustrations and examples when so many apt ones are to be found at home, or to load the pages with references—any of these things would have been opposed to the object which I have set before myself. If my outline be sufficiently broad and clear, and the details, so far as they go, accurate—and to attain this no pains have been spared—I shall be content.

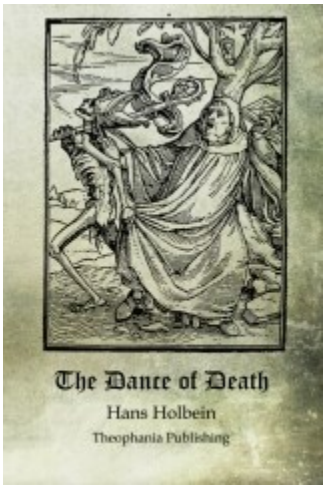


The Crucifixion of Philip Strong
By Rev. Charles M. Sheldon
330 Pages, $23.25 USD, ISBN: 1979384525
Philip Strong could not decide what was best to do. The postman that evening had brought him two letters and he had just finished reading them. He sat with his hands clasped over his knee, leaning back in his chair and looking out through his study window. He was evidently thinking very hard and the two letters were the cause of it. Finally he rose, went to his study door and called down the stairs, "Sarah, I wish you would come up here. I want your help." "All right, Philip, I'll be up in a minute," responded a voice from below, and very soon the minister's wife came upstairs into her husband's study.

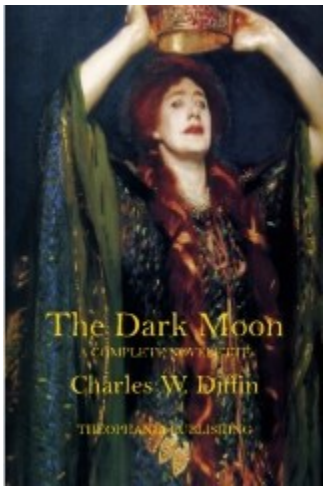
The Curfew Tolls
By Stephen Vincent Benet
42 Pages, $16.24 USD, ISBN: 1519338449
My friend the major's malady approaches its term—the last few days find him fearfully enfeebled. He knows that the end draws nigh; indeed he speaks of it often, with remarkable calmness. I had thought it might turn his mind toward religion, but while he has accepted the ministrations of his Church, I fear it is without the sincere repentance of a Christian. When the priest had left him, yesterday, he summoned me, remarking, "Well, all that is over with," rather more in the tone of a man who has just reserved a place in a coach than one who will shortly stand before his Maker. "It does no harm," he said, reflectively. "And, after all, it might be true. Why not?" and he chuckled in a way that repelled me.



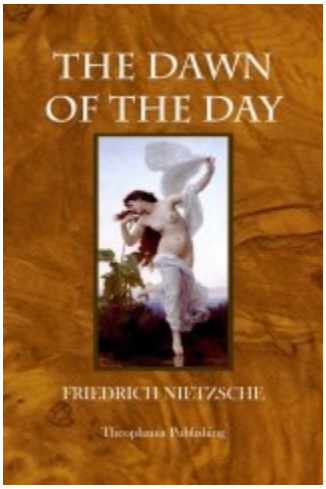
The Curse of Education
By Harold E. Gorst
124 Pages, $16.24 USD, ISBN: 147501208X
In calling this little book 'The Curse of Education,' I trust that I shall not be misunderstood to disparage culture. The term 'education' is used, for want of a better word, to express the conventional mode of teaching and bringing up children, and of educating youth in this and other civilized countries. It is with education systems, with the universal method of cramming the mind with facts, and particularly with the manufacture of uniformity and mediocrity by subjecting every individual to a common process, regardless of his natural bent, that I have chiefly to find fault.



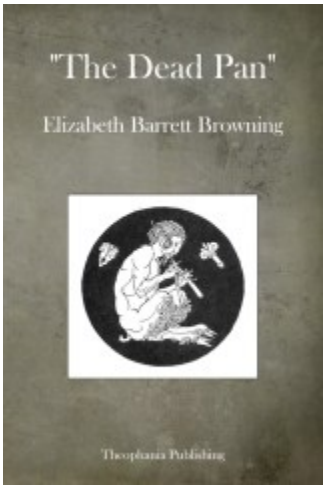
The Dance of Death
By Hans Holbein
116 Pages, $16.24 USD, ISBN: 1468025147
'Les Simulachres & Historiées Faces de la Mort avtant elegamtment pourtraictes, que artificiellement imaginées.' This may be Englished as follows: The Images and Storied Aspects of Death, as elegantly delineated as [they are] ingeniously imagined. Such is the literal title of the earliest edition of the famous book now familiarly known as 'Holbein's Dance of Death.' It is a small quarto, bearing on its title-page, below the French words above quoted, a nondescript emblem with the legend Vsus me Genuit, and on an open book, Gnothe seauton. Below this comes again, 'A Lyon, Soubz l'escu de Cologne: M. D. XXXVIII,' while at the end of the volume is the imprint 'Excvdebant Lvgdvni Melchoir et Gaspar Trechsel fratres: 1538



The Dark Moon
By Charles W. Diffin
172 Pages, $18.24 USD, ISBN: 1519324006
The one hundred and fifty-ninth floor of the great Transportation Building allowed one standing at a window to look down upon the roofs of the countless buildings that were New York. Flat-decked, all of them; busy places of hangars and machine shops and strange aircraft, large and small, that rose vertically under the lift of flashing rotors. The air was alive and vibrant with directed streams of stubby-winged shapes that drove swiftly on their way, with only a wisp of vapor from their funnel-shaped sterns to mark the continuous explosion that propelled them. Here and there were those that entered a shaft of pale-blue light that somehow outshone the sun. It marked an ascending area, and there ships canted swiftly, swung their blunt noses upward, and vanished, to the upper levels.



The Dawn of the Day
By Friedrich Nietzsche
320 Pages, $18.24 USD, ISBN: 1478399937
WHEN Nietzsche called his book The Dawn of Day he was far from giving it a merely fanciful title to attract the attention of that large section of the public which judges books by their titles rather than by their contents.

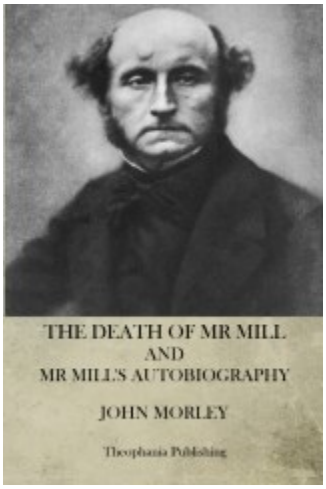


The Dead Pan

By Elizabeth Barrett Browning

32 Pages, $15.24 USD, ISBN: 1484919521

Gods of Hellas, gods of Hellas, Can ye listen in your silence? Can your mystic voices tell us Where ye hide? In floating islands, With a wind that evermore Keeps you out of sight of shore? Pan, Pan is dead.

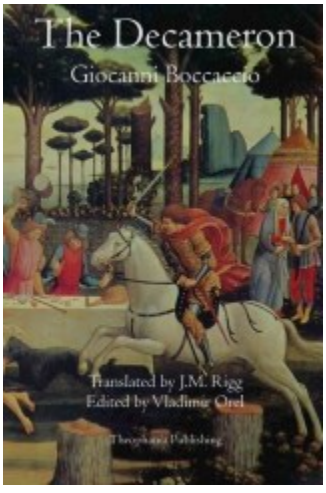


The Death of Mr. Mill and Mr. Mill's Autobiography

By John Morley

48 Pages, $16.24 USD, ISBN: 1470100797

Much will one day have to be said as to the precise value of Mr. Mill's philosophical principles, the more or less of his triumphs as a dialectician, his skill as a critic and an expositor. However this trial may go, we shall at any rate be sure that with his reputa tion will stand or fall the intellectual repute of a whole generation of his countrymen. The most eminent of those who are now so fast becoming the front line, as death mows down the veterans, all bear traces of his influence, whether they are avowed disciples or avowed opponents. If they did not accept his method of thinking, at least he determined the questions which they should think about.



The Decameron

By Giovanni Boccaccio

784 Pages, $36.24 USD, ISBN: 1770831177

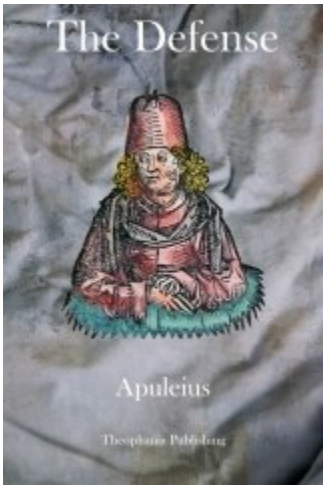
Giovanni Boccaccio (1313-1375), a friend of Petrarch and one of the best writers of the Italian Renaissance, will forever remain famous for the book we are now offering our readers. In 1349-1352, inspired by the Black Death of 1348 which he survived in his home city of Florence, Boccaccio wrote one of the funniest, naughtiest and deepest books about the human nature, Decameron. This book, as well as some other writings of Boccaccio, inspired Chaucer and is easily recognizable in the Canterbury Tales.

The Decoration of Leather

By Georges De Recy

118 Pages, $16.24 USD, ISBN: 1503083209

The following remarks, without attempting a description in detail of the different phases through which the art of decorating leather has passed since its origin in primitive times, deal with the treatment of leather solely from the decorative point of view, the present volume being limited to the consideration of this aspect of the subject. In all ages man has sought to develop to their fullest extent the possibilities of splendour in the materials of his dress, and an important place in the wardrobes of our early ancestors was filled by skins shorn of hair, thus lending themselves easily to decoration in many different ways.

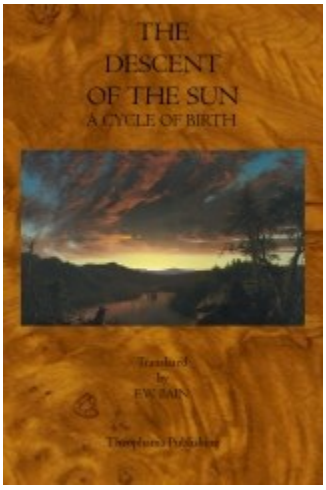


The Defense

By Apuleius

100 Pages, $16.24 USD, ISBN: 1770833285

For my part, Claudius Maximus, and you, gentlemen who sit beside him on the bench, I regarded it as a foregone conclusion that Sicinius Aemilianus would for sheer lack of any real ground for accusation cram his indictment with mere vulgar abuse; for the old rascal is notorious for his unscrupulous audacity, and, further, launched forth on his task of bringing me to trial in your court before he had given a thought to the line his prosecution should pursue. Now while the most innocent of men may be the victim of false accusation, only the criminal can have his guilt brought home to him.

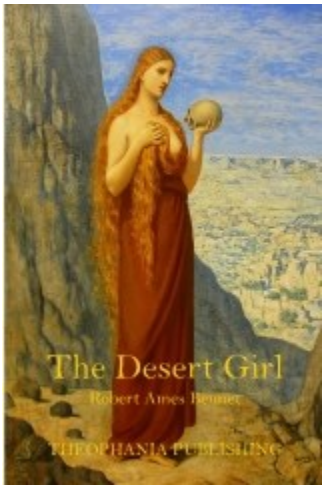


The Descent of the Sun

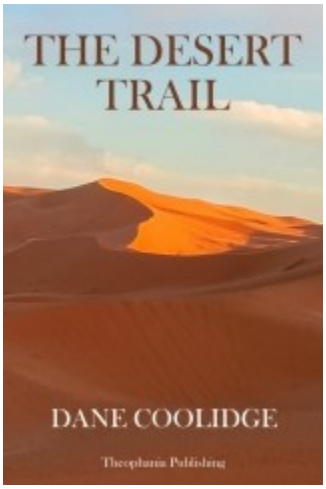
By F. W. Bain

88 Pages, $16.24 USD, ISBN: 177083009X

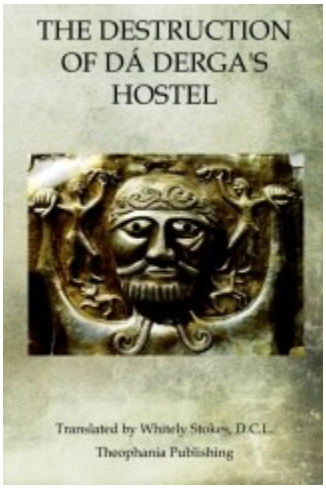
HERE is a fairy tale which I found in an old Hindu manuscript. As the title shows, it is a solar myth. Literally translated, its name is: The glory of the Going Down of the Sun. But this is only the exoteric, physical envelope of the inner, mystical meaning, which is: The Divine Lustre1 of the Descent (Incarnation) of Him Who took Three Steps: i.e. Vishnu, or the Sun, the later Krishna, or Hindu Apollo. And this epithet of the Sun is explained by the well-known passage in the Rig-Veda Shrí also means a Sacred Lotus, and it is the name of the twelfth Digit of the Moon: thus indicating the position of this story in the series to which it belongs: for an account of which, and the manuscript, I may refer the reader to the preface to her predecessor Shashiní, entitled A Digit of the Moon.) ...



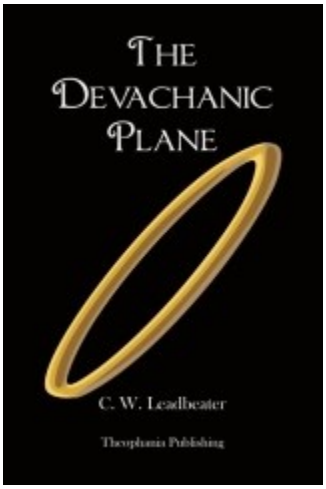
The Desert Girl
By Robert Ames Bennet
196 Pages, $19.24 USD, ISBN: 151933835X
This is the Story For those who mourn the passing of the romantic and adventurous West, this book will be a welcome revelation that it still exists. To Jack Lennon, prospector, wandering peacefully over a well-marked trail, this revelation came when a bullet knocked down his burro. With almost incredible speed he found himself dragged out of the comfortable routine of his life into a forced career of lawlessness. Besides the struggle between the two bands of desert dwellers there is the struggle between two women, and the story ends in a climax of tremendous tensity and power.



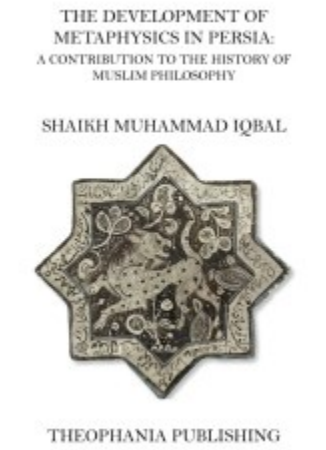
The Desert Trail
By Dane Coolidge
290 Pages, $21.25 USD, ISBN: 197921560X
The slow-rolling winter's sun rose coldly, far to the south, riding up from behind the saw-toothed Sierras of Mexico to throw a silvery halo on Gadsden, the border city. A hundred miles of desert lay in its path—a waste of broken ridges, dry arroyos, and sandy plains—and then suddenly, as if by magic, the city rose gleaming in the sun. It was a big city, for the West, and swarming with traffic and men. Its broad main street, lined with brick buildings and throbbing with automobiles, ran from the railroad straight to the south until, at a line, it stopped short and was lost in the desert. That line which marked the sudden end of growth and progress was the border of the United States; the desert was Mexico.



The Destruction Of Dá Derga's Hostel
By Whitely Stokes
98 Pages, $16.24 USD, ISBN: 146802521X
The vast and interesting epic literature of Ireland has remained, for the most part, inaccessible to English readers until these last sixty years. In 1853, Nicholas O'Kearney published the Irish text and an English translation of "The Battle of Gabra," and since that date the volume of printed texts and English versions has steadily increased. Now there lies open to the ordinary reader a considerable mass of material illustrating the imaginative life of medieval Ireland. Of these Irish epic tales, "The Destruction of Dá Derga's Hostel" is a specimen of remarkable beauty and power.



The Devachanic Plane
By C. W. Leadbeater
92 Pages, $15.24 USD, ISBN: 1480119407
Few words are needed in sending this little book out into the world. It is the sixth of a series of Manuals designed to meet the public demand for a simple exposition of Theosophical teachings. Some have complained that our literature is at once too abstruse, too technical, and too expensive for the ordinary reader, and it is our hope, that the present series may succeed in supplying what is a very real want. Theosophy is not only for the learned; it is for all. Perhaps among those who in these little books catch their first glimpse of its teachings, there may be a few who will be led by them to penetrate more deeply into its philosophy, its science and its religion, facing its abstruser problems with the students zeal and -the neophyte's ardour.



THE DEVELOPMENT OF METAPHYSICS IN PERSIA:
A CONTRIBUTION TO THE HISTORY OF MUSLIM PHILOSOPHY
SHAIKH MUHAMMAD IQBAL
THEOPHANIA PUBLISHING

The Development of Metaphysics in Persia
By Shaikh Muhammad Iqbal
146 Pages, $17.24 USD, ISBN: 1519333722
The most remarkable feature of the character of the Persian people is their love of Metaphysical speculation. Yet the inquirer who approaches the extant literature of Persia expecting to find any comprehensive systems of thought, like those of Kapila or Kant, will have to turn back disappointed, though deeply impressed by the wonderful intellectual subtlety displayed therein. It seems to me that the Persian mind is rather impatient of detail, and consequently destitute of that organising faculty which gradually works out a system of ideas, by interpreting the fundamental principles with reference to the ordinary facts of observation.

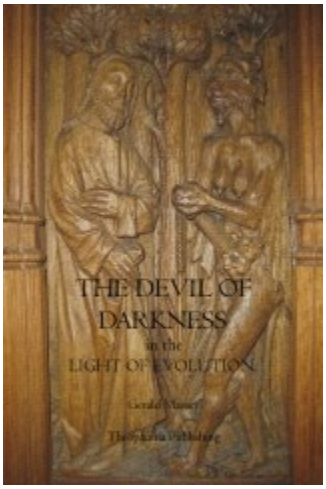
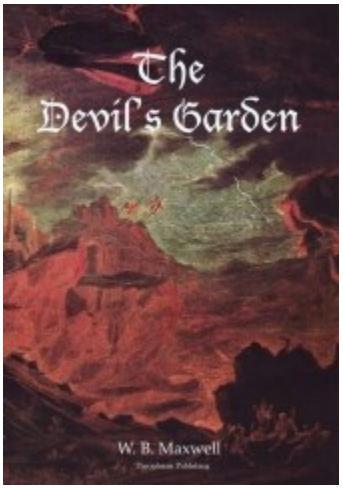
The Devil: A Tragedy of the Heart and Conscience
By Ferenc Molnar
152 Pages, $17.24 USD, ISBN: 1468025066
There is a great lesson for all women and men in this wonderful story. It is one that will impress with its power. But I am glad to say that I do not believe fully in its truth. The Devil here wins his victory, as he has won many. But each year, as men and women get better, the victories of Satan are fewer. Good men and good women fight against evil and do not yield. This tragic, heart breaking story, by the wonderful new writer, tells one side of the battle between good and evil that goes on in every human heart. It has its lesson for all men and women. It is a powerful warning against playing with fire. Its lesson, taught in the downfall of the man and woman, is 'Keep away from evil, and the appearance of evil.'



The Devil of Darkness in the Light of Evolution
By Gerald Massey
36 Pages, $16.24 USD, ISBN: 1770830103
There are two things which I have come to look upon as constituting the unpardonable sin of the father and mother against the helpless innocence of infancy. The one is in allowing their little children to run the risk of blood-poisoning--such as was once suffered by a child of mine--from the filthy fraud of vaccination. The other is in permitting the mind and soul of their children to be inoculated with the still more fatal virus of the old, false, orthodox dogmas and delusions, by allowing them to believe that the fables of ancient mythology are the sacred and solely true "Word of God," if they are found in the Hebrew Scriptures--the one book of the religiously ignorant.

The Devil's Dictionary
By Ambrose Bierce
238 Pages, $17.24 USD, ISBN: 1770830367
The Devil's Dictionary was begun in a weekly paper in 1881, and was continued in a desultory way at long intervals until 1906. In that year a large part of it was published in covers with the title 'The Cynic's Word Book', a name which the author had not the power to reject or happiness to approve. To quote the publishers of the present work: "This more reverent title had previously been forced upon him by the religious scruples of the last newspaper in which a part of the work had appeared, with the natural consequence that when it came out in covers the country already had been flooded by its imitators with a score of 'cynic' books - 'The Cynic's This', 'The Cynic's That', and 'The Cynic's t'Other'.



The Devil's Garden

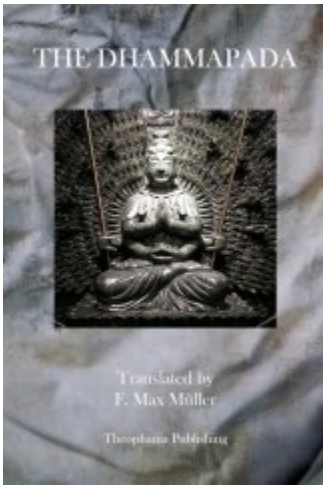
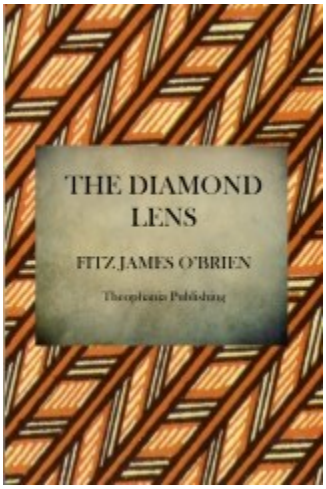
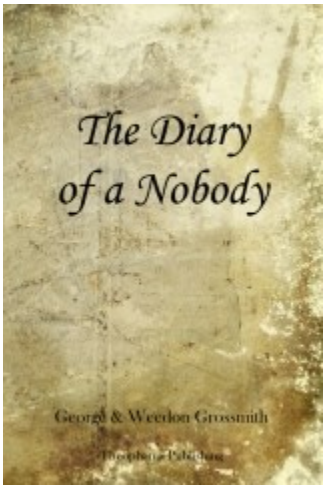
The Devil playeth in a man's mind like a wanton child in a garden, bringing his filth to choke each open path, uprooting the tender plants, and trampling the buds that should have blown for the Master.



The Dhammapada
By F. Max Muller
62 Pages, $16.24 USD, ISBN: 1770833293
The Dhammapada is a versified Buddhist scripture traditionally ascribed to the Buddha himself. It is one of the best-known texts from the Theravada canon. The title, Dhammapada, is a compound term composed of dhamma and pada, each word having a number of denotations and connotations. Generally, dhamma can refer to the Buddha's "doctrine" or an "eternal truth" or "righteousness" or all "phenomena"; and, at its root, pada means "foot" and thus by extension, especially in this context, means either "path" or "verse" or both.



The Diamond Lens
By Fitz James O'Brien
46 Pages, $16.24 USD, ISBN: 1470100738
FROM a very early period of my life the entire bent of my inclinations had been toward microscopic investigations. When I was not more than ten years old, a distant relative of our family, hoping to astonish my inexperience, constructed a simple microscope for me by drilling in a disk of copper a small hole in which a drop of pure water was sustained by capillary attraction. This very primitive apparatus, magnifying some fifty diameters, presented, it is true, only indistinct and imperfect forms, but still sufficiently wonderful to work up my imagination to a preternatural state of excitement.



The Diary of a Nobody
By George Grossmith

My clear wife Carrie and I have just been a week in our new house, "The Laurels," Brickfield Terrace, Holloway - a nice six-roomed residence, not counting basement, with a front breakfast-parlour. We have a little front garden; and there is a flight of ten steps up to the front door, which, by-the-by, we keep locked with the chain up. Cummings, Gowing, and our other intimate friends always come to the little side entrance, which saves the servant the trouble of going up to the front door, thereby taking her from her work. We have a nice little back garden which runs down to the railway.

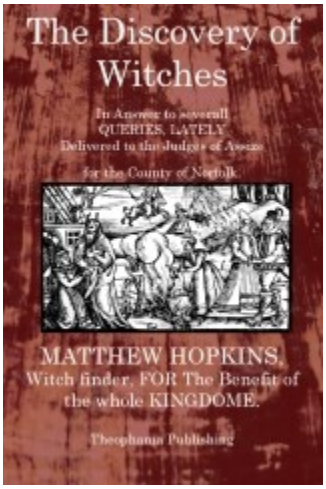
The Diegesis: Being A Discovery Of The Origin, Evidences, And Early History Of Christianity, Never Yet Before Or Elsewhere So Fully And Faithfully Set Forth

By Rev. Robert Taylor

552 Pages, $29.24 USD, ISBN: 147010069X

ON all hands 'tis admitted that the Christian religion is matter of most serious importance: it is so, if it be truth, because in that truth a law of faith and conduct measuring out to us a propriety of sentiment and action, which would otherwise not be incumbent upon us, is propounded to our observance in this life; and eternal consequences of happiness or of misery, are at issue upon our observance or neglect of that law.

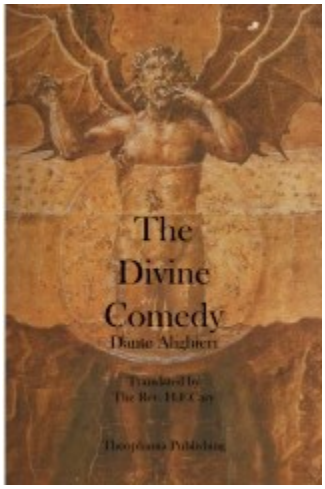


The Discovery of Witches

By Matthew Hopkins

26 Pages, $16.24 USD, ISBN: 1770831371

"Thou shalt not suffer a witch to live." EXOD. 22.18. If the Kingdom of Satan be divided, how can it stand? Matthew Hopkins was repeatedly put to task over his methods of witch hunting, the processes used, the measures he would take to cutting the festering sore out of the side of christendom. But in the end, this thug did little else than to inspire fear for one's neighbor, turning one friend against another, brother against brother, father against son. If the Kingdom of Heaven be divided, it stood for hundreds of years, feasting on its own entrails, seeking the weak and defenseless, condemning with evidence aquired under torturous means, leaving God as the final witness to the crimes against humanity committed in Jesus' name.

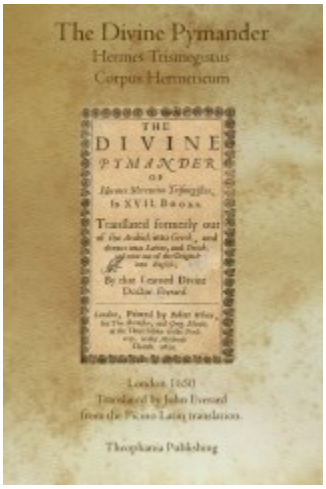


The Divine Comedy

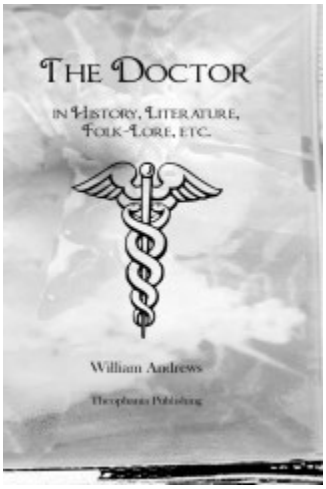
By Dante Alighieri

440 Pages, $25.24 USD, ISBN: 1770830995

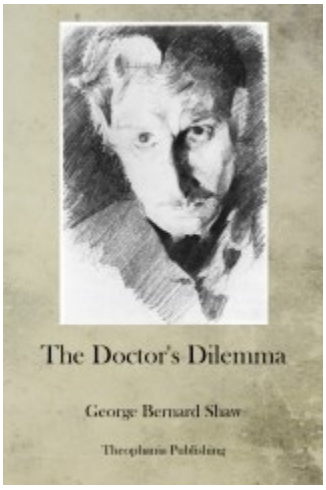
The Divine Comedy is composed of 14,233 lines that are divided into three canticas (Ital. pl. cantiche), Inferno (Hell), Purgatorio (Purgatory), and Paradiso (Paradise), each consisting of 33 cantos (Ital. pl. canti). An initial canto serves as an introduction to the poem and is generally considered to be part of the first cantica, bringing the total number of cantos to 100. The number three is prominent in the work, represented here by the length of each cantica. The verse scheme used, terza rima, is hendecasyllabic (lines of eleven syllables), with the lines composing tercets according to the rhyme scheme aba, bcb, cdc, ded, ...



The Divine Pymander
By John Everard
96 Pages, $16.24 USD, ISBN: 1926842561
The Pymander treatise not only belongs to the most important type of the literature attributed to Hermes Trismegistus but is also the most important document within that type. It constitutes, so to speak, the Ground Gospel of the Hermetic Communities, in the form of a revelation or apocalypse received by the founder of the tradition. That founder, however, is not so much a historical personage as the personification of a teaching-power or grade of spiritual illumination -- in other words, of one who had reached the Hermetic or rather "Thrice-greatest" state of consciousness or enlightenment.



The Doctor in History, Literature, Folk-Lore, etc.
By William Andrews
202 Pages, $16.24 USD, ISBN: 1480140406
In the following pages I have attempted to bring together from the pens of several authors who have written expressly for this book, the more interesting phases of the history, literature, folk-lore, etc., of the medical profession. If the same welcome be given to this work as was accorded to those I have previously produced, my labours will not have been in vain.



The Doctor's Dilemma
By George Bernard Shaw
174 Pages, $18.24 USD, ISBN: 1470087669
It is not the fault of our doctors that the medical service of the community, as at present provided for, is a murderous absurdity. That any sane nation, having observed that you could provide for the supply of bread by giving bakers a pecuniary interest in baking for you, should go on to give a surgeon a pecuniary interest in cutting off your leg, is enough to make one despair of political humanity. But that is precisely what we have done. And the more appalling the mutilation, the more the mutilator is paid. He who corrects the ingrowing toe-nail receives a few shillings: he who cuts your inside out receives hundreds of guineas, except when he does it to a poor person for practice.

The Doctrine of Devils
By N. Orchard

. That the Doctrine here in this Treatise maintained, is not unnecessary, will be easily concluded by all those that are any way concerned in the interest and honour of the blessed Lord Jesus Christ; when they consider how basely is abused, villanously handled, and cruelly mangled; what wounds and bruises, what mutibations, and even decollations, and that in the house of his friends, such at least, as pretend themselves Christians, he hath received: we have no comfort doubtless but by Christ; nor by Christ unless it be by whole Christ, sound Christ: Christ divided, maimed, or mutilated, can do us no good: A bone of him must not be broken: nor may an atomical fragment of him be lost.

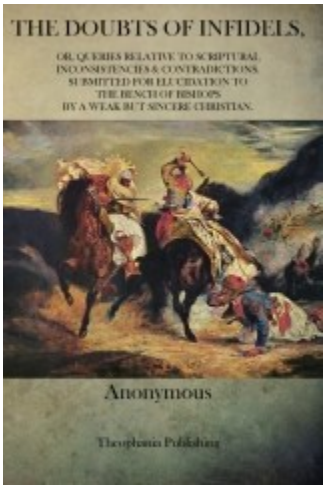
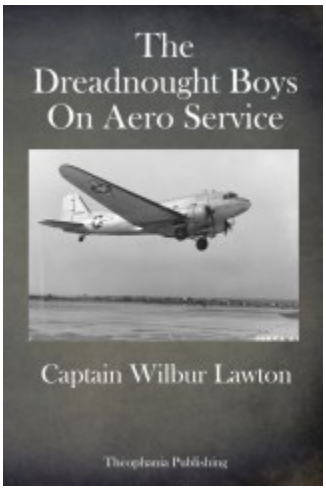
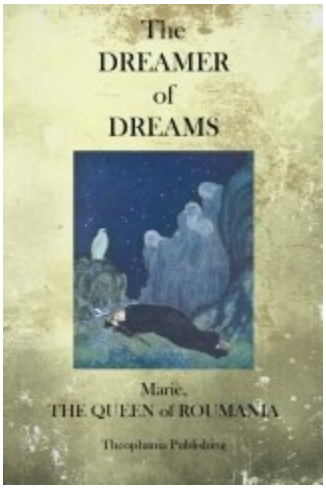
The Dore Lectures On Mental Science
By Thomas Troward
82 Pages, $16.24 USD, ISBN: 1503082997
The addresses contained in this volume were delivered by me at the Dore Gallery, Bond Street, London, on the Sundays of the first three months of the present year, and are now published at the kind request of many of my hearers, hence their title of "The Dore Lectures." A number of separate discourses on a variety of subjects necessarily labours under the disadvantage of want of continuity, and also under that of a liability to the frequent repetition of similar ideas and expressions, and the reader will, I trust, pardon these defects as inherent in the circumstances of the work.



The Doubts Of Infidels: Or, Queries Relative To Scriptural Inconsistencies & Contradictions. Submitted For Elucidation To The Bench Of Bishops
By Anonymous
32 Pages, $16.24 USD, ISBN: 1503082814
Your late zealous exertion against the infidels, in procuring the Sunday Bill to be passed, and prosecutions and pillory against infidel writers and publishers, must have convinced them that you are in earnest in your attempts to propagate and establish our holy faith. An act of parliament is an excellent engine for producing that kind of uniformity of opinions, which consists in holding the tongue; and, however unfair it may be in common transactions to suppress the arguments on one side of any question, yet, in religious matters, even the most cool and charitable must allow, that it is otherwise.



The Dreadnought Boys On Aero Service
By Capt Wilbur Lawton
260 Pages, $20.25 USD, ISBN: 1978488882
One breezy day in early June, when a fresh wind off shore was whipping the water into sparkling white caps, excitement and comment fairly hummed about the crowded foredecks of the big Dreadnought Manhattan. The formidable looking sea-fighter lay with half a dozen other smaller naval vessels—battleships and cruisers—in the stretch of water known as Hampton Roads, which, sheltered by rising ground, has, from time immemorial, formed an anchorage for our fighting-ships, and is as rich in historical associations as any strip of sea within the jurisdiction of the United States. The cause of all the turmoil, which was agitating every jackie on the vessel, was a notice which had been posted on the ship's bulletin board that morning.



The Dreamer of Dreams
By Marie The Queen of Roumania
190 Pages, $18.24 USD, ISBN: 1503082571
The sound of his voice was like spring birds singing of love in green-clad forests, and when the sun shone on his head it was like the haze of a summer's evening over a ripe cornfield. In his eyes slumbered the beautiful peace of mountain lakes, and in his heart there lived the simple trust of a pure soul ... and now Eric Gundian, Eric of the golden locks, Eric the fairy-fingered, Eric the sweet-voiced had lost his wits! One morning he awoke, and no one could understand the meaning of his talk; he declared he had had a dream, and in his dream he had seen two eyes, the eyes he needed for the completing of his picture; and without these eyes he never again could touch either colour or brush.

Pagans as they are, they are the most wealthy and influential inhabitants of that place, and are generally bankers and merchants. The Dweller of the Threshold

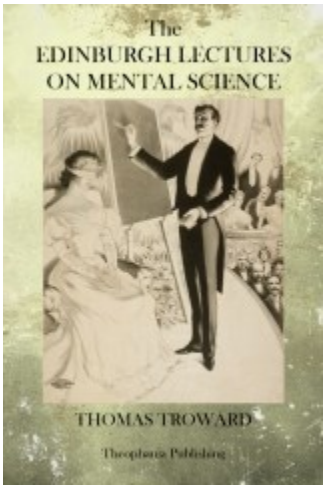
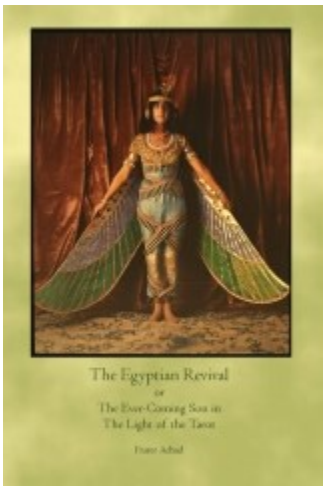
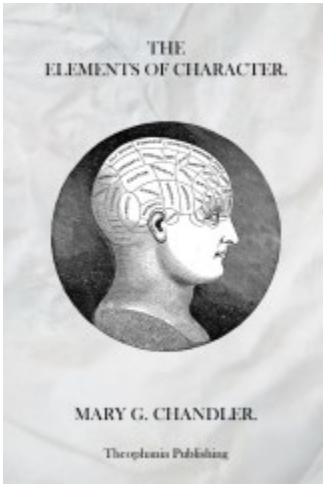
IT WILL perhaps be asked, why in this enlightened century we desire to call attention to *Alchemy*, which, by the majority of mankind, is looked upon as an array of vagaries, extravagancies and superstitions, having been repeatedly *ex cathedra* declared to be such by modern scientific authorities. To those who put implicit faith in the infallibility of modern science we have no apology to offer; but to the unprejudiced investigator we answer that Alchemy — if properly understood — is a science embodying the highest truths which a spiritually enlightened mortal may possibly attain, and that a practical knowledge of them is of the highest importance for his own eternal welfare and for the progression of mankind.



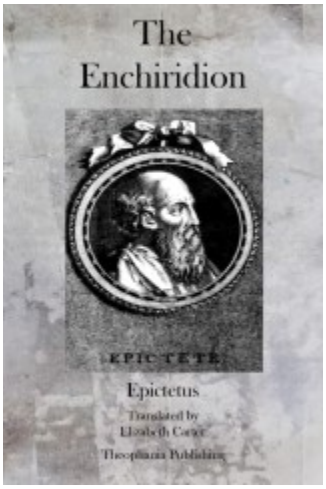
The Edinburgh Lectures on Mental Science
By Thomas Troward
106 Pages, $16.24 USD, ISBN: 1503082490
This book contains the substance of a course of lectures recently given by the writer in the Queen Street Hall, Edinburgh. Its purpose is to indicate the Natural Principles governing the relation between Mental Action and Material Conditions, and thus to afford the student an intelligible starting-point for the practical study of the subject. In commencing a course of lectures on Mental Science, it is somewhat difficult for the lecturer to fix upon the best method of opening the subject. It can be approached from many sides, each with some peculiar advantage of its own; but, after careful deliberation, it appears to me that, for the purpose of the present course, no better starting-point could be selected than the relation between Spirit and Matter.



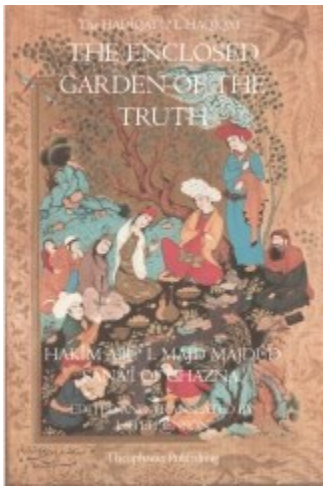
The Egyptian Revival
By Frater Achad
94 Pages, $16.24 USD, ISBN: 1770831584
The Tarot Trumps, being a sort of Universal Alphabet, may of course be interpreted in a variety of ways, but I shall discuss their Symbolism when arranged upon the Paths of the Tree of Life according to the Reformed Astrological Order given in the Appendix to Q.B.L. If by this means we obtain "More Light on the Tarot Trumps" and the Universal Tradition, which transcends what we call Light and Darkness, becomes plainer to my readers, the book will not have been written in vain. Before discussing the matter in detail, I am giving a brief summary dealing with the earliest traditions of Mankind and their effect upon the present day, or the New Aeon, the Cycle of Aquarius, in which we are not living.



The Elements of Character
By Mary G. Chandler
152 Pages, $17.24 USD, ISBN: 1770833307
The weakness and helplessness of humanity, in relation to the fortunes of this life, have been a favorite theme with philosophers and teachers ever since the world began; and every term expressive of all that is uncertain, insubstantial, and unstable has been exhausted in describing the feebleness of man's power to retain in possession the good things of this life, or even life itself. However firmly the hand of man may seem to grasp power, reputation, or wealth; however numerous may be the band of children or friends that surrounds him, he has no certainty that he may not die friendless and a pauper. In fact, the most brilliant success in life seems sometimes to be permitted only that it may make the darkness of succeeding reverses the more profound.



The Enchiridion
By Epictetus
28 Pages, $16.24 USD, ISBN: 1470087529
The things in our control are by nature free, unrestrained, unhindered; but those not in our control are weak, slavish, restrained, belonging to others. Remember, then, that if you suppose that things which are slavish by nature are also free, and that what belongs to others is your own, then you will be hindered. You will lament, you will be disturbed, and you will find fault both with gods and men. But if you suppose that only to be your own which is your own, and what belongs to others such as it really is, then no one will ever compel you or restrain you. Further, you will find fault with no one or accuse no one. You will do nothing against your will. No one will hurt you, you will have no enemies, and you not be harmed.



The Enclosed Garden of Truth

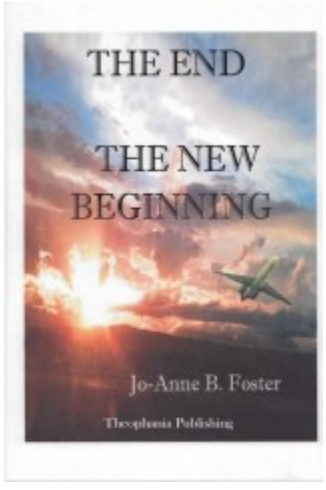
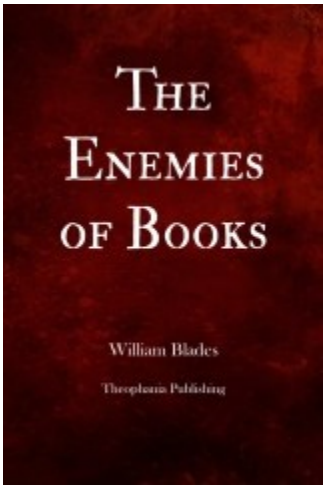
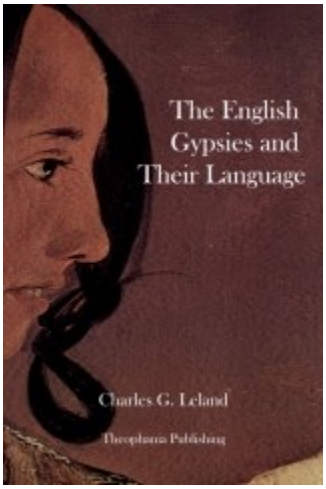
Abû'l-Majd Majdûd b. Adam Sanâ'î was born at Ghazna, and lived in the reign of Bahrâmshâh (A.H. 512 to 548, A.D. 1118 to 1152). Ouseley says of him that he "while yet young became one of the most learned, devout, and excellent men of the age which he adorned. His praise was on every tongue; for, in addition to his accomplishments in the Sufi philosophy, he possessed a kind and benevolent heart, delightful manners, and a fine taste for poetry . . . . Sanâî in early life retired from the world and its enjoyments, and the reason for his doing so is supposed to have arisen from the following circumstance.



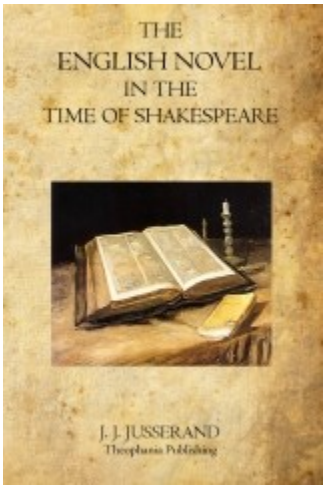
The End The New Beginning
By Jo Anne B. Foster
188 Pages, $18.24 USD, ISBN: 1478363541
I'm a late sleeper. I begin my day close to noon when the sun is shining. If I get up when the rays have burned clouds and fog away I have a chance of cheeriness. Well, that was not going to happen today. The sun was shining all right but I felt unsettled. I stepped out onto the balcony with a steaming cup of coffee hoping to revive myself, but the air felt rather odd. I looked east, west, all around (after all, all odd feelings must be the fault of the weather). No, nothing unusual there, so what was the problem? "I have to quit watching those murder mysteries late at night. It's my imagination!"



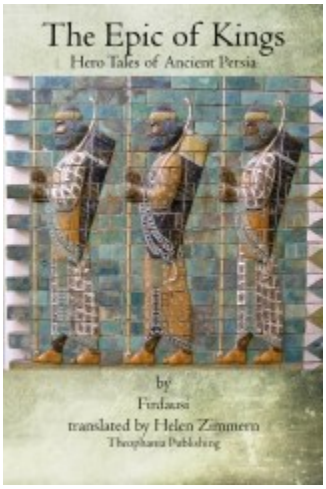
The Enemies Of Books
By William Blades
120 Pages, $16.24 USD, ISBN: 1479183857
THERE are many of the forces of Nature which tend to injure Books; but among them all not one has been half so destructive as Fire. It would be tedious to write out a bare list only of the numerous libraries and bibliographical treasures which, in one way or another, have been seized by the Fire-king as his own. Chance conflagrations, fanatic incendiarism, judicial bonfires, and even household stoves have, time after time, thinned the treasures as well as the rubbish of past ages, until, probably, not one thousandth part of the books that have been are still extant. This destruction cannot, however, be reckoned as all loss; for had not the "cleansing fires" removed mountains of rubbish from our midst, strong destructive measures would have become a necessity from sheer want of space in which to store so many volumes.



The English Gypsies and Their Language
By Charles G. Leland
214 Pages, $19.24 USD, ISBN: 1478229810
As Author of this book, I beg leave to observe that all which is stated in it relative to the customs or peculiarities of Gypsies was gathered directly from Gypsies themselves; and that every word of their language here given, whether in conversations, stories, or sayings, was taken from Gypsy mouths. While entertaining the highest respect for the labours of Mr George Borrow in this field, I have carefully avoided repeating him in the least detail; neither have I taken anything from Simson, Hoyland, or any other writer on the Rommany race in England.



The English Novel In The Time of Shakespeare
By J. J. Jusserand
296 Pages, $22.24 USD, ISBN: 1770832238
In writing of Shakespeare's contemporaries, care has been taken to enable the reader to judge them on their own merits. With this view an effort has been made to illustrate their spirit by what was best in their books, and not necessarily what would recall the master-dramatist's works, and would expose them to the extreme danger of being dwarfed by him beyond desert, and of fading away in his light as moths in the sunshine. Considered from this standpoint, they will not, however, cease to offer some degree of interest to the Shakespearean student, for this process makes us aware not merely of what materials Shakespeare happened to use, but from what stores he chose them.



The Epic of Kings: Hero Tales of Ancient Persia
By Firdausi
286 Pages, $21.24 USD, ISBN: 1468025155
KAIUMERS first sat upon the throne of Persia, and was master of the world. He took up his abode in the mountains, and clad himself and his people in tiger-skins, and from him sprang all kindly nurture and the arts of clothing, till then unknown. Men and beasts from all parts of the earth came to do him homage and receive laws at his hands, and his glory was like to the sun. Then Ahriman the Evil, when he saw how the Shah's honour was increased, waxed envious, and sought to usurp the diadem of the world. So he bade his son, a mighty Deev, gather together an army to go out against Kaiumers and his beloved son Saiamuk and destroy them utterly.

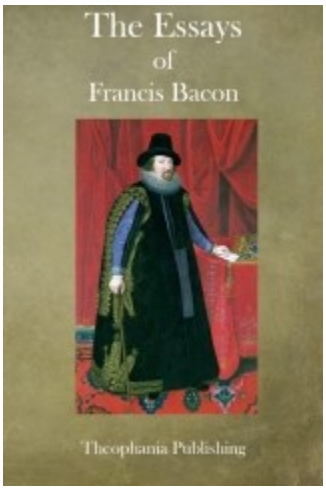
AS for myself I am on friendly terms with philosophers; with sophists however or low clerks or any such other kind of wretches, I am neither on friendly terms now, and Heaven forbid I should ever be so at any later time. Although this does not apply to you, unless indeed you chance to be one of them, the following words do very much apply to you: heal and remedy your passions, and try to be a philosopher, and not to be jealous of those who really are such, for in your case old age is already at hand and death.



The Essays of Francis Bacon
By Francis Bacon
170 Pages, $18.24 USD, ISBN: 1770833315
Francis Bacon, 1st Viscount St Albans, was an English philosopher, statesman, scientist, lawyer, jurist, author and pioneer of the scientific method. He served both as Attorney General and Lord Chancellor of England. Although his political career ended in disgrace, he remained extremely influential through his works, especially as philosophical advocate and practitioner of the scientific method during the scientific revolution. Bacon has been called the father of empiricism. His works established and popularised inductive methodologies for scientific inquiry, often called the Baconian method, or simply the scientific method.

The Essenes
By Thomas de Quincy
78 Pages, $16.24 USD, ISBN: 1470087502
SOME time ago, we published a little essay, that might easily be expanded into a very large volume; and ultimately into a perfectly new philosophy of Roman history, in proof that Rome was self-barbarized—barbarized ab intra, and not by foreign enemies. The evidences of this, 1st, in the death of her literature, and, 2d, in the instant oblivion which swallowed up all public transactions, are so obvious as to challenge notice from the most inattentive reader. For instance, as respects this latter tendency, what case can be more striking, than the fact that Trebellius Pollio, expressly dedicating himself to such researches, and having the state documents at his service, cannot trace, by so much as the merest outline, the biography of some great officers who had worn the purple as rebels, though actually personal friends of his own grand-father?

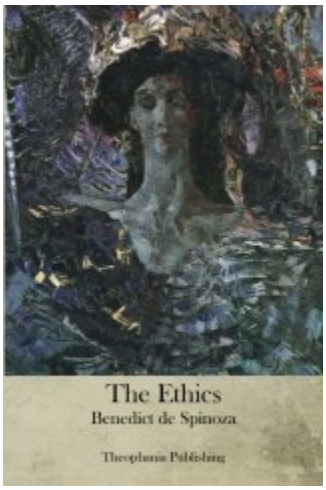
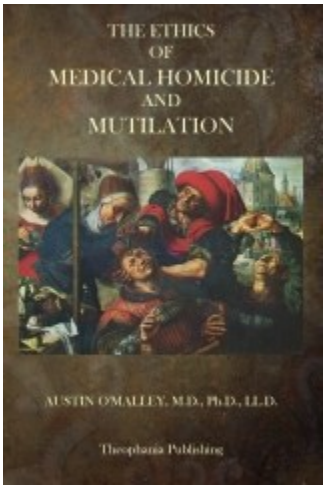
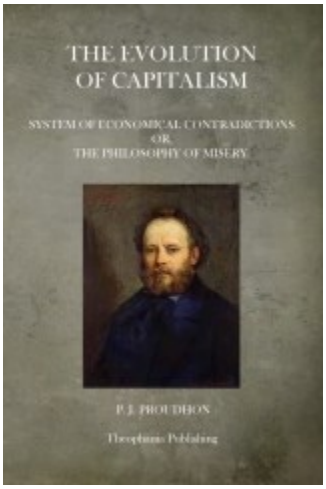
es, that's my bag. I left it at the lace counter. Thank you. Please give it to me. What? I must prove property? Why, don't you see it's mine? That twisty silver monogram on the side is really E. C. S. That's my name, Ella C. Saunders. I told Jim I thought the letters were too wiggly to be easily read, but I never thought anybody'd want to read it but me. Describe contents? Why, of course I can describe the contents! In one pocket is a sample of lace, just Platte Val, you know, not an expensive lace, and with it—I think it's with it—is a sample of rose-colored crêpe de Chine—that is, not exactly rose-colored—sort of crushed plummish or burnt magenta—but no—come to think, I left those samples with my dressmaker.



The Ethics
By Benedict de Spinoza
276 Pages, $21.24 USD, ISBN: 147008743X
The Ethics is a book by the philosopher Benedict de Spinoza. Spinoza's friends published it after his death, in 1677. The work is notable, not only because it presents radically new theories across a range of fields -- metaphysics, theology, psychology, and ethics -- but also for the unusually rigorous approach it takes to defending them. Much of the book is written, in the style of Euclid's Elements of Geometry, as a series of geometrical proofs of numerous philosophical points, accompanied by definitions, axioms, demonstrations, and corollaries, as well as intervening stretches of friendlier prose (scholia).



The Ethics Of Medical Homicide And Mutilation
By Austin O'Malley
306 Pages, $16.24 USD, ISBN: 1503082407
n this book is discussed the morality involved in the ordinary cases of medical homicide and mutilation. Craniotomy has been omitted because this operation on the living child is never morally licit, and when done on the dead fetus it has no moral quality that requires explanation. The articles may seem to be intended for Catholic physicians and spiritual directors alone, but the desire in writing them was to reach all practitioners, to the end that the Natural Law which binds every man may be observed.



The Evolution Of Capitalism: System Of Economical Contradictions Or, The Philosophy Of Misery.

By P. J. Proudhon

528 Pages, $28.24 USD, ISBN: 1503082067

Pierre-Joseph Proudhon was a French politician, mutualist philosopher, economist, and socialist. He was a member of the French Parliament and the first person to call himself an 'anarchist'. He is considered among the most influential theorists and organizers of anarchism. After the events of 1848 he began to call himself a federalist. Proudhon favored workers' associations or co-operatives, as well as individual worker/peasant possession, over private ownership or the nationalization of land and workplaces. He considered that social revolution could be achieved in a peaceful manner.

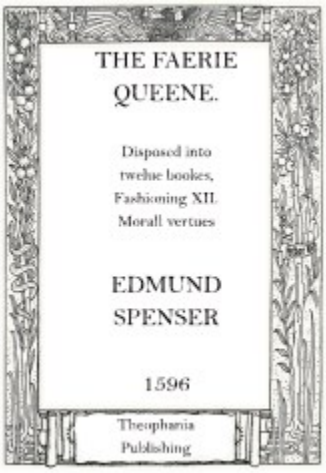
The Factors of Organic Evolution

By Herbert Spencer

126 Pages, $16.25 USD, ISBN: 1979383863

"The Coming of Age of the Origin of Species," remarks concerning the first of these parties as follows:— "One-and-twenty years ago, in spite of the work commenced by Hutton and continued with rare skill and patience by Lyell, the dominant view of the past history of the earth was catastrophic. Great and sudden physical revolutions, wholesale creations and extinctions of living beings, were the ordinary machinery of the geological epic brought into fashion by the misapplied genius of Cuvier. It was gravely maintained and taught that the end of every geological epoch was signalised by a cataclysm, by which every living being on the globe was swept away, to be replaced by a brand-new creation when the world returned to quiescence.

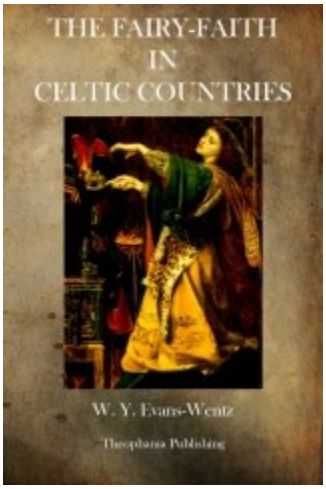


The Faerie Queene

By Edmund Spenser

456 Pages, $30.04 USD, ISBN: 1519323824

The Faerie Queene is an incomplete English epic poem by Edmund Spenser. The first half was published in 1590, and a second installment was published in 1596. The Faerie Queene is notable for its form: it is one of the longest poems in the English language and the origin of a verse form that came to be known as Spenserian stanza. It is an allegorical work, and can be read (as Spenser presumably intended) on several levels of allegory, including as praise of Queen Elizabeth I. In a completely allegorical context, the poem follows several knights in an examination of several virtues.



The Fairy Faith in Celtic Countries

By W. Y. Evans Wentz

414 Pages, $25.24 USD, ISBN: 1770832750

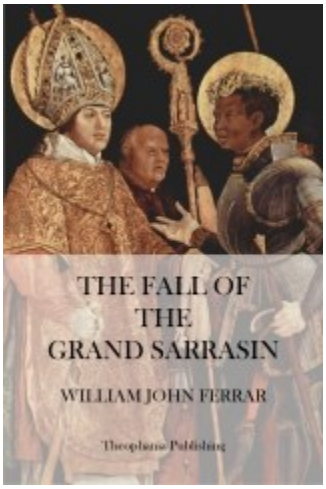
This book depends chiefly upon the oral and written testimony so freely contributed by its many Celtic authors, The Peasant and the Scholar, the Priest and the Scientist, The Poet and the Business Man, the Seer and the Non Seer, and in honour of them I dedicate it to two of the Brethren in Ireland A.E. whose unwavering loyalty to the Fairy-Faith has inspired much that I have herein written, whose friendly guidance in my study of Irish mysticism I most gratefully acknowledge; and William Butler Yeats, who brought me at my own Alma Mater in California the first message from Fairyland, and who afterwards in his own country led me through the haunts of Fairy Kings and Queens.

The Fairy Land of Science

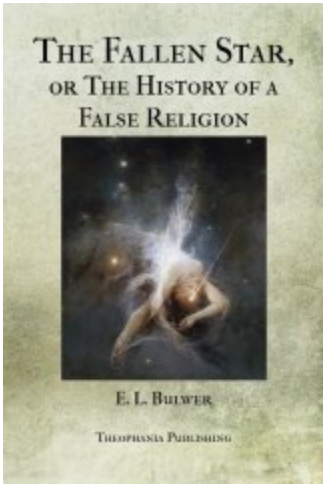
By Arabella B. Buckley

196 Pages, $19.24 USD, ISBN: 1468024930

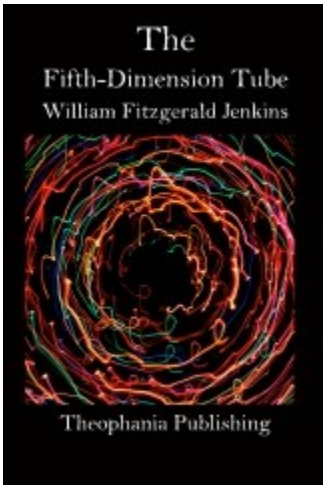
I HAVE promised to introduce you today to the fairy land of science, a somewhat bold promise, seeing that most of you probably look upon science as a bundle of dry facts, while fairy land is all that is beautiful, and full of poetry and imagination. But I thoroughly believe myself, and hope to prove to you, that science is full of beautiful pictures, of real poetry, and of wonder working fairies; and what is more, I promise you they shall be true fairies, whom you will love just as much when you are old and greyheaded as when you are young; for you will be able to call them up wherever you wander by land or by sea, through meadow or through wood, through water or through air; and though they themselves will always remain invisible, yet you will see their wonderful poet at work everywhere around you.



The Fall of the Grand Sarrasin
By William John Ferrar
124 Pages, $16.24 USD, ISBN: 1470087316
Some people bring home a bundle of sketches from their summer holiday—water-colour memories of cliff, of sea, ruined castle, and ancient abbey. I brought back from the Channel Islands these pages here printed, as a kind of bundle of sketches in black and white, put together day by day as a holiday-task, and forming a string, as it were, on which the memories of ramble after ramble were threaded, rambles from end to end of Guernsey, and rambles, too, among the treasures of the Guille-Allés Library. I enjoyed my holiday all the better, as I peopled the cliffs and glens with the shadows of eight hundred years ago, and I hope that others may find some reality and some pleasure in the result as it is given here.

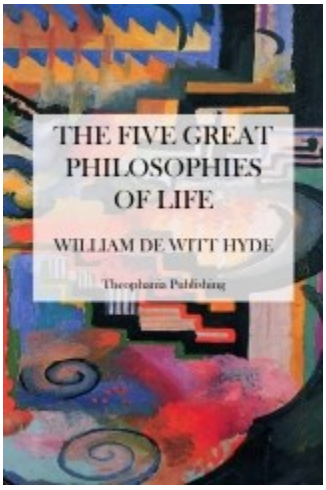


The Fallen Star, or The History of a False Religion
By E L Bulwer
69 Pages, $16.24 USD, ISBN: 1475257252
RELIGION, says Noah Webster in his American Dictionary of the English Language, is derived from "Religo, to bind anew;" and, in this History of a False Religion, our author has shown how easily its votaries were insnared, deceived, and mentally bound in a labyrinth of falsehood and error, by a designing knave, who established a new religion and a new order of priesthood by imposing on their ignorance and credulity. The history of the origin of one supernatural religion will, with slight alterations, serve to describe them all. Their claim to credence rests on the exhibition of so-called miracles...

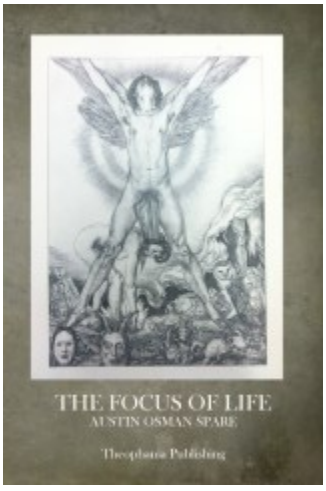


The Fifth-Dimension Tube
By William Fitzgerald Jenkins
126 Pages, $16.24 USD, ISBN: 1519323891
THE generator rumbled and roared, building up to its maximum speed. The whole laboratory quivered from its vibration. The dynamo hummed and whined and the night silence outside seemed to make the noises within more deafening. Tommy Reames ran his eyes again over the power-leads to the monstrous, misshapen coils. Professor Denham bent over one of them, straightened, and nodded. Tommy Reames nodded to Evelyn, and she threw the heavy multiple-pole switch. There was a flash of jumping current. The masses of metal on the floor seemed to leap into ungainly life. The whine of the dynamo rose to a scream and its brushes streaked blue flame. The metal things on the floor flicked together and were a tube, three feet and more in diameter.

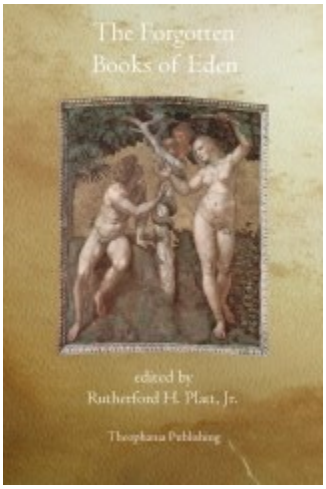
The Finding of Haldgren
By Charles Willard Diffin
144 Pages, $17.24 USD, ISBN: 1519333447
The venerable President of the Federation Aeronautique Internationale had been speaking. He paused now to look out over the sea of faces that filled the great hall in serried waves. He half turned that he might let his eyes pass over the massed company on the platform with him. The Stratosphere Control Board—and they had called in their representatives from the far corners of Earth to hear the memorable words of this aged man. From the waiting audience came no slightest sound; the men and women were as silent as that other audience listening and watching in every hamlet of the world, wherever radio and television reached.



The Five Great Philosophies of Life
By William De Witt Hyde
200 Pages, $19.24 USD, ISBN: 1475036876
When asked why some men with moderate talents and meagre technical equipment succeed, where others with greater ability and better preparation fail; why some women with plain features and few accomplishments charm, while others with all the advantages of beauty and cultivation repel, we are wont to conceal our ignorance behind the vague term personality. Undoubtedly the deeper springs of personality are below the threshold of consciousness, in hereditary traits and early training. Still some of the higher elements of personality rise above this threshold, are reducible to philosophical principles, and amenable to rational control.



The Focus of Life
By Austin Osman Spare
68 Pages, $32.99 USD, ISBN: 1503082008
I bring a sword that contains its own medicine: The sour milk that cureth the body. Prepare to meet God, the omnifarious believing,-Thyself the living truth. Die not to spare, but that the world may perish. Nature is more atrocious. Learning all things from Thee in the most sinister way for representation: from thy thought to become thereafter. Having suffered pleasure and pain, gladly dost thou deny the things of existence for freedom of desire-from this sorry mess of inequality-once so desired. And is fear of desire. The addition of the 'I' of a greater illusion. Desire is the conception I and induces Thou.



The Forgotten Books of Eden

By Rutherford H. Platt, Jr.

398 Pages, $20.24 USD, ISBN: 1770831398

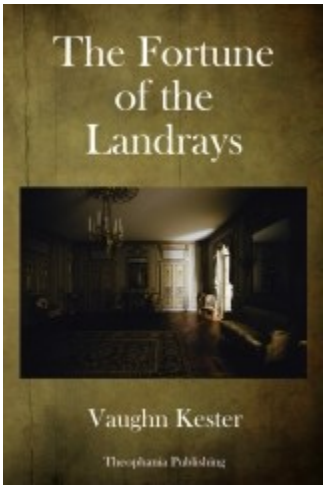
So for centuries among the Jews, writers sought to shelter themselves behind the names of the great dead. In this they were guilty of no fraud. They imagined what Solomon or Enoch would say, or sing, upon a particular theme under given circumstances. It was not really they themselves, but their Solomon, their Enoch, Solomon or Enoch in them, who uttered the new prophesies or temple praises. Thus arose that body of literature, called by modern scholars, "Pseudepigrapha," that is, writings erroneously, unhistorically, and yet sincerely, ascribed to heroic figures summed from the vasty deep by a self-denying imagination, eager to alter man's belief and custom, to interpret his hope and sorrow, without personal gain or fame, and also, may one add, without the deterrent of persecution to arrest free utterance!

The Forgotten Planet

By Murray Leinster

236 Pages, $20.24 USD, ISBN: 151933267X

NATURE'S MISLEAD MADHOUSE! Beneath dense gray clouds through which no sun shone lay a forgotten planet. It was a nightmare world of grotesque and terrifying animal-plant life. Gigantic beetles, spiders, bugs and ants filled the putrid, musty earth—ready to kill and devour anything in sight. There were men amidst this horror—men who cringed and ran from the ravening monsters and huddled in the mushroom forests at night. Burl was one of these creatures. But one day inspiration hit Burl. He would find a weapon—he would fight back. And with this idea the first step was taken in man's most desperate flight for freedom in this most horrible of all worlds. But it was only a first step.

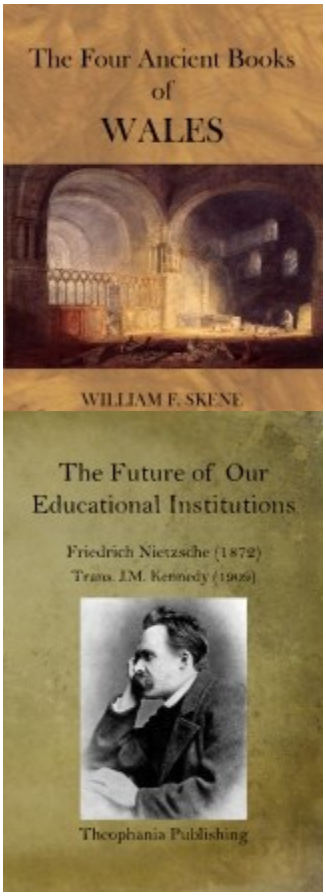


The Fortune of the Landrays

By Vaughn Kester

734 Pages, $35.25 USD, ISBN: 1979104034

THE boy on the box was surfeited with travel. Glancing back over the swaying top of the coach, he had seen miles upon miles of hot dusty road, between banked-up masses of forests or cultivated fields, dwindle to a narrow thread of yellow. Day after day there had been the same tiresome repetition of noisy towns and sleepy cross-road villages, each one very like the other and all having a widely different appearance from that which he conceived Benson would present. The wonderful life of the road, varied and picturesque, no longer claimed his attention.



The Four Ancient Books of WALES

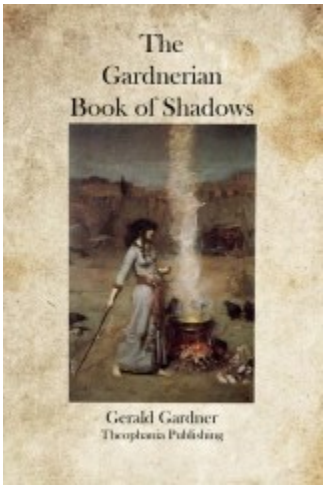
Theophania Publishing

The Four Ancient Books of Wales
By William F. Skene
560 Pages, $29.24 USD, ISBN: 1470087308

THE dissolution of the religious houses in Wales in the reign of Henry the Eighth, and the dispersion of their libraries, led to many Welsh MSS., which had been preserved in them, passing into the hands of private individuals; and collections of Welsh MSS. soon began to be formed by persons who took an interest in the history and literature of their country.

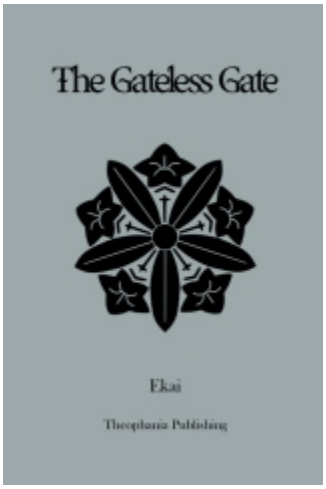
The Future of our Educational Institutions
By Friedrich Nietzsche
130 Pages, $17.24 USD, ISBN: 1519294549

Ladies and Gentlemen,—The subject I now propose to consider with you is such a serious and important one, and is in a sense so disquieting, that, like you, I would gladly turn to any one who could proffer some information concerning it,—were he ever so young, were his ideas ever so improbable—provided that he were able, by the exercise of his own faculties, to furnish some satisfactory and sufficient explanation. It is just possible that he may have had the opportunity of hearing sound views expressed in reference to the vexed question of the future of our educational institutions, and that he may wish to repeat them to you; he may even have had distinguished teachers, fully qualified to foretell what is to come, and, like the haruspices of Rome, able to do so after an inspection of the entrails of the Present.

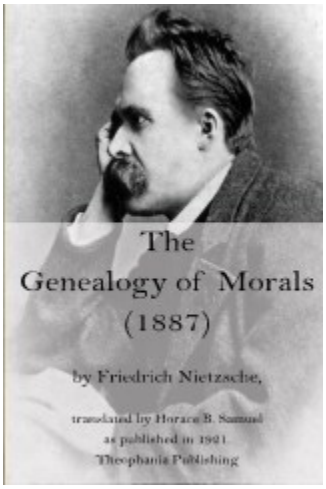


The Gardnerian Book of Shadows
By Gerald Gardner
122 Pages, $25.24 USD, ISBN: 1770830308

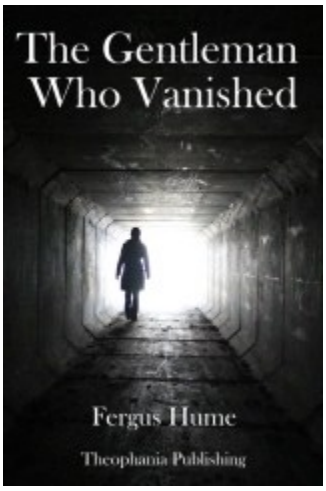
Wicca is a Neopagan religion and a form of modern witchcraft. It is often referred to as Witchcraft or the Craft by its adherents, who are known as Wiccans or Witches. Its disputed origins lie in England in the early 20th century, though it was first popularised during the 1950s by Gerald Gardner, a retired British civil servant, who at the time called it the "witch cult" and "witchcraft", and its adherents "the Wica". From the 1960s the name of the religion was normalised to "Wicca". Wicca is typically a duotheistic religion, worshipping a Goddess and a God, who are traditionally viewed as the Triple Goddess and Horned God. These two deities are often viewed as being facets of a greater pantheistic Godhead, and as manifesting themselves as various polytheistic deities.



The Gateless Gate
By Ekai
62 Pages, $16.24 USD, ISBN: 1479146307
This classic Zen Buddhist collection of 49 koans with commentary by Mumon was originally published in 1934, and later included in Paul Reps and Nyogen Senzaki's popular anthology Zen Flesh, Zen Bones. Due to non-renewal it is currently in the public domain in the US (although other parts of Zen Flesh, Zen Bones are not).



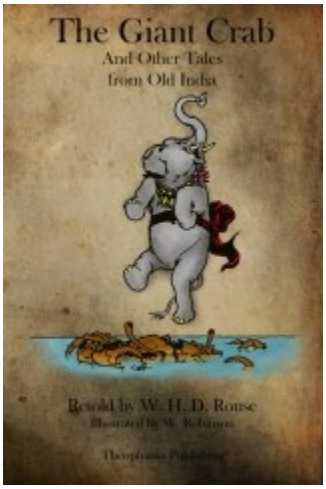
The Genealogy of Morals
By Friedrich Nietzsche
224 Pages, $19.24 USD, ISBN: 1519305656
WE are unknown, we knowers, ourselves to ourselves: this has its own good reason. We have never searched for ourselves—how should it then come to pass, that we should ever find ourselves? Rightly has it been said: "Where your treasure is, there will your heart be also." Our treasure is there, where stand the hives of our knowledge. It is to those hives that we are always striving; as born creatures of flight, and as the honey-gatherers of the spirit, we care really in our hearts only for one thing—to bring something "home to the hive!" As far as the rest of life with its so-called "experiences" is concerned, which of us has even sufficient serious interest? or sufficient time?



The Gentleman Who Vanished
By Fergus Hume
174 Pages, $18.25 USD, ISBN: 1981812768
It was an oppressively hot night towards the end of June, and the heavy still atmosphere surcharged with electricity was full of premonitions of storm. Here in London the glare and glitter of myriad lamps seemed to be crushed down by a lowering sky, in which the stars were almost hidden by great masses of sombre clouds. Every now and then a thin thread of lightning flashed ghost-like through the murky air and the low hoarse roll of the thunder which followed, seemed to warn mankind that Nature was in one of her angry moods.

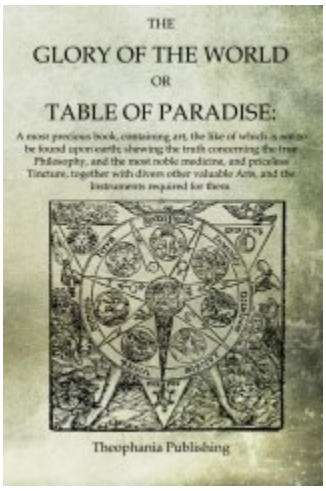
The Ghosts, and other lectures
By Robert Green Ingersoll
150 Pages, $17.24 USD, ISBN: 1468025007

These lectures have been so maimed and mutilated by orthodox malice; have been made to appear so halt, crutched and decrepit by those who mistake the pleasures of calumny for the duties of religion, that in simple justice to myself I concluded to publish them. Most of the clergy are, or seem to be, utterly incapable of discussing anything in a fair and catholic spirit. They appeal, not to reason, but to prejudice; not to facts, but to passages of scripture. They can conceive of no goodness, of no spiritual exaltation beyond the horizon of their creed.



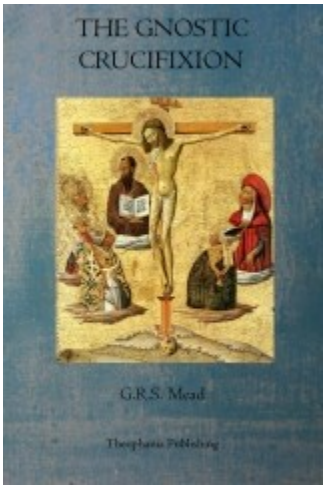
The Giant Crab And Other Tales from Old India
By W.H.D. Rouse
106 Pages, $16.24 USD, ISBN: 1770833323

I hope no one will imagine this to be a scientific book. It is meant to amuse children; and if it succeeds in this, its aim will be hit. Thus the stories here given, although grounded upon the great Buddhist collection named below, have been ruthlessly altered wherever this would better suit them for the purpose in view; and probably some of them Buddha himself would fail to recognise. My thanks are due to the Syndics of the Cambridge University Press for permitting the use of their translation of the Jataka Book; from which comes the groundwork of the stories, and occasionally a phrase or a versicle is borrowed.



The Glory of the World, or Table of Paradise
By Arthur Edward Waite
186 Pages, $18.24 USD, ISBN: 1468024973

NOW, in the name of God, the Almighty Creator and Preserver of this World, I venture to shew forth the hidden mysteries of Nature, which God has planted there, and deigns to reveal to men, that they may see how marvellously things are created, and how wonderfully all classes of natural objects are brought forth: for a testimony to all believing Christian men, and for a comfort to all afflicted and troubled hearts—seeing that all things created perish and are decomposed only to be renewed again, to be multiplied, animated, and perfected after their kind. For nothing that is created, or born, is at rest, but daily undergoes increase or multiplication on the part of Nature, until it becomes that which is created and ordained to be the treasure of all mankind.

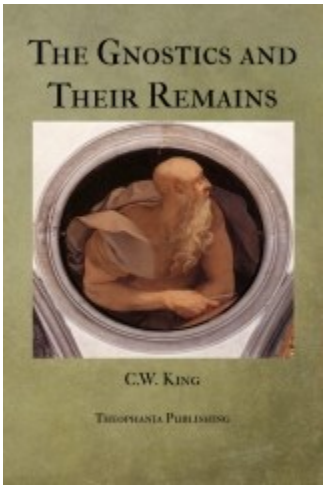


The Gnostic Crucifixion

By G.R.S. Mead

58 Pages, $16.24 USD, ISBN: 177083141X

The Gnostic Mystery of the Crucifixion is most clearly set forth in the new-found fragments of The Acts of John, and follows immediately on the Sacred Dance and Ritual of Initiation which we endeavoured to elucidate in Vol. IV. of these little books, in treating of The Hymn of Jesus. The reader is, therefore, referred to the “Preamble” of that volume for a short introduction concerning the nature of the Gnostic Acts in general and of the Leucian Acts of John in particular. I would, however, add a point of interest bearing on the date which was forgotten, though I have frequently remarked upon it when lecturing on the subject.



The Gnostics and Their Remains

By C W King

564 Pages, $30.24 USD, ISBN: 1475257260

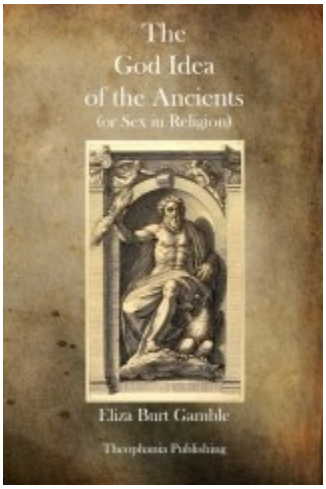
WHEN this work first appeared, three-and-twenty years ago, it became at once an object of unmerited abuse, and of equally unmerited praise. Small divines mistaking it for an insidious attempt to overthrow opinions "as by law established," spurted at it with pens dipped in the milk of the Gospel; whilst, under the very same hallucination, "Friends of Light" lauded it to the skies--either party equally ignorant both of the subject, and of the purpose of my labours. One noted Zoilus (whose recollections of Homer would seem to be of the same deeply-marked nature as Ensign Blifil's) is disgusted at my citing "Aidoneus" as a title of the God of the Shades...

The Goal of Life: Science and Revelation

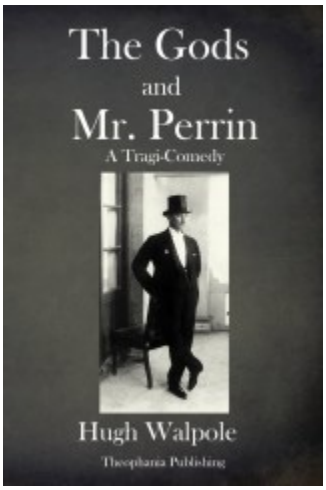
By H. E. Butler

222 Pages, $20.24 USD, ISBN: 1770830820

The facts in nature are the foundation out of which all consciousness and knowledge grow. Science is the outgrowth of these facts through careful investigation and study. Revelation is facts derived from the inner consciousness, intuition, which is allied to the cause world and is cognizant of the mind from which it originated, or from messengers (angels) from God. Revelation united with science gives a substantial foundation for philosophy and theology, which are the proper outgrowth of SCIENCE AND REVELATION. Philosophy is the mathematics of reason applied.

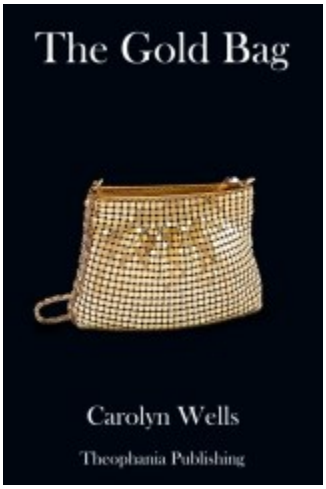


The God Idea of the Ancients
By Eliza Burt Gamble
298 Pages, $22.24 USD, ISBN: 1770833331
Much of the material for this volume was collected during the time that I was preparing for the press the Evolution of Woman, or while searching for data bearing on the subject of sex specialization. While preparing that book for publication, it was my intention to include within it this branch of my investigation, but wishing to obtain certain facts relative to the foundations of religious belief and worship which were not accessible at that time, and knowing that considerable labor and patience would be required in securing these facts, I decided to publish the first part of the work, withholding for the time being that portion of it pertaining especially to the development of the God idea.

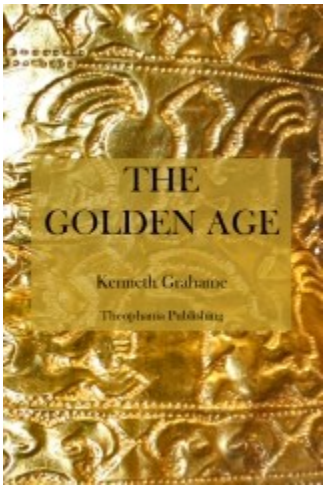


The Gods and Mr Perrin: A Tragi-Comedy
By Hugh Walpole
358 Pages, $23.25 USD, ISBN: 197910574X
VINCENT PERRIN said to himself again and again as he climbed the hill: "It shall be all right this term"—and then, "It shall be"—and then, "This term." A cold wintry sun watched him from above the brown shaggy wood on the horizon; the sky was a pale and watery blue, and on its surface white clouds edged with gray lay like saucers. A little wind sighed and struggled amongst the hedges, because Mr Perrin had nearly reached the top of the hill, and there was always a breeze there. He stopped for a moment and looked back. The hill on which he was stood straight out from the surrounding country; it was shaped like a sugar-loaf, and the red-brown earth of its fields seemed to catch the red light of the sun; behind it was green, undulating country, in front of it the blue, vast sweep of the sea.

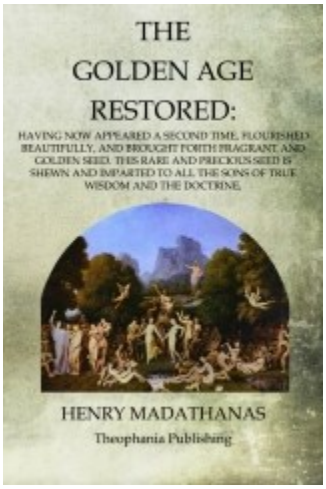
The Gods of Pegana
By Lord Dunsany
76 Pages, $16.24 USD, ISBN: 1503081885
In the mists before THE BEGINNING, Fate and Chance cast lots to decide whose the Game should be; and he that won strode through the mists to MANA-YOOD-SUSHAI and said: 'Now make gods for Me, for I have won the cast and the Game is to be Mine.' Who it was that won the cast, and whether it was Fate or whether Chance that went through the mists before THE BEGINNING to MANA-YOOD-SUSHAI—'none knoweth.



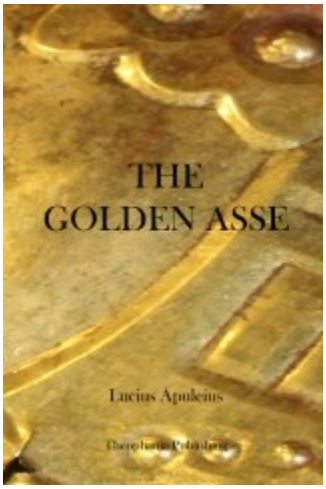
The Gold Bag
By Carolyn Wells
370 Pages, $24.25 USD, ISBN: 1981677933
Though a young detective, I am not entirely an inexperienced one, and I have several fairly successful investigations to my credit on the records of the Central Office. The Chief said to me one day: “Burroughs, if there’s a mystery to be unravelled; I’d rather put it in your hands than to trust it to any other man on the force. “Because,” he went on, “you go about it scientifically, and you never jump at conclusions, or accept them, until they’re indubitably warranted.”



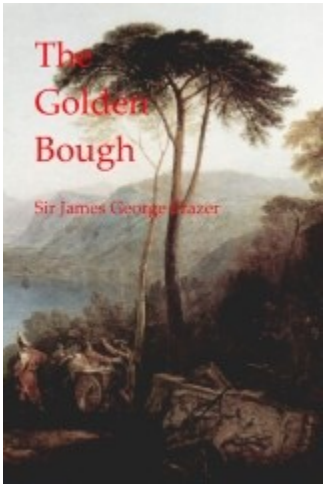
The Golden Age
By Kenneth Grahame
156 Pages, $17.24 USD, ISBN: 1475012152
Looking back to those days of old, ere the gate shut behind me, I can see now that to children with a proper equipment of parents these things would have worn a different aspect. But to those whose nearest were aunts and uncles, a special attitude of mind may be allowed. They treated us, indeed, with kindness enough as to the needs of the flesh, but after that with indifference (an indifference, as I recognise, the result of a certain stupidity), and therewith the commonplace conviction that your child is merely animal.



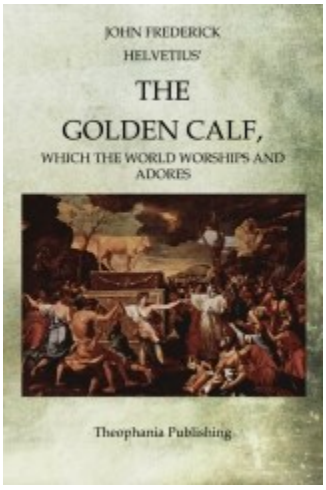
The Golden Age Restored
By Henry Madathanas
38 Pages, $17.24 USD, ISBN: 1468026445
Almighty God, in answer to my daily prayers, opened my eyes by the light of His Holy Spirit (Who was sent us through Christ by the Father, and from Whom we receive all wisdom), and enabled me to discover the True Centre in the Centre of the Triangle and the one true Matter of the precious Philosopher's Stone, so that I now hold it in my hands; but it took me five years longer to discover how the blood of the Red Lion and the glue of the White Eagle were to be extracted, and how these were to be mixed in their natural proportions, enclosed, sealed, and committed to the secret fire. Nor did I even then find the arcanum without constant and untiring application.



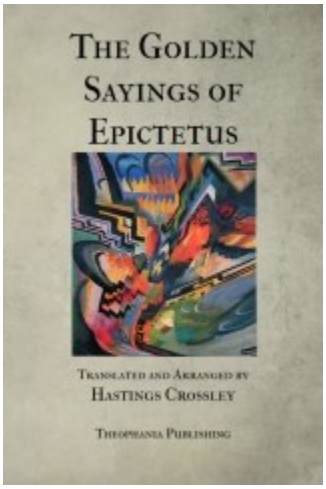
The Golden Asse
By Lucius Apuleius
234 Pages, $20.24 USD, ISBN: 1475012209
LUCIUS APULEIUS African, an excellent follower of Plato his sect, born in Madaura, a Countrey sometime inhabited by the Romans, and under the jurisdiction of Syphax, scituate and lying on the borders of Numidia and Getulia, whereby he calleth himself half a Numidian and half a Getulian: and Sidonius named him the Platonian Madaurence: his father called Theseus had passed all offices of dignity in his countrey with much honour. His mother named Salvia was of such excellent vertue, that she passed all the Dames of her time, borne of an ancient house, and descended from the philosopher Plutarch, and Sextus his nephew. His wife called Prudentila was endowed with as much vertue and riches as any woman might be. Hee himselfe was of an high and comely stature, gray eyed, his haire yellow, and a beautiful personage.



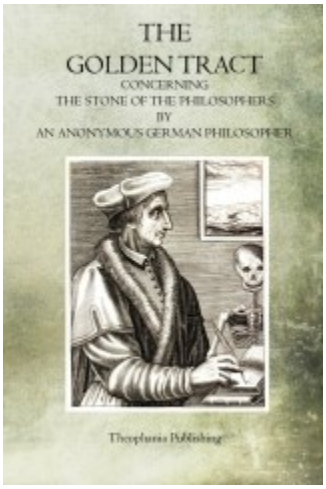
The Golden Bough
By Sir James George Frazer
746 Pages, $35.24 USD, ISBN: 1926842588
. The Golden Bough: A Study in Magic and Religion is a wide-ranging, comparative study of mythology and religion, written by Scottish anthropologist Sir James George Frazer (1854-1941). It first was published in two volumes in 1890; the third edition, published 1906-15, comprised twelve volumes. It was aimed at a broad literate audience raised on tales as told in such publications as Thomas Bulfinch's The Age of Fable, or Stories of Gods and Heroes (1855). It offered a modernist approach to discussing religion, treating it dispassionately as a cultural phenomenon rather than from a theological perspective. The impact of The Golden Bough on contemporary European literature was substantial.



The Golden Calf: Which the World Worships and Adores
By John Frederick Helvetius
60 Pages, $16.24 USD, ISBN: 1468026488
neither can nor will withhold from my honoured and beloved friends the knowledge of this Spagyric Art, and of the most precious and miraculous Arcanum, which I have not only seen with my own eyes, but also executed with my own hands, by changing a mass of lead into solid gold, persistently resisting any test of fire, through the addition of a small particle of our transmutatory powder. It can no longer be pretended that our Art does not possess the power which it claims, or that the Mercury of the Sages is not the great and glorious fountain of all natural marvels.



The Golden Sayings of Epictetus
By Epictetus
92 Pages, $16.24 USD, ISBN: 147525735X
Are these the only works of Providence within us? What words suffice to praise or set them forth? Had we but understanding, should we ever cease hymning and blessing the Divine Power, both openly and in secret, and telling of His gracious gifts? Whether digging or ploughing or eating, should we not sing the hymn to God:— Great is God, for that He hath given us such instruments to till the ground withal: Great is God, for that He hath given us hands and the power of swallowing and digesting; of unconsciously growing and breathing while we sleep!



The Golden Tract: Concerning the Stone of the Philosophers
By Anonymous German Philosopher
96 Pages, $17.24 USD, ISBN: 1468026542
WORTHY reader, and true enquirer into the secrets of nature, marvel not that in the old age of this world, when it seems to have one foot already in the grave, I have determined to write this tract, although all libraries ale already full of books on this subject—of which, however, the greater part are false, and wear merely the rouge and powder of philosophy. I have written it not for my own pleasure, but for your advantage, that, by pointing to the foundation of truth, I might lead you back from the pathless wilderness into the right way—which is certainly for your own interest.

The Gothic History of Jordanes
By Jordanes
118 Pages, $16.24 USD, ISBN: 1503079791
Jordanes, as he himself tells us a couple of times, was of Gothic descent and wrote this work as a summary of Cassiodorus' much longer treatment of the history of the Goths. Because Cassiodorus' book no longer survives, Jordanes' treatment is often our only source for some of the Gothic history it describes. He wrote the Getica during the later stages of the reign of Justinian, not too long after the demise of the Ostrogothic kingdom in Italy. Jordanes divided his work, apart from the brief introduction and conclusion, into four main sections...

The Grand Inquisitor
By Feodor Dostoevsky
46 Pages, $16.24 USD, ISBN: 1503080617
The following is an extract from M. Dostoevsky's celebrated novel, The Brothers Karamazof, the last publication from the pen of the great Russian novelist, who died a few months ago, just as the concluding chapters appeared in print. Dostoevsky is beginning to be recognized as one of the ablest and profoundest among Russian writers. His characters are invariably typical portraits drawn from various classes of Russian society, strikingly life-like and realistic to the highest degree. The following extract is a cutting satire on modern theology generally and the Roman Catholic religion in particular. The idea is that Christ revisits earth, coming to Spain at the period of the Inquisition, and is at once arrested as a heretic by the Grand Inquisitor.

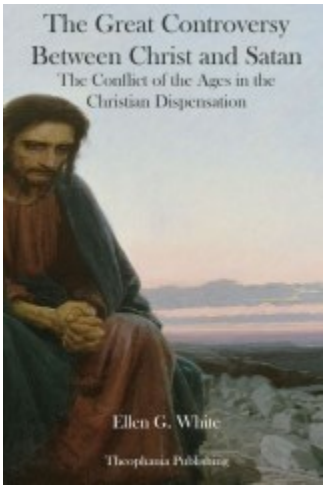
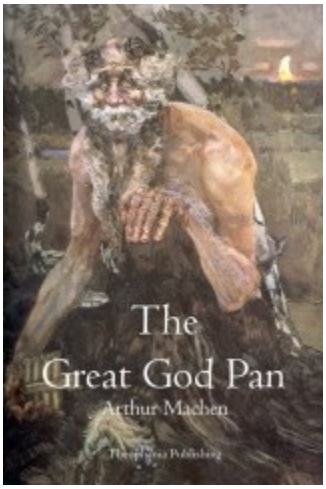
The Great Conspiracy: Its Origin and History
By John Logan
672 Pages, $33.24 USD, ISBN: 1503080749
To properly understand the condition of things preceding the great war of the Rebellion, and the causes underlying that condition and the war itself, we must glance backward through the history of the Country to, and even beyond, that memorable 30th of November, 1782, when the Independence of the United States of America was at last conceded by Great Britain. At that time the population of the United States was about 2,500,000 free whites and some 500,000 black slaves. We had gained our Independence of the Mother Country, but she had left fastened upon us the curse of Slavery.



The Great Controversy Between Christ and Satan
By Ellen G. White
750 Pages, $35.24 USD, ISBN: 1478256575
This book, reader, is not published to tell us that there is sin and woe and misery in this world. We know it all too well. This book is not published to tell us that there is an irreconcilable controversy between darkness and light, sin and righteousness, wrong and right, death and life. In our heart of hearts we know it, and know that we are participators, actors, in the conflict. But to every one of us comes at times a longing to know more of the great controversy. How did the controversy begin? or was it always here? What elements enter into its awfully complex aspect? How am I related to it? What is my responsibility? I find myself in this world by no choice of my own. Does that mean to me evil or good?



The Great God Pan

By Arthur Machen

66 Pages, $16.24 USD, ISBN: 1770831029

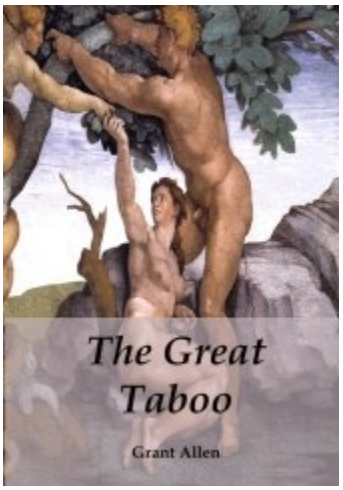
ET DIABOLUS INCARNATE EST. ET HOMO FACTUS EST. A woman in Wales has her mind destroyed by a scientist's attempt to enable her to see the god of nature Pan. Years later, a young woman named Helen Vaughan arrives in the London social scene, disturbing many young men and causing some to commit suicide; it transpires that she is the monstrous offspring of the god Pan and the woman in the experiment. "The Great God Pan" is a novella written by Arthur Machen. A version of the story was published in the magazine Whirlwind in 1890, and Machen revised and extended it for its book publication (together with another story, "The Inmost Light") in 1894.

The Great Instauration

By Francis Bacon

32 Pages, $16.24 USD, ISBN: 177083334X

Being convinced that the human intellect makes its own difficulties, not using the true helps which are at man's disposal soberly and judiciously whence follows manifold ignorance of things, and by reason of that ignorance mischiefs innumerable ; he thought all trial should be made, whether that commerce between the mind of man and the nature of things, which is more precious than anything on earth, or at least than anything that is of the earth, might by any means be restored to its perfect and original condition, or if that may not be, yet reduced to a better condition than that in which it now is.



The Great Taboo

By Grant Allen

220 Pages, $19.07 USD, ISBN: 1478392541

He looked around him on the seething sea in a sudden awakening, as it were, to life and consciousness. All about, the great water stretched dark and tumultuous. White breakers surged over him. Far ahead the steamer's lights gleamed red and green in long lines upon the ocean. At first they ran fast; then they slackened somewhat. She was surely slowing now; they must be reversing engines and trying to stop her. They would put out a boat. But what hope, what chance of rescue by night, in such a wild waste of waves as that? And Muriel Ellis was clinging to him for dear life all the while, with the despairing clutch of a half-drowned woman!

The Grey Friars in Oxford
By Andrew G. Little
430 Pages, $26.24 USD, ISBN: 1503081354
The object of this work is to give an account of the outward life of the Franciscans. This might be fairly taken to include the whole activity of the friars with the exception of their contribution to scholastic philosophy; for that clearly forms a subject by itself. But even with this limitation the account here given of the Franciscans' work does not pretend to be complete. The documents which remain to us do not by any means cover the whole of the active life of the Franciscans. While for the thirteenth century and the Dissolution the records are fairly numerous, the materials for the intervening period are very scanty. Thus any attempt at a chronological narrative was out of the question.

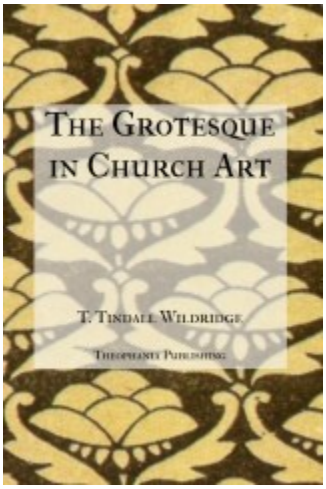
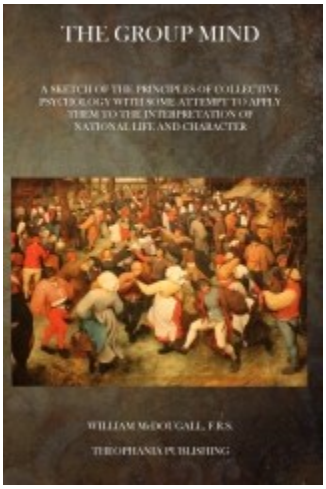
The Grotesque Alphabet of Jan Chris
By Jan Christian Bierpfaff
52 Pages, $12.99 USD, ISBN: B0CPTVQ6ZN (8.5 x 11")
The Libellus Novus Elementorum Latinorum is a series of ornate letterform prints blending a grotesque botanical styling with an unusual abstract baroque ornamental form. The prints were designed by Polish goldsmith Jan Christian Bierpfaff (1600-1690), and engraved by Jeremias Falck (1610–1677). Bierpfaff apprenticed with the Mackensen family of metalworkers in Kraków. The Mackensen clan introduced the Dutch Auricular style of ornament, featuring "Ear-like, or Shell-like" patterns, from which this collection has drawn inspiration from, and which was to become a popular style in competing Polish gold and silver workshops. The design is fluid and whimsical, expressing itself with floral and gargoyle forms dynamically hidden within its letterforms. This exquisite facsimile is presented as a design resource for artists of all crafts, and admirers of interesting and odd typology and print matter.



The Grotesque in Church Art
By T. Tindall Wildridge
208 Pages, $19.24 USD, ISBN: 1475257384
The designs of which this book treats have vast fields outside the English church works to which it has been thought good to limit it. Books and buildings undoubtedly mutually interchanged some forms of their ornaments, yet the temple was the earlier repository of man's ideas expressed in art, and the proper home of the religious symbolism which forms so large a proportion of my subject. In view also of the ground I have ventured to hint may be taken up as to the derivation, of a larger number than is generally supposed, of church designs from heathen prototypes by the hands of apprenticed masons, it is fitting that the evidences should be from their chisels.

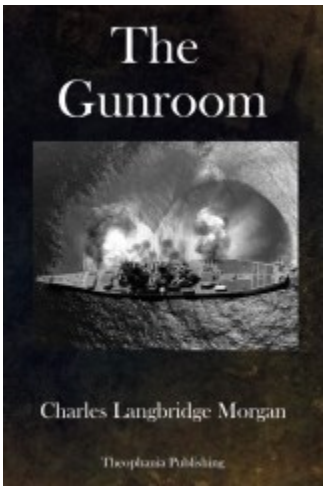


The Group Mind: A Sketch Of The Principles Of Collective Psychology With Some Attempt To Apply Them To The Interpretation Of National Life And Character

By William McDougall

434 Pages, $26.24 USD, ISBN: 150308115X

In this book I have sketched the principles of the mental life of groups and have made a rough attempt to apply these principles to the understanding of the life of nations. I have had the substance of the book in the form of lecture notes for some years, but have long hesitated to publish it. I have been held back, partly by my sense of the magnitude and difficulty of the subject and the inadequacy of my own preparation for dealing with it, partly because I wished to build upon a firm foundation of generally accepted principles of human nature.



The Gunroom

By Charles Langbridge Morgan

488 Pages, $27.25 USD, ISBN: 1979106223

Late on an afternoon in September a boy, wearing a naval mackintosh and a felt hat, came out of Torquay railway-station and hailed a cab. His figure, his voice, and his manner, which was nervous and a little self-conscious, suggested that his age was about eighteen. He took a handful of change out of his pocket, and, when he had selected from it, with momentary hesitation, a sixpence to give the porter who had brought his luggage, he cast over the few bystanders a look almost of resentment, as if he thought they had been watching and criticizing him. If an older man had intercepted this glance its character might have puzzled him.

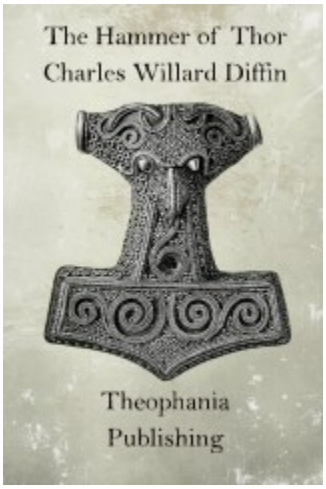
The Halliwell Manuscript: The MS. is admitted to be the oldest genuine record of the Craft of Masonry known

By Halliwell

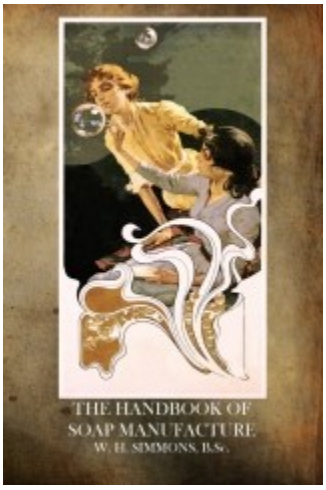
54 Pages, $16.24 USD, ISBN: 1503080552

The MS is a very small quarto on vellum, and is No. 17, A1. in the Bibl. Reg., British Museum. It is described in David Casley's Catalogue of the MSS. of the Old Royal Library, as 'A Poem of Moral Duties: here entitled, Constitutiones Artis Gemetrie secundem Euclidem. - 'Whoso wol bothe wel rede and loke.' The age of the MS. has been variously estimated. Mr. Halliwell and the late Rev. A.F.A. Woodford supposed it to have been written about 1390, or earlier. The MS. is admitted to be the oldest genuine record of the Craft of Masonry known.

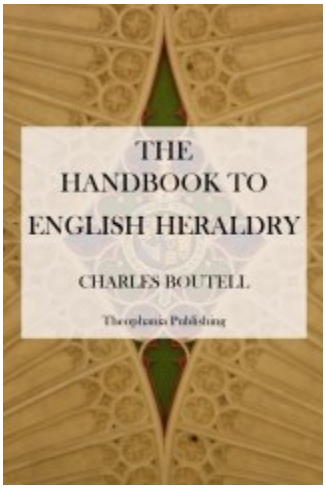


The Hammer of Thor
By Charles Willard Diffin
48 Pages, $16.24 USD, ISBN: 1519306016
The great figure stooped almost double to enter the room, and Danny ran a hand through his shock of red hair and stared open-mouthed at the giant when he straightened again and towered above the guard of Red soldiers who had brought him into the high-ceiled room. He was clothed in a single garment of glinting blue that wrapped him about and fell in heavy folds to the floor. Danny felt the resemblance to the shimmering blue of steel that has passed through fire, and his eyes held to that garment in fascination until his gaze went on and up to the face.

The Hand of Fu Manchu
By Sax Rohmer
276 Pages, $21.24 USD, ISBN: 1770833358
“Imagine a person, tall, lean and feline, high-shouldered, with a brow like Shakespeare and a face like Satan… one giant intellect, with all the resources of science past and present … Imagine that awful being, and you have a mental picture of Dr. Fu Manchu, the yellow peril incarnate in one man.” –The Insidious Dr. Fu Manchu Cover Illustration: Jamie Shiu.

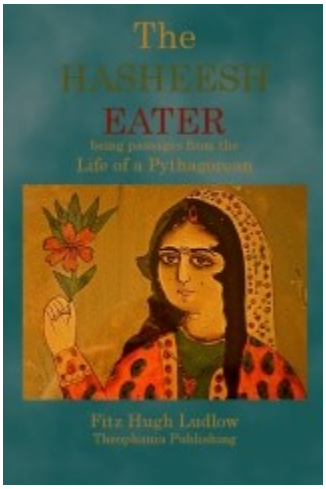


The Handbook of Soap Manufacture
By W. H. Simmons
254 Pages, $20.24 USD, ISBN: 1770832742
In the general advance of technical knowledge and research during the last decade, the Soap Industry has not remained stationary. While there has not perhaps been anything of a very revolutionary character, steady progress has still been made in practically all branches, and the aim of the present work is to describe the manufacture of Household and Toilet Soaps as carried out today in an up to date and well equipped factory. In the more scientific portions of the book, an acquaintance with the principles of elementary chemistry is assumed, and in this we feel justified, as in these days of strenuous competition, no soap maker can hope to compete successfully with his rivals unless he has a sound theoretical as well as practical knowledge of the nature of the raw materials he uses, and the reactions taking place in the pan, or at other stages of the manufacture.



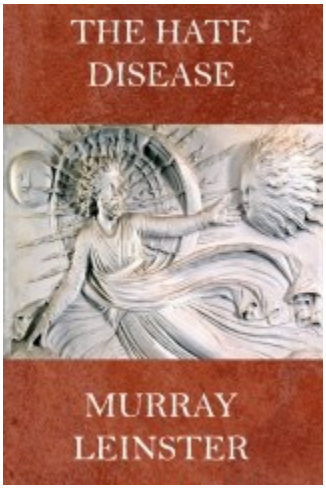
The Handbook to English Heraldry
By Charles Boutell
394 Pages, $24.24 USD, ISBN: 1475012292

This Volume, specially prepared for the use of students at an early period of their study of English Heraldry, commends itself also to those inquirers who may desire to obtain some general information on the same subject, without having any intention to devote to Heraldry much either of their time or of their serious regard. The success, no less extraordinary than gratifying, of my larger work on Heraldry, led me to hope that a not less favourable reception might be extended to a simpler and much shorter essay, more decidedly elementary in its aim and character, and yet as far as possible within its limits complete.



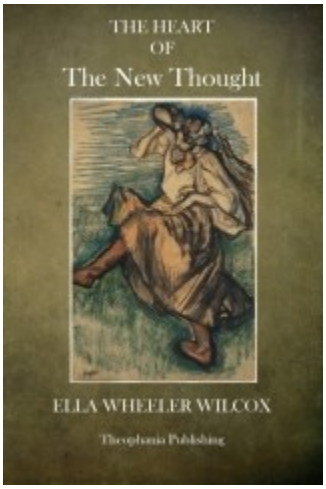
The Hasheesh Eater: being passages from the Life of a Pythagorean
By Fitz Hugh Ludlow
290 Pages, $20.24 USD, ISBN: 1770831436

The secret lies in the use of hasheesh. A very few words will suffice to tell what hasheesh is. In northern latitudes the hemp plant (Cannabis Sativa) grows almost entirely to fibre, becoming, in virtue of this quality, the great resource for mats and cordage. Under a southern sun this same plant loses its fibrous texture, but secretes, in quantities equal to one third of its bulk, an opaque and greenish resin. Between the northern and the southern hemp there is no difference, except the effect of diversity of climate upon the same vegetable essence; yet naturalists, misled by the much greater extent of gummy secretion in the latter, have distinguished it from its brother of the colder soil by the name Cannabis Indica.

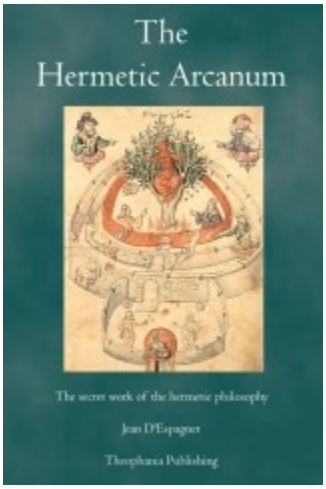


The Hate Disease
By Murray Leinster
82 Pages, $16.24 USD, ISBN: 151930563X

The Med Ship Esclipus Twenty rode in overdrive while her ship's company drank coffee. Calhoun sipped at a full cup of strong brew, while Murgatroyd the tormal drank from the tiny mug suited to his small, furry paws. The astrogation unit showed the percentage of this overdrive hop covered up to now, and the needle was almost around to the stop pin. There'd been a warning gong an hour ago, notifying that the end of overdrive journeying approached. Hence the coffee. When breakout came, the overdrive field must collapse and the Duhanne cells down near the small ship's keel absorb the energy which maintained it. Then Esclipus Twenty would appear in the normal universe of suns and stars with the abruptness of an explosion. She should be somewhere near the sun Tallien.



The Heart of The New Thought
By Ella Wheeler Wilcox
94 Pages, $16.24 USD, ISBN: 1503080080
This book is noteworthy as an interpretation of "New Thought." That which was vague, mystic, unreal, has become, in the hands of Mrs. Wilcox, a lovable philosophy of simplest c onstruction. The backbone of this philosophy is The Power of Right Thought. Startling as are some of the tenets expressed, they are provably true here and now. It is possible that the very simplicity of this book will encourage careless criticism from those who believe that genius and ambiguity are twin. But Mrs. Wilcox is ever the voice of the people: what she says is practical; what she thinks is clear; what she feels is plain. Let the people judge this book.



The Hermetic Arcanum: The secret work of the hermetic philosophy

The Science of producing Nature's grand Secret, is a perfect knowledge of universal Nature and of Art concerning the Realm of Metals; the Practice thereof is conversant with finding the principles of Metals by Analysis, and after they have been made much more perfect to conjoin them otherwise than they have been before, that from thence may result a catholic Medicine, most powerful to perfect imperfect Metals, and for restoring sick and decayed bodies, of any sort soever. The Heroes of Asgard: Tales from Scandinavian Mythology
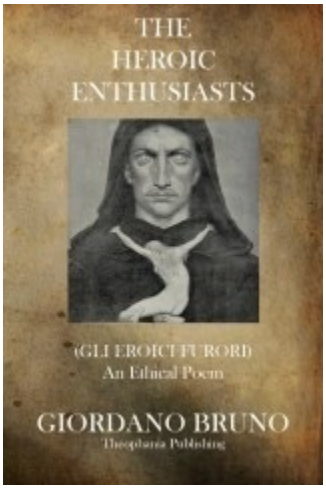
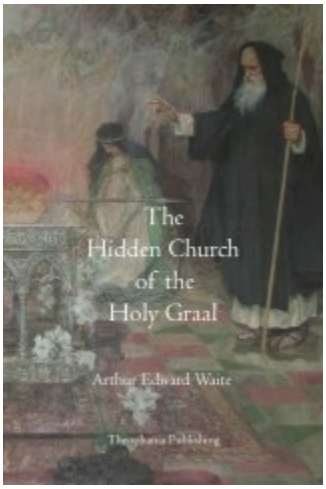
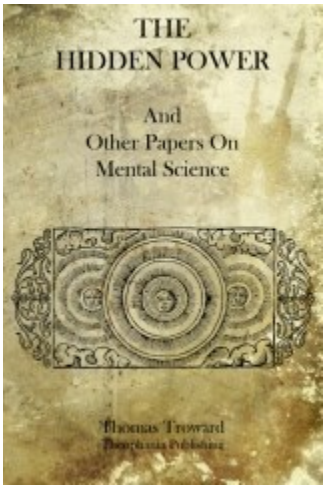
By A. & E. Keary
206 Pages, $19.24 USD, ISBN: 1503080331
If we would understand the religion of the ancient Scandinavians, we ought to study at the same time the myths of all Teutonic nations. A drawing together of these, and a comparison of one with another, has been most beautifully effected by Simrock, in his Handbuch der Deutschen Mythologie, where he tells us that whilst the Scandinavian records are richer and more definite, they are also younger than those of Germany, which latter may be compared to ancient half choked-up streams from which the fuller river flows, but which, it is to be remarked, that river has mingled in its flowing.



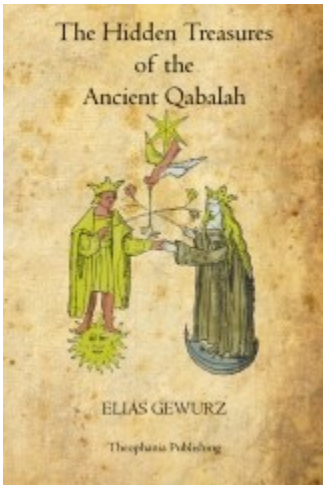
The Heroic Enthusiasts
By Giordano Bruno
186 Pages, $20.24 USD, ISBN: 1770832734
I believe that no translation of Giordano Bruno's works has ever been brought out in English, or, at any rate, no translation of the "Eroici Furori," and therefore I have had no help from previous renderings. I have, for the most part, followed the text as closely as possible, especially in the sonnets, which are frequently rendered line for line. Form is lacking in the original, and would, owing to the unusual and often fantastic clothing of the ideas, be difficult to apply in the translation. He seems to have written down his grand ideas hurriedly, and, as Levi says, probably intended to retouch the work before printing.



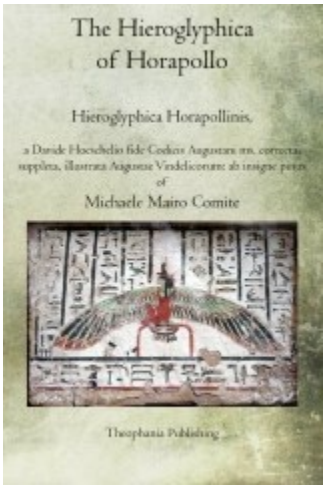
The Hidden Church of the Holy Graal
By Arthur Edward Waite
558 Pages, $29.24 USD, ISBN: 177083186X
I am about to set forth after a new manner, and chiefly for the use of English mystics, the nature of the mystery which is enshrined in the old romance-literature of the Holy Graal. As a literature it can be approached from several standpoints; and at the root it has a direct consanguinity with other mysteries, belonging to the more secret life of the soul. I propose to give a very full account of all the considerations which it involves, the imperfect speculations included of some who have preceded me in the same path, writers whose interests at a far distance are not utterly dissimilar to my own, though their equipment has been all too slight.



The Hidden Power: And Other Papers on Mental Science
By Thomas Troward
154 Pages, $17.24 USD, ISBN: 1770833366
To realise fully how much of our present daily life consists in symbols is to find the answer to the old, old question, What is Truth? and in the degree in which we begin to recognise this we begin to approach Truth. The realisation of Truth consists in the ability to translate symbols, whether natural or conventional, into their equivalents; and the root of all the errors of mankind consists in the inability to do this, and in maintaining that the symbol has nothing behind it.

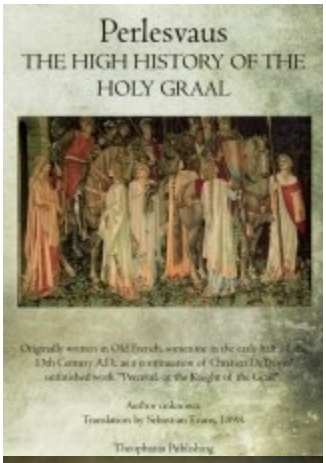


The Hidden Treasures of the Ancient Qabalah
By Elias Gewurz
58 Pages, $16.24 USD, ISBN: 1770830839
The language of the Zohar, however (the Hebrew Chaldaic), known to a very few scholars only, constitutes the main difficulty in the way of those desirous of studying the Qabalah. ... The books of the Qabalah are fountains of living waters and at a time of great spiritual need, as the present is, the strength and consolation offered us through its teachings are doubly welcome. The greater part of my life has been devoted to this study, and the teachings given out in my books are all based upon this ancient wisdom of the Rabbis.

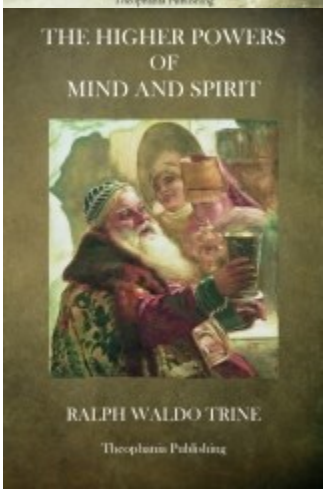


The Hieroglyphica of Horapollo: Hieroglyphica Horopollinis
By Michaele Mairo Comite
60 Pages, $16.24 USD, ISBN: 1468023608
For some years past an ardent spirit of enquiry has been awakened with regard to the interpretation of the hieroglyphics inscribed upon the monuments of Egypt. For ages, these had been looked upon as the depositories to which had been committed the religion arts and sciences of a nation once pre eminent in civilization.

The High Calling
By Rev. Charles M. Sheldon
434 Pages, $26.25 USD, ISBN: 1979386374
The story, "The High Calling," was written at two different periods, in 1909 and 1910, and was read at two different periods, chapter by chapter, to the young people in my church, on successive Sunday evenings. The main purpose of the story is to illustrate the value of the average American family training and the final victory of the spiritual ideals over material or physical attractions. The final outcome of the struggle which Helen Douglas makes between her natural inclination to follow a life of ease and luxury, and the real training which she has received at home, is the picture of what is going on in the best American homes to-day.



The High History of the Holy Graal: Perlesvaus
By Sebastian Evans
460 Pages, $30.24 USD, ISBN: 1468026178
The manuscript is well known, having been lent to M. de Sainte Palaye for use in the Monuments of French History issued by the Benedictines of the Congregation of St Maur. Selections from the poems it contains are given in Sinner's 'Extraits de Poesie du XIII. Siecle', and it is described, unfortunately without any reference to these particular leaves, by the same learned librarian in the 'Catalogus Codicum MSS. Bibl. Bernensis', J.R. Sinner.



The Higher Powers of Mind and Spirit
By Ralph Waldo Trine
178 Pages, $15.24 USD, ISBN: 1484931092
We are all dwellers in two kingdoms, the inner kingdom, the kingdom of the mind and spirit, and the outer kingdom, that of the body and the physical universe about us. In the former, the kingdom of the unseen, lie the silent, subtle forces that are continually determining, and with exact precision, the conditions of the latter. To strike the right balance in life is one of the supreme essentials of all successful living. We must work, for we must have bread. We require other things than bread. They are not only valuable, comfortable, but necessary.

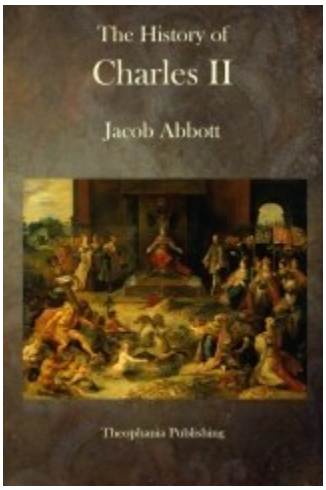
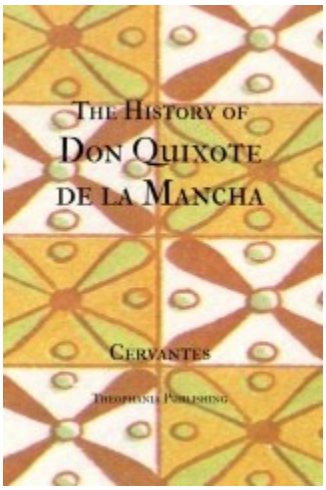
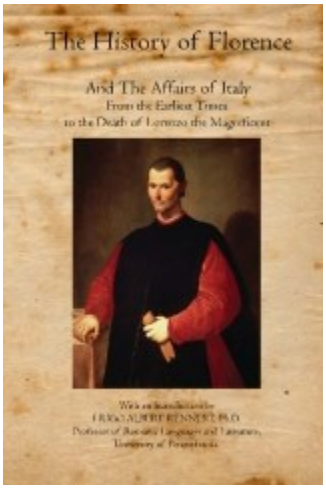
The History of Charles I
By Jacob Abbott
162 Pages, $17.24 USD, ISBN: 1503051099
The things that are to be explained, the points that are to be brought out, the comparative degree of prominence to be given to the various particulars, will all be different, on account of the difference in the situation, the ideas, and the objects of these new readers, compared with those of the various other classes of readers which former authors have had in view. It is for this reason, and with this view, that the present series of historical narratives is presented to the public. The author, having had some opportunity to become acquainted with the position, the ideas, and the intellectual wants of those whom he addresses, presents the result of his labors to them, with the hope that it may be found successful in accomplishing its design.



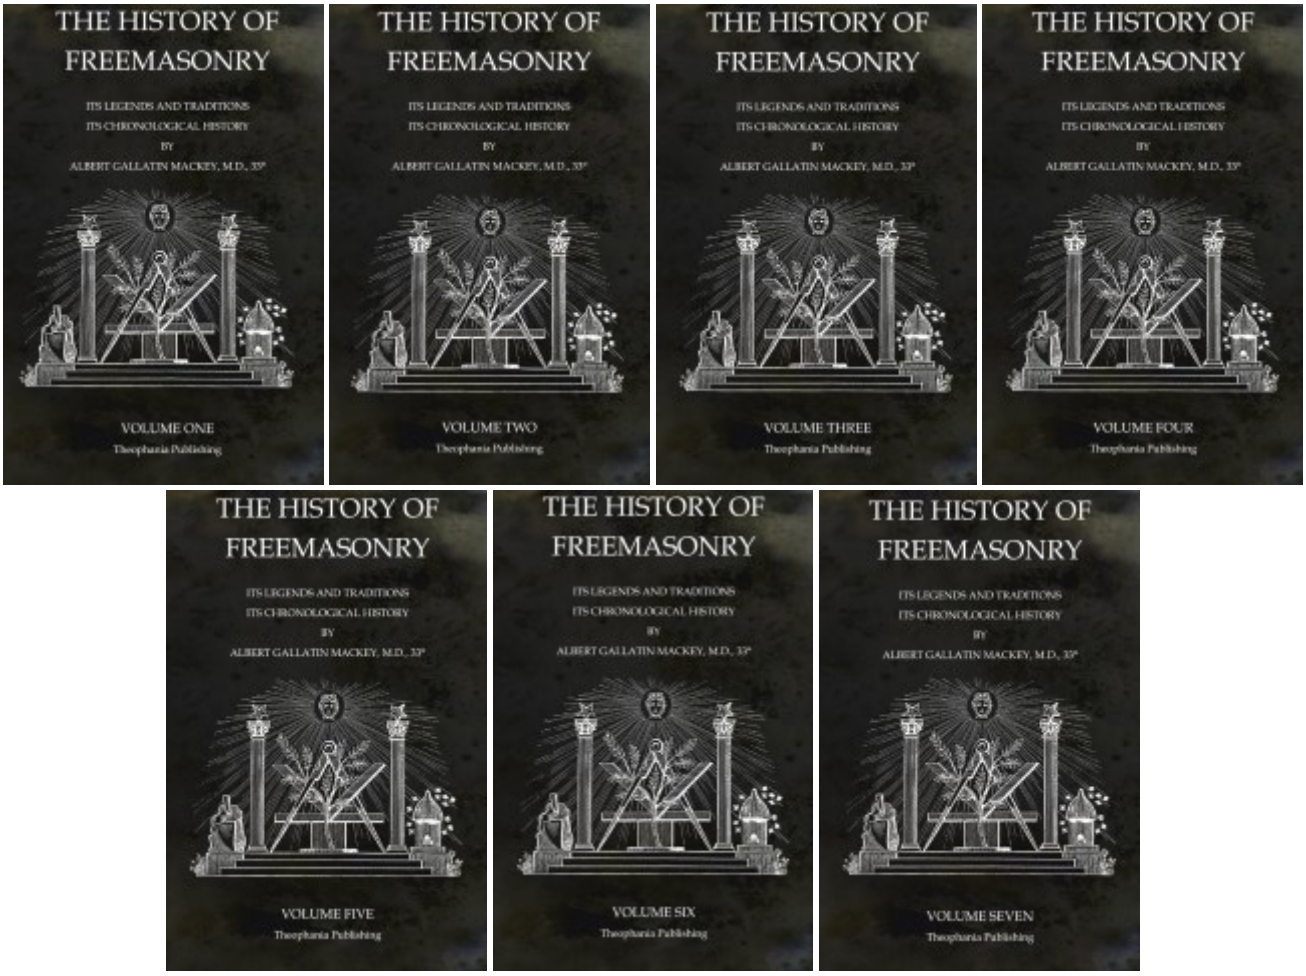
The History of Charles II
By Jacob Abbott
198 Pages, $19.24 USD, ISBN: 150305084X
THE history of the life of every individual who has, for any reason, attracted extensively the attention of mankind, has been written in a great variety of ways by a multitude of authors, and persons sometimes wonder why we should have so many different accounts of the same thing. The reason is, that each one of these accounts is intended for a different set of readers, who read with ideas and purposes widely dissimilar from each other.



The History of Don Quixote de la Mancha
By Cervantes
630 Pages, $32.24 USD, ISBN: 1475257406
When we reflect upon the great celebrity of the "Life, Exploits, and Adventures of that ingenious Gentleman, Don Quixote de la Mancha," and how his name has become quite proverbial amongst us, it seems strange that so little should be known concerning the great man to whose imagination we are indebted for so amusing and instructive a tale. We cannot better introduce our present edition than by a short sketch of his life, adding a few remarks on the work itself and the present adapted reprint of it. The obscurity we have alluded to is one which Cervantes shares with many others, some of them the most illustrious authors which the world ever produced. Homer, Hesiod,—names with which the mouths of men have been familiar for centuries,—how little is now known of them! And not only so, but how little was known of them even by those who lived comparatively close upon their own time! How scattered and unsatisfactory are the few particulars which we have of the life of our own poet William Shakspere!

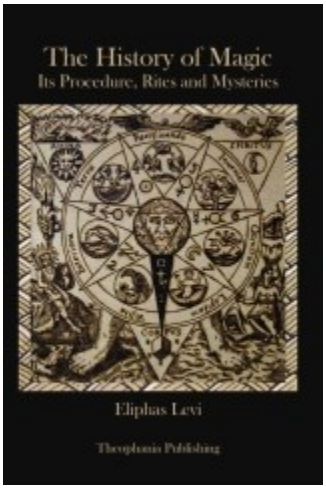


The History of Florence: And The Affairs of Italy
By Niccolo Machiavelli
450 Pages, $30.24 USD, ISBN: 192684209X
Pope Leo X commissioned Machiavelli to write a history of Florence in 1520. In 1525, Machiavelli presented Pope Clement VII with eight books comprising the origin of Florence up to 1492, which was as much a tracing of the Medici family line as it was a political history. Niccolo Machiavelli is also known for his other works, The Art of War, The Prince, and Discourse on the First Ten Books of Titus Livy, being a history of Rome.



The History of Freemasonry Seven Volume Set
By Albert Gallatin Mackey
Volume One 276 Pages, $20.24 USD, ISBN: 177083365X, Volume Two 310 Pages, $20.24 USD, ISBN: 1770833668, Volume Three 292 Pages, $20.24 USD, ISBN: 1770833676, Volume Four 272 Pages, $20.24 USD, ISBN: 1770833684, Volume Five 278 Pages, $20.24 USD, ISBN: 1770833692, Volume Six 294 Pages, $20.24 USD, ISBN: 1770833706, Volume Seven 230 Pages, $20.24 USD, ISBN: 1770833714

Freemasonry as a society of long standing, has of course its history, and the age of the institution has necessarily led to the mixing in this history of authentic facts and of mere traditions or legends. We are thus led in the very beginning of our labors to divide our historical studies into two classes. The one embraces the Legendary History of Freemasonry, and the other its authentic annals. The Legendary History of Freemasonry will constitute the subject of the first of the five parts into which this work is divided. It embraces all that narrative of the rise and progress of the institution, which beginning with the connection with it of the antediluvian patriarchs, ends in ascribing its modern condition to the patronage of Prince Edwin and the assembly at York. This narrative, which in the I5th and up to the end of the I7th century, claimed and received the implicit faith of the Craft, which in the I8th century was repeated and emendated by the leading writers of the institution, and which even in the 19th century has had its advocates among the learned and its credence among the unlearned of the Craft, has only recently and by a new school been placed in its true position of an apocryphal story.



The History of Magic
By Eliphas Levi
442 Pages, $26.24 USD, ISBN: 1477613528
The works of Eliphas Levi on the science of the ancient Magi are intended to form a complete course, divided into three parts. The first part contains the Doctrine and Ritual of Transcendental Magic; the second is The History of Magic; and the third will be published later under the title of The Key to the Great Mysteries. Taken separately, each of these parts gives a complete instruction and seems to contain the whole science; but in order to a full understanding of one it is indispensable to study the two others carefully. The triadic division of our undertaking has been imposed by the science itself, because our discovery of its great mysteries rests entirely upon the significance which the old hierophants attached to numbers.

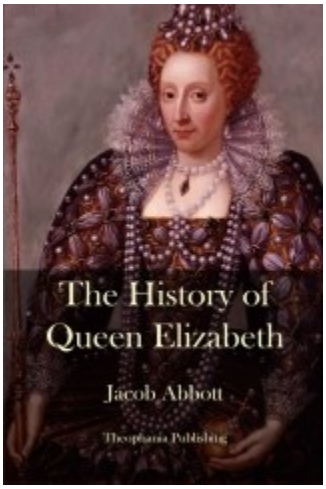
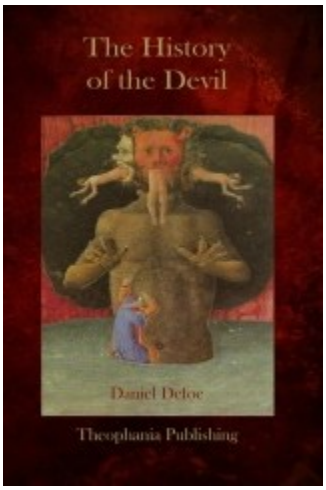
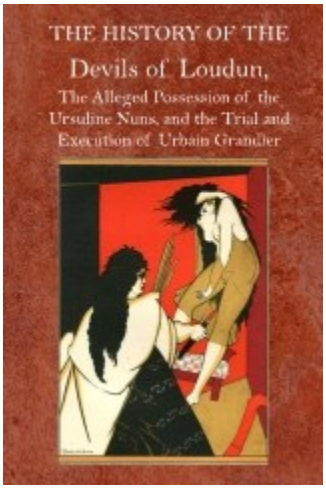
The History of Magick By way of Apology
By G. Naudæus
270 Pages, $21.24 USD, ISBN: 147007334X
About four or five years since, there came abroad a little Book in French, intituled, Nouueau Jugement, and c. New Reflections on what hath been said and written as well for, as against the Book of the curious Doctrine of the Great Witts of these times. At the end of this Book the Authour inserted two Invectives, very short indeed, against Homer and Virgil; to what end or upon what ground it is not much material here to dispute; but in that of Virgil, he represents him as a most eminent Conjurer, and one that had done abundance of strange and incredible things by the assistance of Magick.



The History of Queen Elizabeth
By Jacob Abbott
184 Pages, $18.24 USD, ISBN: 1503050858
Elizabeth I (7 September 1533 – 24 March 1603) was queen regnant of England and Ireland from 17 November 1558 until her death. Sometimes called "The Virgin Queen", "Gloriana" or "Good Queen Bess", Elizabeth was the fifth and last monarch of the Tudor dynasty. The daughter of Henry VIII, she was born into the royal succession, but her mother, Anne Boleyn, was executed two and a half years after her birth, with Anne's marriage to Henry VIII being annulled, and Elizabeth hence declared illegitimate. Her half-brother, Edward VI, ruled as king until his death in 1553, whereupon he bequeathed the crown to Lady Jane Grey, cutting his two half-sisters, Elizabeth and the Roman Catholic Mary, out of the succession in spite of statute law to the contrary.

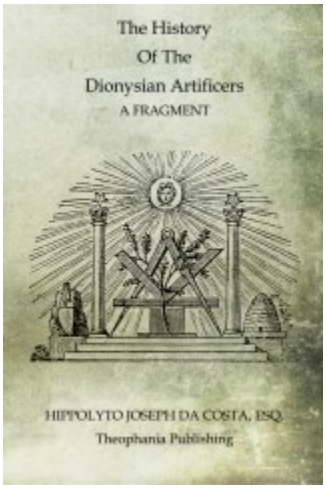


The History of the Devil
By Daniel Defoe
432 Pages, $26.24 USD, ISBN: 1503050823
Children and old women have told themselves so many frightful things of the Devil, and have form'd ideas of him in their minds, in so many horrible and monstrous shapes, that really it were enough to fright the Devil himself, to meet himself in the dark, dress'd up in the several figures which imagination has form'd for him in the minds of men; and as for themselves, I cannot think by any means that the Devil would terrify them half so much, if they were to converse face to face with him. It must certainly therefore be a most useful undertaking to give the true history of this Tyrant of the air, this God of the world, this terror and aversion of mankind, which we call Devil; to shew what he is, and what he is not, where he is, and where he is not, when he is in us, and when he is not ...



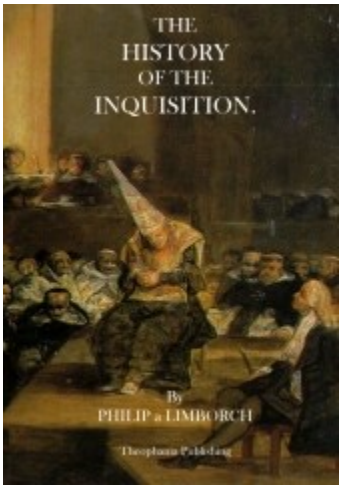
THE HISTORY OF THE
Devils of Loudun,
The Alleged Possession of the
Ursuline Nuns, and the Trial and
Execution of Urbain Grandier

The History of the Devils of Loudun
By Edmund Goldsmid
68 Pages, $16.24 USD, ISBN: 1519305710
THE following extraordinary account of the "Cause Célèbre" of Urbain Grandier, the Curé of Loudun, accused of Magic and of having caused the Nuns of the Convent of Saint Ursula to be possessed of devils, is written by an eye-witness, and not only an eye-witness but an actor in the scenes he describes. It is printed at "Poitiers, chez J. Thoreau et la veuve Ménier, Imprimeurs du Roi et de l'Université, 1634." I believe two copies only are known: my own, and the one in the National Library, Paris. The writer is Monsieur des Niau, Counsellor at la Flèche, evidently a firm believer in the absurd charges brought against Grandier.



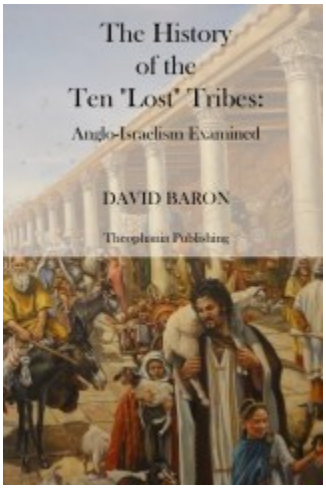
The History Of The Dionysian Artificers
By Hippolyto Joseph Da Costa
44 Pages, $17.24 USD, ISBN: 1468026275

THE mysteries of the ancients, and the associations in which their doctrines were taught, have hardly been considered in modern times, but with a view to decry and ridicule them. The systems of ancient mythology have been treated as monstrous absurdities, debasing the human reason, conducting to idolatry, and favouring depravity of manners. However, they deserve attention, if the motives of their inventors, rather than the profligacy and ignorance of their corruptors be contemplated.



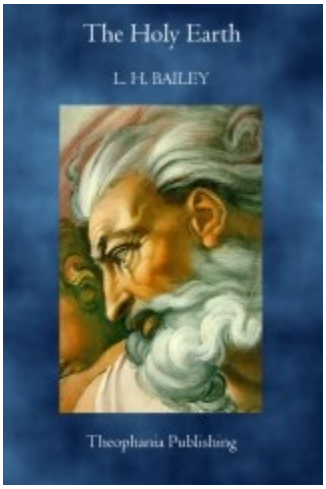
The History of the Inquisition
By Philip a Limborch
796 Pages, $43.87 USD, ISBN: 1470077191

That History needs nothing that I can say to recommend it. When it first came over to England, it was received with great Approbation by many of the principal Nobility and Clergy. Mr. Lock, that incomparable Judge of Men and Books, gives it the highest Character, and commends it for its Method and Perspicuity, and the Authorities by which it is so abundantly confirmed, and pronounces it a Work in its Kind absolutely perfect.



The History of the Ten Lost Tribes
By David Baron
90 Pages, $16.24 USD, ISBN: 1470087111

This Letter, somewhat amplified, was printed in the form of an appendix in my book, The Ancient Scriptures and the Modern Jew, whence by special request it was subsequently reprinted in pamphlet form under the title, Anglo-Israelism, and the True History of the Ten Lost Tribes—a separate edition of it having also been published in America. This pamphlet is now out of print, and, being appealed to by prominent Christian friends to bring out a new edition, I felt constrained before doing so to re-examine the whole question anew, and more thoroughly than before.



The Holy Earth
By L. H. Bailey
120 Pages, $17.24 USD, ISBN: 1770830138
So bountiful hath been the earth and so securely have we drawn from it our substance, that we have taken it all for granted as if it were only a gift, and with little care or conscious thought of the consequences of our use of it; nor have we very much considered the essential relation that we bear to it as living parts in the vast creation. It is good to think of ourselves—of this teeming, tense, and aspiring human race—as a helpful and contributing part in the plan of a cosmos, and as participators in some far reaching destiny. The idea of responsibility is much asserted of late, but we relate it mostly to the attitude of persons in the realm of conventional conduct, which we have come to regard as very exclusively the realm of morals...

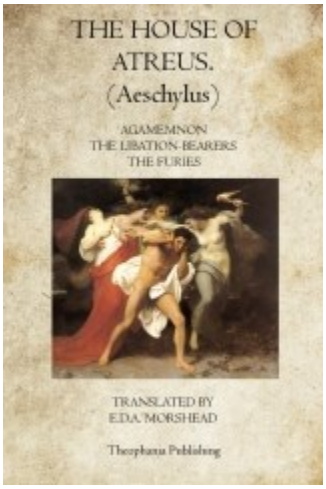
Listen, O my son, to the precepts of thy master, and incline the ear of thy heart, and cheerfully receive and faithfully execute the admonitions of thy loving Father, that by the toil of obedience thou mayest return to Him from whom by the sloth of disobedience thou hast gone away. To thee, therefore, my speech is now directed, who, giving up thine own will, takest up the strong and most excellent arms of obedience, to do battle for Christ the Lord, the true King. In the first place, beg of Him by most earnest prayer, that He perfect whatever good thou dost begin, in order that He who hath been pleased to count us in the number of His children, need never be grieved at our evil deeds.



The House of Atreus
By Aeschylus
194 Pages, $18.24 USD, ISBN: 1770832270
Of the life of Aeschylus, the first of the three great masters of Greek tragedy, only a very meager outline has come down to us. He was born at Eleusis, near Athens, B. C. 525, the son of Euphorion. Before he was twenty-five he began to compete for the tragic prize, but did not win a victory for twelve years. He spent two periods of years in Sicily, where he died in 456, killed, it is said, by a tortoise which an eagle dropped on his head. Though a professional writer, he did his share of fighting for his country, and is reported to have taken part in the battles of Marathon, Salamis, and Plataea.

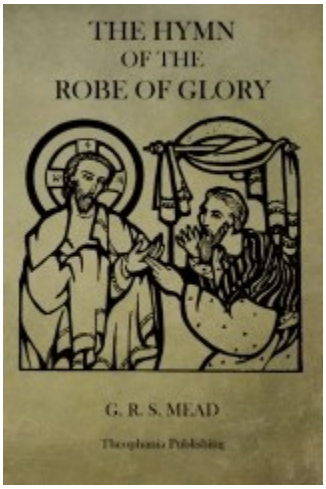
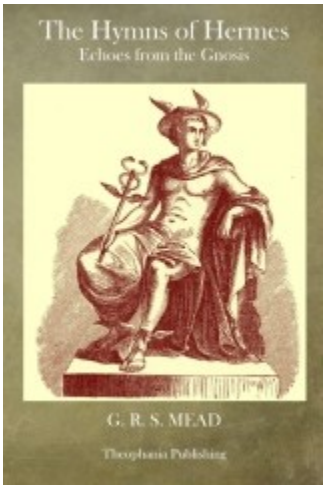
The Human Aura: Astral Colors and Thought Forms
By Swami Panchadasi
64 Pages, $15.24 USD, ISBN: 1469941201
The dictionaries define the word aura as: Any subtle, invisible emanation or exhalation. The English authorities, as a rule, attribute the origin of the word to a Latin term meaning "air," but the Hindu authorities insist that it had its origin in the Sanscrit root Ar, meaning the spoke of a wheel, the significance being perceived when we remember the fact that the human aura radiates from the body of the individual in a manner similar to the radiation of the spokes of a wheel from the hub thereof. The Sanscrit origin of the term is the one preferred by occultists, although it will be seen that the idea of an aerial emanation, indicated by the Latin root, is not foreign to the real significance of the term. Briefly, then, the human aura may be described as a fine, ethereal radiation or emanation surrounding each and every living human being.

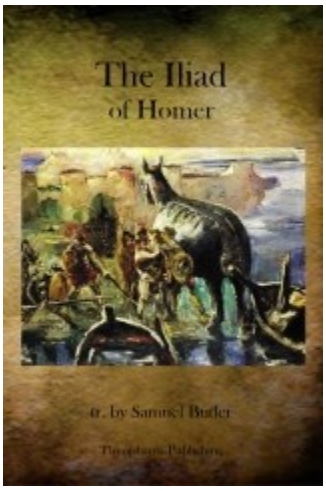


The Hymn of the Robe of Glory
By G.R.S. Mead
58 Pages, $14.24 USD, ISBN: 1484930908
The original title of this beautiful Gnostic Poem has been lost, and it is now generally referred to as The Hymn of the Soul. Preuschen, however, calls it The Song of Deliverance (Das Lied von der Erlösung); while in my Fragments (1900) I ventured to name it The Hymn of the Robe of Glory. I here, also, prefer to retain this title, as it seems the more appropriate. The original text of the Poem is in Old Syriac, in lines of twelve syllables with a cæsura, and so in couplets, for the most part of six syllables. A text of a Greek version has recently been discovered by Bonnet at Rome (C. Vallicellanus B. 35) and published in his text of The Acts of Thomas (1903). It is partly literal, partly paraphrastic...

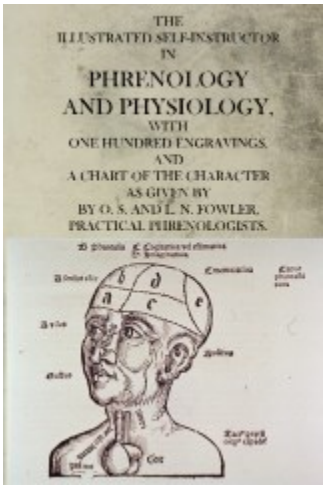


The Hymns of Hermes: Echoes from the Gnosis
By G. R. S. Mead
48 Pages, $15.24 USD, ISBN: 1484927265
Clement of Alexandria tells us that the whole of the religious philosophy-that is, the wisdom, discipline and multifarious arts and sciences-of the Egyptian priesthood was contained in the Books of Hermes, that is of Thoth. These Books, he informs us further, were classified under forty-two heads and divided into a number of groups according to the various septs or divisions of the priests. In describing a certain sacred ceremonial-a procession of priests in their various orders-Clement tells us that it was headed by a representative of the order of Singers, who were distinguished by appropriate symbols of music, some of which were apparently carried in the hands and others embroidered on the robes.

The Ifs of History
By Joseph Edgar Chamberlin
104 Pages, $16.24 USD, ISBN: 1469946319
Whether or not we believe that events are consciously ordered before their occurrence, we are compelled to admit the importance of Contingency in human affairs. If we believe in such an orderly and predetermined arrangement, the small circumstance upon which a great event may hinge becomes, in our view, but the instrumentality by means of which the great plan is operated. It by no means sets aside the vital influence of chance to assume that "all chance is but direction which we cannot see."



The Iliad of Homer
By Homer
516 Pages, $25.24 USD, ISBN: 1770830960
The Iliad (sometimes referred to as the Song of Ilion or Song of Ilium) is an epic poem,traditionally attributed to Homer. Set in the Trojan War, the ten-year siege of Ilium by a coalition of Greek states, it tells of the battles and events during the weeks of a quarrel between King Agamemnon and the warrior Achilles. Although the story covers only a few weeks in the final year of the war, the Iliad mentions or alludes to many of the Greek legends about the siege. Along with the Odyssey, also attributed to Homer, the Iliad is among the oldest extant works of Western literature, and its written version is usually dated to around the eighth century BC.



The Illustrated Self-Instructor in Phrenology and Physiology

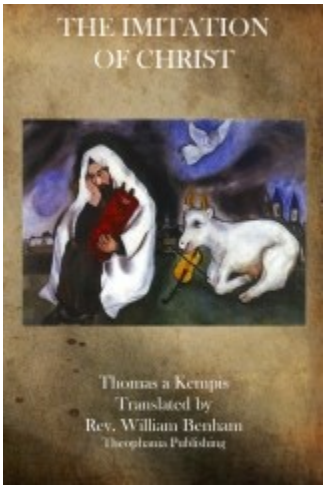
208 Pages, $19.24 USD, ISBN: 1515352110
To TEACH LEARNERS those organic conditions which indicate character, is the first object of this manual; and in order to render it accessible to all, it condenses facts and conditions, rather than elaborates arguments—because to EXPOUND Phrenology is its highest proof—states laws and results, and leaves them upon their naked merits; embodies recent discoveries; and crowds into the fewest possible words and pages just what learners need to know; and, hence, requires to be STUDIED rather than merely read. “Short, yet clear,” is its motto. Its numerous illustrative engravings give the results of very extensive professional observations and experience.



The Imitation of Christ
By Thomas A Kempis
278 Pages, $21.24 USD, ISBN: 1770833048
The treatise "Of the Imitation of Christ" appears to have been originally written in Latin early in the fifteenth century. Its exact date and its authorship are still a matter of debate. Manuscripts of the Latin version survive in considerable numbers all over Western Europe, and they, with the vast list of translations and of printed editions, testify to its almost unparalleled popularity. One scribe attributes it to St. Bernard of Clairvaux; but the fact that it contains a quotation from St. Francis of Assisi, who was born thirty years after the death of St. Bernard, disposes of this theory. In England there exist many manuscripts of the first three books, called "Musica Ecclesiastica," frequently ascribed to the English mystic Walter Hilton. But Hilton seems to have died in 1395, and there is no evidence of the existence of the work before 1400.

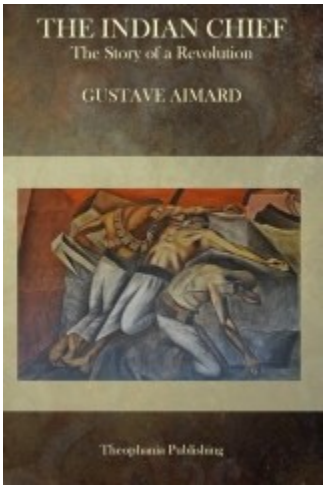
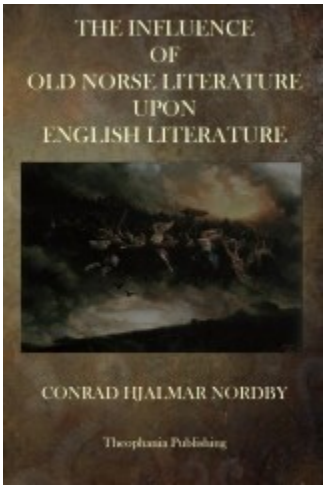
The tree of Christian faith. A true instruction, showing how many may be one spirit with God, and what he has to do to work the works of God.



The Indian Chief: The Story of a Revolution
By Gustave Aimard
314 Pages, $22.24 USD, ISBN: 1503051145
The Jesuits founded in Mexico missions round which, with the patience that constantly distinguished them, an unbounded charity, and a perseverance which nothing could discourage, they succeeded in collecting a large number of Indians, whom they instructed in the principal and most touching dogmas of their faith—whom they baptized, instructed, and induced to till the soil. These missions, at first insignificant and a great distance apart, insensibly increased. The Indians, attracted by the gentle amenity of the good fathers, placed themselves under their protection; and there is no doubt that if the Jesuits, victims to the jealousy of the Spanish viceroys, had not been shamefully plundered and expelled from Mexico, they would have brought around them the majority of the fiercest Indios Bravos, have civilised them, and made them give up their nomadic life.



The Influence of Old Norse Literature Upon English Literature
By Conrad Hjalmar Nordby
112 Pages, $16.24 USD, ISBN: 1503051110
It should not be hard for the general reader to understand that the influence which is the theme of this dissertation is real and explicable. If he will but call the roll of his favorite heroes, he will find Sigurd there. In his gallery of wondrous women, he certainly cherishes Brynhild. These poetic creations belong to the English-speaking race, because they belong to the world. And if one will but recall the close kinship of the Icelandic and the Anglo-Saxon languages, he will not find it strange that the spirit of the old Norse sagas lives again in our English song and story. The survey that this essay takes begins with Thomas Gray (1716-1771), and comes down to the present day.

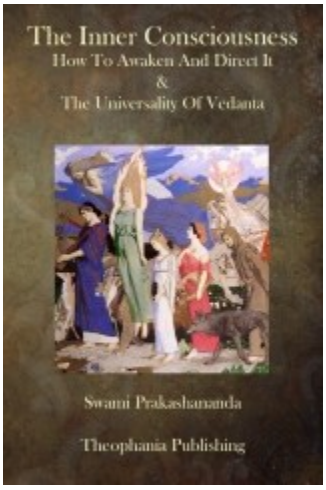
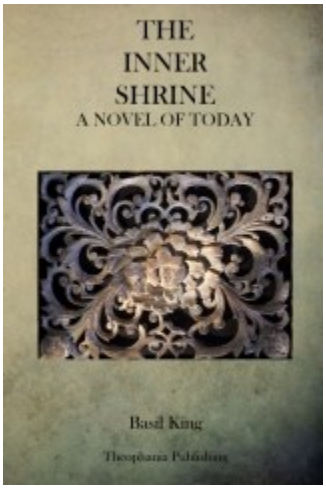
'What did I do? Why, I sat down and reflected. I had a good classical education, and a positive distaste for business of any kind: that was the capital with which I faced the world. Do you know, I have heard people describe olives as nasty! What lamentable Philistinism! I have often thought, Salisbury, that I could write genuine poetry under the influence of olives and red wine. Let us have Chianti; it may not be very good, but the flasks are simply charming.' 'It is pretty good here. We may as well have a big flask.'

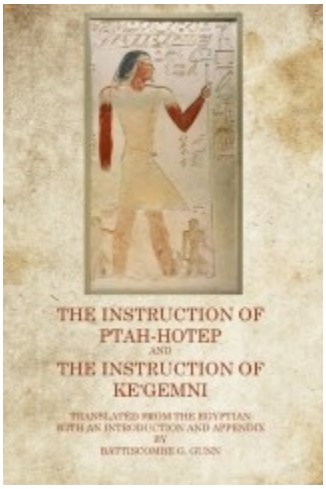


The Inner Consciousness: How To Awaken And Direct It & The Universality Of Vedan
By Swami Prakashananda
38 Pages, $16.24 USD, ISBN: 1503050998
What is truly meant by consciousness, or what is the principle back of that term? There are many ideas which cannot be expressed properly for lack of words, or lack of terms. The word consciousness is really derived from the Latin root scio, to know, and con, together; so the word consciousness from the derivative meaning would signify: to know together. We use the term generally in the sense of being conscious of a fact. That is, consciousness means knowing an object, as it were; knowing something. But the word consciousness really indicates two things—subject and object. It implies the duality of existence. There is one who is the knower, the subject, the ego, the perceiver.

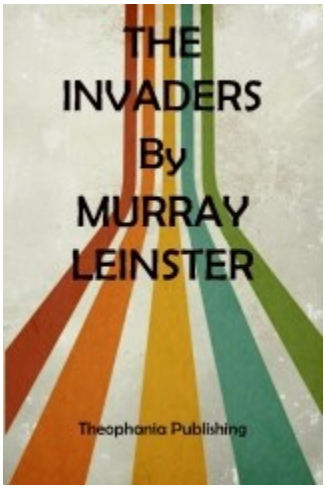
The Inner Flame
By Clara Louise Burnham
552 Pages, $29.25 USD, ISBN: 1978488963
Soft snowflakes whirled around the lonely mountain cabin under a November sky. The wind that had rushed up the valley sighing and groaning between the wooded walls, now roared its wild delight in the freedom of the heights. The twilight was deepening fast. Two women were alone in the cabin. The one who was at home stooped and put another log on the blazing fire. The other could not have stooped, no matter how willing her spirit, so straitly and fashionably was her ample figure bound by artful bone and steel. "Mercy, Mary!" she ejaculated, standing stock still in the middle of the room, fixed there by a triumphant shriek of the rioting wind.



The Inner Shrine: A Novel of Today
By Basil King
316 Pages, $18.24 USD, ISBN: 148492715X
Though she had counted the strokes of every hour since midnight, Mrs. Eveleth had no thought of going to bed. When she was not sitting bolt upright, indifferent to comfort, in one of the stiff-backed, gilded chairs, she was limping, with the aid of her cane, up and down the long suite of salons, listening for the sound of wheels. She knew that George and Diane would be surprised to find her waiting up for them, and that they might even be annoyed; but in her state of dread it was impossible to yield to small considerations. She could hardly tell how this presentiment of disaster had taken hold upon her, for the beginning of it must have come as imperceptibly as the first flicker of dusk across the radiance of an afternoon.



The Instruction of Ptah Hotep: And The Instruction of Ke'Gemni
By Battiscombe G. Gunn
66 Pages, $16.24 USD, ISBN: 1770830634
The Maxims of Ptahhotep Ptahhotep was the city administrator and vizier (first minister) during the reign of Djedkare Isesi in the 5th Dynasty. He is credited with authoring The Instruction of Ptahhotep, an early piece of Egyptian "wisdom literature" meant to instruct young men in appropriate behavior. Ptahhotep's grandson, Ptahhotep Tshefi, is traditionally credited with being the author of the collection of wise sayings known as The Maxims of Ptahhotep, whose opening lines attribute authorship to the vizier Ptahhotep: Instruction of the Mayor of the city, the Vizier Ptahhotep, under the Majesty of King lsesi.

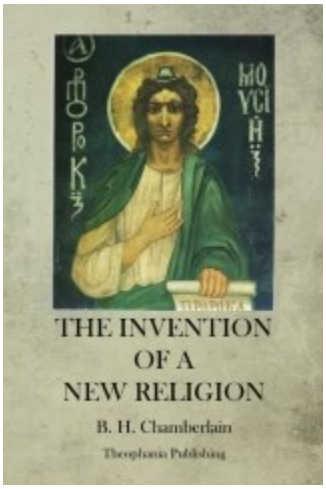


The Invaders

By Murray Leinster

94 Pages, $16.24 USD, ISBN: 1519287666

It started in Greece on the day after tomorrow. Before the last act raced to a close, Coburn was buried to his ears in assorted adventures, including a revolution and an invasion from outer space! We're not given to throwing around the word "epic" lightly, but here is one! Swashbuckling action, a great many vivid characters, and a weird mystery—all spun for you by one of the master story-tellers of our time. On a certain day—it may be in the history books eventually—Coburn was in the village of Ardea, north of Salonika in the most rugged part of Greece. He was making a survey for purposes which later on turned out not to matter much.



The Invention of a New Religion

By B. H. Chamberlain

24 Pages, $16.24 USD, ISBN: 1470086956

Voltaire and the other eighteenth-century philosophers, who held religions to be the invention of priests, have been scorned as superficial by later investigators. But was there not something in their view, after all? Have not we, of a later and more critical day, got into so inveterate a habit of digging deep that we sometimes fail to see what lies before our very noses? Modern Japan is there to furnish an example. The Japanese are, it is true, commonly said to be an irreligious people. They say so themselves. Writes one of them, the celebrated Fukuzawa, teacher and type of the modern educated Japanese man: "I lack a religious nature, and have never believed in any religion."

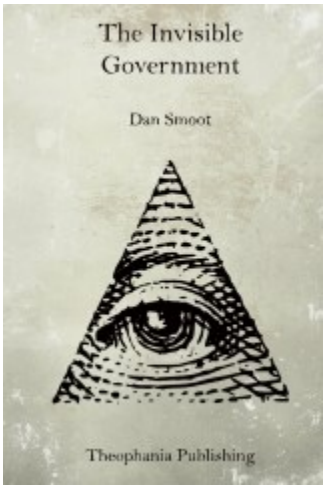
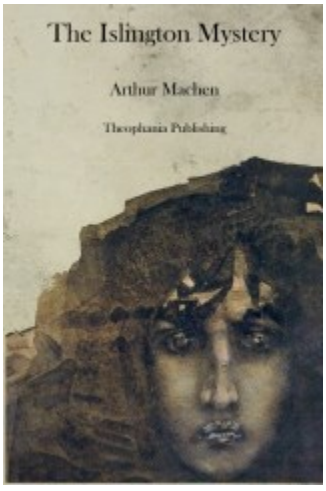
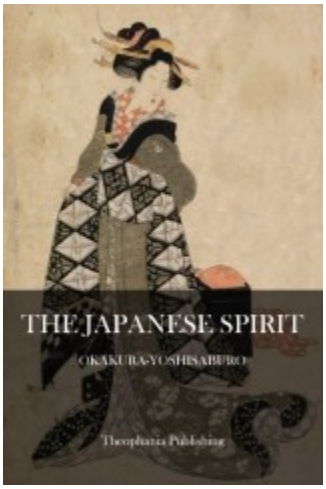
The Inventions Researches and Writings of Nikola Tesla
By Nikola Tesla
408 Pages, $31.29 USD, ISBN: 1475257449
The electrical problems of the present day lie largely in the economical transmission of power and in the radical improvement of the means and methods of illumination. To many workers and thinkers in the domain of electrical invention, the apparatus and devices that are familiar, appear cumbrous and wasteful, and subject to severe limitations. They believe that the principles of current generation must be changed, the area of current supply be enlarged, and the appliances used by the consumer be at once cheapened and simplified. The brilliant successes of the past justify them in every expectancy of still more generous fruition.



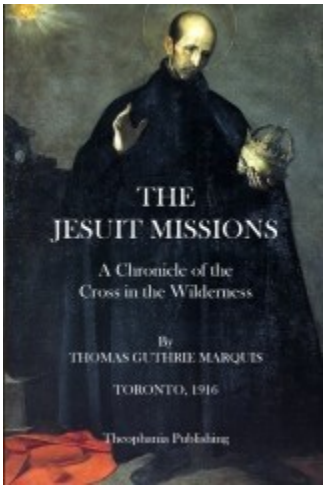
The Invisible Government
By Dan Smoot
256 Pages, $20.24 USD, ISBN: 1519287275
Communists in government during World War II formulated major policies which the Truman administration followed; but when the known communists were gone, the policies continued, under Eisenhower, Kennedy, Johnson. The unseen they who took control of government during World War II still control it. Their tentacles of power are wrapped around levers of political control in Washington; reach into schools, big unions, colleges, churches, civic organizations; dominate communications; have a grip on the prestige and money of big corporations. For a generation, they have kept voters from effecting any changes at the polls.



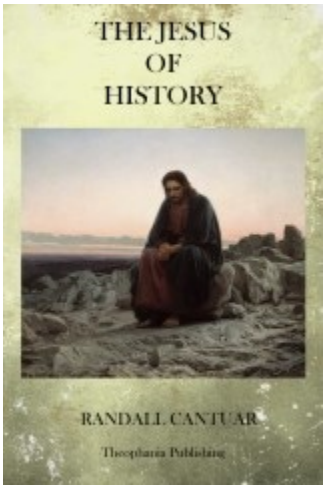
The Islington Mystery
By Arthur Machen
26 Pages, $16.24 USD, ISBN: 1470086883
ARTHUR MACHEN was a Welsh author and mystic of the 1890s and early 20th century. He is best known for his influential supernatural, fantasy, and horror fiction. From the beginning of his literary career, Machen espoused a mystical belief that the humdrum ordinary world hid a more mysterious and strange world beyond. His gothic and decadent works of the 1890s concluded that the lifting of this veil could lead to madness, sex, or death, and usually a combination of all three. Machen's later works became somewhat less obviously full of gothic trappings, but for him investigations into mysteries invariably resulted in life-changing transformation and sacrifice. Machen loved the medieval world view because he felt it combined deep spirituality alongside a rambunctious earthiness.



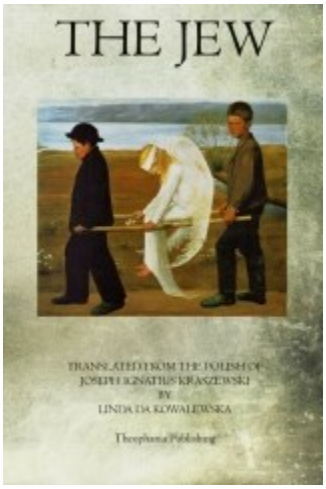
The Japanese Spirit
By Okakura Yoshisaburo
76 Pages, $16.24 USD, ISBN: 1503050874
These Lectures by a son of the land, delivered at the University of London, are compendious and explicit in a degree that enables us to form a summary of much that has been otherwise partially obscure, so that we get nearer to the secret of this singular race than we have had the chance of doing before. He traces the course of Confucianism, Laoism, Shintoism, in the instruction it has given to his countrymen for the practice of virtue, as to which Lao-tze informs us with a piece of 'Chinese metaphysics' that can be had without having recourse to the dictionary: 'Superior virtue is non-virtue. Therefore it has virtue. Inferior virtue never loses sight of virtue.



The Jesuit Missions: A Chronicle of the Cross in the Wilderness
By Thomas Guthrie Marquis
116 Pages, $15.24 USD, ISBN: 1484922468
For seven years the colony which Champlain founded at the rock of Quebec lived without priests. Perhaps the lack was not seriously felt, for most of the twoscore inmates of the settlement were Huguenot traders. But out in the great land, in every direction from the rude dwellings that housed the pioneers of Canada, roamed savage tribes, living, said Champlain, 'like brute beasts.' It was Champlain's ardent desire to reclaim these beings of the wilderness. The salvation of one soul was to him 'of more value than the conquest of an empire.' Not far from his native town of Brouage there was a community of the Recollets, and, during one of his periodical sojourns in France, he invited them to send missionaries to Canada.



The Jesus of History
By Randall Cantuar
244 Pages, $17.24 USD, ISBN: 1484922131
I regard it as a high privilege to be associated with this volume. Many who know and value Mr Glover's work on The Conflict of Religions in the Early Roman Empire must have wistfully desired to secure from his graphic pen just such a book as is here given to the world. He possesses the rare power of reverently handling familiar truths or facts in such manner as to make them seem to be almost new. There are few gifts more precious than this at a time when our familiarity with the greatest and most sacred of all narratives is a chief hindrance to our ready appreciation of its living power.

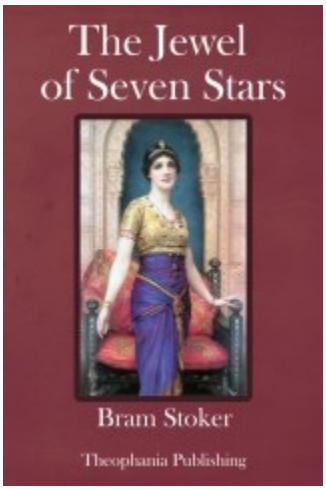


The Jew

By Joseph Ignatius Kraszewski

366 Pages, $25.24 USD, ISBN: 146802633X

On a warm afternoon in the autumn of 1860 the best, or rather the only, inn of Sestri-Ponente was full of people. Firpo, the host of the Albergo e Trattoria della Grotta, was little accustomed to such a crowd, except on Sundays and fête-days. As this was only a simple Thursday, his sunburnt cheeks reflected a smile of satisfaction. Sestri-Ponente is situated an hour's distance from Genoa, on the sea-shore "in vincinanza del mare" and on the grand route from Savona to Nice. Sestri, beside dock-yards for the construction of small merchant-vessels, which is its chief source of wealth, possesses also a fine beach where it is possible to bathe in safety. It has this one superiority over Genoa "la superba" which lacks sea-bathing.

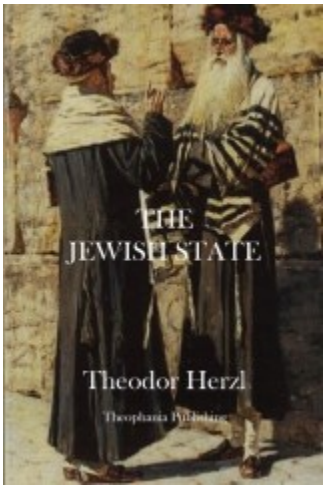


The Jewel of Seven Stars

By Bram Stoker

428 Pages, $25.25 USD, ISBN: 1981467467

A Summons in the Night It all seemed so real that I could hardly imagine that it had ever occurred before; and yet each episode came, not as a fresh step in the logic of things, but as something expected. It is in such a wise that memory plays its pranks for good or ill; for pleasure or pain; for weal or woe. It is thus that life is bittersweet, and that which has been done becomes eternal. Again, the light skiff, ceasing to shoot through the lazy water as when the oars flashed and dripped, glided out of the fierce July sunlight into the cool shade of the great drooping willow branches—I standing up in the swaying boat, she sitting still and with deft fingers guarding herself from stray twigs or the freedom of the resilience of moving boughs.

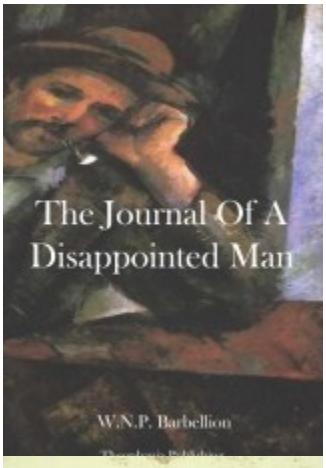


The Jewish State

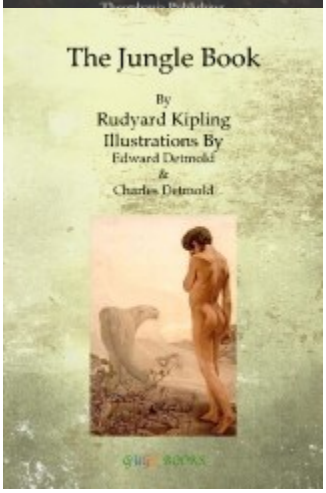
By Theodor Herzl

152 Pages, $15.24 USD, ISBN: 1484921879

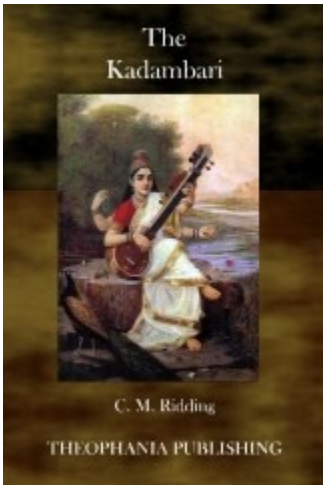
Theodore Herzl was the first Jew who projected the Jewish question as an international problem. 'The Jewish State,' written fifty years ago, was the first public expression, in a modern language, by a modern Jew, of a dynamic conception of how the solution of the problem could be accelerated and the ancient Jewish hope, slumbering in Jewish memory for two thousand years, could be fulfilled. In 1882, Leo Pinsker, a Jewish physician of Odessa, disturbed by the pogroms of 1881, made a keen analysis of the position of the Jews, declared that anti-Semitism was a psychosis and incurable, that the cause of it was the abnormal condition of Jewish life, and that the only remedy for it was the removal of the cause through self-help and self-liberation.



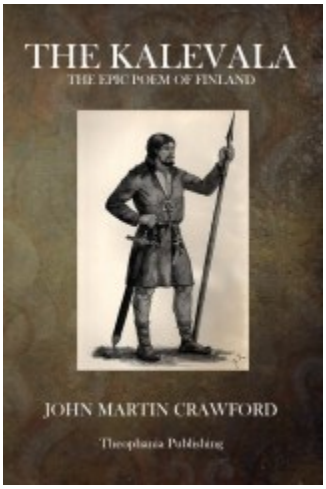
The Journal Of A Disappointed Man
By W. N.P. Barbellion
386 Pages, $20.24 USD, ISBN: 1478269596
"I returned, and saw under the sun, that the race is not to the swift, nor the battle to the strong, neither yet bread to the wise, nor yet riches to men of understanding, nor yet favour to men of skill; but time and chance happeneth to them all. "For man also knoweth not his time; as the fishes that are taken in an evil net, and as the birds that are caught in the snare; so are the sons of men snared in an evil time, when it falleth suddenly upon them."



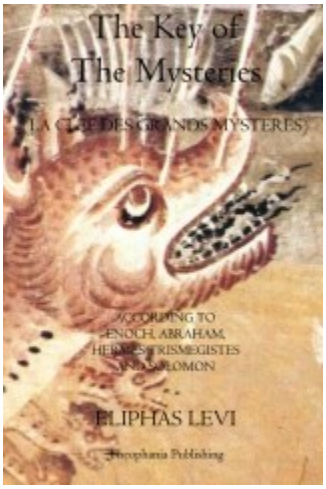
The Jungle Book
By Rudyard Kipling
274 Pages, $20.24 USD, ISBN: 1515291537 GUGA BOOKS
The Law of the Jungle, which never orders anything without a reason, forbids every beast to eat Man except when he is killing to show his children how to kill, and then he must hunt outside the hunting-grounds of his pack or tribe. The real reason for this is that man-killing means, sooner or later, the arrival of white men on elephants, with guns, and hundreds of brown men with gongs and rockets and torches. Then everybody in the jungle suffers. The reason the beasts give among themselves is that Man is the weakest and most defenseless of all living things, and it is unsportsmanlike to touch him. They say too -- and it is true -- that man-eaters become mangy, and lose their teeth.



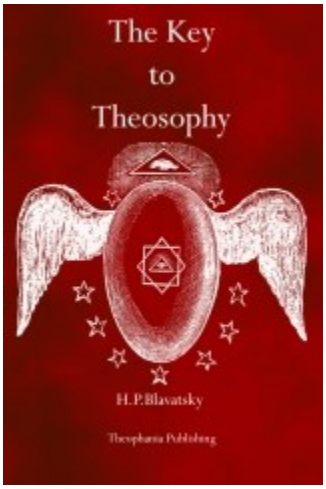
The Kadambari
By C.M. Ridding
264 Pages, $22.24 USD, ISBN: 1515365859
Kadambari is a romantic novel in Sanskrit. It was substantially composed by Banabhatta in the first half of the 7th century A.D., who did not survive to see it through completion. The novel was completed by Banabhatta's son Bhushanabhatta, according to the plan laid out by his late father. It is conventionally divided into Purvabhaga (earlier part) written by Banabhatta, and Uttarabhaga (latter part) by Bhushanabhatta. (An alternate tradition gives the son's name as Pulindabhatta.) The plot of the novel has probably been adapted from the story of King Sumanas from Gunadhya's 'Brihatkatha' (a conjectural collection of stories in the extinct Paishachi language). This story also appears in Somadeva's 'Kathasaritsagara' (which is believed to be a Sanskrit precis of Gunadhya's work).



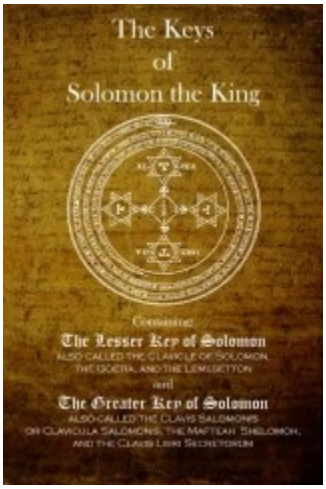
The Kalevala: The Epic Poem of Finland
By John Martin Crawford
708 Pages, $36.24 USD, ISBN: 1503050343
The following translation was undertaken from a desire to lay before the English-speaking people the full treasury of epical beauty, folklore, and mythology comprised in The Kalevala, the national epic of the Finns. A brief description of this peculiar people, and of their ethical, linguistic, social, and religious life, seems to be called for here in order that the following poem may be the better understood. The Finns are a very ancient people. It is claimed, too, that they began earlier than any other European nation to collect and preserve their ancient folk-lore.



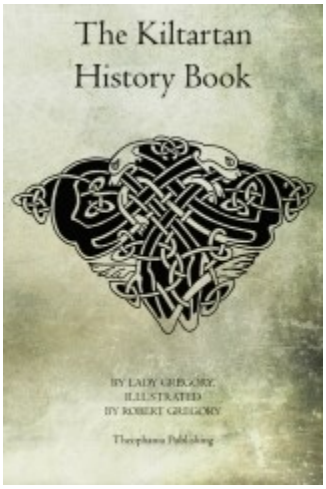
The Key of The Mysteries: La Clef Des Grands Mysteres
By Eliphas Levi
262 Pages, $18.24 USD, ISBN: 1926842596
On the brink of mystery, the spirit of man is seized with giddiness. Mystery is the abyss which ceaselessly attracts our unquiet curiosity by the terror of its depth. The greatest mystery of the infinite is the existence of Him for whom alone all is without mystery. Comprehending the infinite which is essentially incomprehensible, He is Himself that infinite and eternally unfathomable mystery; that is to say, that He is, in all seeming, that supreme absurdity in which Tertullian believed. Necessarily absurd, since reason must renounce for ever the project of attaining to Him; necessarily credible, since science and reason, far from demonstrating that He does not exist, are dragged by the chariot of fatality to believe that He does exist, and to adore Him themselves with closed eyes.



The Key to Theosophy
By H.P. Blavatsky
316 Pages, $22.24 USD, ISBN: 1770831770
It is not a complete or exhaustive textbook of Theosophy, but only a key to unlock the door that leads to the deeper study. It traces the broad outlines of the Wisdom Religion, and explains its fundamental principles; meeting, at the same time, the various objections raised by the average Western inquirer, and endeavoring to present unfamiliar concepts in a form as simple and in language as clear as possible. That it should succeed in making Theosophy intelligible without mental effort on the part of the reader, would be too much to expect; but it is hoped that the obscurity still left is of the thought and not of the language, is due to depth and not to confusion.



The Keys of Solomon the King
By Solomon the King
516 Pages, $30.24 USD, ISBN: 1770832718
The Keys of Solomon are two distinct grimoires, or books on magic incorrectly attributed to King Solomon. They likely date back to the 14th or 15th century Italian Renaissance, and present a typical example of Renaissance magic. It is possible that the Greater Key of Solomon inspired later works, particularly the 17th century grimoire also known as Clavicula Salomonis or The Lesser Key of Solomon, although there are many differences between the books. Many such grimoires attributed to King Solomon were written in this period, ultimately influenced by earlier (High Medieval) works of the Jewish kabbalists and Arab alchemists, which in turn hark back to Greco-Roman magic of Late Antiquity. Several versions of the Key of Solomon exist, in various translations, and with minor or significant differences.



The Kiltartan History Book
By Lady Gregory
96 Pages, $16.24 USD, ISBN: 146802597X
"As to the old history of Ireland, the first man ever died in Ireland was Partholan, and he is buried, and his greyhound along with him, at some place in Kerry. The Nemidians came after that and stopped for a while, and then they all died of some disease. And then the Firbolgs came, the best men that ever were in Ireland, and they had no law but love, anad there was never such peace and plenty in Ireland. What religion had they? None at all. And there was a low-sized race came that worked the land of Ireland a long time; they had their time like the others.

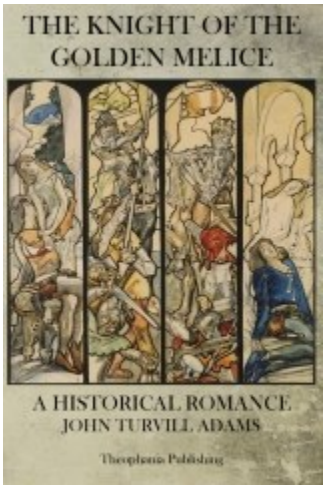
"BUT, my dear," said Mrs. Culverin, with a tiny gasp, "you can't actually mean—a tail!" Mrs. Dingle nodded impressively. "Exactly. I've seen him. Twice. Paris, of course, and then, a command appearance at Rome—we were in the Royal box. He conducted—my clear, you've never heard such effects from an orchestra—and, my dear," she hesitated slightly, "he conducted with it." "How perfectly, fascinatingly too horrid for words!" said Mrs. Culverin in a dazed but greedy voice. "We must have him to dinner as soon as he comes over—he is coming over, isn't he?" "The twelfth," said Mrs. Dingle with a gleam in her eyes.



The Knight of the Golden Melice: A Historical Romance
By John Turvill Adams
474 Pages, $22.24 USD, ISBN: 1470086522
The beginning of the 17th century is an interesting epoch in American annals. Although the Atlantic coast of that vast country now comprised within the limits of the United States and Canada had previously been traced by navigators, and some little knowledge acquired of the tribes of red men who roamed its interminable forests, no attempt at colonization worthy of the name had succeeded. The principal, if not the only advantage derived from the discovery of North America, came from the fisheries of Newfoundland and Labrador, frequented mostly by the adventurous mariners of England, France and Spain.

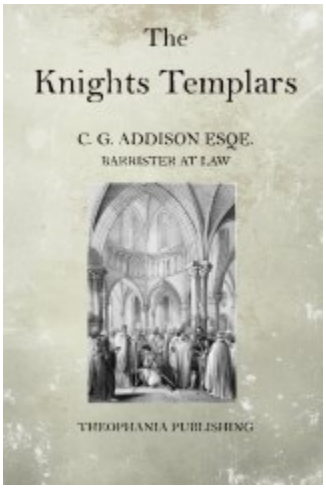
'Well, I think it is a pretty good barn,' rejoined Charlie Macomber, with apparent unconcern. At the same time a secret pride was dwelling in his bosom, that suddenly made his jacket too tight for him. If Seamont, in which the barn was located, was one of the best of towns in the opinion of its inhabitants, this particular barn, in Charlie's estimate, was one of the best structures of that sort in the place. Below, on the first floor, there was a chance of a stall for Brindle, now grazing in a little pasture adjoining the garden. There was, also, a stall for a horse, and an extra stall, though empty, always gives dignity to a barn, suggesting what has been, and, while speaking of a glory departed, hints of that which may be another day.



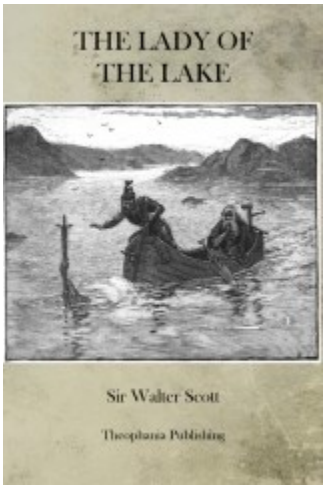
The Knights Templars
By C.G. Addison Esq.
410 Pages, $25.24 USD, ISBN: 1519287682
Having some years ago, during a pilgrimage to the Holy City of Jerusalem, gained admission to the courts of the ancient Temple of the Knights Templars, which still exists on Mount Moriah in a perfect state of preservation as a Mussulman Mosque, and having visited many of the ruined fortresses and castles of the ancient order of the Temple, whose shattered walls are still to be seen at intervals in Palestine and in Syria, from Gaza to Antioch, and from the mountains of the Dead Sea to the shores of the Mediterranean, I naturally became greatly interested in the history of the order, and in the numerous remains and memorials of the Knights Templars still to be met with in various stages of decay and ruin in almost every part of Europe.

The Kybalion

By Three Initiates

98 Pages, $20.24 USD, ISBN: 1926842138

The Kybalion is a volume of Hermetic Philosophy. Anonymously printed in 1908, the book claims to be the essence of the teachings of Hermes Trismegistus. Many of its ideas are relatively modern concepts arising from the New Thought movement. The Kybalion will make its appearance in one's life when the time is appropriate, and never before. The "Three Initiates" who authored The Kybalion chose to remain anonymous. As a result, a great deal of speculation has been made about who actually wrote the book.

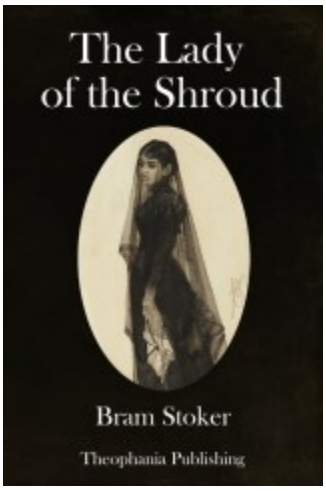


The Lady of the Lake

By Sir Walter Scott

310 Pages, $22.24 USD, ISBN: 1470086298

The Lady of the Lake is the name of several related characters who play parts in the Arthurian legend. These characters' roles include giving King Arthur his sword Excalibur, enchanting Merlin, and raising Lancelot after the death of his father. Different writers and copyists give her name variously as Nimue, Viviane, Elaine, Niniane, Nivian, Nyneve, Evienne and other variations Versions of the Lady (or Ladies) of the Lake appear in many other works of Arthurian fiction, including novels, films, television series, stage musicals, comics, and games. Though her identity may change, her role as a significant figure in the lives of both Arthur and Merlin remains consistent.



The Lady of the Shroud

By Bram Stoker

560 Pages, $29.25 USD, ISBN: 1981468544

A strange story comes from the Adriatic. It appears that on the night of the 9th, as the Italia Steamship Company’s vessel “Victorine” was passing a little before midnight the point known as “the Spear of Ivan,” on the coast of the Blue Mountains, the attention of the Captain, then on the bridge, was called by the look-out man to a tiny floating light close inshore. It is the custom of some South-going ships to run close to the Spear of Ivan in fine weather, as the water is deep, and there is no settled current; also there are no outlying rocks. Indeed, some years ago the local steamers had become accustomed to hug the shore here so closely that an intimation was sent from Lloyd’s that any mischance under the circumstances would not be included in ordinary sea risks.

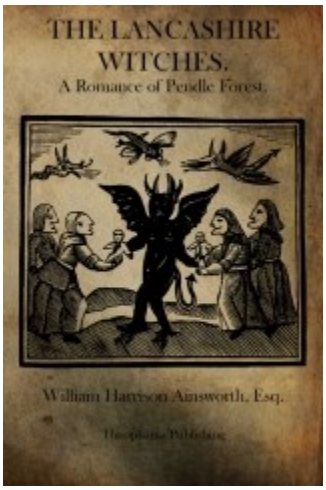
Adam Salton sauntered into the Empire Club, Sydney, and found awaiting him a letter from his grand-uncle. He had first heard from the old gentleman less than a year before, when Richard Salton had claimed kinship, stating that he had been unable to write earlier, as he had found it very difficult to trace his grand-nephew's address. Adam was delighted and replied cordially; he had often heard his father speak of the older branch of the family with whom his people had long lost touch. Some interesting correspondence had ensued. Adam eagerly opened the letter which had only just arrived, and conveyed a cordial invitation to stop with his grand-uncle at Lesser Hill, for as long a time as he could spare.



The Lancashire Witches: A Romance o
By William Harrison Ainsworth
634 Pages, $32.24 USD, ISBN: 177083270X
The trials of the Pendle witches in 1612 are among the most famous witch trials in English history, and some of the best recorded of the 17th century. The twelve accused lived in the area around Pendle Hill in Lancashire, and were charged with the murders of ten people by the use of witchcraft. All but two were tried at Lancaster Assizes in August 1612, along with the Samlesbury witches and others, in a series of trials that have become known as the Lancashire witch trials. One was tried at York Assizes during July 1612, and another died in prison. Of the eleven individuals who went to trial, nine women and two men, ten were found guilty and executed by hanging and one was found not guilty.

. The afternoon sun crept into the Piazzetta dei Banchi Nuovi, broadening from Cardone's, the engraver, to Cappa's, the chemist, lengthening on from there up the whole Santa Chiara Road, spreading a light of unusual gaiety over the street, which always wears, even in its most frequented hours, a frigid, claustral aspect. But the great morning traffic, of people coming from the northern districts of the town—Avvocata, Stella, San Carlo all' Arena, San Lorenzo—to go down to the lower quarters of Porto, Pendino and Mercato, or vice versâ, had been slowly slackening since mid-day; the coming and going of carts, carriages and pedlars had ceased; everybody seemed to be taking short cuts by the Chiostro di Santa Chiara ...

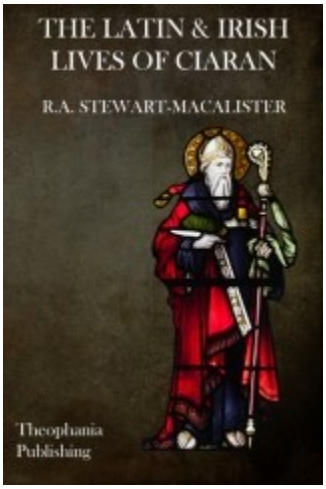
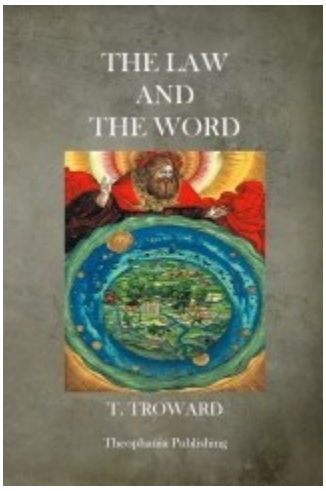
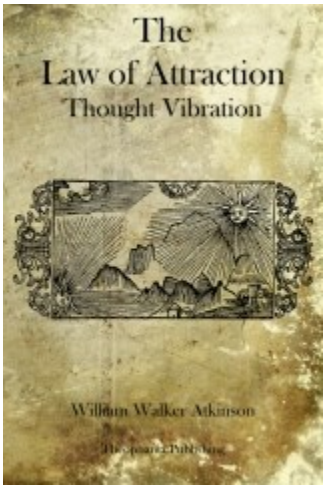
I VISITED Naples in the year 1818. On the 8th of December of that year, my companion and I crossed the Bay, to visit the antiquities which are scattered on the shores of Baiae. The translucent and shining waters of the calm sea covered fragments of old Roman villas, which were interlaced by sea-weed, and received diamond tints from the chequering of the sun-beams; the blue and pellucid element was such as Galatea might have skimmed in her car of mother of pearl; or Cleopatra, more fitly than the Nile, have chosen as the path of her magic ship.



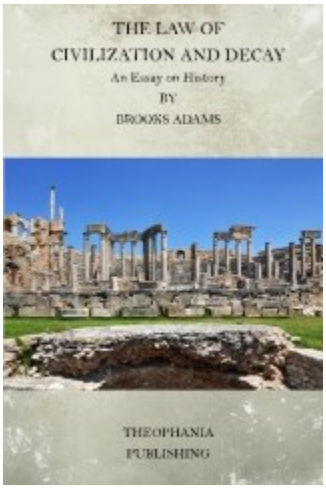
The Latin & Irish Lives of Ciaran
By R.A. Sterwart-Macalister
170 Pages, $15.24 USD, ISBN: 1484921801
Of all the saints of Ireland, whose names are recorded in the native Martyrologies, probably there were none who made so deep an impression upon the minds of their fellow-countrymen as did Ciaran of Clonmacnois. He stands, perhaps, second only to Brigit of Kildare in this respect; for Patrick was a foreigner, and Colum Cille accomplished his work and exercised his influence outside the shores of Ireland. Doubtless much of the importance of Ciaran is reflected back from the outstanding importance of his great foundation - the monastic university, as it is fair to call it, of Cluain maccu Nois (in an English setting spelt Clonmacnois), on the shore of the Shannon.



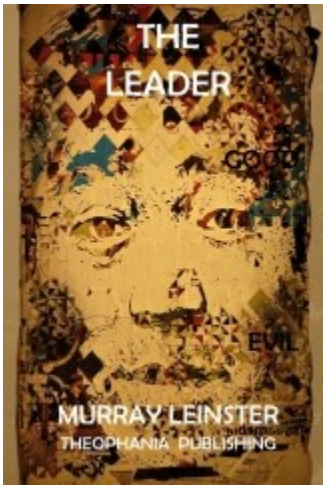
The Law and the Word
By T. Troward
142 Pages, $15.24 USD, ISBN: 1484921720
If I were asked what, in my opinion, distinguishes the thought of the present day from that of a previous generation, I should feel inclined to say, it is the fact that people are beginning to realize that Thought is a power in itself, one of the great forces of the Universe, and ultimately the greatest of forces, directing all the others. This idea seems to be, as the French say, 'in the air,' and this very well expresses the state of the case - the idea is rapidly spreading through many countries and through all classes, but it is still very much 'in the air.' It is to a great extent as yet only in a gaseous condition, vague and nebulous, and so not leading to the practical results, both individual and collective, which might be expected of it, if it were consolidated into a more workable form.



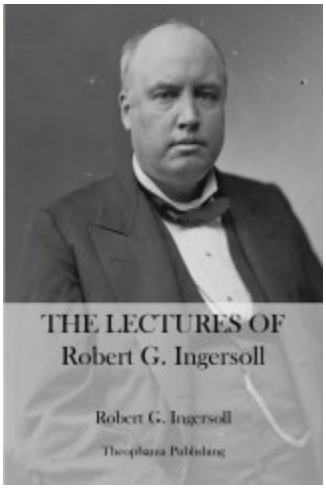
The Law of Attraction: Thought Vibration
By William Walker Atkinson
74 Pages, $16.24 USD, ISBN: 1770833374
THE Universe is governed by Law - one great Law. Its manifestations are multiform, but viewed from the Ultimate there is but one Law. We are familiar with some of its manifestations, but are almost totally ignorant of certain others. Still we are learning a little more every day, the veil is being gradually lifted. We speak learnedly of the Law of Gravitation, but ignore that equally wonderful manifestation, THE LAW OF ATTRACTION IN THE THOUGHT WORLD. We are familiar with that wonderful manifestation of Law which draws and holds together the atoms of which matter is composed, we recognize the power of the law that attracts bodies to the earth, that holds the circling worlds in their places, but we close our eyes to the mighty law that draws to us the things we desire or fear, that makes or mars our lives.



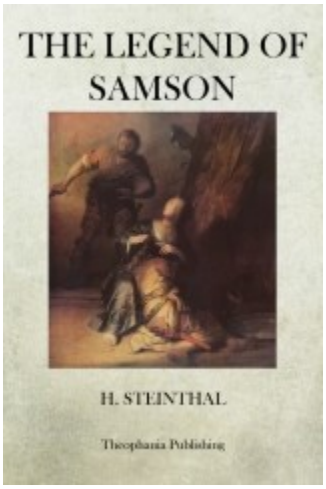
The Law of Civilization and Decay: An Essay on History
By Brooks Adams
396 Pages, $25.24 USD, ISBN: 151928750X
In offering to the public a second edition of The Law of Civilization and Decay I take the opportunity to say emphatically that such value as the essay may have lies in its freedom from any preconceived bias. All theories contained in the book, whether religious or economic, are the effect, and not the cause, of the way in which the facts unfolded themselves. I have been passive. The value of history lies not in the multitude of facts collected, but in their relation to each other, and in this respect an author can have no larger responsibility than any other scientific observer. If the sequence of events seems to indicate the existence of a law governing social development, such a law may be suggested, but to approve or disapprove of it would be as futile as to discuss the moral bearings of gravitation.



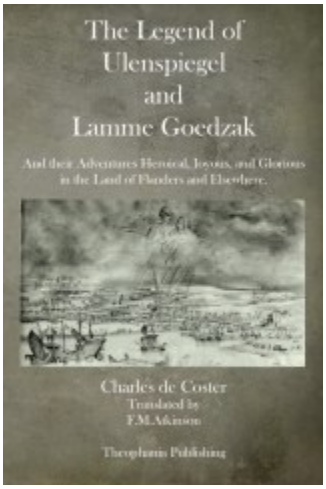
The Leader
By Murray Leinster
38 Pages, $16.24 USD, ISBN: 1519287674
The career of The Leader remains one of the mysteries of history. This man, illegitimate and uneducated, hysterical and superstitious, gathered about him a crowded following of those who had been discontented, but whom he turned into fanatics. Apparently by pure force of personality he seized without resistance the government of one of the world's great nations. So much is unlikely enough. But as the ruler of a civilized country he imposed upon its people the absolute despotism of a primitive sultanate. He honeycombed its society with spies.



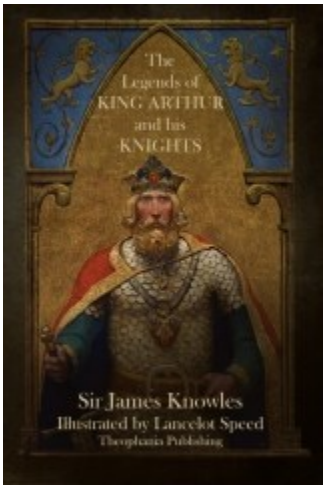
The Lectures Of Robert G. Ingersoll
By Robert G. Ingersoll
638 Pages, $32.24 USD, ISBN: 1470086247
Though for many years the most noted of American infidels, Colonel Ingersoll was born and reared in a devoutly Christian household. His father, John Ingersoll, was a Congregationalist minister and a man of mark in his time, a deep thinker, a logical and eloquent speaker, broad minded and generously tolerant of the views of others. The popular impression which credits Ingersoll's infidelity in the main to his father's severe orthodoxy and the austere and gloomy surroundings in which his boyhood was spent is wholly wrong. On the contrary the elder Ingersoll's liberal views were a source of constant trouble between him and his narrow-minded parishioners.



The Legend of Samson
By H. Steinthal
66 Pages, $14.24 USD, ISBN: 1470086212
WHEN an author can presume that his readers share his views on things in general, and also accept like principles respecting the special sphere to which his subject belongs, it may be fitting to descend from the general to the particular. But when, as is now more frequently the case, no such assumption can be made, the opposite course, from the particular to the general, is preferable for the sake of both the matter and the manner of the investigation itself. I shall therefore adopt it. I shall, therefore, at the outset leave out of the question what view it is possible to hold respecting the growth of the people of Israel, and especially of their monotheism.



The Legend of Ulenspiegel and Lamme Goedzak: And their Adventures Heroical, Joyous, and Glorious in the Land of Flanders and Elsewhere.
By Charles de Coster
616 Pages, $24.24 USD, ISBN: 1484921585
Thyl Ulenspiegel is made into a Protestant hero of the time of the Dutch War of Independence (or rather, of the major part played in that war by the Flemish, even though Flanders itself was doomed to remain under Spanish rule). De Coster incorporated in his book many of the original amusing Ulenspiegel tales, side by side with far from funny material - for example, graphic depictions of tortures by the inquisition and auto de fe. As depicted by De Coster, Ulenspiegel carries in a locket around his neck the ashes of his father, burned at the stake on charges of heresy - a feature never hinted at in any of the original folk tales.



The Legends of King Arthur and His Knights
By Sir James Knowles
342 Pages, $19.24 USD, ISBN: 1484921429

The Publishers have asked me to authorise a new edition, in my own name, of this little book - now long out of print - which was written by me thirty-five years ago under the initials J.T.K. In acceding to their request I wish to say that the book as now published is merely a word-for-word reprint of my early effort to help to popularise the Arthur legends. It is little else than an abridgment of Sir Thomas Malory's version of them as printed by Caxton - with a few additions from Geoffrey of Monmouth and other sources - and an endeavour to arrange the many tales into a more or less consecutive story. The chief pleasure which came to me from it was, and is, that it began for me a long and intimate acquaintance with Lord Tennyson, to whom, by his permission, I Dedicated it before I was personally known to him.

The Legends of the Jews FOUR VOLUME SET
By Louis Ginzberg
Vol I 506 Pages, $28.24 USD, ISBN: 1478229829
Vol II 442 Pages, $28.24 USD, ISBN: 1478229926
Vol III 574 Pages, $28.24 USD, ISBN: 1478230118
Vol IV 500 Pages, $28.24 USD, ISBN: 1478230134

The arrangement and presentation of the material in this volume are the same as in Volume I. In both my efforts have been directed to bringing together as full as possible a collection of Jewish legends that deal with Biblical personages and events. The sources of those legends and explanations of some of them will be given in the last volume of the entire work, and the numbers throughout the work refer to the notes in the concluding volume. My original intention was to continue Volume II up to the death of Moses, but the legendary material clustering around the life and death of Moses is so abundant that practical considerations demanded the division of this material, in order not to make the second volume too bulky. The division chosen is a natural one. This volume closes with the Exodus, and contains the deeds of Moses in Egypt, while the following volume will deal with Moses in the desert.

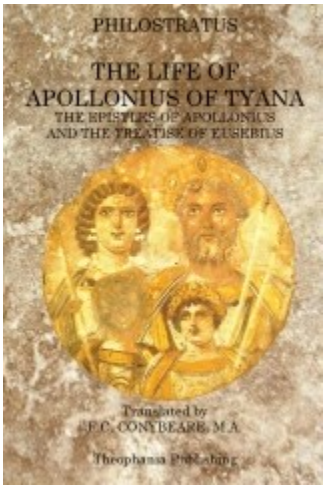
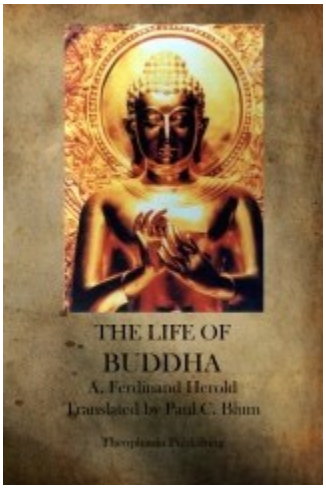
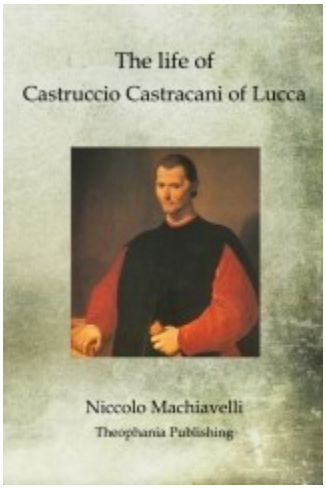
The Life And Legends Of Saint Francis of Assisi
By Father Candide Chalippe
418 Pages, $25.24 USD, ISBN: 1770833382
The Life and Legends of St. Francis of Assisi by Father Candide Chalippe was first published at Paris in 1727. It is not only well written and reliable withal, but also instructive, elevating and inspiring. The facts and legends mentioned are drawn from the oldest and most reliable sources. The abundance of incidents and anecdotes not to be found elsewhere make the volume eminently interesting, while the reflexions and applications which the author now and then interweaves with the narrative are so replete with practical hints on spiritual life, that they will undoubtedly produce the best spiritual results in the reader. The style though simple, at times graphic, is very pleasing; the narrative flows on with equal ease and freedom.



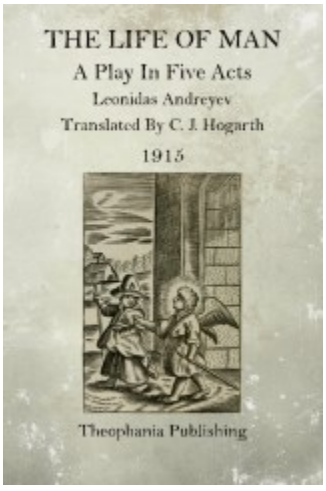
The Life of Apollonius of Tyana: The Epistles of Apollonius and the Treatise of Eusebius
By F C. Conybeare , M.A
314 Pages, $22.24 USD, ISBN: 1770831592
THE Life of Apollonius of Tyana has only been once translated in its entirety into English, as long ago as the year 1811, by an Irish clergyman of the name of E. Berwick. It is to be hoped therefore that the present translation will be acceptable to the English reading public; for there is in it much that is very good reading, and it is lightly written. Of its author, Philostratus, we do not know much apart from his own works, from which we may gather that he was born in the island of Lemnos about the year 172 of our era, that he went to Athens as a young man to study rhetoric, and later on to Rome.



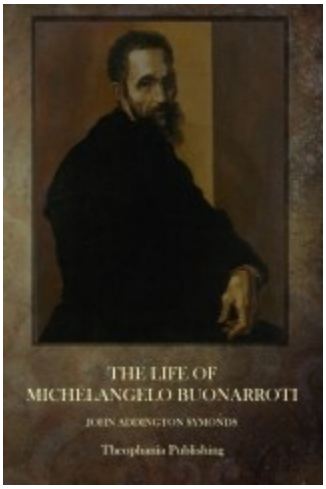
The Life Of Buddha
By A. Ferdinand Herold
202 Pages, $19.24 USD, ISBN: 1770833390
This Life of Buddha is not a work of fiction, and I think it would be well to mention the books, both ancient and modern, which I have most frequently consulted. I have, for the most part, relied upon the LALITA-VISTARA. This book is a jumbled collection of legends and scholastic dissertations, and yet in these pages are preserved many precious traditions regarding the Buddha's origin, his childhood and his youth, and here, likewise, we are told of his early education and of his first deeds. I have also made great use of an excellent poem, the BUDDHACARITA of Asvaghosa.



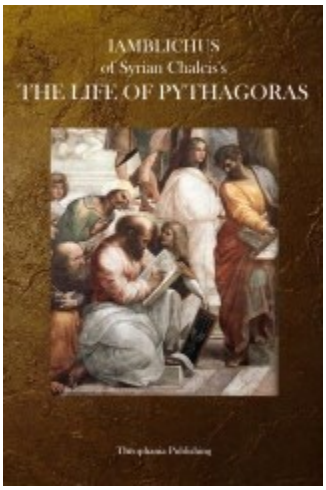
The life of Castruccio Castracani of Lucca
By Niccolo Machiavelli
44 Pages, $17.24 USD, ISBN: 1468026321
It appears, dearest Zanobi and Luigi, a wonderful thing to those who have considered the matter, that all men, or the larger number of them, who have performed great deeds in the world, and excelled all others in their day, have had their birth and beginning in baseness and obscurity; or have been aggrieved by Fortune in some outrageous way. They have either been exposed to the mercy of wild beasts, or they have had so mean a parentage that in shame they have given themselves out to be sons of Jove or of some other deity. It would be wearisome to relate who these persons may have been because they are well known to everybody, and, as such tales would not be particularly edifying to those who read them, they are omitted.



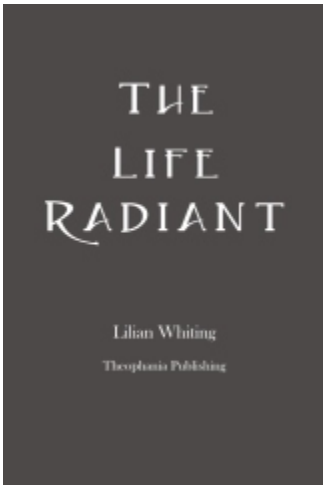
The Life of Man: A Play in Five Acts
By Leonidas Andreyev
112 Pages, $16.24 USD, ISBN: 1519287232
A Being, clad in Grey, is speaking. He is speaking of the Life of Man. [The stage presents the semblance of a large, square, empty room which has neither doors nor windows, and within which all is uniformly grey and misty. The ceiling, walls, and floor are grey, and from some hidden source there flows a stream of dim, unflickering light, of the same dull, monotonous, elusive colour. This light throws no shadows, nor is reflected back from any point. [Without a sound the Being in Grey detaches himself from the wall, with which he has almost seemed to mingle. He is clothed in a loose, grey, shapeless habit, roughly outlining a gigantic frame, and his head is veiled in a cowl of the all-pervading hue.



The Life Of Michelangelo Buonarroti
By John Addington Symonds
534 Pages, $30.24 USD, ISBN: 1503050521
Michelangelo di Lodovico Buonarroti Simoni, commonly known as Michelangelo, was an Italian sculptor, painter, architect, poet, and engineer of the High Renaissance who exerted an unparalleled influence on the development of Western art. Despite making few forays beyond the arts, his versatility in the disciplines he took up was of such a high order that he is often considered a contender for the title of the archetypal Renaissance man, along with his fellow Italian Leonardo da Vinci. Michelangelo was considered the greatest living artist in his lifetime, and ever since then he has been held to be one of the greatest artists of all time. A number of his works in painting, sculpture, and architecture rank among the most famous in existence.

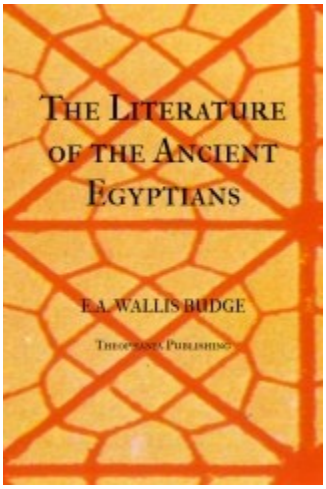


The Life of Pythagoras
By Iamblichus of Syrian Chalcis
328 Pages, $25.24 USD, ISBN: 1770830294
Pythagoras of Samos was an Ionian Greek philosopher and founder of the religious movement called Pythagoreanism. Most of our information about Pythagoras was written down centuries after he lived, thus very little reliable information is known about him. He was born on the island of Samos, and may have travelled widely in his youth, visiting Egypt and other places seeking knowledge. Around 530 BC, he moved to Croton, a Greek colony in southern Italy, and there set up a religious sect. His followers pursued the religious rites and practices developed by Pythagoras, and studied his philosophical theories.

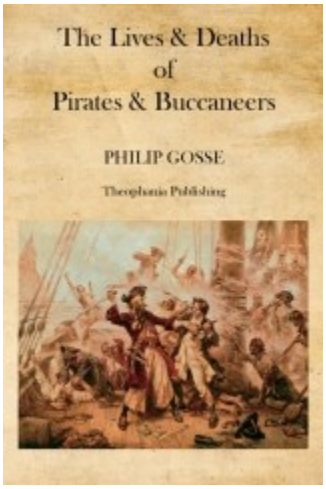


The Life Radiant
By Lilian Whiting
290 Pages, $18.24 USD, ISBN: 1478398965
The Life Radiant is that transfiguration of the ordinary daily events and circumstances which lifts them to the spiritual plane and sees them as the signs and the indications of the divine leading. Every circumstance thus becomes a part of the revelation; and to constantly live in this illuminated atmosphere is to invest all experiences with a kind of magical enchantment. Life prefigures itself before us as a spiritual drama in which we are, at once, the actors and the spectators. The story of living goes on perpetually. The days and the years inevitably turn the pages and open new chapters. Nothing is ever hopeless, because new combinations and groupings create new results. The forces that determine his daily life are partly with man and partly with God.

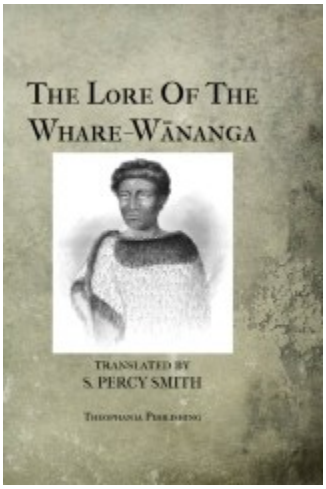
The Lion's Skin
By Rafael Sabatini
350 Pages, $23.24 USD, ISBN: 1519287550
Mr. Caryll, lately from Rome, stood by the window, looking out over the rainswept, steaming quays to Notre Dame on the island yonder. Overhead rolled and crackled the artillery of an April thunderstorm, and Mr. Caryll, looking out upon Paris in her shroud of rain, under her pall of thundercloud, felt himself at harmony with Nature. Over his heart, too, the gloom of storm was lowering, just as in his heart it was still little more than April time. Behind him, in that chamber furnished in dark oak and leather of a reign or two ago, sat Sir Richard Everard at a vast writing-table all a-litter with books and papers; and Sir Richard watched his adoptive son with fierce, melancholy eyes, watched him until he grew impatient of this pause. "Well?" demanded the old baronet harshly.



The Literature of the Ancient Egypt
By Wallis Budge
270 Pages, $21.24 USD, ISBN: 1475257481
This little book is intended to serve as an elementary introduction to the study of Egyptian Literature. Its object is to present a short series of specimens of Egyptian compositions, which represent all the great periods of literary activity in Egypt under the Pharaohs, to all who are interested in the study of the mental development of ancient nations. It is not addressed to the Egyptological specialist, to whom, as a matter of course, its contents are well known, and therefore its pages are not loaded with elaborate notes and copious references. It represents, I believe, the first attempt made to place before the public a summary of the principal contents of Egyptian Literature in a handy and popular form.



The Lives & Deaths of Pirates & Buccaneers
By Philip Gosse
412 Pages, $25.24 USD, ISBN: 1475012314
Let it be made clear at the very outset of this Preface that the pages which follow do not pretend to be a history of piracy, but are simply an attempt to gather together, from various sources, particulars of those redoubtable pirates and buccaneers whose names have been handed down to us in a desultory way. I do not deal here with the children of fancy; I believe that every man, or woman too—since certain of the gentler sex cut no small figure at the game—mentioned in this volume actually existed. A time has come when every form of learning, however preposterous it may seem, is made as unlaborious as possible for the would-be student.

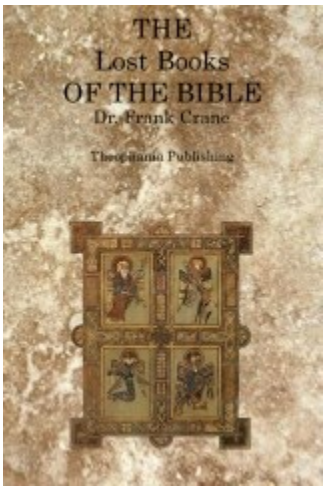


The Lore Of The Whare-Wananga

By H. T. Whatahoro

158 Pages, $17.24 USD, ISBN: 1475257538

The old priest Te Matorohanga died in 1884, and Nepia Pohuhu in 1882, both being at the time of their deaths about eighty years old. It will thus be seen that they had been taught in the Maori College long before the influences of Christianity reached their tribe—indeed, it was not till about the end of the thirties of last century, that the tribes of Wairarapa had Christian teachers amongst them, though Christianity had been introduced in the north in 1814, but little of its doctrines understood till many years afterwards. The matter written down by H. T. Whatahoro during those years has remained in his possession for over fifty years; it is contained in several volumes of folio size, much of which has recently been copied under the auspices of the tribal Committee known as 'Tane-nui-a-rangi,' and the copies deposited in the Dominion Museum, Wellington.

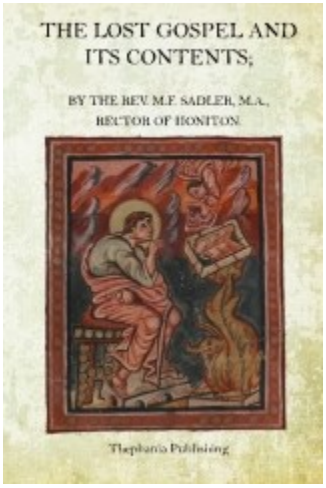


The Lost Books of the Bible

By Dr. Frank Crane

414 Pages, $24.24 USD, ISBN: 1770831460

YOU will find between these covers all the ecclesiastical writings of early Christian authorities that are known to exist, and yet were omitted from the authorized New Testament. They are published here as a matter of record. Whether they are canonical or not, at least these writings are of very great antiquity. Origins are noted in paragraphs at the front of each book. This will enable the reader to form his own conclusions as to the genuineness of the writings. These writings are a vivid picture of the minds of men in the post-Apostolic period of the Church. Discount the statements from the historical viewpoint as you will—there remains in these gospels and epistles an earnestness of purpose, and zeal to express a message, similar to that of our authorized Bible.

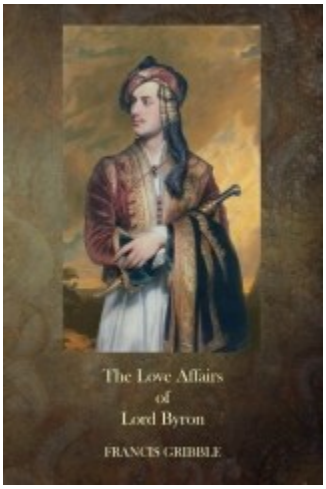


The Lost Gospel and its Contents

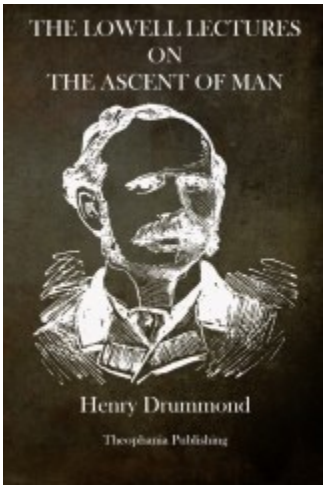
By Rev M.F. Sadler

254 Pages, $20.24 USD, ISBN: 1518652360

This book is entitled "The Lost Gospel" because the book to which it is an answer is an attempt to discredit the Supernatural element of Christianity by undermining the authority of our present Gospels in favour of an earlier form of the narrative which has perished. It seemed to me that, if the author of "Supernatural Religion" proved his point, and demonstrated that the Fathers of the Second Century quoted Gospels earlier than those which we now possess, then the evidence for the Supernatural itself ...

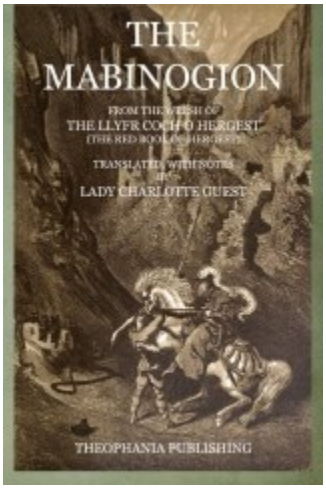


The Love Affairs of Lord Byron
By Francis Gribble
450 Pages, $26.24 USD, ISBN: 150305067X
Like Chateaubriand, he might have spoke of 'a procession of women' as the great panoramic effect of his career. He differed from Chateaubriand, however, in the first place, in not professing to be very much concerned by the pageant, and, in the second place, in being, in reality, very deeply affected by it. Chateaubriand kept his emotions well in hand, exaggerating them in retrospect for the sake of literary effect, picturing the sensibility of his heart in polished phrases, but never giving the impression of a man who has suffered through his passions, or been swept off his feet by them, or diverted by them from the pursuit of ambition or the serene cult of the all-important ego.



The Lowell Lectures on the Ascent of Man
By Henry Drummond
262 Pages, $17.24 USD, ISBN: 1484921313
"THE more I think of it," says Mr. Ruskin, "I find this conclusion more impressed upon me--that the greatest thing a human soul ever does in this world is to see something, and tell what it saw in a plain way." In these pages an attempt is made to tell "in a plain way" a few of the things which Science is now seeing with regard to the Ascent of Man. Whether these seeings are there at all is another matter. But, even if visions, every thinking mind, through whatever medium, should look at them. What Science has to say about himself is of transcendent interest to Man, and the practical bearings of this theme are coming to be more vital than any on the field of knowledge.

The Luminous Face
By Carolyn Wells
368 Pages, $24.25 USD, ISBN: 1981743227
“A bit thick, I call it,” Pollard looked round the group; “here’s Mellen been dead six weeks now, and the mystery of his taking-off still unsolved.” “And always will be,” Doctor Davenport nodded. “Mighty few murders are brought home to the villains who commit them.” “Oh, I don’t know,” drawled Phil Barry, an artist, whose dress and demeanor coincided with the popular idea of his class. “I’ve no head for statistics,” he went on, idly drawing caricatures on the margin of his evening paper as he talked, “but I think they say that only one-tenth of one per cent, of the murderers in this great and glorious country of ours are ever discovered.”



The Mabinogion: From the Welsh of The Llyfr Coch O Hergest

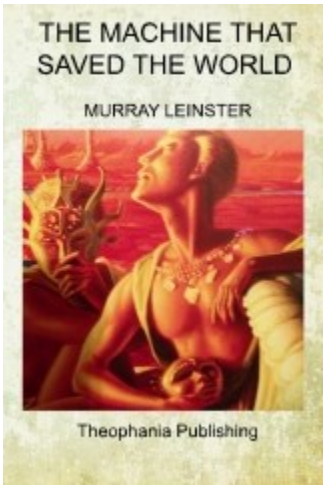
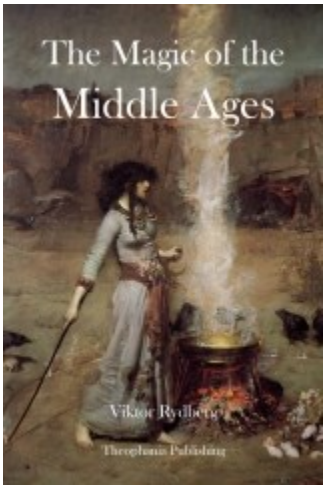
THE Arthurian Legends have at all times furnished a congenial subject to the students of Romance; and in the eight-and-thirty years which have elapsed since the first part of this Translation appeared, my 'Mabinogion' have found their way into the hands of the learned both among ourselves and on the Continent. More recently, however, the publication of the 'Idyls of the King'--and among them of 'Enid,' which is founded on my version of 'Geraint'--has interested a much wider circle of readers in the Legends, and there has arisen a demand for a new and more popular edition of my work, which it is the object of the present issue to supply. It will be found to differ from its predecessor in the omission of the Welsh text, of all Welsh quotations in the Notes, and of the French Metrical Romance of the 'Chevalier au Lion.'

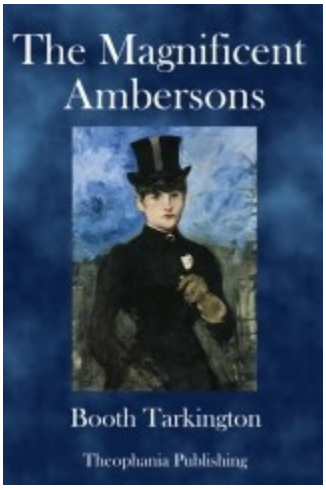


The Machine that Saved the World
By Murray Leinster
66 Pages, $16.24 USD, ISBN: 1518652697
They were broadcasts from nowhere—sinister emanations flooding in from space—smashing any receiver that picked them up. What defense could Earth devise against science such as this? Did the broadcasts foretell flesh-rending supersonic blasts? The first broadcast came in 1972, while Mahon-modified machines were still strictly classified, and the world had heard only rumors about them. The first broadcast was picked up by a television ham in Osceola, Florida, who fumingly reported artificial interference on the amateur TV bands. He heard and taped it for ten minutes—so he said—before it blew out his receiver.

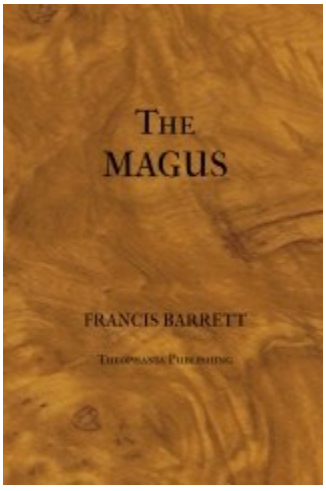
The Mad Planet
By Murray Leinster
90 Pages, $16.24 USD, ISBN: 1518652662
In All His lifetime of perhaps twenty years, it had never occurred to Burl to wonder what his grandfather had thought about his surroundings. The grandfather had come to an untimely end in a rather unpleasant fashion which Burl remembered vaguely as a succession of screams coming more and more faintly to his ears while he was being carried away at the top speed of which his mother was capable. Burl had rarely or never thought of the old gentleman since. Surely he had never wondered in the abstract of what his great grandfather thought, and most surely of all, there never entered his head such a purely hypothetical question as the one of what his many-times-great-grandfather—say of the year 1920—would have thought of the scene in which Burl found himself.



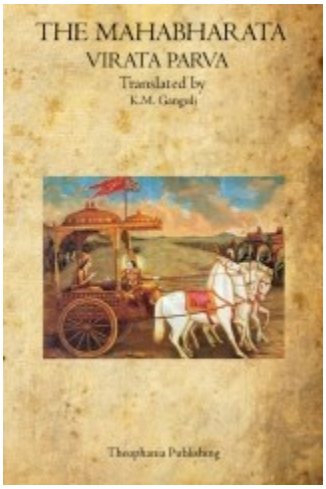
The Magic of the Middle Ages
By Viktor Rydberg
136 Pages, $15.24 USD, ISBN: 1478282339
It was the belief of Europe during the Middle Ages, that our globe was the centre of the universe. The earth, itself fixed and immovable, was encompassed by ten heavens successively encircling one another, and all of these except the highest in constant rotation about their centre. This highest and immovable heaven, enveloping all the others and constituting the boundary between created things and the void, infinite space beyond, is the Empyrean, the heaven of fire, named also by the Platonizing philosophers the world of archetypes.



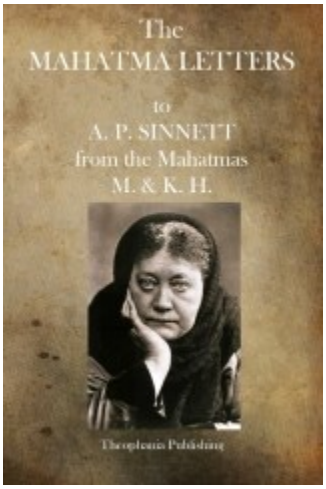
The Magnificent Ambersons
By Booth Tarkington
556 Pages, $29.25 USD, ISBN: 1981458484
Major Amberson had "made a fortune" in 1873, when other people were losing fortunes, and the magnificence of the Ambersons began then. Magnificence, like the size of a fortune, is always comparative, as even Magnificent Lorenzo may now perceive, if he has happened to haunt New York in 1916; and the Ambersons were magnificent in their day and place. Their splendour lasted throughout all the years that saw their Midland town spread and darken into a city, but reached its topmost during the period when every prosperous family with children kept a Newfoundland dog. In that town, in those days, all the women who wore silk or velvet knew all the other women who wore silk or velvet, and when there was a new purchase of sealskin, sick people were got to windows to see it go by.



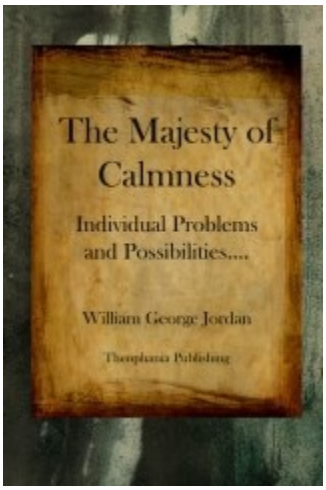
The Magus or Celestial Intelligence
By Francis Barrett
474 Pages, $27.24 USD, ISBN: 1475257562
IN this Work, which we have written chiefly for the information of those who are curious and indefatigable in their enquiries into occult knowledge, we have, at a vast labour and expence, both of time and charges, collected whatsoever can be deemed curious and rare, in regard to the subject of our speculations in Natural Magic--the Cabala--Celestial and Ceremonial Magic--Alchymy--and Magnetism; and have divided it into two Books, sub-divided into Parts: to which we have added a third Book, containing a biographical account of the lives of those great men who were famous and renowned for their knowledge; shewing upon whose authority this Science of Magic is founded, and upon what principles.



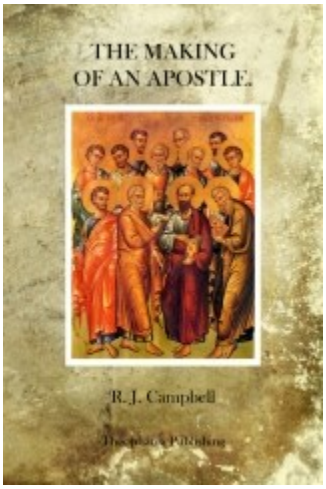
The Mahabharata: Virata Parva
By K.M. Ganguli
180 Pages, $18.24 USD, ISBN: 1770832297
"Listen, O lord of men, how thy great grandfathers passed the period of unrecognition in the city of Virata. Having in this way obtained boons from the god of Justice, that best of virtuous men, Yudhishthira, returned to the asylum and related unto the Brahmanas all that had happened. And having related everything unto them, Yudhishthira restored to that regenerate Brahmana who had followed him the churning staff and the fire-sticks he had lost.



The Mahatma Letters: to A.P. Sinnett
By M. & K.H.
756 Pages, $35.24 USD, ISBN: 1484920899
H.P.B. stated specifically, and more than once, that it was the rarest thing in the world for any one of the Mahatmans, or even for a high chela, personally to write a letter, i.e. indite any communication with his own hand. There are very, very few, very rare exceptions, such as one or two, it may be three, cases of direct precipitation from the Master or from a high chela, and possibly one or two brief notes, maybe a telegram or two, written by the Master's own hand. H.P.B. states positively that not only was such writing in the Master's own hand the rarest thing, but that practically in every case, with the few exceptions named, the Master impressed mentally his chela or amanuensis, or chelas or amanuenses, to write thus or so, to such or another person.

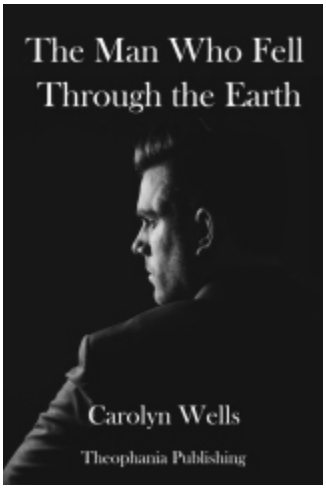


The Majesty of Calmness: Individual Problems and Possibilities
By William George Jordan
46 Pages, $16.24 USD, ISBN: 1480081221
The man who is calm has his course in life clearly marked on his chart. His hand is ever on the helm. Storm, fog, night, tempest, danger, hidden reefs,--he is ever prepared and ready for them. He is made calm and serene by the realization that in these crises of his voyage he needs a clear mind and a cool head; that he has naught to do but to do each day the best he can by the light he has; that he will never flinch nor falter for a moment; that, though he may have to tack and leave his course for a time, he will never drift, he will get back into the true channel, he will keep ever headed toward his harbor.

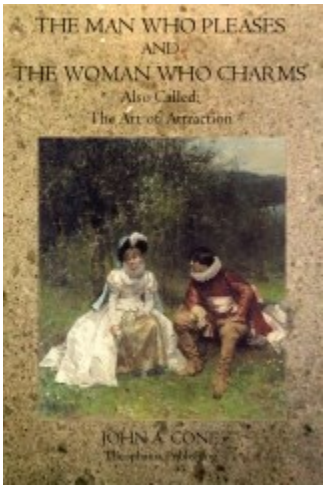


The Making of an Apostle
By R. J. Campbell
48 Pages, $16.24 USD, ISBN: 1770833420
The New Testament supplies us with little in the way of biography. Even from the Gospels themselves we do not gather much concerning the actual life of our Lord apart from His public ministry. It has been justly said that no person has ever influenced the history of the world on such a scale as Jesus of Nazareth, yet it would be impossible to write a chronological life of the Founder of Christianity. What is true of the Master is true of His followers. We know very little about the Apostles themselves; apart from their life-work of preaching Christ, the details of their circumstances and fortunes are most meagre.

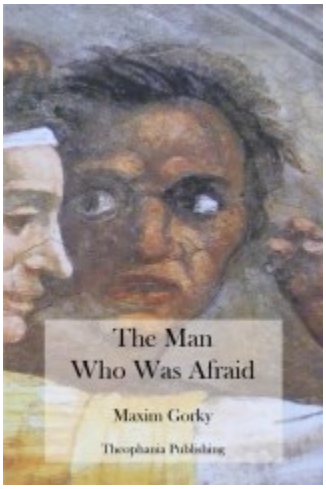
The Man
By Bram Stoker
508 Pages, $28.25 USD, ISBN: 198147000X
FORE-GLIMPSE 'I would rather be an angel than God!' The voice of the speaker sounded clearly through the hawthorn tree. The young man and the young girl who sat together on the low tombstone looked at each other. They had heard the voices of the two children talking, but had not noticed what they said; it was the sentiment, not the sound, which roused their attention. The girl put her finger to her lips to impress silence, and the man nodded; they sat as still as mice whilst the two children went on talking. * * * * * The scene would have gladdened a painter's heart. An old churchyard. The church low and square-towered, with long mullioned windows, the yellow-grey stone roughened by age and tender-hued with lichens. Round it clustered many tombstones tilted in all directions.



The Man Who Fell Through the Earth
By Carolyn Wells
416 Pages, $25.25 USD, ISBN: 1981677836
One of the occasions when I experienced "that grand and glorious feeling" was when my law business had achieved proportions that justified my removal from my old office to new and more commodious quarters. I selected a somewhat pretentious building on Madison Avenue between Thirtieth and Fortieth Streets, and it was a red-letter day for me when I moved into my pleasant rooms on its top floor. The Puritan Trust Company occupied all of the ground floor and there were also some of the private offices of that institution on the top floor, as well as a few offices to be let. My rooms were well located and delightfully light, and I furnished them with care, selecting chairs and desks of a dignified type, and rugs of appropriately quiet coloring.



The Man Who Pleases and the Woman Who Charms: The Art of Attraction
By John A. Cone
130 Pages, $13.24 USD, ISBN: 1770831479
In our daily intercourse with one another, we may forget to render to others that thoughtfulness and attention which we exact from them. We all know that the essence of courtesy is the purpose, in speech and manner, to be agreeable, attractive, and lovable, to awaken by our presence happy impressions in another. We all understand this, but we so easily forget it, or, at least, forget to put it into practice. Courtesy is not the least of the Christian virtues, and it should be studied as an art. The reader is requested to accept these chapters in the spirit in which they were prepared.



The Man Who Was Afraid
By Maxim Gorky
462 Pages, $26.24 USD, ISBN: 1475012330
OUT of the darkest depths of life, where vice and crime and misery abound, comes the Byron of the twentieth century, the poet of the vagabond and the proletariat, Maxim Gorky. Not like the beggar, humbly imploring for a crust in the name of the Lord, nor like the jeweller displaying his precious stones to dazzle and tempt the eye, he comes to the world,—nay, in accents of Tyrtaeus this commoner of Nizhni Novgorod spurs on his troops of freedom-loving heroes to conquer, as it were, the placid, self-satisfied literatures of to-day, and bring new life to pale, bloodless frames.

The Man with a Secret
By Fergus Hume
550 Pages, $29.25 USD, ISBN: 1981813322
It was the high road to the village of Garsworth, wide, deeply rutted, and somewhat grass-grown, with a tall hedge of yellow-blossomed gorse on the one side, and on the other a ragged, broken fence, over which leaned a man absorbed in meditation, his eyes fixed upon the setting sun. The fence, rotten and moss-tufted, ran along the edge of a little hill, the slope of which had been lately reaped, and was now covered with bristly yellow stubble, variegated by bare-looking patches of brownish earth. At the bottom of the hill flowed the narrow river Gar, with its sluggish waters rolling lazily along between the low mud banks, bordered by rows of pollard willows and lush rank grasses which hid the burrows of the water-rats.

The Manifestation Journal

By Robert L. Angus

240 Pages, $20.24 USD, ISBN: 1926842421

The Manifestation Journal utilizes a formula of re-programming our negative "self-talk" scripts, which further helps us to take consistent action on our goals, and focus our thoughts on positive behavior, so that we can begin to access our hidden resources, to make progress on what we need to do in order to succeed, and to anchor that successful behavior in our daily programming through classical Pavlovian conditioning. You know what you're capable of, be honest with yourself, but also be flexible - meaningful coincidence often occurs for those who are open to miraculous changes in their lives. Creativity and imagination are the keys to making synchronicity work in your life. You communicate with your subconscious mind - the computer which operates behind the scenes - through repetitious thoughts, words, phrases, affirmations, beliefs, and visualizations - all of which are controlled by the active imagination.

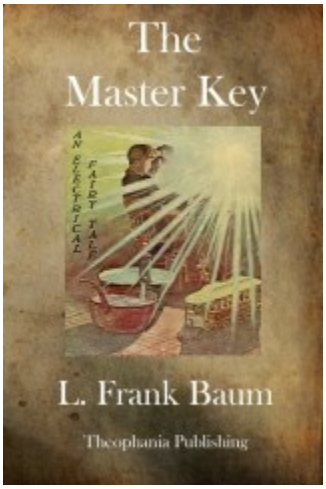
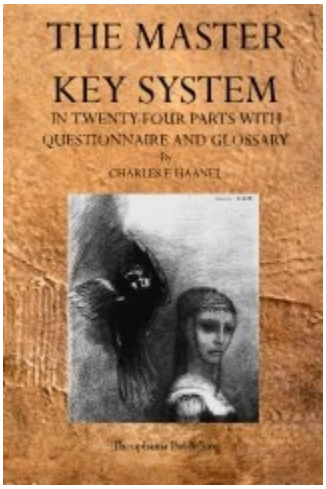
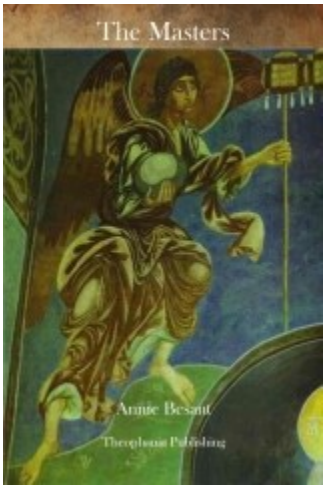
The Massey Lectures
By Gerald Massey
458 Pages, $26.24 USD, ISBN: 1470086166
In presenting my readers with some of the data which show that much of the Christian history was preextant as Egyptian mythology. I have to ask you to bear in mind that the facts, like other foundations, have been buried out of sight for thousands of years in a hieroglyphical language, that was never really read by Greek or Roman, and could not be read until the lost clue was discovered by Champollion , almost the other day! In this way the original sources of our mytholatry and Christology remained as hidden as those of the Nile, until the century in which we live. The mystical matter enshrouded in this language was sacredly entrusted to the keeping of the buried dead, who have faithfully preserved it as their Book of Life, which was placed beneath their pillows, or clasped to their bosoms, in their coffins and their tombs.



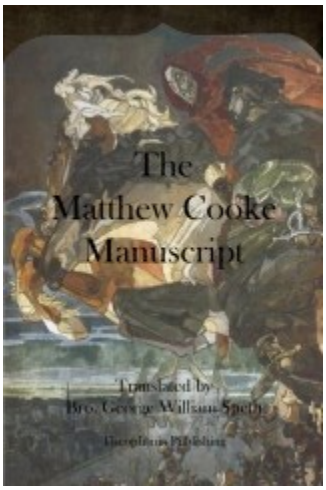
The Master Key: An Electrical Fairy Tale
By L. Frank Baum
112 Pages, $16.24 USD, ISBN: 177083267X
Who Knows? These things are quite improbable, to be sure; but are they impossible? Our big world rolls over as smoothly as it did centuries ago, without a squeak to show it needs oiling after all these years of revolution. But times change because men change, and because civilization, like John Brown's soul, goes ever marching on. The impossibilities of yesterday become the accepted facts of today. Here is a fairy tale founded upon the wonders of electricity and written for children of this generation. Yet when my readers shall have become men and women my story may not seem to their children like a fairy tale at all. Perhaps one, perhaps two, perhaps several of the Demon's devices will be, by that time, in popular use. Who knows?



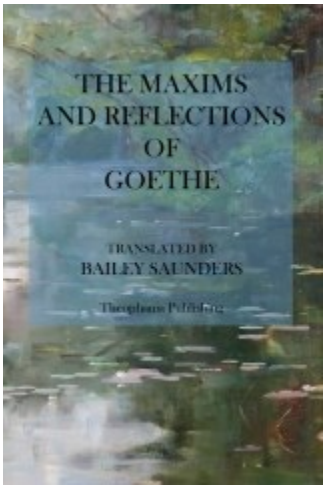
The Master Key System
By Charles F. Haanel
208 Pages, $23.24 USD, ISBN: 192684260X
Before any environment, successful or otherwise, can be created, action of some kind is necessary, and before any action is possible, there must be thought of some kind, either conscious or unconscious, and as thought is a product of mind, it becomes evident that Mind is the creative centre from which all activities proceed. It is not expected that any of the inherent laws which govern the modern business world as it is at present constituted can be suspended or repealed by any force on the same plane, but it is axiomatic that a higher law may overcome a lower one. Tree life causes the sap to ascend, not by repealing the law of gravity but by surmounting it.



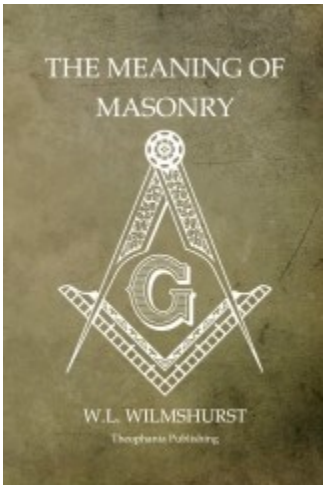
The Masters
By Annie Bessant
52 Pages, $15.24 USD, ISBN: 1484920880
EVER the idea of the Masters, the Elder Brothers of Humanity, sends a thrill through the human heart, and any words about them are eagerly and gladly welcomed. The idea of there being anything illogical in the conception of these great Beings, these perfected Men, has quite passed away from the West, as though it had not been. It is now realised that the existence of such Beings is natural, and that, given evolution, these highest products of evolution are a natural necessity. Many are beginning to see in the great figures of the past, evidence that such Men are, and as reason recognises them in the past, hope springs forward to find them in the present. More: there is an increasing number of persons amongst us, both in the East and the West, who have succeeded in finding the Masters, and from whose minds, therefore, doubt of their existence has for ever been swept away.



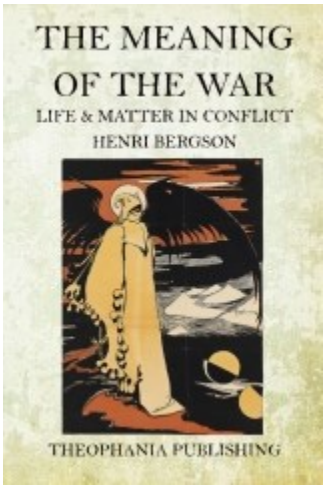
The Matthew Cooke Manuscript
By Bro. George William Speth
36 Pages, $15.24 USD, ISBN: 1484919750
THANKED be God, our glorious Father, the founder and creator of heaven and earth, and of all things that therein are, for that he has vouchsafed, of his glorious Godhead, to make so many things of manifold virtue for the use of mankind. For he made all things to be subject and obedient to man. All things eatable of a wholesome nature he ordained for man's sustenance. And moreover, he hath given to man wit and the knowledge of divers things and handicrafts, by the which we may labour in this world, in order to therewith get our livelihood and fashion many objects, pleasant in the sight of God, to our own ease and profit. To rehearse all these matters here were too long in the writing or telling, I will therefore refrain ; but I will nevertheless, tell you some...



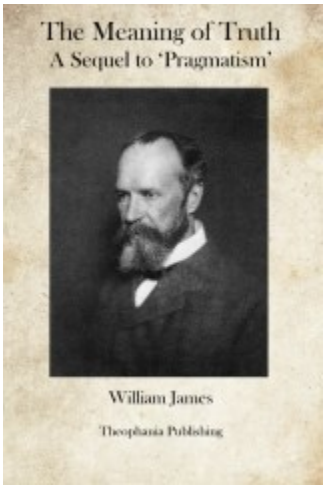
The Maxims and Reflections of Goethe
By Goethe
110 Pages, $16.24 USD, ISBN: 1475012357
The translation of Goethe's "Prose Maxims" now offered to the public is the first attempt that has yet been made to present the greater part of these incomparable sayings in English. In the complete collection they are over a thousand in number, and not more perhaps than a hundred and fifty have already found their way into our language, whether as contributions to magazines here and in America, or in volumes of miscellaneous extract from Goethe's writings. Some are at times quoted as though they were common literary property.



The Meaning of Masonry
By W. L. Wilmshurst
222 Pages, $20.24 USD, ISBN: 1468026070
THE papers here collected are written solely for members of the Masonic Order, constituted under the United Grand Lodge of England. To all such they are offered in the best spirit of fraternity and goodwill and with the wish to render to the Order some small return for the profit the author has received from his association with it extending over thirty two years. They have been written with a view to promoting the deeper understanding of the meaning of Masonry; to providing the explanation of it that one constantly hears called for and that becomes all the more necessary in view of the unprecedented increase of interest in, and membership of, the Order at the present day.



The Meaning of the War: Life & Matter in Conflict
By Henri Bergson
24 Pages, $16.24 USD, ISBN: 1518652328
This little volume contains the discourse delivered by M. Bergson as President of the Académie des Sciences Morales et Politiques at its annual public meeting on December 12, 1914. It is the address which preceded the announcement of the prizes and awards bestowed by the Academy. It is now issued in book form with the consent of the author, and his full appreciation of the object, to give it the widest circulation. Although it is brief, it is a message addressed directly to the heart of our people in the crisis of war. To it is added a short article on the same theme, contributed to the Bulletin des Armées de la République, November 4, 1914.



The Meaning of Truth: A Sequel to Pragmatism
By William James
188 Pages, $18.24 USD, ISBN: 1469945983
THE pivotal part of my book named Pragmatism is its account of the relation called truth which may obtain between an idea (opinion, belief, statement, or what not) and its object.Truth, I there say, is a property of certain of our ideas. It means their agreement, as falsity means their disagreement, with reality. Pragmatists and intellectualists both accept this definition as a matter of course. Where our ideas [do] not copy definitely their object, what does agreement with that object mean? ... Pragmatism asks its usual question. Grant an idea or belief to be true, it says, what concrete difference will its being true make in any one's actual life? What experiences may be different from those which would obtain if the belief were false?

The MEMOIRS of Giacomo Casanova de Seingalt SIX VOLUME SET

Volume Two 608 Pages, $30.25 USD, ISBN: 1926842022

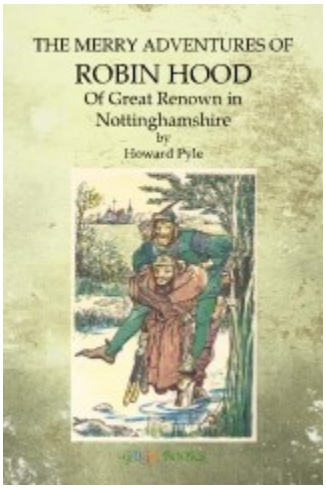
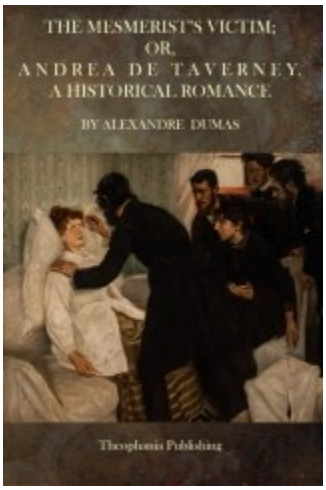
Volume Six 558 Pages, $30.25 USD, ISBN: 1926842030

The name of Giacomo Casanova (1725-1798) is known to every adult. It became proverbial - a generic name of an adventurous womanizer. A remorseless sinner, but also a doctor of law. A convicted magician who escaped from the highest security prison - but also a brilliant conversationalist whose company was shared by Frederick the Great and Voltaire. A shameless, immoral, intelligent and well-educated personality. Our reader can now hear about Casanova from his own account.

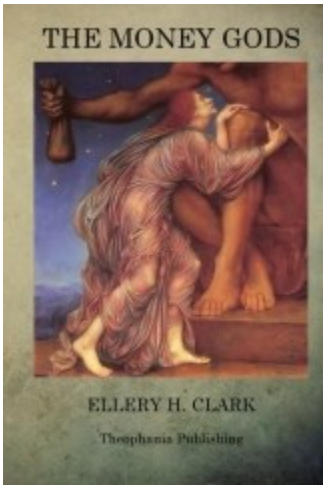


The Merry Adventures of Robin Hood
By Howard Pyle
576 Pages, $20.24 USD, ISBN: 1515291715 GUGA BOOKS
No archer ever lived that could speed a gray goose shaft with such skill and cunning as his, nor were there ever such yeomen as the sevenscore merry men that roamed with him through the greenwood shades. Right merrily they dwelled within the depths of Sherwood Forest, suffering neither care nor want, but passing the time in merry games of archery or bouts of cudgel play, living upon the King's venison, washed down with draughts of ale of October brewing. Not only Robin himself but all the band were outlaws and dwelled apart from other men, yet they were beloved by the country people round about, for no one ever came to jolly Robin for help in time of need and went away again with an empty fist.

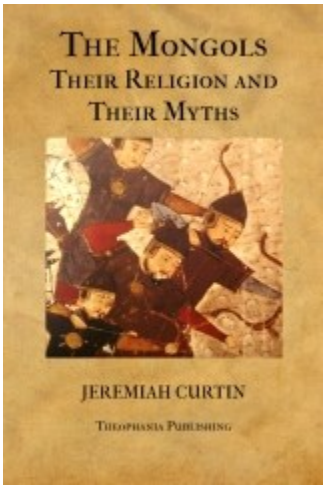


The Mesmerist's Victim; Or, Andrea De Taverney.: A Historical Romance
By Alexandre Dumas
368 Pages, $24.24 USD, ISBN: 1503050440
A pyrotechnical display was the finish to all grand public ceremonies, and the Parisians were fond of them although they might make fun. The ground was happily chosen, as it would hold six thousand spectators. Around the equestrian statue of the King, stands were built circularly to give a view of the fireworks, to be set off at ten or twelve feet elevation. The townsfolk began to assemble long before seven o'clock when the City Guard arrived to keep order. This duty rather belonged to the French Guards, but the Municipal government had refused the extra pay their Commander, Colonel, the Marshal Duke Biron, demanded, and these warriors in a huff were scattered in the mob, vexed and quarrelsome.

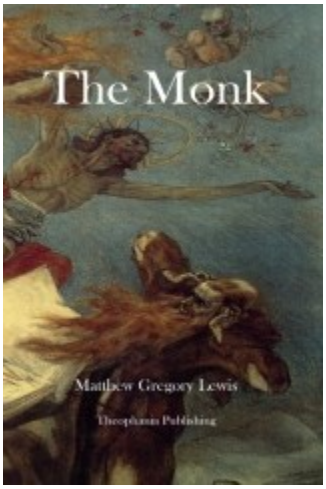
The Metaphysical Elements of Ethics
By Immanuel Kant
46 Pages, $10.24 USD, ISBN: 1770830642
If there exists on any subject a philosophy (that is, a system of rational knowledge based on concepts), then there must also be for this philosophy a system of pure rational concepts, independent of any condition of intuition, in other words, a metaphysic. It may be asked whether metaphysical elements are required also for every practical philosophy, which is the doctrine of duties, and therefore also for Ethics, in order to be able to present it as a true science (systematically), not merely as an aggregate of separate doctrines (fragmentarily).



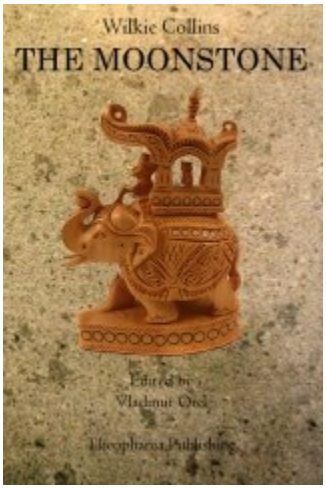
The Money Gods
By Ellery H. Clark
172 Pages, $18.24 USD, ISBN: 1469946424
Atherton, still under the spell of Blagden's eloquence, was gazing forth upon the crowded thoroughfare, with its hurrying throngs of pedestrians, and its multitude of motors, passing and repassing incessantly under the glare and brilliance of the bright white lights. "I think," he slowly answered, "that anything is possible. Blagden is right. Ninety-nine men out of a hundred live and die in a rut. It has to be so; that is life. But if the hundredth man is so situated that he may range the world at will, with eyes open and every sense alert, I believe, with Blagden, that he will find adventure awaiting him at every turn in the road. It's tremendously exhilarating.



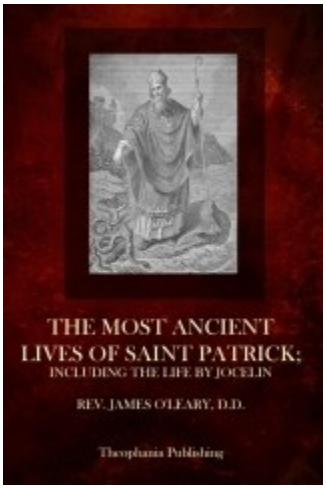
The Mongols, Their Religion and Their Myths
By Jeremiah Curtin
404 Pages, $25.24 USD, ISBN: 1475257619
JEREMIAH CURTIN took the degree of Bachelor of Arts at Harvard College in 1863, having been a member of the last college class that studied their required mathematics under me as Assistant Professor. I found young Curtin's personal appearance and his mental processes unusual and interesting. He was a good scholar in general, with an extraordinary capacity for acquiring languages. In his autobiography (unpublished) he states that seven months and a half before he entered Harvard College he did not know one word of Latin or Greek, but at the admission examination he offered more of each language than was required.



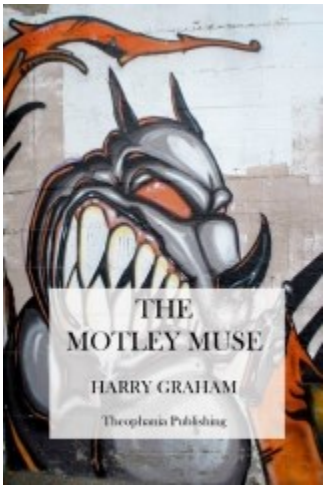
The Monk
By Matthew Gregory Lewis
328 Pages, $22.24 USD, ISBN: 1478230460
The first idea of this Romance was suggested by the story of the Santon Barsisa, related in The Guardian.--The Bleeding Nun is a tradition still credited in many parts of Germany; and I have been told that the ruins of the Castle of Lauenstein, which She is supposed to haunt, may yet be seen upon the borders of Thuringia.--The Water-King, from the third to the twelfth stanza, is the fragment of an original Danish Ballad--And Belerma and Durandarte is translated from some stanzas to be found in a collection of old Spanish poetry, which contains also the popular song of Gayferos and Melesindra, mentioned in Don Quixote. I have now made a full avowal of all the plagiarisms of which I am aware myself; but I doubt not, many more may be found, of which I am at present totally unconscious.



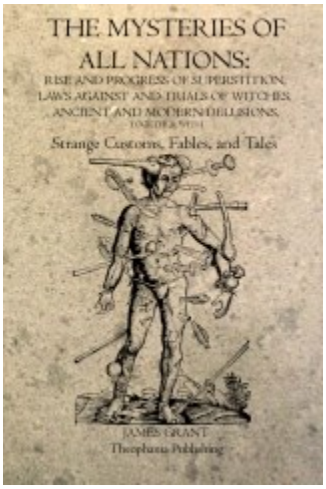
The Moonstone
By Wilkie Collins
654 Pages, $32.24 USD, ISBN: 1770831487
Even though it was not too enthusiastically received by such classics of his time as Dickens, the novel introduced a new genre of a detective story and is remarkable for its excellent plot-development as well as its finely moulded characters. It did and still does leave the reader breathless and puzzled to the very end. Some of the themes exploited in the novel – for example, the British in India – added to the success of the book. An important and not so frequent element of the story is the use of opium.



The Most Ancient Lives Of Saint Patrick: Including The Life
By Jocelin
By Rev. James O'leary D.D.
418 Pages, $25.24 USD, ISBN: 1503050629
The present volume has three objects in view: first, to present the life of Saint Patrick without writing a history of the national church which he founded or introducing irrelevant matter; secondly, to place his life and character before the reader as they have been handed down to us in the most ancient extant documents, without overcoating or withholding anything in the originals; and, thirdly, to deliver to the public at as low a price as possible the original documents grouped together.



The Motley Muse
By Harry Graham
120 Pages, $16.24 USD, ISBN: 1475012365
THE WORLD WE LAUGH IN! 'Sadness, once a favourite pose of poets, is no longer fashionable. Nowadays melancholy people are looked upon as depressing.'—The Gentlewoman. Bygone bards in baleful ballads would betoken Worlds of wretchedness and globes compact of gloom; Pensive poets of the past have sung or spoken Of the misery of mortals' daily doom, Of the hearts that are as hard as something oaken, Of the blossoms that are blighted ere they bloom, Of the ease with which a lover's vows are broken, And the terrors of the tomb! Now no longer 'tis the minstrel's mawkish fashion To narrate a tale of melancholy woe, Of some wight whose face was haggard, wan, and ashen, And who languished in the days of long ago...

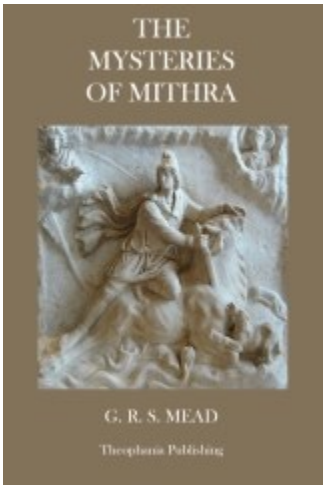


The Mysteries of All Nations

By James Grant

686 Pages, $33.24 USD, ISBN: 1770831495

In whatever light this work may be regarded by archæologists and general readers, the writer submits it to the public, chiefly as the result of antiquarian research, and actual observation during a period of nearly forty years. The writer does not attempt to define what superstition is, either in its broadest or most literal sense; but, as he desires the expression to be understood, it may be considered to imply a fear of the Evil One and his emissaries, a trust in benign spirits and saints, a faith in occult science, and a belief that a conjunction of certain planets or other inanimate bodies is capable of producing supernatural effects, either beneficial or prejudicial to man.



The Mysteries of Mithra

By G. R. S. Mead

54 Pages, $16.24 USD, ISBN: 1480081183

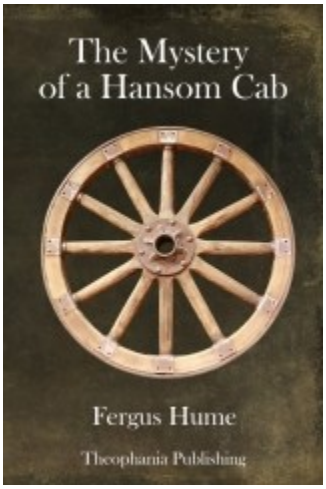
This brief outline of the comparatively meagre information we possess on what at one time was the most widely spread mystery-institution in the Roman empire, is introductory to the following small volume which will deal with the only Mithriac Ritual known to us. In dealing with this exceedingly instructive Ritual I found that the limits of one booklet would not suffice for an adequate introduction; and without this, I fear, many readers will not be in a position to appreciate the Ritual at its just value.

The Mystery Girl

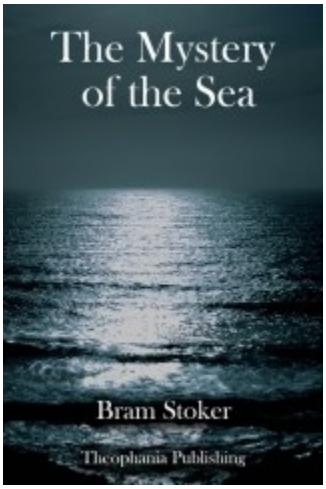
By Carolyn Wells

372 Pages, $25.25 USD, ISBN: 1981524533

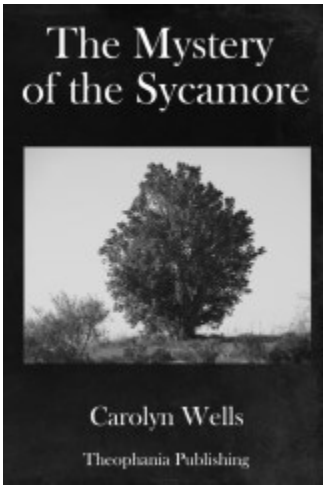
Quite aside from its natural characteristics, there is an atmosphere about a college town, especially a New England college town, that is unmistakable. It is not so much actively intellectual as passively aware of and satisfied with its own intellectuality. The beautiful little town of Corinth was no exception; from its tree-shaded village green to the white-columned homes on its outskirts it fairly radiated a satisfied sense of its own superiority. Not that the people were smug or self-conceited. They merely accepted the fact that the University of Corinth was among the best in the country and that all true Corinthians were both proud and worthy of it.



The Mystery of a Hansom Cab
By Fergus Hume
494 Pages, $27.25 USD, ISBN: 1981815104
The following report appeared in the Argus newspaper of Saturday, the 28th July, 18— "Truth is said to be stranger than fiction, and certainly the extraordinary murder which took place in Melbourne on Thursday night, or rather Friday morning, goes a long way towards verifying this saying. A crime has been committed by an unknown assassin, within a short distance of the principal streets of this great city, and is surrounded by an inpenetrable mystery. Indeed, from the nature of the crime itself, the place where it was committed, and the fact that the assassin has escaped without leaving a trace behind him, it would seem as though the case itself had been taken bodily from one of Gaboreau's novels, and that his famous detective Lecoq alone would be able to unravel it.



The Mystery of the Sea
By Bram Stoker
690 Pages, $33.25 USD, ISBN: 198146980X
I HAD just arrived at Cruden Bay on my annual visit, and after a late breakfast was sitting on the low wall which was a continuation of the escarpment of the bridge over the Water of Cruden. Opposite to me, across the road and standing under the only little clump of trees in the place was a tall, gaunt old woman, who kept looking at me intently. As I sat, a little group, consisting of a man and two women, went by. I found my eyes follow them, for it seemed to me after they had passed me that the two women walked together and the man alone in front carrying on his shoulder a little black box—a coffin. I shuddered as I thought, but a moment later I saw all three abreast just as they had been.



The Mystery of the Sycamore
By Carolyn Wells
364 Pages, $24.25 USD, ISBN: 1981743545
As the character of a woman may be accurately deduced from her handkerchief, so a man’s mental status is evident from the way he opens his mail. Curtis Keefe, engaged in this daily performance, slit the envelopes neatly and laid the letters down in three piles. These divisions represented matters known to be of no great interest; matters known to be important; and, third, letters with contents as yet unknown and therefore of problematical value. The first two piles were, as usual, dispatched quickly, and the real attention of the secretary centred with pleasant anticipation on the third lot. “Gee whiz, Genevieve!” As no further pearls of wisdom fell from the lips of the engrossed reader of letters, the stenographer gave him a round-eyed glance and then continued her work.

The Mystery Queen
By Fergus Hume
442 Pages, $26.25 USD, ISBN: 1981829628
"A penny for your thoughts, dad," cried Lillian, suppressing a school-girl desire to throw one of the nuts on her plate at her father and rouse him from his brown study. Sir Charles Moon looked up with a start, and drew his bushy gray eye-brows together. "Some people would give more than that to know them, my dear." "What sort of people?" asked the young man who sat beside Lillian, industriously cracking nuts for her consumption. "Dangerous people," replied Sir Charles grimly, "very dangerous, Dan." Mrs. Bolstreath, fat, fair, and fifty, Lillian's paid companion and chaperon, leaned back complacently. She had enjoyed an excellent dinner: she was beautifully dressed: and shortly she would witness the newest musical comedy; three very good reasons for her amiable expression.

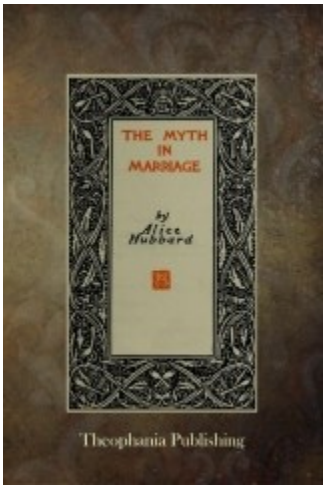
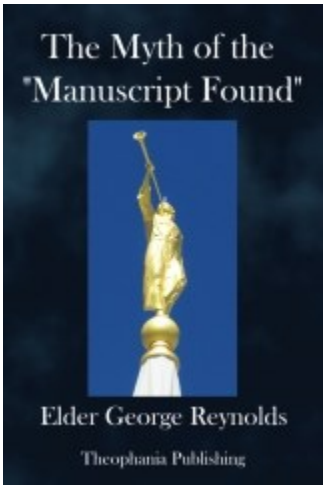
The Mystical Enlightenment Of Friedrich Nietzsche: On the death of God and the God within
By Shai Tubali
216 Pages, $20.24 USD, ISBN: 149351654X
The genius philosopher Friedrich Nietzsche (1844 – 1900) was far ahead of his time when he envisioned the challenges and pitfalls of the growing secular world. This world, he claimed, had 'killed God,' and by doing so, had created a terrible vacuum of meaninglessness and nihilism. Hence, as Nietzsche stated, mankind must now take on the duty and responsibility of filling the world with a new inner meaning and new ethical content out of his new love of life. Nietzsche referred to the one who would be able to withstand such an awesome task as the Übermensch (super-man), a new type of man who would result from a true evolutionary leap.



The Myth in Marriage
By Alice Hubbard
50 Pages, $21.99 USD, ISBN: 1503050769
MARRIAGE is a subject of interest to all adults, and at one time in almost every life it is the vision that fills the horizon. To many it is a mirage. To a few it proves to be the hills from whence cometh their strength. The rising sun of romance tips every blade of grass, every leaf and flower and twig, with the mystery and miracle of color and perfume. The noonday light reveals truth that the half-light of the dawn could not show. And evening twilight garners all the richness of marriage. The purpose of this book is to enlighten by bringing into the light of day experiences that must come into the lives of women and men.

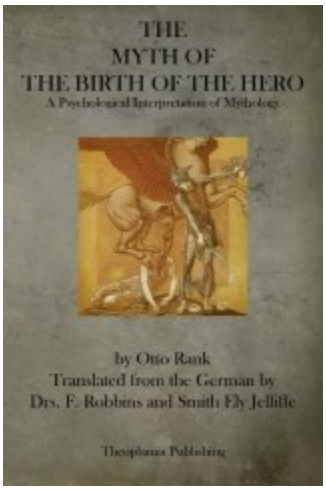


The Myth of the "Manuscript Found,": Or the Absurdities of the "Spaulding Story." (Faith-Promoting Series)

By Eld. George Reynolds

194 Pages, $18.25 USD, ISBN: 198145909X

With feelings of intense joy, deep devotion and profound gratitude to Him, the previous numbers of this Series have been read by thousands of Latter day Saints. This little volume takes a somewhat new departure. It treats of a book—a divine record, the true story of its discovery and translation, and of the falsehoods that have been invented, nourished and sown broadcast throughout Christendom to blind men's eyes to its real import. For the Book of Mormon being true then Joseph Smith is a prophet of God and "Mormonism" is the everlasting gospel of our Lord Jesus Christ; but if it were a forgery, as our enemies assert, then would all our hopes be vain and our faith worthless.

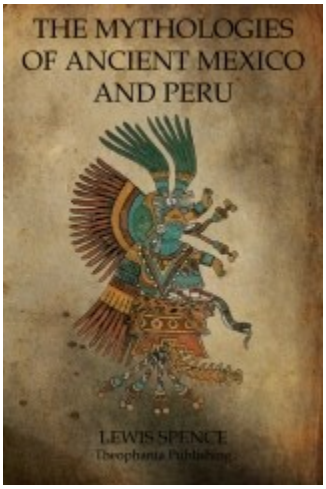


The Myth of the Birth of the Hero: A Psychological Interpretation of Mythology

By Otto Rank

88 Pages, $15.24 USD, ISBN: 1484919734

THE prominent civilized nations--the Babylonians and Egyptians, the Hebrews and Hindus, the Persians, the Greeks and the Romans, as well as the Teutons and others--all began at an early stage to glorify their national heroes--mythical princes and kings, founders of religions, dynasties, empires, or cities--in a number of poetic tales and legends. The history of the birth and of the early life of these personalities came to be especially invested with fantastic features, which in different nations--even though widely separated by space and entirely independent of each other--present a baffling similarity or, in part, a literal correspondence.

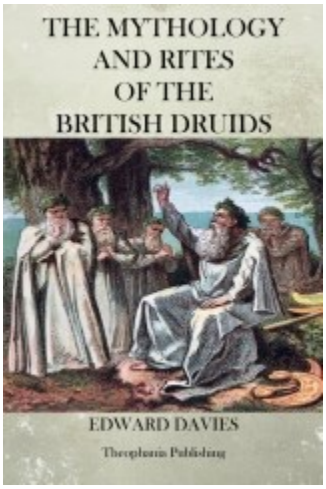


The Mythologies Of Ancient Mexico And Peru

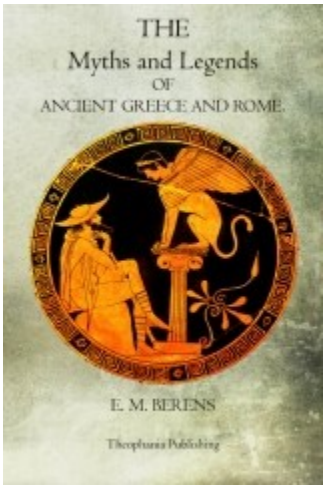
By Lewis Spence

72 Pages, $16.24 USD, ISBN: 1770832661

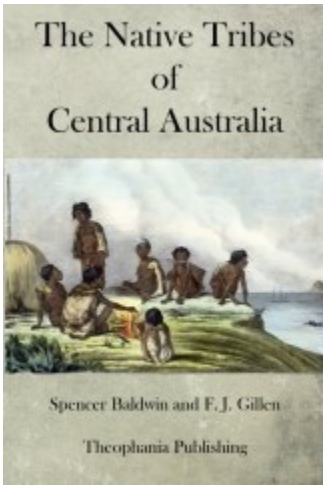
A zealous host of interpreters are engaged in the elucidation of the mythologies of Egypt and Assyria, but, if a few enthusiasts in the United States of America be excepted, the mythologies of the ancient West have no following whatsoever. That this little book may lead many to a fuller examination of those profoundly interesting faiths is the earnest hope of one in whose judgment they are second in importance to no other mythological system. By a comparative study of the American mythologies the student of other systems will reap his reward in the shape of many a parallel and many an elucidation which otherwise would escape his notice...



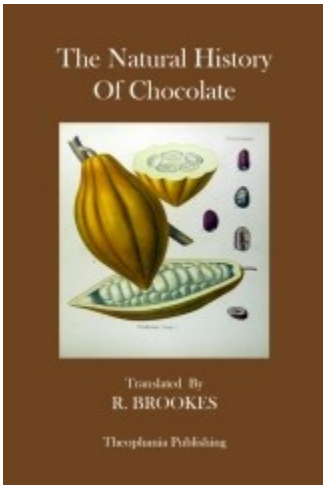
The Mythology and Rites of the British Druids
By Edward Davies
542 Pages, $29.24 USD, ISBN: 147008614X
THE first section of the ensuing Essay, effects the principal objects of a Preface; yet the Author has not the confidence to intrude upon his Reader, without premising a few pages, to bespeak his attention, and conciliate his esteem without offering some apology for the nature of his subject, and the manner in which it has been treated. To some persons, the utility of such a work may not be obvious. It may be asked What interest has the present age, in a mew of the errors and prejudices of the Pagan Britons?



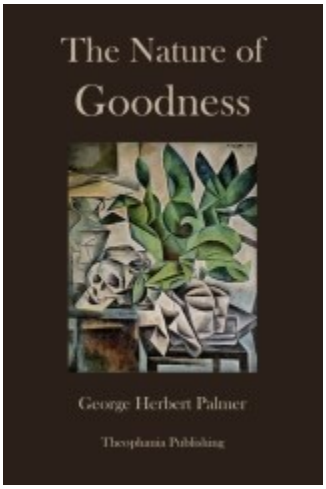
The Myths And Legends Of Ancient Greece and Rome
By E. M. Berens
346 Pages, $23.24 USD, ISBN: 1468023314
The want of an interesting work on Greek and Roman mythology, suitable for the requirements of both boys and girls, has long been recognized by the principals of our advanced schools. The study of the classics themselves, even where the attainments of the pupil have rendered this feasible, has not been found altogether successful in giving to the student a clear and succinct idea of the religious beliefs of the ancients, and it has been suggested that a work which would so deal with the subject as to render it at once interesting and instructive would be hailed as a valuable introduction to the study of classic authors, and would be found to assist materially the labours of both master and pupil.



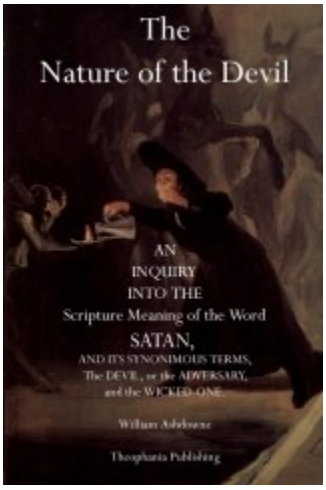
The Native Tribes of Central Australia
By Spencer Baldwin
598 Pages, $31.24 USD, ISBN: 1470086050
IN the following pages we have endeavoured to set forth an account of the customs and social organisation of certain of the tribes inhabiting Central Australia. It has been the lot of one of us to spend the greater part of the past twenty years in the centre of the continent, and as sub-protector of the Aborigines he has had exceptional opportunities of coming into contact with, and of gaining the confidence of, the members of the large and important Arunta tribe, amongst whom he has lived, and of which tribe both of us, it may be added, are regarded as fully initiated members.



The Natural History Of Chocolate
By D. De Quélus
72 Pages, $16.24 USD, ISBN: 1475012446
A Distinct and Particular Account of the Cocoa-tree, its Growth and Culture, and the Preparation, Excellent Properties, and Medicinal Vertues of its Fruit. Wherein the Errors of those who have wrote upon this Subject are discover'd; the Best Way of Making Chocolate is explain'd; and several Uncommon Medicines drawn from it, are communicated. Translated from the last Edition of the French, By R. BROOKES, M. D.

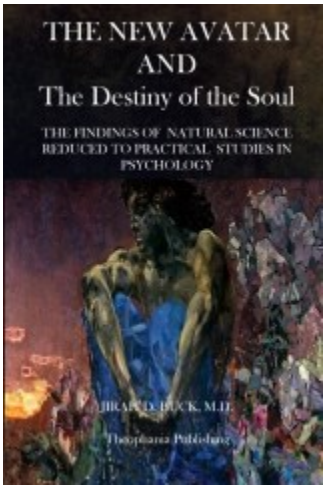


The Nature of Goodness
By George Herbert Palmer
168 Pages, $18.24 USD, ISBN: 1478256605
The substance of these chapters was delivered as a course of lectures at Harvard University, Dartmouth and Wellesley Colleges, Western Reserve University, the University of California, and the Twentieth Century Club of Boston. A part of the sixth chapter was used as an address before the Phi Beta Kappa Society of Harvard, and another part before the Philosophical Union of Berkeley, California. Several of these audiences have materially aided my work by their searching criticisms, and all have helped to clear my thought and simplify its expression.

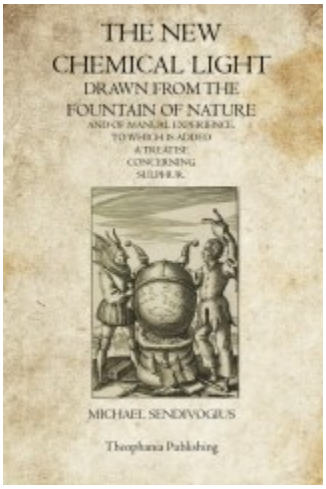


The Nature of the Devil: An Inquiry
By William Ashdowne
112 Pages, $16.24 USD, ISBN: 1770831649
The Nature of the Devil AN INQUIRY INTO THE Scripture Meaning of the Word SATAN, AND ITS SYNONIMOUS TERMS, The DEVIL, or the ADVERSARY, and the WICKED-ONE. CHRISTIANS, for many centuries past, have had such variable notions concerning Satan and his Power, and the present prevailing notions are so unsettled, that there is no such thing as fixing them from the writings of Divines: the Author therefore intends, in the course of this inquiry, to search the scriptures, and to fix them on that foundation, which is, indeed, by much the surest.

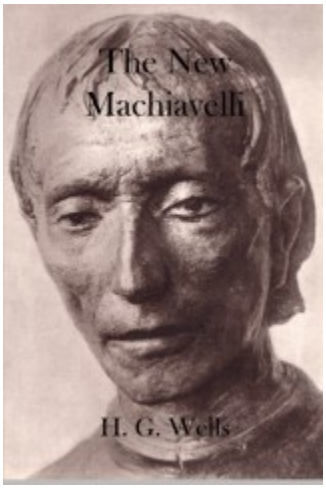
The New Atlantis
By Francis Bacon
40 Pages, $16.24 USD, ISBN: 1770833412
WE sailed from Peru, where we had continued by the space of one whole year, for China and Japan, by the South Sea, taking with us victuals for twelve months; and had good winds from the east, though soft and weak, for five months' space and more. But then the wind came about, and settled in the west for many days, so as we could make little or no way, and were sometimes in purpose to turn back. But then again there arose strong and great winds from the south, with a point east; which carried us up, for all that we could do, toward the north: by which time our victuals failed us, though we had made good spare of them.



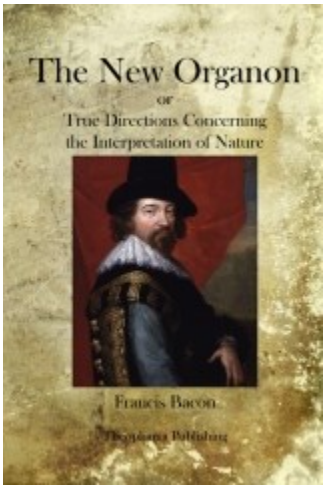
The New Avatar and The Destiny of the Soul: The Findings of Natural Science Reduced to Practical Studies in Psychology
By Jirah D. Buck
216 Pages, $16.24 USD, ISBN: 1484918932
The reader who is willing to give the following pages a careful reading, and a courteous hearing, is entitled to know the basis of study, observation or experience from which the suggestions, inferences and conclusions proceed, in order that he may fairly estimate their value. At the age of seventy-two, my egotism is at least softened by the discovery of the many things I do not know; and my dogmatism, so far as it ever existed, is equally relaxed by the realization that it is a bar to light and knowledge, which rest so largely on demonstration. For more than forty-five years I have been engaged in the active practice of medicine with consultations extending over three States.



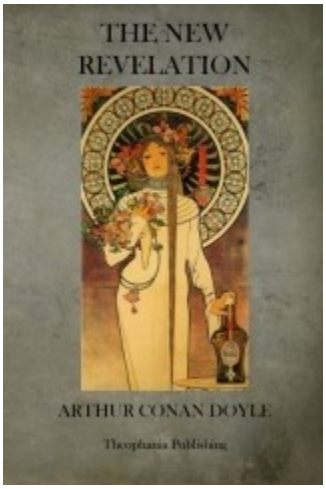
The New Chemical Light: Drawn From The Fountain Of Nature And Of Manual Experience
By Michael Sendivogius
170 Pages, $18.24 USD, ISBN: 1468025511
WHEN I considered in my mind the great number of deceitful books and forged Alchemistic "receipts," which have been put in circulation by heartless impostors, though they do not contain even a spark of truth, and how many persons have been and are still daily led astray by them?, it occurred to me that I could not do better than communicate the Talent committed to me by the Father of Lights to the Sons and Heirs of Knowledge. I also wish to let posterity see that in our own age, as well as in ancient times, this singularly gracious philosophical Blessing has not been denied to a few favoured men.



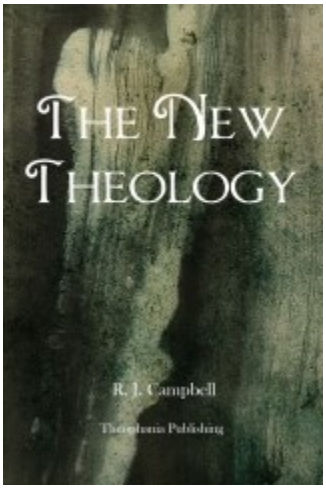
The New Machiavelli
By H.G. Wells
424 Pages, $25.24 USD, ISBN: 1770830650
The Book That Was Never Written Since I came to this place I have been very restless, wasting my energies in the futile beginning of ill-conceived books. One does not settle down very readily at two and forty to a new way of living, and I have found myself with the teeming interests of the life I have abandoned still buzzing like a swarm of homeless bees in my head. My mind has been full of confused protests and justifications. In any case I should have found difficulties enough in expressing the complex thing I have to tell, but it has added greatly to my trouble that I have a great analogue, that a certain Niccolo Machiavelli chanced to fall out of politics at very much the age I have reached, and wrote a book to engage the restlessness of his mind, very much as I have wanted to do.



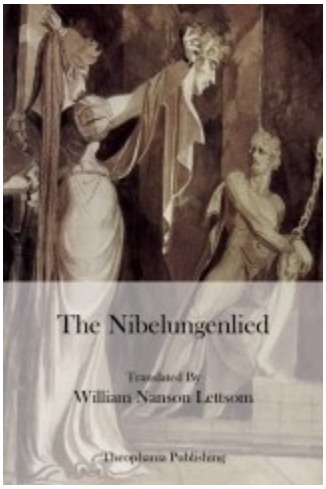
The New Organon
By Francis Bacon
230 Pages, $20.24 USD, ISBN: 1770833439
Those who have taken upon them to lay down the law of nature as a thing already searched out and understood, whether they have spoken in simple assurance or professional affectation, have therein done philosophy and the sciences great injury. For as they have been successful in inducing belief, so they have been effective in quenching and stopping inquiry; and have done more harm by spoiling and putting an end to other men's efforts than good by their own.



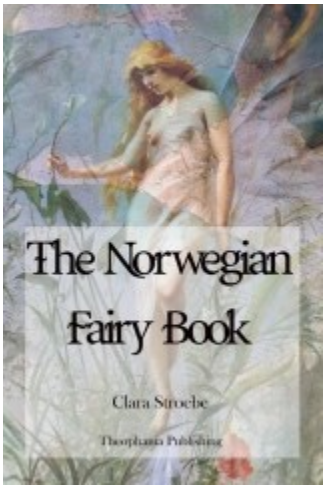
The New Revelation
By Arthur Conan Doyle
74 Pages, $16.24 USD, ISBN: 1484918835
Many more philosophic minds than mine have thought over the religious side of this subject and many more scientific brains have turned their attention to its phenomenal aspect. So far as I know, however, there has been no former attempt to show the exact relation of the one to the other. I feel that if I should succeed in making this a little more clear I shall have helped in what I regard as far the most important question with which the human race is concerned. A celebrated Psychic, Mrs. Piper, uttered, in the year 1899 words which were recorded by Dr. Hodgson at the time.



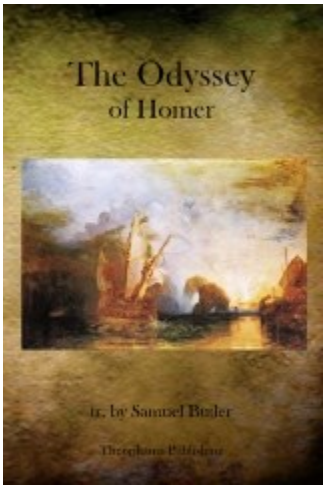
The New Theology
By R. J. Campbell
258 Pages, $20.24 USD, ISBN: 1479183865
This book has been undertaken at the request of a number of my friends who feel that recent criticisms of what has come to be called the New Theology ought to be dealt with in some comprehensive and systematic way. With this suggestion my own judgment concurs, but only so far as my own pulpit teaching is concerned. I cannot pretend to speak for anyone else, and therefore this monograph must not be understood as an authoritative exposition of the views held and expounded by other preachers who may be in sympathy with the New Theology.



The Nibelungenlied
By William Nanson Lettsom
486 Pages, $27.24 USD, ISBN: 1470086026
The Nibelungenlied, as the great national epic of Germany, is not only one of the most important literary monuments that the German mind has produced in all periods of its history, but, in reality beyond this, it is also in its matter and its manner one of the world's great classics. It is this inherently because of the universal intelligibility of its story, for the broad human sympathy which must be felt with its characters and their motives of action, and for the sustained poetic treatment of the whole in the long poem. In all these respects the Nibelungenlied, although German in its spirit and its environment, rises inevitably above the confines of nationality, and becomes, like other works that are in a true sense great, by virtue of its universality an integral part of that cosmopolitan body that we call the literature of the world.



The Norwegian Fairy Book
By Clara Stroebe
272 Pages, $21.24 USD, ISBN: 1479183881
Amazing Stories of Norwegian Fairies. These Norwegian tales of elemental mountain, forest and sea spirits, handed down by hinds and huntsmen, woodchoppers and fisherfolk, men who led a hard and lonely life amid primitive surroundings are, perhaps, among the most fascinating the Scandinavian countries have to offer. Nor are they only meant to delight the child, though this they cannot fail to do. “Grown-ups” also, who take pleasure in a good story, well told, will enjoy the original “Peer Gynt” legend, as it existed before Ibsen gave it more symbolic meanings; and that glowing, beautiful picture of an Avalon of the Northern seas shown in “The Island of Udröst.”

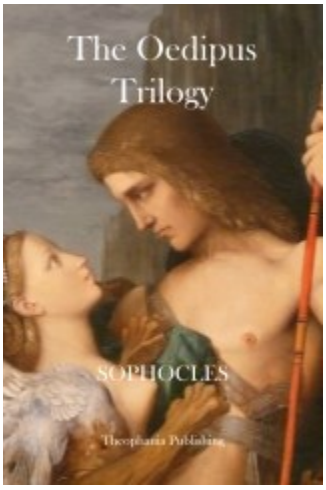


The Odyssey of Homer

By Homer

392 Pages, $25.24 USD, ISBN: 1770830979

The Odyssey is one of two major ancient Greek epic poems attributed to Homer. It is, in part, a sequel to the Iliad, the other work traditionally ascribed to Homer. The poem is fundamental to the modern Western canon. Indeed it is the second, the Iliad being the first, extant work of Western literature. It was probably composed near the end of the 8th century BC, somewhere in Ionia, the Greek speaking coastal region of what is now Turkey. The poem mainly centers on the Greek hero Odysseus (or Ulysses, as he was known in Roman myths) and his long journey home following the fall of Troy. It takes Odysseus ten years to reach Ithaca after the ten-year Trojan War.

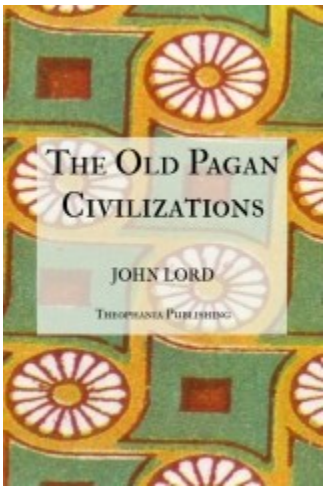


The Oedipus Trilogy

By Sophocles

220 Pages, $19.24 USD, ISBN: 1475012411

To Laius, King of Thebes, an oracle foretold that the child born to him by his queen Jocasta would slay his father and wed his mother. So when in time a son was born the infant's feet were riveted together and he was left to die on Mount Cithaeron. But a shepherd found the babe and tended him, and delivered him to another shepherd who took him to his master, the King of Corinth. Polybus being childless adopted the boy, who grew up believing that he was indeed the King's son. Afterwards doubting his parentage he inquired of the Delphic god and heard himself the word declared before to Laius.

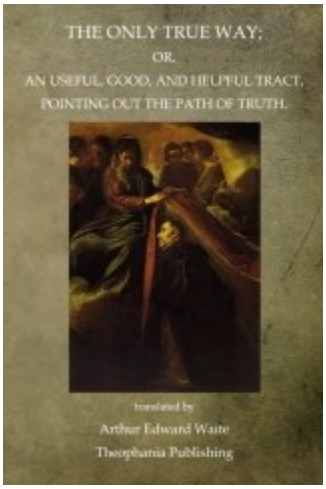


The Old Pagan Civilizations

By John Lord

234 Pages, $20.24 USD, ISBN: 1475257643

In preparing a new edition of Dr. Lord's great work, the "Beacon Lights of History," it has been necessary to make some rearrangement of lectures and volumes. Dr. Lord began with his volume on classic "Antiquity," and not until he had completed five volumes did he return to the remoter times of "Old Pagan Civilizations" (reaching back to Assyria and Egypt) and the "Jewish Heroes and Prophets." These issued, he took up again the line of great men and movements, and brought it down to modern days. The "Old Pagan Civilizations," of course, stretch thousands of years before the Hebrews, and the volume so entitled would naturally be the first.

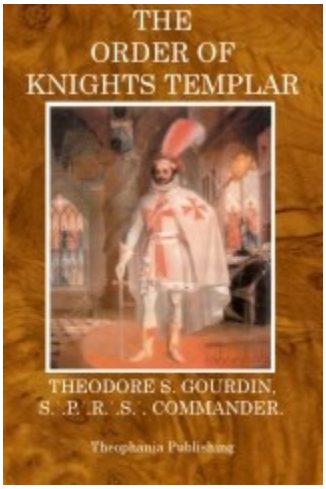


The Only True Way: Or, An Useful, Good, And Helpful Tract, Pointing Out The Path Of Truth

By Arthur Edward Waite

32 Pages, $16.24 USD, ISBN: 1468025864

BELOVED friend and brother, under the name of this glorious Art there is to be found much false teaching, which is put forward by pseudo alchemists, whose writings are nothing but imposture and deceit, and are yet highly esteemed by people of the simpler sort. These charlatans induce their dupes to waste much money and time on that which can profit them nothing; for unless a thing be well begun, it can never be brought to a good end. Yet most men, who, nowadays, have devoted themselves to this exalted art of chemistry, are pursuing a wrong course, and are deceivers or deceived.

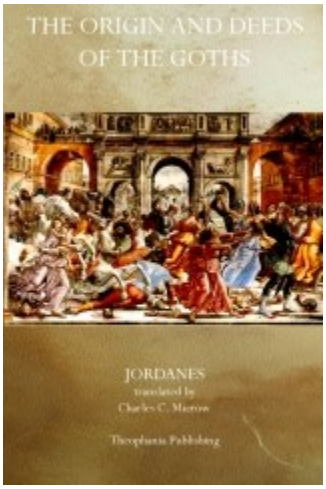


The Order of Knights Templar: An Historical Sketch

By Theodore S. Gourdin

66 Pages, $15.24 USD, ISBN: 1770831452

On the 11th of March, 542 years ago, the last Grand Master of the whole Order of the Temple breathed his last; and our noble brotherhood ceased publicly to exist as a great religio-military institution. The anniversary of his martyrdom should ever be held in sacred remembrance by all Knights Templars, whether they follow the banner of the Cross and Serpent," that of the Black Eagle, or that of the Blood red Cross. I shall not attempt, at present, to trace the origin and antiquity of our symbols, nor the connection which exists between Freemasonry and Templarism. But, I shall endeavor to give, so far as the brief period allowed me will permit, a historical sketch of our illustrious Order from its foundation to the present day.

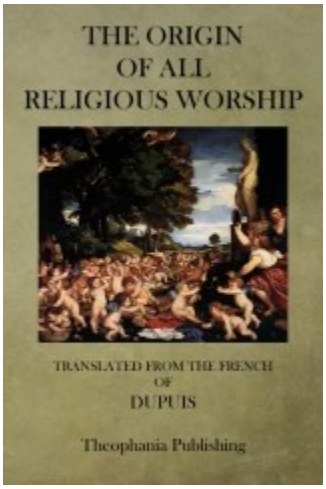


The Origin and Deeds of the Goths

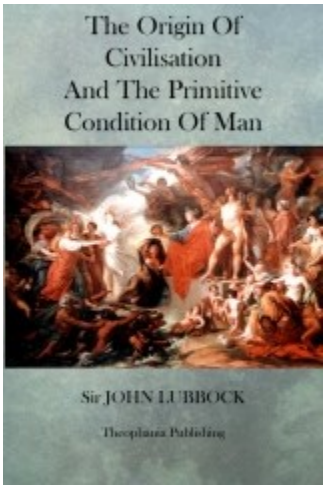
By Jordanes

118 Pages, $16.24 USD, ISBN: 1770831886

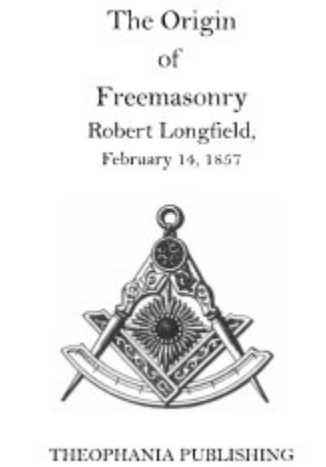
Jordanes, as he himself tells us a couple of times, was of Gothic descent and wrote this work as a summary of Cassiodorus' much longer treatment of the history of the Goths. Because Cassiodorus' book no longer survives, Jordanes' treatment is often our only source for some of the Gothic history it describes. He wrote the Getica during the later stages of the reign of Justinian, not too long after the demise of the Ostrogothic kingdom in Italy. Jordanes divided his work, apart from the brief introduction and conclusion, into four main sections (reflected in the contents below). These are 1) a Geographical Introduction; 2) the United Goths; 3) the Visigoths; 4) and the Ostrogoths.



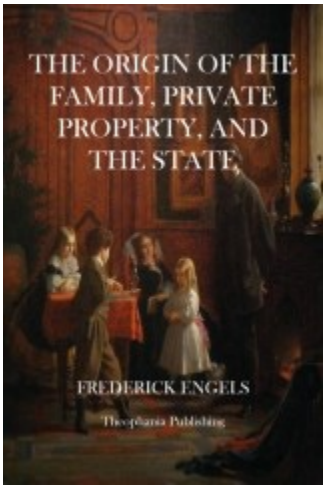
The Origin of All Religious Worship
By Dupuis
460 Pages, $26.24 USD, ISBN: 1470084899
Many persons having desired, that I should give to the public an abridgment of my larger work on the origin of religious Worship, I have concluded not to delay any longer their expectations. I have therefore condensed the work in such a manner as to present the substance of the principles on which my theory- is established, and to give an extract of its most important results, without dwelling much on particulars, which may always be found in the larger edition. This synopsis will be found useful even by those who should possess the first, because it will serve as a guide in the study of many volumes, which on account of the nature of the work, places the ordinary reader beyond the circle of learning usually required, in order to read with profit, and without great effort, a work of erudition.



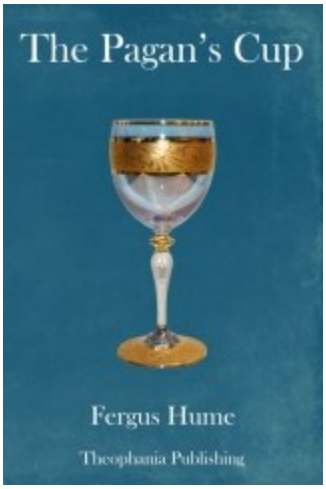
The Origin of Civilisation and the Primitive Condition of Man
By Sir John Lubbock
530 Pages, $29.24 USD, ISBN: 1470084260
IN my work on 'Prehistoric Times' I have devoted several chapters to the description of modern savages, because the weapons and implements now used by the lower races of men throw much light on the signification and use of those discovered in ancient tumuli, or in the drift gravels and because a knowledge of modern savages and their modes of life enables us more accurately to picture, and more vividly to conceive, the manners and customs of our ancestors in bygone ages. In the present volume, which is founded on a course of lectures delivered at the Royal Institution in the spring of 1868, I propose more particularly to describe the social and mental condition of savages, their art, their systems of marriage and of relationship, their religions, language, moral character, and laws.



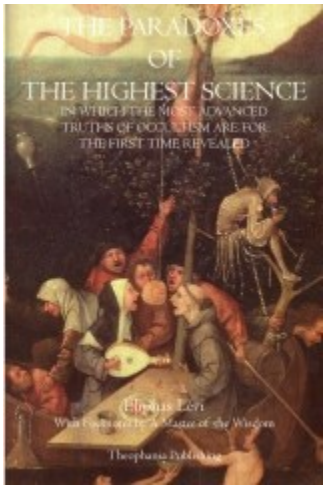
The Origin of Freemasonry
By Robert Longfield
32 Pages, $16.24 USD, ISBN: 151928764X
The subject which I have selected for this evening is lecture is the "Origin of Freemasonry", a theme which will at once, I should hope, invite the attention of each of my hearers — members themselves of that mysterious and widely-spread body. Every brother has indeed, on his initiation into the Craft, gained some little insight into that which, traditionally at least, has, for many ages, been handed down to us as the origin of that fraternity, of which, we must confess, we are now the scarcely recognised representatives; but few, perhaps, have considered how much truth is hid in our legends, and how realities have been converted into symbols.



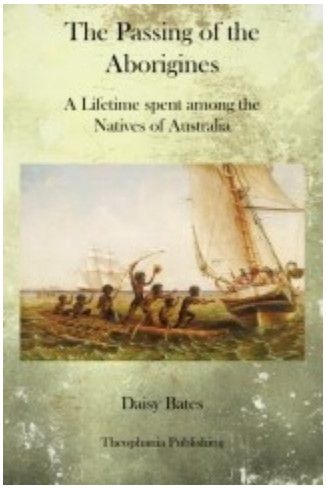
The Origin of The Family, Private Property, and the State
By Frederick Engels
190 Pages, $18.24 USD, ISBN: 1475012454
"An eternal being created human society as it is to-day, and submission to 'superiors' and 'authority' is imposed on the 'lower' classes by divine will." This suggestion, coming from pulpit, platform and press, has hypnotized the minds of men and proves to be one of the strongest pillars of exploitation. Scientific investigation has revealed long ago that human society is not cast in a stereotyped mould. As organic life on earth assumes different shapes, the result of a succession of chemical changes, so the group life of human beings develops different social institutions as a result of increasing control over environment, especially of production of food, clothing and shelter. Such is the message which the works of men like Bachofen, Morgan, Marx, Darwin, and others, brought to the human race.



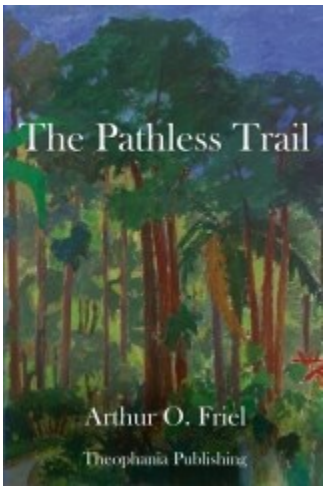
The Pagan's Cup
By Fergus Hume
384 Pages, $24.25 USD, ISBN: 1981859411
Certain portions of England yet remain undiscovered by Americans and uncivilised by railways. Colester village above King's-meadows, in a county which need not be named, is one of these unknown spots. No doubt before long the bicycle and the motor-car will enliven its somnolent neighbourhood, but at present it is free from the summer jaunts of tourists. With this neglect the Colester folk profess themselves satisfied. They have no wish to come into contact with the busy world. This prejudice against intrusion dates from mediæval times, when strangers rarely came to the village with peaceful intentions. Even now a chance comer is looked upon with suspicion. Mr Richard Pratt said something of this sort to the vicar during a morning ramble, some six weeks after he had taken up his residence in The Nun's House.



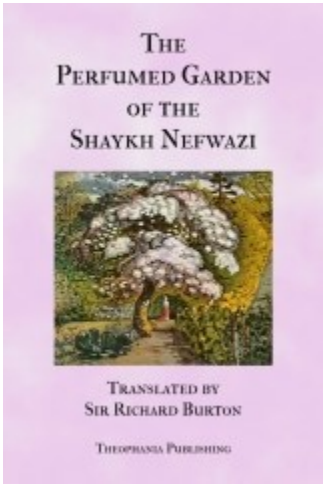
The Paradoxes of the Highest Scienc
By Eliphas Levi
114 Pages, $16.24 USD, ISBN: 1770830847
MANY paths lead to the mountain top, and many and diverse are the rifts in the Veil, through which glimpses may be obtained of the secret things of the Universe. The Abbé Louis Constant, better known by his nom de plume of ÉLIPHAS LÉVI, was doubtless a seer; but, though his studies were by no means confined to this, he saw only through the medium of the kabala, the perfect sense of which is, now a days, hidden from all mere kabalists, and his visions were consequently always imperfect and often much distorted and confused.



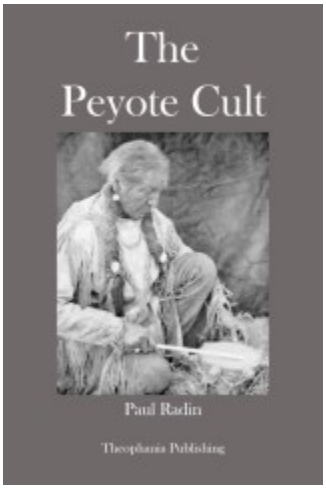
The Passing of the Aborigines: A Li
By Daisy Bates
228 Pages, $19.24 USD, ISBN: 1770833447
On the fringe of the vast island continent of Australia live a few millions of white people; in the vast desert regions far from the coast live a few thousands of black aboriginals, the remnant of the first inhabitants of Australia. The race on the fringe of the continent has been there about a hundred years, and stands for Civilization; the race in the interior has been there no man knows how long, and stands for Barbarism. Between them a woman has lived in a little white tent for more than twenty years, watching over these people for the sake of the Flag, a woman alone, the solitary spectator of a vanishing race. She is Daisy Bates, one of the least known and one of the most romantic figures in the British Empire.



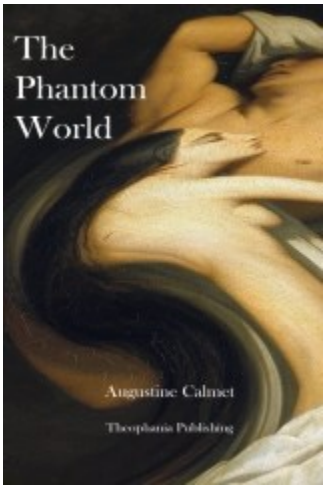
The Pathless Trail
By Arthur O. Friel
456 Pages, $27.25 USD, ISBN: 1981459138
Three men stood ankle deep in mud on the shore of a jungle river, silently watching a ribbon of smoke drift and dissolve above the somber mass of trees to the northwest. Three men of widely different types they were, yet all cradled in the same far-off northern land. The tallest, lean bodied but broad shouldered, black of hair and gray of eye, held himself in soldierly fashion and gazed unmoved. His two mates—one stocky, red faced and red headed; the other slender, bronzed and blond—betrayed their thoughts in their blue eyes. The red man squinted quizzically at the smoke feather as if it mattered little to him where he was. The blond watched it with the wistfulness of one who sees the last sign of his own world fade out.



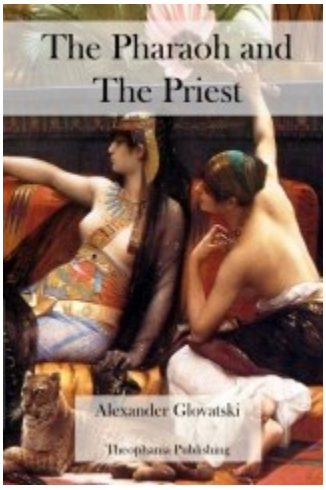
The Perfumed Garden
By Shaykh Nefwazi
256 Pages, $20.24 USD, ISBN: 1475257678
In spite of the subject-matter of the book, and the manifold errors found in it and caused by the negligence and ignorance of the copyists, it is manifest that this treatise comes from the pen of a man of great erudition, who had a better knowledge in general of literature and medicine than is commonly found with Arabs. According to the historical notice contained in the first leaves of the manuscript, and notwithstanding the apparent error respecting the name oft he Bey who was reigning in Tunis, it may be presumed that this work was written in the beginning of the sixteenth century, about the year 925 of the Hegira.



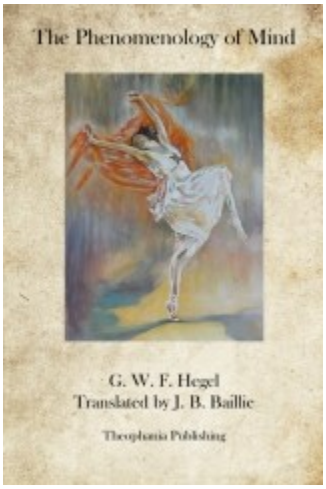
The Peyote Cult
By Paul Radin
76 Pages, $16.24 USD, ISBN: 1479146609
Peyote has never been a drug for thrill seekers. The small, hard cactus is difficult to obtain. It tastes vile, ingestion normally leads to painful vomiting, and the effects are more subtle than other psychedelics. The Native American Peyote ceremony emerged at the turn of the 20th century, like the Ghost Dance, at a time when Native American culture was under much stress. It blended Christian and traditional beliefs, and used Peyote as a sacrament.



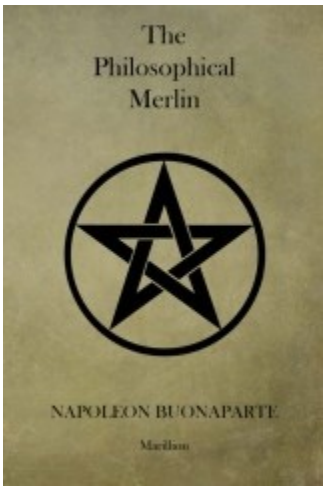
The Phantom World
By Augustine Calmet
604 Pages, $31.24 USD, ISBN: 1478256656
Among the many phases presented by human credulity, few are more interesting than those which regard the realities of the invisible world. If the opinions which have been held on this subject were written and gathered together they would form hundreds of volumes if they were arranged and digested they would form a few, but most important. It is not merely because there is in almost every human error a substratum of truth, and that the more important the subject the more important the substratum, but because the investigation will give almost a history of human aberrations, that this otherwise unpromising topic assumes so high an interest.



The Pharaoh and The Priest
By Alexander Glovatski
730 Pages, $27.24 USD, ISBN: 147828238X
THE position of Ancient Egypt was unique, not in one, but in every sense. To begin at the very foundation of life in that country, we find that the soil was unlike any other on earth in its origin. Every acre of fruitful land between the first cataract and the sea had been brought from Inner Africa, and each year additions were made to it. Out of this mud, borne down thousands of miles from the great fertile uplands of Abyssinia by rivers, grew everything needed to feed and clothe man and nourish animals.

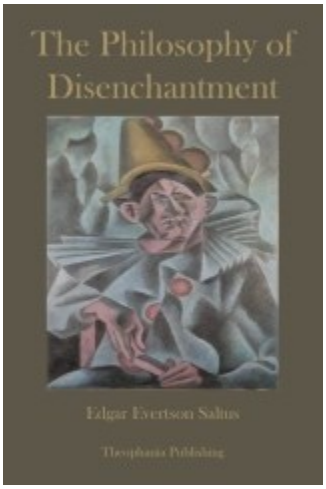


The Phenomenology of Mind
By G.W.F. Hegel
714 Pages, $34.24 USD, ISBN: 1469941791
In the case of a philosophical work it seems not only superfluous, but, in view of the nature of philosophy, even inappropriate and misleading to begin, as writers usually do in a preface, by explaining the end the author had in mind, the circumstances which gave rise to the work, and the relation in which the writer takes it to stand to other treatises on the same subject, written by his predecessors or his contemporaries. For whatever it might be suitable to state about philosophy in a preface, say, an historical sketch of the main drift and point of view, the general content and results, a string of desultory assertions and assurances about the truth, this cannot be accepted as the form and manner in which to expound philosophical truth.

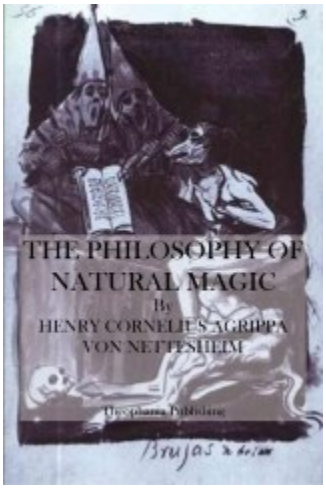


The Philosophical Merlin
By Napoleon Buoneparte
36 Pages, $16.24 USD, ISBN: 1501065033
It is necessary for the Reader to observe that, if on trial, the answer does not correspond with the known part of his fate, (and particularly the disposition and bodily marks. He may be sure that some mistake has been made by him in the process, or else in the want of mental energy, and belief in the mysterious practice to which he has resorted. This being the case, (which sometimes will necessarily happen,) let him, if during the Summer Season, wait during the full space of an hour and a half, and if during the Winter Season, one hour, before he again makes his divining points.

The Philosophy of Despair
By David Starr Jordan
38 Pages, $16.24 USD, ISBN: 1470084155
Today is your day and mine, the only day we have, the day in which we play our part. What our part may signify in the great whole, we may not understand, but we are here to play it, and now is our time. This we know, it is a part of action, not of whining. It is a part of love, not cynicism. It is for us to express love in terms of human helpfulness. This we know, for we have learned from sad experience that any other course of life leads toward decay and waste.



The Philosophy of Disenchantment
By Edgar Evertson Saltus
202 Pages, $16.24 USD, ISBN: 1478282428
The trite and commonplace question of contentment and dissatisfaction is a topic which is not only of every-day interest, but one which in recent years has so claimed the attention of thinkers, that they have broadly divided mankind into those who accept life off-hand, as a more or less pleasing possession, and those who resolutely look the gift in the mouth and say it is not worth the having.



The Philosophy of Natural Magic
By Henry Cornelius Agrippa Von Nett
356 Pages, $25.24 USD, ISBN: 1484919122
THE PHILOSOPHY OF NATURAL MAGIC By HENRY CORNELIUS AGRIPPA VON NETTESHEIM COUNSELOR TO CHARLES THE FIFTH, EMPEROR OF GERMANY, AND JUDGE OF THE PREROGATIVE COURT OFFICIAL EDITION A COMPLETE WORK ON Natural Magic, White Magic, Black Magic, Divination, Occult Binding, Sorceries, And Their Power. The Philosophy of Poverty
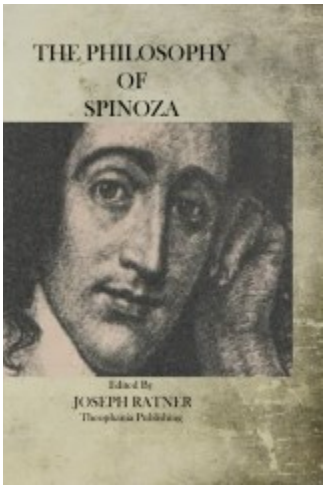
By Pierre-Joseph Proudhon
404 Pages, $20.24 USD, ISBN: 1770830154
I AFFIRM the REALITY of an economic science. This proposition, which few economists now dare to question, is the boldest, perhaps, that a philosopher ever maintained; and the inquiries to follow will prove, I hope, that its demonstration will one day be deemed the greatest effort of the human mind. I affirm, on the other hand, the absolute certainty as well as the progressive nature of economic science, of all the sciences in my opinion the most comprehensive, the purest, the best supported by facts: a new proposition, which alters this science into logic or metaphysics in concreto, and radically changes the basis of ancient philosophy.

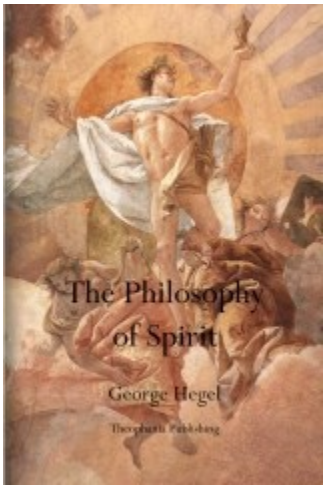


The Philosophy of Spinoza

By Joseph Ratner

396 Pages, $25.24 USD, ISBN: 1470084120

Selections usually need no justifications. Some justification, however, of the treatment accorded Spinoza's Ethics may be necessary in this place. The object in taking the Ethics as much as possible out of the geometrical form, was not to improve upon the author's text; it was to give the lay reader a text of Spinoza he would find pleasanter to read and easier to understand. To the practice of popularization, Spinoza, one may confidently feel, would not be averse. He himself gave a short popular statement of his philosophy in the Political Treatise.

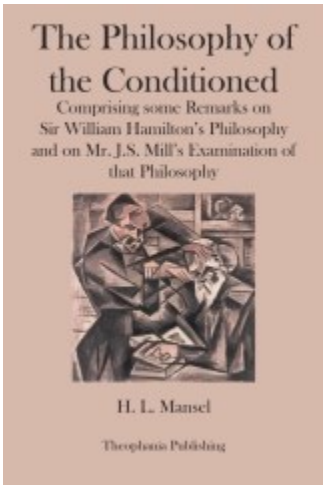


The Philosophy of Spirit

By George Hegel

80 Pages, $16.24 USD, ISBN: 1770831673

The knowledge of Mind is the highest and hardest, just because it is the most 'concrete' of sciences. The significance of that 'absolute' commandment, Know thyself, whether we look at it in itself or under the historical circumstances of its first utterance, is not to promote mere self knowledge in respect of the particular capacities, character, propensities, and foibles of the single self. The knowledge it commands means that of man's genuine reality, of what is essentially and ultimately true and real,of mind as the true and essential being.



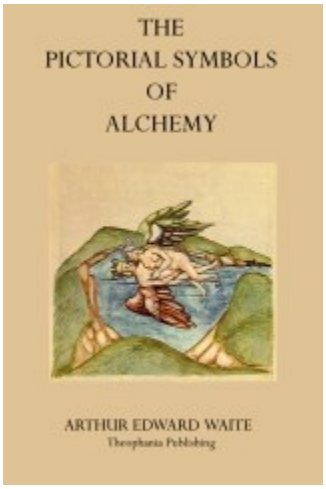
The Philosophy of the Conditioned

By H. L. Mansel

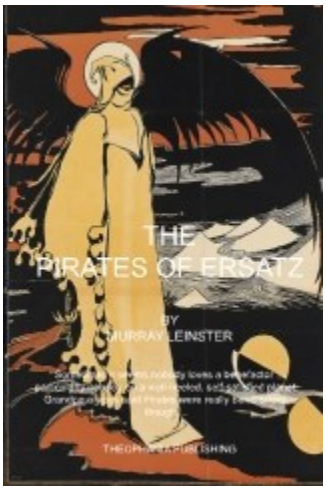
88 Pages, $15.24 USD, ISBN: 1478282452

The circumstance that the following remarks were originally published as an anonymous article in a Review, will best explain the style in which they are written. Absence from England prevented me from becoming acquainted with Mr. Mill's Examination of Sir William Hamilton's Philosophy till some time after its publication; and when I was requested to undertake the task of reviewing it, I was still ignorant of its contents. On proceeding to fulfil my engagement, I soon discovered, not only that the character of the book was very different from what the author's reputation had led me to expect, but also that my task would be one, not merely of criticism, but, in some degree, of self-defence.

The Piccadilly Puzzle
By Fergus Hume
258 Pages, $20.25 USD, ISBN: 1981829830
At two o'clock in the morning during the month of August sounds of music could be heard proceeding from a brilliantly lighted house in Park Lane, where a ball was being given by the Countess of Kerstoke. True, the season was long since over, and though the greater part of London Society had migrated swallow-like to the South of Europe in search of warm weather, still there were enough people in town to justify the ball being given, and a number of celebrities were present. Outside it was dull and chill with a thick yellow fog pervading the atmosphere, but within the great ball-room it was like fairy-land with the brilliant light of the lamps, the profusion of bright flowers, and the gay dresses worn by the ladies.



The Pictorial Symbols of Alchemy
By Arthur Edward Waite
24 Pages, $16.24 USD, ISBN: 1770831819
The Hermetic Mystery, upon the higher interpretation of which I have spoken at considerable length in the previous paper and have created an analogy between its hidden meaning and that which I should term the centre of the Religions Mystery in Christendom, is the only branch of mystic and occult literature which lent itself to the decorative sense. I suppose that there are few people comparatively who at this day have any notion of the extent to which that sense was developed in the books of the adepts



The Pirates of Ersatz
By Murray Leinster
272 Pages, $21.24 USD, ISBN: 1518652689
It was not mere impulsive action when Bron Hoddan started for the planet Walden by stowing away on a ship that had come to his native planet to hang all his relatives. He'd planned it long before. It was a long-cherished and carefully worked out scheme. He didn't expect the hanging of his relatives, of course. He knew that they'd act grieved and innocent, and give proof that they were simple people leading blameless lives. They'd make their would-be executioners feel ashamed and apologetic for having thought evil of them, and as soon as the strangers left they'd return to their normal way of life, which was piracy. But while this was going on, Bron Hoddan stowed away on the menacing vessel.

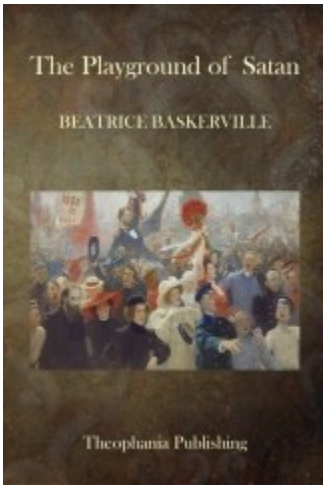
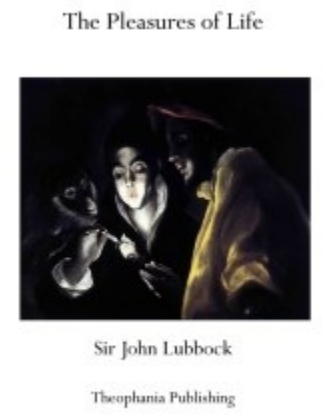
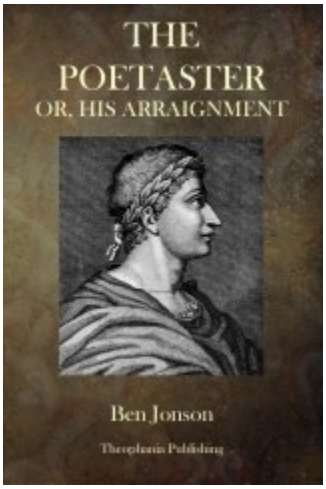
The Pirates Own Book: or Authentic Narratives of the Lives, Exploits, and Executions of the Most Celebrated Robbers
By Marine Research Society
510 Pages, $28.24 USD, ISBN: 1478282568
In the mind of the mariner, there is a superstitious horror connected with the name of Pirate; and there are few subjects that interest and excite the curiosity of mankind generally, more than the desperate exploits, foul doings, and diabolical career of these monsters in human form. A piratical crew is generally formed of the desperadoes and runagates of every clime and nation. The pirate, from the perilous nature of his occupation, when not cruising on the ocean, the great highway of nations, selects the most lonely isles of the sea for his retreat, or secretes himself near the shores of rivers, bays and lagoons of thickly wooded and uninhabited countries, so that if pursued he can escape to the woods and mountain glens of the interior.



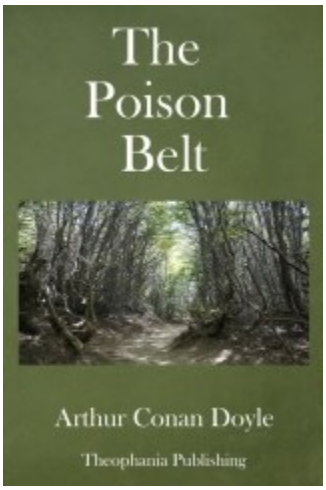
The Playground of Satan
By Beatrice Baskerville
280 Pages, $22.24 USD, ISBN: 1503050408
"I'll lay out at all the ministers when I get to Petrograd!" bawled the patient, springing up and upsetting the Father. Worse than that, he sent over the bottle of iodine, too, and they were very short of it. "Son of a dog, I'll have them all, crush their skulls like walnuts. The war minister first, for sending us sticks instead of guns ... and then the intendant, for these boots." Here he flung one across the yard, where it stuck on to the well-handle. "I'll murder every dog's son of them--by God, I will, till we clean Russia of thieves and swine." And so he went on, raving at everybody and everything, till he had shouted himself tired. Then he lay down in the shade of the stables and slept uneasily.



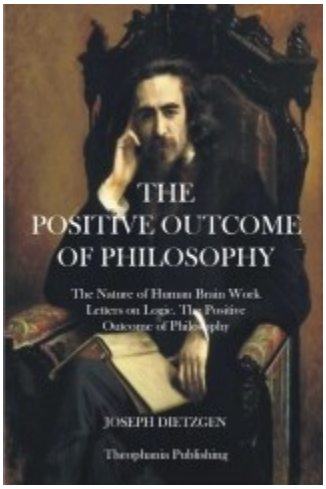
The Pleasures of Life
By Sir John Lubbock
252 Pages, $20.24 USD, ISBN: 1770831851
Life is a great gift, and as we reach years of discretion, we most of us naturally ask ourselves what should be the main object of our existence. Even those who do not accept "the greatest good of the greatest number" as an absolute rule, will yet admit that we should all endeavor to contribute as far as we may to the happiness of our fellow creatures. There are many, however, who seem to doubt whether it is right that we should try to be happy ourselves. Our own happiness ought not, of course, to be our main object, nor indeed will it ever be secured if selfishly sought.



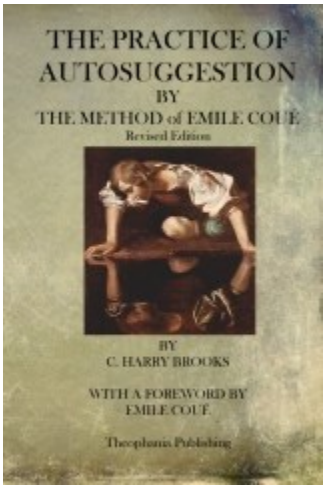
The Poetaster: Or, His Arraignment
By Ben Jonson
236 Pages, $20.24 USD, ISBN: 150305070X
THE greatest of English dramatists except Shakespeare, the first literary dictator and poet-laureate, a writer of verse, prose, satire, and criticism who most potently of all the men of his time affected the subsequent course of English letters: such was Ben Jonson, and as such his strong personality assumes an interest to us almost unparalleled, at least in his age. Ben Jonson came of the stock that was centuries after to give to the world Thomas Carlyle; for Jonson's grandfather was of Annandale, over the Solway, whence he migrated to England. Jonson's father lost his estate under Queen Mary, 'having been cast into prison and forfeited.' He entered the church, but died a month before his illustrious son was born, leaving his widow and child in poverty.



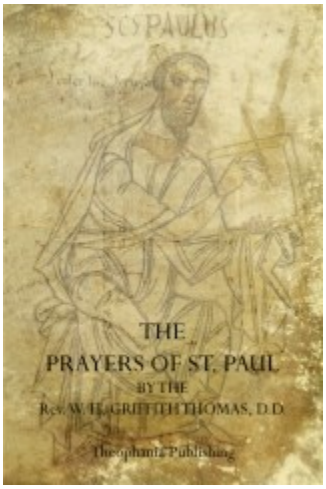
The Poison Belt
By Arthur Conan Doyle
150 Pages, $17.25 USD, ISBN: 1979424160
THE BLURRING OF LINES It is imperative that now at once, while these stupendous events are still clear in my mind, I should set them down with that exactness of detail which time may blur. But even as I do so, I am overwhelmed by the wonder of the fact that it should be our little group of the "Lost World"—Professor Challenger, Professor Summerlee, Lord John Roxton, and myself—who have passed through this amazing experience. When, some years ago, I chronicled in the Daily Gazette our epoch-making journey in South America, I little thought that it should ever fall to my lot to tell an even stranger personal experience, one which is unique in all human annals and must stand out in the records of history as a great peak among the humble foothills which surround it.



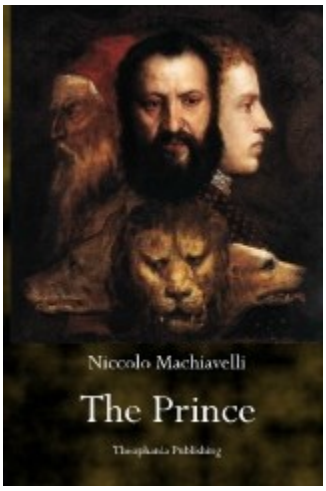
The Positive Outcome of Philosophy: The Nature of Human Brain Work Letters on Logic
By Joseph Dietzgen
442 Pages, $25.24 USD, ISBN: 1484918657
In the history of philosophy we see before us the consecutive forms of the thoughts of the ruling classes of society on life and on the world at large. This class thought appears after the primitive communism has given way to a society with class antagonisms, at a stage when the wealth of the members of the ruling class gave them leisure time and thus stimulated them to turn their attention to the productions of the mind. The beginning of this thought is found in classic Greece.



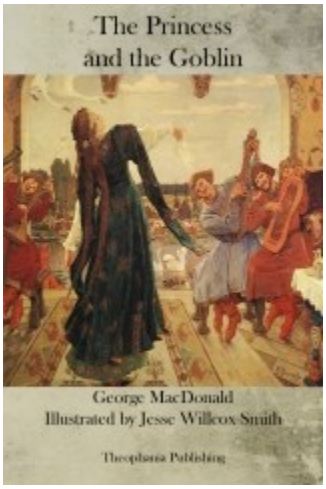
The Practice of Autosuggestion By The Method of Emile Coue
By C.Harry Brooks
112 Pages, $15.24 USD, ISBN: 148491936X
The discoveries of Emile Coué are of such moment for the happiness and efficiency of the individual life that it is the duty of anyone acquainted with them to pass them on to his fellows. The lives of many men and women are robbed of their true value by twists and flaws of character and temperament, which, while defying the efforts of the will, would yield rapidly to the influence of autosuggestion. Unfortunately, the knowledge of this method has hitherto been available in England only in the somewhat detailed and technical work of Professor Charles Baudouin, and in a small pamphlet, printed privately by M. Coué, which has not been publicly exposed for sale. To fill this gap is the aim of the following pages.



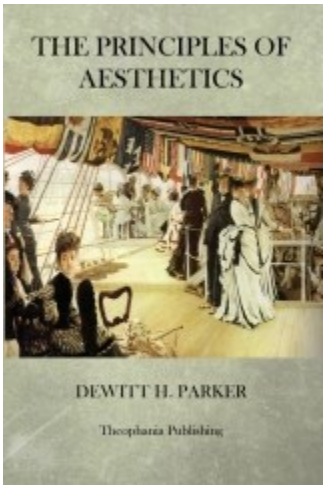
The Prayers Of St. Paul
By W. H. Griffith Thomas
90 Pages, $16.24 USD, ISBN: 1770833455
One of the most valuable elements in the Epistles of St. Paul is their revelation of the writer's spiritual life. While they are necessarily doctrinal and theological, dealing with the fundamental realities of the Christian religion, they are also intensely personal, and express very much of the Apostle's own experience. They depict in a marked degree the sources and characteristics of the spiritual life. This is especially seen when the various prayers, thanksgivings, doxologies, and personal testimonies are considered.



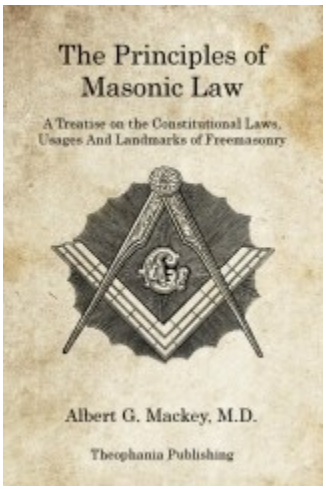
The Prince
By Niccolo Machiavelli
100 Pages, $10.24 USD, ISBN: 1926842618
The Prince is a political treatise by the Italian diplomat, historian and political theorist Niccolò Machiavelli. Originally given a Latin title, De Principatibus (About Principalities), it was written in 1513, but not published until 1532, five years after Machiavelli's death. This was done with the permission of the Medici pope Clement VII, but "long before then, in fact since the first appearance of the Prince in manuscript, controversy had swirled about his writings". Although it was written as if it were a traditional work in the Mirror of Princes style, it is generally agreed that it was especially innovative, and not only because it was written in Italian rather than Latin.



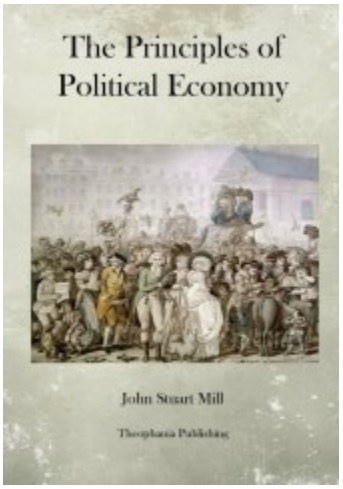
The Princess and the Goblin
By George MacDonald
190 Pages, $18.24 USD, ISBN: 1470084074
There was once a little princess whose father was king over a great country full of mountains and valleys. His palace was built upon one of the mountains, and was very grand and beautiful. The princess, whose name was Irene, was born there, but she was sent soon after her birth, because her mother was not very strong, to be brought up by country people in a large house, half castle, half farm-house, on the side of another mountain, about halfway between its base and its peak. The princess was a sweet little creature, and at the time my story begins was about eight years old. I think, but she got older very fast.



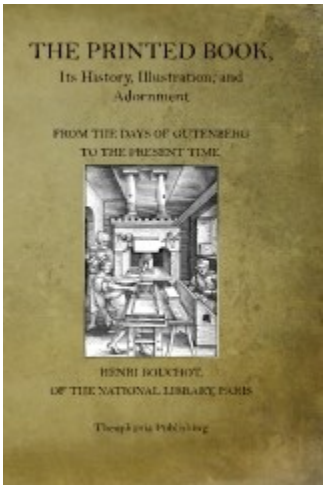
The Principles Of Aesthetics
By Dewitt H. Parker
294 Pages, $21.24 USD, ISBN: 1470083957
This book has grown out of lectures to students at the University of Michigan and embodies my effort to express to them the nature and meaning of art. In writing it, I have sought to maintain scientific accuracy, yet at the same time to preserve freedom of style and something of the inspiration of the subject. While intended primarily for students, the book will appeal generally, I hope, to people who are interested in the intelligent appreciation of art. My obligations are extensive,—most directly to those whom I have cited in foot-notes to the text, but also to others whose influence is too indirect or pervasive to make citation profitable, or too obvious to make it necessary.



The Principles of Masonic Law
By Albert G. Mackey , M.D.
220 Pages, $20.24 USD, ISBN: 1770830677
I have presumed to call this work "The Principles of Masonic Law." It is not a code of enactments, nor a collection of statutes, nor yet a digest of opinions; but simply an elementary treatise, intended to enable every one who consults it, with competent judgment, and ordinary intelligence, to trace for himself the bearings of the law upon any question which he seeks to investigate, and to form, for himself, a correct opinion upon the merits of any particular case. "He should consider his course as a general map of the law, marking out the shape of the country, its connections, and boundaries, its greater divisions, and principal cities; it is not his business to describe minutely the subordinate limits, or to fix the longitude and latitude of every inconsiderable hamlet."

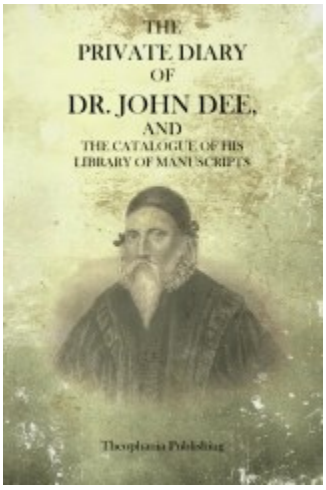


The Principles of Political Economy
By John Stuart Mill
746 Pages, $41.46 USD, ISBN: 1475067097
In every department of human affairs, Practice long precedes Science systematic enquiry into the modes of action of the powers of nature, is the tardy product of a long course of efforts to use those powers for practical ends. The conception, accordingly, of Political Economy as a branch of science is extremely modern; but the subject with which its enquiries are conversant has in all ages necessarily constituted one of the chief practical interests of mankind, and, in some, a most unduly engrossing one.

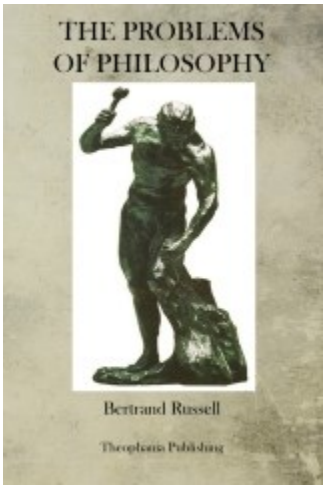


THE PRINTED BOOK,
Its History, Illustration, and Adornment
FROM THE DAYS OF GUTENBERG TO THE PRESENT TIME
HENRI BOUCHOT
OF THE NATIONAL LIBRARY, PARIS

The Printed Book
By Henri Bouchot
306 Pages, $22.24 USD, ISBN: 1518648703
CONSIDERING that this short study can claim to be nothing more than a rapid and somewhat summary survey of the history of THE BOOK, it eschews all controversial matter, nor does it pretend to convey much fresh information to those already possessing a special knowledge of the subject. It is rather a condensed, but at the same time, it may be hoped, a useful, compendium of the thousand unknown or now forgotten essays, involving endless contradictory statements, that have been issued on this theme. The mere enumeration of such works would simply suffice to fill a volume.

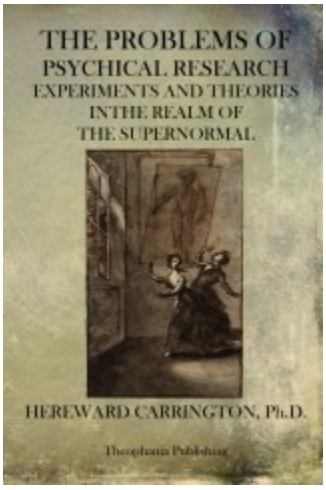


The Private Diary Of Dr. John Dee
By John Dee
92 Pages, $16.24 USD, ISBN: 1770833463
The present volume contains two curious documents concerning Dr. Dee, the eminent philosopher of Mortlake, now for the first time published from the original manuscripts. I. His Private Diary, written in a very small illegible hand on the margins of old Almanacs, discovered a few years ago by Mr. W. H. Black, in the library of the Ashmolean Museum at Oxford. II. A Catalogue of his Library of Manuscripts, made by himself before his house was plundered by the populace, and now preserved in the library of Trinity College, Cambridge. The publication of this Diary will tend perhaps to set Dee's character in its true light, more than any thing that has yet been printed.



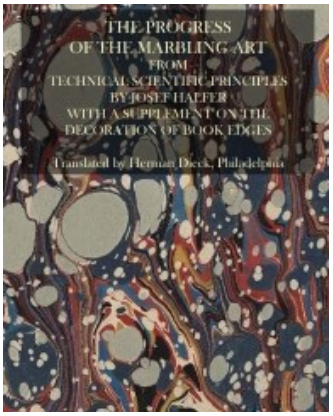
The Problems Of Philosophy
By Bertrand Russell
140 Pages, $17.24 USD, ISBN: 1470083922

Is there any knowledge in the world which is so certain that no reasonable man could doubt it? This question, which at first sight might not seem difficult, is really one of the most difficult that can be asked. When we have realized the obstacles in the way of a straightforward and confident answer, we shall be well launched on the study of philosophy, for philosophy is merely the attempt to answer such ultimate questions, not carelessly and dogmatically, as we do in ordinary life and even in the sciences, but critically, after exploring all that makes such questions puzzling, and after realizing all the vagueness and confusion that underlie our ordinary ideas.



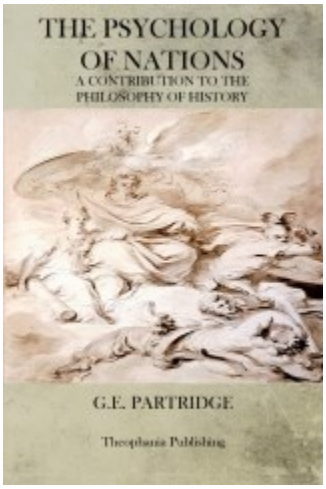
The Problems of Psychical Research
By Hereward Carrington Ph.D.
296 Pages, $18.24 USD, ISBN: 1484919254

In the following pages I have dealt chiefly with the mental or psychological phenomena of psychical research, and have not touched upon the physical manifestations to any extent. The book is mostly theoretical and constructive in tone; and, because of its speculative character, it may, perhaps, prove of value to future psychical investigators. It represents the author's conclusions after several years' experimentation; and, in a field so new as this, scientific hypotheses and speculations are assuredly helpful, indicating the road we must travel, and the possible interpretation of certain facts, which have been accumulated in the past, as the result of years of laborious research. I believe that practically all the phenomena of spiritualism are true; that is, that they have occurred in a genuine manner from time to time in the past; that they are supernormal in character, and are genuine phenomenal occurrences.

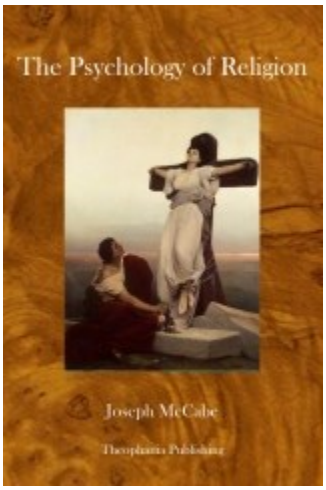


The Progress Of The Marbling Art
By Josef Halfer
98 Pages, $35.87 USD, ISBN: 1503050475 (8x10)

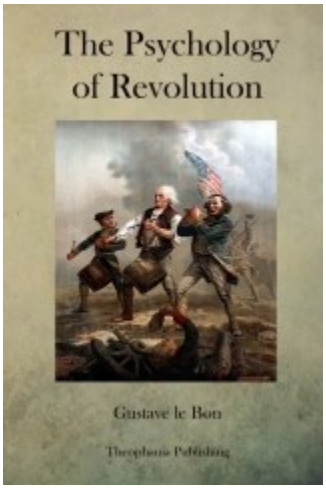
No product finds so many and ample applications as color. Nearly every trade requires it for the decoration of its products so as to adapt them more generally and pleasantly to the present demands. The art of marbling is that branch of our trade, in which color is brought into use for the decoration of bindings, yet it has not found the desirable general introduction into our book-binderies because practical men have not so intently employed their time and endeavors, to overcome the difficulties, which resist its general application. Who could solve easier and more correctly than the mechanics, to whom these difficulties and obstacles offer themselves in practice?



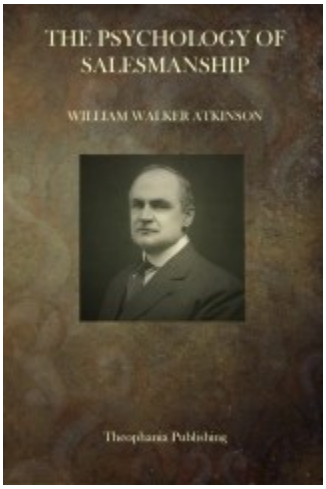
The Psychology of Nations
By G.E. Partridge
324 Pages, $22.24 USD, ISBN: 1470083876
This book contains two closely related studies of the consciousness of nations. It has been written during the closing months of the war and in the days that have followed, and is completed while the Peace Conference is still in session, holding in the balance, as many believe, the fate of many hopes, and perhaps the whole future of the world. We see focussed there in Paris all the motives that have ever entered into human history and all the ideals that have influenced human affairs. The question must have arisen in all minds in, some form as to what the place of these motives and ideals and dramatic moments is in the progress of the world. Is the world governed after all by the laws of nature in all its progress?



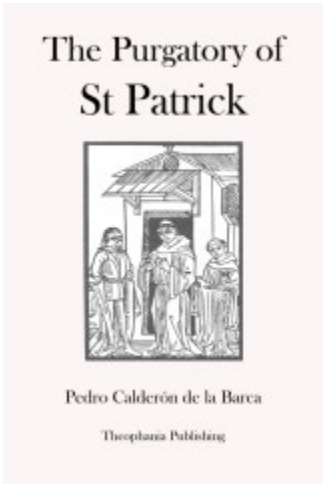
The Psychology of Religion
By Joseph McCabe
38 Pages, $16.24 USD, ISBN: 1770830162
The evolution of psychology is a proof that science has not yet completely emancipated itself from its serfdom to religious beliefs. It was originally a branch of philosophy, and its chief purpose was to serve religion by furnishing convincing proofs that the soul is spiritual and immortal. In proportion as the methods of science were adopted in it, and arguments of a philosophical character were eliminated, the aim of the science was changed. Half a century ago it abandoned the word "soul," and it threw out the question of immortality as a minor irrelevance to be wrangled over by Materialists, Christians, Spiritualists, and Theosophists.



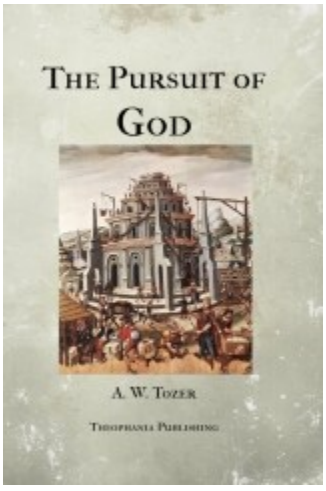
The Psychology of Revolution
By Gustave le Bon
332 Pages, $23.24 USD, ISBN: 1479182761
The present age is not merely an epoch of discovery; it is also a period of revision of the various elements of knowledge. Having recognised that there are no phenomena of which the first cause is still accessible, science has resumed the examination of her ancient certitudes, and has proved their fragility. To-day she sees her ancient principles vanishing one by one. Mechanics is losing its axioms, and matter, formerly the eternal substratum of the worlds, becomes a simple aggregate of ephemeral forces in transitory condensation.



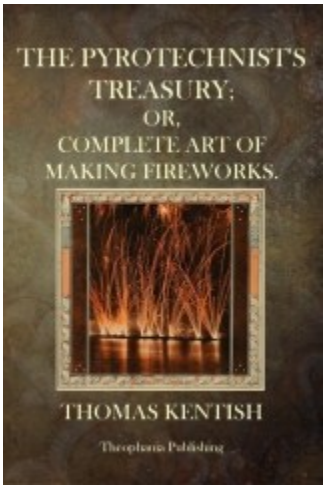
The Psychology Of Salesmanship
By William Walker Atkinson
144 Pages, $17.24 USD, ISBN: 1503050777
Until the last few years the mere mention of the word 'psychology' in connection with business was apt to be greeted with a shrug of the shoulders, a significant raising of the eyebrows—and a change of the subject. Psychology was a subject that savored of the class room, or else was thought to be somehow concerned with the soul, or possibly related to the abnormal phenomena generally classified as 'psychic.' The average business man was apt to impatiently resent the introduction into business of class room topics, or speculation regarding the soul, or of theories and tales regarding clairvoyance, telepathy, or general 'spookiness'—for these were the things included in his concept of 'psychology.'



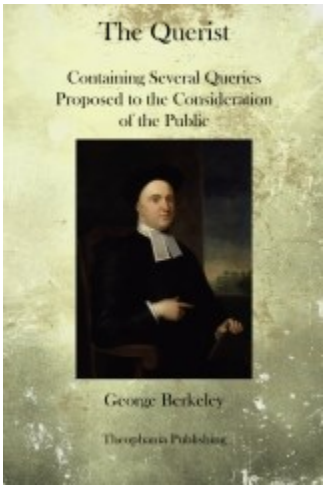
The Purgatory of St Patrick
By Pedro Calderón de la Barca
188 Pages, $18.24 USD, ISBN: 1478256672
Two of the dramas contained in this volume are the most celebrated of all Calderon's writings. The first, "La Vida es Sueno", has been translated into many languages and performed with success on almost every stage in Europe but that of England. So late as the winter of 1866-7, in a Russian version, it drew crowded houses to the great theatre of Moscow; while a few years earlier, as if to give a signal proof of the reality of its title, and that Life was indeed a Dream, the Queen of Sweden expired in the theatre of Stockholm during the performance of "La Vida es Sueno".



The Pursuit of God
By A W Tozer
114 Pages, $16.24 USD, ISBN: 1478344008
Here is a masterly study of the inner life by a heart thirsting after God, eager to grasp at least the outskirts of His ways, the abyss of His love for sinners, and the height of His unapproachable majesty and it was written by a busy pastor in Chicago! Who could imagine David writing the twenty-third Psalm on South Halsted Street, or a medieval mystic finding inspiration in a small study on the second floor of a frame house on that vast, flat checker-board of endless streets Where cross the crowded ways of life Where sound the cries of race and clan, In haunts of wretchedness and need, On shadowed threshold dark with fears, And paths where hide the lures of greed ...



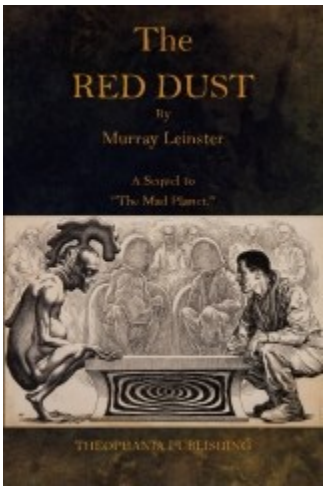
The Pyrotechnist's Treasury: Or,Complete Art Of Making Fireworks
By Thomas Kentish
174 Pages, $18.24 USD, ISBN: 1503036391
Until within the last few years there was scarcely any work in English, that I am aware of, on the subject of Pyrotechny, worth reading, with the exception of an Article in 'Brewster's Cyclopædia,' by MacCulloch; and this, besides being accessible to only a few, having been published in 1830, made no mention of colours, which form the most beautiful part of the art. In the first year of the present century a treatise was written by a Captain Jones, which has been copied, in whole or in part, into almost every work since published. The greater portion of it is absurd and impracticable, and shows that it was written by a person who undertook to teach what he had not learnt.



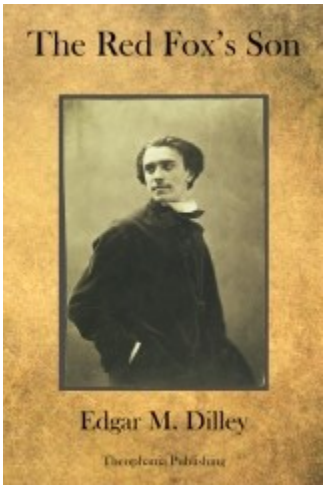
The Querist
By George Berkeley
110 Pages, $16.24 USD, ISBN: 1770833471
The Querist was first published in the year one thousand seven hundred and thirty-five; since which time the face of things is somewhat changed. In this edition some alterations have been made. The three Parts are published in one; some few Queries are added, and many omitted, particularly of those relating to the sketch or plan of a national bank, which it may be time enough to take again in hand when the public shall seem disposed to make use of such an expedient. I had determined with myself never to prefix my name to the Querist, but in the last edition was overruled by a friend, who was remarkable for pursuing the public interest with as much diligence as others do their own.

The Question of Lucifer
By Arthur Edward Waite
176 Pages, $18.24 USD, ISBN: 1770830170
THE term Modern Satanism is not intended to signify the development of some new aspect of old doctrine concerning demonology, or some new argument for the personification of the evil principle in universal nature. It is intended to signify the alleged revival, or, at least, the reappearance to some extent in public, of a cultus diabolicus, or formal religion of the devil, the existence of which, in the middle ages, is registered by the known facts of the Black Sabbath, a department, however, of historical research, to which full justice yet remains to be done.

The Rainbow Feather
By Fergus Hume
354 Pages, $23.25 USD, ISBN: 1981857400
"'The lef' han', dearie, an' gowld for th' charm. Aye! a bewtiful han' for a bewtiful maid. I 'udn't rade false for--eh, dear life, what is't? Th' lines goo criss an' crass. Duvel! I be mortal feared to tell 'ee. Take tha han'. Gran hes nought to spake for sich a mayden." As she said the last word, a startled look came into the glazed eyes of the old gipsy; and with a quick gesture she flung back the hand she had been holding. The pretty, fair-haired girl who was having her fortune told laughed nervously, and shot an anxious glance at the young man who stood near her. He was tall and dark and masterful; also he was in love with the girl, as could be seen from the tenderness in his eyes and the smile on his lips.



The Red Dust
By Murray Leinster
96 Pages, $16.24 USD, ISBN: 1518652638
You who have read "The Mad Planet" by Murray Leinster, will welcome the sequel to that story. The world, in a far distant future, is peopled with huge insects and titanic fungus growths. Life has been greatly altered, and tiny Man is now in the process of becoming acclimated to the change. We again meet our hero Burl, but this time a far greater danger menaces the human race. The huge insects are still in evidence, but the terror they inspire is as nothing compared to the deadly Red Dust. You will follow this remarkable story with breathless interest. The sky grew gray and then almost white. The overhanging banks of clouds seemed to withdraw a little from the steaming earth. Haze that hung always among the mushroom forests and above the fungus hills grew more tenuous, and the slow and misty rain that dripped the whole night long ceased reluctantly.



The Red Fox's Son
By Edgar M. Dilley
412 Pages, $25.25 USD, ISBN: 1979011052
As I write in my quiet library the history of those stirring events which began and ended while the bells of 19— were ringing in the New Year in the Kingdom of Bharbazonia, I am interrupted on my literary journey by the sound of a sweet voice singing, in the room below, the robust melody of "The King and the Pope," my favourite song. The sweet music sets me dreaming of the day I first met Solonika in her quaint little Dhalmatian summerhouse; of the time when she would have killed me in the Red Fox's Castle; of the night of suffering when I was lost in the Forest of Zin...

The Red Hand

By Arthur Machen

54 Pages, $16.24 USD, ISBN: 147008385X

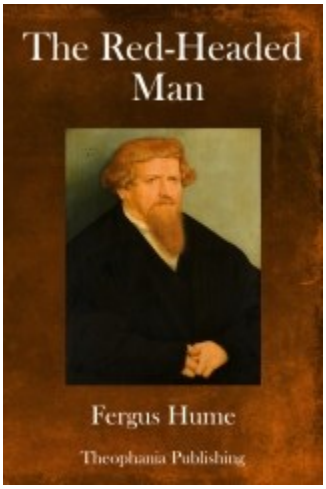
ARTHUR MACHEN was a Welsh author and mystic of the 1890s and early 20th century. He is best known for his influential supernatural, fantasy, and horror fiction. From the beginning of his literary career, Machen espoused a mystical belief that the humdrum ordinary world hid a more mysterious and strange world beyond. His gothic and decadent works of the 1890s concluded that the lifting of this veil could lead to madness, sex, or death, and usually a combination of all three. Machen's later works became somewhat less obviously full of gothic trappings, but for him investigations into mysteries invariably resulted in life-changing transformation and sacrifice. Machen loved the medieval world view because he felt it combined deep spirituality alongside a rambunctious earthiness.

The Red Window

By Fergus Hume

456 Pages, $26.25 USD, ISBN: 1981858733

"Hullo, Gore!" The young soldier stopped, started, colored with annoyance, and with a surprised expression turned to look on the other soldier who had addressed him. After a moment's scrutiny of the stranger's genial smile he extended his hand with pleased recognition. "Conniston," said he, "I thought you were in America." "So I am; so don't call me Conniston at the pitch of your voice, old boy. His lordship of that name is camping on Californian slopes for a big game shoot. The warrior who stands before you is Dick West of the —— Lancers, the old Come-to-the-Fronts. And what are you doing as an Imperial Yeoman, Gore?" "Not that name," said the other, with an anxious glance around.



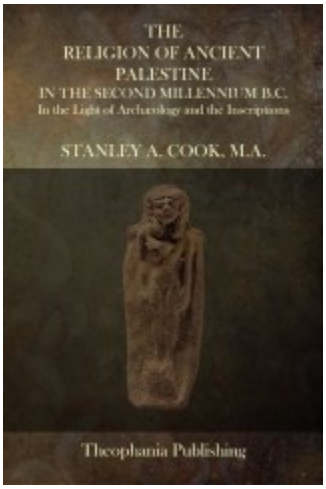
The Red-Headed Man

By Fergus Hume

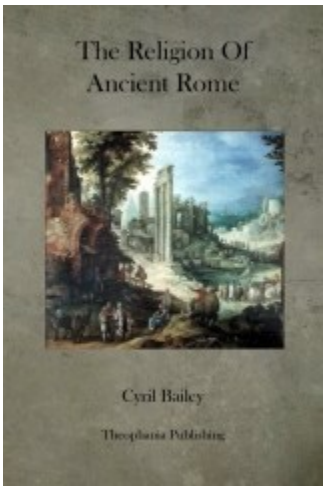
310 Pages, $22.25 USD, ISBN: 1981855696

Frank Darrel was a young man of twenty-five, with a sufficiency of good looks, and a comfortable income of five hundred a year. Also by way of employing his spare time, he was a realistic novelist of a particularly new school, founded on the axiom that fact invariably poaches on the domain of fiction. He neither conceived nor adopted, but set down actual details of the life around him, with so rigid an adherence to the truth that his published works read like police reports re-written in decent English. In a word, he held the mirror up to nature, and presented the reflection, beautiful or ugly, to the criticism of the British public.

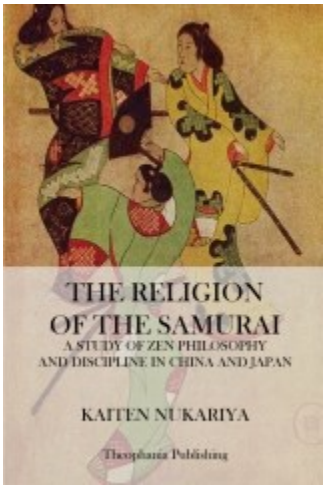
The Religion of Ancient Egypt
By W.M. Flinders Petrie
62 Pages, $20.24 USD, ISBN: 1926842197
The term god has come to tacitly imply to our minds such a highly specialised group of attributes, that we can hardly throw our ideas back into the more remote conceptions to which we also attach the same name. It is unfortunate that every other word for supernatural intelligences has become debased, so that we cannot well speak of demons, devils, ghosts, or fairies without implying a noxious or a trifling meaning, quite unsuited to the ancient deities that were so beneficent and powerful. If then we use the word god for such conceptions, it must always be with the reservation that the word has now a very different meaning from what it had to ancient minds.



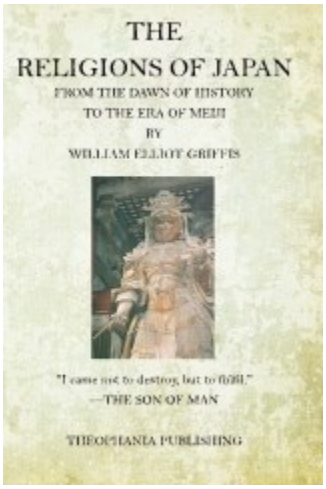
The Religion of Ancient Palestine In The Second Millennium B.C.: In the Light of Archæology and the Inscriptions
By Stanley A. Cook M.A.
84 Pages, $16.24 USD, ISBN: 1503036332
The following pages deal with the religion of Ancient Palestine, more particularly in the latter half of the Second Millennium, B.C. They touch upon the problem of the rise and development of Israelite religion; a problem, however, which does not lie within the scope of the present sketch. The Amarna tablets, Egyptian records, and the results of recent excavation form the foundation, and the available material has been interpreted in the light of comparative religion.



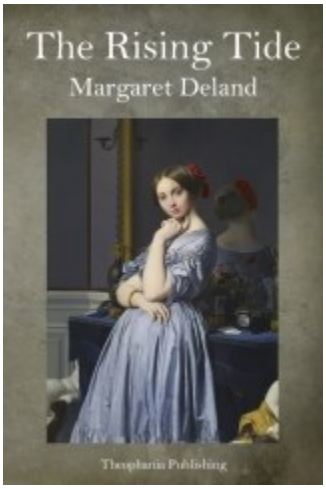
The Religion Of Ancient Rome
By Cyril Bailey MA
94 Pages, $16.24 USD, ISBN: 1475036965
The conditions of our knowledge of the native religion of early Rome may perhaps be best illustrated by a parallel from Roman archæology. The visitor to the Roman Forum at the present day, if he wishes to reconstruct in imagination the Forum of the early Republic, must not merely 'think away' many strata of later buildings, but, we are told, must picture to himself a totally different orientation of the whole: the upper layer of remains, which he sees before him, is for his purpose in most cases not merely useless, but positively misleading.



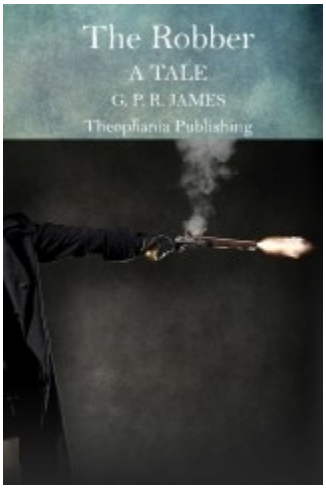
The Religion of the Samurai
By Kaiten Nukariya
272 Pages, $21.24 USD, ISBN: 1470083833
To-day Zen as a living faith can be found in its pure form only among the Japanese Buddhists. You cannot find it in the so-called Gospel of Buddha anymore than you can find Unitarianism in the Pentateuch, nor can you find it in China and India any more than you can find life in fossils of bygone ages. It is beyond all doubt that it can be traced back to Shakya Muni himself, nay, even to pre-Buddhistic times, because Brahmanic teachers practised Dhyana, or Meditation, from earliest times. Compressing his breathings let him, who has subdued all motions, breathe forth through the nose with the gentle breath.



The Religions of Japan: From the Dawn of History to the Era of Meiji
By William Elliot Griffis
420 Pages, $25.24 USD, ISBN: 1518633285
When in 1869, to Rutgers College, came an application through Rev. Dr. Guido F. Verbeck, of Tokio, from Fukui for a young man to organize schools upon the American principle in the province of Echizen (ultra-Buddhistic, yet already so liberally leavened by the ethical teachings of Yokoi Héishiro), the Faculty made choice of the author. Accepting the honor and privilege of being one of the "beginners of a better time," I caught sight of peerless Fuji and set foot on Japanese soil December 29, 1870. Amid a cannonade of new sensations and fresh surprises, my first walk was taken in company with the American missionary (once a marine in Perry's squadron, who later invented the jin-riki-sha), to see a hill-temple and to study the wayside shrines around Yokohama.



The Rising Tide
By Margaret Deland
314 Pages, $22.24 USD, ISBN: 154830705X
A single car-track ran through Payton Street, and over it, once in a while, a small car jogged along, drawn by two mules. Thirty years ago Payton Street had been shocked by the intrusion upon its gentility of a thing so noisy and vulgar as a street-car; but now, when the rest of the town was shuttled with trolleys and clamorous with speed, it seemed to itself an oasis of silence. Its gentility had ebbed long ago. The big houses, standing a little back from the sidewalk, were given over to lodgers or small businesses. Indeed, the Paytons were the only people left who belonged to Payton Street's past...

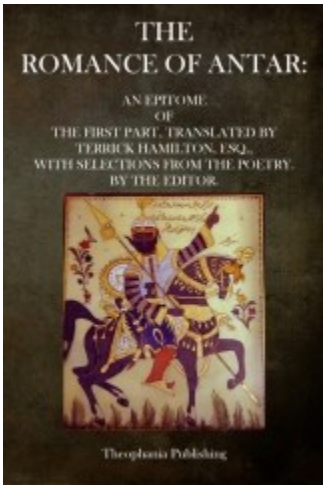


The Robber: A Tale

By G.P.R. James

564 Pages, $30.24 USD, ISBN: 1518633366

It was in the olden time of merry England--not at that far removes period when our native land first received its jocund name from the bowmen of Sherwood, and when the yeoman or the franklin, who had wandered after some knightly banner to the plains of the Holy Land, looked back upon the little island of his birth with forgetfulness of all but its cheerful hearths and happy days. Oh, no! it was in a far later age, when, notwithstanding wars and civil contentions not long past by, our country still deserved the name of merry England, and received it constantly amongst a class peculiarly its own.

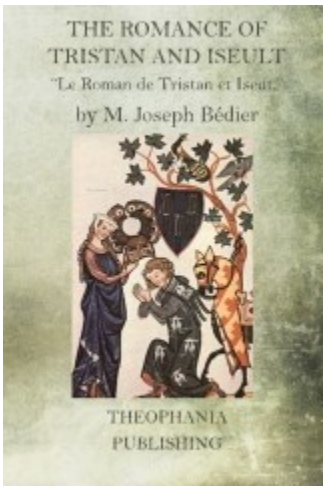


The Romance of Antar

By Terrick Hamilton

182 Pages, $18.24 USD, ISBN: 1484918568

IT is generally believed that this celebrated Arabian Romance was composed, in the eighth century, from traditionary tales which had been long current in the East, by El-Asma'ee, a famous philologist and poet at the court of Haroon Er-Rasheed. Other authors and sources (for instance, Johainah and Abu Obeidah) are mentioned in the work, but these, according to Von Hammer, have been inserted by story-tellers in the coffeehouses. Lane, in his admirable work on the Modern Egyptians, remarks that the 'Ulamà (learned men) 'in general despise the romance, and ridicule the assertion that El-Asma'ee was its author': their opinion, however, on a question of this kind, is of little value.

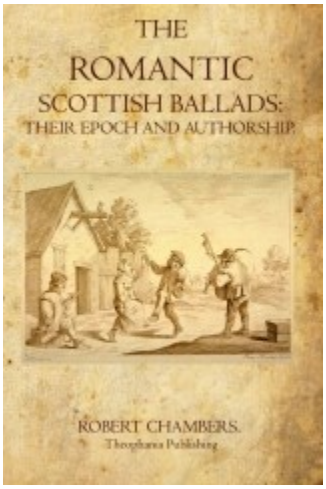


The Romance of Tristan and Iseult

By M. Joseph Bédier

120 Pages, $16.24 USD, ISBN: 1518633013

My lords, if you would hear a high tale of love and of death, here is that of Tristan and Queen Iseult; how to their full joy, but to their sorrow also, they loved each other, and how at last they died of that love together upon one day; she by him and he by her. Long ago, when Mark was King over Cornwall, Rivalen, King of Lyonesse, heard that Mark's enemies waged war on him; so he crossed the sea to bring him aid; and so faithfully did he serve him with counsel and sword that Mark gave him his sister Blanchefleur, whom King Rivalen loved most marvellously.

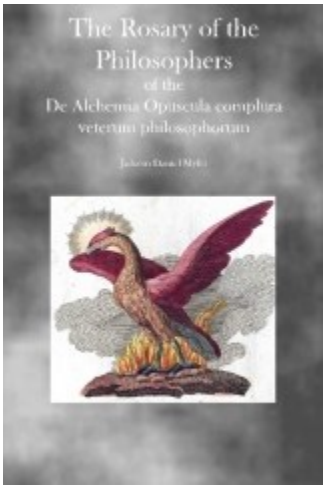


The Romantic Scottish Ballads

By Robert Chambers

58 Pages, $16.24 USD, ISBN: 1770831525

Percy's Reliques of Ancient English Poetry, 1765; David Herd's Scottish Songs, 1769; Scott's Minstrelsy of the Scottish Border, 1802; and Jamieson's Popular Ballads and Songs, 1806, have been chiefly the means of making us acquainted with what is believed to be the ancient traditionary ballad literature of Scotland; and this literature, from its intrinsic merits, has attained a very great fame. I advert particularly to what are usually called the Romantic Ballads, a class of compositions felt to contain striking beauties, almost peculiar to themselves, and consequently held as implying extraordinary poetical attributes in former generations of the people of this country.



The Rosary of the Philosophers

By Johann Daniel Myliu

They who desire to have the most true knowledge of the greater science of the philosophical Art, let them diligently peruse this little book and often times read it over and they shall obtain their prosperous and wished desire. Listen to these things, you children of the Ancient Philosophers, I will speak in the loudest and highest voice I can, for I come unto you to open and declare the principal state of human things and the most secret treasure of all the secrets of the whole world. The Rosicrucians: Their Rites and Mysteries

By Hargrave Jennings

422 Pages, $25.24 USD, ISBN: 1770830685

THIS book, which now leaves our hands, concentrates in a small compass the results of very considerable labour, and the diligent study of very many books in languages living and dead. it purports to be a history (for the first time treated seriously in English) of the famous Order of the 'Rose Cross', or of the 'Rosicrucians'. No student of the occult philosophy need, however, fear that we shall not most carefully keep guard, standing sentry (so to speak) not only over this, which is, by far, the preeminent, but also over those other recondite systems which are connected with the illustrious Rosicrucians.

The Ruins: or Meditations on the Revolutions of Empires and the Law of Nature

By C. F. Volney

224 Pages, $19.24 USD, ISBN: 1470083779

HAVING recently purchased a set of stereotyped plates of Volney's Ruins, with a view of reprinting the same, I found, on examination, that they were considerably worn by the many editions that had been printed from them, and that they greatly needed both repairs and corrections. A careful estimate showed that the amount necessary for this purpose would go far towards reproducing this standard work in modern type and in an improved form. After due reflection this course was at length decided upon, and all the more readily, as by discarding the old plates and resetting the entire work, the publisher was enabled to greatly enhance its value, by inserting the translator's preface as it appeared in the original edition...

The Sacred Formulas of the Cherokees
By James Mooney
164 Pages, $18.24 USD, ISBN: 1475257783
The sacred formulas here given are selected from a collection of about six hundred, obtained on the Cherokee reservation in North Carolina in 1887 and 1888, and covering every subject pertaining to the daily life and thought of the Indian, including medicine, love, hunting, fishing, war, self-protection, destruction of enemies, witchcraft, the crops, the council, the ball play, etc., and, in fact, embodying almost the whole of the ancient religion of the Cherokees. The original manuscripts, now in the possession of. the Bureau of Ethnology, were written by the shamans of the tribe, for their own use, in the Cherokee characters invented by Sikwâ'ya (Sequoyah) in 1821, and were obtained, with the explanations, either from the writers themselves or from their surviving relatives.

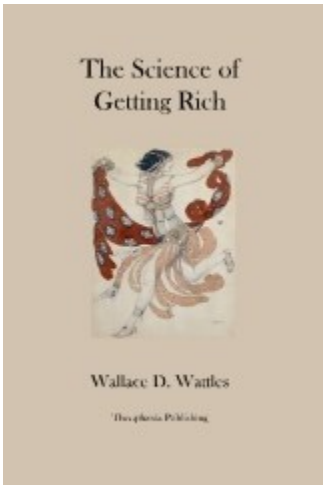
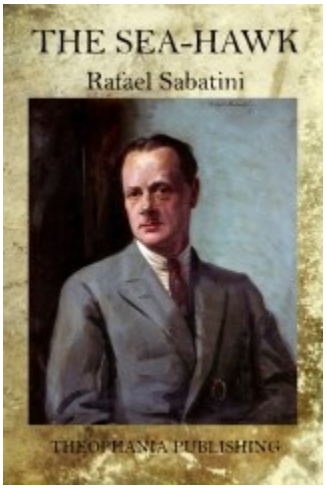
The Science of Being Well
By Wallace D. Wattles
90 Pages, $16.24 USD, ISBN: 1478343834
This volume is the second of a series, the first of which is "THE SCIENCE OF GETTING RICH." As that book is intended solely for those who want money, so this is for those who want health, and who want a practical guide and handbook, not a philosophical treatise. It is an instructor in the use of the universal Principle of Life, and my effort has been to explain the way in so plain and simple a fashion that the reader, though he may have given no previous study to New Thought or metaphysics, may readily follow it to perfect health. While retaining all essentials, I have carefully eliminated all non-essentials; I have used no technical, abstruse, or difficult language, and have kept the one point in view at all times.

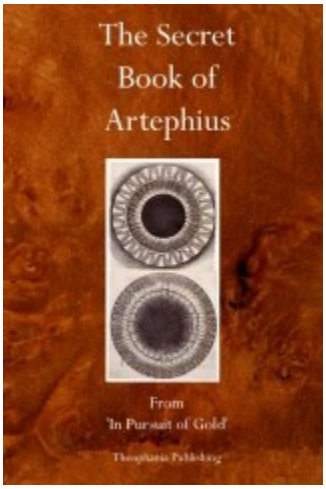


The Science of Getting Rich
By Wallace D. Wattles
60 Pages, $12.74 USD, ISBN: 1926842634
THIS book is pragmatical, not philosophical; a practical manual, not a treatise upon theories. It is intended for the men and women whose most pressing need is for money; who wish to get rich first, and philosophize afterward. It is for those who have, so far, found neither the time, the means, nor the opportunity to go deeply into the study of metaphysics, but who want results and who are willing to take the conclusions of science as a basis for action, without going into all the processes by which those conclusions were reached. It is expected that the reader will take the fundamental statements upon faith, just as he would take statements concerning a law of electrical action if they were promulgated by a Marconi or an Edison; and, taking the statements upon faith, that he will prove their truth by acting upon them without fear or hesitation.

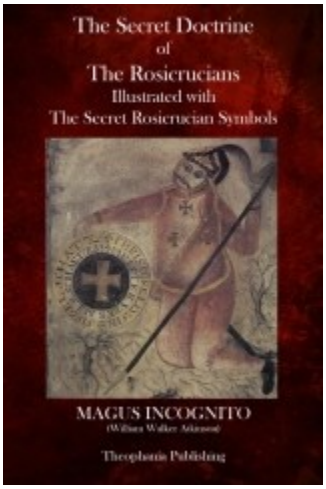
The Scottish Chiefs
By Jane Porter
784 Pages, $36.24 USD, ISBN: 1470082780
Bright was the summer of 1296. The war which had desolated Scotland was then at an end. Ambition seemed satiated; and the vanquished, after having passed under the yoke of their enemy, concluded they might wear their chains in peace. Such were the hopes of those Scottish noblemen who, early in the preceding spring, had signed the bond of submission to a ruthless conqueror, purchasing life at the price of all that makes life estimable-liberty and honor.



The Sea-Hawk
By Rafael Sabatini
492 Pages, $27.24 USD, ISBN: 1518633455
Sir Oliver Tressilian sat at his ease in the lofty dining-room of the handsome house of Penarrow, which he owed to the enterprise of his father of lamented and lamentable memory and to the skill and invention of an Italian engineer named Bagnolo who had come to England half a century ago as one of the assistants of the famous Torrigiani. This house of such a startlingly singular and Italianate grace for so remote a corner of Cornwall deserves, together with the story of its construction, a word in passing. The Italian Bagnolo who combined with his salient artistic talents a quarrelsome, volcanic humour had the mischance to kill a man in a brawl in a Southwark tavern.



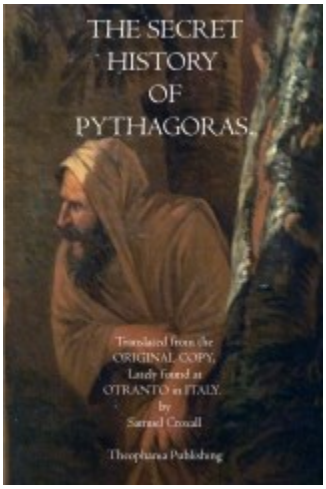
The Secret Book of Artephius
By Artephius
58 Pages, $16.24 USD, ISBN: 1770831789
O God, how through nature, doth thou change a body into a soul: which could not be done, if the soul were not incorporated with the bodies, and the bodies made volatile with the soul, and afterwards permanent and fixed. For this cause sake, they have passed over into one another, and by the influence of wisdom, are converted into one another. O Wisdom: how thou makest the most fixed gold to be volatile and fugitive, though by nature it is the most fixed of all things in the world... Ibn ar Tafiz (Artephius), later became the renown author of The Secret Book of Artephius.



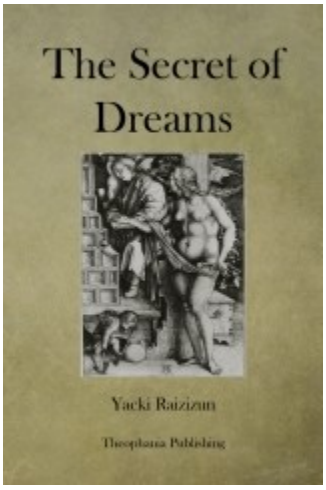
The Secret Doctrine of The Rosicrucians
By William Walker Atkinson
188 Pages, $18.24 USD, ISBN: 177083348X
The student of the history of occultism and the esoteric teachings, and even the average reader of current books and magazines, finds many references to 'The Rosicrucians,' a supposed ancient secret society devoted to the study of occult doctrines and the manifestation of occult powers. But when such person seeks to obtain detailed information concerning this supposed ancient 'order' he finds himself baffled and defeated. Before acknowledging the futility of the quest, however, he usually investigates one or more so-called 'orders' having as a part of their title the word 'Rosicrucian,' only to find himself invited to join such 'order' upon the payment of a fee or fees ranging from a small amount in some cases to quite large amounts in others, each 'order' claiming to be the 'only original order,' and asserting that all the others are base imitators.

The Secret Glory
By Arthur Machen
206 Pages, $19.24 USD, ISBN: 1470082748
The origin and genesis of The Secret Glory were odd enough. Once on a time, I read the life of a famous schoolmaster, one of the most notable schoolmasters of these later days. I believe he was an excellent man in every way; but, somehow, that Life got on my nerves. I thought that the School Songs — for which, amongst other things, this master was famous — were drivel; I thought his views about football, regarded, not as a good game, but as the discipline and guide of life, were rot, and poisonous rot at that. In a word, the Life of this excellent man got my back up. Very good. The year after, schoolmasters and football had ceased to engage my attention.

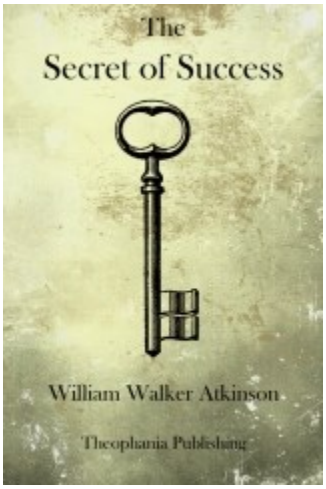
The Secret Grimoire of Turiel
By Marius Malchus
42 Pages, $15.24 USD, ISBN: 1926842804
Tûrêl in later translations was the 18th Watcher of the 20 leaders of the 200 fallen angels that are mentioned in an ancient work called the Book of Enoch. The name is believed to originate from “tuwr, el” meaning "rock of God". "The Secret Grimoire of Turiel" in which the magician is given instructions on how to contact Turiel. It was believed to have been written in about 1518, but may have been copied from something older. It came to light in 1927 after being sold to Marius Malchus in Spain by a defrocked priest and was then translated into English from the original Latin.



The Secret History of Pythagoras
By Pythagoras
32 Pages, $16.24 USD, ISBN: 1770832254
THE Translation of this venerable Piece of Antiquity is undertook upon a double Score; being designed as well to entertain the Curiosity of the Learned, as to supply the Defects of the Ignorant. If the original Language would have been more acceptable to the one, it would have been less intelligible to the other. I cannot, without uttering a Falsity, venture to affirm that so singular and valuable a Piece will be made Public, at least as yet: And in the mean Time I shall flatter myself, that this little Essay may contribute in some sort or other to the diversion, if not Instruction, of People in every Condition of Life.



The Secret of Dreams
By Yacki Raizizun
34 Pages, $16.24 USD, ISBN: 1479176540
Everybody dreams, but there are few who place any importance to the phenomena of sleep. Before we can begin to comprehend or even analyze dreams, whether our dreams are symbolic or otherwise, we must first divert from our mind our materialistic conceptions of what the individual called man really is. The external or physical man, is no more the man than the coat he wears. The physical man is only an instrument of which the real inner man or soul expresses itself in the physical universe.



The Secret of Success

By William Walker Atkinson

68 Pages, $16.24 USD, ISBN: 1770833498

All people are striving and seeking Success. Their idea of Success may differ, but they have all agreed upon the desirability of Attainment. 'Attainment', that is the word, which embodies the essence of that which we call Success. It is the 'Getting There' idea, the idea of Attainment, of Reaching the Goal for which we set out. That is the story - Attainment. The great men, the strong men, care nothing for the flock, which so obediently trots along after them. They derive no satisfaction from this thing, which pleases only inferior minds, and gratifies only petty natures and ambitions.

Mine would be Homes--but not for the aged or infirm. For young married couples! The Secret Passage

By Fergus Hume

490 Pages, $17.25 USD, ISBN: 1981830405

"What IS your name?" "Susan Grant, Miss Loach." "Call me ma'am. I am Miss Loach only to my equals. Your age?" "Twenty-five, ma'am." "Do you know your work as parlor-maid thoroughly?" "Yes, ma'am. I was two years in one place and six months in another, ma'am. Here are my characters from both places, ma'am." As the girl spoke she laid two papers before the sharp old lady who questioned her. But Miss Loach did not look at them immediately. She examined the applicant with such close attention that a faint color tinted the girl's cheeks and she dropped her eyes. But, in her turn, by stealthy glances, Susan Grant tactfully managed to acquaint herself with the looks of her possible mistress.

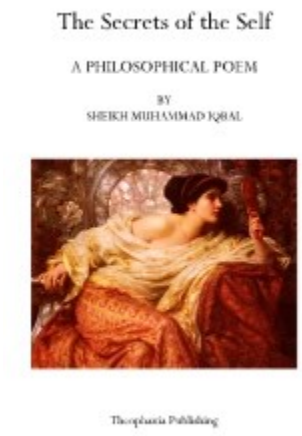
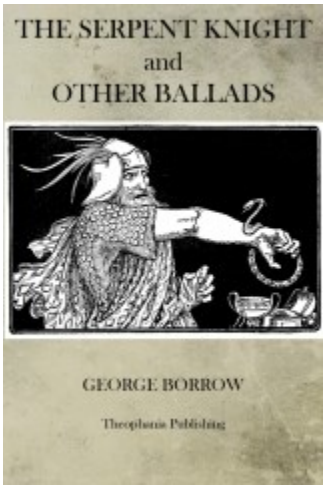
The Secret Teachings of All Ages
By Manly P. Hall
748 Pages, $45.24 USD, ISBN: 1926842189
"He who has not even a knowledge of common things is a brute among men. He who has an accurate knowledge of human concerns alone is a man among brutes. But he who knows all that can be known by intellectual energy, is a God among men." Through mental perversity some men do not desire pleasure. In reality, however, pleasure (especially of a physical nature) is the true end of existence and exceeds in every way mental and spiritual enjoyments. Pleasure, furthermore, is limited wholly to the moment; now is the only time. The past cannot be regarded without regret and the future cannot be faced without misgiving; therefore neither is conducive to pleasure. No man should grieve, for grief is the most serious of all diseases.



The Secrets of the Self
By Sheikh Muhammad Iqbal
88 Pages, $18.24 USD, ISBN: 1926842642
THE Asrár-i Khudí was first published at Lahore in 1915. I read it soon afterwards and thought so highly of it that I wrote to Iqbal, whom I had the pleasure of meeting at Cambridge some fifteen years ago, asking leave to prepare an English translation. My proposal was cordially accepted, but in the meantime I found other work to do, which caused the translation to be laid aside until last year. Before submitting it to the reader, a few remarks are necessary concerning the poem and its author. Iqbal is an Indian Moslem. During his stay in the West he studied modern philosophy, in which subject he holds degrees from the Universities of Cambridge and Munich. His dissertation on the development of metaphysics in Persia—an illuminating sketch—appeared as a book in 1908.

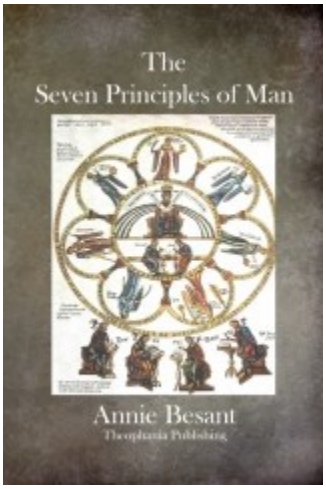


The Serpent Knight and Other Ballads

By George Borrow

24 Pages, $16.24 USD, ISBN: 1470082691

Signelil sits in her bower alone, Of her golden harp she waked the tone. Beneath her mantle her harp she played, Then in came striding the worm so laid. Proud Signelil, if thou me wilt wed, I'll give thee store of gold so red. Forbid the heavenly God so great That I should become the Lindworm's mate.

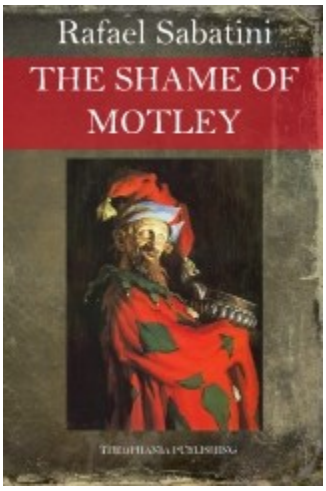


The Seven Principles of Man

By Annie Besant

96 Pages, $16.24 USD, ISBN: 1484900626

Few words are needed in sending this little book out into the world. It is the first of a series of Manuals designed to meet the public demand a simple exposition of Theosophical teachings. Some have complained that our literature is at once too abstruse, too technical, and too expensive for the ordinary reader, and it is our hope that the present series may succeed in supplying what is a very real want. Theosophy is not only for the learned; it is for all. It may be that among those who in these little books catch their first glimpse of its teachings, there may be a few who will be led by them to penetrate more deeply into its philosophy, its science, and its religion, facing its abstruser problems with the student's zeal and the neophyte's ardour.

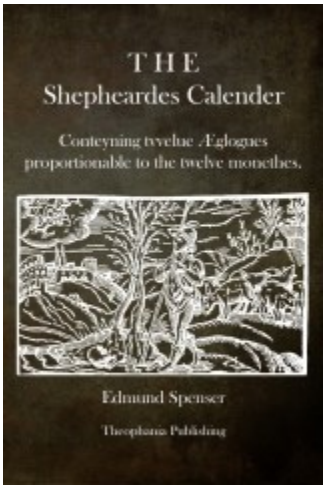


The Shame of Motley

By Rafael Sabatini

322 Pages, $22.24 USD, ISBN: 1517079594

"Excellency, spare me," I murmured. "Did you know all my miserable story you would be merciful. Did you know with what joy I turned my back on the Court of Pesaro—" "Aye," he broke in mockingly, "when Giovanni Sforza threatened to have you hanged for the overboldness of your tongue. Not until then did it occur to you to turn from the shameful life in which the best years of your manhood were being wasted. There! Just now I commended your truthfulness; but the truth that dwells in you is no more, it seems, than the truth we may look for in the mouth of Folly. At heart, I fear, you are a hypocrite, Messer Biancomonte; the worst form of hypocrite—a hypocrite to your own self."

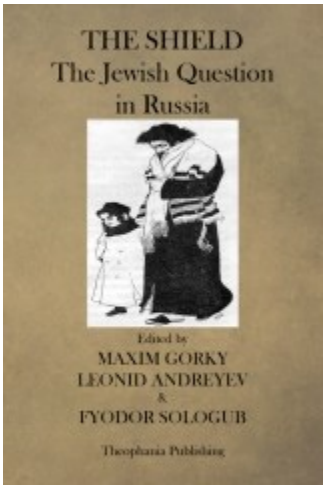


The Shepheardes Calender: Conteyning tvvelue Æglogues proportionable to the twelve monethes.

By Edmund Spenser

116 Pages, $16.24 USD, ISBN: 1484900375

The Shepheardes Calender was Edmund Spenser's first major poetic work, published in 1579. In emulation of Virgil's first work, the Eclogues, Spenser wrote this series of pastorals to begin his career. However, Spenser's models were rather the Renaissance eclogues of Mantuanus. The title, like the entire work, is written using deliberately archaic spellings, in order to suggest a connection to medieval literature, and to Geoffrey Chaucer in particular. The poem introduces Colin Clout, a folk character originated by John Skelton, and depicts his life as a shepherd through the twelve months of the year.

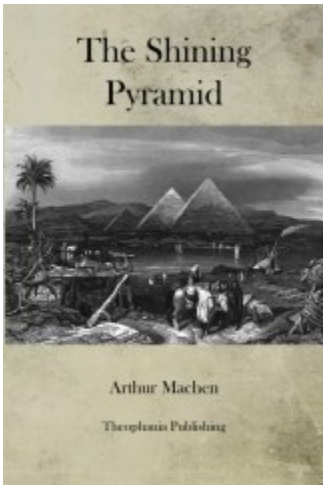


The Shield, The Jewish Question in Russia

By Maxim Gorky

156 Pages, $17.24 USD, ISBN: 1475012519

The refusal of the Russian people to be either bribed or deceived into hostility to the Jews is clearly enough demonstrated by the feeling of affection on the part of most intelligent Jews towards the Russian people The only exceptions are those Jews which come from the Polish cities far within the Jewish Pale and do not know the Russian people except by hearsay Unfortunately, this is a considerable portion of the total of the Jews in Russia, and it is from these cities and towns in the heart of the Pale that most of our immigrants come But all the more educated Jews—and a very large part are educated—all those who know Russia either by a travel or through Russian literature and newspapers, feel a deep affection for their country ...

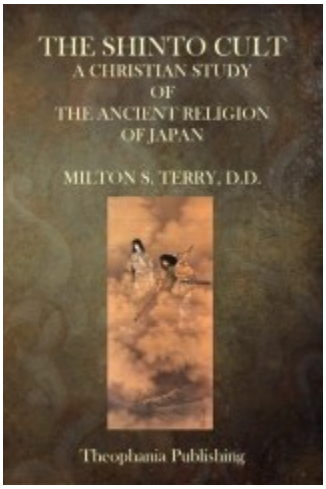


The Shining Pyramid

By Arthur Machen

44 Pages, $16.24 USD, ISBN: 1470082632

From the beginning of his literary career, Machen espoused a mystical belief that the humdrum ordinary world hid a more mysterious and strange world beyond. His gothic and decadent works of the 1890s concluded that the lifting of this veil could lead to madness, sex, or death, and usually a combination of all three. Machen's later works became somewhat less obviously full of gothic trappings, but for him investigations into mysteries invariably resulted in life-changing transformation and sacrifice. Machen loved the medieval world view because he felt it combined deep spirituality alongside a rambunctious earthiness.



The Shinto Cult: A Christian Study of the Ancient Religion of Japan
By Milton S. Terry D.D.
78 Pages, $16.24 USD, ISBN: 1503036154
The following pages are the substance of a course of lectures on the old Shinto cult which the author has been giving for a number of years to his classes in Comparative Religion. They are here condensed and adapted to the purpose of a little manual which, it is believed, may interest many readers, and bring together within a small space information gathered from many sources not easily accessible to ordinary students. At the same time it is hoped that this little volume may serve to suggest some valuable hints to the Christian missionary who is to come face to face with the Japanese people in their 'beautiful land of the reed plains and the fresh ears of rice.'

The Signature of all Things
By Jacob Boehme
272 Pages, $21.24 USD, ISBN: 1770832564
THERE are few figures in history more strange and beautiful than that of Jacob Boehme. With a few exceptions the outward events of his life were unremarkable. He was born in 1575 at the village Alt Seidenberg, two miles from Goerlitz in Germany and close to the Bohemian border. His parents were poor, and in childhood he was put to mind their cattle. It was in the solitude of the fields that he first beheld a vision, and assuredly his contemplative spirit must have been well nourished by the continual companionship of nature. Now in the study of mysticism we soon find the essential experience of all mystics to have been identical, and that among them is no figure more representative than Jacob Boehme: so that when we read this book we are like men who from the vantage-point of one of its highest hills can see below and around them the whole expanse of a beautiful and unearthly island.

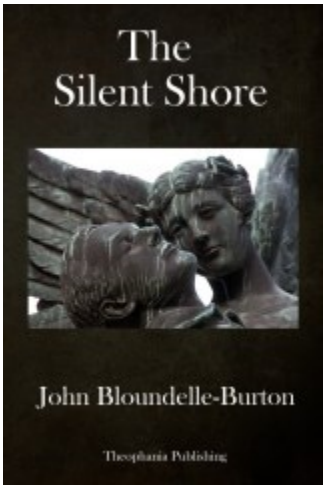
The Silent House

By Fergus Hume

418 Pages, $25.25 USD, ISBN: 198185293X

Lucian Denzil was a briefless barrister, who so far departed from the traditions of his brethren of the long robe as not to dwell within the purlieus of the Temple. For certain private reasons, not unconnected with economy, he occupied rooms in Geneva Square, Pimlico; and, for the purposes of his profession, repaired daily, from ten to four, to Serjeant's Inn, where he shared an office with a friend equally briefless and poor. This state of things sounds hardly enviable, but Lucian, being young and independent to the extent of £300 a year, was not dissatisfied with his position.



The Silent Shore

By John Bloundelle-Burton

314 Pages, $22.25 USD, ISBN: 1978457081

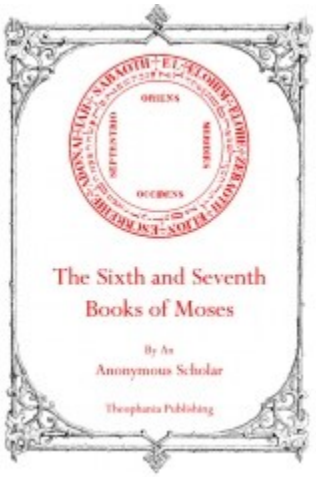
THE STORY OF THIRTY YEARS AGO "And you are certain of the year he was married in?" "Perfectly—there is no possibility of my being mistaken. He was married on New Year's Day, '58; I was born in May, '59." "It is strange, certainly. But there is one solution of it—is it not possible that, even if this is he, the lady registered as his wife might not have been so? In fact she could not have been, otherwise he could never have married your mother." "I will not believe it! He was too cold and austere—too puritanical I had almost said—to form any such connection." "Do you think, then, that he would commit bigamy?" "I don't know what to think!" the other answered gloomily.

The Silver Bullet

By Fergus Hume

594 Pages, $30.25 USD, ISBN: 1981853251

"We had better lie down and die," said Robin peevishly. "I can't go a step further," and to emphasise his words he deliberately sat. "Infernal little duffer," growled Herrick. "Huh! Might have guessed you would Joyce." He threw himself down beside his companion and continued grumbling. "You have tobacco, a fine night, and a heather couch of the finest, yet you talk as though the world were coming to an end." "I'm sure this moor never will," sighed Joyce, reminded of his cigarettes, "we have been trudging it since eight in the morning, yet it still stretches to the back-of-beyond. Hai!" The pedestrians were pronouncedly isolated. A moonless sky thickly jewelled with stars, arched over a treeless moor, far-stretching as the plain of Shinar.

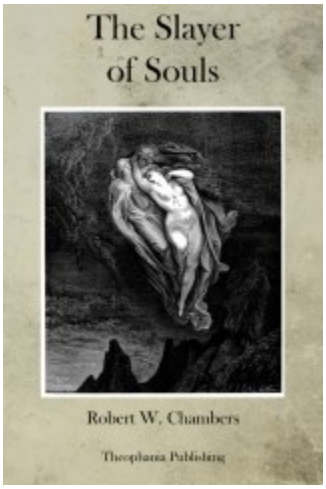


The Sixth and Seventh Books of Moses

By Anonymous Scholar

282 Pages, $21.24 USD, ISBN: 1770830510

The Sixth and Seventh Books of Moses is an 18th or 19th century magical text allegedly written by Moses, and passed down as hidden (or lost) books of the Five Books of Moses or Pentateuch. A grimoire, a text of magical incantations and seals, it purports to instruct the reader in the spells used to create the miracles portrayed in the Christian Bible. The work was printed with annexes or reputed Talmudic magic names, words and incantation, many taken from Christian biblical passages. It shows diagrams of "Seals": magical drawings accompanied by incantations intended to perform tasks from controlling weather or people, to contacting the dead or Christian religious figures.



The Slayer of Souls

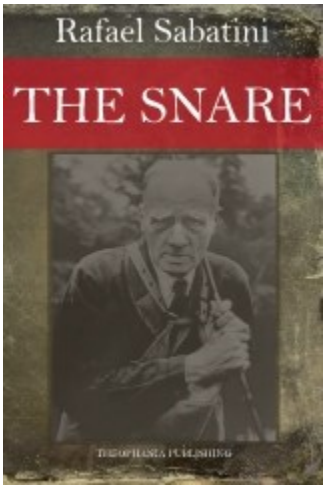
That evening she took her Yu-kin from her cabin and found a chair on the deserted hurricane deck. And here, in the brilliant moonlight of the China Sea, she curled up cross-legged on the deck, all alone, and sounded the four futile strings of her moon-lute, and hummed to herself, in a still voice, old songs she had sung in Yian before the tragedy. She sang the tent-song called Tchinguiz. She sang Camel Bells and The Blue Bazaar, children‘s songs of the Yiort. She sang the ancient Khiounnou song called The Saghalien.

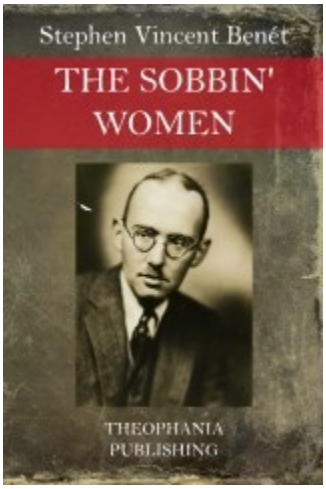


The Snare

By Rafael Sabatini

346 Pages, $23.24 USD, ISBN: 1517079365

But had Mr. Bearsley been at home the dragoons could have received no warmer welcome than that which was extended to them by Fernando Souza. Greeting the lieutenant in intelligible English, he implored him, in the florid manner of the Peninsula, to count the house and all within it his own property, and to command whatever he might desire. The troopers found accommodation in the kitchen and in the spacious hall, where great fires of pine logs were piled up for their comfort; and for the remainder of the day they abode there in various states of nakedness, relieved by blankets and straw capotes, what time the house was filled with the steam and stench of their drying garments.

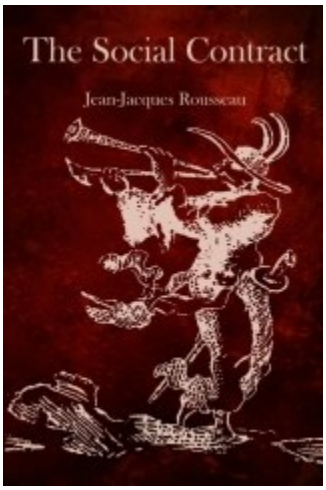


The Sobbin' Women

By Stephen Vincent Benét

24 Pages, $16.24 USD, ISBN: 1517079713

THEY came over the Pass one day in one big wagon—all ten of them—man and woman and hired girl and seven big boy children, from the nine-year-old who walked by the team to the baby in arms. Or so the story runs—it was in the early days of settlement and the town had never heard of the Sobbin' Women then. But it opened its eyes one day, and there were the Pontipees. They were there but they didn't stay long—just time enough to buy meal and get a new shoe for the lead horse. You couldn't call them unsociable, exactly—they seemed to be sociable enough among themselves. But you could tell, somehow, from the look of them, that they weren't going to settle on ground other people had cleared.

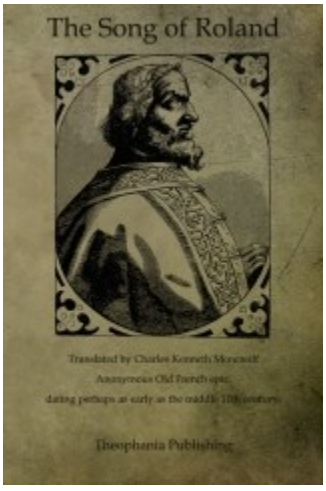


The Social Contract

By Jean-Jacques Rousseau

144 Pages, $17.24 USD, ISBN: 1770833501

I MEAN to inquire if, in the civil order, there can be any sure and legitimate rule of administration, men being taken as they are and laws as they might be. In this inquiry I shall endeavour always to unite what right sanctions with what is prescribed by interest, in order that justice and utility may in no case be divided. I enter upon my task without proving the importance of the subject. I shall be asked if I am a prince or a legislator, to write on politics. I answer that I am neither, and that is why I do so. If I were a prince or a legislator, I should not waste time in saying what wants doing; I should do it, or hold my peace.

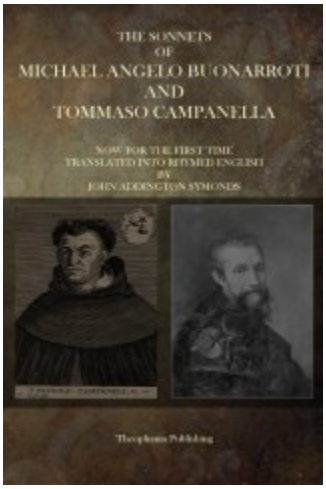


The Song of Roland

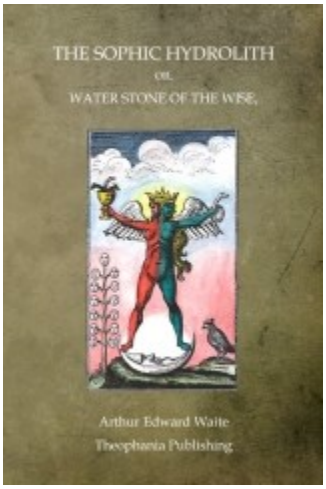
By Charles Kenneth Moncreiff

144 Pages, $17.24 USD, ISBN: 1468025422

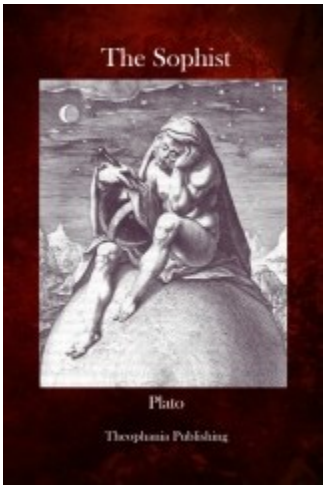
For seven years, the valiant Christian king Charlemagne has made war against the Saracens in Spain. Only one Muslim stronghold remains: the city of Saragossa, under the rule of King Marsile and Queen Bramimonde. Marsile, certain that defeat is inevitable, hatches a plot to rid Spain of Charlemagne. He will promise to be Charlemagne's vassal and a Christian convert in exchange for Charlemagne's departure. But once Charlemagne is back in France, Marsile will renege on his promises. Charlemagne and his vassals, weary of the long war, receive Marsile's messengers and try to choose an envoy to negotiate at Marsile's court on Charlemagne's behalf.



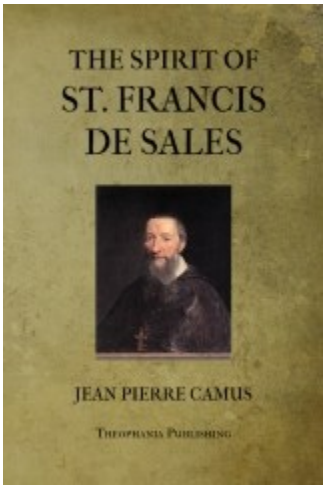
The Sonnets of Michaelangelo Buonarroti and Tommaso Campanella
By Michaelangelo Buonarroti
204 Pages, $19.24 USD, ISBN: 1503023036
It is with diffidence that I offer a translation of Michael Angelo's sonnets, for the first time completely rendered into English rhyme, and that I venture on a version of Campanella's philosophical poems. My excuse, if I can plead any for so bold an attempt, may be found in this—that, so far as I am aware, no other English writer has dealt with Michael Angelo's verses since the publication of his autograph; while Campanella's sonnets have hitherto been almost utterly unknown. Something must be said to justify the issue of poems so dissimilar in a single volume. Michael Angelo and Campanella represent widely sundered, though almost contemporaneous, moments in the evolution of the Italian genius.



The Sophic Hydrolith: Or, Water Stone of the Wise
By Arthur Edward Waite
120 Pages, $16.24 USD, ISBN: 1468025740
In the First part I will set forth the rudiments of the Art, and the best mode of preparing oneself for its study. In the Second I will shew and describe the quality and properties of the substance required, as also the method of its preparation and manipulation. In the Third something will be said concerning the great utility of the Art, and its unspeakable efficacy and virtue. In the Fourth will follow a Spiritual Allegory, in which this whole Magistery is set forth, being the true form of the Heavenly, Everlasting, and Blessed Corner Stone of the Most High. It will also contain a true, brief, and simple, practical manual of the method of proceeding, for I am no friend of many specious words.



The Sophist
By Plato
184 Pages, $18.24 USD, ISBN: 1770833528
The dramatic power of the dialogues of Plato appears to diminish as the metaphysical interest of them increases (compare Introd. to the Philebus). There are no descriptions of time, place or persons, in the Sophist and Statesman, but we are plunged at once into philosophical discussions; the poetical charm has disappeared, and those who have no taste for abstruse metaphysics will greatly prefer the earlier dialogues to the later ones. Plato is conscious of the change, and in the Statesman expressly accuses himself of a tediousness in the two dialogues, which he ascribes to his desire of developing the dialectical method.



The Spirit of St. Francis De Sales
By Jean Pierre Camus
394 Pages, $20.24 USD, ISBN: 147834380X
The Spirit of a Saint we may, perhaps, regard as the underlying characteristic which pervades all his thoughts, words, and acts. It is the note which sounds throughout the constant persevering harmony which makes the holiness of his life. Circumstances change. He grows from childhood to boyhood; from youth to manhood. His time of preparation is unnoticed by the world until the moment comes when he is called to a public activity which arrests attention. And essentially he remains the same.

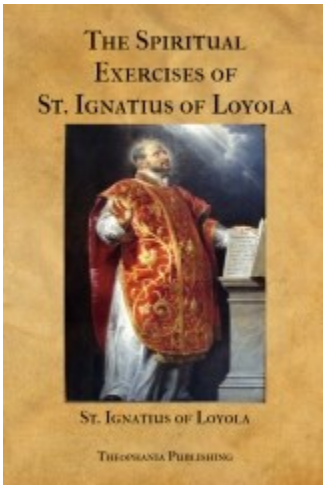
AN OLD ACQUAINTANCE IN A NEW RÔLE “It’s all well enough for you to sit there and grin like a gargle.” “Gargoyle is what you mean, my boy!” “Well, gargoyle,” continued Bert Middleton. “What’s the difference? Of course, it’s easy enough for you to laugh about it; it isn’t your funeral; but I guess if you’d had all your plans made up only to have them knocked higher than a kite at the last minute——” “I know,” said Harry Folsom soothingly. “It’s rotten mean luck. I’d have told the doctor that I wouldn’t do it.” “But it wasn’t his fault, you see. It’s dad that’s to blame for the whole business. You see, it was this way.



The Spiritual Exercises of St. Ignatius of Loyola
By St. Ignatius of Loyola
128 Pages, $15.24 USD, ISBN: 1478338202
The cares of the pastoral charge of the whole flock of Christ entrusted to Us and Our devotion to the glory and praise of God impel Us to embrace what helps the salvation of souls and their spiritual profit, and cause Us to hearken to those who petition Us for what can foster and nourish piety in the faithful. So Our beloved son, Francis de Borgia, Duke of Gandia, has lately brought it to Our notice that Our beloved son Ignatius de Loyola, General of the Society of Jesus, erected by Us in Our beloved City and confirmed by Our Apostolic authority, has compiled certain instructions, or Spiritual Exercises, drawn from Holy Writ and from experience in the spiritual life, and has reduced them to an order which is excellently adapted to move piously the souls of the faithful, and that they are very useful and wholesome for the spiritual consolation and profit of the same.

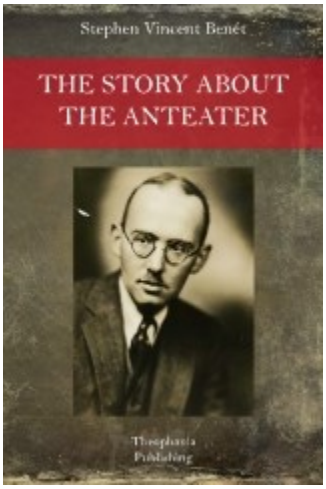
The Stolen Mind

By M. L. Staley

48 Pages, $16.24 USD, ISBN: 1517079772

"What caused you to answer our advertisement?" Owen Quest felt the steel of the quick gray eyes that jabbed like gimlets across the office table. "Why does any man apply for a job?" he bristled. Keane Clason gave an impatient smile. "Come!" he said. "I'm not trying to snare you. But there were unusual features to my ad, and they were put there to attract an unusual type of man. To judge your qualifications, I must know just why this proposition appeals to you." "I can tell you that," nodded Quest, "but there's nothing unusual about it. In the first place, I knew that the Clason Research Corporation is the leading concern of its kind in the country. In the second place, this seemed to offer a way to obtain a substantial sum of money quickly."

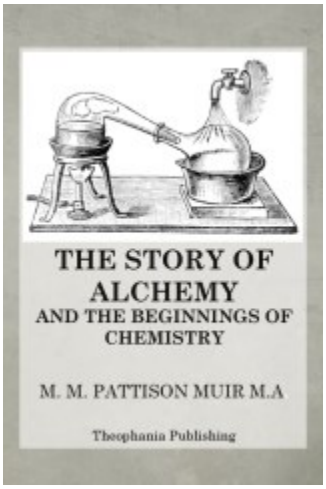


The Story About the Anteater

By Stephen Vincent Benet

28 Pages, $16.24 USD, ISBN: 1517079810

THE younger child sat bolt upright, her bedclothes wrapped around her. "If you're going down to look at them," she whispered accusingly, "I'm coming, too! And Alice'll catch you." "She won't catch me." Her elder sister's voice was scornful, "She's out in the pantry, helping. With the man from Gray's." "All the same, I'm coming. I want to see if it's ice cream in little molds or just the smashed kind with strawberries. And, if Alice won't catch you, she won't catch me." "It'll be molds," said the other, from the depths of experience, "Mother always has molds for the Whitehouses. And Mr. Whitehouse sort of clicks in his throat and talks about sweets to the sweet. You'd think he'd know that's dopey but he doesn't. And, anyhow, it isn't your turn."

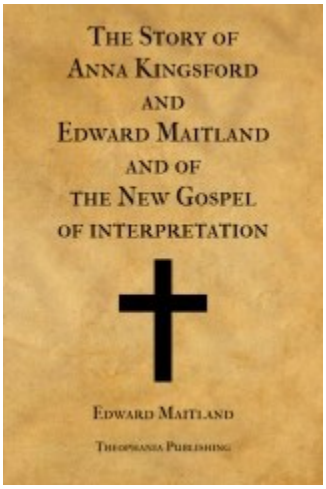


The Story of Alchemy and the Beginnings of Chemistry

By M. M. Pattison Muir

198 Pages, $19.24 USD, ISBN: 1470082128

The Story of Alchemy and the Beginnings of Chemistry is very interesting in itself. It is also a pregnant example of the contrast between the scientific and the emotional methods of regarding nature; and it admirably illustrates the differences between well-grounded, suggestive, hypotheses, and baseless speculations.

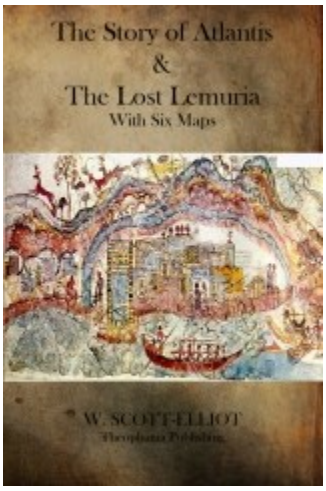


The Story of Anna Kingsford and Edward Maitland

By Edward Maitland

244 Pages, $17.24 USD, ISBN: 1478338172

This book is designed (1) in satisfaction of the widely-expressed desire for a more particular account than has yet been rendered concerning the genesis of the writings claiming to constitute a "New Gospel of Interpretation"; and (2) in fulfilment of the duty incumbent on me as the survivor of the two recipients of such Gospel to spare no means which may minister to its recognition and acceptance by the world, for whose benefit it has been vouchsafed. Although largely biographical in character, this book is not a history of individuals, but of a Work, and involves only such personal references as are necessary to such history.

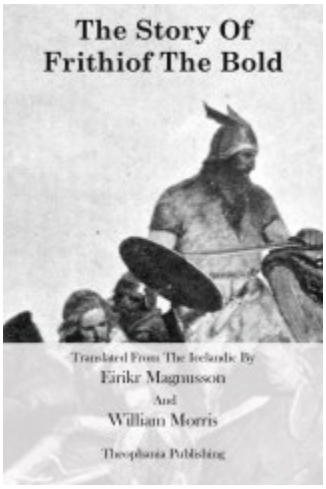


The Story of Atlantis and the Lost Lemuria

By W. Scott-Elliot

144 Pages, $17.24 USD, ISBN: 1484875656

For readers unacquainted with the progress that has been made in recent years by earnest students of occultism attached to the Theosophical Society, the significance of the statement embodied in the following pages would be misapprehended without some preliminary explanation. Historical research has depended for western civilisation hitherto, on written records of one kind or another. When literary memoranda have fallen short, stone monuments have sometimes been available, and fossil remains have given us a few unequivocal, though inarticulate assurances concerning the antiquity of the human race; but modern culture has lost sight of or has overlooked possibilities connected with the investigation of past events, which are independent of fallible evidence transmitted to us by ancient writers.

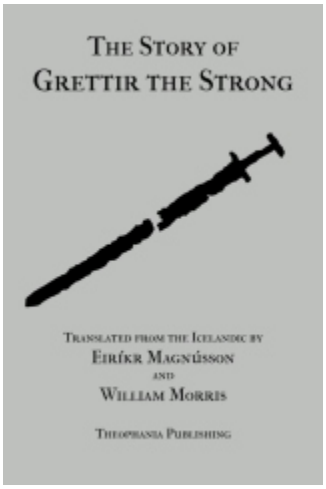


The Story Of Frithiof the Bold

By Eirikr Magnusson

48 Pages, $16.24 USD, ISBN: 1470075393

Thus beginneth the tale, telling how that King Beli ruled over Sogn-land; three children had he, whereof Helgi was his first son, and Halfdan his second, but Ingibiorg his daughter. Ingibiorg was fair of face and wise of mind, and she was ever accounted the foremost of the king's children. Now a certain strand went west of the firth, and a great stead was thereon, which was called Baldur's Meads; a Place of Peace was there, and a great temple, and round about it a great garth of pales: many gods were there, but amidst them all was Baldur held of most account.

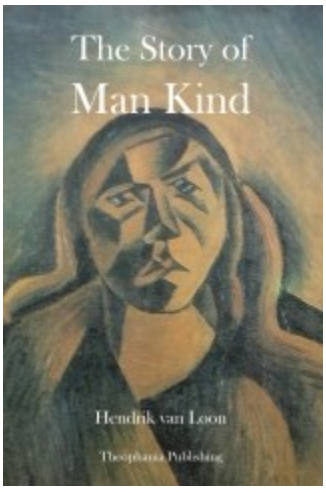


The Story of Grettir the Strong

By Eiríkr Magnússon

350 Pages, $19.24 USD, ISBN: 1478338148

A life scarce worth the living, a poor fame Scarce worth the winning, in a wretched land, Where fear and pain go upon either hand, As toward the end men fare without an aim Unto the dull grey dark from whence they came: Let them alone, the unshadowed sheer rocks stand Over the twilight graves of that poor band, Who count so little in the great world's game! Nay, with the dead I deal not; this man lives, And that which carried him through good and ill, Stern against fate while his voice echoed still From rock to rock, now he lies silent, strives With wasting time, and through its long lapse gives Another friend to me, life's void to fill.



The Story of Mankind

By Hendrik van Loon

406 Pages, $25.24 USD, ISBN: 1478256699

WHEN I was twelve or thirteen years old, an uncle of mine who gave me my love for books and pictures promised to take me upon a memorable expedition. I was to go with him to the top of the tower of Old Saint Lawrence in Rotterdam. And so, one fine day, a sexton with a key as large as that of Saint Peter opened a mysterious door. "Ring the bell," he said, "when you come back and want to get out," and with a great grinding of rusty old hinges he separated us from the noise of the busy street and locked us into a world of new and strange experiences. For the first time in my life I was confronted by the phenomenon of audible silence. When we had climbed the first flight of stairs, I added another discovery to my limited knowledge of natural phenomena that of tangible darkness. A match showed us where the upward road continued.

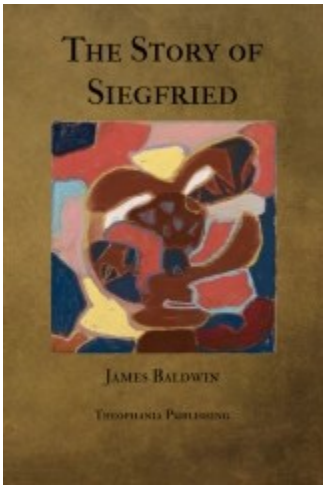
The Story of Paul Jones

By Alfred Henry Lewis

294 Pages, $21.25 USD, ISBN: 1979147043

This is in the long-ago, or, to be exact, in July, 1759. The new brig Friendship, not a fortnight off the stocks, is lying in her home harbor of Whitehaven, being fitted to her first suit of sails. Captain Bennison is restlessly about her decks, overseeing those sea-tailors, the sail-makers, as they go forward with their task, when Mr. Younger, the owner, comes aboard. The latter gentleman is lowland Scotch, stout, middle-aged, and his severe expanse of smooth-shaven upper-lip tells of prudence, perseverance and Presbyterianism in even parts, as traits dominant of his character.

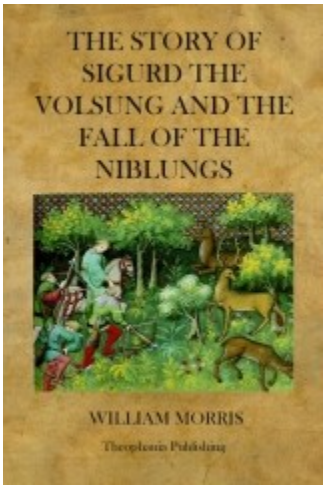


The Story of Siegfried

By James Baldwin

314 Pages, $18.24 USD, ISBN: 1478338083

When the world was in its childhood, men looked upon the works of Nature with a strange kind of awe. They fancied that every thing upon the earth, in the air, or in the water, had a life like their own, and that every sight which they saw, and every sound which they heard, was caused by some intelligent being. All men were poets, so far as their ideas and their modes of expression were concerned, although it is not likely that any of them wrote poetry. This was true in regard to the Saxon in his chilly northern home, as well as to the Greek in the sunny southland. But, while the balmy air and clear sky of the south tended to refine men's thoughts and language, the rugged scenery and bleak storms of the north made them uncouth, bold, and energetic.



The Story of Sigurd the Volsung and the Fall of the Niblungs
By William Morris
354 Pages, $23.24 USD, ISBN: 1470074389
Thus was the dwelling of Volsung, the King of the Midworld's Mark, As a rose in the winter season, a candle in the dark; And as in all other matters 'twas all earthly houses' crown, And the least of its wall-hung shields was a battle-world's renown, So therein withal was a marvel and a glorious thing to see, For amidst of its midmost hall-floor sprang up a mighty tree, That reared its blessings roofward, and wreathed the roof-tree dear With the glory of the summer and the garland of the year. I know not how they called it ere Volsung changed his life, But his dawning of fair promise, and his noontide of the strife, His eve of the battle-reaping and the garnering of his fame, Have bred us many a story and named us many a name; And when men tell of Volsung, they call that war-duke's tree, That crownèd stem, the Branstock; and so was it told unto me.

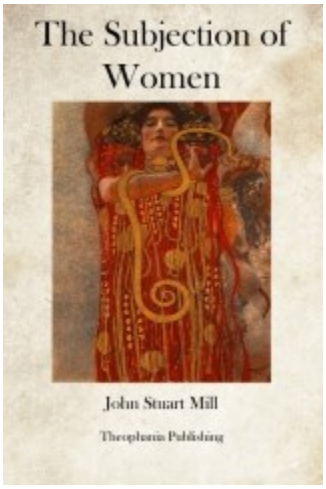
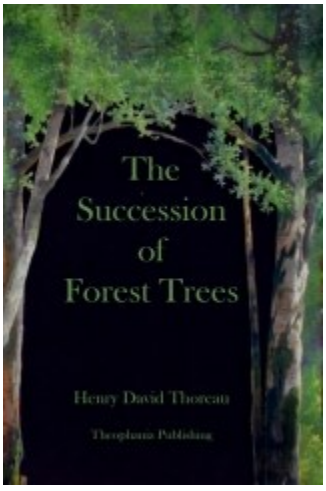
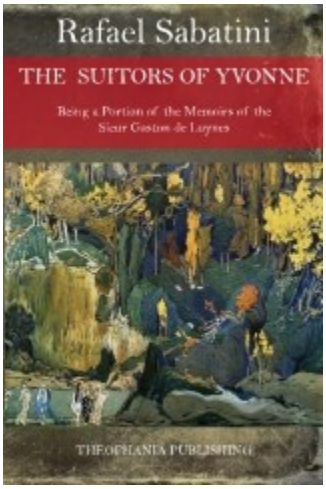
The Strolling Saint
By Raphael Sabatini
478 Pages, $27.24 USD, ISBN: 1517079551
In seeking other than in myself—as men will—the causes of my tribulations, I have often inclined to lay the blame of much of the ill that befell me, and the ill that in my sinful life I did to others, upon those who held my mother at the baptismal font and concerted that she should bear the name of Monica. There are in life many things which, in themselves, seeming to the vulgar and the heedless to be trivial and without consequence, may yet be causes pregnant of terrible effects, mainsprings of Destiny itself. Amid such portentous trifles I would number the names so heedlessly bestowed upon us. It surprises me that in none of the philosophic writings of the learned scholars of antiquity can I find that this matter of names has been touched upon...



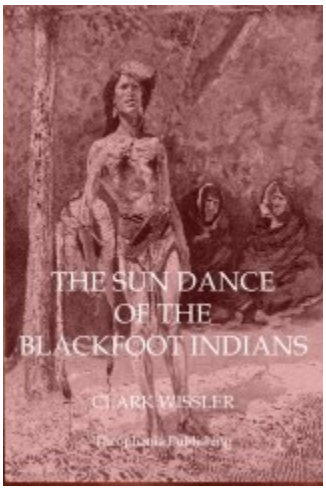
The Subjection of Women
By John Stuart Mill
132 Pages, $17.24 USD, ISBN: 1469945819
Mill defends the emancipation of women on utilitarian grounds. Mill was convinced that the moral and intellectual advancement of humankind would result in greater happiness for everybody. He asserted that the higher pleasures of the intellect yielded far greater happiness than the lower pleasure of the senses. He conceived of human beings as morally and intellectually capable of being educated and civilized. Mill believed everyone should have the right to vote, with the only exceptions being barbarians (referring to savages) and uneducated people. Mill argues that people should be able to vote to defend their own rights and to learn to stand on their two feet, morally and intellectually.



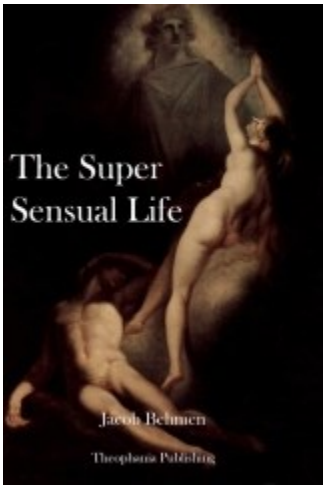
The Succession of Forest Trees
By Henry David Thoreau
32 Pages, $15.24 USD, ISBN: 1478338040
Every man is entitled to come to Cattle-show, even a transcendentalist; and for my part I am more interested in the men than in the cattle. I wish to see once more those old familiar faces, whose names I do not know, which for me represent the Middlesex country, and come as near being indigenous to the soil as a white man can; the men who are not above their business, whose coats are not too black, whose shoes do not shine very much, who never wear gloves to conceal their hands. It is true, there are some queer specimens of humanity attracted to our festival, but all are welcome.



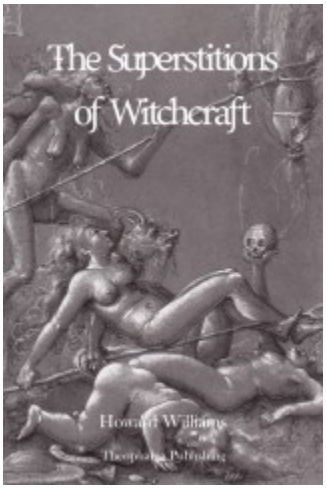
The Suitors of Yvonne
By Rafael Sabatini
262 Pages, $20.24 USD, ISBN: 1517079462
Leaping over the twitching corpse, I got out my sword and sprang after St. Auban, who, with Vilmorin and Yvonne, careless of what might betide his followers, was now within ten paces of the boat. Pistol shots cracked behind me, and I wondered how Michelot was faring, but dared not pause to look. The twain in the boat stood up, wielding their great oars, and methought them on the point of coming to their master's aid, in which case my battle had truly been a lost one. But that craven Vilmorin did me good service then, for with a cry of fear at my approach, he abandoned his hold of Yvonne, whose struggles were keeping both the men back; thus freed, he fled towards the boat, and jumping in, he shouted to the men in his shrill, quavering voice, to put off.



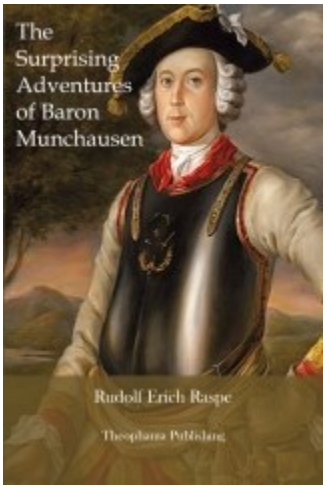
The Sun Dance of the Blackfoot Indians
By Clark Wissler
74 Pages, $16.24 USD, ISBN: 1770832556
The Blackfoot tribes, particularly the Piegan, have been more extensively studied than most other Plains Indians. The writer began a systematic investigation of their culture in 1903. At that time, the only works treating them seriously were those of the younger Henry, Maximilian, and Grinnell. There were some good fragmentary articles by McLean and Hale. Yet, since we began work on this problem, a number of excellent books have appeared. First, the long-forgotten journals of Mathew Cocking and Anthony Hendry who went to the Blackfoot country in 1754 were printed. Then followed McClintock's delightful book, "The Old North Trail" and later, Curtis's highly illustrated account of the Piegan.



The Super Sensual Life
By Jacob Behmen
48 Pages, $16.24 USD, ISBN: 1478230223
1 Corinthians 2, 7-15: We speak the hidden mystical Wisdom of God, which God ordained before the World unto our Glory; Which none of the Princes of this World knew; For had they known it, they would not have crucified the Lord of Glory. But, as it is written, Eye hath not seen, nor Ear heard, neither hath it entered into the Heart of man to conceive the Things which God hath prepared for them that Love him. But God hath revealed them unto us by His Spirit: For the Spirit searcheth all Things, yea, the deep Things of God. For what Man knoweth the Things of a Man, save the Spirit of a Man which is in him? Even so the Things of God knoweth no Man, but the Spirit of God. Now we have received, not the Spirit of this World, but the Spirit which is of God; that we might know the Things that are freely given us of God.



The Superstitions of Witchcraft
By Howard Williams
174 Pages, $15.24 USD, ISBN: 1479163473
'The Superstitions of Witchcraft' is designed to exhibit a consecutive review of the characteristic forms and facts of a creed which (if at present apparently dead, or at least harmless, in Christendom) in the seventeenth century was a living and lively faith, and caused thousands of victims to be sent to the torture-chamber, to the stake, and to the scaffold. At this day, the remembrance of its superhuman art, in its different manifestations, is immortalised in the every-day language of the peoples of Europe.



The Surprising Adventures of Baron Munchausen
By Rudolf Erich Raspe
194 Pages, $18.24 USD, ISBN: 1479182664
It is a curious fact that of that class of literature to which Munchausen belongs, that namely of Voyages Imaginaires, the three great types should have all been created in England. Utopia, Robinson Crusoe, and Gulliver, illustrating respectively the philosophical, the edifying, and the satirical type of fictitious travel, were all written in England, and at the end of the eighteenth century a fourth type, the fantastically mendacious, was evolved in this country. Of this type Munchausen was the modern original, and remains the classical example. The adaptability of such a species of composition to local and topical uses might well be considered prejudicial to its chances of obtaining a permanent place in literature. Yet Munchausen has undoubtedly achieved such a place.

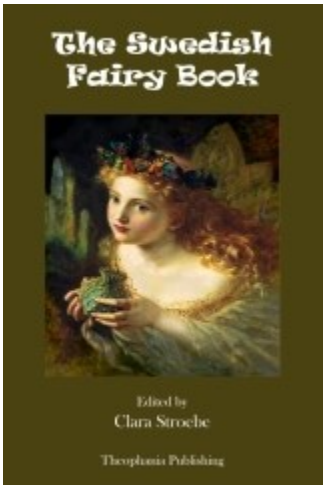
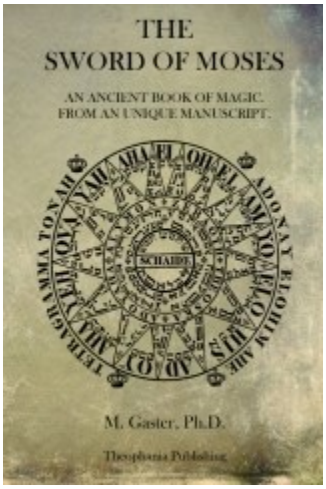
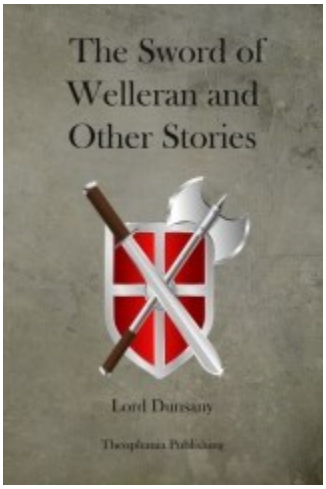
The Swastika
By Thomas Wilson
458 Pages, $26.24 USD, ISBN: 1503023052
An English gentleman, versed in prehistoric archæology, visited me in the summer of 1894, and during our conversation asked if we had the Swastika in America. I answered, “Yes,” and showed him two or three specimens of it. He demanded if we had any literature on the subject. I cited him De Mortillet, De Morgan, and Zmigrodzki, and he said, “No, I mean English or American.” I began a search which proved almost futile, as even the word Swastika did not appear in such works as Worcester’s or Webster’s dictionaries, the Encyclopædic Dictionary, the Encyclopædia Britannica, Johnson’s Universal Cyclopædia, the People’s Cyclopædia, nor Smith’s Dictionary of Greek and Roman Antiquities, his Greek and Roman Biography and Mythology, or his Classical Dictionary.



The Swedish Fairy Book
By Clara Stroebe
180 Pages, $18.24 USD, ISBN: 1478230371
The following volume of Swedish fairy-tales represents a careful choice, after the best original sources, of those examples of their kind which not only appeared most colorful and entertaining, but also most racially Swedish in their flavor. For the fairy-tales of each of the three Scandinavian countries, Sweden, Denmark and Norway, have a distinct local color of their own. The wealth of material available has made it possible to give due representation to most types of fairy-tales, from the stories of older origin, the tales of giant, troll, and werewolf, to such delightful tales as "Lasse, My Thrall", and "The Princess and the Glass Mountain," colored with the rich and ornate stylistic garb of medieval chivalric poesy. There has been no attempt to "rewrite" these charming folk-and fairy-tales in the translation.



The Sword of Moses
By M. Caster Ph.D.
60 Pages, $16.24 USD, ISBN: 1484875508
Magic has exercised the deepest influence upon mankind from remote antiquity unto our own days. It either formed part of the religion of the country, as it was the case in ancient Egypt and Babylon and as it is now in some forms of Buddhism (Tibet), or lived an independent life side by aide with the recognized religion. In some instances it was tolerated, or rendered less obnoxious, by a peculiar subdivision into white or beneficial and black or evil magic, or was downright persecuted. Wherever we go, however, and especially if we turn to the popular beliefs that rule the so-called civilized nations, we shall always and everywhere find a complete system of magical formulas and incantations.



The Sword of Welleran and Other Stories
By Lord Dunsany
120 Pages, $16.24 USD, ISBN: 147917646X
Where the great plain of Tarphet runs up, as the sea in estuaries, among the Cyresian mountains, there stood long since the city of Merimna well-nigh among the shadows of the crags. I have never seen a city in the world so beautiful as Merimna seemed to me when first I dreamed of it. It was a marvel of spires and figures of bronze, and marble fountains, and trophies of fabulous wars, and broad streets given over wholly to the Beautiful. Right through the centre of the city there went an avenue fifty strides in width, and along each side of it stood likenesses in bronze of the Kings of all the countries that the people of Merimna had ever known.

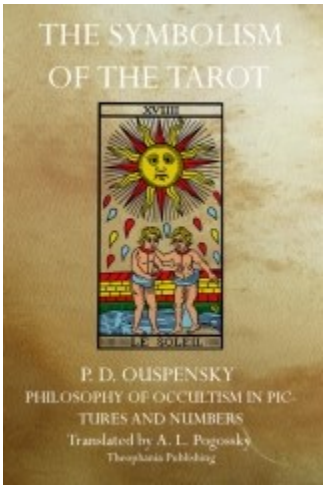
The Symbolism of Freemasonry:
Illustrating and Explaining Its Science and Philosophy, its Legends, Myths and Symbols
Theophania Publishing

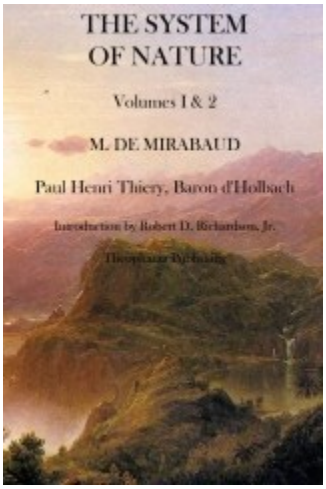
The Symbolism of Freemasonry
By Albert G. Mackey
468 Pages, $27.24 USD, ISBN: 1517079764
Of the various modes of communicating instruction to the uninformed, the masonic student is particularly interested in two; namely, the instruction by legends and that by symbols. It is to these two, almost exclusively, that he is indebted for all that he knows, and for all that he can know, of the philosophic system which is taught in the institution. All its mysteries and its dogmas, which constitute its philosophy, are intrusted for communication to the neophyte, sometimes to one, sometimes to the other of these two methods of instruction, and sometimes to both of them combined. The Freemason has no way of reaching any of the esoteric teachings of the Order except through the medium of a legend or a symbol.



THE SYMBOLISM OF THE TAROT
P. D. OUSPENSKY
PHILOSOPHY OF OCCULTISM IN PICTURES AND NUMBERS
Translated by A. L. Pogossky
Theophania Publishing

The Symbolism of the Tarot
By P.D. Ouspensky
70 Pages, $16.24 USD, ISBN: 1770831843
No study of occult philosophy is possible without an acquaintance with symbolism, for if the words occultism and symbolism are correctly used, they mean almost one and the same thing. Symbolism cannot be learned as one learns to build bridges or speak a foreign language, and for the interpretation of symbols a special cast of mind is necessary; in addition to knowledge, special faculties, the power of creative thought and a developed imagination are required. One who understands the use of symbolism in the arts, knows, in a general way, what is meant by occult symbolism. But even then a special training of the mind is necessary, in order to comprehend the "language of the Initiates", and to express in this language the intuitions as they arise.

The Syrian Goddess
By Herbert A. Strong
80 Pages, $16.24 USD, ISBN: 147008208X
To the student of oriental religions the Dea Syria is brimful of interest. It describes the cult and worship of the goddess of Northern Syria, Atargatis, at her sacred city, Hierapolis, now Mumbij. The time when Lucian wrote would be the middle of the second century B.C. We do not see any reason to reject the traditional authorship of the treatise: on the contrary, the work seems to reveal the famous satirist at home, taking a natural interest in local memories and institutions, while making, doubtless, mental notes that were to prove of use in the works for which he is best known.



The System of Nature
By Paul Henri Thiery
496 Pages, $30.24 USD, ISBN: 1926842790
Holbach is best known for The System of Nature (1770) and deservedly, since it is a clear and reasonably systematic exposition of his main ideas. His initial position determines all the rest of his argument. "There is not, there can be nothing out of that Nature which includes all beings." Conceiving of nature as strictly limited to matter and motion, both of which have always existed, he flatly denies that there is any such thing as spirit or a supernatural. Mythology began, Holbach claims, when men were still in a state of nature and at the point when wise, strong, and for the most part benign men were arising as leaders and lawgivers.

The Tales of Dr. Faustus, Sorcerer
By Johann Wolfgang von Gothe
560 Pages, $25.24 USD, ISBN: 192684212X
Faust or Faustus (Latin for "auspicious" or "lucky") is the protagonist of a classic German legend. Though a highly successful scholar, he is unsatisfied, and makes a deal with the Devil, exchanging his soul for unlimited knowledge and worldly pleasures. Faust's tale is the basis for many literary, artistic, cinematic, and musical works. The meaning of the word and name has been reinterpreted through the ages. Faust, and the adjective Faustian, are often used to describe an arrangement in which an ambitious person surrenders moral integrity in order to achieve power and success: the proverbial "deal with the devil".

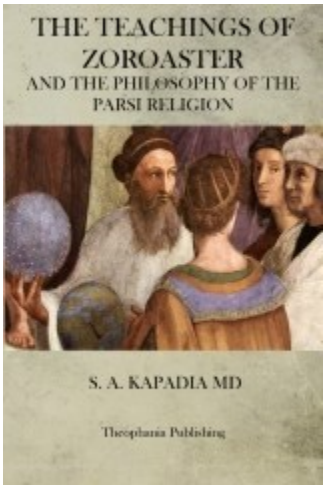
The Tarot of the Bohemians: Celebration Edition

By Papus

476 Pages, $27.24 USD, ISBN: 1468029932

ABSOLUTE KEY TO OCCULT SCIENCE THE TAROT OF THE BOHEMIANS The Most Ancient Book in the World. FOR THE EXCLUSIVE USE OF INITIATES By PAPUS Gérard Anaclet Vincent Encausse, b. 1865 d. 1916 Original Title: Clef absolue de la science occulte Translated from the French By A. P. Morton Newly edited and revised by Robert L. Angus Including updated images THE Tarot pack of cards, transmitted by the Gypsies from generation. to generation, is the primitive book of ancient initiation. This has been clearly demonstrated by Guillaume Postel, Court de Gébelin, Etteila, Eliphas Levi, and J. A. Vaillant. The key to its construction and application has not yet been revealed, so far as I know. I therefore wished to fill up this deficiency by supplying Initiates, i. e. those who are acquainted with the elements of occult science, with an accurate guide, which would assist them in the pursuit of their studies.

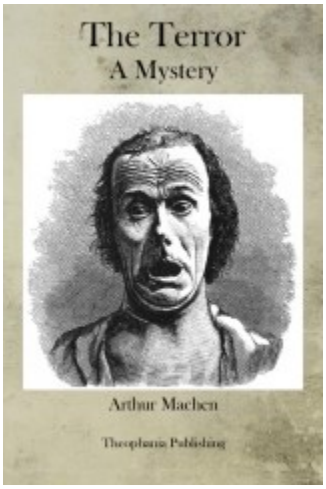


The Teachings of Zoroaster

By S.A. Kapadia

80 Pages, $16.24 USD, ISBN: 1470082071

THE object of the editors of this series is a very definite one. They desire above all things that, in their humble way, these books shall be the ambassadors of good-will and understanding between East and West, the old world of Thought, and the new of Action. In this endeavour, and in their own sphere, they are but followers of the highest example in the land. They are confident that a deeper knowledge of the great ideals and lofty philosophy of Oriental thought may help to a revival of that true spirit of Charity which neither despises nor fears the nations of another creed and colour.

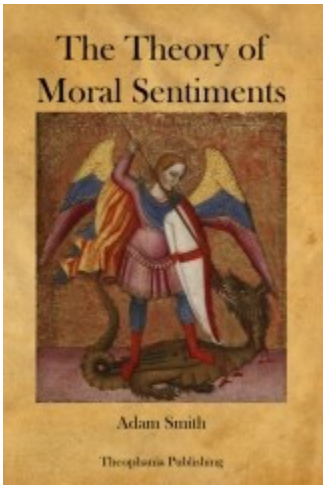


The Terror

By Arthur Machen

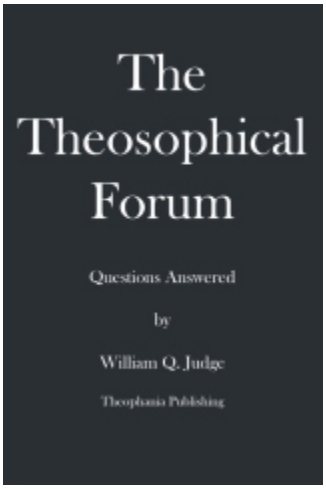
120 Pages, $16.24 USD, ISBN: 1470082055

From the beginning of his literary career, Machen espoused a mystical belief that the humdrum ordinary world hid a more mysterious and strange world beyond. His gothic and decadent works of the 1890s concluded that the lifting of this veil could lead to madness, sex, or death, and usually a combination of all three. Machen's later works became somewhat less obviously full of gothic trappings, but for him investigations into mysteries invariably resulted in life-changing transformation and sacrifice. Machen loved the medieval world view because he felt it combined deep spirituality alongside a rambunctious earthiness.

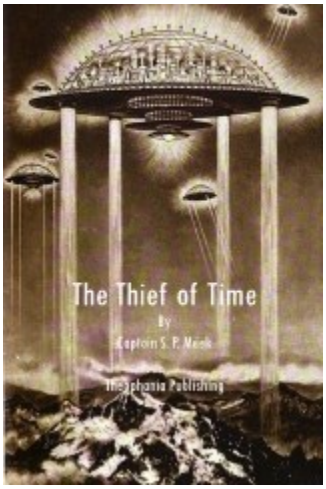


The Theory of Moral Sentiments
By Adam Smith
350 Pages, $19.24 USD, ISBN: 1478338008
How selfish soever man may be supposed, there are evidently some principles in his nature, which interest him in the fortune of others, and render their happiness necessary to him, though he derives nothing from it except the pleasure of seeing it. Of this kind is pity or compassion, the emotion which we feel for the misery of others, when we either see it, or are made to conceive it in a very lively manner. That we often derive sorrow from the sorrow of others, is a matter of fact too obvious to require any instances to prove it; for this sentiment, like all the other original passions of human nature, is by no means confined to the virtuous and humane, though they perhaps may feel it with the most exquisite sensibility.

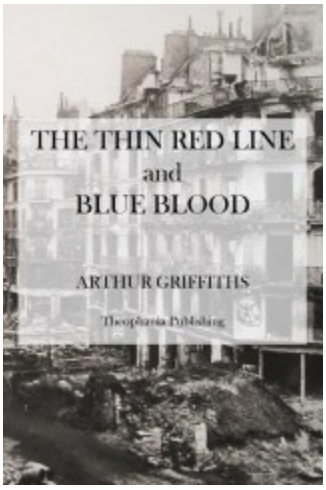
The Theory of Social Revolutions
By Brooks Adams
136 Pages, $17.24 USD, ISBN: 1480081655
Civilization, I apprehend, is nearly synonymous with order. However much we may differ touching such matters as the distribution of property, the domestic relations, the law of inheritance and the like, most of us, I should suppose, would agree that without order civilization, as we understand it, cannot exist. Now, although the optimist contends that, since man cannot foresee the future, worry about the future is futile, and that everything, in the best possible of worlds, is inevitably for the best, I think it clear that within recent years an uneasy suspicion has come into being that the principle of authority has been dangerously impaired, and that the social system, if it is to cohere, must be reorganized.



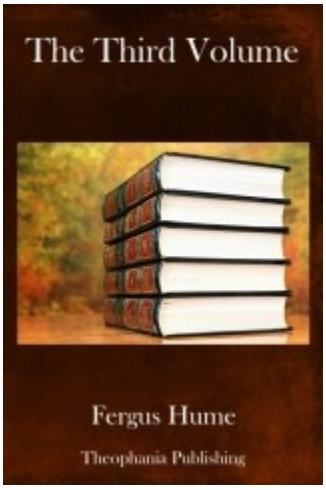
The Theosophical Forum
By William Q. Judge
176 Pages, $16.24 USD, ISBN: 1478337192
"B.F.D. -- I sometimes think that zealous Theosophists, in a creditable anxiety to promote general charity, go a little too far in their assertion of fraternal duty. They speak as if anything is pardonable because done by another man, who, because a man, is a brother. Yet it would seem that the basis of Brotherhood is equal rights and mutual affection, and to these I have the same claim as any other man. He is no more privileged to violate my rights than I to violate his, and I am therefore entitled to the same protection as is he. Hence it cannot be the fact that I am any more bound to look leniently on unfraternal aggressions by him upon me, than I should be upon like acts by me upon him. In other words, it is as much my duty to restrain him from outrage upon myself, as myself from outrage upon him."



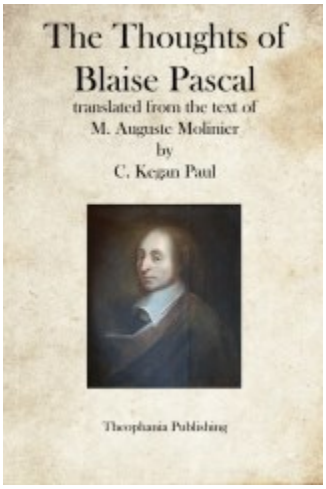
The Thief of Time
By S.P. Meek
50 Pages, $16.24 USD, ISBN: 1518633390
HARVEY WINSTON, paying teller of the First National Bank of Chicago, stripped the band from a bundle of twenty dollar bills, counted out seventeen of them and added them to the pile on the counter before him. "Twelve hundred and thirty-one tens," he read from the payroll change slip before him. The paymaster of the Cramer Packing Company nodded an assent and Winston turned to the stacked bills in his rear currency rack. He picked up a handful of bundles and turned back to the grill. His gaze swept the counter where, a moment before, he had stacked the twenties, and his jaw dropped. "You got those twenties, Mr. Trier?" he asked.



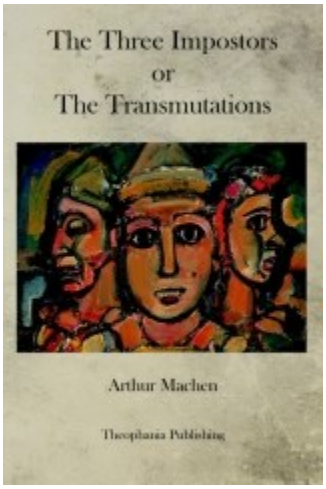
The Thin Red Line and Blue Blood
By Arthur Griffiths
452 Pages, $26.24 USD, ISBN: 147501726X
In the Paris of the first half of this century there was no darker, dingier, or more forbidding quarter than that which lay north of the Rue de Rivoli, round about the great central market, commonly called the Halles. The worst part of it, perhaps, was the Rue Assiette d'Etain, or Tinplate Street. All day evil-looking loafers lounged about its doorways, nodding lazily to the passing workmen, who, blue-bloused, with silk cap on head, each with his loa under his arm, came to take their meals at the wine-shop at the corner; or gossiping with the porters, male and female, while the one followed closely his usual trade as a cobbler, and the other attended to her soup. By day there was little traffic. Occasionally a long dray, on a gigantic pair of wheels, drawn by a long string of white Normandy horses in single file, with blue harness and jangling bells, filled up the roadway.



The Third Volume
By Fergus Hume
516 Pages, $28.25 USD, ISBN: 1981860541
When Spenser Tait took his seat at the breakfast table, he cast a look around, according to custom, to see that all was as orderly as he could wish. The neatest and most methodical of men, he was positively old maidish in his love of regularity and tidiness. His valet, Dormer,—with him for over fifteen years,—had been trained by such long service into the particular ways of his master, and was almost as exacting as Tait himself in the matter of domestic details. No woman was permitted to penetrate into those chambers in Earls Street, St. James'; but had one been able to do so, she could have found no fault with them, either on the score of taste or of cleanliness.



The Thoughts of Blaise Pascal
By M. Auguste Molinier
432 Pages, $26.24 USD, ISBN: 1469940299
Blaise Pascal was born at Clermont Ferrand in Auvergne, on June 19, 1623. He sprung from a well known legal family, many members of which had held lucrative and responsible positions. His father, Etienne Pascal, held the post of intendant, or provincial administrator, in Normandy, where, and at Paris previously, Pascal lived from the age of sixteen to that of twenty five; almost wholly educated by his father on account of his precarious health. His mother died when he was eight years old. Etienne Pascal was a pious but stern person, and by no means disposed to entertain or allow any undue exaltation in religion, refusing as long as he lived to allow his daughter Jaqueline to take the veil.



The Three Imposters
By Arthur Machen

From the beginning of his literary career, Machen espoused a mystical belief that the humdrum ordinary world hid a more mysterious and strange world beyond. The Three Treatises of Philalethes
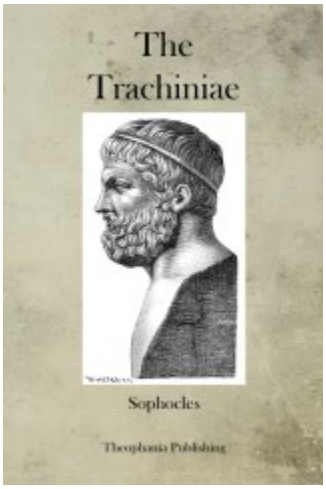
By Philalethes
48 Pages, $16.24 USD, ISBN: 146802566X
THE METAMORPHOSIS OF METALS. II. A SHORT VADE MECUM TO THE CELESTIAL RUBY. III. THE FOUNT OF CHEMICAL TRUTH. ALL men who devote their lives to the study of any art, or to any kind of occupation, have before their eyes, as the aim of their efforts, perfection in the thing which they pursue. But only few attain to the goal of their wishes: there are many architects, but few masters of the art of architecture; many students of medicine, but few men like Hippocrates or Galen; many mathematicians, but few proficients like Archimedes; many poets, but few worthy to rank with Homer. Yet, even men who have nothing more than a respectable knowledge of their calling, are capable of being useful to society.



The Trachiniae
By Sophoclese
48 Pages, $16.24 USD, ISBN: 1470082020
THERE is a saying among men, put forth of old, that thou canst not rightly judge whether a mortal's lot is good or evil, ere he die. But I, even before I have passed to the world of death, know well that my life is sorrowful and bitter; I, who in the house of my father Oeneus, while yet I dwelt at Pleuron, had such fear of bridals as never vexed any maiden of Aetolia. For my wooer was a river-god, Achelous, who in three shapes was ever asking me from my sire, — coming now as a bull in bodily form, now as serpent with sheeny coils, now with trunk of man and front of ox, while from a shaggy beard the streams of fountain-water flowed abroad.

They are now carefully revised according to Dindorf's text, and are accompanied by a few additional notes adapted to the requirements of the student. The translations of the Bacchæ, Heraclidæ, and the two Iphigenias, are based upon the same text, with certain exceptions, which are pointed out at the foot of the page.

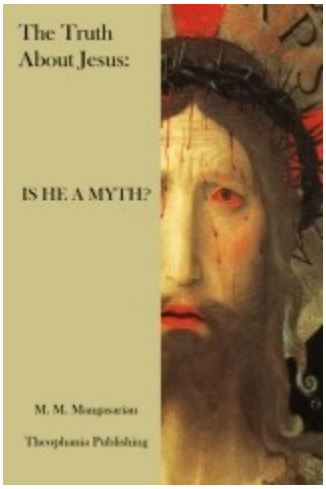
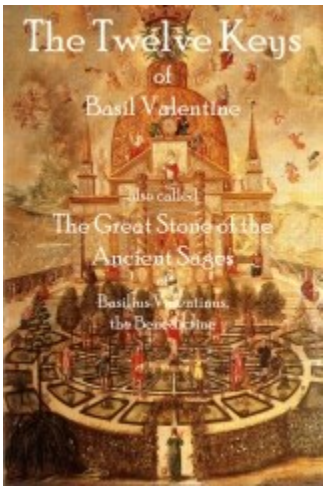
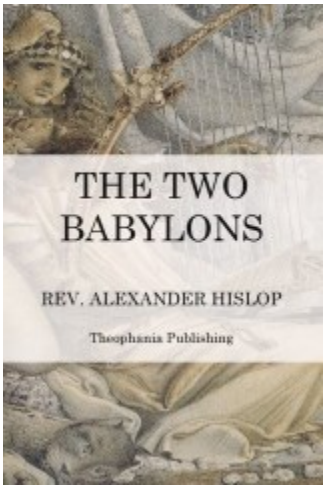
The Triumph of Death
By Gabriele D'annunzio
652 Pages, $32.25 USD, ISBN: 1979102236
When she perceived a group of men leaning against the parapet and looking down into the street below, Hippolyte stopped and exclaimed: "What has happened?" With a slight gesture, betraying fear, she placed her hand involuntarily on George's arm as if to restrain him. After watching the men a moment George said: "Someone must have leaped from off the terrace." Then he added: "Shall we turn back?" She hesitated a few moments, wavering between curiosity and fear, and then replied: "No. Let's see what it is." They advanced along the parapet as far as the end of the walk. Unconsciously, Hippolyte accelerated her pace towards the small crowd that had gathered.



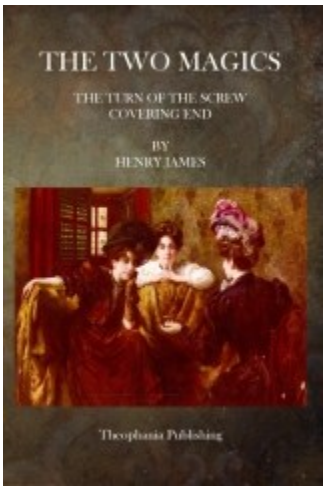
The Truth About Jesus: Is He a Myth?
By M. M. Mangasarian
230 Pages, $17.24 USD, ISBN: 147833715X
The following work offers in book form the series of studies on the question of the historicity of Jesus, presented from time to time before the Independent Religious Society in Orchestra Hall. No effort has been made to change the manner of the spoken, into the more regular form of the written, word.



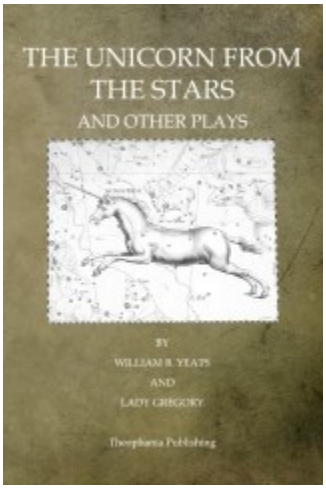
The Twelve Keys of Basil Valentine: The Great Stone of the Ancient Sages
By Basil Valentine
54 Pages, $16.24 USD, ISBN: 1926842650
When I had emptied to the dregs the cup of human suffering, I was led to consider the wretchedness of this world, and the fearful consequences of our first parents' disobedience. Then I saw that there was no hope of repentance for mankind, that they were getting worse day by day, and that for their impenitence God's everlasting punishment was hanging over them; and I made haste to withdraw myself from the evil world, to bid farewell to it, and to devote myself to the service of God. When I had spent some years at the monastery, I found that after I had performed my work and my daily devotions I still had some time on my hands.



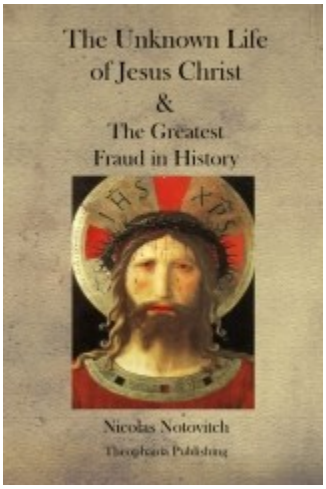
The Two Babylons: The Papal Worship
By Alexander Hislop
442 Pages, $26.24 USD, ISBN: 1470074222
SINCE the appearing of the First Edition of this work, the Author has extensively prosecuted his researches into the same subject; and the result has been a very large addition of new evidence. Somewhat of the additional evidence has already been given to the public, first through the columns of the British Messenger, and then in the publication entitled "The Moral Identity of Babylon and Home," issued by Mr. Drummond of Stirling. In the present edition of "The Two Babylons," the substance of that work is also included. But the whole has now been re-written, and the mass of new matter that has been added is so much greater than all that had previously appeared, that this may fairly be regarded as an entirely new work.



The Two Magics: The Turn of the Screw Covering End
By Henry James
282 Pages, $22.24 USD, ISBN: 1503023109
The story had held us, round the fire, sufficiently breathless, but except the obvious remark that it was gruesome, as, on Christmas eve in an old house, a strange tale should essentially be, I remember no comment uttered till somebody happened to say that it was the only case he had met in which such a visitation had fallen on a child. The case, I may mention, was that of an apparition in just such an old house as had gathered us for the occasion, an appearance, of a dreadful kind, to a little boy sleeping in the room with his mother and waking her up in the terror of it; waking her not to dissipate his dread and soothe him to sleep again, but to encounter also, herself, before she had succeeded in doing so, the same sight that had shaken him.

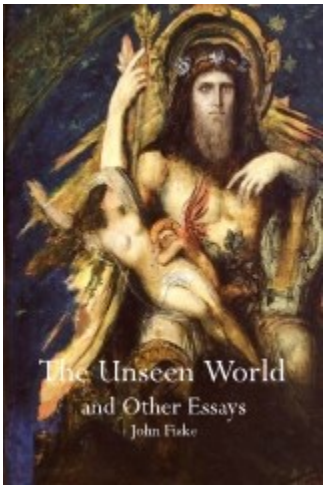


The Unicorn From The Stars And Other Plays
By William B. Yeats
118 Pages, $16.24 USD, ISBN: 1468025805
About seven years ago I began to dictate the first of these Plays to Lady Gregory. My eyesight had become so bad that I feared I could henceforth write nothing with my own hands but verses, which, as Theophile Gautier has said, can be written with a burnt match. Our Irish Dramatic movement was just passing out of the hands of English Actors, hired because we knew of no Irish ones, and our little troop of Irish amateurs, as they were at the time, could not have too many Plays, for they would come to nothing without continued playing. Besides, it was exciting to discover, after the unpopularity of blank verse, what one could do with three Plays written in prose and founded on three public interests deliberately chosen, religion, humour, patriotism.



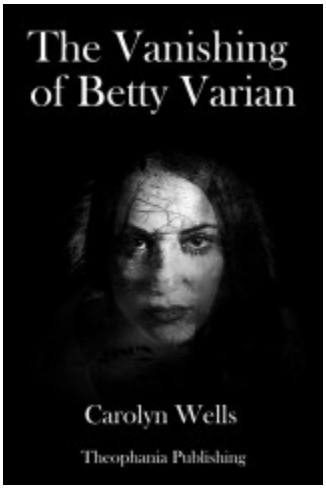
The Unknown Life of Jesus Christ and The Greatest Fraud in History
By Nicolas Notovitch
96 Pages, $16.24 USD, ISBN: 1475017294

I undertook a series of extended journeys through the Orient. Having visited all points of interest in the Balkan Peninsula, I crossed the Caucasian Mountains into the Central Asia and Persia, and finally, in 1887, made an excursion into India, the most admired country of the dreams of my childhood. The first object of this journey was to study the customs and habits of the inhabitants of India amid their own surroundings, as well as the grand, mysterious archaeology and the colossal, majestic nature of the country.



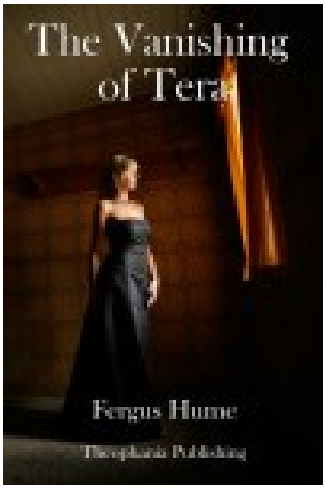
The Unseen World and Other Essays
By John Fiske
196 Pages, $23.24 USD, ISBN: 1770830715

From the earliest times the ultimate purpose of all scientific research has been to elicit fragmentary or partial responses to this question, and philosophy has ever busied itself in piecing together these several bits of information according to the best methods at its disposal, in order to make up something like a satisfactory answer. In old times the best methods which philosophy had at its disposal for this purpose were such as now seem very crude, and accordingly ancient philosophers bungled considerably in their task, though now and then they came surprisingly near what would to-day be called the truth.

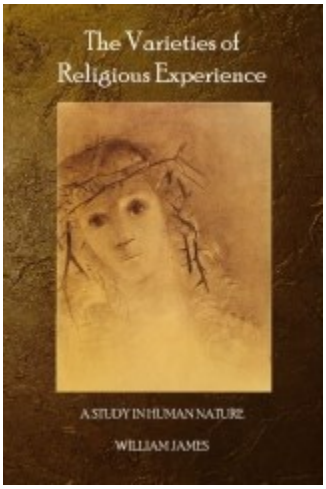


The Vanishing of Betty Varian
By Carolyn Wells
368 Pages, $24.25 USD, ISBN: 1981744533

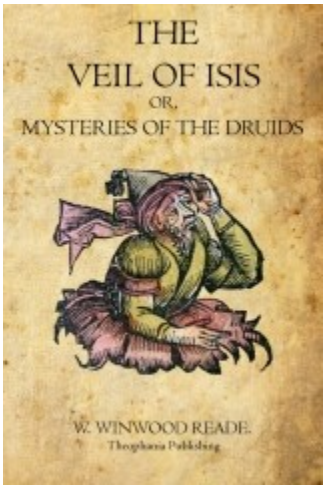
It is, of course, possible, perhaps even probable, that somewhere on this green earth there may be finer golf links or a more attractive clubhouse than those at Headland Harbor, but never hope to wring such an admission from any one of the summer colony who spend their mid-year at that particular portion of the Maine coast. Far up above the York cliffs are more great crags and among the steepest and wildest of these localities, a few venturesome spirits saw fit to pitch their tents. Others joined them from time to time until now, the summer population occupied nearly a hundred cottages and bungalows and there was, moreover, a fair sized and fairly appointed inn.



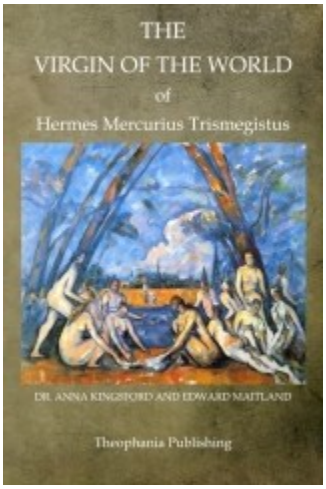
The Vanishing of Tera
By Fergus Hume
368 Pages, $24.25 USD, ISBN: 1981855939
"I come from Eden," cried the preacher; "even from the Island of Koiau, which floats as a green leaf upon the untroubled sea. There reigneth eternal summer, but there reigneth not the Eternal God in the hearts of the heathen. Koiau is one of the dark places of the earth. There 'every prospect pleases, and only man is vile.' Yet the Lord hath not forgotten His people. The light of the gospel glimmers amid the gloom, and ours, brethren, must be the task of pouring oil into the lamp, that the flame may illuminate those who walk in darkness. Buli, the High Chief of the island, inclines his ear to the words of Salvation.



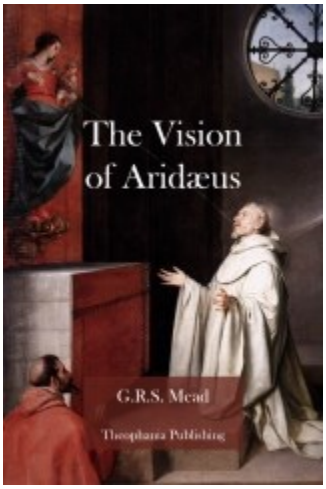
The Varieties of Religious Experience
By William James
478 Pages, $27.24 USD, ISBN: 1926842677
The question, What are the religious propensities? and the question, What is their philosophic significance? are two entirely different orders of question from the logical point of view; and, as a failure to recognize this fact distinctly may breed confusion, I wish to insist upon the point a little before we enter into the documents and materials to which I have referred. In recent books on logic, distinction is made between two orders of inquiry concerning anything. First, what is the nature of it? how did it come about? what is its constitution, origin, and history? And second, What is its importance, meaning, or significance, now that it is once here? The answer to the one question is given in an existential judgment or proposition.



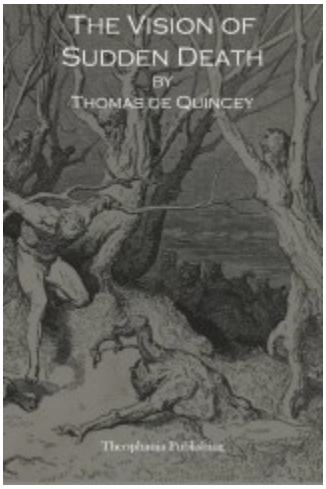
The Veil of Isis: Or, Mysteries of the Druids
By W. Winwood Reade
176 Pages, $20.24 USD, ISBN: 1770831533
THERE is no study so saddening, and none so sublime as that of the early religions of mankind. To trace back the worship of God to its simple origin, and to mark the gradual process of those degrading superstitions, and unhallowed rites which darkened, and finally extinguished His presence in the ancient world. At first men enjoyed the blessings of nature as children do, without inquiring into causes. It was sufficient for them that the earth gave them herbs, that the trees bore them fruit, that the stream quenched their thirst. They were happy, and every moment though unconsciously they offered a prayer of gratitude to Him whom as yet they did not know.



The Virgin Of The World Of Hermes Mercurius Trismegistus
By Anna Kingsford
186 Pages, $18.24 USD, ISBN: 1468025902
In presenting the "Virgin of the World", which with my "Hargrave Jennings" Edition of the "Divine Pymander," now so much in repute and demand, are the text books of Hermetic thought, it is no act of supererogation to gratefully acknowledge my appreciation of the valued services of all associated with me in the privileged task of once again reviving those priceless writings of that "Master Initiate," "Hermes Mercurius Trismegistus;" (to be shortly supplemented by the Third Volume, or "Golden Treatise concerning the Physical Secret of the Philosopher's Stone, in seven sections," esteemed one of the best and oldest pieces of Alchemical Philosophy extant.

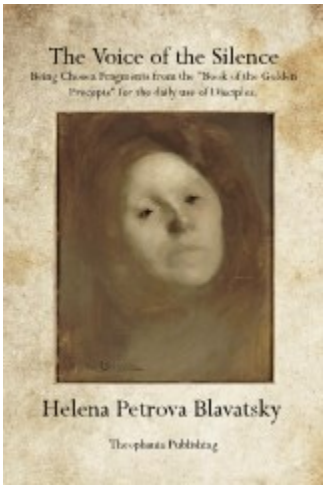


The Vision of Aridæus
By G.R.S. Mead
42 Pages, $16.24 USD, ISBN: 1479176427
The sentence “when He was hung on the tree of the Cross” contains a great puzzle. The word for “tree” in the original is batos; this may mean the “bush” or “tree” of the cross. But the Cross for the Gnostics was a living symbol. It was not only the cross of dead wood, or the dead trunk of a tree lopped of its branches—a symbol of Osiris in death; it was also the Tree of Life, and was equated with the “Fiery Bush” out of which the Angel of God spake to Moses—that is the Tree of Fiery Life, in the Paradise of man’s inner nature, whence the Word of God expresses itself to one who is worthy to hear. And this Tree of Life was also, as the Cross, the Tree of Knowledge of Good and Evil; indeed, both are but one Tree, for the fruit of the Tree of Life is the knowledge of good and evil, the cross of the opposites.



The Vision of Sudden Death
By Thomas de Quincey
38 Pages, $16.24 USD, ISBN: 1469941465
THE reader is to understand this present paper, in its two sections of The Vision, &c., and The Dream–Fugue, as connected with a previous paper on The English Mail–Coach. The ultimate object was the Dream–Fugue, as an attempt to wrestle with the utmost efforts of music in dealing with a colossal form of impassioned horror. The Vision of Sudden Death contains the mail-coach incident, which did really occur, and did really suggest the variations of the Dream, here taken up by the Fugue, as well as other variations not now recorded.

The Vital Message
By Arthur Conan Doyle
102 Pages, $16.24 USD, ISBN: 1479176389
In "The New Revelation" the first dawn of the coming change has been described. In "The Vital Message" the sun has risen higher, and one sees more clearly and broadly what our new relations with the Unseen may be. As I look into the future of the human race I am reminded of how once, from amid the bleak chaos of rock and snow at the head of an Alpine pass, I looked down upon the far stretching view of Lombardy, shimmering in the sunshine and extending in one splendid panorama of blue lakes and green rolling hills until it melted into the golden haze which draped the far horizon.



The Voice of the Silence
By Helena Petrova Blavatsky
62 Pages, $15.24 USD, ISBN: 1926842405
The Voice of the Silence is a book by Helena Petrovna Blavatsky. It was written in Fontainebleau and first published in 1889. Zen Buddhism scholar Dr Daisetz Teitaro Suzuki wrote about the book: "Undoubtedly Madame Blavatsky had in some way been initiated into the deeper side of Mahayana teaching and then gave out what she deemed wise to the Western world..." He also commented: "Here is the real Mahayana Buddhism." The 14th Dalai Lama also commented: "I believe that this book has strongly influenced many sincere seekers and aspirants to the wisdom and compassion of the Bodhisattva Path.

The War With the Newts
By Karel Capek

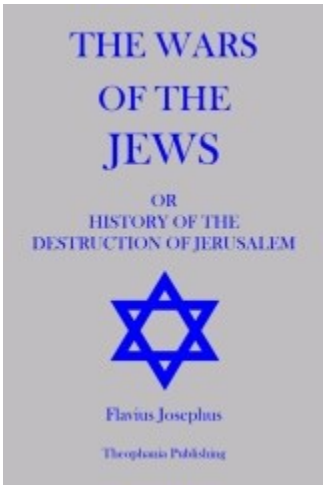
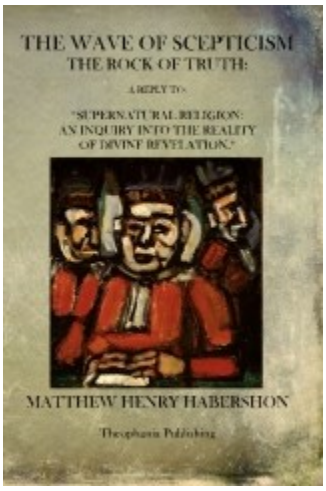
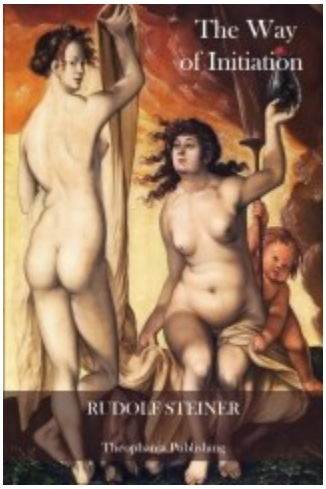
War with the Newts (Valka s mloky in the original Czech), also translated as War with the Salamanders, is a 1936 satirical science fiction story by Czech author Karel Capek. It concerns the discovery in the Pacific of a sea-dwelling race, an intelligent breed of newts, who are initially enslaved and exploited. They acquire human knowledge and rebel, leading to a global war for supremacy



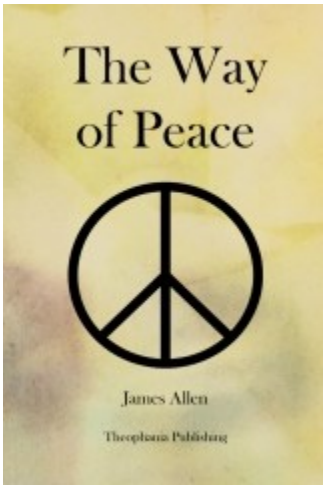
The Wars of The Jews
By Flavius Josephus
660 Pages, $25.24 USD, ISBN: 1478337095
Whereas the war which the Jews made with the Romans hath been the greatest of all those, not only that have been in our times, but, in a manner, of those that ever were heard of; both of those wherein cities have fought against cities, or nations against nations; while some men who were not concerned in the affairs themselves have gotten together vain and contradictory stories by hearsay, and have written them down after a sophistical manner; and while those that were there present have given false accounts of things, and this either out of a humor of flattery to the Romans, or of hatred towards the Jews; and while their writings contain sometimes accusations, and sometimes encomiums...



The Wave of Scepticism: The Rock of
By Matthew Henry Habershon
112 Pages, $16.24 USD, ISBN: 1484875397
This volume is an amplified and expanded essay read before the members of the Young Men's Society in connection with Park Church, Highbury, on the evening of the 2nd of November, 1874. The original purpose of the author was to indicate to the associates of that Christian institution how the influence of German anti- Christian literature, made plain to English readers by such books as the one under review, might be withstood and neutralised, and to supply an antidote to the poisonous insinuations respecting Christianity which many of the periodicals of the day disseminate in noticing works of this character. Those that are not professedly hostile to religion have a way of treating Truth and Error as if nothing had been proved, and as if the question were quite an open one whether Divine Revelation is, or is not, a reality.

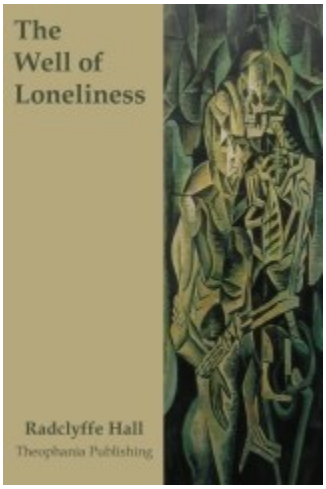


The Way of Initiation
By Rudolf Steiner
122 Pages, $15.24 USD, ISBN: 1478337117
Being deeply interested in Dr. Steiner's work and teachings, and desirous of sharing with my English-speaking friends the many invaluable glimpses of Truth which are to be found therein, I decided upon the translation of the present volume. It is due to the kind co-operation of several friends who prefer to be anonymous that this task has been accomplished, and I wish to express my hearty thanks for the literary assistance rendered by them also to thank Dr. Peipers of Munich for permission to reproduce his excellent photograph of the author.

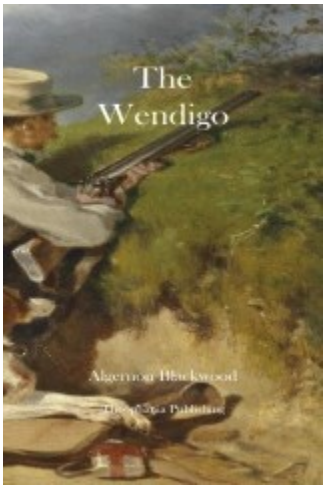


The Way of Peace
By James Allen
70 Pages, $16.24 USD, ISBN: 1479176354
Spiritual meditation is the pathway to Divinity. It is the mystic ladder which reaches from earth to heaven, from error to Truth, from pain to peace. Every saint has climbed it; every sinner must sooner or later come to it, and every weary pilgrim that turns his back upon self and the world, and sets his face resolutely toward the Father's Home, must plant his feet upon its golden rounds. Without its aid you cannot grow into the divine state, the divine likeness, the divine peace, and the fadeless glories and unpolluting joys of Truth will remain hidden from you.

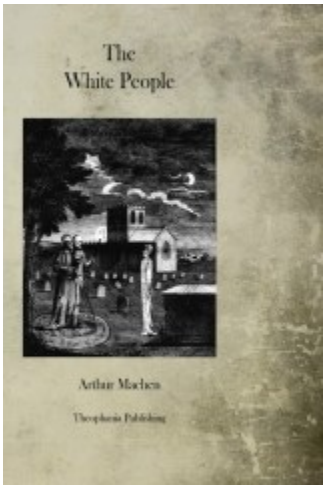
The Way of Power
By Lily Adams Beck
204 Pages, $16.24 USD, ISBN: 1478336994
A book of this sort has so many debts to acknowledge that it should be thickly set with notes and references, and yet in writing for the general reader this is not possible. Therefore I can only say, speaking generally, how much I owe to many and great thinkers from those of three millenniums ago down to the present time. I am often asked to recommend books on these subjects, but it is difficult to do so, for with regard to many of the Indian thinkers on whom so much depends their invaluable writings, even when translated, are hampered with Sanskrit terms very difficult for those unused to them, and modern writers sometimes assume more patience and perhaps knowledge than the average man with all the preoccupations of life has time to possess. Yet he may wish to know.



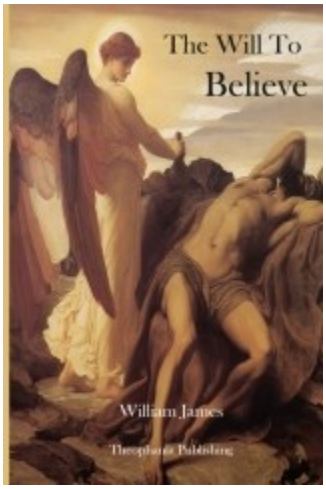
The Well of Loneliness
By Radclyffe Hall
556 Pages, $29.24 USD, ISBN: 1478256745
All the characters in this book are purely imaginary, and if the author has used names that may suggest a reference to living persons, she has done so inadvertently. A motor ambulance unit of British women drivers did very fine service upon the Allied Front in France during the later months of the war, but although the unit mentioned in this book, of which Stephen Gordon becomes a member, operates in much the same area, it has never had any existence save in the author's imagination.



The Wendigo
By Algernon Blackwood
82 Pages, $16.24 USD, ISBN: 1475037007
A considerable number of hunting parties were out that year without finding so much as a fresh trail; for the moose were uncommonly shy, and the various Nimrods returned to the bosoms of their respective families with the best excuses the facts of their imaginations could suggest. Dr. Cathcart, among others, came back without a trophy; but he brought instead the memory of an experience which he declares was worth all the bull moose that had ever been shot. But then Cathcart, of Aberdeen, was interested in other things besides moose—amongst them the vagaries of the human mind.



The White People
By Arthur Machen
50 Pages, $16.24 USD, ISBN: 1470081911
From the beginning of his literary career, Machen espoused a mystical belief that the humdrum ordinary world hid a more mysterious and strange world beyond. His gothic and decadent works of the 1890s concluded that the lifting of this veil could lead to madness, sex, or death, and usually a combination of all three. Machen's later works became somewhat less obviously full of gothic trappings, but for him investigations into mysteries invariably resulted in life-changing transformation and sacrifice. Machen loved the medieval world view because he felt it combined deep spirituality alongside a rambunctious earthiness.



The Will to Believe
By William James
40 Pages, $15.24 USD, ISBN: 1478336978
IN the recently published Life by Leslie Stephen of his brother, Fitz-James, there is an account of a school to which the latter went when he was a boy. The teacher, a certain Mr. Guest, used to converse with his pupils in this wise: "Gurney, what is the difference between justification and sanctification? - Stephen, prove the omnipotence of God " etc. In the midst of our Harvard freethinking and indifference we are prone to imagine that here at your good old orthodox College conversation continues to be somewhat upon this order; and to show you that we at Harvard have not lost all interest in these vital subjects, I have brought with me tonight something like a sermon on justification by faith to read to you...

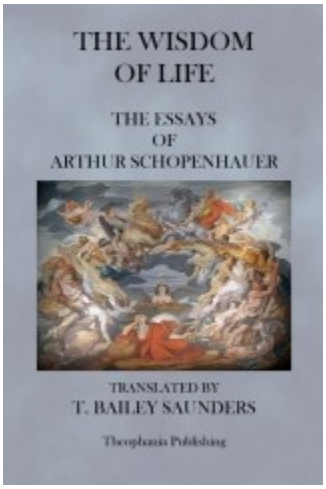
'O, please let me,' said the Mole. So, of course, the Rat let him. Packing the basket was not quite such pleasant work as unpacking' the basket. It never is. But the Mole was bent on enjoying everything, and although just when he had got the basket packed and strapped up tightly he saw a plate staring up at him from the grass, and when the job had been done again the Rat pointed out a fork which anybody ought to have seen, and last of all, behold! the mustard pot, which he had been sitting on without knowing it—still, somehow, the thing got finished at last, without much loss of temper. The afternoon sun was getting low as the Rat sculled gently homewards in a dreamy mood, murmuring poetry-things over to himself, and not paying much attention to Mole.



The Wisdom of Life - The Essays of
By Arthur Schopenhauer
102 Pages, $16.24 USD, ISBN: 1475017537
In these pages I shall speak of The Wisdom of Life in the common meaning of the term, as the art, namely, of ordering our lives so as to obtain the greatest possible amount of pleasure and success; an art the theory of which may be called Eudaemonology, for it teaches us how to lead a happy existence. Such an existence might perhaps be defined as one which, looked at from a purely objective point of view, or, rather, after cool and mature reflection—for the question necessarily involves subjective considerations,—would be decidedly preferable to non-existence; implying that we should cling to it for its own sake, and not merely from the fear of death; and further, that we should never like it to come to an end.

The Witch Cult in Western Europe

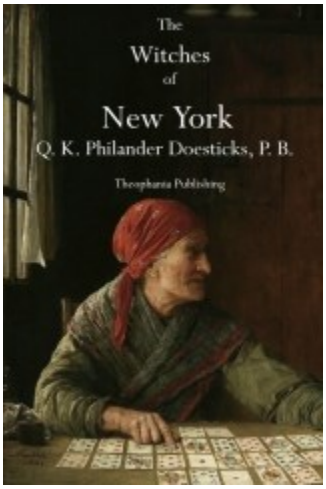
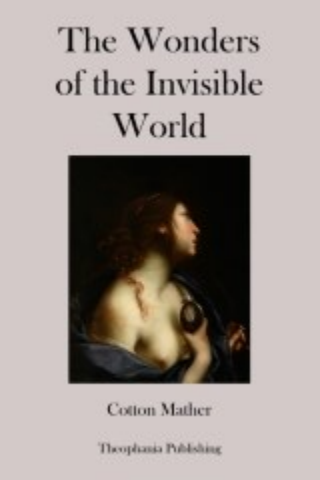
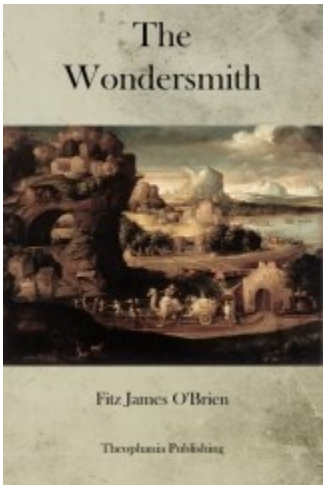
The Witch-Persecutions: From Translations and Reprints From The Original Sources of European History
By George L. Burr , A. B
58 Pages, $16.24 USD, ISBN: 1770831541
The belief in witchcraft and the persecution of those supposed to practice it have been almost universal in human history. Christianity inherited both the belief and the persecution from the religions, Jewish and pagan, which preceded it. But, under the influence of its monotheistic faith and its humane spirit, it was long before the belief became throughout Christendom a panic and the persecution an epidemic. When, however, in the thirteenth century, the scholastic theology, in its love of logical completeness, gave new prominence to the Devil and his followers as the counterpart and parody of God and his church and when, in the fourteenth century, the Holy Inquisition, successful in rooting out the heretics, turned its idle hands to the extirpation of those viler sinners whom it believed plighted wholly to Satan, the terror grew.



The Witches of New York
By Q. K. Philander Doesticks , P. B
240 Pages, $20.24 USD, ISBN: 1770831622
What the Witches of New York City personally told me, Doesticks, you will find written in this volume, without the slightest exaggeration or perversion. I set out now with no intention of misrepresenting anything that came under my observation in collecting the material for this book, but with an honest desire to tell the simple truth about the people I encountered, and the prophecies I paid for. So far from desiring to do any injustice to the Fortune Tellers of the Metropolis, I sincerely hope that my labors may avail something towards making their true deservings more widely appreciated, and their fitting reward more full and speedy.



The Wonders of the Invisible World
By Cotton Mather
280 Pages, $18.24 USD, ISBN: 1478336927
The two very rare works reprinted in the present volume, written by two of the most celebrated of the early American divines, relate to one of the most extraordinary cases of popular delusion that modern times have witnessed. It was a delusion, moreover, to which men of learning and piety lent themselves, and thus became the means of increasing it. The scene of this affair was the puritanical colony of New England, since better known as Massachusetts, the colonists of which appear to have carried with them, in an exaggerated form, the superstitious feelings with regard to witchcraft which then prevailed in the mother country.



The Wondersmith
By Fitz James O'Brien
50 Pages, $16.24 USD, ISBN: 1470080745
O’Brien’s earliest writings in the United States were contributed to the Lantern, which was then edited by John Brougham. Subsequently he wrote for the Home Journal, the New York Times, and the American Whig Review. His first important literary connection was with Harper's Magazine, and beginning in February, 1853, with The Two Skulls, he contributed more than sixty articles in prose and verse to that periodical. He likewise wrote for the New York Saturday Press, Putnam's Magazine, Vanity Fair, and the Atlantic Monthly. To the latter he sent The Diamond Lens(1858) and The Wonder Smith (1859), which are unsurpassed as creations of the imagination, and are unique among short magazine stories.

The Wooden Hand

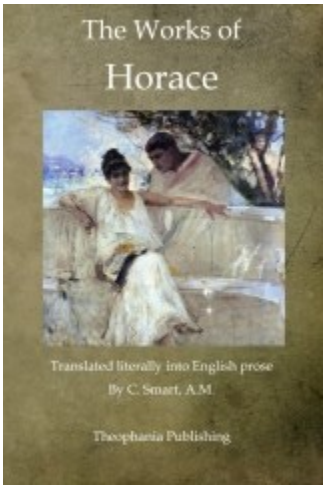
"Ah well, Miss Eva, I 'spose your pa'ull come home to spile things as he allays have done. It ain't no wonder, I ses, as you sits moping by the winder, looking double your age, and you only twenty, as has no right to look forty, whatever you may say, though I took my dying alfred-david on its blessed truth." This slightly incoherent and decidedly pessimistic speech was moaned, rather than spoken, by a lean-bodied, hard-faced, staring-eyed woman to a pretty girl, who did not look at the speaker. And small wonder. Mrs. Merry--inappropriate name--was unattractive to the eye.

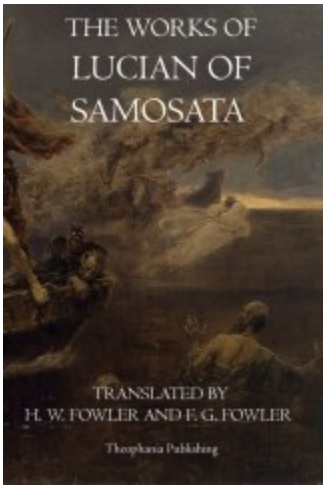


The Works of Horace

By Horace

356 Pages, $23.24 USD, ISBN: 1468025643

Born in the small town of Venusia in the border region between Apulia and Lucania (Basilicata), Horace was the son of a freed slave, who owned a small farm in Venusia, and later moved to Rome to work as a coactor. The elder Horace was able to spend considerable money on his son's education, accompanying him first to Rome for his primary education, and then sending him to Athens to study Greek and philosophy. The poet later expressed his gratitude in a tribute to his father: If my character is flawed by a few minor faults, but is otherwise decent and moral, if you can point out only a few scattered blemishes on an otherwise immaculate surface...



The Works of Lucian of Samosata

By Lucian Samosata

736 Pages, $35.24 USD, ISBN: 177083155X

With the exception of a very small number of statements, of which the truth is by no means certain, all that we know of Lucian is derived from his own writings. And any reader who prefers to have his facts at first rather than at second hand can consequently get them by reading certain of his pieces, and making the natural deductions from them. Lucian lived from about 125 to about 200 A.D., under the Roman Emperors Antoninus Pius, M. Aurelius and Lucius Verus, Commodus, and perhaps Pertinax. He was a Syrian, born at Samosata on the Euphrates, of parents to whom it was of importance that he should earn his living without spending much time or money on education.

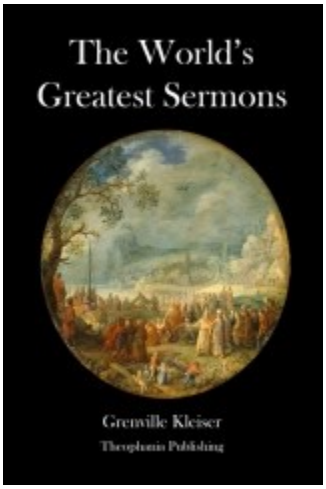
How very delightful Grego's drawings are! For all their mad perspective and crude colour, they have indeed the sentiment of style, and they reveal, with surer delicacy than does any other record, the spirit of Mr. Brummell's day. Grego guides me, as Virgil Dante, through all the mysteries of that other world. He shows me those stiff-necked, over-hatted, wasp-waisted gentlemen, drinking Burgundy in the Café des Milles Colonnes or riding through the village of Newmarket upon their fat cobs or gambling at Crockford's. Grego's Green Room of the Opera House always delights me.



The Worlds Greatest Sermons

Thomas Hooker, graduate and fellow of Cambridge, England, and practically founder of Connecticut, was born in 1586. He was dedicated to the ministry, and began his activities in 1620 by taking a small parish in Surrey. He did not, however, attract much notice for his powerful advocacy of reformed doctrine, until 1629, when he was cited to appear before Laud, the Bishop of London, whose threats induced him to leave England for Holland, whence he sailed with John Cotton, in 1633, for New England, and settled in Newtown, now Cambridge, Mass.

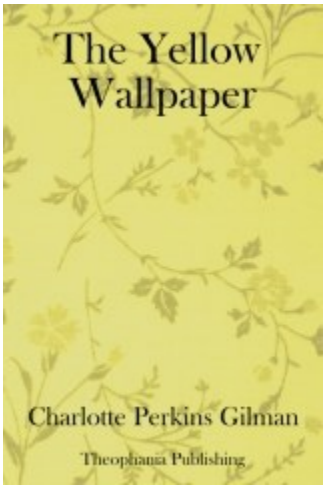
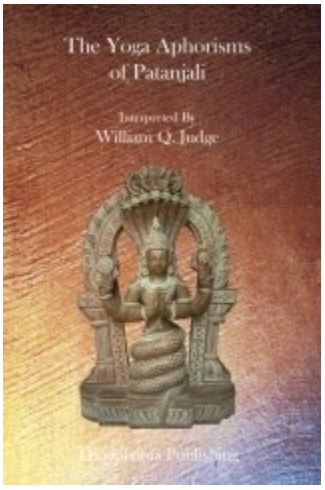
(This Yung-dze), though the whole world should have praised him, would not for that have stimulated himself to greater endeavour, and though the whole world should have condemned him, would not have exercised any more repression of his course; so fixed was he in the difference between the internal (judgment of himself) and the external (judgment of others), so distinctly had he marked out the bounding limit of glory and disgrace. Here, however, he stopped. His place in the world indeed had become indifferent to him, but still he had not planted himself firmly (in the right position).



The Yellow Wallpaper
By Chalotte Perkins Gilman
36 Pages, $16.25 USD, ISBN: 1981460322
It is very seldom that mere ordinary people like John and myself secure ancestral halls for the summer. A colonial mansion, a hereditary estate, I would say a haunted house, and reach the height of romantic felicity—but that would be asking too much of fate! Still I will proudly declare that there is something queer about it. Else, why should it be let so cheaply? And why have stood so long untenanted? John laughs at me, of course, but one expects that in marriage. John is practical in the extreme.



The Yoga Aphorisms of Patanjali
By William Q. Judge
44 Pages, $15.24 USD, ISBN: 1926842936
This edition of Patanjali's Yoga Aphorisms is not put forth as a new translation, nor as a literal rendering into English of the original. In the year 1885 an edition was printed at Bombay by Mr. Tookeram Tatya, a Fellow of the Theosophical Society, which has been since widely circulated among its members in all parts of the world. But it has been of use only to those who had enough acquaintance with the Indian system of philosophy to enable them to grasp the real meaning of the Aphorisms notwithstanding the great and peculiar obstacles due to the numberless brackets and interpolated sentences with which not only are the Aphorisms crowded, but the so-called explanatory notes as well.

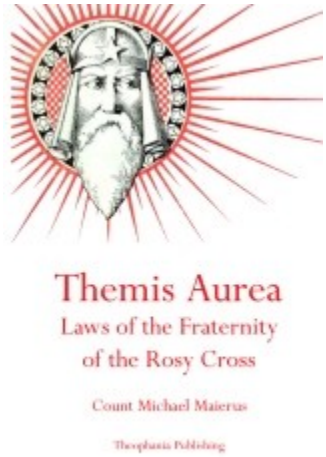
The Œdipus Judaicus

By Sir W. Drummond

268 Pages, $21.24 USD, ISBN: 1470079259

It will naturally be asked by those, who may chance to see this volume, why its author has caused a book to be printed, which he yet does not choose to publish. When, however, it is considered, that I have treated chiefly of things deemed sacred, and that there is considerable novelty in some of my opinions, I trust that I shall be easily pardoned, if I confine the distribution of the copies of this work to a narrow circle. I pretend, that the ancient Jews, like other nations of antiquity, had their esoteric and their exoteric doctrines.

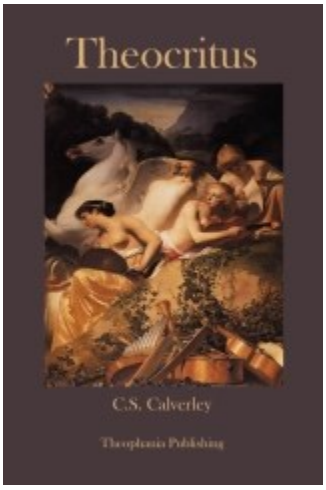


Themis Aurea: Laws of the Fraternity of the Rosy Cross

By Count Michael Maierus

54 Pages, $16.24 USD, ISBN: 1770831878

As no rational man can deny the absolute necessity of good laws; so it is most fit that such laws should have their due praise and commendations; that the sluggard hereby might be pricked on to virtue, and the diligent might have his deserved reward. Seeing therefore that these positions or laws, laid down by the father of the honourable Fraternity are worthy of special view, we shall truly according to their nature, and the advantages men may receive from them, Crown them with due commendations, counting them not only worthy of acceptance, but an Encomium.



Theocritus

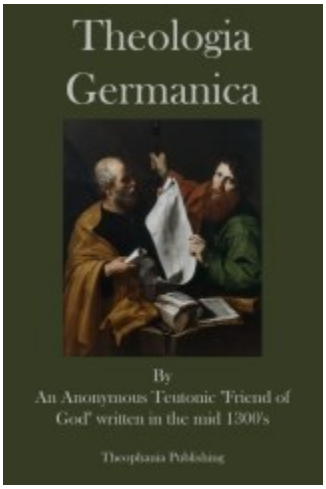
Sweet are the whispers of yon pine that makes Low music o'er the spring, and, Goatherd, sweet Thy piping; second thou to Pan alone. Is his the horned ram? then thine the goat. Is his the goat? to thee shall fall the kid; And toothsome is the flesh of unmilked kids.

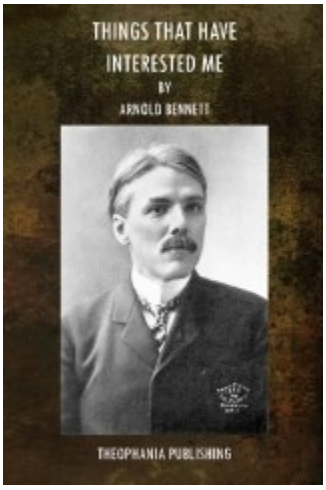


Theologia Germanica

By Susanna Winkworth

122 Pages, $15.24 USD, ISBN: 1478336714

For He is the Substance of all things, and is in Himself unchangeable and immoveable, and changeth and moveth all things else. But "that which is in part," or the Imperfect, is that which hath its source in, or springeth from the Perfect; just as a brightness or a visible appearance floweth out from the sun or a candle, and appeareth to be somewhat, this or that. And it is called a creature; and of all these "things which are in part," none is the Perfect. So also the Perfect is none of the things which are in part. The things which are in part can be apprehended, known, and expressed; but the Perfect cannot be apprehended, known, or expressed by any creature as creature.

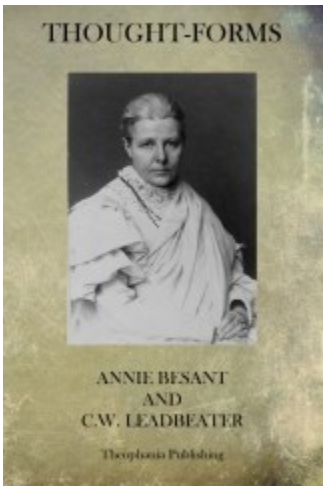


Things that have Interested Me

By Arnold Bennett

258 Pages, $20.24 USD, ISBN: 1517670004

I have never seen a reasonably good all-round performance of grand opera. Nevertheless, though not a melomaniac, I am extremely fond of grand opera, and have seen it in the following cities: Antwerp, Brussels, Florence, Ghent, Hanley, Lisbon, London, Milan, New York, Paris, Ostend, Philadelphia, Rome, San Remo, and others which I cannot recall. If operatic performances succeed in several particulars, as they sometimes do—though rarely in more than one—they always fail in at least one particular, generally in several, sometimes in all.

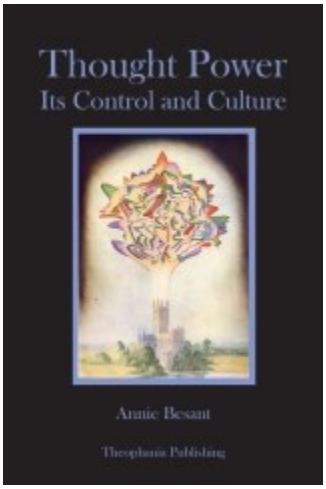


Thought Forms

By Annie Besant

96 Pages, $28.99 USD, ISBN: 148487529X

The text of this little book is the joint work of Mr Leadbeater and myself; some of it has already appeared as an article in Lucifer (now the Theosophical Review), but the greater part of it is new. The drawing and painting of the Thought-Forms observed by Mr Leadbeater or by myself, or by both of us together, has been done by three friends—Mr John Varley, Mr Prince, and Miss Macfarlane, to each of whom we tender our cordial thanks. To paint in earth's dull colours the forms clothed in the living light of other worlds is a hard and thankless task; so much the more gratitude is due to those who have attempted it.



Thought Power: Its Control and Cult
By Annie Besant
86 Pages, $15.24 USD, ISBN: 1480082139
THIS little book is intended to help the student to study his own nature, so far as its intellectual part is concerned. If he masters the principles herein laid down, he will be in a fair way to cooperate with Nature in his own evolution, and to increase his mental stature far more rapidly than is possible while he remains ignorant of the conditions of his growth. The Introduction may offer some difficulties to the lay reader, and may perhaps be skipped by such at the first reading. It is necessary, however, as a foundation for those who would see the relation of the intellect to the other parts of their nature and to the outer world.

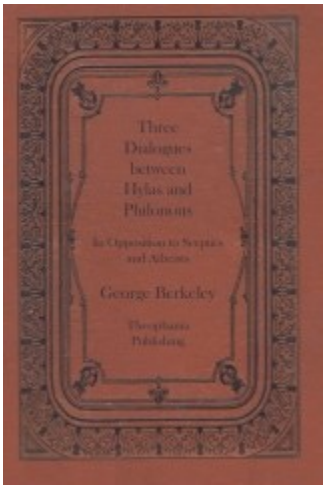
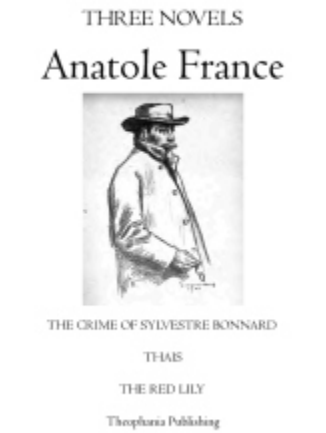
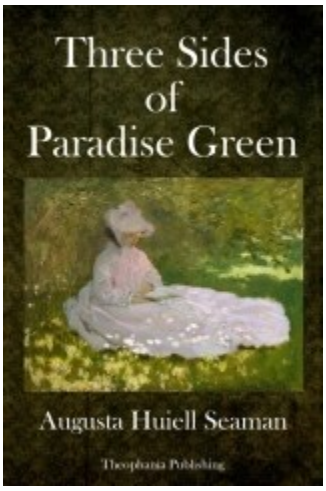
Three Books of Occult Philosophy
By Heinrich Cornelius Agrippa
640 Pages, $33.24 USD, ISBN: 1770830405
How Magicians Collect vertues from the three-fold World, is declared in these three Books. Seeing there is a three-fold World, Elementary, Celestiall, and Intellectual, and every inferior is governed by its superior, and receiveth the influence of the vertues thereof, so that the very original, and chief Worker of all doth by Angels, the Heavens, Stars, Elements, Animals, Plants, Metals, and Stones convey from himself the vertues of his Omnipotency upon us, for whose service he made, and created all these things: Wise men conceive it no way irrationall that it should be possible for us to ascend by the same degrees through each World, to the same very originall World it self, the Maker of all things, and first Cause, from whence all things are...



Three Dialogues between Hylas and P
By George Berkeley
128 Pages, $16.24 USD, ISBN: 1770833536
Three important concepts discussed in the Three Dialogues are perceptual relativity, the conceivability/master argument , and Berkeley's phenomenalism. Perceptual relativity argues that the same object can appear to have different characteristics (e.g. shape) depending on the observer's perspective. Since objective features of objects cannot change without an inherent change in the object itself, shape must not be an objective feature. Berkeley uses Hylas as his primary contemporary philosophical adversary. A Hylas is featured in Greek mythology and is understood to represent John Locke . In the Dialogues, the name Hylas is derived from an ancient Greek word for "matter," which Hylas argues for in the dialogue.



Three Novels Anatole France
By Anatole France
568 Pages, $30.24 USD, ISBN: 1770831126
Jacques Anatole François Thibault (1844-1924) wrote under the pen name Anatole France. France’s whole life was connected with books, his father was a bookseller, and bookshelves were the future writer’s natural ambience. France, with his admiration of culture and written word, of reason and sensibility, revived the French tradition rooted in the XVIIIth century Enlightenment. His high rationalism was only matched by his irony and skeptical attitude to the mankind.



Three Sides of Paradise Green

It's all on account of Miss Cullingford that I'm beginning this journal. I never would have thought of such a thing by myself. Neither would Carol. Now we've both begun one, and it's just because Miss Cullingford is so sweet and lovely, and all the girls at Bridgeton High School want to please her,—Carol and myself most of all. Miss Cullingford is our English literature instructor, and we all simply adore her. She's the sweetest thing! She's little and slight, with fluffy light hair and dark blue eyes. And she's such an inspiration about literature and English composition!

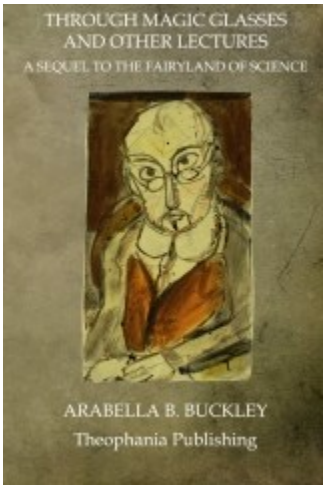
Thrice Greatest Hermes: Studies in Hellenistic Theosophy and Gnosis THREE VOLUME SET
By G.R.S. Mead
Vol.1 312 Pages, $20.24 USD, ISBN: 1926842316
Vol.2 236 Pages, $20.24 USD, ISBN: 1926842324
Vol.3 210 Pages, $20.24 USD, ISBN: 1926842332
THESE volumes, complete in themselves as a series of studies in a definite body of tradition, are intended to serve ultimately as a small contribution to the preparation of the way leading towards a solution of the vast problems involved in the scientific study of the Origins of the Christian Faith. They might thus perhaps be described as the preparation of materials to serve for the historic, mythic, and mystic consideration of the Origins of Christianity,-where the term "mythic" is used in its true sense of inner, typical, sacred and "logic," as opposed to the external processioning of physical events known as "historic," and where the term "mystic" is used as that which pertains to initiation and the mysteries. Though the material that we have collected, has, as to its externals, been tested, as far as our hands are capable of the work, by the methods of scholarship and criticism, it has nevertheless at the same time been allowed ungrudgingly to show itself the outward expression of a truly vital endeavour of immense interest and value to all who are disposed to make friends with it.

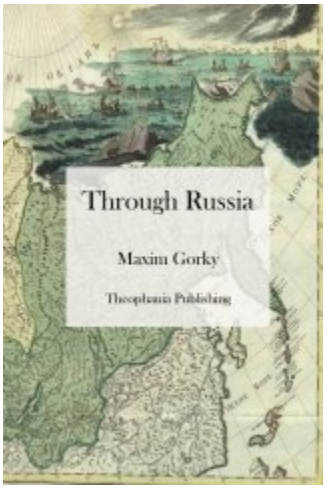


Through Magic Glasses And Other Lectures: A Sequel To The Fairyland Of Science

By Arabella B. Buckley

232 Pages, $20.24 USD, ISBN: 1468025449

The present volume is chiefly intended for those of my young friends who have read, and been interested in, the Fairyland of Science. It travels over a wide field, pointing out a few of the marvellous facts which can be studied and enjoyed by the help of optical instruments. It will be seen at a glance that any one of the subjects dealt with might be made the study of a lifetime, and that the little information given in each lecture is only enough to make the reader long for more.

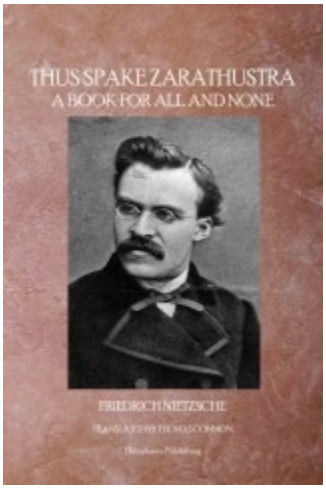


Through Russia

By Maxim Gorky

372 Pages, $24.24 USD, ISBN: 1475017472

The year was the year '92—the year of leanness—the scene a spot between Sukhum and Otchenchiri, on the river Kodor, a spot so near to the sea that amid the joyous babble of a sparkling rivulet the ocean's deep-voiced thunder was plainly distinguishable. Also, the season being autumn, leaves of wild laurel were glistening and gyrating on the white foam of the Kodor like a quantity of mercurial salmon fry. And as I sat on some rocks overlooking the river there occurred to me the thought that, as likely as not, the cause of the gulls' and cormorants' fretful cries where the surf lay moaning behind a belt of trees to the right was that, like myself, they kept mistaking the leaves for fish, and as often finding themselves disappointed.

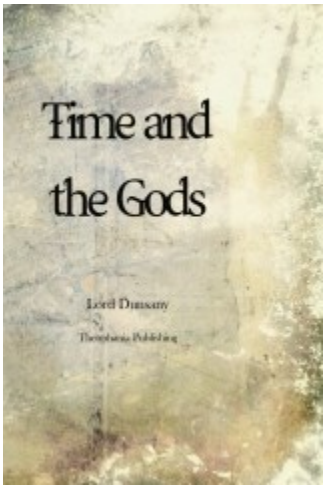


Thus Spake Zarathustra

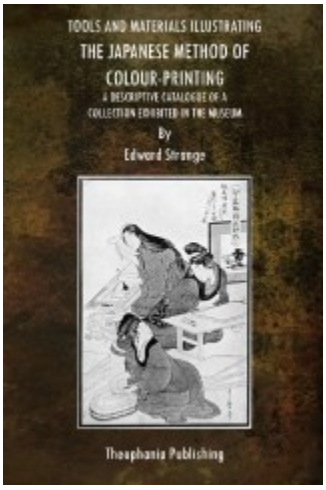
By Friedrich Nietzsche

330 Pages, $23.24 USD, ISBN: 1770830871

The fall of our footsteps ringeth too hollow through their streets. And just as at night, when they are in bed and hear a man abroad long before sunrise, so they ask themselves concerning us: Where goeth the thief? Go not to men, but stay in the forest! Go rather to the animals! Why not be like me--a bear amongst bears, a bird amongst birds?" "And what doeth the saint in the forest?" asked Zarathustra. The saint answered: "I make hymns and sing them; and in making hymns I laugh and weep and mumble: thus do I praise God. With singing, weeping, laughing, and mumbling do I praise the God who is my God.



Time and the Gods
By Lord Dunsany
154 Pages, $17.24 USD, ISBN: 1479176311
Once when the gods were young and only Their swarthy servant Time was without age, the gods lay sleeping by a broad river upon earth. There in a valley that from all the earth the gods had set apart for Their repose the gods dreamed marble dreams. And with domes and pinnacles the dreams arose and stood up proudly between the river and the sky, all shimmering white to the morning. In the city's midst the gleaming marble of a thousand steps climbed to the citadel where arose four pinnacles beckoning to heaven, and midmost between the pinnacles there stood the dome, vast, as the gods had dreamed it.



Tools and Materials Illustrating The Japanese Method of Colour-Printing
By Edward Strange
34 Pages, $16.24 USD, ISBN: 1517669278
The process of colour-printing from wood-blocks, used in Japan from the early part of the 18th century, has much in common with that of the so-called chiaroscuro wood-cuts first produced in Italy and Germany during the 16th century, of which the work of Andrea Andreani (1540-1623) supplies good examples. It is possible that the Japanese method was derived from this source, either directly or by way of China. Japanese tradition ascribes the invention to Takekawa Minosuke (Manji Period, A.D. 1658-1660); and a volume of Costume Designs in the Museum, dated 1667 (O4. C. 20), is printed in colours, only one, however, being used on each plate.

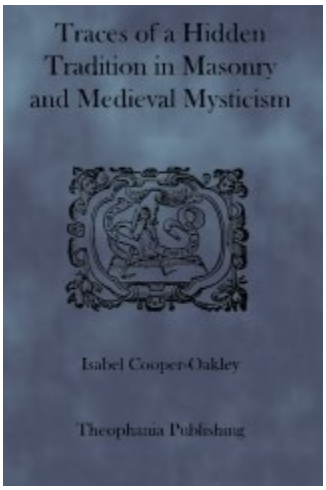
Totem and Taboo: Resemblances Between the Psychic Lives of Savages and Neurotics

By Prof Sigmund Freud

188 Pages, $18.24 USD, ISBN: 1495228266

THE essays treated here appeared under the subtitle of this book in the first numbers of the periodical Imago edited by me. They represent my first efforts to apply view-points and results of psychoanalysis to unexplained problems of racial psychology. In method this book contrasts with that of W. Wundt and the works of the Zurich Psychoanalytic School. The former tries to accomplish the same object through assumptions and procedures from non-analytic psychology, while the latter follow the opposite course and strive to settle problems of individual psychology by referring to material of racial psychology.

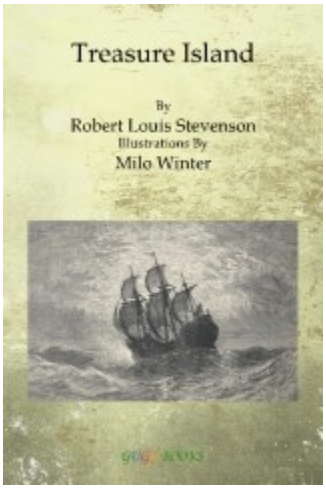


Traces of a Hidden Tradition in Masonry and Medieval Mysticism

By Isabel Cooper-Oakley

124 Pages, $25.24 USD, ISBN: 1926842162

THE series of sketches which are now brought together appeared originally as detached articles in the pages of the Theosophical Review, written, however, with the object of demonstrating to students of Theosophy that a definite design could be traced beneath the apparently disconnected mystic doctrines held by the many occult brotherhoods, heretic sects and mystic associations which cluster so thickly together as we glance along the historical by-ways of religious thought during the Middle Ages. That object becomes clearer when they appear as they do now in closer juxtaposition.



Treasure Island

By Robert Louis Stevenson

378 Pages, $20.24 USD, ISBN: 1515291618 GUGA BOOKS

SQUIRE Trelawney, Dr. Livesey, and the rest of these gentlemen having asked me to write down the whole particulars about Treasure Island, from the beginning to the end, keeping nothing back but the bearings of the island, and that only because there is still treasure not yet lifted, I take up my pen in the year of grace 17__ and go back to the time when my father kept the Admiral Benbow inn and the brown old seaman with the sabre cut first took up his lodging under our roof. I remember him as if it were yesterday, as he came plodding to the inn door, his sea-chest following behind him in a hand- barrow -- a tall, strong, heavy, nut-brown man, his tarry pigtail falling over the shoulder of his soiled blue coat, his hands ragged and scarred, with black, broken nails, and the sabre cut across one cheek, a dirty, livid white.

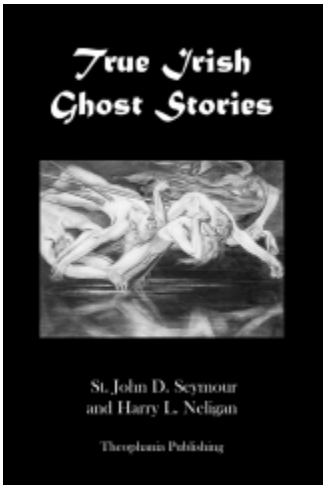
Since, Basil Valentine, by Religious Vows am bound according to the Order of St. Benedict, and that requires another manner of Spirit of Holiness, then the common State of Mortals exercised in the prophane business of this World; I thought it my duty before all things, in the beginning of this little Book, to declare what is necessary to be known to the pious Spagyrist, inflamed with an ardent desire of this Art; as, what he ought to do, and whereunto to direct his aim, that he may lay such Foundations of the whole matter, as may be stable; lest his Building shaken with Winds, happen to fail, and the whole Edifice to be involved in shameful Ruine, which otherwise, being founded on more firm and solid Principles, might have continued for a long series of time.



True Irish Ghost Stories
By St. John D. Seymour
186 Pages, $18.24 USD, ISBN: 1479146293
“There are numerous books about Irish Fairies, but this was one of the first to focus on the Irish Ghost. The text visits haunted houses from one end of the island to the other. We learn about garden-variety ghosts as well as poltergeists and Banshees, and find out what to do if a 'Headless Coach' shows up. Seymour solicited the stories from newspaper readers, and many of them are from respectable military, clergymen, and gentry. Seymour also wrote Irish Witchcraft and Demonology. True Irish Ghost Stories is a unique and very entertaining read, particularly for fans of Irish tales, as well as the paranormal investigator.” --J.B. Hare, May 6th, 2009

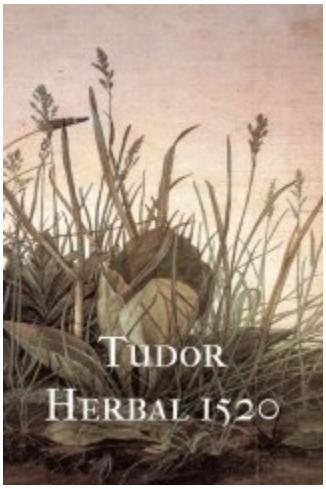
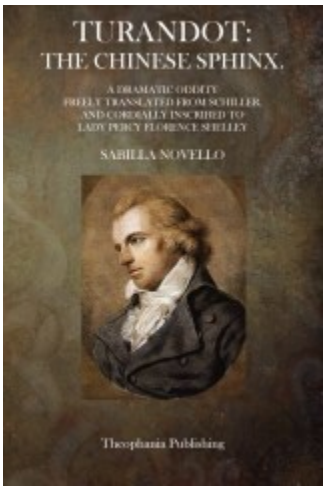
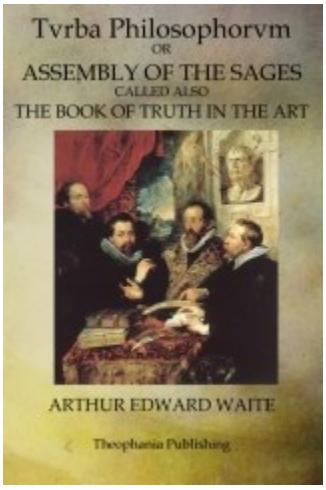
Tubal Cain
By Joseph Hergesheimer
174 Pages, $18.25 USD, ISBN: 197845533X
He was staring somberly, with an immobile, thin, dark countenance, at the white plaster wall before him. Close by his right shoulder a window opened on a tranquil street, where the vermilion maple buds were splitting; and beyond the window a door was ajar on a plank sidewalk. Some shelves held crumbling yellow calf-bound volumes, a few new, with glazed black labels; at the back was a small cannon stove, with an elbow of pipe let into the plaster; a large steel engraving of Chief Justice Marshall hung on the wall; and in a farther corner a careless pile of paper, folded in dockets or tied with casual string, was collecting a grey film of neglect A small banjo clock, with a brass-railed pediment and an elongated picture in color of the Exchange at Manchester, traced the regular, monotonous passage of minutes into hour.



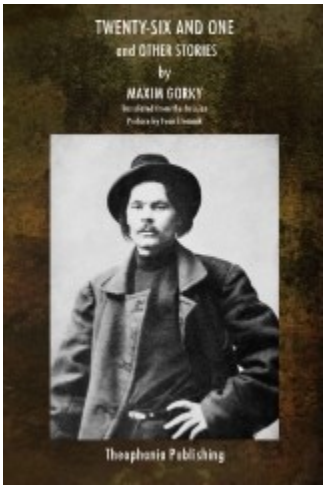
Tudor Herbal 1520 Edited
Edited By Robert L. Angus
50 Pages, $20.99 USD, ISBN: 1475257899
Illustrated Tudor Herbal 1520 Herbal remedies were often known as ‘simples’. Bleeding was a common practice in Tudor England. People believed that illness was often caused by having too much "bad blood". Astrology played a key role in diagnosing a patient’s illness. Tudor barbers would pull out rotten teeth. Tudor apothecaries were early pharmacists, selling medicine and remedies. Tudors would get basic health care from their own family members, the Church or by visiting the local wise woman. Plague doctors dressed in a beaked mask, boots, gloves and were wrapped head-to-toe in vinegar-doused clothes. There were no modern medicines, no antiseptics, and washing hands was an uncommon practice!



Turandot: The Chinese Sphinx
By Sabilla Novello
86 Pages, $16.24 USD, ISBN: 1495228193
Too true is all you've heard through common rumour, The Princess Turandot's ferocious humour Has many princes caused to lose their life In seeking to obtain her as a wife. Her beauty is so wonderful, that all As willing victims to her mandate fall; In vain do various painters daily vie To limn her rosy cheek, her flashing eye, Her perfect form, and noble, easy grace, Her flowing ebon locks and radiant face. Her charms defy all portraiture: no hand Can reproduce her air of sweet command. Yet e'en such counterfeits, from foreign parts Attract fresh suitors,—win all hearts. But she, whose outward semblance thus appears To be Love's temple, such fierce hatred bears To all marital sway, or marriage tie, That rather than submit to man, she'd die. Great kings and princes, all have sued in vain, One glance of love or pity to obtain.



Tvrba Philosophorvm: Assembly of the Sages
By Arthur Edward Waite
62 Pages, $16.24 USD, ISBN: 1770832521
There are two codices or recensions of The Turba Philosophorum, which differ considerably from one another. What is called in the following pages the second recension, is appreciably shorter, clearer, and, on the whole, the less corrupt of the two, but they are both in a bad state. The longer recension has been chosen for the text of the following translation, because it seemed desirable to give the work in its entirety. The variations of the second recension are appended usually in foot-notes, but where the reading of the text is so corrupt as to be quite untranslatable, the editor has occasionally substituted that of the alternative version, and has in most cases indicated the course pursued.



Twenty Six and One and Other Storie
By Maxim Gorky
118 Pages, $17.24 USD, ISBN: 1517669995
There were twenty-six of us—twenty-six living machines, locked up in a damp cellar, where we patted dough from morning till night, making biscuits and cakes. The windows of our cellar looked out into a ditch, which was covered with bricks grown green from dampness, the window frames were obstructed from the outside by a dense iron netting, and the light of the sun could not peep in through the panes, which were covered with flour-dust. Our proprietor stopped up our windows with iron that we might not give his bread to the poor or to those of our companions who, being out of work, were starving; our proprietor called us cheats and gave us for our dinner tainted garbage instead of meat.

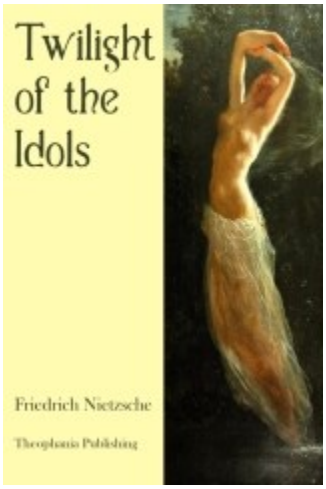
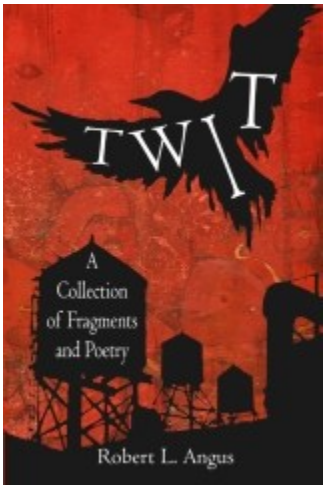
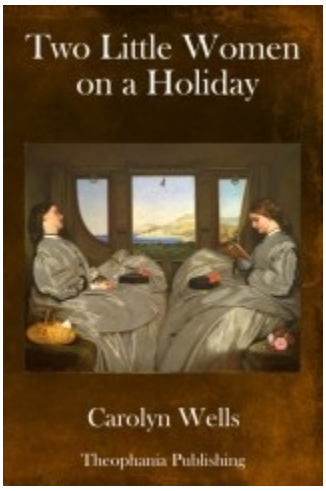
Twenty-Six and One and Other Stories
By Maxim Gorky
118 Pages, $16.24 USD, ISBN: 1475017456
Russian literature, which for half a century has abounded in happy surprises, has again made manifest its wonderful power of innovation. A tramp, Maxime Gorky, lacking in all systematic training, has suddenly forced his way into its sacred domain, and brought thither the fresh spontaneity of his thoughts and character. Nothing as individual or as new has been produced since the first novels of Tolstoy. His work owes nothing to its predecessors; it stands apart and alone. It, therefore, obtains more than an artistic success, it causes a real revolution.



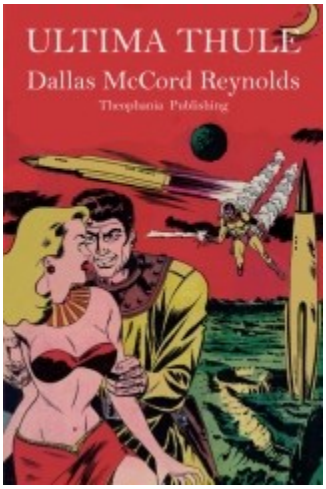
Twilight of the Idols
By Friedrich Nietzsche
116 Pages, $15.24 USD, ISBN: 1478269545
Maintaining cheerfulness in the midst of a gloomy task, fraught with immeasurable responsibility, is no small feat; and yet what is needed more than cheerfulness? Nothing succeeds if prankishness has no part in it. Excess strength alone is the proof of strength.



Twit: A Collection of Fragments and Poetry
By Robert L. Angus
206 Pages, $19.24 USD, ISBN: 1466362774
A murder of crows upon rusted fragments of a ruined factory whose gutted remains obscure the autumn sky, itself filled with the memories of war, pain, and love. The landscape is the mind, and the brush with which it was painted were the words on the canvas of social media. Yet again, the author finds himself drafting unfinished short stories, brief dialogues between forgotten characters, and small bits of flash fiction, intermingled with blog posts and fragments of poetry. All of this kindling has yet to sputter into a fire. But ignite it must. If there is one thing we can say about TWIT, it is that nothing in it leaves the imagination uninfected with the disease known as THOUGHT.



Two Little Women on a Holiday
By Carolyn Wells
326 Pages, $22.25 USD, ISBN: 1981747311
"Hello, Dolly," said Dotty Rose, over the telephone. "Hello, Dot," responded Dolly Fayre. "What you want?" "Oh! I can't tell you this way. Come on over, just as quick as you can." "But I haven't finished my Algebra, and it's nearly dinner time, anyway." "No it isn't,—and no matter if it is. Come on, I tell you! You'd come fast enough if you knew what it's about!" "Tell me, then." "I say I can't,—over the telephone. Oh, Dolly, come on, and stop fussing!" The telephone receiver at Dotty's end of the wire was hung up with a click, and Dolly began to waggle her receiver hook in hope of getting Dotty back. But there was no response, so Dolly rose and went for her coat.

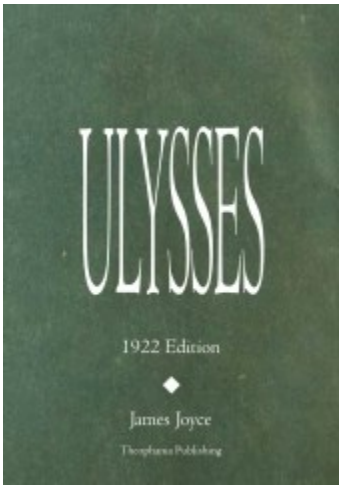


Ultima Thule

By Dallas McCord Reynolds

88 Pages, $16.24 USD, ISBN: 1548254584

At least he'd got far enough to wind up with a personal interview. It's one thing doing up an application and seeing it go onto an endless tape and be fed into the maw of a machine and then to receive, in a matter of moments, a neatly printed rejection. It's another thing to receive an appointment to be interviewed by a placement officer in the Commissariat of Interplanetary Affairs, Department of Personnel. Ronny Bronston was under no illusions. Nine out of ten men of his age annually made the same application. Almost all were annually rejected. Statistically speaking practically nobody ever got an interplanetary position.



Ulysses

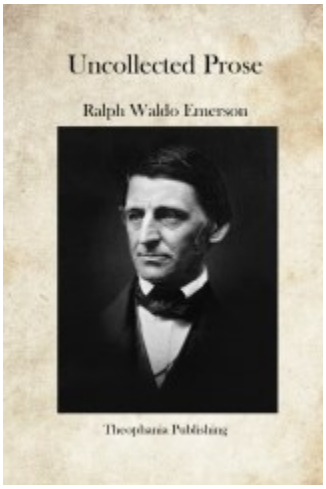
652 Pages, $37.67 USD, ISBN: 146633228X

This Theophania Publishing edition of James Joyce's Ulysses is based upon the 1922 French first edition. The book was originally released as a limited edition of 1000 copies, followed shortly by the British edition which was limited to 2000 copies, 500 of which were burned by the United States Postal Service as obscene. The 1936 American Edition, whose copyright has been renewed by the copyright holder, includes a foreword by Morris L. Ernst, and also contains the decision of the United States District Court rendered by Judge John M. Woolsey regarding whether or not this book should be outlawed for obscenity. These are not included in our edition, but is an interesting fact.

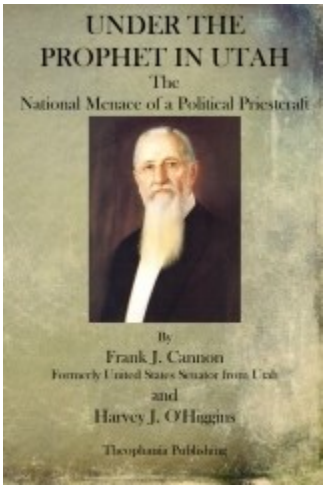


Uncollected Prose

By Ralph Waldo Emerson

256 Pages, $20.24 USD, ISBN: 1469941368

Ralph Waldo Emerson (May 25, 1803 to April 27, 1882) was an American essayist, lecturer, and poet, who led the Transcendentalist movement of the mid 19th century. He was seen as a champion of individualism and a prescient critic of the countervailing pressures of society, and he disseminated his thoughts through dozens of published essays and more than 1,500 public lectures across the United States. Emerson gradually moved away from the religious and social beliefs of his contemporaries, formulating and expressing the philosophy of Transcendentalism in his 1836 essay, Nature.

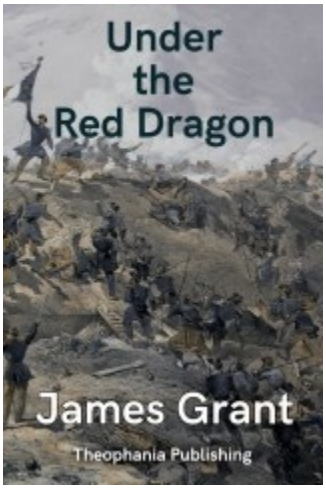


Under The Prophet In Utah

By Frank J. Cannon

262 Pages, $20.24 USD, ISBN: 1770833544

When Harvey J. O'Higgins was in Denver, in the spring of 1910, working with Judge Ben B. Lindsey on the manuscript of "The Beast and the Jungle," for Everybody's Magazine, he met the Hon. Frank J. Cannon, formerly United States Senator from Utah, and heard from him the story of the betrayal of Utah by the present leaders of the Mormon Church. This story the editor of Everybody's Magazine commissioned Messrs. Cannon and O'Higgins to write. They worked on it for a year, verifying every detail of it from government reports, controversial pamphlets, Mormon books of propaganda, and the newspaper files of current record.

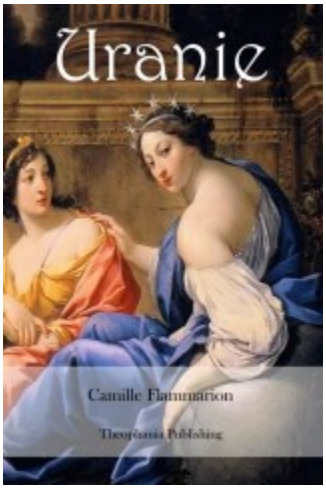


Under the Red Dragon

By James Grant

616 Pages, $31.25 USD, ISBN: 197845564X

"And she is to be there—nay, is there already; so one more chance is given me to meet her. But for what?—to part again silently, and more helplessly bewitched than ever, perhaps. Ah, never will she learn to love me as I love her!" thought I, as I turned over my old friend's letter, not venturing, however, to give utterance to this aloud, as the quizzical eyes of Phil Caradoc were upon me. "A penny for your thoughts, friend Harry?" said he, laughing; "try another cigar, and rouse yourself. What the deuce is in this letter, that it affects you so? Have you put a pot of money on the wrong horse?" "Been jilted, had a bill returned, or what?" suggested Gwynne.

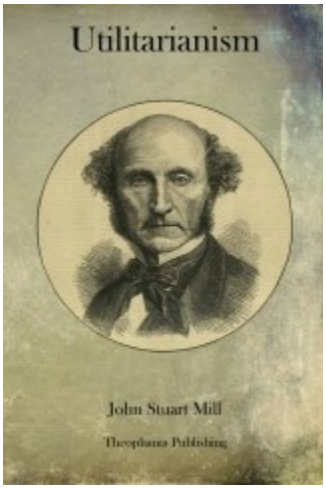


Uranie

By Camille Flammarion

216 Pages, $16.24 USD, ISBN: 1478269537

I WAS seventeen. She was called Uranie. Was Uranie, then, a young girl, fair, with blue eyes, innocent, but eager for knowledge? No, she was simply what she has always been, one of the nine muses; she who presided over astronomy, and whose celestial glance animated and directed the spheral choir; she was the heavenly idea hovering above earthly dullness; she had neither the palpitating flesh, nor the heart whose pulsations can be transmitted through space, nor the soft warmth of humanity; but she existed, nevertheless, in a sort of ideal world, superior to humanity, and always pure; and yet she was human enough in name and form to produce in the soul of a youth a vivid and profound impression; to awaken in that soul an undefined and undefinable sentiment of admiration: almost of love.

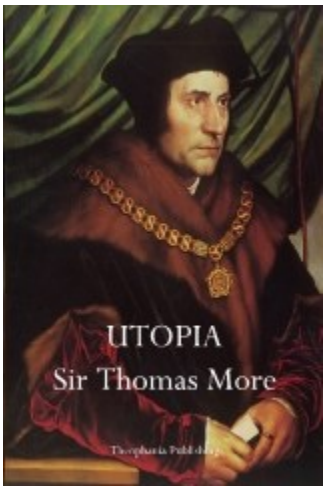


Utilitarianism

By John Stuart Mill

76 Pages, $16.24 USD, ISBN: 1770833552

THERE ARE few circumstances among those which make up the present condition of human knowledge, more unlike what might have been expected, or more significant of the backward state in which speculation on the most important subjects still lingers, than the little progress which has been made in the decision of the controversy respecting the criterion of right and wrong. From the dawn of philosophy, the question concerning the summum bonum, or, what is the same thing, concerning the foundation of morality, has been accounted the main problem in speculative thought, has occupied the most gifted intellects, and divided them into sects and schools, carrying on a vigorous warfare against one another.



Utopia

By Sir Thomas More

114 Pages, $15.24 USD, ISBN: 1770830200

But as they went farther, a new scene opened, all things grew milder, the air less burning, the soil more verdant, and even the beasts were less wild: and at last there were nations, towns, and cities, that had not only mutual commerce among themselves, and with their neighbors, but traded both by sea and land, to very remote countries. There they found the conveniences of seeing many countries on all hands, for no ship went any voyage into which he and his companions were not very welcome. The first vessels that they saw were flat-bottomed, their sails were made of reeds and wicker woven close together, only some were of leather; but afterward they found ships made with round keels and canvas sails, and in all respects like our ships; and the seamen understood both astronomy and navigation.

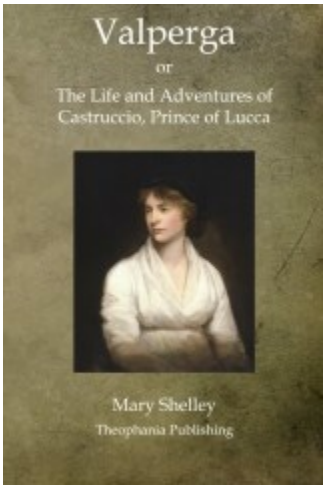
By Francis Bacon

64 Pages, $16.24 USD, ISBN: 1770833560

They consist partly of detached passages, and partly of an epitome of twelve chapters of the first book of the proposed work. The detached passages contain the first, sixth, and eighth chapters, and portions of the fourth, fifth, seventh, ninth, tenth, eleventh, and sixteenth. The epitome contains an account of the contents of all the chapters from the twelfth to the twenty-sixth inclusive, omitting the twentieth, twentythird, and twentyfourth.



Valperga: The Life and Adventures of Castruccio, Prince of Lucca
By Mary Shelley
662 Pages, $32.24 USD, ISBN: 1468025597
HE accounts of the Life of Castruccio known in England, are generally taken from Macchiavelli's romance concerning this chief. The reader may find a detail of his real adventures in Sismondi's delightful publication, Histoire des Republiques Italiennes de L'Age Moyen. In addition to this work, I have consulted Tegrino's Life of Castruccio, and Giovanni Villani's Florentine Annals. The following is a translation from the article respecting him in Moreri. "Castruccio Castracani, one of the most celebrated captains of his time, lived in the fourteenth century. He was of the family of the Antelminelli of Lucca; and, having at a very early age borne arms in favour of the Ghibelines, he was exiled by the Guelphs.

Venus in Furs
By Leopold Von Sacher-Masoch
218 Pages, $19.24 USD, ISBN: 1517030951
My company was charming. Opposite me by the massive Renaissance fireplace sat Venus; she was not a casual woman of the half-world, who under this pseudonym wages war against the enemy sex, like Mademoiselle Cleopatra, but the real, true goddess of love. She sat in an armchair and had kindled a crackling fire, whose reflection ran in red flames over her pale face with its white eyes, and from time to time over her feet when she sought to warm them. Her head was wonderful in spite of the dead stony eyes; it was all I could see of her. She had wrapped her marble-like body in a huge fur, and rolled herself up trembling like a cat. "I don't understand it," I exclaimed, "It isn't really cold any longer. For two weeks past we have had perfect spring weather. You must be nervous."

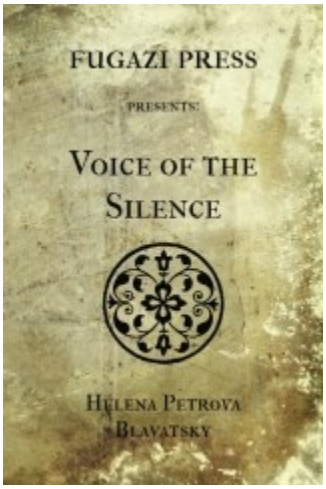
Victor Roy A Masonic Poem
By Harriett Annie Wilkins
78 Pages, $15.24 USD, ISBN: 1478269510
An anecdote appeared some time ago in the pages of "The Craftsman" which gave rise to the ideas embodied in "Victor Roy." It is not a story of profound depth. Its aim is not to soar to Alpine heights of imagination, or to excavate undiscovered treasures from the mines of thought. It is a very simple story, told in very simple words, of such lives as are around us in our midst. It tells of sorrows that are daily being borne by suffering humanity, and of the faith that gives strength to that suffering humanity to endure "seeing Him, who is invisible." All lives may not see their earth day close in sunshine, but somewhere the sun is shining, and all true cross-bearers shall some day become true crown-wearers.

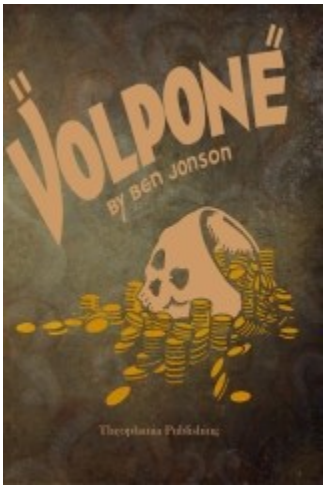


Voice of the Silence

By Helena Petrova Blavatsky

62 Pages, $16.24 USD, ISBN: 1477458859 FUGAZI PRESS

THE following pages are derived from "The Book of the Golden Precepts," one of the works put into the hands of mystic students in the East. The knowledge of them is obligatory in that school, the teachings of which are accepted by many Theosophists. Therefore, as I know many of these Precepts by heart, the work of translating has been relatively an easy task for me. It is well known that, in India, the methods of psychic development differ with the Gurus (teachers or masters), not only because of their belonging to different schools of philosophy, of which there are six, but because every Guru has his own system, which he generally keeps very secret. But beyond the Himalayas the method in the Esoteric Schools does not differ, unless the Guru is simply a Lama, but little more learned than those he teaches.



Volpone

By Ben Jonson

172 Pages, $18.24 USD, ISBN: 1503023257

And men may justly impute such rages, if continued, to the writer, as his sports. The increase of which lust in liberty, together with the present trade of the stage, in all their miscelline interludes, what learned or liberal soul doth not already abhor? where nothing but the filth of the time is uttered, and with such impropriety of phrase, such plenty of solecisms, such dearth of sense, so bold prolepses, so racked metaphors, with brothelry, able to violate the ear of a pagan, and blasphemy, to turn the blood of a Christian to water.

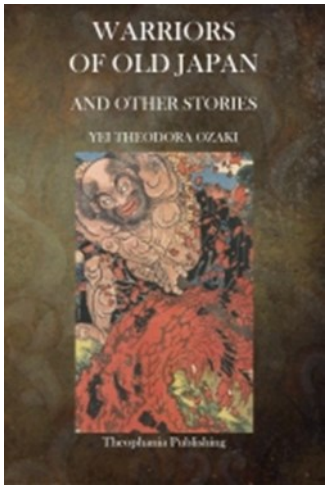
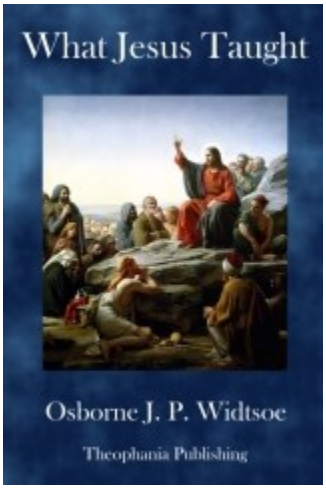
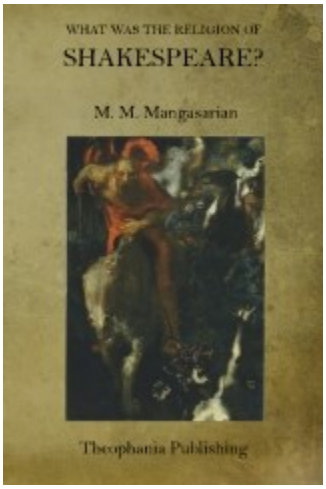
Walking
By Henry David Thoreau
50 Pages, $15.24 USD, ISBN: 1478269499
I wish to speak a word for Nature, for absolute freedom and wildness, as contrasted with a freedom and culture merely civil to regard man as an inhabitant, or a part and parcel of Nature, rather than a member of society. I wish to make an extreme statement, if so I may make an emphatic one, for there are enough champions of civilization: the minister and the school-committee, and every one of you will take care of that.



Warriors of Old Japan and Other Stories
By Yei Theodora Ozaki
208 Pages, $19.24 USD, ISBN: 1503023311
The kind reception given to "The Japanese Fairy Book" has encouraged me to venture on a second volume of stories from Japan. I have invented none of these stories. They are taken from many different sources, and in clothing them with an English dress my work has been that of adapter rather than translator. In picturesqueness of conception Japanese stories yield the palm to none. And they are rich in quaint expressions and dainty conceits. But they are apt to be written in a style almost too bald. This defect the professional story-teller remedies by colouring his story as he tells it.

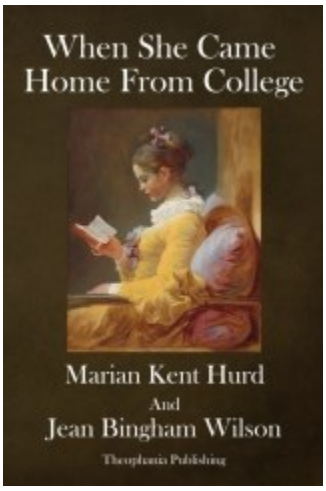


What Jesus Taught: Written for The Deseret Sunday School Union
By Osborne J. P. Widtsoe
354 Pages, $24.25 USD, ISBN: 1981462309
No other teacher in the history of the world has wielded so profound an influence upon humanity as has Jesus the Christ. Practically the whole world has been Christianized. His doctrines have entered not only into households but also into governments and nations. But the Christianity that prevails generally, is the doctrine of Jesus highly merged with the opinions of men. Indeed, the world's Christianity is often more largely man-made than Christ-made. A perfect knowledge of Jesus cannot be gained, however, until men learn more about what He Himself taught, and less about what scholars have said about His doctrine.

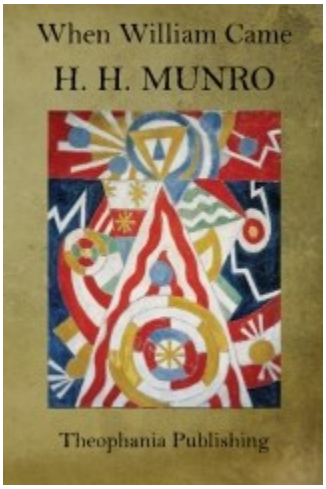


What Was the Religion of Shakespeare?
By M.M. Mangasarian
32 Pages, $16.24 USD, ISBN: 1517030927
It is by observing the frequency and emphasis with which certain views and expressions occur and reoccur in an author, and the consistency with which they are given the preference, that we may be able to generalize as to his philosophy or religion. As Shakespeare's works are neither a treatise on theology nor a manual of philosophy, our only means of discovering his attitude toward the problems of life and destiny is by reading, as it were, between the lines. A great mind can neither sophisticate nor suppress its earnest convictions. This does not mean that anyone with earnest convictions must necessarily be a propagandist.

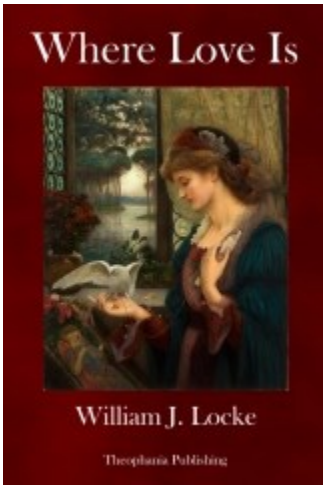
Whatsoever a Man Soweth
By William Le Queux
306 Pages, $20.24 USD, ISBN: 1495227928
William Le Queux, writer and journalist, was a master of the spy genre, whose writing is known to be a significant influence on Ian Fleming's James Bond. His best known novels deliver a reality with military and espionage themes, so much so that the political establishment of his time attempted to silence him. Besides being a novelist and journalist, he was also a diplomat and world traveler, and often drew upon his experiences and adventures to color his narratives. His characters are often influenced by his traveling, his journalism, and his adventures.



When She Came Home From College
By Marian Kent Hurd
298 Pages, $22.25 USD, ISBN: 1979101256
"WELL, this is cheerful!" cried the Infant, as she stepped briskly into the room where the rest of the "Set" were dejectedly assembled. "What if this is the last night of college! What if our diplomas are all concealed in the tops of our top trays! Can't this crowd be original enough to smile a little on our last evening, instead of looking like a country prayer-meeting?" The Infant cast herself upon the cushionless frame of a Morris armchair, and grinned at the forms on the packing-boxes around her. Her eyes roved round the disorderly room, stripped of the pretty portières, cushions, mandolins, and posters, which are as inevitably a part of a college suite as the curriculum is a part of the college itself.



When William Came
By H. H. Munro
222 Pages, $19.24 USD, ISBN: 1517030919
Cicely Yeovil sat in a low swing chair, alternately looking at herself in a mirror and at the other occupant of the room in the flesh. Both prospects gave her undisguised satisfaction. Without being vain she was duly appreciative of good looks, whether in herself or in another, and the reflection that she saw in the mirror, and the young man whom she saw seated at the piano, would have come with credit out of a more severely critical inspection.



Where Love Is
By William J. Locke
530 Pages, $28.25 USD, ISBN: 1979142092
HAVE you dined at Ranelagh lately?" asked Norma Hardacre. "I have never been there in my life," replied Jimmie Padgate. "In fact," he added simply, "I am not quite sure whether I know where it is." "Yours is the happier state. It is one of the dullest spots in a dull world." "Then why on earth do people go there?" The enquiry was so genuine that Miss Hardacre relaxed her expression of handsome boredom and laughed. "Because we are all like the muttons of Panurge," she said. "Where one goes, all go. Why are we here to-night?" "To enjoy ourselves. How could one do otherwise in Mrs. Deering's house?" "You have known her a long time, I believe," remarked Norma, taking the opportunity of directing the conversation to a non-contentious topic.

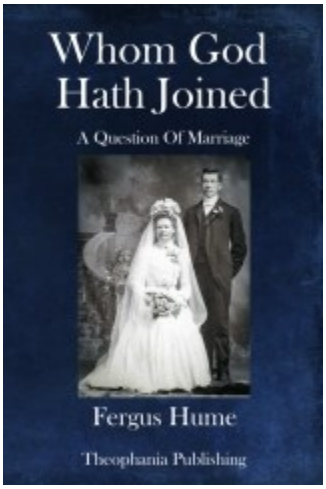
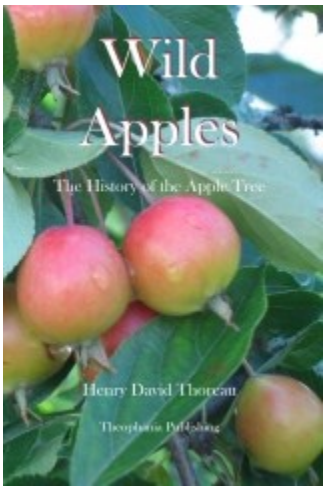
By Arthur Christopher Benson
162 Pages, $17.24 USD, ISBN: 1479146250
There surely may come a time for each of us, if we have lived with any animation or interest, if we have had any constant or even fitful desire to penetrate and grasp the significance of the strange adventure of life, a time, I say, when we may look back a little, not sentimentally or with any hope of making out an impressive case for ourselves, and interrogate the memory as to what have been the most real, vivid, and intense things that have befallen us by the way. We may try to separate the momentous from the trivial, and the important from the unimportant; to discern where and how and when we might have acted differently; to see and to say what has really mattered, what has made a deep mark on our spirit; what has hampered or wounded or maimed us.



Whom God Hath Joined: A Question of Marriage
By Fergus Hume
734 Pages, $35.25 USD, ISBN: 1981858210
It was about mid-day, and the train having emerged from the darkness of the St. Gothard tunnel, was now steaming rapidly on its winding line through the precipitous ravines of the Alps, under the hot glare of an August sun. On either side towered the mountains, their rugged sides of grey chaotic stone showing bare and bleak at intervals amid the dense masses of dark green foliage. Sometimes a red-roofed châlet would appear clinging swallow-like to the steep hill-side--then the sudden flash of a waterfall tumbling in sheets of shattered foam from craggy heights: high above, fantastic peaks swathed in wreaths of pale mist, and now and then the glimpse of a white Alpine summit, milky against the clear blue of the sky.



Wild Apples
By Henry David Thoreau
54 Pages, $16.24 USD, ISBN: 1478230436
The History of the Apple-Tree. It is remarkable how closely the history of the Apple-tree is connected with that of man. The geologist tells us that the order of the Rosaceae, which includes the Apple, also the true Grasses, and the Labiatae or Mints, were introduced only a short time previous to the appearance of man on the globe. It appears that apples made a part of the food of that unknown primitive people whose traces have lately been found at the bottom of the Swiss lakes, supposed to be older than the foundation of Rome, so old that they had no metallic implements. An entire black and shrivelled Crab Apple has been recovered from their stores.

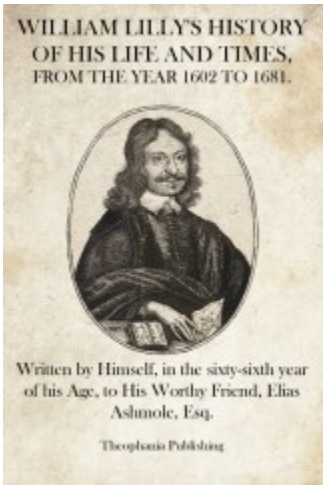
William Dampier

By W. Clark Russell

238 Pages, $20.25 USD, ISBN: 1979304998

IN or about the middle of the seventeenth century the island of San Domingo, or Hispaniola as it was then called, was haunted and overrun by a singular community of savage, surly, fierce, and filthy men. They were chiefly composed of French colonists, whose ranks had from time to time been enlarged by liberal contributions from the slums and alleys of more than one European city and town. These people went dressed in shirts and pantaloons of coarse linen cloth, which they steeped in the blood of the animals they slaughtered. They wore round caps, boots of hogskin drawn over their naked feet, and belts of raw hide, in which they stuck their sabres and knives.



WILLIAM LILLY'S HISTORY

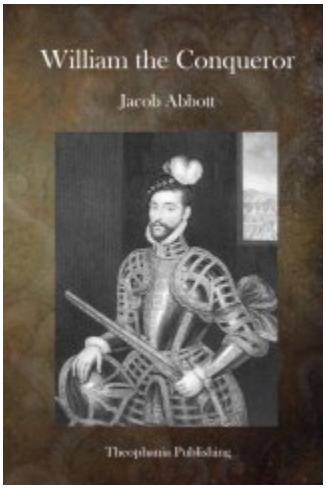
William Lilly's History of His Life and Times: Written By Himself, in the sixty-sixth year of his Age, to His Worthy Friend, Elias Ashmole, Esq.

By William Lilly

132 Pages, $17.24 USD, ISBN: 1469941279

Although we cannot, with justice, compare Elias Ashmole to that excellent Antiquary John Leland, or William Lilly to the learned and indefatigable Thomas Hearne; yet I think we may fairly rank them with such writers as honest Anthony Wood, whose Diary greatly resembles that of his cotemporary, and intimate friend, Elias Ashmole. The History of Lilly's Life and Times is certainly one of the most entertaining narratives in our language. With respect to the science he professed of calculating nativities, casting figures, the prediction of events, and other appendages of astrology, he would fain make us think that he was a very solemn and serious believer.



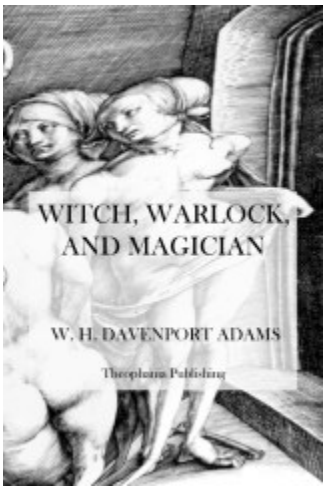
William the Conqueror

By Jacob Abbott

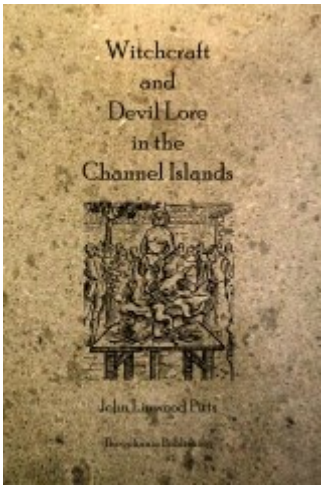
186 Pages, $18.24 USD, ISBN: 149522788X

IN selecting the subjects for the successive volumes of this series, it has been the object of the author to look for the names of those great personages whose histories constitute useful, and not merely entertaining, knowledge. There are certain names which are familiar, as names, to all mankind; and every person who seeks for any degree of mental cultivation, feels desirous of informing himself of the leading outlines of their history, that he may know, in brief, what it was in their characters or their doings which has given them so widely-extended a fame.

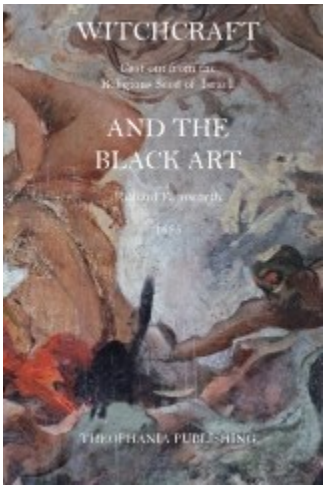
Witch Stories
By E. Lynn Linton
432 Pages, $25.24 USD, ISBN: 1770830731
In offering the following collection of witch stories to the public, I do not profess to have exhausted the subject, or to have made so complete a summary as I might have done, had I been admitted into certain private libraries, which contain, I believe, many concealed riches. But I had no means of introduction to them, and was obliged to be content with such authorities as I found in the British Museum, and the other public libraries to which I had access. I do not think that I have left much untold; but there must be, scattered about England, old MSS. and unique copies of records concerning which I can find only meagre allusions, or the mere names of the victims, without a distinctive fact to mark their special history.



Witch, Warlock, and Magician: Historical Sketches of Magic and Witchcraft in England and Scotland
By W.H. Davenport Adams
462 Pages, $26.24 USD, ISBN: 1475017367
It has not been my purpose, in the present volume, to attempt a general history of magic and alchemy, or a scientific inquiry into their psychological aspects. I have confined myself to a sketch of their progress in England, and to a narrative of the lives of our principal magicians. This occupies the first part. The second is devoted to an historical review of witchcraft in Great Britain, and an examination into the most remarkable Witch-Trials, in which I have endeavoured to bring out their peculiar features, presenting much of the evidence adduced, and in some cases the so-called confessions of the victims, in the original language.



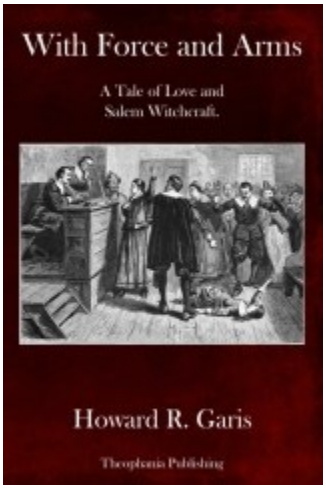
Witchcraft and Devil Lore in the Channel Islands
By John Linwood Pitts
68 Pages, $13.24 USD, ISBN: 1770830235
The Witchcraft superstitions of the Channel Islands, sad as they were in their characteristics and results—as is abundantly evidenced by our judicial records—were but a part and parcel of that vast wave of unreasoning credulity which swept across the civilised world during the Middle Ages, and more or less affected every class of society, and all sorts and conditions of men. From the lists given in the following pages, it will be seen that in about seventy-one years, during the reigns of Elizabeth, James I. and Charles I., no fewer than seventy-eight persons—fifty-eight of them being women, and twenty of them men—were brought to trial for Sorcery in Guernsey alone.



Witchcraft and the Black Art: Cast out from the Religious Seed of Israel.
By Richard Farnworth

52 Pages, $17.24 USD, ISBN: 1517670047

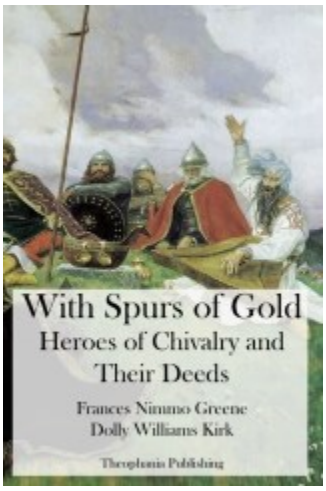
Shewing, the danger thereof, that it may be avoided, by all that fear God, as they will answer it in the Great and Terrible day of the Lord, for he is utterly against those abominations and wicked practises, and those that hold them up, are upholders of the Devil's Kingdome, therefore a warning to you all for going to wizards for Counsell, for you go from God, to the Devill, that go to take Counsell of a wizard.... Also, some things to clear the truth from Reproaches, lies and slanders, and false accusations, occasioned by Daniel Bott and his slander-carriers, which Daniel is a member to the water baptized people, of which accusations cast upon the truth by him and his slander-carriers...



With Force and Arms: A Tale of Love and Salem Witchcraft.
By Howard R. Garis

430 Pages, $26.25 USD, ISBN: 1979100586

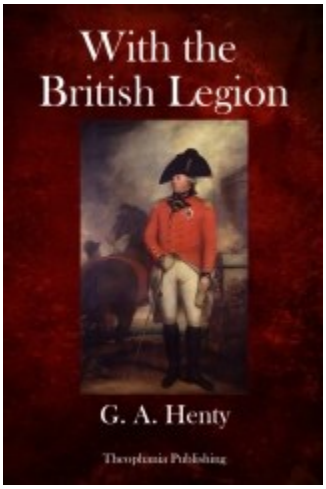
The showman, crying his attractions, lifted up his voice at the flap of his tent. So, at this, the entrance to that which is within, those who stop to read may gain a hint of what is beyond. Only a little, though, to whet your appetite and make you wish for more, it is to be hoped. So, then, this is a tale of love, of witchcraft, and of fighting. A tale of a brave man, and as brave a maid. Herein may be found the doings of witch-finders, Puritans and Indians. Also there is set down the struggle of two men for the love of a woman, and it may be learned who won.



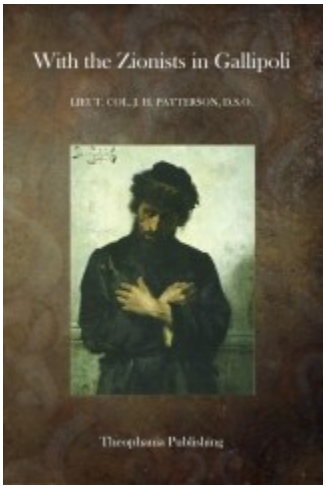
With Spurs of Gold - Heroes of Chivalry and Their DeedsBy Frances Nimmo Greene

202 Pages, $19.24 USD, ISBN: 1475017332

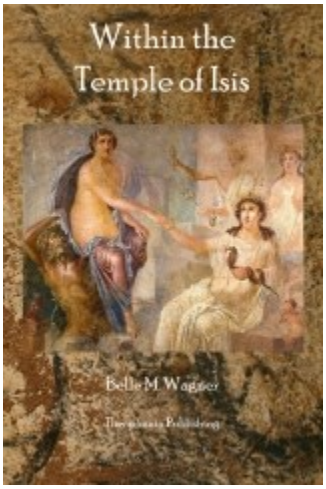
These brief historical sketches were written primarily for young people, though it is hoped that some older readers may find pleasure in renewing their acquaintance with heroes of chivalry whose names are familiar still, but whose deeds are recalled to mind but vaguely. It is the purpose of the book to enliven the study of history by giving the romantic details omitted in text-books, and to enable the readers to form a more vivid and lifelike conception of the great men with whom it deals and the turbulent and picturesque times in which they lived.



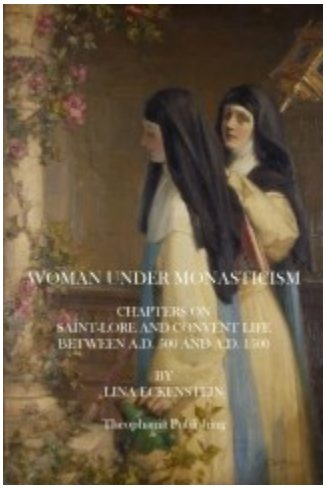
With the British Legion: A Story of the Carlist Wars
By G.A. Henty
622 Pages, $33.25 USD, ISBN: 1979107882
"Well, sir, I shall be glad to know what you intend to do next?" There was no answer to the question, which, after a pause, was repeated in the same cold tone. "Don't know, uncle," came at last from the lips of the boy standing before him. "Nor do I, Arthur. This is the fourth school from which I have been requested to remove you. When I sent you to Shrewsbury I told you that it was your last chance, and now here you are back again. Your case seems hopeless. By the terms of your father's will, which seems to have been written with a prevision of what you were going to turn out, you are not to come into your property until you arrive at the age of twenty-five...



With the Zionists in Gallipoli
By Lieut. Col. J.H. Patterson D.S.O
256 Pages, $20.24 USD, ISBN: 1503023001
The narrative of the Zionists in Gallipoli has been written during the enforced idleness of the past month, a month which has been spent in endeavouring to recover sufficient health and strength to enable me to take a further, and, I trust, a more useful, hand in the Great Drama now approaching its climax. In the following pages I have "set down nought in malice," neither have I given a word of praise where praise is not due—and more than due. My relations with those with whom I came into contact were excellent, and on the very rare occasions when they were otherwise, it was not due to any seeking of mine, but, unfortunately, my temperament is not such that I can suffer fools gladly.



Within The Temple of Isis
By Belle M. Wagner
66 Pages, $15.24 USD, ISBN: 1770830243
"Within the Temple of Isis" God's word was law as interpreted by his Hierophants; their oneness with the fountain of Being made them conscious of Nature's secret operations, and enabled them, as it does the wise ones of to-day, to enter the Temple of Isis and observe the hidden mysteries concealed behind the veil. Purity of motive and sincerity of purpose brought its own reward to them of old as it does to those of to-day who purify themselves before seeking for the knowledge and wisdom hidden within the "Holy of Holies"—"The Temple of Isis." Isis means Mother of all, while Osiris means Father of all. The Temple of Two Truths as matter and spirit must be realized within.

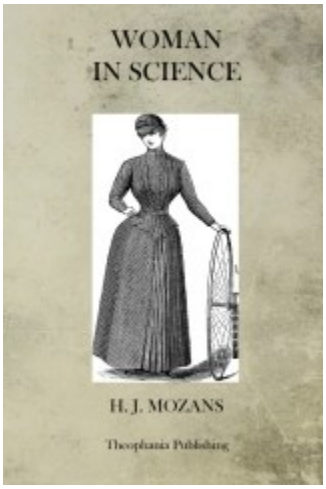


Woman Under Monasticism: Chapters On Saint-Lore And Convent Life Between A.D. 500 And A.D. 1500

By Lina Eckenstein

570 Pages, $30.24 USD, ISBN: 1503022951

The restlessness, peculiar to periods of transition, is a characteristic of the present age. Long-accepted standards are being questioned and hitherto unchallenged rules of conduct submitted to searching criticism. History shows us that our present social system is only a phase in human development, and we turn to a study of the past, confident that a clearer insight into the social standards and habits of life prevalent in past ages will aid us in a better estimation of the relative importance of those factors of change we find around us to-day. Monasticism during the ten centuries between A.D. 500 and A.D. 1500 exhibits phases of vital significance for the mental and moral growth of Western Europe.

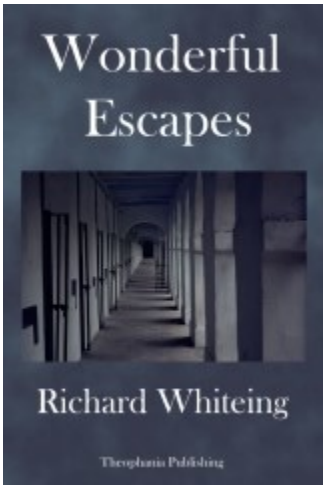


Women in Science

By H.J. Mozans

448 Pages, $22.24 USD, ISBN: 1470080664

The following pages are the outcome of studies begun many years ago in Greece and Italy. While wandering through the famed and picturesque land of the Hellenes, rejoicing in the countless beauties of the islands of the Ionian and Ægean seas or scaling the heights of Helicon and Parnassus, all so redolent of the storied past, I saw on every side tangible evidence of that marvelous race of men and women whose matchless achievements have been the delight and inspiration of the world for nearly three thousand years. But it was especially while contemplating, from the portico of the Parthenon, the magnificent vista which there meets the charmed vision, that I first fully experienced the spell of the favored land of Hellas, so long the home of beauty and of intellect.

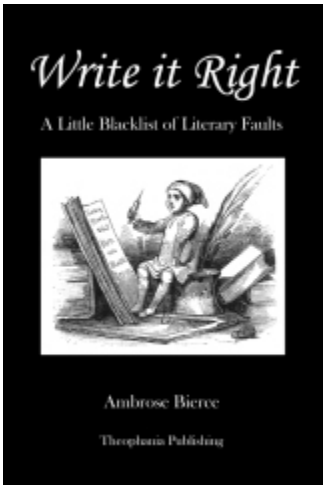


Wonderful Escapes

By Richard Whiteing

492 Pages, $27.25 USD, ISBN: 1978458681

Aristomenes, the Messenian general, fighting at the head of his troops against very superior numbers of the Lacedemonians, commanded by the two kings of Sparta, received a severe blow on the head from a stone, and fell insensible and to all appearance dead. He was taken prisoner, with fifty of his soldiers, and dragged to Sparta, where the Lacedemonians condemned them all to be thrown into the Cœada, a hideous gulf formed by a fissure in the earth, in whose depths already lay the bones of hundreds of criminals who had been put to death. The barbarous sentence was actually carried out; and Aristomenes, with all his surviving soldiers, was hurled into the gulf.

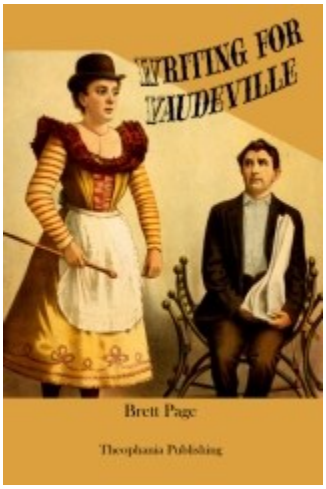


Write it Right

By Ambrose Bierce

66 Pages, $15.24 USD, ISBN: 1478269456

The author's main purpose in this book is to teach precision in writing; and of good writing (which, essentially, is clear thinking made visible) precision is the point of capital concern. It is attained by choice of the word that accurately and adequately expresses what the writer has in mind, and by exclusion of that which either denotes or connotes something else. As Quintilian puts it, the writer should so write that his reader not only may, but must, understand. Few words have more than one literal and serviceable meaning, however many metaphorical, derivative, related, or even unrelated, meanings lexicographers may think it worth while to gather from all sorts and conditions of men, with which to bloat their absurd and misleading dictionaries.

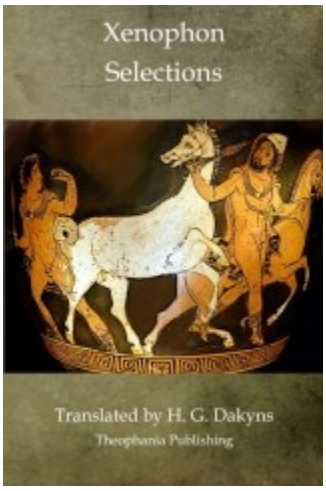


Writing for Vaudeville

By Brett Page

554 Pages, $23.24 USD, ISBN: 147826943X

Can you be taught how to write for vaudeville? If you have the native gift, what experienced writers say about its problems, what they themselves have accomplished, and the means by which it has been wrought, will be of help to you. So much this book offers, and more I would not claim for it.

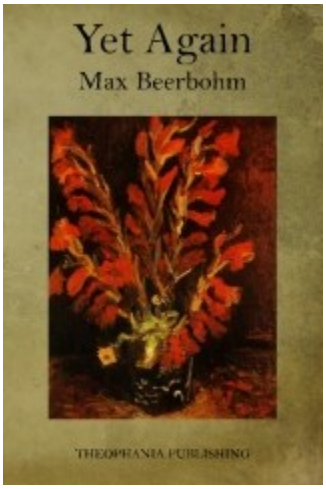


Xenophon Selections

By Xenophon

450 Pages, $26.24 USD, ISBN: 1468025708

The Apology of Socrates Hiero, or The Tyrant On Horsemanship The Cavalry General On Hunting, A Sportsman's Manual Ways and Means, A Pamphlet on Revenues The Polity of the Athenians and the Lacedaemonians Xenophon (c. 430 – 354 BC), son of Gryllus, of the deme Erchia of Athens, also known as Xenophon of Athens, was a Greek historian, soldier, mercenary, philosopher and a contemporary and admirer of Socrates. He is known for his writings on the history of his own times, the 4th century BC, preserving the sayings of Socrates, and descriptions of life in ancient Greece and the Persian Empire.

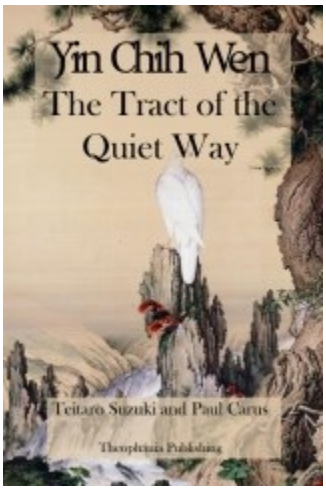


Yet Again

By Max Beerbohm

192 Pages, $18.24 USD, ISBN: 1517030897

If I were 'seeing over' a house, and found in every room an iron cage let into the wall, and were told by the caretaker that these cages were for me to keep lions in, I think I should open my eyes rather wide. Yet nothing seems to me more natural than a fire in the grate. Doubtless, when I began to walk, one of my first excursions was to the fender, that I might gaze more nearly at the live thing roaring and raging behind it; and I dare say I dimly wondered by what blessed dispensation this creature was allowed in a domain so peaceful as my nursery. I do not think I ever needed to be warned against scaling the fender. I knew by instinct that the creature within it was dangerous—fiercer still than the cat which had once strayed into the room and scratched me for my advances.

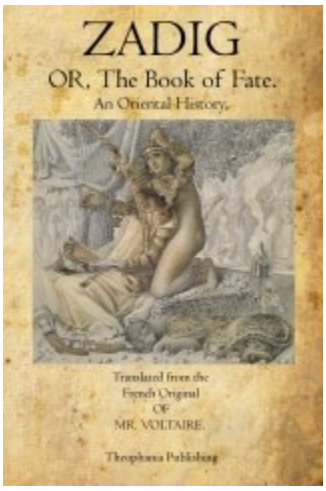


Yin Chih Wen

By Teitaro Suzuki

44 Pages, $16.24 USD, ISBN: 1479146226

THE Yin Chih Wen is a religio-ethical tract, which, in spite of its popularity all over the Middle Kingdom, has not as yet, so far as we know, been translated into any Western language. Next to the Kan-Ying P'ien it is read and studied and taught both in schools and at the home, and there is probably no family in China without it; but its contents are very little known in the. Western world, and we have only once met with references to it by Professor Douglas in his Confucianism and Taouism under the title of "Book of Secret Blessings."

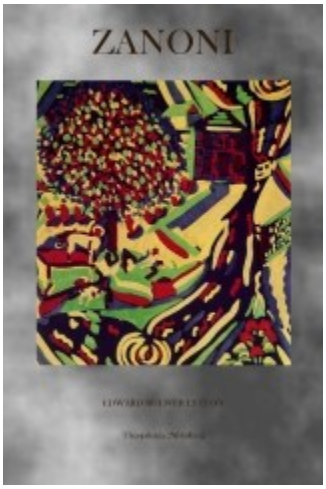


Zadig: Or, The Book of Fate.

By Voltaire

122 Pages, $16.24 USD, ISBN: 1770831568

In the Reign of King Moabdar, there was a young Man, a Native of Babylon, by name Zadig; who was not only endowed by Nature with an uncommon Genius, but born of illustrious Parents, who bestowed on him an Education no ways inferior to his Birth. Tho' rich and young, he knew how to give a Check to his Passions; he was no ways self-conceited; he didn't always act up to the strictest Rules of Reason himself, and knew how to look on the Foibles of others, with an Eye of Indulgence. Every one was surpriz'd to find, that notwithstanding he had such a Fund of Wit, he never insulted; nay, never so much as rallied any of his Companions, for that Tittle Tattle, which was so vague and empty, so noisy and confus'd...

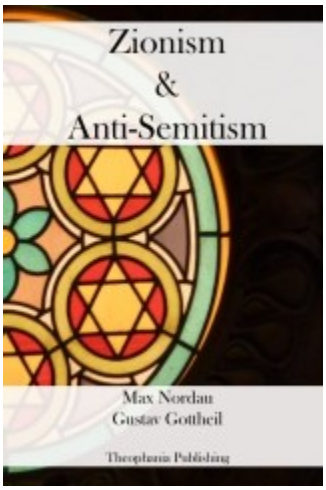


Zanoni

By Edward Bulwer Lytton

362 Pages, $25.24 USD, ISBN: 1770830278

One of the peculiarities of Bulwer was his passion for occult studies. They had a charm for him early in life, and he pursued them with the earnestness which characterised his pursuit of other studies. He became absorbed in wizard lore; he equipped himself with magical implements,-with rods for transmitting influence, and crystal balls in which to discern coming scenes and persons; and communed with spiritualists and mediums. The fruit of these mystic studies is seen in "Zanoni" and "A strange Story," romances which were a labour of love to the author, and into which he threw all the power he possessed,-power re-enforced by multifarious reading and an instinctive appreciation of Oriental thought.



Zionism And Anti-Semitism

By Max Nordau

46 Pages, $16.24 USD, ISBN: 1475006217

Among the persons of the educated classes who follow with any attention all the more important movements of the times, it would now be difficult to find one to whom the word "Zionism" is quite unknown. People are generally aware that it describes an idea and a movement that in the last years has found numerous adherents among the Jews of all countries, but especially among those of the East. Comparatively few, however, both among the Gentiles and the Jews themselves, have a perfectly clear notion of the aims and ways of Zionism; the Gentiles, because they do not care sufficiently for Jewish affairs to take the trouble to inform themselves at first hand as to the particulars...
